VOL XXXIV, NO 169 PETERBOROUGH, ONTARIO, MONDAY, JULY 16, 1906. PRICE TWO CENTS

Accused of Murdering His Sweetheart

Claims They Were Upset in Lake and He Let Her Drown to Save Himself.

Utica, N.Y., July 16.—Chester Gillette of Cortland, N.Y., was arrested at Arrowhead, Eagle Bay, on Fourth Lake, yesterday morning and charged with the murder of Grace Brown of South Oselic on Big Moose Lake on Wednesday afternoon or Thursday morning last. Gillette was brought to Fulton Chain and was at once fully identified as the man who accompanied Miss Brown on her trip upon the lake.

Gillette, who appeared very nervous, admitted that he had been with the girl, but afterwards said he knew nothing whatever about the incident.

The Herkimer County officials say that they have positive proof that he accompanied her To the Adirondacks, went with her upon the lake, and was seen the next morning by guide, in the woods, from whom she enquired the way to Eagle Bay.

Gillette worked in the same factory with Miss Brown in Cortland. He came there about two years ago from Seattle, Wash., and is a nephew of the proprietor of the factory. He has kept company with the girl and she had told her parents that they were to be married. Both Gillette and the girl were esteemed in Cortland, and he was held in especially high regard as a very promising young man.

When she was on her vacation at her home in South Oselic, Gillette wrote her several times and once she went to the village and held a long conversation with him over the telephone. She was heard to accuse him of being false to her, and he had deceived her, and that she should look to him to keep his promise.

Yesterday afternoon, in answer to questions on the part of the officials Gillette says he stayed with the Brown girl in this city Monday night and that they went to the upper lake on Tuesday. Then they came back to Big Moose and went out on the lake, sending her trunk to Oldforge. He declares that when in the boat he arose to get his hat and that the boat tipped over.

He kept as far away from Miss Brown as possible, he says, fearing that she would carry him down with her, and shouted to her to catch hold of the boat. This she failed to do, and after going down several times, she sank and did no come up again to the surface. He does not explain why he did no give the alarm but says his grip and contents were left on the shore at another point, and that they did not get wet when the boat was overturned.

It is explained that he did not attempt to leave the woods because he was out of money. He had written a friend in Cortland to send him $5 at Eagle Bay, and yesterday is understood to have telephoned for funds.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Toronto won one in the Eastern League game on Saturday, by a score of 3—2 against Montreal.

• • • •

FOOTBALL.

Toronto Sunday World of yesterday says,

After defaulting to Little York in the intermediate semi-finals, Peterborough now wants to enter the finals. The match committee decided that as the final games were now arranged between Little York and Preston, Peterborough be not allowed to compete till the fall series.

• • • •

At East Toronto Saturday, Preston beat Little York the first of the home finals in the intermediate series of the Western Football Association by a score of 1—0.

• • • •

Peterborough will likely play the winners

• • • •

LACROSSE.

The Toronfos were defeated at Ottawa on Saturday by a score of 9 to 4.

• • • •

The Shamrocks bent a weakened team out on Saturday to meet Cornwall, and lost by seven goals to six. P. Brennan, Carrie, O'Reilly and Hoobin are all on the sick list, and though the intermediates did well for Shamrocks, they were not in the senior class. This makes the Shamrocks' third defeat, and with it, they have probably lost the championship, as Ottawa and Montreal have only one defeat each.

• • •

Somebody dug the St. Kitt's Athletics, champions of the C.L.A., out of the emergency for an exhibition match with the Tecumsehs at the island in Toronto, on Saturday. The score was 42—2, but the old boys gave evidence that they are a pretty lively lot of dead ones. The game was witnessed by between 2000 and 3000 people, and a pretty fair article of ball was put up in spots.

Travelled Lady Visits Peterborough.

Mrs. Alexander Potter, of New York city, who, with her husband, has been on an extended tour of Mexico California and other states has arrived in the city, and is visiting at St. Andrew's Manse. Mr. Potter, who is a brother of Rev. D. C. Potter, is a noted civil engineer of New York. He was invited to come to Peterborough, having to go to McKeesport, Pa., on important business.

Germans Control Canadian Company.

Brantford, July 16.—It is stated a large German financial house has bought out the controlling interests in the Penman Manufacturing Company, Paris, the largest woollen mills in Ontario. Many local people holding shares in the company are said to have received $450 per share for their stock.

COBALT
—THE—
WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited.

Authorized Capital Stock, $250,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.
JAMES B. TUDHOPE, Esq., M.P.P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.
JOHN FLEAT, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.
DANIEL SIMPSON, Esq., M.E., Managing Director, Cobalt, Ontario.
JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Gircux Lake," nearly the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of hem has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,
Address for next 60 days, Queen's Hotel, Toronto.
Permanent Address: P. O. Box 129, COBALT.

FOR MUNICIPAL COUNCILLORS

Changes in the Municipal Act That Require Some Attention Here.

In Ontario only British subjects may hold any office, municipal or otherwise, which calls for the administration of an oath. This is a new departure, but is considered a move in the right direction. The council also has the power now to pass a bylaw prohibiting the sale of peanuts, fruit, etc., on the streets from push-carts, and also to give a cut rate on the licence fee to a British subject as compared with the fee charged a foreigner. Under the new law the council may take proceedings to wipe out such posts as the tussock moth, and charge the cost as a local improvement. The amendments to the act also provide for the putting down of pavements on streets by a two-thirds vote of the council and without the consent of the property owners.

20,000 Feet of Cable Arrive

On Saturday afternoon the Bell Telephone Co. had a heavy job on hand. Some eight huge reels, shipped from their Montreal headquarters arrived and were stored in the old Charlotte street link.

These reels contained twenty thousand feet of cables running from fifty wires to two hundred wires each. These will at once be strung overhead to accommodate the fast growing and almost congested present line accommodation of the company.

Within this rink are many thousand reminders of the seeming folly of the city council's action in turning down the generous request made by the Bell people to place their wires underground. These reminders are cords upon cords of earthenware conduit pipes, through which, had the city acted in compliance with the company's request, miles of wire would have been run in safety underground instead of rendering our streets unsightly and even dangerous.

Fine New Auto Has Arrived

The fine auto car, which was purchased some time ago from the Auto Car Equipment Company of Buffalo, for the Chemong-Peterborough route has arrived in the city from Buffalo via the G.T.R.

Hundreds of citizens went to the G.T.R. station all day Saturday and admired this ponderous triumph of modern science and machinery. Scores of adventurous people climbed up on the flat car and took a seat in the car. The handsome upholstering, seats and backs are well filled with green leather. The pillows and general scheme of the car are black and wine coloring and the whole car, notwithstanding its ponderous build, looks light. The wheels, whose tires are of solid rubber some two inches thick, are very massive and will doubtless carry the miles when the car goes into service this week.

The car will probably be unloaded this morning, and this operation will involve quite a job.

There will be a special rate from here to Chemong, and also the Trent Valley Navigation Company have arranged a special rate on the lakes. This should attract a big trade to the city that now goes to Lindsay and other places. The company has made special rates for excursions to points on the Kawartha Lakes.

Mr. Olmstead, the secretary of the Auto Car Equipment Company, Buffalo, arrived in the city at noon. He was accompanied by a chauffeur, who will operate the car. The car will be known as the "Palace Auto Car," and will be stored at Mr. Lee's livery.

The regular trips to Chemong will begin tomorrow morning, Mr. Bruce Ling, the local liverynan will take some weeks in practical study and thoroughly post himself on the mechanism and operation of the cars.

Will Black Dike Band Come Here?

There is some talk of trying to arrange to get the celebrated Black Dike Band to come here and thus secure one of two concerts by that noted organization.

The Black Dike Band is a musical organization composed entirely of those playing brass instruments, for there are no reed instruments, and only two drums.

The Black Dike Band is an independent body and composed entirely of colliers from Gloucestershire, England, and is considered the best brass band in the world. They are playing at the Island in Toronto this week, and will doubtless draw tremendous audiences. The Sunday World of yesterday gives a large portrait of this band showing two large shields holding the hundreds of medals the band has won.

Carpenter Drowned From Wharf.

Rousseau, July 16.—Alexander Fraser, for thirty-two years a resident of Rousseau, and a carpenter by trade, was engaged in repairing a wharf, when he missed his footing and, falling into the water, was drowned. He leaves a widow and a family of ten.

Miners' Strike Settled.

Harrisburg, Pa., July 16.—The miners of the central Pennsylvania bituminous coal district, numbering nearly 40,000, who have been idle since April 1, when the mines closed down because the operators would not restore the scale of 1903, will resume work on practically the same scale as 1905.

Another Summer Outing Scheme

Street Car Co. to Run Moonlight Excursions Down the River Otonabee.

The local street railway company with their proverbial enterprise, has made arrangements to run moonlight excursions down the Otonabee river during the summer season. The steamer Water Lily and the large passenger scow has been chartered for this purpose. A modern electric light plant has been installed and a search light of 2,000 candle power is mounted in the front of the steamer; thus every part of the steamer and scow can be beautifully lighted, and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect.

These excursions will doubtless become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee river just below the city. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run very Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the street railway wharf at 8.15, returning about ten o'clock. Tickets, 25c. each, may be purchased at the street railway office or at the wharf.

The company will take precautions that no overloading be allowed.

Bank President's Estate is Small

New York, July 14.—The Tribune says: The net estate of John A. McCall, former president of the New York Life Insurance Company, who died on Feb. 18, amounts to only $40,853, according to the appraisement filed in the Surrogate's office yesterday.

That his estate is so small is due to the fact that not long before his death he sold $400,000 of his life insurance, that is, took the cash surrender value, and sold his fine estate at Long Branch at a great sacrifice. This he did to fulfil his pledge to the trustees of the New York Life Insurance Company that he would personally make good any money of the company which he had paid to Andrew Hamilton, and which he latter was unable to account for.

Following this promise he paid over to the company $235,000. About $60,000 of this represented the money received for his $400,000 of insurance.

The appraisement shows that Mr. McCall left no real estate. The entire personal property amounts to $74,000, from which debts, administration expenses and other disbursements, amounting to $33,165, are deducted, leaving $40,835.

Crazy Woman Causes Trouble

Last night shortly after 9 o'clock the crowd enjoying the evening at Victoria Park, were somewhat disturbed by the actions and screaming of an insane woman.

The woman in question resides in a room overlooking Victoria Park, garbed only in a short undergarment she came out on the balcony, and screamed at the top of her voice, using language more forcible than polite, the crowds in the park at once came up to the scene until dispersed by P.C. Meharry.

Earlier in the evening she and another woman walked up George street arm in arm and attracted a large following by her screams.

The matter will come up in this morning's court.

Fine Potatoes From Monaghan.

Mr. Osway Carver, who resides on the Gravel Road, South Monaghan, on Saturday brought some fine potatoes of his own raising to the city. Considering the time of year, and that eight of them weighed 4 1/2 pounds each, Mr. Carver certainly knows how to raise "mealings." The tubers in question were of the variety known as Early Sawyer, and the seed was planted on the 18th of April.

Premier Whitney's Holiday.

Toronto, July 16.—Premier Whitney left town Saturday on route for New York whence he sails on Tuesday night by the Caronia for England. He will return from Liverpool on September 4 by the Campania. He will be accompanied on the voyage over by Hon. Dr. Pyne.

During the premier's absence, Hon. J. J. Foy, attorney-general, will be acting-premier.

Seven Girls Drowned Together.

Cedar Rapids, Ia., July 16. — Seven girls, ranging in age from 7 to 18 years, were drowned in Cedar River, only three blocks from home, while wading. The smallest child slipped into a deep hole, and in trying to rescue her, six others were drowned. The dead are: Lucille, Hazel, Gladys and Jessie Sweeting, Ruth and Cora Coyle, Clare Usher.

Strikers Hold a Tunnel.

Cody, Wyoming, July 16.—One hundred strikers have taken possession of the government camp at Colbert tunnel on the Shoshone reservation works, eight miles from Cody, and have created a reign of terror. They threaten the lives of 600 other men if they return to work. Sheriff Hamnett, of Cody, with fifty mounted deputies heavily armed this afternoon started for the camp.

A fight is likely to follow as the strikers are armed and are incensed at the officers because the officers drove the strikers out of Cody on July 4.

BRITAIN'S GREAT WEALTH

The Wealth of Great Britain is More Than Enormous.

London, July 16.—Although the population of the United Kingdom is only 47,665,171, it holds the reins of an Empire with a population of 396,549,790. The area of the United Kingdom is barely 120,950 square miles; but the British Empire extends over 11,146,604 square miles, being larger than the Russian Empire, which comes next, by more than 2,000,000 square miles. No empire can produce a wide a range of valuable things, natural and artificial, as the British. Precious minerals and precious stones, ivory, wheat corn, wool, timber, fruit—in fact, every necessity of life and nearly every known luxury—are to be had at first hand within the Empire, and the words "British made" are still recognized all the world over as being the hall mark of excellence on every manufactured product, from suttings to iron churches, and from pennies to locomotives. There is one financial institution which stands out boldly above all others, and is indisputably the strongest in the world. It is the Bank of England.

Japanese Insist On Church Union

Toronto, July 16.—The latest surprise from the land of surprises, Japan, is a notice to the Methodist churches of America that present divisions will not be tolerated, and that differences of policy or creed must yield to the demand for union. The matter has been discussed by the Canadian and United States churches carrying on work in Japan, but differences on certain points have prevented serious progress from being made. The American Methodist Episcopalians wish to retain their bishops, while the Canadians do not favor bishops. Other difficulties of no greater importance exist.

The Methodists of Japan now insist that these shall be smoothed over without delay, and this means that if their wishes are not complied with they will assert their own independence and carry out a Japanese scheme of union. The recent visit of Dr. Carman and Dr. Sutherland to Washington, was to attend a meeting of the committee on Methodist Union in Japan, solely to discuss this momentous question.

Narrowly Escapes Lynching

Strathroy, July 16.—A tramp who attempted a criminal assault on the nine-year-old daughter of Frank Iver and was frightened away was threatened with lynching today before the police sent him to London for safe keeping.

The little girl, Williston Iver, was crossing the bridge, when she was stopped by a man, who produced a bottle from his pocket and forced her to drink part of the contents, telling her if she did not do as told, of if she made any outcry he would kill her.

He carried her beneath the bridge, but fortunately a stonebreaker appeared and the man ran off.

The little girl jumped up and ran to her grandfather's, where she fell exhausted on the lawn.

The alarm was at once given, and Chief Wilson soon arrested the man in Moore's barber shop, where he went to have his appearance disguised. He had a month's growth of beard.

When searched this fiend had a bottle labeled "paregoric," and a bottle of vaseline on him. He admitted his guilt and was sent to London at 1 o'clock.

The little girl's clothes were partly torn and soiled and she was terribly frightened.

The news soon spread around town and there was great excitement for a time, as it was expected he would have a hearing before Police Magistrate Noble before going to London, and a crowd had a rope ready for a lynching.

The Delineator for August.

A wealth of suggestions for the newest Summer gowns is to be found in the August Delineator, which is interesting, not only from the standpoint of fashion, but for its reading as well. Among the fiction of the number is the second instalment of "The Chauffeur and the Chaperon," the delightful motor-boat romance by The Williamsons, authors of many automobile stories; also two entertaining short stories by Carroll Watson Rankin and Marvin Dana. Carolyn Wells contributes the "Rubaiyat of Sumner Khayyam," written in her inimitable style. Clara E. Laughlin tells the story of the life of Rembrandt, whose pictures are held invaluable in the world's best collections of art, and Gustav Kobbe writes of the famous civil war song of the south, "Dixie," and its composer, Dan Emmet, the old minstrel. In the campaign for Safe Foods, Mrs. Abel contributes a chapter on "The Market Inspector and the Buyer," which concludes this series of notable articles. There are numerous articles devoted to the interests of the home;—The Kitchen, House Furnishing, Needlework and Cheesemaking; and the children's pages include a variety of features having for their purpose the entertainment of young folks.

Elopes With Married Man.

Detroit, Mich., July 15.—Mr. and Mrs. Biddy, farmers, of Maidstone Township, Ont., are looking for their 20-year-old daughter, Stella, who eloped on Thursday with George Burling, 35 years of age, who was employed by the Biddys.

Burling already has two wives living, each with children. His home is at Cottam, Essex, Ont. Fifteen years ago he eloped with a Pontiac, Michigan, girl, took her to Cottam, lived with her ten years, then ran away. His wife was glad to have him go, and took no steps to punish him.

Three years ago he loped with a Cottam girl, lived with her in Windsor until lately, when he left her. The Biddys were advised to consult with Crown Attorney Rodd, of Windsor.

G. T. Pacific Needs 20,000 Laborers

In Spite of Shortage, However, Good Progress is Being Made---One Link Not Let.

Montreal, July 15.—There was to have been a meeting yesterday of the Grand Trunk Pacific directorate, but the gathering was postponed. It is learned, however, that construction from Port Arthur to Edmonton, except the link between Winnipeg and Portage la Prairie, is making fairly good progress. As a matter of fact, the only drawback, if drawback it can be called, is in the scarcity of labor. There are so many railway contracts being executed both in Canada and the United States, that the different contractors on the G.T.P. could most likely give employment to several thousand more men than those already engaged.

In spite, however, of this shortage, there are 10,000 men at work in the different sections between Lake Superior and the Saskatchewan River, and perhaps 1500 more on the Drummond and O'Brien contracts east of Quebec.

WILL MAKE GOOD.

One of the directors of the G.T.P. is authority for the statement that over 20,000 men will be at work on the several contracts before Sept. 1, and this appears to be the key of the situation as far as the completion by the fall of 1907 is concerned. Railway men state that 20,000 is a sufficient force to make good. Mr. Morse's promise, supposing this army of laborers can be kept intact till the fall of next year.

Although good progress is really being made on the government section from Winnipeg eastward, it would not be surprising should delay occur between Port Arthur and Red River, as a good deal of heavy work is to be met with, not only from Lake Superior to Superior Junction, but onward toward Winnipeg.

The report comes that the piece of road from the Manitoba capital to Winnipeg River is already covered with men and teams, and as the work is not heavy in the section just named it goes without saying that a good part of this section will be graded before the snow covers the prairies.

INDEPENDENT LINE.

There is one link, however, between the City of Winnipeg and Portage la Prairie, a distance of 61 miles, which has not been put under contract. The distance from Winnipeg to Portage la Prairie by the C.P.R. is 57 miles, and about the same by the Canadian Northern. Consequently the G.T.P. officials have been considering two propositions—one, to parallel their two competitors by building a third line between these two points, while the second is to make a running arrangement with Mackenzie and Mann and come into Winnipeg from the west over the Canadian Northern's tracks. It was stated on Saturday on pretty good authority that the G.T.P. had as good as decided to lay their own rails between these two points, and that their would be an absolutely independent line from the Pacific to the Atlantic seaboard.

NOTT IS NOT RIGHT

Mining Camp Resents the Imputation That Its Morals are Lower Than Are New York's.

Deadwood, S.D., July 13.—This city, renowned in "dime novel literature, as furious that it should be referred to as morally below the level of New York. A public meeting was held which formally denounced Assistant District Attorney Nott, who is quoted as saying concerning the Thaw case:

"It is simply a question whether New York has gone down to the level of the mining camp or whether a man has a chance for his life."

Deadwood, the premier mining camp, takes this as a personal affront. There is no place safer for a woman than Deadwood, or any regular mining camp, citizens say.

"A man has a better chance for his life in a mining camp than in New York," said W. Schlicht, Democratic candidate for Congress.

"What's that you say?" inquired "Deadwood Dick," whose health has not taken plave, as reported. "Deadwood worse than New York? Say! Who be thes man Nutt who said that? I'd like to go down there and cave him a couple of things."

Deadwood has seen some pretty brisk times, but at present it has not a prisoner in jail—the first time in its history—and naturally feels keenly the slight put upon it by Nott.

20,000 Men Wanted For Big Harvest

Immense Army Required in the New Provinces.

Wearing a hat that might be called a sombrero, clean shaven and sunburnt, Mr. J. Fred Stevens, a typical son of the toil, poured forth his praises of Western Canada last evening.

"I have lived in Winnipeg for many years," said he, "where I gathered together enough of the long—green to keep comfortable, but wanted to go out into the new lands of Alberta, and build up a new home there.

"Just eighteen months ago I settled in Strither, Alberta, where the farms were few and far between at that time, but today it is hardly conceivable to think that such progress could have been made in such a short space of time.

"Residences are not obtainable there, and large numbers of white tents and prairie schooners dot the landscape of the district. New settlers, with their families and stock, their farm implements and machinery, and their furniture are scattered all over the place.

"Notwithstanding this great influx of people, the West will require about twenty thousand laborers to attend to the vast harvest of the coming year. These we expect to secure from the Eastern provinces. The labor famine across the border is beginning to be reflected on our side of the land, and, as I said before, thousands of men are needed to meet the industrial demands of Western Canada."

Richest Mines In the World

Recent Discoveries in Lake St. John District Reveal Untold Wealth.

Quebec, July 16.—Mr. Peter McKenzie, of Montreal, the original discoverer of the valuable mineral deposits in the Chibougamoo district, near Lake St. John, has arrived from Chibougamoo, and in his own words is as happy as a big sunflower.

He speaks in glowing terms of the Chibougamoo mining prospects, and says the wealth was unbounded and inconceivable. He does not think any other part of the world up to the present worked would come up to the riches to be developed there.

Mr. McKenzie said prospectors from every part of the world were flocking up north, and on his way from the district he met twelve prospecting parties going to the mines. His company recently sank a shaft down thirty-two feet and found gold quartz with a value of $21 to the ton; then two forty-foot veins were traced two thousand feet without coming to an end, and emerged into eighty-foot veins rich in contact. He also discovered several other five-foot veins on his last trip containing pyrites with two to five per cent. silver and nickel running through them.

British Fleet Calls Off Intended Visit

St. Petersburg, July 15.—The Liberals are jubilant at the postponement of the visit of the British channel fleet to Russian waters, which they regard as being upon recognition of the fact that public sentiment in both countries is hostile to such an official exchange of courtesies while the people and government of Russia are at war.

The official announcement does not reveal the real motive, for the postponement, which is believed to be the admiralty's sense of humiliation at the sorry spectacle the remnants of Russia's navy would cut in the presence of the powerful British fleet, and the fear that its arrival at Cronstadt, would mark another mutinous outbreak on the part of the sailors and garrison of that fortress.

London, July 15.—"Well out of possible incidents" seems to sum up the general trend of British feeling on the postponement of the visit of the British channel fleet to Russian waters.

It was realized on all side that a misinterpretation had been placed on the visit by certain factions in Russia, which might have led to offensive happenings of a nature to harm future Anglo-Russian relations.

Army Meat Supply Home Killed.

London, July 14.—Speaking in the House of Commons, War Secretary Haldane said he had changed the army meat contract to read "home killed," instead of "home fed," as found they had been getting meat from Canada, the Argentine Republic and Australia, killed in Liverpool and labelled "home fed."

Shah Doesn't Know.

Tehran, Persia, July 15.—A sharp street fight occurred here yesterday between the troops and a process on of student malcontents, in which 12 of the students and two soldiers were killed.

The activity of the authorities has tended somewhat to restore public confidence.

The opinion prevails that the true state of affairs is hidden from the Shah.

CAN YOU RESIST DISEASE GERMS?

Yes, and becomes "Germ-proof" by Driving Out Blood Humors and Restoring the System.

Why are doctors and hospitals so busy in spring-time? Easily answered. People haven't made surplus vigor in the spring; it was all used up in fighting off colds through the winter. With thin blood and low vitality, the germs of disease become active and cause fevers and debility.

Your one protection is to get the abundant vigor that Ferrozone so quickly supplies; it gives spring sickness that "tired feeling," restores nerve energy and instills vim and force into every ailing organ of the body.

No other restorative is known than Ferrozone; its influence is not temporary but lasting, laying a sound foundation of health that lasts till old age.

Mr. Nazaire Begin, of Watton, P.Q., Que., who received enormous benefit from Ferrozone, writes: "I cannot speak too highly in praise of Ferrozone. If any one had told me that any remedy could build up my nervous system so well, I wouldn't have believed it.

"Before using Ferrozone I was run down in nerve and vital energy, and in very weak health.

"I didn't get enough sleep at night and felt poorly in the day time.

"Ferrozone has filled me up with energy and vim, increased my weight and made a new man of me."

Your health through the summer depends on clearing away all traces of spring sickness; the remedy is Ferrozone. Sold by all dealers, 50c. per box, or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

PETERBORO, JULY 13 1906

FOOTWEAR FOR THE CAPITAL

Europe is being conquered by the American shoe. It is winning over the home-made article in England, Belgium and Germany. This seems peculiar when it is known that in England there are 200,000 workmen employed in the shoe factories while in the United States there are only 150,000. The cause is not so far to seek. It is American machinery.

In 1855 100 pairs of hand-made shoes required, in the United States, 2,226 hours of labor, and the cost averaged about $5.50 a pair. Ten years later the same number of shoes, of the same quality, were made by machinery in 206 hours of labor at an average cost of 75 cents per pair. This shows why the United States can sell shoes in Europe cheaper than they can be made there.

The development of the shoe industry by means of machinery has been great and rapid. In 1900 more than 210,000,000 pairs of shoes were produced in the United States. Their value was $251,265,000. Four years later the output had increased to 230,000,000 pairs and the value to $313,625,000. The twenty-five leading shoe factories of the country alone can make 200,000 pairs of shoes a day.

Practically there is no limit to the production of the American shoe. It is bound to win its way wherever it is introduced, until it meets with other machine-made shoes, equally good and cheap, in competition.

In Canada there is also wonderful progress being made in the manufacture of boots and shoes, although we are away far behind our neighbors in respect to modern machinery. It is estimated that fully 50 per cent. of our shoes are made in the United States, notwithstanding the duty of 25 per cent. Here is a great field for exploitation.

AMERICAN WAR ON CAPITAL

"The movement against irresponsible, uncontrolled capitalism is not new in the United States," says the London Times. "It was the real mainspring of the popular sentiment for Mr. Bryan and the Democrats in 1896; the necessity for combating it consequently, at that time threw the whole power and wealth on the side of the Republicans. But Mr. Roosevelt, Republican president though he be, has long ago passed beyond Mr. Bryan. On occasion after occasion, he has freely expressed his conviction that the public must exercise more effective control over the great financial corporations. He has directly attacked the Standard Oil Company. He has forced upon an unwilling Senate a railway rate bill which, if not providing an absolute power over the railways as he himself demanded, yet provides far more than the Senate wished to concede. At one time, indeed, it looked as if the bill might be carried only by the help of the Democrats against the majority of the Republican Senators. For the moment party discipline has prevailed. But the conflict of views and interests is bound to reassert itself alike in the Senate and in the Republican party machine, in both of which the capitalist forces have hitherto been predominant. Whether all Mr. Roosevelt's driving power and all his popularity with the American people at large will enable him to carry his party with him in the future yet remains to be seen."

The English Railway Times has been studying the disaster at Salisbury. It says that the train could not safely have run upon the curve at a higher speed than thirty miles an hour—which is the speed prescribed by the regulations—and continues: "The engine used had the center of gravity higher than that of the old type. It was evident that such an engine would overturn in passing the curve, even at a speed of forty miles. Inasmuch as the speed was much higher, the disaster was scientifically inevitable."

To Reduce British Regulars by 20,000

London, July 11.—The Government's long-looked-for statement on army reform was made in the House of Commons yesterday. Mr. Richard Burdon Haldane, secretary for war, announced that it was proposed to reduce the army by 20,000 regulars. He said that the proposal was "to make a large reduction of men and cost, and yet leave the army as a fighting organization, improved and strengthened. There would be no reduction in the cavalry.

It was proposed, Mr. Haldane continued, to have an expeditionary force of 150,000 men mobilized in the event of war and capable of expansion or reduction, so that if other nations should reduce their forces Great Britain could do the same, without impairing the efficiency of the army. It was proposed to withdraw two battalions from Malta, one from Gibraltar, and one from Ceylon.

Mr. Haldane's plan contemplates the reduction of the forces by seven battalions of infantry abroad and three battalions at home, including two battalions of guards. He proposes to arrange for the mobilization of 63 batteries of artillery, as a proper complement of the expeditionary force, out of a total home establishment of 99 batteries, leaving 36 batteries for training purposes. He pointed out that the proposed expeditionary force will be 5,000 men stronger than any expeditionary army Great Britain has hitherto attempted to organize for foreign service, and will only be possible of attainment if the reorganized militia engage for foreign service in time of war. For home defence, Mr. Haldane added, the country must look chiefly to the yeomanry and volunteers.

Under the new scheme the terms of enlistment would be for the infantry and cavalry, seven years with the colors, and five with the reserve; for the field artillery, six years with the colors and five with the reserve; for the garrison artillery, eight years with the colors and four with the reserve.

There would be no reductions in India under the proposed new arrangements. Fifty-two battalions will be maintained there, as at present, but the colonies hereafter will have 25, instead of 32 battalions, and Great Britain 49, instead of the present 72.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 2, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.56 and 7.16 a.m., 7.15 and 8.45 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

French War Vessels to Visit Quebec.

Quebec, July 11.—Quebec is likely to be visited by two French war vessels, the cruisers Desaix and Jurien de La Graviere, at present in New York harbor. The Desaix is in command of Admiral don De Lapeyrer and the Jurien de La Graviere under Commandant Soumen, and the vessels were sent to American waters as a result of the diplomatic rupture between France and Venezuela. Each vessel has a crew of 550 men and the Desaix is said to have a speed of 21 knots per hour. She is of 7,675 tons. The other vessel is a second class cruiser.

The Signs of Heart Trouble

You can Surely Secure Heart Health and Strength through Dr. Shoop's Restorative.

Heart weakness which can be dealt with at all is nerve weakness. Just as your hand trembles when its nerves are weak, when your heart nerves are weak your heart flutters and palpitates. Other signs are shortness of breath after slight exercise, fainting spells; pain or tenderness about the heart caused by irregular heart action; choking sensation as if the heart was in the throat; uneasy sensation in the chest, showing that the heart isn't working right; pain when you lie on one side usually the left side, but frequently the right, painful and difficult breathing; smothered feeling. There is absolutely only one way to treat a weak heart. That is to bring back natural and permanent strength to the nerves. Can you imagine how any thing else can be done? Dr. Shoop's Restorative will bring back the strength to the heart nerves always. There is nothing in this remedy to stimulate, nothing that leads to reaction. The strength that it gives is natural and permanent. It is just the same strength as Nature gives to those who are well. Dr. Shoop's Restorative creates strength which extends over the whole nerve system—it overcomes the cause of the trouble as well as the result. For sale and recommended by

J. D. TULLY.

For Weak Hearts

Hungry Hair

Perhaps your mother has thin hair! But that is no reason why you must go through life with half-starved hair. If you want long, thick, heavy hair, you must feed it. Feed it with a regular hair-food—Ayer's Hair Vigor. Well-fed hair stops falling out, keeps soft and smooth, and grows long and heavy. Feed your starving hair with Ayer's Hair Vigor!

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15.0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Thursday, August 16, 1906, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 miners which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

spades had inclosed it within the second parallel, a result which carried consternation to Yorktown, where later in the evening, in Cornwallis' headquarters—now Governor Nelson's mansion, since the American gunners had tumbled his first selection about his ears—a group of aids were assembled discussing the situation.

With them sat Colonel Lord Chetwynde, lately arrived with messages from Sir Henry Clinton at New York.

The conversation was interrupted by the entrance of Jarrat, followed by two Hessians bearing a stretcher. He addressed himself to Lord Chetwynde.

"Will your lordship pardon me if I ask a view of this man?" He pointed to the unconscious form upon the sagging canvas.

"I am no surgeon," said his lordship languidly.

"He needs no treatment," Jarrat answered. "'Tis but a chance tumble on the head. He is a prisoner taken tonight."

"What the deuce Yorktown wants of prisoners I can't see!" drawled the oth-

"Surrender!" cried Armand.

er. "Colonel Dundas is in charge of the barrack, I believe. Why bring him to me?"

"For your identification. Colonel Dundas wishes certain verification. This man escaped while under your sentence, from the Duchess of Gordon in '76."

The other bent his eyes upon the white face on the stretcher, then looked at Jarrat.

"Your lordship recognizes him?"

"Yes," said Lord Chetwynde slowly.

Next morning a dispatch started from Cornwallis to Clinton:

Last evening the enemy carried my advanced redoubt on the left. The situation of the place is, therefore, so precarious that I cannot recommend that the fleet and army should run any great risk in endeavoring to save us.

And so at 10 o'clock on the morning of Oct. 17, in the thunder of the guns, a red coated drummer appeared on the left parapet of the invested town. He stood silhouetted against the dun smoke clouds, beating a message that was lost in the roar.

But with the sight the cannonading fell silent. The smoke lifted, the musketry barked no more. And then the sound came clear, as sweet as cool rain in a fiery desert. He was beating the long "parley."

When the distant groanings died away, in the air Williamsburg came out of doors to listen and wonder and rejoice. There in the afternoon Anne met Henry riding into Duke of Gloucester street with a deeper pain than she had ever seen in his dark face.

"What is it? What is it?" she cried. "Ah, he was only reported missing—missing! You are not going to tell me he is dead?"

Then he told her as gently as he could. One of Cornwallis' messengers had brought out the report that one Louis Armand, captured two days before, was under condemnation in Yorktown to die that night at sunset.

She heard him with wide, terror struck eyes.

"To die!" she cried. "He was captured then. Let them believe what they may, he is a Continental officer—a prisoner of war! They cannot kill him. Why, they are negotiating now for surrender! I shall go to General Washington. He will not let them!"

He shook his head very gravely.

"Anne," he said, "my poor, dear child! The general officers of the American line know. They would not interfere. Jarrat's devilry has won at last. He sent a letter out of Yorktown three days ago to General Hazen, denouncing Colonel Armand."

CHAPTER XIX.

IN little time Anne was mounted and on her way to the field of Yorktown, where the allied armies lay awaiting the outcome of that flag of truce.

Joy reigned over all the wide camps, but there was none in her heart. She was conscious only of a dreadful, numbing ache and a desperate necessity to see him once more—to tell him. She had no further plan. The note she carried from Henry brought her without delay to the officer of the day, and the personal request it contained was not to be denied.

The sun was low when she passed the inner works and entered Yorktown between battered walls and gouged earth mounds which testified to the fierceness of the fire raised upon the British by Ferguson's and Machin's batteries. All about her were honeycombed streets cluttered with rich furniture, empty knapsacks, books, fragments of shells, iron caltrops, carcasses of men and horses, and horrors beyond description.

But she scarcely saw them. He was to die this night—this night—and the time was so pitifully short. The years he had fought must count for naught—all vanished before the weight of that one long passed Philadelphia afternoon. What should have been his hour of triumph had become his hour of shame. And it was by her act!

The thought made her shudder as if with an ague. It seemed to her that God must have been blotted from the heavens—that there was no hope, no good, nothing but a colossal fate wheel which was rolling to crush Armand and her.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, and well as one of the main veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished, correspondence invited.

EL PASO PARRAL MINING COMPANY,
Commonwealth Trust Bldg, St Louis, Mo

A Rare Chance
TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

100% ADVANCE JUNE 1

Present Price of Stock FIVE Cents per Share

If you want to get in on the ground floor before the price advances to 10 Cents per share, NOW IS YOUR CHANCE

When The Gold Leaf Mining, Milling & Drainage Company was organized the officers of the company foresaw the certainty, of a big mining boom in Clear Creek County, Colorado, U.S.A., and they congratulated themselves on securing a property which showed 1,500 feet of development work, and could be classed with the MINES of the region.

The steady increase in the mineral production of the county, new strikes, the development of old mines at depth (proving the continuity of the ore bodies and the increased richness of the ores), the availability of mining supplies, the abundance of water the great amount of timber for mining and fuel, the adaptability of the topography for deep tunnel mining, and the large number of milling and smelting plants, means that the district possesses all the elements of successful and economical mining

It was a foregone conclusion that investors would awake to a realization of the conditions, and inaugurate a new boom in 1906. It is but natural that they should desire to place their money in a locality that shows more PROVEN MINES than prospects, and where the chances for speedy returns are greater than the chances of loss. Because of economic conditions money will go farther in development work and bring RESULTS quicker. Many new companies have recently been organized, foremost among them being The Gold Leaf Mining, Milling & Drainage Co. Stock in all Clear Creek County companies is finding a ready market among both Eastern and Western investors, and in consequence The Gold Leaf Mining, Milling & Drainage Co forestalled the boom by securing one of the best mining propositions in the locality, consisting of 16 mining claims, situated on Standard Mountain, in the Ohio and Jackson Mining District, two and one-half miles south of Idaho Springs. The Gold Leaf properties are credited with a past production of $75,000, and the tunnel is being steadily driven toward the rich ore bodies from whence former shipments were made. The old workings are now drowned with water which the tunnel will drain and also give unlimited stoping ground for the ores. Surrounding mines have produced over $11,500,000 Now is the time to purchase stock. When we re-open our ore the opportunity will be lost to investors.

Don't overlook this exceptional opportunity! Think of the acreage; Think of the development work done; Think of the past ore production; Think of the future possibilities; Think of investing—THEN ACT AT ONCE!

Sufficient stock subscriptions have already been received to carry our Frontier Tunnel a distance of 600 feet, or to the Standard Vein, from which point ore shipments will be resumed. Future stock subscriptions will be applied on the purchase of a power plant or on contracts to facilitate the work of driving the tunnel.

Our General Manager estimates that the completion of the tunnel will place at our disposal OVER FOUR MILES OF ORE, aggregating 96,000,000 tons.

On the Ground Ahead of the Boom

$5.00 DOWN
AND
$5.00 PER MONTH
FOR FOUR MONTHS WILL BUY
500 Shares
OF STOCK WHICH MAY SOON BE WORTH
$500.00

This opportunity to buy stock will not last always. Price will promptly advance May 1st, and shortly thereafter be withdrawn from the market.

Look For Blood Humors

They Crop Out Constantly, Showing the System Needs Purifying.

You're not satisfied with your looks. How can you be with such disfiguring pimples, such rough uneven skin?

Blood is full of humors and it's no wonder you look and feel poorly.

You are languid,
Appetite is miserable,
Sleep is hard to get,
Snap and vim are lacking.

High time to improve matters—but what's the proper remedy?

Experience proves that Dr. Hamilton's give instant effect. They tone the entire system, fortify the blood and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable extracts such as Mandrake and Butternut, and can be taken by young or old with absolute safety.

"I learnt something very valuable after using Dr. Hamilton's Pills," writes Miss Effie Thomson, of Meriden. "I used to have ugly pimples that much embarrassed me. The tonic and purifying effect of Dr. Hamilton's Pills completely restored me. My health is splendid and my complexion a great credit to this marvelous medicine."

Let your medicine be Dr. Hamilton's Pills. They do cure so thoroughly. Sold by all dealers. 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

For Rent.

A comfortable, six roomed, frame cottage, in nice locality. Hard and soft water, also a good garden. For particulars in reference to same, apply at 189 Antrim street, City.

Mouth Organs.

We have an organ for every mouth, all sizes, "Imperial and Ideal," Harmonicas. Excellent value. Come and try them. J. M. GREEN MUSIC CO., Opera House Building.

Girl Wanted.

To assist in dining room and do general work. Apply to Jas. Head, the Peterborough House, 189 Hunter street.

Lost.

One pair of gold spectacles and small pocket book, with commercial traveller's certificate inside. Please return to T. Briscault, Mrs. Bowman's Hotel. Reward will be given.

New Heating for G. T. R. Station.

A new heating system is being put in at the local G.T.R. depot. This work involved considerable excavation work beneath the building. Mr. W. Rusk, the G.T.R. foreman, is in charge of the work, and is doing a good job.

Port Hope Beats Peterborough.

On Saturday Peterborough base ball team met its Waterloo at Port Hope, where the Lakeside bunch got away with the scalps of our locals. The game stood 8—0 in favor of Port Hope.

Mitchell & McGrath Finish Work.

Messrs. Mitchell & McGrath, the local contractors, will this week complete a fine brick veneered house, 23 by 41 feet in size on Concession street, east ward. This house is a well constructed, fine appearing house, and reflects great credit upon this local firm.

Boys Bathing at the Bridge.

This is the time of year that mother says, "Now, Tommy, don't you go near that river and get drowned." Tommy looks disgusted and at six o'clock explains sawdust in his wet tousled head, and missing buttons, by saying, "No maw, I did that play ing tag with the fellows," and "aw" remembering his own youth, discretely neglects to hear their talk. Yesterday a lot of little gaffers were swimming right under the Hunter street bridge. They would modestly retire under the planking to undress and in their anxiety to save one half second, haul their diminutive bathing trunks on in full view of passersby as, they clambered to the water. Peterborough should certainly have some bathing place for her growing boys. Here is a chance for one of our local philanthropists to immortalize his name, and earn the thanks of coming generations of boys.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students would make application as soon as possible. Call at the College or address

W. H. PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The traffic on the northern lakes is growing steadily.

—There was no session of the police court on Saturday.

—Children's two and three piece garden tools on sale at 10c. and 25c. Times Bookstore.

—There will be a large excursion here on Friday under auspices of sons of England of Toronto.

—Hundreds of logs are being taken down the Otonabee every day now for the different lumbering firms.

—The drawing for a ten dollar gold piece, offered in connection with the B.C. picnic at Bobcaygeon, went to Miss O'Leary, Douro.

—Mr. A. E. Bowman and Mrs. Murphy have had fine new awnings put up by J. J. Turner & Sons, Peterborough.—Bobcaygeon Independent.

—Colr.-Sergt. Wightman wishes the members of No. 1 section, of D. company, to meet him on the drill hall on Tuesday evening, July 17th, at 8 o'clock, to talk over a matter of interest to the members.

—Children's two and three piece garden tools on sale at 10c. and 25c. Times Bookstore.

—R. H. Walks, B.A., of the Lindsay Collegiate Institute, and formerly of the Collegiate staff of that town has been honored with the appointment of Senior English Master in one of the Toronto Collegiate Institutes.

—On Saturday Mr. Nicola Bongetti, the Charlotte street labor contractor, received a telegram asking him to furnish from 30 to 50 Italian laborers for Ignace, B.C. wages $1.75 per day, with steady work all season.

—Progress is being made with the pole line, and the power house will be tackled in the course of a few days. Electric lighting is now within measurable distance. The generator is to be delivered by Sept. 15th and may possibly arrive earlier than that.—Bobcaygeon Independent.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Mr. Norton McBrine is Ill.

Mr. Norton McBrine, the Bell Telephone Co. trouble inspector, we regret to say is ill, and will take a few weeks' holidays' recuperating. Mr. McBrine leaves today for Bethany where he will be the guest of his sister, Mrs. Alex. Wilson. Mr. McBrine has been under treatment of Dr. Geo. Breen of Bethany, and will continue his treatment during his absence.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company has made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger scow which goes with her, has been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats in the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets 75c. each, may be purchased at the Street Railway Office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

Men Off For the Lumber Camps

Lumbering parties are already on their way to the woods in the north country. A party of twenty-five men has left here to work at Huntsville for the Rathbun Company, of Deseronto. This is the first party to go north, but the local companies are now hiring men and will send them to the woods this week.

SOCIAL AND PERSONAL

—Mr. A. P. McLean spent Sunday at Stony Lake.

—Miss Teresa Masterson, of Burnley, is visiting in the city.

—Mr. E. J. Laing of Norwood, was in the city on Saturday.

—Mr. Lew Jackson of the Wm. Hamilton, Mfg. Co., spent Sunday in Toronto.

—Mr. Samuel McKee, London, Ont., is visiting his sister, Mrs. H. Bradburn, 771 Water street.

—Mr. Isaac Dermer leaves today for Sault Ste. Marie, to work for the Algoma Commercial Co.

—Mrs. McClelland and the Misses Waddell, of Houston, Texas, are the guests of Mr. and Mrs. Hugh Waddell.

—Mrs. George J. Chalmers, 512 Water street, is on an extended visit to her sister, Mrs. Charles Wade, Sarnia, Ont.

—Mrs. H. O. Fisk and son, Vernon, and Mrs. F. S. Schneider have gone to spend the heated term at Stony Lake.

—Mr. R. J. Lang, of the St. Catharines branch of the Sovereign Bank, arrived home on Saturday to spend a couple of weeks here.

—Mrs. Adam Davidson, who is noted in The Times of last Wednesday, had a fainting spell is, we are pleased to say, getting better.

—Mr. K. Eardley-Wilmot, manager of the Bank of Montreal, in Peterborough, was in town this morning.—Belleville Intelligencer.

—Mrs. W. R. Douglas and daughter, Miss May, of Toronto, are the guests of her mother, Mrs. G. Campbell, 252 Charlotte street.

—Mr. C. Fessenden, Principal of the Collegiate Institute, has gone to the Bay of Quinte District for a holiday. He will spend some weeks in camp near Glenora.

—Mr. W. H. Ivory, C.P.R. train despatcher, of Toronto, formerly of Peterborough, accompanied by Mrs. Ivory, and family, is spending a few days in the city. They are the guests of Mrs. Ivory's mother, Mrs. Metcalfe, Rubidge street, and will leave this week to spend two weeks camping at Pigeon Lake.

—Lindsay Post: Mr. and Mrs. R. J. Elliott, Mr. and Mrs. Seth Adam and family, also Miss Irene Edwards, all of Peterborough, spent yesterday in town, the guests of Mrs. J. Hooper, east ward.—Mr. Frank Munden, of Peterborough, was in town yesterday.—Messrs. J. Muley, P. Shaw, E. H. Clegg, and J. A. Tully of Peterborough, were in town yesterday.

Peterborough Gets Normal School

Good Work Done By Mr. T. E. Bradburn Our Local Member.

Much favorable comment was heard throughout the city on Saturday afternoon when it was learned that Peterborough has been fortunate enough to secure one of the four new normal schools to be erected by the Ontario Government.

The city owes a debt of gratude for this splendid addition to our local public buildings, as well as the prestige conferred on the city to the members of our city council, school board and board of trade, as well to those private citizens who interviewed the Government, and especially to our local member Mr. T. E. Bradburn, for the result of their intelligent and well directed energies in this matter.

The first official intimation of this grant was made on Friday night, when Premier Whitney handed the following statement to the newspapermen: "At the meeting of the Cabinet it was decided that the four normal schools for which provision was made at the last session of the legislature should be located as follows; At Peterborough, Hamilton, Stratford and North Bay, conditional in each case upon a proper site being furnished by the municipality. This carries out the intention of the Government and of the Legislature with reference to this subject; It is understood, however, that as soon as the finances of the Province will permit the Government hope to be able to create additional normal schools."

All the places named will furnish free sites for the schools. The schools at the four places named will, it is said, cost $50,000 each. Work will be commenced almost at once, and plans having been prepared by Mr. F. H. Heakes provincial architect, and will be carried out as rapidly as possible. Details as to the selection of teaching staffs will be arranged at a later period, but in ample time. As previously stated in the press, the schools will be about the size of the Parkdale Collegiate Institute, will be modern in all respects and have accommodation for about 150 pupils.

The Lift Lock Well Spoken of

The Montreal Standard gives a very complimentary and well illustrated account of Peterborough's pride, the lift lock. This paper says:

"Peterborough, Ont., has the honor of possessing the greatest lift lock in the world. It was built a few years ago, and forms a link in the Trent Valley Canal project — a waterway which, when completed, will greatly shorten the passage between the Upper Great Lakes and Lake Ontario. At present all cargoes billed from Lake Superior points to Toronto and Montreal have to be carried thither by way of Lake Huron, the river, St. Clair, Lake St. Clair, river Detroit, Lake Erie, the Welland Canal, and Lake Ontario. This is rather a round-about passage and its completion occupies several days.

The Trent water route will greatly shorten the distance, inasmuch as it will extend from Georgian Bay to the town of Trenton. The lift lock at Peterborough is one of many locks on the series of artificial channels associated with this route, but it is the only lock of its kind. In this respect it is unique.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the *cause* of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects *in any condition of the system.*

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Moving Pictures at Jackson Park

There was a large attendance at Jackson Park Saturday Night of thousands seeking a change from the heated walls of their houses to the cool, pine odorous ozone of this beautiful spot. The merry go round was well and constantly patronized. The street car company whilst doing all in their power to make things pleasant for their customers, might well take a consensus of opinion regarding at least one of the moving picture scenes presented. This particular view depicts a tramp finding a pocket book filled with money. The hobo at once proceeds to array himself in new and fashionable raiment. He then enters a restaurant and forthwith proceeds to get not furiously but disgusting drunk. He is taken, whilst drunk to some resort where women, proceed to encourage his drinking until he falls senseless from drink. The women then go through his clothes and rob him of every thing. This scene is one of most startling suggestiveness, and is absolutely unfit to be shown to an audience of whom the large majority are little boys and girls. This picture has possibly escaped the notice of the management. Many ladies on Saturday night were heard to criticize the picture somewhat severely. Such a series would go all right in a theater, when the audience is composed of adults but is not adapted to the crowd at Jackson Park. The other pictures were admirably presented and highly appreciated by all present.

Mrs. Geo. Garlick Passes Away

Local Lady Dies in Nicholls' Hospital Yesterday Morning.

Yesterday morning a particularly sad death occurred in Nicholls hospital, when Mrs. Garlick, wife of Mr. George Garlick of the Monroe House passed away.

The late Mrs. Garlick who had been ill for some months, only went to the hospital on the afternoon of the 13th of this month.

The deceased who was only 38 years of age leaves to mourn her loss, her husband, Mr. George Garlick, of Water street north, and two children, a little girl of five years, and a baby only a few months of age.

The sympathy of the community will be extended to Mr. Garlick in his sad bereavement.

The funeral arrangements were not to be ascertained last night, but will appear in tomorrow's issue.

Ulcer of the Stomach

Insidious Nature of the Disease—How to Recognize and Cure It.

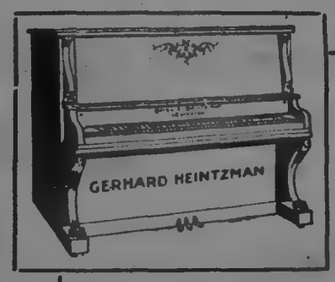
Ulcer of the stomach may exist for years without very marked symptoms, excepting those caused by indigestion.

In good health, the stomach resists the action of the gastric juices, but when weakened, the membrane is badly nourished and the digestive fluids act upon it as well as upon the food, keeping up until perforation of the stomach occurs. In advanced cases of ulcer of the stomach there is much discomfort after eating, with a constant gnawing sensation between meals, pain from the pit of the stomach back to the shoulder blade.

At the first symptoms of indigestion, treatment should at once be started with Mi-o-na. This is a scientific remedy adapted specifically to one purpose, the cure of stomach.

Mi-o-na is not a patent or secret remedy, but is a combination of the purest and most reliable of remedies for strengthening the digestive organs and building up the whole system. It costs but 50c. a box. Use it for a few days and there is no reason why you should not be able to eat any food you like at any time without fear of distress.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.



"Equal to a Gerhard Heintzman"
"Built Similar to a Gerhard Heintzman"
"Resembles a Gerhard Heintzman"

These and other similar claims are frequently and incorrectly made by rival manufacturers and dealers, all of which is simply their acknowledgement of the Gerhard Heintzman superority.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO 170 PETERBOROUGH, ONTARIO, TUESDAY, JULY 17, 1906. PRICE TWO CENTS

Thaw Sued By Another Woman

For $20,000 on Charge of Assault Four Years Ago---Defendant Dismisses His Counsel and Appoints Clifford W. Hartridge.

New York, July 17—Assistant District Attorney Garvan, who is building up the case against Harry Thaw, was informed yesterday of a proceeding brought against Thaw some years ago and which will undoubtedly be used by the prosecution in the murder trial. This proceeding was instituted by a woman named Ethel Thomas for $20,000 for assault.

An interesting fact concerning this suit was that the lawyer of record was Abe Hummel, who drew up the affidavit which Evelyn Nesbit made against Thaw after she had left him in Paris and returned to this country. One of the charges said to have been made by Miss Nesbit in that affidavit, of which a record can be produced is that Thaw assaulted her.

The facts concerning the suit brought against Thaw by Miss Thomas were given to Mr. Garvan yesterday by Joseph A. Shaw, a lawyer of 305 Broadway. The suit is still pending, and Hummel still stands on the records as the lawyer for the plaintiff.

According to the affidavit of the plaintiff, the assault occurred on January 3, 1902. She averred that she had been acquainted with Thaw for some time prior to that, that she met him on that day in answer to a letter and that he took her to his apartments. These apartments were at 307 Fifth avenue. They were in the name of William Benford. Thaw's valet who has since died. On the way there, Miss Thomas alleged, Thaw bought a whip, and when he got her in his room he beat her with this whip. She escaped from him and went immediately to a lawyer's office exhibiting the marks made by the whip.

WOMEN WHO KNEW PRINCIPALS

Two more women who can tell something about the principals in the Thaw-White tragedy were before Mr. Garvan yesterday. They were Rose Marston and Marion Stokes. Miss Marston is at present playing in an outdoor presentation of "As You Like It." She has only recently become an actress. Before that she was an artist's model. She met Evelyn Nesbit while the latter was posing, and they became friends, both visiting the same studios.

Marion Stokes, who is also an actress, also was a friend of White's over question for some time by Mr. Garvan yesterday. Miss Stokes corroborated the story that she had an appointment to meet White the night he was killed. The appointment was for 11.30 o'clock. He met her in the garden.

ENGAGED NEW COUNSEL

Harry Thaw has retained the law firm of Black, Olcott, Gruner & Boyinge as his counsel. Harry Thaw made this announcement yesterday afternoon two hours before the steamer Kaiserin Auguste Victoria, which brought his mother, Mrs. William Thaw, from Europe, was docked at Hoboken. Thaw has engaged Clifford W. Hartridge, who married a daughter of Justice Lestie W Russell, to represent him.

APPEARANCE OF LA FLYN THAW

The eyes of the girl for whose sake murder has been done are huge. They are large and long and have that clear, liquid softness that only Murillo ever succeeded in painting. They are unusual eyes in that they have the long lines and shape of what we call oriental eyes, so that they have none of the hanging and stupidity of the average "eye of the harem." Evelyn Thaw's eyes are bright and sparkling, alight—not with intelligence or thought, that pretty head is sadly lacking in these useful attributes, but with the fire of youth and merriment. Long lashes fringe those bright eyes, and exquisitely arched dark brows give character to the fair forehead with the dark hair growing low around the piquant little face.

She has the full, voluptuous mouth of the unthinking pleasure lover—the mouth that temperamental artists give to sirens. It has beauty of outline, but there is no firmness or strength in its amorous curves.

URGED TO KILL THAW.

Edward Dunkhorst, more popularly known in Buffalo as the human Freight Car, says that last July while he was managing the Academy Cafe at Irving place and Fourteenth street, New York City, Stanford White offered him $250 if he would "do up" Harry Thaw. Dunkhorst was quite a prominent character in boxing circles at one time and even now he attracts attention which he appears upon the street. He confesses to weighing 420 pounds on the hoof.

Good Work On Trent Valley Canal

Mr. J. A Aylmer of the firm of Brown and Aylmer, who have the contract for section 3 of the division of the Trent canal lying between Balsam Lake and Lake Simcoe, has returned to Gamebridge Mr. Aylmer reports good progress on the contract of his firm in clearing the canal between Lakes Balsam and Simcoe, which is about twenty miles in length and takes in the difficult of Kirkfield, will be open for navigation this fall. This means that the great inland waterway will be navigable in a few months all the distance from Barrie and Orillia on Lake Simcoe to Hedgely Falls. The contract for section 1, which Mr. Dodenbank had, was completed some time ago. Larkin & Sangster of St. Catharines have the contract for section 2. This includes the lift lock at Kirkfield, the iron and steel work of which is being done by the Dominion Bridge Co of Montreal.

Section 3, which runs from Lake Simcoe east to the boundary road, is the work of Brown and Aylmer, and is between seven and eight miles in length. The firm expect to complete this job within a couple of months and are finishing up the work now—trimming the banks and protecting them. They have 200 men engaged and about 20 teams.

COBALT

THE
WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.
JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet Townley & Co., Director of Ontario Bank.
JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.
DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.
JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Dawson, Hargraves, Jacobs, Drumond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O Box 129, COBALT.

CITY WATER TROUGHS

Why Do Not All These Sources of Necessity to Horses Run Full?

The water trough in front of the Maple Leaf Hotel in the east ward is now dry.

Considerable complaint is being made by drivers and others, especially those coming into the city, about the water troughs in the city being dry. The one at the police station is the only one running full, and the one on Charlotte street is one part dry, owing to the fact that the water was being put down Hunter street. The one on McDonnel street at the corner of George street, is reported by a lady to be very important that these troughs should be kept running, especially at this season of the year.

Where Was Mr. C. Plummer Drowned?

Word has recently reached his city that Charles Plummer, a brother of Mrs. Jacob Robinson, 358 Stewart street, had been drowned in Sturgeon Lake on June 30th last, and that the body had not been recovered. Further word would be sent as soon as the body had been found. The message was sent by George Plummer, brother of the man drowned.

Charles Plummer has not been seen by his sister for seven years. His occupation was that of lumberman. The news was a great surprise and grief to Mrs. Robinson.

Just where the Sturgeon Lake mentioned in the telegram is situated, is not definitely known. The telegram was dated from North Lake, Ont. There is no such post office in the official directory, except two, one in New Brunswick, and one other in Prince Edward Island. It is supposed that the accident occurred at a point north and east of Port Arthur, as deceased had been said to be working in that district for a lumbering firm. Yesterday Mr. Robinson was making further inquiry, endeavoring to locate the spot. It is not possible that the drowning occurred on Sturgeon Lake in this district, as it would have been known immediately.

Good Work For "St. Joseph's"

In reference to one of our local most worthy charitable institutions it might be noted that the collection for the benefit of the House of Providence and St. Joseph's Hospital is progressing nicely. Many subscriptions have been received and already a good sum is made. Rhods the committee in charge. Still there are quite a number who should canvass for the worthy object, and who have not yet done so. For that benefit the list will be left open until the 20th of July.

MONTREAL A FREE PORT

Government Said to Contemplate An Early Change.

Montreal, July 17—The statement is made that the federal government is about to make Montreal a free port. A rumor in this effect was heard in Ottawa a few days ago by a prominent shipping man of Montreal. It was known that Montreal members of parliament had been working hard and constantly to convince the government of the advisability of taking this step. Yesterday afternoon Mr. Bickerdike was seen and asked if there was any truth in the rumor that had preceded him to Montreal from the capital.

The question of making the port of Montreal a free port, Mr. Bickerdike said, had been before the government for a long time, but now the opportune moment was within calculable distance. The question of the appointment of new harbor commissioners, it thought, would likely be settled before the end of this year, perhaps in three or four months. This would be the opening of another door to the realization of important harbor improvements, and a big step towards the achievement of Montreal's destiny as a national port.

What this would mean in the way of increased shipping in years to come could not now be foreseen, but the prospect appeared very encouraging.

A Logical Woman.

When asked where she was going to spend her vacation, a well known Peterborough lady said to The Times-Light here at home. Why should I pack all my pretty clothes in a trunk, bid goodby to all my friends and take a long, hot railroad trip to some resort filled with people whom I do not know; sleep in a stuffy room on a hard bed, when I have my own comfortable home right here? No, I am going to take my vacation in my home, where I can do as I please."

Prentice Boys Were the Hosts.

Yesterday evening a very interesting and pleasant event was in evidence at McCallum's restaurant, when Mr. George MacDonald, who is leaving town was given a supper by his comrades of the Prentice Boys' Lodge, No. 7. Everything went off in most satisfactory style, the speeches made testified sufficiently to the popularity in which Mr. MacDonald is regarded by all who know him here. Mr. McCallum excelled himself in putting up a tasty repast, and Prentice Boys showed themselves to be most excellent hosts.

$23,000 BREACH OF PROMISE SUIT

Miss Emma Cushing of Montreal Sues J. M. Christie a Bank Manager

FINE BILL OF PARTICULARS

Physical Anguish and Mental Pain Together With Injury to Plaintiff's Feelings.

Montreal, July 17—An extraordinary suit for breach of promise was taken yesterday by Miss Emma Cushing, of this city, against Mr. J. M. Christie, formerly manager of the Canadian Bank of Commerce here, but now manager of the branch at Brandon, B. C. Miss Cushing claims everything, from laceration of feelings to gifts to her sweetheart, and presents quite an itemized account.

Miss Cushing alleges that in September, 1899, Mr. Christie asked her to marry him, repeating his suit several times, until, on April 16th, 1900, he was accepted by herself and her parents as her future husband. The courtship, it is alleged, jogged along in the usual way until February last, the defendant treating Miss Cushing as his affianced wife. In 1901 Miss Cushing states the defendant urged her to name the wedding date, and eventually December 7th, 1904, was fixed for the nuptials. Unfortunately, just at that time Mr. Christie was seized with appendicitis, and had to be operated upon, so that with all in readiness for the ceremony it had to be postponed until he could regain his health.

Subsequently the defendant, it is alleged, cooled in his matrimonial ardor, although requested to carry out his promise. Then last February matters came to a climax, when he finally refused to marry Miss Cushing.

Thereupon suit was instituted by Miss Cushing for breach of promise. In her claim as filed, it is stated Miss Cushing, therefore, claims for loss and damages, which she has reduced to $23,000, made up as follows:

Amount expended in clothes and household furnishings for the contemplated wedding	$ 2,000
Medical attendance as a direct result of the refusal of the defendant to marry her	200
Estimated cost of living for 25 years at $600 per year, which would have been borne by the defendant as her husband had he married her	15,000
Physical anguish and mental pain and suffering, laceration and injury to plaintiff's feelings and reputation	5,000
	$22,000

Contractors Adrift In Sailing Boat

A day or two ago two local contractors, both well known in the city, went to Chemong to get a sailing skiff belonging to one of them in to shape for the summer. It was found that some repairing was requisite to keep the craft afloat. A patch was put here and a dab of putty put there. They ran the craft out into the lake after each repair was made to see where she still leaked. After a time the boat was considered as fully repaired. A friend of the owners said, "Now you fellows get into her so as to press her down and thus see whether she is O.K. or not." The unsuspecting contractors seated themselves in the boat, whereupon their friend fired of the long painter, gave her a strong and a long push, that sent the skiff some 50 yards from shore. As the boat and the shore parted a dozen of the contractors discovered that they had neither oars, paddles nor bottom boards, nor other means of getting back to terra firma. They had to wait until ignominiously towed to shore by a small boy in a punt. Their friend on shore smiled audibly, still this skiff is a swift sailing boat.

ONE DEAD, ONE DYING

Mixed-up Tragedy in Boston Home—Woman Badly Injured.

Boston, July 15—Dennis McSweeney at whose home in South Boston, the death of Sergeant Samuel Sweitzer of the United States Coast Artillery occurred on Friday night, as the result of a knife wound, was yesterday reported as being fatally injured. McSweeney has a broken jawbone and a fractured skull. It is alleged that he and the soldier quarreled, and that the latter beat him with a club.

Mrs. Elizabeth Broom, a daughter of McSweeney, was a witness of the quarrel, and was herself injured by Sweitzer, she claims, while endeavoring to protect her father from his attack. At the hospital it was said last night her condition was serious.

Medical Examiner Macdonald yesterday held an autopsy on the body of Sweitzer, and pronounced death due to suicide. A note found in the dead man's pocket, and addressed "To Who It May Concern," contained the words:

"The person upon whom this note is found will be the culprit, and the reason for the crime will remain a secret."

The police, however, continued their investigation, prompted by a statement made to Captain Dugan of headquarters, by Wm. Broom, husband of the injured woman, that he had been compelled to leave his wife on account of Sweitzer's visits to their home.

ONE IN EVERY 1,200 BLIND

Special Census Report Also Gives Figures for the Deaf.

Washington, July 17.—About one person in every 1,200 was blind and one in every 650 was deaf in the United States in 1900 according to a special census report prepared by Dr. Alexander Graham Bell. The total number of blind in the United States was 64,761, of whom 35,675 were totally blind and 29,018 partially blind. These figures are the minimum, as an unknown proportion of the blind were not located. Of the total blind 31,024 were males and 33,708 females. In about 3 per cent. of the cases of blindness the parents were cousins. Of the blind over 10 years of age 20 per cent. were engaged in some gainful occupation.

The total number of deaf in the United States is given as 93,857, of whom 37,426 were totally deaf and 51,881 partially deaf. Of these 55,501 were able to speak well, 9,417 imperfectly and the remainder not at all.

Will Wreck World in Their Wrath

Boston, Mass., July 17.—Thomas W. Lawson says that Henry H. Rogers and his Standard Oil clique intend to fight President Roosevelt, and the administration, generally, by unloading all their securities.

A short time ago, the big heads of 26 Broadway, in sad and solemn family conclave, admitted that they had been backed into a corner and that one last hope was to trick Roosevelt into a saving alliance. Rogers and Archbold were chosen to pull off the trick, and at midnight at the White House the "systems" pliniest master made the play of his life. Twas a wonderously attractive picture that Rogers painted, and he was eloquently assisted by Secretary Root. Had Roosevelt succumbed, the face of the world would have been temporarily changed, but "Standard Oil's Svengali" was up against an irreparable subject, and the face of the world remained undisturbed—that is, for a time, for at that meeting machinery was put in motion which later will cause a vast upheaval.

Objects to the U. S. Flag Above

Local Society Leader Is Averse to Stars and Stripes Above Union Jack.

Yesterday one of our leading society ladies called at The Times office to erect a decided objection to one feature of the decorations now in evidence at the golf club links club house.

The lady in question, who is nothing if no strictly patriotic, drew our attention to the fact that in the very pretty and almost elaborate decorations that have within the past few days been elaborated, the stars and stripes appear above the grand old Union Jack.

This lady, who is a member of the change not have been made before this, requested The Times, should a going to print, to call attention to this insult to our national colors.

She further added, but if a change should not be made, she feels it but like, and possibly would, supported by other members, personally go and assist in having this insult to our flag removed.

It might be added that the lady in question, was not acting under any emotional impulse, but was actuated by a strong and commendable spirit of patriotism, partly resulting from recent insults to the Canadian flag at points along the St. Lawrence river, and other international conjoining places.

Normal College at Hamilton Abolished

Important Announcement by the Education Department--Normal Schools to be Re-modelled--Training at North Bay.

Toronto, July 17—The Education Department has completed the details of the carrying out of the legislative enactments providing for the improvement of accommodation and equipment of the normal schools, and of the salaries of teachers. The consideration of public schools will follow along similar lines.

As probably the most important of its reforms, the Department has had in view also the general improvement of the qualifications of the teaching. Accordingly, after June, 1907, except for two or three of the present model schools which will be continued to meet the necessities of the poorer counties, there will be only two grades of professional training schools—that for the university graduates and students with a high teacher's standing to be provided at Toronto, and that for students with junior teacher's standing to be provided in the re-organized system of Normal schools.

THE NORMAL COLLEGE.

In pursuance of this purpose the Minister of Education has notified the Board of Education at Hamilton that the Normal College will be closed after its next session. Its place will be taken by the Department of Pedagogy, with its affiliated practice and observation schools, which department it is expected the Board of Governors will establish in the University of Toronto in connection with the city school system, as has been recommended in the report of the recent University Commission. Although there is to be but one other session of the Normal College the resignation of Dr McLellan, which has been in the Minister's hands for some weeks, has necessitated a reorganization of the staff for the session of 1906-1907. Mr. Thompson, B. A., who was Inspector-at-Arms, and Dr. McLellan, becomes acting principal, and Dr McLellan's subjects are provided for as follows:

Dr. Abbott will lecture on Psychology three times a week during the session, and Dr. Tracy will deliver the same number of lectures on the science and history of education. The rest of the organization will remain unchanged.

NORMAL SCHOOL FACILITIES.

The lower grade of professional training will be provided for at the normal schools at Ottawa, Peterborough, Toronto, Hamilton, Stratford and Ingleton—centres in older Ontario, which are well selected for the purpose, having regard to the character and the extent of their public school systems, their railway facilities and especially the distribution of the attendance at the present model schools. Of these it is of importance that about two-thirds to west of Toronto, and about one-third east. Accordingly only one of the four new schools has been placed east of Toronto. The accommodations at the normal schools at Ottawa, Toronto and London will be remodelled so as to provide for an attendance of about two hundred each, and the new schools at Peterborough, Hamilton and Stratford will provide accommodations for about one hundred and sixty each, thus making a provision for about eleven hundred students.

The normal school to be erected at North Bay is a normal school in a somewhat different sense from the others. Great expectations are held for the future of New Ontario, especially of the district to the north of us, and those who know its capabilities feel confident that within a few years it will be thickly peopled. In the meantime the school of North Bay will be a professional school for the training of the teachers in the new districts, whatever may be their non-pupil normal standing, except, of course, women certificates take part in the 240 pure race for and university degrees.

Mr. A. Mitchell Gets An 18 Pounder.

Yesterday Mr. Ab Mitchell went fishing and had luck. He captured an eighteen-pound muskinonge near Rose's Bridge. This monster of the fish genus gave him a hard tussle to land. If any one doubts the truth of the weight, and fish weights are generally open to a thorough inspection, "Bessie" of the fire brigade and others are prepared to swear to it to within a quarter of an ounce. In order all question of veracity this G.G.A. has ascertained that "Bessie's" statistics are absolutely correct.

Mr. Stocker Shuts Off Entrance.

Yesterday Mr. Walter Stocker, the local bill board magnate, in pursuance of his present policy of extending the advertising facilities of this city, closed up the entrance whereby thousands of dollars worth of supplies has been taken in to the Michine Telephone Company's premises on Charlotte street. Mr. Stocker had to have his boards across this entrance but some months ago removed them out of courtesy to allow some wood to be delivered to a friend of his. Mr. Stocker is seemingly showing a strenuous and 20th century spirit in his advertising work.

Declines to Be Premier.

St. Petersburg, July 16—The Associated Press learns from a reliable source that Emperor Nicholas has offered the premiership to Dmitri Shipoff, but that the latter has refused the post on the ground that he is not a member of the majority party in parliament, and that the only possible cabinet in the present crisis is one composed of Constitutional Democrats.

Prominent Constitutional Democrats think the premiership will now be offered to Count Heyden, who, though he has the sympathy of parliament, will be unable to form a cabinet although scheduled for a place in the coming Constitutional Democratic ministry.

Smuggling in Alberta.

Macleod, Alta., July 17—P. J. Rockland, charged with smuggling two horses from the United States to May last, pleaded guilty and fined $50 and costs; horses were confiscated and turned over to Customs Department.

Rounds Them Out

Three years' experience with one food is a severe test.

What can be done when it is the proper food, Grape-Nuts, is proved by the statement of a woman who says:

"Up to three years ago I had sick headaches every week, and although I had heard and read about how food affected one I never thought that could have anything to do with my trouble until one day a friend came in and found me suffering from a frightful headache and suggested that it might be the food, telling me I should change my food for breakfast at least.

"Breakfast, I said, why, I never have any appetite for breakfast, there's nothing I would relish. She said, 'Did you ever try Grape-Nuts?' We use the food every morning and find it just what we relish and we know our health is better since we have used it.

"This was news to me, so that very day I got two packages and ate only Grape-Nuts and cream or milk for two weeks at breakfast and became so fond of the food I soon found myself eating it for supper also. The result was my headaches lessened quickly and finally disappeared, and for the past two years I have only had a couple and I have gained about 20 pounds in weight. I can't get along without my Grape-Nuts and cream for breakfast at least.

"My husband is just as fond of the food as I am, and he makes his entire breakfast on it, and today I looked over our old grocery orders just for fun and found we have used 52 packages of Grape-Nuts food since we began eating it three years ago. My husband's health has improved wonderfully, for he used to be a frail little man as white as a ghost, but now he has fine appetite, good color, and has rounded out in flesh nicely."

Made by Postum Co., Battle Creek, Mich.

Grape-Nuts

Your 'Fagged' Feeling is Spring Sickness

This Unhealthy Weather Will Intensify Your Exhaustion Unless You Have Good Medicine.

Time won't help; matters grow worse instead of better if your system isn't rid of its poisonous burden.

Your blood is not only thin, but is contaminated with a whole winter's accumulation of wastes.

A stimulating blood tonic is required.

What's it going to be?

No bitters or alcoholic dope, but concentrated cure in the form of "Ferrozone" which is known as the best of all spring rejuvenators.

It creates keen appetite.

Produces prodigious digestion.

Converts food into nourishment.

Gives richness and vitality to the blood.

Makes strong nerves and hardy muscles.

Ferrozone possesses power that can't be doubted. It will do for you what it did for Walter Wood, of Beaufort Car Co., N. B., who writes. "I can say that Ferrozone has given me a new lease of life. A year ago I suffered much from nervous weakness. I was really scarcely able to drag myself around. My appetite was gone, I had no color or ambition and felt generally used up. The first box of Ferrozone started me back to health. I took a number of boxes, but it was worth while as my health was completely restored."

Get back to health with Ferrozone. Your druggist sells it, 50c. per box or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

UNION LABEL

PETERBORO JULY 17 1906

CHURCH UNION

The question of the union of the churches in Canada, or, at least, of some of them, seems to have become one of a practical character in the ecclesiastical politics of the Dominion. For years there have been godly men as well as clergymen, who have desired to see the different Christian bodies drawn closer together, and it might be joined in one organic body. But to many of these the entry into the Promised Land of their aspirations and desires was to be denied, and not even as Moses were their eyes to be gladdened by the vision of the reality in which they were not to live to participate. But the seed sown by them, even though apparently on sterile soil, may yet bear fruit. He would be a reckless man who would now deny the possibilities of such a consummation. Already three churches—the Presbyterian, the Methodist, and the Congregational—are in earnest communication with a view of reaching a basis on which union may be obtained. Nor is the subject without interest to those of other communions, and we notice that in the Presbyterian General Assembly at London, Ontario, it was suggested that the Baptist and Anglican churches should be addressed on the subject. In all the churches there are some who earnestly desire organic union; the cessation of unseemly rivalry and of the bitterness of disunion. It can scarcely be that the movement should utterly fail.

This great problem has been forced on the attention of Christian leaders in all the denominations by the inflow of population and the vast expansion of settlement. Not in the past history of British North America, hardly in that of the Western States of the Union, have the Churches been confronted with a problem, so great, so difficult, and so complicated as that with which they are face to face, especially in Western Canada. How are the new communities, scattered over vast regions individually small, but in the aggregate numbering a large population, to be provided with proper and adequate religious services, is the question that presses for an answer. How shall the men and the means for the work be provided? The achievement will exhaust the present resources of the Churches; its direction will demand all the ability of the most capable of ecclesiastical statesmen. As it is, with these divisions; with the overlapping entailing great waste of energy in some parts, while other fields are entirely untilled, it is not surprising that many are discouraged and dismayed at the greatness of the need and the inadequacy and weakness of the means available for the work. To avoid the duplication of services by the different Churches, which not only entails unnecessary waste of men and means, but weakens the power and influence of the services, is the object to be aimed at, and Church Union seems to be the only feasible or, indeed possible solution of the problem.

But there are more aspects than one of this great question and each presents many difficulties in the way of its successful treatment. The practical and material point of view—the need of economising and consolidating the available forces in men and means—have great weight with many churchmen in their support of a proposal for Church Union. But there are others who regard disunion as something grievous and wrong in itself and that it is the duty of the members of the various churches to bring the present state of things to an end. The power and force of this class in the movement should not be underrated. Their influence is greater than their numerical strength. They view the subject from an aspect far removed from that of expediency or efficiency and regard the union of the Churches not as a means to an end but the end in itself. Not a force but an institution. The Church is not complete and the spiritual results not fully attainable until the promise of the oneness of the Church is fulfilled.

The difficulties in the way are great, and it may take years before the practical realization of that desired by many is attained. But we cannot believe that the movement for unity will be without result. Rather, as they are approached from different sides, do we believe that the mountains of dogma will not be found to be insurmountable obstacles and that the common creed of Christendom will be found a road that all can travel.

Dreyfus is Now a Popular Hero

Paris, July 15.—The celebration of the French national holiday yesterday assumed especial significance in connection with Dreyfus resuming his place in the army. The Official Journal yesterday published a decree announcing the reinstatement and promotion and the inscription of his name on the list of chevaliers of the Legion of Honor.

Dreyfus, who remains in his apartments, is besieged by many friends, who are congratulating him on his final success. Hundreds of felicitations have reached him by mail, telegraph and cable. The date of his receiving his award and putting on his uniform awaits his assignment to a regiment.

The condition of under secretary of State Sarraut, who was dangerously wounded in the breast yesterday in a due fought with M. Pugliesi-Conti, following the passage of the law restoring Dreyfus to the army, is stationary. He passed a calm night and no complications have developed. The doctors are not prepared at present to pronounce a definite opinion regarding his chances of recovery.

In an interview with the London correspondent of the Matin, Major Count Esterhazy is reported as saying that Captain Dreyfus was a matter of indifference to him, and that he believed Col. Sandherr, former chief of the secret intelligence bureau of the French army, had proofs of Dreyfus guilt. Count Esterhazy said he thought the affair was not yet ended.

President Fallieres yesterday reviewed the troops at Longchamps. The principal feature of the day were the enormous crowds and the frequent shouts of "Vive Dreyfus," showing the prevailing sentiment. The review was a brilliant spectacle, the whole garrison of Paris participating.

Negroes Accused of Heinous Crime

Raleigh, N.C., July 15.—A special from Winston-Salem, N.C., to the Evening Times says: Isaac Lyerly, his wife and three young children were murdered in their home, one mile east of Barnett's Junction, early yesterday by unknown parties, who afterwards robbed the house and then set fire to the bed on which Mr. and Mrs. Lyerly were killed.

Two older daughters, who were sleeping upstairs, were awakened and rushed down just in time to extinguish the flames and save the home from destruction. It is thought that the robbers killed their victims with clubs.

Mr. Lyerly was a wealthy merchant and farmer, and the family was recognized as one of the best in the section.

As soon as the news reached here, Deputy Sheriff Hutchins was requested to go to the scene with his blood hounds. He left on a special train.

Later, a report was received that two negroes had been arrested. One of these is quoted as having said a few days ago, after Lyerly had refused to allow him to cut his wheat, "That old man may cut his grain, but he will never live to eat it."

The governor has issued a proclamation, offering a reward of $350 for the arrest of the murderers.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Pale? Thin?

How is it with the children these days? Have they plenty of grit, courage, strength? Or are they thin, pale, delicate? This reminds you of Ayer's Sarsaparilla. It does great things for children. It gives them a good appetite, improves their digestion, builds up their general health. Ask your doctor if he endorses this.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $228,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

AMALGAMATED MINING AND EXTRACTION COMPANY
1624 Curtis Street, Denver, Colo.

ADVERTISING PAYS

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyrighted, 1902, by THE BOWEN-MERRILL COMPANY

Where were the prisoners kept? She asked some one, who directed her to a barrack at the northern end of the town. Thither she pushed her way over foul refuse heaps and fetid ditches, through crowds of soldiers shouting loathsome doggerel, who jeered and caught at her, and past gold braided officers who cursed them savagely and made place. She noted none of these.

At the barracks entrance she met her first rebuff when a sentry barred her way.

"You have a prisoner," she explained, her breath fluttering. "His name is Armand. I would see him."

He answered only with an uncomprehending stare. As he turned she tried to pass through, but he thrust his musket across the door, with an angry Hessian grunt. A knot of soldiers tossed some German phrases to him from behind her, and he smiled at them stolidly over her head.

Then she became aware of a more kindly military face in the opening behind him. A hand touched the Hessian's shoulder; he faced about, saluted and moved off, and the knot of struggers melted away.

"I am Colonel Dundas," stated the officer in the doorway. "Have you permission to see the prisoner?"

"No," she replied pathetically.

"This is a special order. None save the commander in chief can give such leave."

She sat down on the stone step, her eyes half closed, shaken by a dry sob. Not even to see him! It was ghastly!

Colonel Dundas was struck with her pallor. He was a gentleman and humane. "The prisoner who dies tonight is not under a recent condemnation, mistress," he said not unkindly. "And 'tis said he now holds the rank of colonel in the American army. Mayhap the Continentals will yet make protest."

She looked up with wide, miserable eyes. How could she explain it all to him? "There is no time—no time," she said with heavy lips.

He had turned away, but her voice recalled him. "Where is Cornwallis' headquarters? Tell me, quick."

"In the Nelson mansion," he answered. "Hope not on that, though. Surrender is deliberated, and the earl is under great strain."

"But he will at least see me."

He shook his head doubtfully. "You have still an hour."

Still an hour! How horrible to measure a life by minutes! Colonel Dundas watched her go with a frown of pity. War seemed more than stern to him at that moment.

Then he entered the door and sent for a chaplain to hold himself in readiness.

A sickness had climbed into Anne's throat before she reached the house. For a time she got no farther than the outer door. At length an officer, doubtless by reason of her evident distress, gave her a chair in what had been the drawing room. Scores of times she had sat in that selfsame room as gay as any guest. That she should be there now on such an errand seemed some hideous mockery of truth.

The British commander had before him General Washington's ultimatum as to terms of surrender—could see no one. So they told her, but she would not be satisfied. Her errand was a matter of life and death—concerned an execution within an hour. Twice the officer who had given her the chair went into the inner room. The second time he returned with a flush of mortification on his face.

"I dare not ask again," he told her.

She came out into the street at last when the sun was gathering crimson to its fall, her whole mind numbed, her body wrenching with nervous agony and with bruised shadows beneath her burning eyes. Instinctively she started in the direction of the barrack, and as she walked with uncertain footsteps her fingers went twisting a slip of paper they found in the pocket of her gown. Some soldiers were boiling a pot over a street fire of split boards, and as she passed them with the look of a sleepwalker she drew the paper out and looked at it.

Instantly a great thrill went through her to the tips of her fingers, and her cheeks rushed into flame. It was the hasty scrawl given her at Gladden Hall by Lord Cornwallis the day she had gone to him for John the Baptist.

This is what she read:

My Dear Dundas—I suppose we must let the lady have her prisoner. Just give them passes out. CORNWALLIS.

She stood still a moment, afraid of the beating of her heart, cherishing a thought that was like a white coal in her brain. If she could! The soldiers were looking at her curiously, for women were rare in the town. If she could!

Then, clasping the paper to her breast, she ran with winged feet toward the barrack. As she neared the river bank the sun was a half disk of deep orange red.

The Hessian sentry was still on guard. But he had seen his colonel's previous greeting, and as she hastened up the steps he threw the door wide, and she ran through the corridor straight into Dundas' presence. He was sitting at his table, and a subaltern had just entered for instructions.

"I have it! I have it!" she cried and laughed laughed joyfully with her heart quaking and fainting.

"You have it? I am glad." Dundas reached for the paper and read it, smiling. "General Cornwallis is surely occupied. He has even forgot to date it. However"— He struck a bell. "Sergeant, tell Major Needham his file will not be required tonight, and bring the prisoner Armand, fully clothed, to me."

She scarce heard what followed save to realize in a vague way that he was marveling at her miracle. But everything else vanished as Armand entered the room.

"Prisoner," Colonel Dundas announced, "I am ordered to set you at liberty. You owe so much clemency to this lady, who has interceded with Lord Cornwallis."

Armand had been pale when he entered. Having seen her, his face had grown quite colorless. He stood wordless, his shoulders lifting in a long, deep drawn breath.

[To be continued]

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebilious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

A Rare Chance
TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000 divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 180 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

100% ADVANCE JUNE 1

Present Price of Stock FIVE Cents per Share

If you want to get in on the ground floor before the price advances to 10 Cents per share, NOW IS YOUR CHANCE

When The Cold Leaf Mining, Milling & Drainage Company was organized the officers of the company foresaw the certainty of a big mining boom in Clear Creek County, Colorado, U.S.A. and they congratulated themselves on securing a property which showed 1,500 feet of development work, and could be classed with the MINES of the region.

The steady increase in the mineral production of the county; new strikes, the development of old mines at depth (proving the continuity of the ore bodies and the increased richness of the ores), the availability of mining supplies, the abundance of water the great amount of timber for mining and fuel, the adaptability of the topography for deep tunnel mining, and the large number of milling and smelting plants, means that the district possesses all the elements of successful and economical mining.

It was a foregone conclusion that investors would awake to a realization of the conditions, and inaugurate a new boom in 1906. It is but natural that they should desire to place their money in a locality that shows more PROVEN MINES than prospects, and where the chances for speedy returns are greater than the chances of loss. Because of economic conditions money will go farther in development work and bring RESULTS quicker. Many new companies have recently been organized, foremost among them being The Gold Leaf Mining, Milling & Drainage Co. Stock in all Clear Creek County companies is finding a ready market among both Eastern and Western investors, and in consequence The Gold Leaf Mining, Milling & Drainage Co forestalled the boom by securing one of the best mining propositions in the locality, consisting of 16 mining claims, situated on Standard Mountain, in the Ohio and Jackson Mining District, two and one-half miles south of Idaho Springs. The Gold Leaf properties are credited with a past production of $75,000, and the tunnel is being steadily driven toward the rich ore bodies from whence former shipments were made. The old workings are now drowned with water which the tunnel will drain and also give unlimited stoping ground for the ores. Surrounding mines have produced over $11,500,000. Now is the time to purchase stock. When we re-open our ore the opportunity will be lost to investors.

Don't overlook this exceptional opportunity! Think of the acreage; Think of the development work done; Think of the past ore production; Think of the future possibilities; Think of investing—THEN ACT AT ONCE!

Sufficient stock subscriptions have already been received to carry our Frontier Tunnel a distance of 600 feet, or to the Standard Vein, from which point ore shipments will be resumed. Future stock subscriptions will be applied on the purchase of a power plant or on contracts to facilitate the work of driving the tunnel.

Our General Manager estimates that the completion of the tunnel will place at our disposal OVER FOUR MILES OF ORE, aggregating 96,000,000 tons.

$5.00 DOWN
AND
$5.00 PER MONTH
FOR FOUR MONTHS WILL BUY
500 Shares
OF STOCK WHICH MAY SOON BE WORTH
$500.00

This opportunity to buy stock will not last always. Price will promptly advance May 1st, and shortly thereafter be withdrawn from the market.

House-Clean Your System!

Keep it Pure and Clean if You Desire Good Health.

The inside of your body requires attention just the same as the outside. A great accumulation of offensive matter is clinging to the various organs, and must be moved off.

Some gentle laxative and tonic should be used.

The system must be relieved of its burden if you are to enjoy a happy, healthy summer.

Physicians who have examined the formula of Dr. Hamilton's Mandrake and Butternut Pills say no medicine could be better.

Whether ill or not, thousands rely on Dr. Hamilton's Pills which are truly marvelous in preventing debility and sickness.

Begin Dr. Hamilton's Pills without delay. You'll feel stronger, eat better, digest better, sleep sounder, and gain more in weight.

Mr. Ed Maynard, an old resident of New Westminster, B. C., writes: "I don't say Dr. Hamilton's Pills will cure everything, but they made a quick job of building up my run-down system. I had kidney disease and constipation, and was wholly unfitted for work. Pains shot through my limbs and lodged in my back. Headaches often made me desperate. I had no appetite, an awful color, and felt despondent. Sometimes I was a little rheumatic. After a few days I began to mend, and kept up Dr. Hamilton's Pills till I was restored to my present tip-top condition."

Can you afford to miss the benefit of this marvel-working medicine? Think of it. All dealers sell Dr. Hamilton's Pills, 25c. per box, or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

For Rent.

A comfortable, six roomed, frame cottage, in nice locality. Hard and soft water, also a good garden. For particulars in reference to same, apply at 183 Antrim street, City.

Mouth Organs.

We have an organ for every mouth, all sizes, Imperial and Ideal, Harmonicas. Excellent value. Come and try them. J. M. GREENE MUSIC CO., Opera House Building.

Girl Wanted.

To assist in dining room and do general work. Apply to Jas. Read, the Peterborough House, 189 Hunter street.

Local Moulders to Visit Cobourg.

The moulders of the city have decided to run their annual excursion on civic holiday, August 13th. They will go to Cobourg, where they had such a splendid outing last year. Committees are now making arrangements.

Danny Simons Still Successful.

The Waterville (Me.) Morning Sentinel of July 12th, in commenting on a very excellent company playing at Cascade Park says, concerning Peterborough's comedian, "Danny Simons got encored and reencored for his laughable work as a stage bobo."

Women with weakness should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, it is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Mr. Guerin is Progressing Well.

Mr. John Guerin who is now in St. Joseph's Hospital is doing as well as could be expected. Mr. Guerin met with a painful accident at Lorneville Junction on Friday, and had a close call for his life. He lost the thumb and index finger of his right hand. Mr. Guerin was changing cars at Lorneville Junction, and thought the train which was a few feet from the station would stop, but it passed by and Mr. Guerin, in attempting to board it fell and came nearly being run over. Fortunately he dropped just outside the rails. The car wheels passed over his right hand with the above loss to his hand.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
542 Water Street

LOCAL INCIDENTS

By The Times Man on the Street

—Hallelujah wedding tonight.

—Nothing doing in police court cases yesterday.

—Four weeks from yesterday—will it, Peterborough? Civic holiday.

—Eighty-six in the shade was what the thermometer registered yesterday.

—Weather forecast for today: Mostly fair, with slightly lower temperature.

—Children's two and three piece garden tools on sale at 19c. and 25c. Times Bookstore.

—The old opera house block has been painted and now presents a bright attractive appearance.

—Mr. R. M. Roy has had his tram yacht, the "Roy Roy," thoroughly overhauled and newly painted.

—The Williamson-Ward Printing Company Limited, Lindsay, has been incorporated with $20,000 capital.

—The foundation of the new fire hall on Aylmer street has been finished and the brick work is now being rushed.

—The regular meeting of George street church Epworth League was held yesterday evening. Miss Kidd led the meeting.

—"Don't kill a man when he asks, 'Is this boy enough for you?' The poor fellow is evidently suffering from a sun shot.

—The new seats this week are not all loaded yesterday as expected. It will, however, probably be ready for business during today.

—The joint installation of the newly-elected officers of Peterborough and Otonabee lodges of Oddfellows, took place yesterday evening.

—The first of the semi-weekly moonlight excursions down the river on board the steamer Water Lily and barge, given by the Peterborough Radial Railway Co., will be held this evening.

—Good progress is being made on the new public school in the south end of the city. The foundation is pretty nearly completed by the sub-contractor, Mr. James Bogue, who will shortly start the brick work.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Laxets act promptly, without pain or griping. Pleasant to take—Laxets—only 5 cents. Sold by J. D. Tully.

—Definite announcement will be made in tomorrow's Times as to the proposed automobile excursion to Chemong Park, under the auspices of St. Andrew's Ladies Aid Society, which it is expected will be held next Thursday.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 9.50 and 7.15 a.m., 7.15 and 8.40 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

Still More About That Man Killed?

Our readers will remember that a few days ago The Times denied, beyond any possible contention, a ridiculous report circulated to the effect that L.E.C. regarding the unfounded killing of a local Orangeman at Lindsay on July 12th.

The Toronto News referring to the same pseudo tragedy says:

"The Star reported a man dead who is still in the land of the living. There's enterprise. No one trying to beat them on a piece of news. They will print it whether it happened or not."

Why does not our L.E.C. admit the corn?

Local Carpenter Gets Hurt.

Mr. Angleasey, carpenter, of this city, met with a painful accident at a barn raising at Mr. Wm. Leahy's in Dysart township. Some men were hammering planks in a position, when Mr. Angleasey was accidently struck on the head by the hammer. He was rendered unconscious and received a nasty cut on the forehead just under the eye, which required several stitches to close.

KILLS CATARRHAL GERMS

Breathe Hyomei a Few Times Daily and be Cured. Goes Right to the Spot.

In treating catarrhal troubles, the first thing necessary is to kill all catarrhal germs that may be present in the nose, throat and lungs, thus freeing the system from the poison they produce.

Stomach dosing cannot kill these germs. A direct local treatment is absolutely necessary, and for this purpose nothing else equals Hyomei.

Its base is the famous eucalyptus oil. This is combined with other healing, aromatic gums and balsams, making a germ-killing, health-giving treatment for catarrh, entirely unlike anything else known. When using Hyomei the air you breathe is like that on the mountains, high above sea level, where the pine forests fill the air with fragrant and healing balsams that give health and strength to those suffering from diseases of the respiratory organs.

Breathed through the neat pocket inhaler that comes with every outfit, Hyomei reaches every tissue of nose, throat and lungs giving immediate relief, and effecting a permanent cure in the worst cases of catarrh.

The complete outfit, consisting of an inhaler, medicine dropper, and one bottle of Hyomei, costs only $1. Extra bottles can be obtained for 50 cents.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

SOCIAL AND PERSONAL

—Mr. Ira Gilfillan is holidaying at Sarnia.

—Mr. Fred Crossman is holidaying at Sturgeon Lake.

—Miss Maud Evanson, of Toronto, who has been the guest of Miss Alice Tivey for the past two weeks, has returned home.

Dr. Shoop's Rheumatic Remedy—when used faithfully will cure chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

—Mrs. Roland Tivey and her daughter, Mrs. E. V. Story of Ottawa, leave today for a "two months" trip to Winnipeg, Brandon and Calgary.

—Miss Vivian Gough of Ida, who has been visiting Miss Clemens and Miss Stevenson, Simcoe street, returned home yesterday evening.

—Mrs. C. H. Winch, Miss Edna Winch and Mrs. W. Young of Montreal, registered yesterday at the Snowden House en route to Stony Lake.

—Mr. and Mrs. D. H. Armour, Col. Mason, Roy, of Ottawa, who for the past few days have been guests of friends in the city left for home yesterday.

—Miss Gen. Leach of Ida, who for the past few days has been the guest of Miss Banks, Clemens, 451 Water street, returned home yesterday evening.

—Mr. and Mrs. Ross Farr, and Mrs. Crowe of Bobcaygeon, are spending a few days in the city, guests of Mr. Farr's mother, corner of Stewart and Bathurse streets.

Wood Gatherers Have Close Call.

Two small boys, gathering driftwood on a canoe just below the Hunter street bridge, a few nights ago, had a close call from drowning. The force of the current at this point drew the canoe beneath a drive of logs. By plucky work the boys managed to get to shore.

Work on House of Refuge Delayed.

Work on the new county house of refuge is at a standstill for a few days pending the arrival of limestone from the Longford quarries for the laying of the plough of the structure. The foundation of concrete is completed and, as soon as the Longford stone is at hand, the brick laying operations will be gone on with. Mr. J. J. MacPherson of Peterborough, has the contract for this part of the work.

Kingston School Site.

Kingston, July 17.—Victoria Park, the westerly end of it, has been selected by the City Council as the site for the new Normal school. The city asked for the Minister of Education to provide it. The location is one of the finest in the residential section, high and commanding, and with many acres of park in front and around it. A more ideal spot could not have been selected.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it *in a class all by itself*, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company has made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger barge which goes with her, have been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats in the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets, 25c. each, may be purchased at the Street Railway Office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

Steamboat Inspectors Here

Yesterday Mr. Thomas P. Thompson, government inspector of boilers and machinery, arrived in the city and commenced inspecting all the steam crafts on the Otonabee River. The inspection includes all steam yachts, steam launches and tugboats.

It is an important point not only from owners' view, but in the public interest that all boats should receive a thorough annual inspection.

Mr. Tom Marshall Leaves Town.

Yesterday evening a well known local lumberman, Mr. Thos. Marshall, left on the 5.45 G.T.R. train for Sault Ste Marie, with 20 men for the Commercial Lumber Co. The recent report in the local press as to Mr. Marshall having been married in Toronto, was one night emphatically denied by Mr. Marshall, when interviewed by a Times representative. Mr. Marshall's many friends while sorry that he has not entered the grand army of benedicts, will be pleased to learn that he has obtained an increase position which will last until the end of next summer.

City Board of Works in Busy Session

The Way in Which Contracts for Sewer Work Has Been Let Meets With Some Objection --Inspectors of Sewer Work Appointed.

The city Board of Works met in regular session to the engineer's estimated business session last night. Alm there were present Mayor Best, Ald. Hicks, chairman, and Aldermen Elliott, Wilson, Lowry, McIntyre, Graham and Johnston.

Mr. D. Connell, representing Mr. H. LeBrun, was present in his client's interest. Mr. LeBrun is protesting against the manner in which the concrete sidewalk is being laid on his private residential property, one of the most handsome and valuable residences in the city, situated on Downie street, between Simcoe and Hunter. Mr. Connell explained that as the work is being done a sheer cut of nearly two feet below the present walk is being made, which will kill all his client's valuable shade trees by cutting their roots. Already damage to the extent of $1,000 has been done, and should the walk be continued as graded, the damage will be considerable more and irreparable. Mr. Connell characterized the engineer's grading of this new walk as most careless and unskilful. Mr. LeBrun would be satisfied if his grievance were remedied to such a way by the grade being raised a foot and a half higher.

The Board of Works, with City Engineer Hoy, will inspect this work tomorrow, and see what can be done to remedy Mr. LeBrun's grievance.

CEMENT CROSSING WANTED.

Mr. Edgecumbe called upon the Board, and asked that a concrete crossing be constructed across Bridge at Antrim street, to his store.

Ald. Hicks pointed out that the construction of cement crossings this year have reached a price they will never call for again, 18c a foot. Besides, the Board had practically closed the cement crossing question for 1906. A memorandum will be made of Mr. Edgecumbe's petition, and should any more crossings be built this year, his request will be granted.

A request by Ald. Johnston for a crossing across Simcoe at Rubidge was dealt with in the same way.

SEWER CONTRACT.

The engineer reported that R. Sheehy's estimate for sewer work, being the lowest in the aggregate, $89,595.80 he had notified him that he had been awarded the contract.

Ald. Adams thought it a mistake to tie all this work up with one magi. Here the city has a man doing sewer work by day work, and now cessing him off without first knowing whether his work is satisfactory and is saving to the city. We should have reserved a certain portion of these 18 sections of sewer work.

Ald. Elliott remarked that Ald. Adam's objections were not only on the surface. We have all the engineers on sewer work under one man.

Ald. Wilson replied that R. Sheehy's tender was lower than the estimates of the engineer.

Ald. Elliott—Mr. Sheehy was not lower on all sections, although he was below the engineer in the aggregate.

Ald. Adams—"The work should be let in sections to the lowest tenderer, and not in the aggregate.

Ald. Hicks contended that the present system of calling for tenders, for gravel after construction work is commenced.

As the policy of the city is not to sell their gravel to other communities or private individuals, and have refused similar requests in the past, they could not see their way clear to comply with the Canadian General's request, for obvious reasons.

MUST FURNISH A PLAN.

The Board decided that the Peterborough Light and Power Company must furnish a plan of their work in connection with the sewer work under the supervision of the city engineer. The company are proceeding with such work without first furnishing a plan of the same as recently agreed upon. His Worship opined that the city should have some control of the streets, and asserted that it is now the company are tearing up our streets at all and in some cases blocking up the roads, without first consulting the city. It was not sure whether the city had the right to do this under their old franchise.

The Chairman Board of Works, his Worship and the city solicitor, were authorized to look into the matter and report at earliest convenience.

ANOTHER CROSSING.

Ald. Johnston moved, seconded by Ald. Wilson,—That a woollen crossing be built at corner of Dublin and Reid streets, both ways—Carried.

The Board then adjourned. Council will meet tonight.

The Auto Bus is a Success

Members of Local Press and Other Citizens Take a Trial Spin.

Yesterday morning the auto-bus brought here from Buffalo, N.Y., for use on the Peterborough-Chemong service was unloaded from the car and quickly put into service for an experimental trial spin.

Early in the afternoon this ponderous motor car quietly running much to the astonishment of the natives, and a number of invited guests including representatives from the local newspapers. A good trial of the bus' powers and capabilities was had during several hours. On the bus were Messrs. Quinsigal, secretary of the company that manufactured it, and Mr. W. Hockey, the expert chauffeur, both of Buffalo. A trip lasting for some hours was made through, round and about the city.

The bus proved most satisfactory, as the bus is easy riding, makes very little noise, and its speed and stopping powers are fully under control of the man at the wheel.

The bus will doubtless prove a great drawing card during those going to or coming from Chemong.

Little Ones Were In Great Danger

Yesterday morning about 7:30, a number of local citizens standing about the weigh scales in the market square got quite a scare.

In a third Storey window of a building on Water street, facing the market square, were three little children of the baby age, perched in a position but looked as though one or all of them might fall to the pavement below any moment. A frosty consternation was held as to the best means of opening the panes of the dining. Every moment counted, it was suggested that some one should go and warn the parents. The plan, however, it was decided, might from the sudden entrance of the parent thus advised, lead to one or the lot falling out to the pavement 30 feet below. It was at last decided to call to the children. One woman, hearing a commotion, with vigorous tone called to the children, "Get on there, you little ones, get out!"

The babes, on hearing the command, began to slowly crawl towards the room and safety. In a few seconds a woman's face and form loomed up behind the children. There was a sudden backward movement on the part of each child, and a minute or two afterwards unmistakable sounds of a slipper applied where it would do the most good, were heard. It would have been better to keep the little ones away from a room containing an open window on a third storey.

Peasants' Risings Increase.

Voronezh, July 17.—The whole of the province of Voronezh is affected by excesses arising from the agrarian movement. The peasants are rising everywhere and burning estates.

In Novosyl district more than twenty estates have been burned and 60 head of cattle killed or carried off. In the Garansk district, 2,000 peasants have started to pillage, and many estates have been burned. The trouble north-ward is increasing. In this vicinity fifteen estates have been destroyed. Troops have been sent to the disturbed districts.

COBALT
THE
WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.
JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.
JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.
DANIEL SIMPSON, Esq., M. P., Managing Director, Cobalt, Ontario.
JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Gineux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

COUNTRY AGHAST AT CABINET'S ACTION

Reform of the Army and Reduction of the Navy Startles Britain.

New York, July 17.—A special cable to the New York Herald from London says: "Nothing that the present or any other British Government has ever done or proposed to do has startled the country with as much suddenness as the Cabinet's plan for the reorganization of the army and the reduction of the navy, and the right in the face of the opinions of the highest military and naval authorities in the land. The disregard paid by the Government to the strong opinion expressed by Earl Roberts in the House of Lords on Tuesday is generally regarded as simply amazing, and even the Liberal organs are for the present mute.

"Earl Roberts spoke most earnestly and sadly about the inadequateness of the British army to meet such demands as might be made upon it in case of war with any great power. And yet, in the face of his pleading for the constant maintenance of an army of at least half a million men, ready for immediate despatch to any part, and for greater facilities for the training of citizen soldiers and the encouragement of the volunteer movement, the Government, with no Minister of War, Mr. Haldane, for its mouthpiece—a man who never was associated with even a volunteer force—wants to reduce Britain's much too small army by eight battalions, and throw 20,000 soldiers into the ranks of the unemployed.

DESPITE ROBERTS' PROTEST.

"Earl Roberts said it was necessary to have behind the army a large potential reserve. 'I strongly urge,' he continued, 'the recognition by the country of the first duty of citizenship, namely, military training, in order that every able-bodied man may be able to take his part in the defence of the Empire in the event of any great national emergency. The lessons of the late war seem to be completely forgotten. No thought be given to the possibilities of the future, and the only prevailing idea seems to be cut down military expenses,' without reference to the increased responsibilities and the largely augmented revenue. I sometimes despair of the country ever becoming alive to the unpreparedness of the present position, until too late to prevent some fatal catastrophe. We must have a well-organized reserve also, an organization by means of which less highly trained men could be rapidly turned out to replace the wastage of war.'

Lord Milner, Lord Dundonald, Lord Lansdowne and other Empire makers spoke boldly in favor of strengthening the army, and said that the present moment, when Europe is in a state of undeniable unrest, is the last that should be taken for even a nominal reduction of the British fighting strength. And yet, what happens? Mr. Haldane's excuse for cutting down the army is that the demonstrations of the world are making manifest their desire that the crushing burden of armament should be lightened and that such a great and powerful country as Britain can well afford to take the lead. Truly there are stormy days and nights in store for the House of Commons, but even more serious is regarded the Cabinet's menace to the navy. The Cabinet is well known to be divided on the question of stopping any of the building yards on or projected by the late Government.

THEIR NAVAL PROGRAMME.

"When a few days ago it was decided by the Government, without taking any advice from the Admiralty, to abandon the building of one of the great battleships of the Dreadnought type, or as to present to the country a reduced bill of naval expenditure, there arose a tremendous storm of indignation throughout the country, voiced by the press, while the Board of Admiralty, with Admiral Sir John Fisher presiding, made a strenuous protest, intimating to Lord Tweedmouth, who is First Lord, that they would resign in a body if such action were persisted in.

"Though the Cabinet were hastily summoned, they sat two hours and a half, without coming to any decision. The seriousness of the danger to Britain unless the Cabinet recognizes the force of public opinion, is explained by the fact that Great Britain was building only six battleships, while France has eight and Germany twelve on the shipbuilding programme. Only two of the British battleships now on the building list are Dreadnoughts, and it is one of these, which the First Lord said some time ago with pride, was equal to any three other battleships afloat, that the Government proposes to stop."

To Investigate Gypsum Deposits

B. C. Government Taking Steps to Ascertain Their Value.

Victoria, B. C., July 17.—With the great influx of population now entering the province every material suitable for building becomes of great economic value. This has been brought to the attention of the provincial government, and steps are to be taken this season to fully investigate the deposits of fire clay and gypsum that have been discovered in parts of British Columbia.

Victoria has a special interest in this matter. The manufacture of brick and terra cotta are two of the staple industries of the city, and as the quality of the goods produced is desired, a careful official report on the subject of clays suitable for this purpose will be of the utmost importance.

Provincial Assayer Carmichael has been instructed to devote a large portion of the present season to work of this character. It is the first time that clay deposits have been the subject of an extended official report, and his conclusions will be awaited with great interest. He will examine all known deposits in the province, take samples from each and give, when the report is published, a complete chemical analysis of contents.

This city is also deeply interested in the news that an extended examination will be made of the west coast of Vancouver Island. A complete report will be made on mineral prospects and the possibility of mining. This will supplement the report of the mining recorder and give expert opinion on the occurrence of different minerals and the chances for the continuity of the deposits. Mr. Carmichael will also take a trip to Kamloops and investigate the deposits of gypsum reported to be in existence in Highland River valley.

Another View of the Situation

Mayor Best Thinks That Central Park is Best Adapted for Normal School

The Times last night interviewed Mayor Best, who did so much to get the Normal school, regarding the site that shall be chosen for the new normal school about to be erected by the Ontario Government. The worthy mayor said he promised the Government when in Toronto, on the deputation, a free site if the institution was located in this city. The site he had in view at the time was the Hilliard farm at the north end of the city. The corporation owns 65 acres there, where waterworks, sewerage and other conveniences are close at hand, and we could give the government five or ten acres for a location, and it would not cost the city a cent. The school could be placed on the elevation just north of the Nicholls Hospital, where it would have a commanding position.

The mayor, however, now thinks that general public opinion is that the site he recommended is perhaps somewhat too isolated and thinks that the site proposed for the collegiate institute is more adaptable to the purpose involved.

Will the Regatta Fall Through?

It now looks as though the proposed regatta on the Otonabee river may fall through. Mr. Clarry, chairman of the committee, says that Mr. Johnston Paudash was in the city on Saturday and reported that he had collected $21 from the various sands of Indians and that he intended to spend the first four days of this week in the city, calling on merchants. But so far he has no sons in and until he does, the chairman does not feel like calling a meeting, and also, unless Mr. Paudash secures sufficient financial backing, the chairman would not advise going ahead with the regatta.

R. Hall & Sons Will Entertain Employes

Tomorrow afternoon Mr. Richard Hall, of R. Hall & Son, the George street dry goods men, will entertain his entire staff to an excursion down the Otonabee river. Mr. Hall is giving his employes a treat in recognition of their faithful services. The steamer Monarch has been chartered and will leave the Wolfe street wharf at two o'clock and the street railway wharf at 2:30, for Jubilee Point. Here the guests will indulge in various amusements until supper time. For the return trip the boat will leave the Point in the evening, arriving home about 10 o'clock. Doubtless the young people will have a very pleasant afternoon.

Boys Are Robbing a Yacht.

Mr. R. P. Rogers has recently complained to police headquarters regarding three boys, all between the ages of 13 and 16 years, who have been taking the brass fixtures from the locker of his yacht, lying in the Otonabee, near the Hunter street bridge. As the boys are known, it is now up to them to at once return the stolen goods or go behind the bars.

Arrested For Murder in U. S.

Henry Bailey Arrested at Daybreak Yesterday Morning Near St. Catharines--Was Tracked For Five Hundred Miles.

St. Catharines, July 18.—(Special)—A telegram was received here this morning from Detroit by Detective Thompson of Biddetown, Conn., of here for some time, informing him that Henry Bailey, Brock county, had murdered a Chief Parnell of St. Catharines, and that a officer from Niagara Falls, on the farm here of Al. Disher in North Pelham Township, Lincoln County. Thompson at once left Bailey here having ascertained that he had previously gone to the home of his sister, Mrs. Disher.

The four officers started for the Disher place at 3:30 this morning, and got there after half an hour's drive. Bailey, who had engaged himself as a farm-hand with Disher, was in bed. When he was roused up, Detective Thompson said, "Hello, Bailey!" Bailey replied, "How are you, Mr. Thompson? What's the matter?" Thompson informed him that he was wanted for the murder of Geo. Goodall at Middletown on the morning of July 6th. Bailey declared that he knew nothing about the crime, and refused to say anything more. He was told to dress, and the officers brought him to St. Catharines. He agrees to go back to Middletown with Thompson.

The murder with which Bailey is charged is a particularly atrocious crime. Goodall, who was separated from his wife and children, lived alone on his farm. Bailey, who lived near by, is said to have gone over to help the old man to get in his crops. As Goodall lay on his bed on the morning of the 6th, it is charged that Bailey killed him with an axe. It is also said he took between $100 and $200 to be found in the house, and, hitching up Goodall's horse, drove away. He was seen leaving the farm afterwards.

Bailey had only $17 in new Sterling Bank bills on him when arrested. He came to Disher's early last week, and after staying for a little while went away. On Saturday he returned and informed Mr. Disher he had been in Hamilton playing the races. There were no races in Hamilton, however. He is about 40 years of age, and has a wife and family in Middletown.

The officers left for Niagara Falls on an early train with the prisoner. Chief Parnell got a telephone message from Chief Moore, Niagara Falls, that Bailey had refused to go across the International bridge, having reconsidered his decision not to fight extradition.

Brave Rescue By Leslie Howden

Local Youth By Plucky Effort Saved Three Boys From Drowning.

A plucky and heroic deed was that done by Leslie Howden 16 years old, on Monday night. Three boys named respectively Harry Evans, jr., Charlie Eggleson and Sutherland, all about 12 years of age, were swimming in Webber's or Whitjaw's creek, near Howden's abbator. One of the lads learning to swim, went to his sad, but the resulting mix-up was near ending the lives of the trio.

They all three had gone down twice, when Leslie Howden saw their predicament, and without removing any of his clothes, jumped into the water and succeeded in bringing them to a raft and subsequently to safety. It was a brave rescue, and well worthy of recognition by the R.H.S. One of the boys while being saved, clung round Leslie's neck, almost choking him.

For Cobourg By Automobile

Twenty-five guests of the owners of the new automobile left this morning for Cobourg at 7 o'clock, and will be back in Peterborough by 7 p.m. Among those named are: Messrs. Alex. Elliott, I. Eastwood, Bruce Lee, R. J. Munro, J. Cottingham, W. Snowden, E. Casselman, J. Roche, M. P., J. McGillick, Bobcaygeon; Geo. Henderson, Montreal; J. W. Brown, Toronto; Freeman, W. Duncan, M. Mitchell, J. M. Brooks, Rev. McCollum, A. Rountree, Geo. Graham, J. Elliott, J. A. Lawless and others. This will be a practical proof of the work that can be done by this new bus.

Another Large Local Industry

At a meeting held in Mr. O'Connell's office arrangements were practically completed for another new and important industry to be established in Peterborough. It is the Peterborough Steel Rolling Mills, and they will employ from the start at least 100 men. Those backing the scheme are all local capitalists. It is their intention to establish their works here, providing satisfactory arrangements can be made with the city council as to assessment, etc., and providing a suitable site can be obtained at a reasonable figure.

Among the shareholders in the new company are: Wm. Davidson, Alex. Elliott, W. H. Dunham, R. H. Fortye, Wm. Rudkins, F. J. Jameson, W. A. McNamara, A. Dunn, D. O'Connell, Hollihan, R. Munro, M. Stewart, W. G. Ferguson, R. S. Jackson, Frank Young, C. Currier, and others. Mr. D. O'Connell has been retained as solicitor.

Those Who Won Mr. Pringle's Prizes

Those who won the splendid silver medals so patronically given by Mrs William Pringle, principal of the Peterborough Business College for the best writers in the first form of the collegiate institute, fourth book classes, are as follows:

Collegiate Institute, No. 8.
Fourth book class, No. 1015
Third book class, No. 1111.

No. 12 of the collegiate institute, No. 1165, of the fourth book class, and No. 572 of the third book class, are worth of honorable mention. Each writer knows his or her number but it is impossible to give the names in this issue, owing to the absence of the Inspector from the city. The judges were Inspector Walker, Mr. E. C. Stighy and Mr. Pringle. If those to whom the lucky numbers apply will call on or telephone to The Times office we shall be glad to note their respective names.

BASEBALL.

Games in the Eastern League yesterday resulted as follows.

Baltimore 2, Toronto 3.
Newark 2, Buffalo 8, second game Newark 5, Buffalo 4.
Montreal 9, Jersey City 3
Providence 5, Rochester 3.

THE TURF.

A matched race will take place at Cobourg this afternoon in Donegal Park, when the two fast mares, Marie Wilkes, owned by Robt. Coyle of Cobourg, and Harry Threet, owned by Dr. Johnston, Peterborough, will meet for $100.

Dr. Johnston left for Cobourg yesterday and a number of local horsemen will go down today to witness the contest.

—St. Andrew's church has shown great enterprise by being the first organization to secure the new autobus for an excursion. Representatives of the church yesterday made arrangements with Mr. I. Eastwood for the use of car for Thursday. They will run hourly excursions, starting at eight a.m. from Central Park to Chemong. This will will be one of the most enjoyable outings on record in this city.

Damp Spring Weather Ruinous to Health

Causes Weakness, Headaches and Feeling of Unrest; the Cure is Simple.

That peculiar weakness so common in the spring, is demoralizing to body and mind alike.

Stupid, absent-minded and dull,—You feel the need of a stimulating tonic.

To impart quickness and great vitality to the entire system nothing acts like Ferrozone.

In a short time it makes you feel fit and fine, creates a feeling of youth and strength that's surprising.

Ferrozone revives and braces the sickly because it nourishes and builds up the organs that are weak. As a spring tonic, appetizer and blood-strengthener it is unequaled.

A well known resident of Utopia, Ont., Mr H. H. Postle, writes: "From long experience I am convinced that everyone requires medicine in the spring. As a rule the blood is thin and impure and the whole system is congested with poisons that should be carried off. I use Ferrozone because it clears up the system, gives you an appetite and makes you sleep well. One winter I had serious palpitation of the heart, nervous headaches, and an extreme tired feeling. Sleep was not restful and by spring I was in bad shape. I took six boxes of Ferrozone and was made the picture of health."

Ferrozone makes permanent cures. Absolutely safe because it is purely vegetable and contains no alcohol. Concentrated cure in tablet form,—that's Ferrozone, 50c. per box or six boxes for $2.50 at all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

PETERBORO JULY 17 1906

BRITISH ARMY REORGANIZATION

The working out of the new army scheme of Mr. Haldane will be watched closely the world over, and especially within the bounds of the British Empire. When the War Office was entrusted to a man who had earned a reputation for solid ability in law and economics, but who had no military experience, the curiosity which always greets a new administrator was tempered with respect and considerable expectation. From the new Cabinet there was a demand for immediate reform; Punch, however, represented the soundest policy when it presented Mr. Haldane in the guise of a chauffeur under a motor car labelled "War Office," which he was examining most intently and thoroughly, while a warlike Britannia was urging him to make a start. Under the car Mr Haldane has remained until now, when he has emerged with his first army proposals.

Their main feature is the maintenance of an expeditionary force of 150,000 immediately available for war, with a territorial organization behind it capable of backing up and expanding the forces abroad. The use of the militia is a fundamental principle. The regular forces will be reduced by 20,000 men. There is to be no reduction of the fifty-two battalions in India; but in the colonies there are to be twenty-five in place of thirty-two, and in Great Britain seventy-one in place of the present seventy-two.

Still Mr. Haldane states that he believes that the proposed reorganization will increase the fighting efficiency by fifty per cent. He claims that his plan will decrease the burden upon the taxpayer without decreasing the efficiency of the army. If his expectations are fulfilled, the force available for immediate service in emergency will be stronger by 5,000 men than any force Great Britain has ever had at its disposal in a similar state of readiness.

The evident uneasiness of Lord Roberts and other military authorities over the condition of the army will make the Empire cautious about expressing an opinion with regard to the Haldane reductions until they know more of their effects. This is a subject upon which Canadians cannot expect to command attention, even if we have opinions. We have not paid our entrance fee to the military club—though we are ready for extraordinary assessments in the form of contingents whenever the occasion arises. But the rumor that the fleet is to be weakened will excite disquietude here and throughout the Empire. This is hardly a time—when Russia is in revolution and the German Emperor never so active—for the British fleet to be headed toward the tail of the procession.

Shah of Persia Faces a Revolt

Teheran, Persia, July 17.—There is a growing political unrest among the mullahs and divinity students who have broken out into active opposition to the authorities and forcibly released a professor who had been imprisoned on the charge of using seditious language. In an affray a student was killed and two were wounded. The heads of the clergy immediately assembled in the great mosque and issued insistent demands for the immediate granting of the reforms.

All the shops, except the butchers and bakers, are closed, the city is patrolled, but nothing thus far has been done to satisfy the demands of the malcontents.

A movement is on foot in Persia to obtain a constitutional government. A thousand merchants and mullahs suddenly left Teheran the capital, as a protest against the government of the Shah, and in a neighboring village took steps to establish a representative assembly, to be known as the "House of Justice," over which the Shah was to preside.

The advisers whom the Shah summoned from Europe urged a progressive policy, and the Bahists, a strong sect of Mohammedans, exerted strong pressure in the same direction. The question of the official establishment of representative assembly was thoroughly discussed and the grand vizier was charged with the task of formulating the plans.

Young Men in Girls' Attire

Montreal, July 17.—Arrested on the charge of masquerading in female attire at Dominion Park at night, two young men spent the night in durance vile at East St. Catherine street police station. The young men stated they were employed as waiters at the Queen's Hotel. The feminine make up of the masqueraders was so clever that on arriving at the park they were soon treated to all side shows by several obliging young men.

After rides on the Scenic Railway and a couple of turns down the chutes, a visit to the incubator and a tour of the House of Nonsense, the behaviour of the mimitation females became so hilarious that the attention of the police were attracted, and the two were asked to step into the manager's office.

Hats and wigs were quickly removed and the curtain fell on two crestfallen young men trailing their skirts behind them, being marched to police station. The young gallants who had spent their dimes on the stylish looking, pseudo girls, returned to their homes sadder but wiser youths, with the memory of a surprising denouement to their evening's outlay.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company has made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger scow which goes with her, has been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats on the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets, 25c. each, may be purchased at the Street Railway Office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

POLICE STOPPED SWIMMING.

St. Catharines, July 17.—A matched swimming race between a young man and a young Scotch woman, just recently out from the Old Country, which was to have taken place Sunday afternoon in the Port Dalhoubie harbor, was stopped by the chief of police. They had intended to swim half a mile. A good many people from here went down to the Port to see the race and were disappointed.

Your Liver

You cannot possibly enjoy good health when the liver is inactive and the bowels constipated. You must keep the liver active. You must have daily action of the bowels. Ask your doctor if this is not true. Ask him at the same time if he knows a better laxative than Ayer's Pills. All vegetable, sugar-coated. Dose, only one pill, at bedtime.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

Provincial Loan of $3 000 000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1906, invites subscriptions from the public for a loan of $3,000,000 on bonds of the Province of Ontario, dated 1st July, 1906, and payable

$1,500,000 on the 1st July, 1926,
$1,500,000 on the 1st July, 1936,

with coupons attached for interest at the rate of $3½ per cent. per annum payable half-yearly on the 1st January and the 1st July in each year at the office of the Provincial Treasurer, Toronto. Bonds will be of the denominations of $20, $500, and $1000, and will be payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders may be exchanged for Ontario Government Stock bearing the same rate of interest.

The issue price during the month of July, 1906, will be par, and after the 31st July, 1906, the issue price will be par and accrued interest.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of amounts up to $1,000 will be required to send certified cheque with the application. For amounts over $1,000 payment for subscription may be made in instalments 10 per cent. on application, 10 per cent 1st August, 10 per cent. 1st September, 10 per cent. 1st October, 10 per cent 1st November, and 50 per cent. 1st December, 1906, with privilege of paying at an earlier date, the interest on instalment subscriptions being adjusted on 1st January, 1907.

In the event of any subscriber for bonds payable by instalments failing to make payment of subsequent instalments, the bonds may be sold and any loss incurred will be charged to the purchaser in default.

Forms of subscription (when payable by instalments) may be obtained on application to the Treasury Department.

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario and is chargeable thereupon.

All cheques should be made payable to the order of "The Provincial Treasurer of Ontario," and subscribers should state the denominations and terms (20 or 30 years) of bonds desired.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, 27th June, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OR CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum, for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorised publication of this advertisement will not be paid for.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $228,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

"I am ordered to set you at liberty." pitality." He rose and bowed, while the sergeant opened the door, and the two passed out into the noisome, brawling street.

"Here is a double pass," continued Dundas. "That, I believe, ends my bos-

The sun had set—the sky's golden ivory still moist for the first stroke of night's soft brush to paint in the stars. A thin new moon tilted over the musty purple of the river. Reaction was come. She shivered again and put out a hand toward him.

"Speak to me," she whispered.

"Rather," he said, "tell me at what house I can safely leave you."

"Leave me?"

"Aye. You have made me take my life at your hand. Spare me further humiliation if you can."

She had not thought of this emergency. Delay would spoil all. And even if he reached the American lines—ah, none knew better than she why he should not go there!

"I am in danger," she invented breathlessly; "in great danger—I cannot explain now—here in Yorktown. I have not a friend within the walls, no spot where I can be safe. I ask you to take me away."

"Let us go, then, toward the bastions," he said, turning.

"No, no!" She caught at his arm. "I cannot go into the American camp. Bethink you, 'tis night. I must get to Gladden Hall. See—here is the river. 'Tis but a few miles. Could you row me so far, think you, against the current?"

He did not reply, but led the way to a path which zigzagged down the bluff to the river. It was the spot where they had first met. Then the long stretch had bristled with shipping; now the wharfs had been pulled up to build rat rotted lean tos, the bank was hollowed with dugout shelters from the shells, wherein wounded soldiers played at cards by new lit candles, and the water's edge was a jumble of ownerless barges and periaugers and a tohubohu of shouts and wranglings. Along the line of craft, where the tide scum shuddered in with spangles of seaweed and chunks of wreckage, sentries patrolled ceaselessly with keen outlook for river deserters.

Armand chose a narrow skiff, found two oars for it and placed her in the stern as a lieutenant examined their pass. Then, with a strong shove, he sent the boat darting out on to the broad, smooth, surrippling current.

It had scarce drawn well away when a figure thundered down the bank.

"Call that boat in," he cried, "or have the sentries fire on it! That man's name is Armand. He is an escaping prisoner."

"Oh, no, Captain Jarrat," returned the lieutenant composedly. "You have the name all right, but he had a pass signed by Lieutenant Colonel Dundas. I know the signature well enough. This siege routine is playing the devil with your nerves, captain."

"A pass!" shouted Jarrat frantically. "By the ghost!" and went up the bank on a run.

Colonel Dundas was gone from the barrack, and Jarrat could no more get speech with Cornwallis than could Anne a half hour before. But the conference at headquarters ended while Jarrat waited, and the earl came out in no pacific humor. As luck would have it, Colonel Dundas was with him.

There followed an interesting scene, which left Lord Cornwallis in nastier mood than ever.

"She fooled Tarleton once," he swore. "Now 'tis you, Dundas. From under your very nose, too!"

And Dundas, perspiring, wholly astonished, hastened to order a longboat in pursuit of the skiff on the bare chance of overhauling the fugitives before they reached the American front.

Jest, however, made a different calculation.

His cobra hate, inflamed by the sight of Anne in the boat, leaped to a rapid conclusion. She had discovered that Armand had been exposed; they had taken the river way—the only way to avoid the Americans. So he argued. And whither did they fly? Where else than to Gladden Hall, now deserted, where she thought to conceal him till the hue and cry passed—where she may have bidden horses. The longboat would probably be halted by the shore pickets—the skiff might slip through.

Two hours after this ratiocination Jarrat was caught and held on the right skirt of the besieging army as a deserter from the town, and forthwith he demanded to be taken to General Hazen's headquarters.

There the general, seated in his tent, had just penned the last page of a letter.

On the 14th, they had another Drubbing. Today, 17th, Ld Cornwallis sent a flag requesting a cessation of arms & a commission to form a Capitulation for the Army & the surrender of the shipping & posts of York & Gloster. Tarleton has the Earl's letter to carry in to Knight of his estate. My next shall be more particular. In the meantime be assured of the sincerity of yr real friend and Obdt Humble Servt

[To be continued]

Declines to Be Premier.

St. Petersburg, July 16—The Associated Press learns from a reliable source that Emperor Nicholas has offered the premiership to Dmitri Shipoff, but that the latter has refused the post on the ground that he is now a member of the majority party in parliament, and that the only possible cabinet in the present crisis is one composed of Constitutional Democrats.

Prominent Constitutional Democrats think the premiership will now be offered to Count Heyden, who, though he has the sympathy of parliament, will be unable to form a cabinet although scheduled for a place in the coming Constitutional Democratic ministry.

A Rare Chance
TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Her bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

100% ADVANCE JUNE 1

Present Price of Stock FIVE Cents per Share

If you want to get in on the ground floor before the price advances to 10 Cents per share, NOW IS YOUR CHANCE

When The Cold Leaf Mining, Milling & Drainage Company was organized the officers of the company foresaw the certainty of a big mining boom in Clear Creek County, Colorado, U.S.A., and they congratulated themselves on securing a property which showed 1,500 feet of development work, and could be classed with the MINES of the region.

The steady increase in the mineral production of the county, new strikes, the development of old mines at depth (proving the continuity of the ore bodies and the increased richness of the ores), the availability of mining supplies, the abundance of water the great amount of timber for mining and fuel, the adaptability of the topography for deep tunnel mining, and the large number of milling and smelting plants, means that the district possesses all the elements of successful and economical mining.

It was a foregone conclusion that investors would awake to a realization of the conditions, and inaugurate a new boom in 1906. It is but natural that they should desire to place their money in a locality that shows more PROVEN MINES than prospects, and where the chances for speedy returns are greater than the chances of loss. Because of economic conditions money will go farther in development work and bring RESULTS quicker. Many new companies have recently been organized, foremost among them being The Gold Leaf Mining, Milling & Drainage Co. Stock in all Clear Creek County companies is finding a ready market among both Eastern and Western investors, and in consequence The Gold Leaf Mining, Milling & Drainage Co forestalled the boom by securing one of the best mining propositions in the locality, consisting of 16 mining claims, situated on Standard Mountain, in the Ohio and Jackson Mining District, two and one-half miles south of Idaho Springs. The Gold Leaf properties are credited with a past production of $75,000, and the tunnel is being steadily driven toward the rich ore bodies from whence former shipments were made. The old workings are now drowned with water which the tunnel will drain and also give unlimited stoping ground for the ores. Surrounding mines have produced over $11,500,000 Now is the time to purchase stock. When we re-open our ore the opportunity will be lost to investors.

Don't overlook this exceptional opportunity! Think of the acreage; Think of the development work done; Think of the past ore production; Think of the future possibilities; Think of investing—THEN ACT AT ONCE!

Sufficient stock subscriptions have already been received to carry our Frontier Tunnel a distance of 600 feet, or to the Standard Vein, from which point ore shipments will be resumed. Future stock subscriptions will be applied on the purchase of a power plant or on contracts to facilitate the work of driving the tunnel.

Our General Manager estimates that the completion of the tunnel will place at our disposal OVER FOUR MILES OF ORE, aggregating 96,000,000 tons.

$5.00 DOWN
AND
$5.00 PER MONTH
FOR FOUR MONTHS WILL BUY
500 Shares
OF STOCK WHICH MAY SOON BE WORTH
$500.00

This opportunity to buy stock will not last always. Price will promptly advance May 1st, and shortly thereafter be withdrawn from the market.

On the Ground Ahead of the Boom

BEST ADVERTISING

These Medical Facts

You Can Study With Profit.

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of the transfusion of fluids through its component parts.

Up to a certain point the body has power to object to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay, and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable, contain no mercury, no bismuth, no injurious metallic ingredients of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved, and famous cures made every day by Dr Hamilton's Pills, as this letter proves:

From Newfoundland, Miss Lillian Anthony, of Upper Gullies, Conception Bay, writes: "In praise of Dr. Hamilton's Pills, I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples, but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Insist on having only Dr. Hamilton's Pills, 25c. per box or five boxes for $1.00, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—Have you paid your taxes yet? If not, why not?

—There was no session of the police court yesterday.

—The Board of Works met last night, all members in another column.

—Children's two and three piece garden tools on sale at 10c. and 25c. Times Bookstore.

—The annual outing of Bethany Tabernacle will be held down the river today to Jubilee Point.

—The annual Sunday school outing of All Saints' church will be held today via Mr. Julian, Stony Lake.

—Mr. F. R. J. MacHenry, the local plumber has sold his automobile to Mr. E. Hunter, of Loxton street.

—Lieut.-Inspector Joseph Stewart, has issued his first order to his forces to Mr. Alex. Donahoe, of the C. G. E.

—Boating on the Otonabee river was positively out our last night owing to a drive of logs passing down the river.

—The evening service at First Church of Christ, Scientist, has been dispensed with for the remainder of July and August.

—This is the time of year that property owners say, "How such an owner can rent his real estate? By claim he must 'Shoot back.'"

—Mr. Rye who runs a boat house down the river has had one canoe destroyed, and one missing presumably owing to jamming by logs.

—Court Little John Committee, appointed to work out details, met last night re their annual excursion to Toronto and Niagara Falls on Civic holiday.

—The C.O.F. of Orillia and Midland are coming to the city on July 24th. The local brethren of St. Peter's Court will entertain the visitors whilst in the city.

—The first moonlight excursion down the river under the direction of the Peterborough Radial Railway Company, was held yesterday evening, the boat leaving the street railway wharf at 8.15 o'clock.

—A meeting of those interested in holding a fall fair in this city will be held in the city council chambers on Wednesday afternoon, July 25th, to talk over the possibility of holding such a boom for Peterborough.

Four 15 Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.50 and 7.15 a.m., 1.15 and 9.49 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

City Council To Meet Tonight

A special meeting of the city council has been called for tonight at eight o'clock. In addition to the regular business, such as reading reports etc., there will be a bylaw to confirm the granting of the contract to R. Sheehy for the sewers; the repeal of the cigarette bylaw, and probably the passage of a new and larger bylaw, and a communication from the C.G.E. Co. in reference to gravel for the new buildings which are about to start shortly. It is also probable that there will be some discussion on the action of the I.O.O.F. in connection with the city's plan of assisting in the entertainment of the delegates to the grand lodge meeting. Several of the Oddfellows are aldermen, and they will probably have some explanation to make.

Site For New Normal School.

Yesterday afternoon several citizens were discussing the site that may be chosen for the local normal school. It was proposed by one of them, and his idea was generally endorsed that the lot on the north side of London street, east of Harvey street be chosen as it is easy of access, central and commands one of the finest views in the city.

Boats Inspected By T. P. Thompson

As noted in yesterday's Times, Mr. Thomas P. Thompson of Kingston, is in the city on an official tour of inspection. Among the boats to be inspected by him are:

Rathbun Co.'s steam puff "Colocong," and alligator, "McClintock."

Yacht "Flash," Rosemeath, Amo Shearer, owner.

Steamer Rainbow, Birdsall's Landing, Rice Lake, P. Burnett, owner.

Steamer Monarch, Gore's Landing Harris & McAllister, owners.

Yacht Mermaid, Jas. W. Wedlock, owner, Wedlock's landing.

Steamer Water Lily, Capt. W. H. White, owner, Peterborough.

Yacht Archemise, L. LaPlante, owner, Peterborough.

Yacht Mollie, Messrs. McBain and Stratton, owners, Peterborough.

Yacht Myrtle, R. S. Clarry, owner, Peterborough.

Yacht Victoria, R. B. Rogers, owner, Peterborough.

Steamer Beaver, Zack White, owner, Lakefield.

The steamer Beaver is at Curtis Bros.' landing, loading a scow with brick for the new House of Refuge at Lakefield.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Arrangements For Visiting Bowlers

The Peterborough Lawn Bowling Club has made arrangements for the reception and entertainment of the Old Country bowlers on the occasion of their visit here on Wednesday, August 1st. The visitors will be given a trip over the lift lock by the city and will be banqueted by the bowling club in the evening after the matches in the afternoon.

The following committee was appointed to take charge of the banquet and act in conjunction with the civic committee:—Dr. Boucher, Dr. Caldwell, Dr. Greer, John Crane, D. H. Moore, T. P. Matchews, R. M. Waddell and G. H. Giroux.

The following skips were appointed in connection with the games with the Old Country visitors—Dr. Boucher, D. H. Moore, R. M. Waddell, Dr. Greer, G. H. Giroux, Robt. Kerr, alternate.

Lindsay Personals of Interest.

Lindsay Post: Mr. J. Thompson, of Peterborough, was in town yesterday —Mr. George Brundrette, of Peterborough, was in town on Saturday —Mr. T. E. Dehart, of Peterborough, was in town today on business —Mr. A. O. Hogg and Asa, Murray, of Mariposa, was in town today —Miss Cloris Hutchinson of Jeanville, and Miss Ritie Hall, of Peterborough, are the guests of their friend, Miss Pearl Fanning, Williams street.

MADE FROM NATIVE ROOTS.
SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

Wonderful Record In Gold Ore

Good Opportunity to Secure Promising Stock at Low Price.

As our readers are generally aware in most gold mines it is found necessary to go down scores if not hundreds of feet before getting to the richest gold laden ore.

The Manhattan-Midas Mining Co of Denver Co., have a property, fully paid for, on which they have discovered a vein at 10 feet that assays at $119 per ton. This is somewhat unique in the history of gold mining and will doubtless result in quick fortunes for those lucky enough to secure stock on the ground floor.

The Manhattan-Midas Mining Co. is incorporated with a capital of 1,000,000 shares at a par value of $1 each. This company has not paid any promotion fees, nor has it any large salary list, but is simply in the position of owning a good thing but requiring money to develop it. They are, for a limited time only, offering stock at 10 cents per share, until enough is subscribed to work their mine. After that all necessary additions or improvements, and good dividends will be paid for out of profits. In their offer of this stock at 10c. per share, the company will sell on time, that is in ten equal monthly payments of allow a discount of 10 per cent. discount for cash. For full particulars or stock address O. A. Erdman, secretary, Jacobson Building, Denver Col., or care State Bank and Trust Co, Tonopah, Nev., U.S.

In Womanly Ailments and Weaknesses

Dr. Shoop's Night Cure Soothes, Heals and Cures while the Patient Sleeps.

The best remedy which physicians know for Female Weaknesses is composed of parts of a certain white lily. To this are added other remedies which draw out the poisons and heal the inflamed membranes. This soothing antiseptic local application is known by druggists and physicians everywhere as Dr. SHOOP'S NIGHT CURE—because it cures while the patient sleeps and the morning finds the pain, the inflammation, the discharges, abated. The lives of many women are records of martyrdom. They suffer, they are sick, they never know a well day—yet all this suffering and sickness is unnecessary. Every ailing woman may be made strong—may be made to enjoy the experience the vigor and vitality of robust and perfect health. By healthy womanhood. It is to this ever-increasing number of suffering women that Dr. SHOOP sends his message of hope and life and good cheer. It is to them Dr. SHOOP'S NIGHT CURE will come as a Balm of Gilead. You may not know your trouble by the same physicians give it, but remember DR. SHOOP'S NIGHT CURE may be relied upon in all cases of womb ulceration, falling of the womb, pains in the womb or ovaries, leucorrhœa, (whites), inflammation, congestion, irregular or painful menstruation. Ask for Dr. SHOOP'S NIGHT CURE. Recommended and sold by

The Cigarette Bylaw Still Stands Good

City Council Voted Down Its Amendment--Salary for Water Commissioners From Beginning of Next Year--Fixed Assessment for Colonial Weaving Co. to Be Considered.

The city fathers met in special session last night, when there were present, Mayor Henry Bee., Aldermen Johnston, Hicks, Mason, Elliott, Ball, Wilson, McIntyre, Duncan.

The minutes of the last meeting were confirmed.

COMMUNICATIONS.

Communications were received as follows.

From the water commissioners as follows;—

The water commissioners find that a very considerable amount of their time has to be devoted to the many duties devolving on them and they respectfully request that you fix an allowance for their services under and as you are authorized to do by the Water Works Act.

Their duties and consequent responsibilities have grown to a great pace since the works were taken over and the rates reduced. In four years there has been an increase in the extent of the work and in the receipts of over 35 per cent.

Under the company's management a sum of $300 per annum was paid to the chairman and $100 to each of the four directors, in all $700 for their services.

The commissioners suggest that they be given authority to apply out of surplus receipts by them the sum of $500 for the purpose proposed, of which $250 to be given to the chairman, and $125 each to the other commissioners, commencing with this current year. Signed by all the commissioners.

From Mr. W. Matchett, secretary general committee I.O.O.F., thanking the council for the offer to help entertain the delegates to the Grand Lodge, and also expressing the society's inability to accept the same under the circumstances.

From E. B. D. Ball enclosing a letter from the Bell Telephone Co., stating that they cannot sign the draft contract which was submitted to them by the city. The principal objection was to the time limit for the use of the underground work the company intended to put in. At the same time the company would be willing to meet representatives of the council with a view to preparing a suitable agreement.—Received.

From R. M. Denniston, petitioning against the construction of a granolithic walk on George street from Smith street south, to lot 19 plan 42.—Board of Works.

From the Attorney, M. F. Ackess and other ratepayers, asking that Dalhousie street be opened up for traffic, east of George street to the C.P.R. tracks.—Board of Works.

From W. D. Lighthall, hon. sec.-treasurer of the Union of Canadian Municipalities, inviting the mayor and council to attend the Sixth annual convention of the society to be held at Halifax on August 14th, 15th and 16th.—Received.

From John Crane, manager of the Ontario Bank, notifying the council that the balance of the account of the municipality is $29,223.54.—Received.

From W. P. Hubbard, Toronto, president of the Ontario Municipal Association, requesting the attendance of the mayor and representatives of the council at the annual meeting of the body at Toronto on August 29 and 30th.—Received.

From the Colonial Weaving Company as follows.—Gentlemen, Under assessment notice served us we are assessed for the sum of $6850. You will no doubt remember that under the arrangement made with your honorable body our assessment was to be fixed at the sum of $1000 We will thank you therefore to see that matters are so arranged that our assessment will be on $1000 only.—Court of Revision.

From J. M. Green, Bandmaster of the Salvation Army Band, thanking the council for the grant made to that organization.

CLAIMS FOR DAMAGES.

From property owners as follows:—

Gentlemen.—We the undersigned property owners on Bethune, McDonel and Aylmer streets, petition your honorable body to take such prompt action as will prevent a repetition of the flooding of our property by opening up the water course between Murray and McDonel streets on Bethune street, or by any other means that will prevent the destruction and damage caused by the blocking up of the above drain.

The following claims for damages were presented,

Thomas Sullivan, 261 Murray fly garden and cellar flooded, damage $20

J. Derocher, 260 Murray street, $10 damages.

W. H. Roberts, 493 Bethune street, garden and cellar flooded, damage $5.

Ellen Sheehan, $5 damages.

S. A. McCaul, 501 Bethune street, water in cellar, $2.

J. W. Petits, 505 Bethune street, damages $3.

W. H. Bolton, 507 Bethune street, potatoes and fruit in cellar, flooded, $3 damages.

Mrs. Geo Ritchie, 256 McDonel, cellar flooded, $1 damage.

Geo Sanderson, 254 McDonel St., cellar flooded.

John Sim, 243 McDonel street, damage $10.

Jas Stewart, 240 McDonel street, $10 damages.

Mrs. Toole, 246 McDonel street, $10 damages

—Board of Works.

THE CIGARETTE BYLAW.

Several local tobacco dealers, with Mr. D O'Connel, their solicitor, were present in opposition to the recently enforced cigarette bylaw, fathered by Ald. Ball.

Mr O'Connel pointed out that his clients protest against their business being interfered with and being unjustly discriminated against by the present bylaw. The bylaw, Mr. O'Connel argued has not served its purpose, and never will. There are too many ways for boys to secure cigarettes for the bylaw to stop the sale to them. Besides there are a large number of men who indulge in cigarettes, to whom this bylaw will prove a hardship. As for hotelmen promising to refrain from selling cigarettes, that is all nonsense. They have a right to sell them, and must keep them for the accommodation of their guests. The city has no power to prohibit hotels from dealing in cigarettes, and the placing on of a prohibitory license of $200 on tobacco dealers, will drive the monopoly of the cigarette trade to the hotels, where young men of tender age will be driven for their cigarettes and thus brought in contact with undesirable influences. Even the small boy can get them from the hotel directly. For this reason alone the bylaw is denounced by clergymen and freeggiving citizens as one which defeats the object for which it was enforced. The most reasonable way to deal with this matter would have been to place a license fee of $200 on the sale of all tobaccos and cigars. This is what the tobacco dealers now ask as a remedy for their grievance, or else repeal the bylaw altogether. During the three weeks the bylaw has been in force, local tobacco dealers have suffered considerably.

Ald.—Mason suggested that the bylaw be amended by providing for a license fee of $200 on the sale of all tobaccos.

Ald. Hicks said that when this bylaw came up first he thought a small fee should be placed on the sale of cigarettes so as to prohibit the small grocers from selling them to small boys. He did not think the council would be forcing the small grocers fairly by placing a high tax on the sale of all tobacco.

Ald. Elliott thought it was up to the police to see that groceries do not sell cigarettes to boys. We should either repeal this bylaw or make the sale of cigarettes prohibitory.

Ald. Johnston pointed out that the bylaw does not prohibit the sale of cigarette paper and tobacco. He thought the Government should in the interest of the nation, prohibit the manufacture of cigarettes.

Ald Ball questioned whether the bylaw is a failure. He did not think there are hundreds of boys. Before the bylaw came in force he would see scores of boys with cigarettes in their mouths, but during the past three weeks he has not seen one boy in that neighborhood smoking cigarettes. Ald. Ball repudiated the statement that the men petitioning against the bylaw represented the tobacco trade of his city, in which there are some 80 or 90 tobacco dealers. It is not the cigarette made by the purchaser of tobacco and paper which is injurious, but the doped manufactured article which is sapping the health and foundation of our young people today. I, as a man, could not do this in a business which is an injury to my fellow man, and I am surprised that any respectable citizen should do so. The cigarettes as a solution to fathers and small sons, and in some cases a sideline with gambling. Read your papers and you will learn the better facts.

Continuing, Ald. Ball pointed out that when considering his bylaw, Mr. Brooks, president License Victuallers' Association, and Mr. Rountree, secretary, told him distinctly that there were only two or three dealers handling cigarettes, and they did not wish to handle them at all, and would not do so should the bylaw come in force. These gentlemen, he thought, should be authority enough for their association, and their statements he offered to the council when framing the bylaw. Then one prominent man in the tobacco business expressed his opinion that the license should be $500, while another asserted that he did not wish to handle cigarettes at all; there is more money in cigars.

Mr. O'Connel in reply remarked that the nine or ten tobacco dealers he represents are of irreproachable character and they resent the aspersions of Ald. Ball. They are carrying on a legitimate business, and are not in any way gamblers. This legislation by the city council is the result of the dream of a revisionary reformer, who by his measures is bringing ridicule on himself and his colleagues.

Ald. Wilson and Graham, remarked that this amendment would not effect the sale of cigarettes whatever. Either stand by the bylaw or throw it 'ou altogether.

Ald. Elliot moved, seconded by Ald. Hicks,—That the bylaw be amended by placing a license fee of $10 a year on the sale of cigarettes.

Ald. Duncan said he was not in favor of a high license tha would shut off the small grocers from selling tobacco, many widows are keeping such stores and every little revenue is a help to them.

Ald. Mason's motion was lost, thus leaving the bylaw stand as it was.

The vote was,

Yeas—Aldermen Johnston, Graham, Ball, Duncan, Wilson and McIntyre.

Nays—Aldermen Hicks, Mason and Elliott.

It might be here pointed out that at the inception of this measure, Ald. Ball suggested that $50 would be a sufficiently high fee for the sale of cigarettes, but owing to pressure from Ald Mason the fee was fixed at $200 The object of the bylaw was to stop boys from smoking cigarettes.

His Worship pointed out that the bylaw was passed on the understanding given by Messrs. Brooks and Rountree that the hotels would not sell cigarettes. Had the council thought otherwise the measure would not have come in force.

Ald. Mason at this juncture moved that the bylaw be rescinded.

After considerable cross-firing, the worthy aldermen were apparently agreed to disagree in the matter, all of which resulted in the council adjourning on motion of Ald. Wilson, seconded by Ald. Ball.

And the cigarette bylaw still lives as originally framed and recently enforced.

SALARY FOR COMMISSIONERS.

The water commissioners applied for a yearly grant of $500, to be divided amongst the three commissioners as follows; chairman $250, the others $125 each, such monetary recognition of their services in their important office to take effect from the beginning of this year.

Ald. Mason moved, seconded by Ald. Hicks,—That the water commissioners be allowed $500 between them as a slight reimbursement for their valuable services to this city in their important position.

This amount would come out of their surplus from water revenue.

Ald. Ball moved in an amendment, seconded by Ald. McIntyre.—That this matter be laid on the table till the last meeting of this year.

Ald Ball believed that such measures should come in force at the beginning of the year.

Ald. Mason remarked that he would be willing, if necessary, to let the proposed salaries take effect at the beginning of the year.

Ald. Elliot was in sympathy with the resolution, and also pointed out that the chairman of the Board of Works, Ald. Hicks, deserved to be recognized similarly for his arduous and indefatigable labors in the city's interests.

To Ald. Duncan, his Worship explained that the commissioners were asking for this salary to take effect from the beginning of 1906.

Ekel and every one of the aldermen spoke in eulogy of the effective work accomplished by the water commissioners.

Ald. Ball while moving as he did, readily acquiesced in this and expressed his opinion that the commissioners should be financially recompensed for their labors. Such recognition to take effect at the beginning of the year. He was on principle opposed to raising or creating salaries in the middle of the year. The ratepayers at the beginning of each year should understand exactly to what amount civic salaries will reach.

Ald. Ball's amendment carried, and the commissioners request was granted, but to take effect at the beginning of 1907.

COLONIAL WEAVING CO'S CASE.

Ald. Elliot offered that the Colonial Weaving Co. had not been fairly dealt with in the matter of their assessment In 1902 they were over-assessed. In 1902 they were promised a fixed assessment of $1,000 and a bylaw drawn to that effect. And now the city repudiates its action, in consequence of which this company's assessment is now $9,500. He strongly urged that the company be now given a reasonable fixed assessment.

His Worship pointed out that the Colonial Weaving Company's bylaw was voted down at the beginning of 1903, in company with two others, for cogent reasons.

Ald. Hicks here moved, seconded by Ald. Mason,—That the matter of fixed assessment for the Colonial Weaving Co. be referred to the Manufacturers' Committee—Carried.

BYLAWS.

A bylaw to authorize a grant of $150 to the Salvation Army fund, passed its several readings. Under the provisions of the bylaw the fund will have to play in one of the parks to be designated by the chairman of the Finance Committee.

A bylaw to authorize the construction of sewers as local improvements, to execute an agreement therefore, to make temporary advances for the cost thereof, passed its several readings.

Women with weaknesses should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, It is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Agree to Forbid Pelagic Sealing

Great Britain, Japan and the United States Have Reached an Understanding.

Victoria, B. C., July 19.—Victoria sealing men are advised that negotiations are virtually concluded between Great Britain, Japan and America for the international extinction of pelagic sealing, the fleets engaged in the industry and operated from Victoria and Hakodate being purchased by the United States, with compensation for prospective business, and (at the instance of Sir Henry Durand, British Ambassador at Washington) all killing at the leased rookeries of the Pribyloff Islands being suspended for at least one year, despite energetic opposition by the lessees, The North American Commercial Company. The agreement as between Britain, Japan and America will be executed, it is expected so soon as the Secretary of State returns to Washington, and it will then be submitted for assent to all other maritime powers who have already been consulted, as that the purpose sought shall not be defeated by sealers placing their vessels under other flags.

The price to be paid Victoria and Hakodate sealers will be fixed by a commission including representatives of America, Britain, Japan and Canada. The agreement would have been reached some time ago had not Sir Henry Durand pressed his demand for a cessation of rookery killing almost in the nature of an ultimatum.

SEALERS DO NOT LIKE IT.

Although the negotiations in this matter have been pending several years being temporarily suspended by the Russo-Japanese war, the Victoria sealers have not been consulted therein, nor do they relish the prospective termination of their business now that sealskins are at their highest record price, even with the salve of indemnification for prospective losses.

They are informed that the agreement can scarcely be concluded before the December sitting of Congress and delays in consultation with assenting foreign powers will probably enable the fleet to operate yet one more season on the British Columbia coast and in Behring sea next year. It is believed here that the other signatories will insist upon non-renewal of the lease of killing rights held by the North American Commercial Company from the United States upon its expiring in 1910. At present the company pays an annual subsidy of $60,000, $2.62 1-2 per skin as a special tax, 50 cents per gallon on seal oil, and is obliged to provide the natives of St. Paul and St. George Islands with salt, salmon, 60 tons of coal annually, repair native dwellings, medical attendance, schools and churches.

BASEBALL

Yesterday's baseball games in the Eastern League resulted as follows;

Baltimore 4, Toronto 5.
Newark 3, Buffalo 7.
Montreal 4, Jersey City 2.
Providence 1, Rochester 7.

A Hallelujah Wedding Celebrated

Yesterday evening the local Salvation Army barracks were crowded by a large audience who attended partly out of motives of religious origin, and partly to enjoy the impressive ceremonies concurrent on a Salvation Army wedding.

The happy couple were Miss Maud Froom and Mr. Wesley Boorman, both of Peterborough. The young couple came to Canada from Tunbridge Wells, Wales, and have made many friends here. Staff-Capt. McAlmond, most efficiently tied the nuptial knot. During the evening there was held a welcome meeting for the Cadet Corps, who have been absent during the past two weeks. All the large crowd present thoroughly enjoyed the wedding ceremonies, and much praise was given the army for the good send off they gave the happy couple.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

Harry Direct Was Beaten

A Peterborough horse yesterday met a t Waterloo at Cobourg. Our fast horse owned by Dr. Johns on, v.s., and Mr. Nesbitt, was entered in a matched race, against Muriel Wilkes of Cobourg, at that sleepy but pretty old town, for a purse of $200. The race track was absolutely crowded by the citizens of Port Hope and Cobourg, as much interest had been aroused by the race.

In the first heat Harry Direct won hands down, but Muriel Wilkes won the next three heats each time, by only enough to win. The betting at the start was 100 to 50 against the local horse, so that those of our citizens who backed the local horse, did not have to take the tie path for home as they might have done, had odds been even.

About 25 of our local sports went down to the race in the new autobus, and got back last night about ten o'clock.

Indians Hoo-Doo Illegal Fishers

A short time ago a local citizen, whom, for reasons of this story we will call "Sundown" was down at Rice Lake on a fishing trip, as per usual. As he passed Kent's creek, he saw something that assured him illegal netting was going on. Being alone he did not care to tackle a gang of desperate fish netters. Taking, on to Jimdiver he found two Indians from Hiawatha and told them about the suspected proceedings. The Indians at once jumped into their canoe, and paddled to the creek. They searched carefully but could find no trace of nets. Then the Indians got busy fishing. Night came on and the two pulling their canoe up on the bank, prepared to spend the night there.

After a short time the splash of a paddle was heard. The Indians lay low. Shortly two men in a canoe set a large and expensive fish net. When they had set the net and had started away, the Indians hustled after, and began to pull up the net. The owners came along and remonstrated. "Oh, that's all right," said the Indians. "You had better go away or we will put you under arrest." The illegal fishers demanded to see the Indians' papers, to ascertain their qualifications as inspectors. "You come with me," said the Indian, "down to Hiawatha and I will show you my papers all right, and perhaps more than you want." "Say," said one of the netters, "if you want a $10 bill to pay my fine, here you are. Let me take the net, and you take the fine."

The Indian who was no more an inspector than a minister of the Gospel, pocketing the $10 and let the netters go.

The Indian who related this story to The Times man yesterday, concluded by saying, "We had a ——— of a time over that $10, and did not get sober for three days.

Brantford, July 19.—Several attempts have been made to blow up with gun powder the large drinking fountain in Victoria Park. Loud explosions have been heard and traces of powder found. Thus far the attempts have been futile.

"FEED UP"

Is the Way to Make Old Men Young.

One of the most remarkable evidences of the power of proper food is found in the following interesting story by a Canadian:

"I am now 71 years of age and have been ailing more or less ever since I was 16 years old, part of the time an invalid suffering with stomach and bowel troubles.

"About two years ago, having learned of the good Grape-Nuts food was doing for some friends of ours, I resolved to try it myself and I immediately found help—more vigor and power of endurance.

"That summer the heat did not affect me as it did before I used Grape-Nuts and after about four months constant use I began to realize what it was to be well and found my bowels adjusting themselves so that I am free from the old trouble. I had long despaired of such results and can safely say I am enjoying better health today than for many years past, for this wonderful food has literally made a new man of me." Name given by Postum Co., Battle Creek, Mich.

There is nothing wonderful about it, only sound, scientific reason that anyone can prove by trial.

Look in pkgs. for a copy of the famous little book, "The Road to Wellville."

Darkness Again Settles Over Empire

Duma's Threatened Appeal to Parliament Again Brings on Danger of its Dissolution.

St. Petersburg, July 19.—The political barometer is again falling. The confusion which seems to have taken possession of the upper spheres since the effort to form a coalition ministry failed, coupled with the alarming reports from the interior and the attitude of Parliament, make almost anything possible. There has been a marked renewal of apprehension that the crisis may end in a coup d'etat against Parliament. The assassinations of Vice-Admiral Choukinin and General Kozlov, the discovery that behind the murder of the General was a big plot to kill not only General Trepoff, but Prince Poutatin and other courtiers, and the general epidemic of assassination, which has terrorized no only the local authorities but even the police, together with the wild destruction of property by the peasantry in fifty a dozen Provinces during the last few days, have again strengthened the small part of the court which believes in resorting to "extreme measures." The adoption by the Lower House of Parliament of an address to the country will, it is feared, place in the hands of the revolutionists the needed lever to move his majesty. M. Petrazinski very warned the Lower House yesterday of the seriousness of the proposed step, but the majority of the constitutional Democrats, of which party he is a prominent member, seem to be convinced that they must hold the peasants at all hazards. The members of the extreme left seemed to court a fight, preaching open revolution from the rostrum.

The Novoe Vremya, which often reflects the views of the court, says that the adoption by the Lower House of an address to the country would go beyond the jurisdiction of parliament and virtually constitute an appeal from the Government to the people. The paper adds;

"With its adoption Parliament would cross the rubicon, abandon its professed policy of trying to restrain the country, and, instead of pacifying it deliberately pour oil on the flames."

OUTRAGES CONTINUE.

Despatches from the interior continue to roll without interruption stories of the burning of manor houses, robberies, murders, collisions between peasants and rural guards, and the hurried despatch of troops here and there. The center of the peasants' uprising is Voronezh Province, where the peasants in their wanton for the destruction of property do not discriminate between friends and enemies, as evidenced by the complete devastation of the estate of Kukushkine, one of the most prominent constitutional democrats in the lower house. Late reports describe the situation in that province as "hopeless" from the standpoint of the landlords. The situation is almost as bad in Podolsk Poltava and Smolensk provinces. In Tumbov province eighty peasants are reported to have been killed or wounded by dragoons.

The Duma yesterday began to debate the resolution condemning the Government's agrarian communique as an illegal act and reasserting the principle of expropriation. The resolution is practically an appeal to the people against the ministers of the crown Over sixty speakers have already inscribed their names. All who spoke yesterday for or against recognize the resolution as revolutionary. The Duma will probably pass the resolution by a large majority It is highly significant, too, that The Duma's first avowedly revolutionary step should be taken directly after the failure of the hopes of a constitutional democratic cabinet.

With the utmost secrecy, in the presence of Grand Dukes Constantin, Alexis, Boris and Dmitri, the Grand Duchess Elizabeth and a few faithful retainers, the body of the Grand Duke Sergius, who was assassinated in Moscow by the explosion of a bomb February 17, 1905, and which has been resting in a temporary vault, was last night interred in the crypt of the Tchudoff Monastery, in the Kremlin.

St. Petersburg, July 19.—As further proof of the change of spirit at Peterhof, it was learned yesterday that the Emperor Nicholas has requested the members of the Goremy-Cabinet to retain their posts.

Cheese Sold at 11 15-16 Cents

Brisk Bidding at Yesterday's Session of the Local Cheese Board.

There was quick bidding and good, action at yesterday's session of the local cheese board.

Before the regular business began the Secretary read a communication from Mr. Warde, the factory inspector, in reference to branding the cheese boxes. He said the best way to brand the cheese was to mark the weight on one side of the lap and the size on the other.

Mr. Whitten also stated that the sanitary inspector would be in this district in a few days and he advised all cheese men to get their premises cleaned up.

The first bid was 11 1-4 by Mr. Whitten (prawn then went up gradually up to 11 15-16c, and there stopped. Mr. Gillespie got the first call. There were 4576 boxes offered and of these he got 1329 boxes at 11 15-16c, 480 boxes at 11 7-8c, and 657 box s at 11 13-16c, or a total of 2466.

Other buyers were Mr. Wrigh on who took Ess-Emily, Warsaw, Long Peterborough and Cedarville at 11 15-16c

Mr. Cook took Indian River, Maple Leaf, Shearer and Freewerm at 11 7-8c.

Mr Warrington took Warminster Oakdale, Corlwyn and Hope at 11 13-16c.

Thus all were sold except Brickly, Shamrock, Ormond, and Melrose. The sellers for these factories stuck out for 15-16 and were consequently left upon the board.

Auto Car vs. Solid Pavement

Last night about seven o'clock as Mr. Hawley was at the helm of auto-car, numbered "R," belonging to Mr. McPherson, the George street furnisher, the auto and the pavement at the corner of McDonell and Water streets came into collision. The result for the first act was that the auto came down Water street at a quiet, subdued, respectful, not to say polite gait, quite irrevalent to the usages of these modern engines of destruction. The second act showed the front axles were bent like unto a letter S.

Act third will be the repair shop, and over this a veil is drawn, as also over the bill of repairs. Mr. McPherson, however, is one of those men that a little accident like this will not put down or lose an hour's sleep. The auto will probably be in commission by this afternoon.

Winnipeg, July 19.—The Methodist conference are sending Rev. Dr. Woodworth to England, where he will endeavor to get young men to man the mission fields, the church's work having out grown the supply available in Canada.

Canada's Most Attractive Trip

Wonderful Beauties of the St. Lawrence River Route.

This is the time of year when the head of the family considers how, when and where he and his family will take an outing. This Dominion of ours holds forth many attractive places of interest wherein to spend a few days or weeks with real enjoyment pleasure and health. Some of them are unfortunately "too great a distance and too inaccessible for the ordinary man's pocket.

One trip however that is not only comparitively cheap but perhaps the most beautiful in the country is the sail from Port Hope or Cobourg, down among the Thousand Islands, that so gracefully completes the many beauties of the St. Lawrence river. This trip is available at little cost by the splendid steamers of the Richelieu and Ontario Navigation Company

One has simply to take the "short hour's run to Port Hope and then embark on one of those flooring palaces that the company places at the disposal of their patrons. One then has several hours' sleep in a state room as comfortable as a room in any first-class hotel. The meals are beyond criticism.

The sail down the St. Lawrence among the rocky islets, many of them crowned with palatial summer residences is an experience long to be remembered.

Mr. R. A. Carter, the divisional freight and passenger agent, with head office in Toronto, spares neither time, trouble nor expense to ensure patrons of this line being treated as they desire. For particulars apply to either Mr. W. Bunton, C.P.R. uptown ticket agent, or to Mr. W. McIlroy, at the C.P.R. uptown office.

Mr. J. Mervin Has Cattle Killed

As Mr. John Ross, an employe of Mr. John Mervin, the Hunter street butcher, was driving twelve head of cattle from Omemee to the city on Tuesday afternoon, he had two of them killed by a G.T.R freight train at Swinton's Corners.

It seems that they turned at Middleton's school house on the second line, to cross the railway near Swinton. This crossing is in a swamp so the both sight and sound of an approaching train is not to be heard. Mr. Ross declares that he engineer did not blow his whistle on approaching the crossing, and thus the poor dumb beasts of toil was upon the cattle too quickly to get them out of danger.

Are You Often Bilious?

Read This and Learn How To Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile.

The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present. Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion.

Unlike ordinary medicines, which purge and give temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected.

Dr Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this by the statement of Mr. Fenwick Luddington, of New Harbor, N.S., who writes: "Three months ago I had no expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach.

"Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. Today I enjoy a good appetite, excellent digestion, and the best of good health. Dr. Hamilton's Pills did it all."

Get Dr. Hamilton's Pills today. Sold by all dealers; 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

THE STIPENDS OF CLERGYMEN

The perennial discussion of the stipends of clergymen has been given a fillip lately by the resignation of one minister on the ground that his salary was not large enough to enable him to educate his family. This practical protester against the niggardliness of the gay was Rev. John A. Shaw, an Anglican clergyman in the Ottawa district, and his trouble was to fit the needs of a wife and six children into a stipend of $800 a year. Wrapped round his resignation is the disquieting statement that, small as his stipend was, it was larger than that of seven-tenths of the clergymen in his diocese. And, in this regard, the Anglican church is no worse off than the others.

For an ambassador of the King of Kings, this does not seem an extravagant allowance, says The Star. It is just possible that those who are lamenting the scarcity of the best material with which to man the pulpit, might find a hint here. Of course, the eager young volunteer, with an evangelical spirit and a certain "call," may not stop to count the contents of the probable pay envelopes which would come to his desk; but it is stupid to ignore the fact that many a successful clergyman chooses his vocation calmly and with some regard to his probable ability to make the most of his life in this field of labor. He may believe that he can be a Christian worker, no matter how he provides for his temporal needs; and the fact that an acceptance of a call to devote his whole time to religious duties may render it impossible for him to marry and rear a family as he would feel it a duty to do, may affect his decision.

Certainly, if the clergy are to be starved, eventually the result will show itself either in empty pulpits or in pulpits which might better be empty. The church-at-home cannot depend upon the all-sacrificing missionary spirit to provide men to perform its famer and more domestic duties. More than that, if the clergyman is not given enough money to live like a gentleman, and to raise his family like a gentleman's family, the church which he represents must lose prestige. It is idle to talk of the Christian spirit of a body of men who will not enable their religious leader to live decently like the rest of them.

There is, of course, a difference with the pastors of the poor. If they must depend upon the givings of their own people, they cannot ask to be better off, as a whole, than those to whom they minister. But here is where the solidarity of the church comes in. There will likely be within the bounds of their own church organization plenty of wealthy congregations which may easily see to it that all the representatives of their church are fairly paid.

The ministerial profession is, in this respect, something in the position of the teaching profession. Competition does not apply automatically to Rs remuneration. A man can seldom enough start out teaching independently with a view to earning that fair profit which the public employers of teachers deny him; and he can never establish himself as an independent minister for profit's sake in the same way. Consequently, it is within the power of representatives employing bodies to practically fix the pay of teachers and ministers; and the only check upon niggardliness or neglect or sheer stupidity which the candidate-teachers and ministers can apply, is to refuse to enter the professions at all.

For many a born teacher and many more inspired volunteer clergymen, this is a protest which wounds their own hearts more than the consciences of the organizations which have hammered down their salaries. Further, the organizations are too often unable to appreciate the lowering in quality which their policy brings to the professions which are at their mercy. They get men for their money who can go through the motions; and what more can a carping and critical public want? The rising generation pays the price in a superficial and misdirected education, and in a growing lack of regard for the leadership of the clergy in the moral field.

TAUNTED BY A GIRL

Young Man Dove Into Forty Feet of Water and Was Drowned.

New York, July 17.—Taunted by his girl companions, who said he dare not venture into the water above his head, Samuel Gutten, 20 years old, of Beach and West 22nd streets, Coney Island, who could not swim, plunged into deep water in Gravesend Bay yesterday, and was drowned in view of many others, says the Herald.

Becoming hysterical when she saw Gutten disappear, Miss Bessie Silver, 19 years old, of 860 Madison street, to whom he had been devoted for many months, dived after the body until she was exhausted, and was with great difficulty rescued.

Gutten was the only one in the party who could not swim, and the young women made fun of him because he did not go far from shore. At first he took their taunts in fun, but at last he became angry and said he would show them he could swim. Plunging in he went down in 40 feet of water.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

Largest Church in World.

Berlin, July 17.—Cologne cathedral, the largest Catholic building in the world, is in serious danger.

This famous cathedral was built from the plans of one architect, whose name is unknown. It is said that he sold his soul to the devil in return for the plans. Repenting of his bargain, he was relieved by the church, but the devil revenged himself by declaring that the name of the architect should never be known and the cathedral never finished.

As a matter of fact, although begun in 1248, it was not finished until 1880, and in the present necessity for restoration, the superstitious see a fresh fulfilment of the Satanic threat.

WELLAND CANAL

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an 800,000 bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender, this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably not you from 50% to 100% each year. Write for particulars.

AMALGAMATED MINING AND EXTRACTION COMPANY

1624 Curtis Street, Denver, Colo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 1 1-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant. 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

ADVERTISING PAYS

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

He was shaking the sand box over the still wet signature when the captive was brought in.

"Three days ago," Jarrat began, "I had the honor to send to you a letter from the town in regard to a certain Continental officer."

The general sent the others out of hearing and bent his gray-black brows. "I have today heard of his condemnation," he said. "He is dead then. He has atoned. So far as I am concerned, his past shall be buried with him."

"But if," Jarrat continued—"if I should tell you that he is not dead; that the report of his condemnation was a trick; that he was not captured in the first place, but used the night attack to penetrate within Yorktown without exciting suspicion and so carry to Cornwallis full plans of the American works"—

"Your proof of this?" asked Hazen, his teeth set like a vise.

"The proof is that this very night he has been smuggled out beyond the Continental lines and lies at this moment in biding in a house a half dozen miles from here waiting escape."

"Where is the house?" thundered the other.

Jarrat's lean lips smiled. "Pardon me if I make terms. In return for my freedom I will guide a detachment to his burrow."

"An this be true," said Hazen. He hesitated, but only for a moment. Then he called a sharp direction to his orderly.

"I must see General Lafayette," he said to Jarrat. "The cavalry legion is no part of my brigade. Colonel Armand was under division orders only."

But the marquis was making a tour of the works with the commander in chief and could not be found.

"It must not wait," fumed Jarrat. "He will be off."

General Hazen sat down and wrote a hurried order. "An he is not there, why, 'twill be merely a ride for naught," he mused. "An he is, there will be small question.

"Major Woodson," he said as a staff officer appeared, "take a relay of a dozen men immediately and go to the house this prisoner will show you. Should you find there Colonel Armand of the cavalry legion, arrest him."

"An he resists"—said Jarrat.

"The usual orders," the general answered. "Go!"

CHAPTER XX.

As the skiff slipped out from the confusion of the town edge the moon, lifted like a paper sickle, silvered all the misty distance. A mile away across the broad expanse Anne saw the twinkling lights of Gloucester and to her left the campfires under the river bank slipping slowly back. But the current was steady and their progress necessarily slow. Ahead loomed the massive star shaped Fusileer's redoubt, with the British frigate Guadaloupe moored some way outside, and, passing, she clinched her hands till the nails struck purple crescents in her palms in a dumb terror of pursuit or alarm.

They were scarce come opposite this when a shot, a shout and a sound of oars tumbled upon thwarts came clearly over the water behind them.

"They have found it out!" she cried. "How hard! Oh, would that I could help you!"

"Found out what?"

"I must tell you the truth. I have procured your escape by a trick. 'Twas not a true release which I brought to the barrack. 'Twas false. They are like to discover it at any moment and pursue us."

He stopped rowing. "You did that—for me? You spoke falsely when you said you were in terrible danger?"

"Row," she pleaded, leaning forward from the stern. "Stop not an instant. I have fooled Cornwallis. Think you he will forget that? Or, if they take us, that I shall go scot free? Would you see me in a cell?"

The boat shot forward with a jerk that made her catch her breath.

"Where are you heading?" she asked presently, for he had turned inshore.

"The French battery is just ahead. 'Tis the extreme left of the circling Continental front. Beyond that is safety, mademoiselle."

"I will not land there. You must pass the American lines. You must take me home to Gladden Hall."

"But"—

"Row, row!"

"I beg you to allow us to land," he urged. "The regiment of the Gatinais lies behind that bluff. They will not dare to pursue into the French trenches."

"Are you afraid"—

Oh, what it cost her heart to say that!

Armand bent to the oars and increased his speed. Neither spoke. She was suffering a like apprehension now of arousing the American pickets on the shore. At any other time, doubtless, there would have been challenges, but on this night, the first of many weeks, the Continentals rested and made merry, waiting the signing of the articles of surrender. The skiff passed the dapper point, and for awhile there was no sound save the slap of the waves like children's hands against the stern and the muffled din of the pursuit, which drew on with dogged persistency.

"They will not fire," she said at length in a low voice, "for fear of arousing the Americans. They have a ship's boat full, but they row crooked and uneven. Yet they come on fast—fast. Tell me, could we get back to the Continental works?"

"'Tis impossible now. They are between us and them. Gladden Hall is the nearest refuge."

"Are you certain?"

"Yes, mademoiselle."

"Listen," she confessed then. "I have deceived you. I made you take me past the Continental line because—because you yourself cannot go there. You must not go there. 'Tis not only the British who would seize you now. Ah, do you not understand? You have been denounced. 'Tis known that you are the same who, they think, would have misled the congress."

"Informed against?" he said. "Again?"

"Oh, what a ghastly thing for you to say to me! 'Twas Jarrat [illegible]"

[To be continued]

A Big Land Deal.

London, July 17.—Several American financiers now in London have been informed from official sources that a deal involving $1,000,000,000 for the lease of the Great Northern Railway Company's ore land to the United States Steel Corporation has been consummated.

A prominent director of the Steel Corporation who has recently been here is given as authority for the statement. When asked what stage negotiations were in, he replied that an agreement had been reached with the interests controlling the ore lands, and that the deal had been completed.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS—NOT SPECULATION. There is not a dollar of promotion in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officials except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished, correspondence solicited.

EL PASO PARRAL MINING COMPANY,
Commonwealth Trust Bldg, St Louis, Mo

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES R. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS, Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

100% ADVANCE JUNE 1

Present Price of Stock FIVE Cents per Share

If you want to get in on the ground floor before the price advances to 10 Cents per share, NOW IS YOUR CHANCE

When The Gold Leaf Mining, Milling & Drainage Company was organized the officers of the company foresaw the certainty of a big mining boom in Clear Creek County, Colorado, U.S.A., and they congratulated themselves on securing a property which showed 1,500 feet of development work, and could be classed with the MINES of the region.

The steady increase in the mineral production of the county, new strikes, the development of old mines at depth (proving the continuity of the ore bodies and the increased richness of the ores), the availability of mining supplies, the abundance of water the great amount of timber for mining and fuel, the adaptability of the topography for deep tunnel mining, and the large number of milling and smelting plants, means that the district possesses all the elements of successful and economical mining.

It was a foregone conclusion that investors would awake to a realization of the conditions, and inaugurate a new boom in 1906. It is but natural that they should desire to place their money in a locality that shows more PROVEN MINES than prospects, and where the chances for speedy returns are greater than the chances of loss. Because of economic conditions money will go farther in development work and bring RESULTS quicker. Many new companies have recently been organized, foremost among them being The Gold Leaf Mining, Milling & Drainage Co. Stock in all Clear Creek County companies is finding a ready market among both Eastern and Western investors, and in consequence The Gold Leaf Mining, Milling & Drainage Co forestalled the boom by securing one of the best mining propositions in the locality, consisting of 16 mining claims, situated on Standard Mountain, in the Ohio and Jackson Mining District, two and one-half miles south of Idaho Springs. The Gold Leaf properties are credited with a past production of $75,000, and the tunnel is being steadily driven toward the rich ore bodies from whence former shipments were made. The old workings are now drowned with water which the tunnel will drain and also give unlimited stoping ground for the ores. Surrounding mines have produced over $11,500,000. Now is the time to purchase stock. When we re-open our ore the opportunity will be lost to investors.

Don't overlook this exceptional opportunity! Think of the acreage; Think of the development work done; Think of the past ore production; Think of the future possibilities; Think of investing—THEN ACT AT ONCE!

Sufficient stock subscriptions have already been received to carry our Frontier Tunnel a distance of 600 feet, or to the Standard Vein, from which point ore shipments will be resumed. Future stock subscriptions will be applied on the purchase of a power plant or on contracts to facilitate the work of driving the tunnel.

Our General Manager estimates that the completion of the tunnel will place at our disposal OVER FOUR MILES OF ORE, aggregating 96,000,000 tons.

$5.00 DOWN

For Rent.

A comfortable, six roomed, frame cottage, in nice locality. Hard and soft water, also a good garden. For particulars in reference to same, apply at 189 Antrim street, City.

Mouth Organs.

We have an organ for every mouth, all sizes, "Imperial and Ideal," Harmonicas. Excellent value. Come and try them. J. M. GREEN MUSIC CO., Opera House Building.

Girl Wanted.

To assist in dining room and do general work. Apply to Jas. Read, the Peterborough House, 189 Hunter street.

Better Return the Stick.

The person who carried off a walking stick from opposite Dr. King's residence, Charlotte street, on Tuesday morning, will kindly return the same to this office or the office of the city engineer. The stock belongs to the Plumbing Inspector, Mr. T. Thompson.

Where C. Plummer Was Drowned.

Our readers will remember that the local press were somewhat dubious concerning the "Sturgeon Lake," in which Mr. Chas. Plummer was drowned. The Times ascertained that the Sturgeon lake referred to is located about ten miles from Ignace, which place is one hundred miles west of Port William.

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and in the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

H. C. C. Cochrane After a Thief

County Constable George Cochrane has been on the trail of a horse thief. He traced the thief nearly to Campbellford. The horse and buggy in question were stolen from St. Thomas and traced to Toronto. At Weston this enterprising thief stole a horse valued at $300 from a farmer's field near Weston. He drove the first stolen horse and buggy to Port Hope, Peterborough, Norwood and then to Havelock. He is still at large with his ill-gotten gains, somewhere in Hastings county.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
542 Water Street
or P. O. Box 831, city.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students should make application as soon as possible.
Call at the College or address

WM PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The afternoon will be the third half holiday in July.

—A Hallelujah Wedding was celebrated in the local S.A barracks last night.

—A meeting of the Grand Lodge I.O.O.F. committee was held yesterday in Toronto.

—Hon. Honor Jaffray Weller is spending his holidays in Cobourg and Gananoque.

—Children's two and three piece garden hose on sale at 9c. and 75c. Times Bookstore.

—A twelve and a half pound lunge was captured at the G.T.R. bridge yesterday morning.

—A special meeting of the Ladies' Aid Society of St. Andrew's church was held yesterday evening.

—Mr. Morton Connors and wife, Lady Gothard, go third mining in the Montreal rates Tuesday.

—And still the fight goes on as to which property is the best to be purchased for the new normal school.

—The moving pictures still seem to hold public patronage. There was a very large attendance last night at Jackson Park.

—The annual outing of Bethany Tabernacle was held down the river yesterday to Jackson Point on the steamer Water Lily.

—The 20th Field Battery will hold another drill in the east ward drill hall this evening, when the men who are going to Petawawa, will be selected.

—Yesterday morning Mr. W. G. Lendrum, the Charlotte street photographer, took a snap-shot of the auto-bus load as they started for Cobourg.

—The second moonlight excursion conducted by the Street Railway Co. is on for tonight. Judging by the first of this series there will be a large attendance.

—Mr. A. J. Warne, grocer, 599 George street, recently purchased the house erected by Mr. Herrington on George street, next to the residence of Mr. Fred Allison.

—The merry-go-round in Jackson Park, has been embellished with a plentiful supply of Canada's national flags. They are small in size, but large in significance.

—A large crowd left for Lakefield yesterday morning, where the steamer Stony Lake was boarded for Mt. Julian. It was the annual outing of All Saints' church Sunday school.

—The 57th Regiment Band of Peterborough, has been engaged to play one of the days during the progress of the Canadian National Exposition in Toronto, which will be held this year from August 27th to Sept. 10th.

—The crazy woman, who is noted in Monday's issue of The Times created a disturbance in Victoria Park on Sunday night, has been placed under restraint. She was taken to the Mimico asylum by ex-P.C. Stewart.

—Horse thieves are operating in Ontario at present. Yesterday Chief Rogers received two communications regarding horses stolen. One was from Cobourg, and the other from Port Colborne. It is now up to our readers to put their horses in the safe over night, or buy an auto.

WOMAN COOK WANTED.

First Class Cook for Hotel at the Soo, Ont. Big money. Apply to GEO. J. CHALMERS, Water Street.

Local Police At Practice

Yesterday afternoon a somewhat strange scene was enacted in the local police court. As is well known two officers, Messrs. Mahaffy and Newhall have recently been placed on the local police force. Mr. Newhall who has had several years experience upon the police force of both London and Liverpool, and who has had the benefit of a long and practical experience in all the tricks of thief catching, and making arrests under all conditions had a scrimmage with officer Mahaffy. They took turns about with the handcuffs one trying to arrest and handcuff the other as he resisted.

This is a good practice and a lesson was given that will doubtless prove of advantage to each when it comes to arresting a desperate character. Their wrists, battered and bruised, showed that their practice was in dead earnest and no pity for fun.

Mrs. Geo. Scott of Smith is Dead

Respected Resident of Smith Township Passes Away.

On Tuesday afternoon there passed away one of the most respected and generally beloved residents of Smith township in the person of Mrs. Geo. Scott, at the family residence, lot 9, con. 4, at the age of 77years. Mrs. Scott sustained a paralytic stroke in April last.

Her maiden name was Ann Ivison, she being the eldest daughter of the late Robert Ivison of Smith township. She was born in 1829, and on July 6th, 1846, was married to her husband who survives her. The deceased resided nearly all her life in Smith township.

Mr. and Mrs. Scott had a family of sixteen children, twelve of whom survive—five daughters and seven sons.

The sons are: George of Manitoba, Robert of Smith, Israel of Brandon, Man., Joseph of Souris, Man., Dr. W. D. of Peterborough, Alexander, living at home, and John of Souris, Man.

The daughters are: Mrs. Mary A. Newton, of Brandon, Man., Miss Sarah Jane, residing at home, Mrs. Wm. Truscott and Mrs. Robt. Moffatt of Elgin, Man., and Mrs. Percy Edmison of Smith.

The funeral of the late Mrs. Scott will take place this afternoon at two o'clock, and will proceed to Little Lake cemetery for interment.

SOCIAL AND PERSONAL

—Mr. W. H. Denham, is in Chicago on business.

—Mr. James Whitton, of Stirling, is in the city.

—Miss Evelyn Doris is in Toronto visiting with friends.

—Mr. C. B. Robertson left yesterday for Delsbury, Alta.

—Mr. C. J. Bloomfield of Lakefield, was in the city yesterday.

—Mr. R. J. Morris left yesterday morning for a trip to Kingston.

—Dr. Eastwood is taking in the famous Mackinaw trip by steamer.

—Mr. and Mrs. H. P. Kennedy are spending a few days in Toronto.

—Mr. J. J. Turner, jr., has returned from a business trip to London.

—Miss McKinnon of Seabury is visiting Miss Mona Dixon for a few days.

—Mrs. (Dr.) McKinnon, 453 Water street, is visiting with relatives in Toronto.

—Mrs. Doris left yesterday morning to visit in Smithfield for several weeks.

—Mr. Walter Burritt, of Guelph, is visiting his parents, Mr. and Mrs. D. H. Burritt.

—Messrs. Jos. S. Cook and F. G. Brenton, Belleville, are guests at the Snowden House.

—Mr. G. G. Coly, of Peterborough visited Lindsay in connection with business yesterday.—Post.

—Mr. and Mrs. Fred Pollard and Master Cecil of Fort William, are visiting friends in the city.

—Mr. and Mrs. Edward Ball, Brooklyn, N.Y., are in the city visiting his brother, Ald. Geo. Ball.

—Dr. Boucher was in Toronto yesterday attending a special meeting of the Provincial Board of Health.

—Miss Helen Hay and Miss Mona Cavanagh have gone to Portland, where they will spend their summer vacation.

—Rev. John Plantevigne, of the Fathers of St. Joseph, Baltimore, Md., a college friend of Mr. George Rakerby, is spending two weeks in the city a guest at the Priests' House Reid street.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.50 and 7.15 a.m., 7.15 and 8.43 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

Was the Deceased a Murdered Man

On Monday as Chief Paudash and Jas. Howard, of Hiawatha, were digging in a gravel pit in that village, they unearthed what is somewhat of a mystery. As they were loading their wagon, the two Indians were somewhat startled to see a perfect human skull roll down the bank. On making further investigation they found other bones of what must have been a very large man in life. The skull is in perfect preservation. The back teeth are perfect, but only three of the front ones are left. To the skull three of the vertebrae were attached.

The Indian village cemetery is fully 500 yards away from where these bones were discovered and as dead men do not walk, the deceased could not have escaped from the cemetery. Are these ghastly remains the result of a forgotten or unknown murder. Mr. Howard has lived for 50 years in Hiawatha, but does not remember anyone having been buried in this gravel pit.

Steamboat Inspector is Through.

Mr. Thomas P. Thompson, of Kingston, government steam boat inspector, yesterday completed his work here. The launch of Mr. H. H. G. Rack, of Norwood, which wintered at Stony Lake, was among boat inspected yesterday morning. Mr. Rack's fine little craft, the Boy Roy, was also inspected and passed with flying colors.

Telephone Connection for Hiawatha.

On Tuesday Messrs. F. W. Dean and A. Tooley, with two guides, captured 24 fine bass in Black Duck creek, near Cowie's Islands, Rice Lake. Mr. Dean was down on business, arranging to place a telephone in Hiawatha, the Indian village. This line will be connected with Peterborough, via the village of Keene. Operations will be begun at once, and the new line will be of great benefit to the villagers of Keene, as well as to fishermen, who frequently visit Hiawatha.

SPRING CATARRH

Disease Prevalent Now, at Can be Quickly Cured with Hyomei

A great many people suffer more with catarrh during the spring than at any other season of the year, the changes in weather seeming to have a bad effect upon the disease.

Some of the cures made by Hyomei seem marvelous when one remembers that the patients had suffered from catarrh since childhood, and that for years they had been unable to get a good night's sleep, on account of the disagreeable tickling and dropping at the back of the throat caused by this offensive disease. A few days treatment with Hyomei brought quick relief, and its continued use made a complete and lasting cure.

By breathing Hyomei through the pocket inhaler that comes with every outfit, all the air passages of the lungs and throat are filled with air laden with Nature's remedies for the cure of catarrh. All disease germs are killed, and the irritated mucous membrane is healed.

The complete outfit costs but $1.00, extra bottles 50 cents. Compare this small expense with the fees charged by specialists.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicines. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be whoodled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company have made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger scow which goes with her, have been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats in the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets, 25c. each, may be purchased at the Street Railway Office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

Gas Pipes on Water Street.

Yesterday the Peterborough Light and Power Company dug a trench to the west side of Water street to replace the present inch and a half gas pipe by one three inches in size. The old small pipe ends a few feet north of Dr. Ballachy's residence in front of Victoria Park. The new service which will probably be continued today will be extended much further north.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Lax-ets act promptly, without pain or griping. Pleasant to take—Lax-ets—only 5 cents. Sold by J. D. Tully.

The Auto Bus Cobourg Trip.

The new auto-bus left for Cobourg yesterday morning as foretold in The Times. A jolly lot of local sports, twenty strong, went on the machine. Before leaving a snap shot was taken of the tourists in front of Snowden's Hotel before leaving. On their return all who went said the trip was most enjoyable, and the bus was a wonder both as to speed and handling.

—Last night in Victoria Park, a woman somewhat under the influence of liquor, attracted considerable attention. We understand that she was singing the old familiar ballad, "Linger Longer, Lou."

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 173 PETERBOROUGH, ONTARIO, FRIDAY, JULY 20, 1906. PRICE TWO CENTS

New Mexico Visited By Earthquakes

Much Distress Experienced By People Driven From Their Homes--Rain Fall Heaviest in Fifty Years.

Albuquerque, N.M., July 20.—Refugees in large numbers are arriving here from Socorro, N.M., where great damage has been wrought by a succession of earthquakes since July 2. In that time not an hour has passed without one or more quakes.

The center of the disturbances is a zone 30 miles long by about 10 miles wide, running from the Ladrone Mountains southeast through Socorro, San Antonio and San Marcial.

The shocks of the last few days have been hardly felt. Each one is preceded by a loud rumbling like heavy thunder which can be heard approaching from the northwest before it reaches Socorro.

Senor Baca, of Socorro, until recently district attorney, arrived here with his family. He says that the people are leaving on every train, and those who cannot ride on the railway are leaving by wagon.

THOUSANDS CAMPING OUT.

About 2,000 persons are camping out in tents and no one dares to go indoors. Practically every residence and business block in the town was been damaged.

There has been much distress among the people who are camping in the open, as heavy rains have fallen in the last two days, one being the heaviest for 50 years.

Most of the people are going to El Paso, although many are coming to Albuquerque and Santa Fe.

The shocks generally occur as short, sharp jerks, the ground seeming to slip violently. It is believed that the adjustment of rock strata in the rugged Ladrone and Magdalena Mountains is the cause of the continued shocks.

Provisions are growing scarce and relief distress is feared for the refugees.

"The noise and the quakes are frightful," said Mrs. J. J. Leonard, refugee from Socorro. "I have experienced earthquakes at Los Angeles and San Francisco, but never anything so sickening as this prolonged rockings and jerkings of the earth at Socorro. Water placed in a bowl will show continuous vibrations between the greater shocks, showing that the earth is never still. Not a house in town is safe to enter and chimneys and walls topple with each recurrent tremor."

FIFTY SHOCKS FELT.

El Paso, Texas, July 20—Socorro, N.M., south of Santa Fe, has been practically destroyed by an earthquake. Fifty-two shocks have been felt since Sunday morning. The court house is wrecked.

The building of the school of mines is cracked and nearly every residence in the city is destroyed or much damaged.

The town is largely built of adobe or brick.

The Santa Fe Railway has sent box cars to Socorro to take the people away and many have already fled to old towns.

Huge boulders have been jarred down on the railway track and trains cannot enter the town. They stop seven miles outside of the place.

The water in the Hot Springs near Socorro has increased several degrees in temperature, and the inhabitants fear that the extinct volcano several miles from the town will become active again.

The entire surrounding country has felt the shocks and much damage has been done, especially at San Marcia and Magdalena.

Oddfellows are Busy Preparing

Local Oddfellows, who are in charge of arranging for reception of the Grand Lodge I.O.O.F. next month report that the local hotel accommodation is inadequate for the reception of their hundreds of visiting brethren. The billeting committee, of which Mr. W. R. G. Higgins, is chairman, is having trouble to secure the accommodation that will be required.

On Wednesday night, August 8th there will be a big parade of Oddfellows headed by the 57th Regiment Band and the Bugle and Drum Band. It is expected that fully 1000 will be in the parade, which will start from Central Park at 7.30 o'clock and proceed through the principal streets.

On the same evening in the Brock street rink, the Ontario Patriotic Militant, from Toronto will confer the degree of Chivalry on a Daughter of Rebekah.

The visiting Oddfellows will be taken for a trip over the lift lock the Steamer Water Lily having been chartered and will make several trips during the day.

The Oriental degree will be conferred upon several who have not been initiated into the mysteries of this degree and the market hall will be leased for the work.

Peterborough Club To Play Chicago

It is now possible that the local lacrosse players may visit Chicago. Mr. R. M. Glover has returned from Packingtown, where he met representatives of the Calumet and Chicago lacrosse clubs, who are anxious to play with the Peterborough Lacrosse Club, and it is expected that all arrangements will be completed in about a month's time. Mr. Percy Rutledge, an old Peterborough boy, is captain of the Calumets.

As soon as final arrangements are completed, we will advise our readers.

Peterborough Man Finds a Mine

Mr. Charles Gladman, a son of Mr. Thos. Gladman, a well known Peterborough man, has been prospecting in New Ontario.

Mr. Gladman has staked out and recorded in the department at Toronto a most promising copper mine of forty acres in extent adjacent to Lake Annipissing, within a few miles of the town of Latchford. The mine is in the Temagami forest reserve. Latchford is a bustling little place eight miles south of Cobalt. Mr. Gladman has received several good offers for his mining property, but has not yet had his price limit touched.

The lucky discoverer of this promising mine is associated with his brother, Mr. George Gladman, an old Peterborough boy now in the lumber business at Parry Sound.

A Rare Chance for Future Wealth

The Little Salmon Gold Mining Co. Issue Their Prospectus.

A distinguished Canadian Dr. Alfred R. C. Selwyn, late director of the geological survey of Canada, speaking of Eastern Oregon says: "I find Eastern Oregon one of the most hopeful mineral zones of the Globe. The formation, contour, accessibility timber and water form a combination which exists to reduce the cost of extracting gold to the minimum. And, in addition, I find the ores are less refractory and contain a large amount of free gold, besides they are softer and less expensive to break."

The Little Salmon Gold Mining Co. incorporated owns a rich gold property in Eastern Oregon in the Green Horn mining district of the Blue Mountain, Grant County, Oregon, eight miles from Tipton in the S.V.R.R. This district is the richest gold mining camp in the north-west, over $60,000,000 having been produced here since 1860.

Mr. Oliver E. Cobb of the mining

[illegible] expert has examined the Little Salmon property and speaks in highest terms of its future.

The company have a perfect title to 240 acres of the finest mineral lands, with plenty of timber and water. Over 2000 feet of development work has been done, two tunnels over 600 feet long and one some 2500 feet away, 300 feet in length having been sunk. The ore taken out assays from $3 to $7.50 per ton. The ore from another part of the property assays $16.50 per ton.

[illegible] enough ore in sight to run a [illegible] mill for years to come.

For a limited time the stock of the company is offered at $1 per [illegible] par.

For further particulars call on or address Peterborough Brokerage Co., Peterborough, Ont.

Miss M. Fobert Passes Away

A sad death occurred at St. Joseph's hospital yesterday morning, when Miss Maggie Fobert of Bridgenorth, passed away in the age of 35 years, after about a year's illness. Miss Fobert was taken to the hospital only a few weeks ago and her death will come as a shock to her many friends in this city. The cause was heart trouble.

Besides her father and mother, Mr. and Mrs. Louis Fobert of Bridgenorth, she also leaves to mourn her loss two brothers and two sisters, all of whom reside in the United States. The funeral will take place on Saturday from the family residence, Bridgenorth, to Young's Point cemetery.

REV. MR. ARMITAGE

Former Peterborough Clergyman Creates a Furore.

A week ago last Sunday, Rev. W. L. Armitage, vicar of St. Mary Magdalene church at Tacoma, announced to his congregation that he was going away for holidays, and that his marriage would take place during the time. He went on to say that while he was amenable to the people indirectly, Canon Loucks being still rector, his wife-to-be was amenable to him alone, and must not be at the beck and call of the parish. This very unusual proceeding on the part of the intending groom was made further remarkable from the Anglican standpoint, by Mr. Armitage advising the congregation to apply to Rev. Mr. Rae, pastor of the Stone Methodist church, for pastoral ministration, in case of sickness, or urgency. Ordinary visiting might be done by Rev. Mr. Seaborne of Milford or Dr. R. P. Dedlouvier of Wellington, both Anglican priests. The congregation is voicing its indignation audibly. Mr. Armitage has evoked more comment by being married last week by a Methodist minister at Gleneig.

A Correction.

In the rush of getting out a morning paper we inadvertently stated that the council granted the Water Commissioners request for a salary of $500, divided between the three commissioners, but on take effect at the beginning of next year. What was really done in a business way was to carry Ald. Ball's amendment, "That the request of the commissioners be left over till the last council of this year." In the hurry of sending out copy last from the city hall press table for our linotype typesetting machines, we unwittingly applied to Ald. Ball's amendment his pronounced acquiescence in the commissioners getting what they asked, but from the beginning of 1907. However, The board of aldermen were all agreed that the commissioners should be paid, the only question being from when such are to take effect, and when in accordance with Ald. Ball's amendment the matter again comes before council at the end of this year, the commissioners will unquestionably be voted a salary, unless the aldermen undergo a change of opinion in the meantime, which is hardly probable in this instance.

A Post For Ned Hanlan.

GREAT PROGRESS SHOWN

Diocese Three Years Ago Entirely Indian is Now One Half White--Score of Missionaries Wanted.

Winnipeg, July 19.—Rev. George Lloyd, Archdeacon of the Diocese of Saskatchewan, is in the city arranging with the railway authorities for cars for churches and services along the lines. Seventeen new men have gone to work in the diocese during the present year, and twenty or thirty more will be required during the balance of the year.

The influx of new settlers into Saskatchewan is declared by the Archdeacon to be five times as rapid as it was in Manitoba, at a corresponding period in its history, and so far as population is concerned the work done in Manitoba in twenty-five years is to be done in Saskatchewan in five.

"We have in the diocese of Saskatchewan an area of 250,000 square miles," said Mr. Lloyd. "Three years ago the diocese was wholly an Indian, one of the largest in the Dominion and one of the largest in the world. As an illustration of the wonderful progress made since 1897 I may say that one-half the work of this great area is now white work. North of the Saskatchewan the work is among the Indians, but south of the river it is now all white.

"The town of Lloydminster, founded in 1903, has grown compact. It is a flourishing town of 700 population, and is of good appearance. As an illustration of the growth of the colony I may say a couple of years ago if you went out twenty miles from Lloydminster you would come to virgin prairie, where there was no habitation. Now you can go out a hundred miles and there are still the shacks of settlers. They are not numerous, but every mile or two you will come to a new location and a breaking. The immense amount of advertising of all kinds that the colony got in England has resulted in Lloydminster becoming the jumping-off place for a very large number of British people. If we are to minister in our diocese to the people to whom we should as a church minister, the clergy ought within a few years to be as numerous as the clergy of the diocese of Rupert's Land.

"The material condition of our people is entirely satisfactory. Many of them have at present time from 60 to 100 acres in wheat, and when I saw it last it was looking magnificent. We have the finest soil in the world and farming in the district is no longer an experiment. We do not expect to have a city like Winnipeg in a few years, but we do anticipate a development of the rural district which in rapidity of improvement will far surpass that seen in the Province of Manitoba, and we believe that in five years much of the work will be done which occupied a quarter of a century in Manitoba.

"We have put seventeen new men at work in the diocese since January 1 last and we need many more at the present time. Four clergy are drawn from St. John's College, Wycliffe, in Toronto, the Montreal Theological College, and from England. The colleges are not turning out sufficient men to supply our new missions, of these missions there is no end. Little villages are already springing up all along the new railways on land much of which was entirely unbroken a year ago. The prospects for the English settlers in the district are entirely satisfactory. They are increasing in numbers with a rapidity of which very few even of Western people are aware, and we are endeavoring to provide churches to the utmost of our ability.

Changes in Local Militia Forces

In the list of appointments, promotions and retirements issued from the Canadian Militia headquarters, appear the following:

Cavalry—3rd Prince of Wales Canadian Dragoons. Major W. T. Hall is transferred to the corps reserve. To be quartermaster with honorary rank of captain, Wm. Hogg, until he vice quartermaster and honorary captain J. W. Garvin, who is permitted to resign his position.

Artillery—10th Brigade Field Artillery, 24th Battery, to be Major—Lieutenant and Major T. W. H. Young.

The following officers have been examined, qualification and awarded certificates—Lieut. F. Douglas, 3rd Dragoons.

An Up-to-date Circus Car Here

Mr. Watkin advance representative of the Barnum & Bailey circus, was in the city and gave The Times a call. Mr. Watkin travels in a car that is a product of the 20th century. The car which is long [illegible] than an ordinary passenger coach, is fitted up with berths like a Pullman car. The upper berths let down on the living room, where the 28 employes take their meals. A competent chef accompanies the car and the men all eat aboard the car. This results in those in charge having control of their movements, and saves many hours loss of time by he men going for meals to hotels in towns that the car visits.

This car is divided into separate sections, each of which has its own respective use. As one enters the kitchen is first encountered. Here a first-class cook has everything from an ice box to a stove within easy reach. Passing beyond the kitchen is the room where the vast amount of paste required for putting up the circus bills is located. This room has a large upright boiler where steam is generated for making the paste. Beyond this room is the dining room fitted with large tables that are removed at night to make room for sleeping accommodation. At the other end of the car are offices for those in charge, places for storing the personal wardrobe of the officers and men, cupboards for printing matter and places in fact for everything such a car needs. A Times representative, on invitation, visited the car, which lay on the C.P.R. tracks yesterday, and was most surprised to find every detail of this up-to-date travelling hotel and business car.

Masons Meet in Massey Hall

At the 53rd annual meeting of the Grand Lodge of Canada, A.F. & A.M., for the province of Ontario, in session in Massey Hall, Toronto, with the Grand Master, W.M. Bro. James [illegible] presiding, the finding of the Supreme Grand Lodge, in the case of the esteemed member of the order who is well known in this city, in which case it was decided that the general state of the craft in the jurisdiction was healthy. The net membership had increased about 2,000, making a total membership of over 37,000. The income for the year to the 31st of May last was $31,377.19, as against $30,011.18 last year, showing a net increase of $1,366.01.

The Grand Master, however, did not consider the large accumulation of arrears for dues a reading of an expression of thankfulness.

Over 400 lodges are represented at this meeting.

WHO OWNS THE STREETS?

A Prominent Citizen Takes Exception to Way Streets are Disfigured.

(To the Editor of The Times)

Dear Sir,—At a meeting of some irate citizens held yesterday, a committee was appointed to wait upon the sauve superintendent of the Light and Power Company, humbly craving an interview with the object of learning, if possible, the monetary consideration required by that company to accept a conveyance in fee of the streets of this city, the taxpayers of course being permitted to contribute as usual towards the non-repair of the public highways. One of the ratepayers present expressed himself as still being of the opinion that he had an interest in a citizen in the streets, though it might perhaps be but a sentimental one. Of his mind was speedily and effectually disabused by the hoots of derision of the others.

As it might be that one or two of the citizens think they have the right to walk or drive on our streets, the committee was instructed to publicly notify all of the jaywalkers, or as many as read your popular issues that what light, if any, they had was not subject entirely to the will of the company, who own not only the franchises to light, sell power (at their own prices), run the railways on any streets they see fit, irrespective of the terms of their charter, but, in addition to tear up leave open, at their own free will for as long a period as is most inconvenient to the taxpayers, any street in this village run city. Streets upon which public improvements are about to be made always preferred, for no sooner is the work laid out than a gang from the company is on hand to open it up. The most offensive impertinence has been going on for some time, and I trust a roll in pickle for some one. "Remember we are watching you."

Yours truly,
ONLY A RATEPAYER.
Peterborough, July 19, 1906.

OUTDOOR LIFE

Will Not Offset the Ill Effects of Coffee When One Cannot Digest It.

A farmer says:

"It was not from liquor or tobacco that for ten years or more I suffered from dyspepsia and stomach trouble, they were caused by the use of coffee until I got so bad I had to give up coffee entirely and almost give up eating. There were times when I could eat only boiled milk and bread and when I went to the field to work I had to take some bread and butter along to give me strength.

"I doctored with doctors and took almost everything in the way of medicine but if I got any better it only lasted a little while until I was a walking skeleton.

"One day I read an ad for Postum and told my wife I would try it, and as to the following facts I will make affidavit before any judge.

"I quit coffee entirely and used Postum in its place. I have regained my health entirely and can eat anything that is cooked to eat. I have increased in weight until I weigh more than I ever did, I have not taken any medicine for my stomach since I began using Postum. Why, I believe Postum will almost digest an iron wedge.

"My family would stick to coffee at first but they saw the effects it had on me and when they were feeling bad they began to use Postum, one at a time, until now we all use Postum." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial of Postum in place of coffee, proves the truth, in a easy and pleasant way. There's a reason.

Look in pkgs. for a copy of the famous little book, "The Road to Wellville."

Civil War is in the Balance

Threat That Should This Occur Austria and Germany Will Intervene With Troops Has Occasioned a Sensation in St. Petersburg.

St. Petersburg, July 20—The belief that the election by the Lower to Parliament not to take up step House of Parliament yesterday of a which might seem to warrant the proclamation to the nation on the Government in resenting that Parliamentarian question will precipitate ment is attempting to usurp the executive and legislative power, declares that if the Government adopts the desperate expedient of calling in foreign troops to put down a civil war, the result will not be the same as in 1849, when a Russian army saved the Hapsburg Dynasty.

The paper declares that the people will rally under the banner of Parliament as they did in England under that of the English Parliament, at the time of Charles I, "with probably a similar result, namely the loss of the King's head."

Russia, July 20—The whole town of Syzran, Province of Simbirsk, is in flames. The inhabitants are flying to mars and Stara.

Syzran is situated on a river of the same name, near its confluence with the Volga, and 70 miles south of Simbirsk. It is a busy commercial and industrial place, having a population in 1897 of over 52,000.

SIOESSEL SENTENCED TO DEATH

London, July 20.—A despatch to a news agency from St. Petersburg says that the report of the commission appointed to inquire into the circumstances attending the surrender of Port Arthur, recommended that Lt.-Gen. Stoessel, the former commander of the fortress, be sentenced to death, and that Lieut.-Gen. Fock, who commanded the Fourth East Siberian Division at Port Arthur, be condemned to 20 years in the galleys.

It is added that the commission considers that General Reuss should be expelled from the army, and that Admiral Alexieff, former viceroy in the far east, should be reprimanded.

Heavy Purchase of Western Wool

Mr. Jas. Kendry Gets 300,000 Pounds for Local Mills.

As an indication of the successful operation of a local industry, it might be noted that, during a wool purchasing trip in Alberta and the Northwest, Mr. James Kendry, who has returned home, secured about 300,000 pounds for the mills he so ably manages here. He was accompanied on his trip by Mr. Wm. Siegel, of New York [illegible] ed in the wooden business.

They left on June 8th and visited Manie Creek, Lethbridge, Banff, Calgary, Regan, Brandon, and from this point went to Vancouver, Victoria and Seattle.

While so far West, Mr. Kendry met many former citizens of Peterborough.

People of India Regret Her Death

Simla, Punjab, British India, July 20—The news of the death of Lady Curzon wife of the former Viceroy of India, caused a great shock here and from all parts of India come expressions of keen sorrow. Her splendid work in behalf of the natives, especially the women, endeared her to all the Indians.

The Style of Hair Worn.

Is an important factor to produce a younger and refined face and a well-shaped head to any Lady or Gentleman. Prof. Dorenwend, who will be at the Oriental Hotel, Peterborough, Wednesday and Thursday, July 25th and 26th, can demonstrate this to anyone calling on him at his Show Rooms. He has Ladies' and Gents' Wigs, Toupees, Bangs Wavy and Plain Fronts, Switches in every length and shade, that he will gladly adjust on any Lady's head free of charge to prove this. DON'T FAIL TO SEE HIM. It is his only visit to Peterborough this summer. Call early.

Where Will Normal School Be?

Now another site is proposed for the new normal school building, namely the vacant lot at the corner of George and McDonnel streets. This property is extensive enough for the proposed building, and is owned by Mr. Lundy. It is situated opposite Central Park, and the normal school would be convenient to the central school and collegiate institute if placed there.

Those Arctic Furs.

Ottawa, July 19.—The furs brought from Cape Fullerton on the steamer Arctic, and which figured prominently in the recent parliamentary inquiry are to be sold. They have been stored in the North-West Mounted Police warehouse in this city since last autumn. Circulars have been sent to all the leading fur houses in Canada, asking them to submit tenders for the furs, which include 400 white fox skins, a few muskrat, 20 or 30 wolf and one Polar bear.

Russian Jews Flee In a Panic

40,000 Go From Warsaw Alone, Believing Massacre Has Been Planned.

Warsaw, Russian Poland, July 17.—Believing a massacre of Jews on a large scale is to be attempted soon, no less than 40,000 Jews have fled from Warsaw in the last two days. In many other districts of Poland panic prevails among the Jews. There is no definite proof that a massacre is planned, such is the case. Proclamations against the Jews, who are accused of being at the bottom of the revolutionary movement, are being distributed to incite the peasantry to excesses. The soldiers to a large extent are openly hostile. The authorities, both civil and military, however, profess to be determined to prevent any further outbreaks, and assert that any organized uprisings against the Jews will be suppressed at once.

Most of the able-bodied male Jews in this city remained to protect their property. Many of the Jewish shops are closed today, and the houses of the Jews are empty. Intense depression prevails in the Jewish quarter, where the inhabitants have organized a system of self-defense. Armed guards are posted at the gates of all the houses and patrols parade the streets.

JEWS QUIT BIALYSTOK.

Bialystok, Russia, July 17.—The proprietors of eight Jewish factories here are winding up their affairs with the intention of removing to Palestine and setting up in business there.

CHOUKNIN DIES OF WOUND.

Tchastopol, July 17.—Vice Admiral Chouknin, commander of the Black Sea fleet, who was shot, supposedly by a sailor of the battleship Ochakoff, died this morning without having regained consciousness, who under gardener of Admiral Chouknin's villa is suspected of having knowledge of the murderer, as he has disappeared.

QUIET AT CAPITAL.

St. Petersburg, July 17.—The expected disorders here today did not take place. The streets throughout the day were guarded heavily with patrols and the workmens' quarters were crowded with troops.

From the provinces the news is less satisfactory. Everywhere collisions with the police are reported.

There were rumors in the corridor of the lower house of parliament today that a split had developed among the constitutional Democrats over the question of accepting office in a coalition ministry.

TARTARS ATTACK MONASTERY.

Tiflis, July 17.—At Etchmiadzin, the ecclesiastical capital of Armenia, Tartars last night attacked the monastery and residence of the Armenian patriarch. The Tartars were repulsed, but formed for a second attempt, when a force of infantry and Cossacks arrived on the scene. The Cossacks charged and dispersed the Tartars, killing one and wounding several.

A Charge of Crookedness.

Stratford, July 19.—At the last council meeting Ald. Gordon accused the board of works of being "crooked" in connection with the "allotment of contracts. Last night the chairman asked for an apology, which Ald. Gordon would not give. The board then left the chamber. Legal action for libel is likely.

Vein of $119.00 Ore at 10 feet

Is the record of the

The Manhattan-Midas Mining Co.

Capital 1,000,000 Shares. Par Value $1.00.

Property paid for; no debts; no salaries; no promotion rake-off; no office expenses.

Terror of Spring is Sickness

What Are You Doing to Protect Your Weak Body Against Spring Fevers?

A delay gives the germs and weakness a better chance to take hold.

Don't wait, think of your small resisting powers, and begin building up today!

For weakness, overwork and debility the doctors prescribe Ferrozone: let it help you now.

Vitality and power are instilled into the blood; this means new strength for all weak organs.

The fire of youth will dance in your veins, and new found energy will increase your desire to work.

Ferrozone supplies the nourishment and tissue-building material your system lacks. Isn't this a reason why?

From Combermere, Ont., Mrs. Jno. Oram writes as follows. "For a number of years I was sickly in the springtime. I felt tired, nervous and had headaches. My blood was weak and damp days brought on rheumatism. My nervous system was unstrung, and I felt utterly worn out. Ferrozone revived me in a short time. In two days my appetite increased and I could feel a building up process going on. This great tonic made a new person of me, and I don't think a more strengthening medicine for the spring can be found."

Wouldn't it be just fine to get back your old time spirits and vigor? Easily done with "Ferrozone;" commence today. Sold by all dealers, 50c per box or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

PETERBORO JULY 19 1906

THE PRESS AND POLITICS

The Times has tried from time to time in the past to arouse the attention of electors to the importance of performing their duty as good citizens. It is really sad to reflect upon the lack of patriotic conscience that characterizes the great mass of intelligent and honest citizens.

There is another thought closely connected with this. That is as to the duty of the press of the country. The partisan newspaper is inclined to conduct itself too much as the partisan voter. It is simply a question of the party name and brand upon the paper and the policy. It is not the highest ideal of the function of a newspaper any more than it is the highest ideal of the intelligent and honest citizen, that it shall listen until the party bosses are pleased to announce the candidate and then "holler" for anything that has the party brand on it and that appears under the party name.

The partisan voter is too much inclined to take any candidate for office put up by his own party. The partisan newspaper generally follows very closely in the wake of the partisan newspaper generally follows very closely in the wake of the partisan voter. If it does not, indeed, lead him. With the same purblind vision, it generally is inclined to spill in lavish measure printers' ink and to desecrate the superlatives of the English language in wounding the praises of a candidate with often the least possible fitness in the way of ability to fill the office, and with a reputation that is sometimes worse than questionable.

Now it is an edifying sign of the times that the voter is breaking away from the trammels of party organizations, and is determined, if not to do his whole duty, at least to begin to do a part of it; to show a little independence, and if not to go in actively and work for the nomination of thoroughly qualified and representative men. Undoubtedly this show of a small measure of independence on the voter will be weighed by the political machine in both parties.

The city of Pittsburg has just won an important case in the Supreme court, which decides that street railroads must pay the city for the use of bridges for their tracks. This may be of interest to Peterborough just now. The contention was over the right of the city to enforce contracts made between the roads and companies which formerly owned the bridges. These bridges are now the property of the municipality and are free to the people, but the court holds that this does not abrogate the old street car contracts. The result will be to cover a considerable sum into the city treasury for past tolls, as well as to assure a fixed revenue from this source in the future.

"SPOTTING" SYSTEM

Not Wholly Objectionable to Conductors Operating on Intercolonial.

Sydney, N.S., July 17.—Naturally the new checking or spotting system introduced by the Intercolonial officials, is not very popular among conductors along that line.

The reason of this is not because they fear espionage, but because the system assumes that "holding out" is a habit among them.

In the case of two conductors held up by the plain clothes men, it is said that the delinquency in each case consisted in neglecting to collect a fare from the wife of a railway employe.

However, from one standpoint, the innovation is welcomed by the conductors greatly.

Some travellers have been in the habit of forgetting to buy their tickets at the station, preferring to take a chance of getting a reduction when paying on the train.

Countrymen travelling short distances were sometimes a few cents short in their fare, and conductors preferred accepting to stopping the train and putting the passenger off in the middle of a field.

The new system will enable the conductor to say nay with greater firmness to many concessions that are asked by a certain proportion of the travelling public.

YUKON NOT UNDER BILL

Lord's Day Bill Applies Only to Provinces.

Ottawa, July 18.—A well-known parliamentarian points out that the Yukon territory is absolutely outside the pale of the measure. The amendment inserted by the Senate, providing that a prosecution can be instituted only upon authority of the Attorney-General of the province in which the alleged offence is committed, confines the operation of the act to the nine provinces of the Dominion. In order to include the Yukon, either the commissioner of the territory of his legal adviser should have been specifically mentioned.

The exclusion of the Yukon, by the accident or design, from the operation of the statute, will not be unwelcome news to the miners of the territory, as these with their short summer season for sluicing of washing, were not enamored of any proposal to restrict their operations.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

A VERY HIGH BRIDGE

Wonderful Structure Under Way in Colorado.

Denver, July 17.—Colorado will possess, within a few months, the highest bridge in the world over the deepest chasm in the Rocky Mountains. The bridge is being constructed over the far-famed Royal Gorge of the Arkansas River; and the Royal Gorge is the narrowest point in the also phenomenally famous Grand Canon of the same stream—the great gate, as it were, through which the Arkansas River empties its enormous accretions of water, very soon after they have been gathered from the melting snows 150 miles above, in the vicinity of Leadville, on to the plain once known as "The Great American Desert." At the point in the Royal Gorge where the bridge is to be stretched, the abysmal rent in the earth's crust is but fifty feet wide at the bottom and 230 feet wide at the top. The walls rise almost perpendicularly for a distance of 2,600 feet, and are granite, decomposed and iron-stained until the colorings blend into innumerable pleasing effects upon the senses. The bridge will be built of steel and glass.

Does Your Stomach Bother You?

Dr. Shoop's Restorative Cures All Distressing Stomach Troubles Through the Inside Nerves.

Do You Feel Like This?

As you value your health and happiness don't neglect to care for the slightest stomach pain—don't let it go. At the first sign of distress use Dr. Shoop's Restorative and end all these troubles. These aches are signals—they are symptoms of coming disease—is it wise to ignore them? You who never eat a hearty meal without a sense of fullness, followed by a period of lassitude or [illegible] drowsiness—heaven. Neglect these conditions and you surely invite distressing [illegible] indigestion—you'll become a sufferer, [illegible] dyspepsia. Do you [illegible] experience any of these symptoms?—distress after [illegible] eating, returning of food [illegible] to mouth, gnawing at [illegible] pit of stomach, rumbling [illegible] of gas, belching of wind, [illegible] spots before eyes, heartburn, headache, dizziness? If you [illegible] suffer in any of these ways, your duty is clear—there is but one [illegible] open to you—strengthen the inside nerves—these special stomach nerves—[illegible] shake off forever this evidence of disease. Put the digestive nerves in condition to act as nature intended they should. Don't drug, don't force—just give the inside nerves natural force, gentle tonic, nature's help. Dr. Shoop's Restorative should be taken to do this—it is the only prescription which builds up, or even attempts to restore the inside stomach nerves. Sold and recommended by

J. D. TULLY.

A Secret

It aids nature a little, that's the only secret about it. We refer to Ayer's Hair Vigor. It feeds the hair, makes the scalp healthy. The hair stops falling out and all dandruff disappears. The result could not be different, for it's the natural way. And it is a splendid dressing, keeping the hair soft and smooth. Why not save what hair you have and get more at the same time? J. C. Ayer Co., Lowell, Mass.

Public Notice

NOTICE is hereby given that the Council of the Corporation of the City of Peterborough intends, after this notice has been posted up for one month in six of the most public places in the immediate neighborhood of the land hereinafter mentioned and described and published weekly for four successive weeks in the Morning Times Newspaper, being a paper published in the City of Peterborough, to pass a By-law for opening and establishing the following streets in the City of Peterborough and for the purpose aforesaid authorize the entering upon, taking and using the following land necessary therefor, namely:—

1. A street sixty-six feet in width as an extension southerly of George Street from its present termination to Lansdowne Street; the land necessary therefor being those parts of Lots Numbers 30, 31 and 32 on Registered Plan No. 26 for the City of Peterborough; of Lots Numbers 26, 25 and 27 on Registered Plan No. 41 for the said City; of Block A on Registered Plan No. 35 for the said City; Lots Numbers Five and Six on Registered Plan No. 82 for the said City; of Lots Numbers Five and Six and part of Princess Street on Registered Plan No. 27 for the said City; and of Park Lots Numbers 1, 2, 4 and 7 in Township Lot Number Fourteen in the Twelfth Concession of the Township of North Monaghan now within the limits of the City of Peterborough, described as follows:—Commencing at a point in the northern limit of said Lot Number 32 at the distance of thirty-six and forty-five one hundredths feet easterly from the north-west angle thereof; thence south three degrees and thirty-six and one-half minutes west six hundred and fifty-three and forty-eight one hundredths feet; then south twelve degrees east to the northern boundary of Lansdowne Street; thence westerly along the northern boundary of Lansdowne Street sixty-six feet; thence north twelve degrees west to a point distant sixty-nine and forty-seven one hundredths feet northerly from the northern boundary of Romaine Street; thence north three degrees and thirty-six and one-half minutes east to the southern boundary of Wescott Street; thence easterly along the southern boundary of Wescott Street thirty-three and fifty-seven one hundredths feet; thence north three degrees and thirty-six and one-half minutes east to the southerly limit of Lake Street, and thence easterly along the said southern boundary of Lake Street to the place of beginning and shown on a plan thereof filed with the City Clerk.

2. A street sixty-six feet in width between said extension of George Street and Park Street, from Wescott Street to the division line between Park Lots 3 and 4 in Township Lot Number 14 in the Twelfth Concession of the Township of North Monaghan now in the City of Peterborough, the land necessary therefor being the easterly sixty-six feet of Lot Number Twenty-six on Registered Plan No. 41 for the City of Peterborough; that part of Block B, on Registered Plan No. 82 for the said City described as follows:—Commencing at a point in the northern boundary of said Block B, at the distance of six hundred and twenty-seven feet easterly from the east side of Park Street; thence south twelve degrees east to the northern boundary of Romaine Street; thence easterly along the northern boundary of said Romaine Street sixty-six feet; thence north twelve degrees west to the northern boundary of said Block B, and thence westerly along said northern boundary sixty-six feet to the place of beginning. Lot Number Sixteen on Registered Plan No. 82 for the said City and that part of said Park Lot Number Four described as follows:—Commencing at a point in the northern boundary of said Park Lot at the distance of six hundred and twenty-seven and twenty-eight one hundredths feet easterly from the east side of Park Street; thence south twelve degrees east to the southern boundary of said Park Lot; thence easterly along said southern boundary sixty-six feet; thence north twelve degrees west to the northern boundary of said Park Lot, and thence westerly along said northern boundary sixty-six feet to the place of beginning and shown on said plan filed with the City Clerk.

AND TAKE NOTICE that the said Council will at the meeting thereof to be held on the Sixth Day of August, 1906, hear in person or by Counsel or Solicitor anyone whose land might be prejudicially affected thereby and who petitions to be heard.

Dated this 13th Day of June, 1906.

S. R. ARMSTRONG,
Clerk.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

AMALGAMATED MINING AND EXTRACTION COMPANY

1624 Curtis Street, Denver, Colo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 198 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

"Where?"

"Anywhere, anywhere," she cried wildly, "only so it be to safety! Haste! They gain on us!"

"If we land they are certain to take us. You cannot go afoot as fast as they."

"I shall not go. You shall leave me there. Row! Row!"

"And why should you care for my life?"

"Ah, will you stay when my heart is breaking? There is no time to talk now. What is anything they may do beside your life? I beseech you—I command you to run in. I never intended you to take me farther."

"You would be safe if we could reach Gladden Hall," he said. Then he stood up and threw off his coat.

Her tears came at this. "There is no one at the hall to protect," she wept. "Not a slave to beat them back. Not a weapon. Tarleton sacked it. Ah, you do not believe me because I deceived you before! But this is the truth—I swear it is the truth!"

He made no answer, but set the boat's bow straight up the stream and rowed as she had never seen a man row before. She felt the timbers shiver and creak, heard the deep intake of his breath and saw the splendid play of the arm muscles beneath his shirt sleeve. Then, entering, ever more insistent, came the creak of the pursuing craft.

The moonlight fell whitely on the shore they skirted. Two miles—three miles—past the shallows of King's creek and Corbin's point. Every tongue of land, every wedge of forest, how well she knew them! But how slowly they fell behind! There was no longer danger of arousing the Continental pickets, and the pursuers' voices came clearly, gibing at the error of their prisoner which had carried him past the line of safety and made his taking certain. Once Anne heard the officer who led give sharp command to put down a gun.

A scant 200 yards was all there was between the two boats when Armand sprung upon the wharf of Gladden Hall. "Leave me," she begged faintly, "and save yourself! You have yet time."

"Give me your hand!" he commanded peremptorily. He took it and led her, running, up the sloping lawn.

Its unkempt forlornness was softened by the kindly moonlight, and not until they reached the front of the house did its gray desolateness become all at once apparent. The panes in the windows were broken, the white pillars battered, the front door swinging, the yard unsightly with rubbish.

"'Tis deserted!" Despair was in his tone.

"I told you that."

"Are there no horses?"

"The barns are burned. Leave me, leave me and go!"

He hurried her to the front door, and they entered, hearing as they did so the larger boat bump the planking. Without a word he shot home the bolts in the great door and drew her into the dining room, now overscattered with broken crockery. He locked both doors of this room, smashed the sashes of the porch windows with a chair, brought together the heavy outer blinds and slid the bars. As he fastened the second the pursuers came tumbling to the porch. Anne, meantime, taking a clew from him, had managed to fasten one of the windows in the opposite side. He sprang to secure the other before the soldiers reached the back of the house.

This shut out the last of the moonlight, and the room became a black darkness. Outside was a deadened clamor; curses and shouts to fetch ship's lanterns and search the empty quarters for an ax. Anne could hear Armand's convulsive breathing.

She had groped her way to the sideboard and opened its candle drawer. A tiny half inch end rewarded her. Flint and steel still hung in their accustomed place. She struck them and lighted the wick with trembling hands.

As she did so a heavy body came hurtling against the other side of the inner door. "Better give up, you weasel," panted a voice.

Armand answered loudly, "If I do will you promise to let the lady go?"

"No, no!" Anne besought in an agony. "You shall not give yourself up to them! They would not hold to such a promise."

With her cry, however, whirled a scramble of curses. "We'll lay you by the heels and take the girl back, too, curse you!" And a rain of blows descended on the door, while a crash against one of the blinds shook the wall.

Leaping back, Armand dragged out the heavy mahogany sideboard, now slashed and dented, and set it against one door. The other he re-enforced with the overturned table and bound this to its place with the twisted window curtains. Last, he wrenched an iron from the fireplace and stood waiting. At the same moment the candle end collapsed, the wick dropped, flickered and went out, and darkness fell around them again.

A lull had come in the attack. Evidently a consultation was being held. The blackness seemed to lie upon Anne's soul like a heavy weight, and Armand's silence became unbearable.

"What shall we do?" she asked dully. "We cannot hold out for long."

But there was no reply.

"I—I am so frightened," she said piteously. "'Tis dark! Come to me, Louis!"

She listened, but he made no stir.

"You will not come to me, will not pity or comfort me?" she entreated through the void. "Yet tonight I tried to save your life."

"For what end? You who took from it all that makes life sweet! I trusted you!" She shrank at the ring of scorn in his voice. "I trusted you!"

"And I you," she answered. "I loved and hoped and trusted too. After they took you from here that evening, every night when I went to bed I said a prayer and kissed my poor hand to you in the dark. And I have done so every night since then—every night, Louis."

Something like a sob sounded in the room, and she stretched out her arms toward it.

"I tried to keep my promise. You remember when they lashed the bondwoman? She woke with a crazed brain, and the packet—your packet—was gone. All those months I searched and found it at last by chance. I did not get to Philadelphia with it till—that morning."

There was no further answer, and she slipped on her knees, feeling a yearning that was like a poignant sickness.

"You must hear," she went on pleadingly, clasping her fingers, "and believe me or my heart will break. Fate put me in the recess of the window at the Red Lion [illegible], Louis. I saw Jarrat give you the forged message—saw you fight and run him through. I knew you were true—true to your master's honor and your own."

"You avenged me!" The words stung her. "As well me to the Continentals!"

(To be continued)

The Trade Treaty With Japanese

Ottawa, July 18.—The text of the trade treaty between Japan and Great Britain, under which there is a substantial tariff reduction in favor of products of the Dominion, has been received in Ottawa. The treaty went into effect on Friday.

It is provided that the Japanese government may restrict or prohibit the importation of adulterated drugs, medicine, food or beverage; obscene prints or articles of all kinds; articles which may violate the patent, trade mark or copyright laws of Japan, or any other article, which, for sanitary reasons, might offer any danger.

Mr. Nosse, the Japanese Consul-General for the Dominion, has had a form prepared, which it will be essential for Canadians exporting goods to Japan to fill out, and have properly attested before a notary public, commissioner or justice of the peace. This declaration provides for the marking, numbering and description of manufacture and the place and date of shipment.

It will be necessary, therefore, for Canadian exporters to immediately get into touch with Mr. Nosse in order to thoroughly familiarize themselves with the customs requirements of Japan. Already the Consul-General has issued his certificate for the shipment of a large consignment of news print paper from the Province of Quebec to Yokohama.

For Awnings, Tents, Sails, Flags Waterproof Goods, Camp Goods, Horse Blankets, Rugs, Surcingles,

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15.0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Department of Railways and Can'ls, Canada

WELLAND CANAL PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned and endorsed Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an eight million bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques their rent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, July 6, 1906.

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock $500,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Saunders & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M.P.P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMSON, Esq., M.E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drumond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of hem has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address P. O. Box 129, COBALT.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

A Woman's Kidneys

What Doctors Notice and What They Don't.

Disease in the kidneys is one of the last ailments for which a doctor looks when treating women. This is a great mistake.

Women are very prone to kidney trouble and in fact many physicians attribute a woman's lassitude and ill health to a derangement of the genital organs, when it's simply plain kidney disease, and nothing else.

Many so supposed female complaints are either kidney or bladder diseases.

Sick kidneys of course make associate organs sick also.

The result is back pains, bearing down sensations, utter weariness and headache.

But Dr. Hamilton's Pills go right to the spot.

They put life into the kidneys that makes a worn out woman feel like new.

Indirectly the blood and nervous centres are invigorated by Dr. Hamilton's Pills, and the result is a perfect performance of the function and a painless fulfilment of nature's command.

Thus it is that a woman can gain much happiness and abundant good health by the regular use of Dr. Hamilton's Pills.

From her home near Portland, Ont., Mr A. B. Coburn writes:

"For two years past I have been sickly and weak. My color was dull and sallow, and I felt exhausted and weary, as if all my strength were being eaten up with some hidden trouble. I heard of Dr. Hamilton's Pills and decided to use them. The change in a few days was surprising. They regulated my kidneys and bowels and cured all my suffering; today I am perfectly well."

You can rely on Dr. Hamilton's Pills with implicit confidence their effect is wonderful. Sold by all dealers. Price 25c. per box, five boxes for $1.00, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

Yesterday a lady's brooch. Any one identifying the same and paying for this ad. can get the brooch at The Times office.

Mr. H. Smith Returns Home.

Mr. Harry Smith, who left Peterborough a short time ago for the West, and is located at Didsbury, Alberta, returned yesterday to arrange for moving his family to the west. They will leave for their new home in about ten days.

WOMAN COOK WANTED.

First Class Cook for Hotel at the Soo, Ont. Big money. Apply to GEO. J. CHALMERS, Water Street.

All Saints' Picnic a Success.

All Saints' Annual Sunday school outing up the lakes on Wednesday, was a great success. Fully 300 took advantage of the trip which was run per the 8.30 train to Lakefield and thence per the fine and commodious steamer Stony Lake to Mount Julian. The children present had a most enjoyable outing.

Charlotte St. Trough is Still Dry.

Water has been turned on again in the east ward trough, at the McDonnell street, but the water trough at Charlotte street is still dry. The excuse given is that the pipe is rusted and clogged up. This trough should be repaired or cleaned out, as it is the most important of all in the city.

Youthful Thieves Were Captured

The boys who robbed Mr. R. H. Rogers' yacht, while it was lying at Ashburnham dock, awaiting inspection, have been arrested. The youthful culprits were three east end city lads, whose ages range from 14 to 15 years of age. It appears that after removing the fixtures, the boys being afraid of being caught with the stolen goods in their possession, got rid of them by throwing the brass into the lake.

The case will be heard as soon as Mr. Rogers returns to the city, which will, in all probability, be within a week.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Yesterday was Millbrook's civic holiday.

—Yesterday afternoon George street stores were generally closed.

—Barnum and Bailey's advance advertising car arrived in the city yesterday.

—A large crowd took in the street railway's moonlight excursion last night.

—Lindsay lodge, Sons of England, will run an excursion down the river August 2nd.

—County Police Magistrate Ellwood will hold court in Havelock today to try an assault case.

—The annual picnic of Park street Baptist church was held down the river yesterday to Jubilee Point.

—The employes of R. Hall & Son, went down the river yesterday afternoon on the steamer Monarch to Jubilee Point.

—Mr. J. W. Westcott and a private party came up the river yesterday morning in his yacht, Mermaid. They took a trip over the lift locks to Lakefield.

—The gang of men under charge of Mr. M. Donnell, who are changing the 1 1-2 in gas pipes on Water Street, for 3-in pipes, are rapidly shoving the work ahead.

—On Wednesday evening a lady found a baby's coat on George's test. The owner can get the same by applying to Mr. A. Rousseau, the George street grocer.

—Pathmaster J. G. Weir, of Otonabee, has summoned a resident of that township before County Magistrate Edmison for non-fulfillment of his statute labor duty.

—Jackson Park last night despite the counter attraction of the moonlight excursion down the Otonabee, was crowded with a well pleased audience who enjoyed the moving pictures.

—The new auto bus in night brought in two loads of 25 each of St. Andrew's church excursionists from Chemong. Those who patronized the bus were much pleased with its work.

—The steamer Beaver took the Water Lily's regular trip down the river yesterday, the Water Lily and barge being in commission for the Park street Baptist Sunday school excursion.

—Mr. T. B. Staples, the Simcoe St. blacksmith, is kept busy these days, repairing and sharpening tools used in the new 150,000 foot gas holder being erected by the P.L. & P. Co. at the gas works.

—A large excursion party passed through the city yesterday to Lakefield, where the steamer Stony Lake was boarded. It was the annual outing of the Presbyterian church Sunday school of Millbrook.

—The Barnum and Bailey circus which shows here on Aug. 9th, brings 960 people with it. There will be no parade, as this show from its very size has for the past three years cut out this old fashioned idea.

—There will be a big excursion to Peterborough today. The Ancient Order of United Workmen and the sons of England of Whitby, Oshawa, Bowmanville and Newcastle will bring a large number of visitors to the city who will spend the day here.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company has made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger scow which goes with her, have been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats in the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets, 25c each, may be purchased at the Street Railway office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

Marathon Victor Here Saturday

The Port Hope ball team will be here on Saturday afternoon to play the return game with The locals. This should be a great game, as the lakeside bunch have the best aggregation in many years.

The locals, although defeated in Port Hope last Saturday, hope to reverse the score here. They will be in shape to put up the very highest quality of ball on Saturday.

Besides the ball game William Sherring the winner of the 27-mile race in the Olympic contest at Athens Greece, will be here and give an exhibition of running.

SOCIAL AND PERSONAL

—Mr. E. J. Richardson, of Hastings, was in the city yesterday.

—Mr. J. S. Rogers, of Detroit, is registered at the Snowden House.

—Mr. and Mrs. H. A. Allen, of Cobourg, are visiting friends in the city.

—Mrs. George Cochrane and daughter left yesterday morning for Stony Lake.

—Mr. Chas. Empsey, the local baker leaves this morning for Rochester, where he will reside in future.

—Mr. J. F. O'Brien, of Cloquet, Minn., is a guest of his brother, Mr. J. J. O'Brien, Dundas street.

—Mr. Edwin McIlroy, of London, is the guest of his brother, Mr. Wm. McIlroy, C.P.R. city ticket agent.

—Miss Marjey Fife of Peterborough, is visiting Mr. and Mrs. Reid, Miss Rita Woods.—Campbellford Herald.

—Mr. J. W. Carey left yesterday for his summer home, St. Edgar Boys, on Stony Lake. Mrs. Carey and family will go up today.

—Mr. Robert Fair and Miss Edith Fair, accompanied by Miss Ida Fair, of Millbrook, left yesterday for Hurlwood and Buckhorn on a fishing trip.

—Millbrook Mirror—Mr. T. W. R. Black of the Bank of Toronto, Peterborough, spent Sunday in town.—Miss May Fox is visiting friends in Peterborough.

Thought She Was Chloroformed

Poor old Miss Corrigan, a harmless but eccentric lady, who has been boarding for a time near Chief Rossell's residence on Stewart street, yesterday morning had a new idea of woe to tell the police. It seems that the people with whom Mrs. Corrigan roomed, were away for a week, leaving other people in charge of the house. Yesterday morning Mrs. Corrigan appeared at the police station and told the chief that the people in the house had tried to chloroform her. The chief, however, having heard so many fanciful tales of attempts on her life, laughingly told her to go home and she would be all right. This old lady while giving the most direful news of to attempts on her life laughs and chuckles as though it was the funniest ever happened.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 2, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 3.50 and 7.15 a.m., 7.15 and 8.45 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

Miss V. Carveth Gets the Medal

Miss Veronica Carveth, a pupil at the convent, and the eleven-year-old daughter of Mr. Henry Carveth, contractor, 320 Charlotte street, was successful in capturing the silver medal donated by Mr. Wm. Pringle, for the best writer of the recent examinations among the third book class pupils.

Miss Carveth's friends will join in extending their hearty congratulations.

Mrs. G. Wheeler's Death in England.

Mr. George Wheeler, east ward, has received the sad intelligence of the death of his mother, Mrs. George Wheeler, who resided in Crockerton, Wilkeshire, England. The late Mrs. Wheeler died on June 26th, and was ninety-three years of age. She leaves a small family to mourn, two boys of which reside in this district, George of east ward and Uriah of Otonabee township.

A Chance for a Fall Fair.

It is now suggested that Mr. H. B. Cowan, of Toronto, superintendent of fall fairs for the province, should be invited to be present, and if possible straighten out matters when the meeting is held on Wednesday, July 25th, in the council chambers. This time is having a local fall fair. Mr. Cowan has had years of experience in the management and direction of exhibitions, and might suggest a modus vivendi whereby Peterborough could hold a place, as far as fall fairs are concerned, as good as that of say, Omemee.

Mr. Pappas Buys More Tables.

Mr. M. Pappas, the George street cigar man returned yesterday from Toronto. Mr. Pappas was in that city, arranging for ten new and up-to-date pool and billiard tables for his fine parlors. These tables will be here and in operation by the 1st of September. Mr. Pappas will secure additional rooms on George street, to accommodate his rapidly growing business. Mr. Pappas is now concluding arrangements for getting larger quarters for his new billiard rooms.

Why Cigarettes Are Sold.

Yesterday two or three citizens gathered in a local dispensary of wet goods, were discussing the matter of selling cigarettes by hotels. The proprietor of the place in question, when asked, "Why do you sell those coffin nails?" were behind the bar and bringing out a deep umber half full of five and ten cent pieces, answered, "Say, do you think I sell those ——— things for profit. None of the money I get for these infernal things goes into my cash register. I simply took them from a good woman who has a grocery store and who could not, under the present bylaw get rid of her stock. As soon as I sell these three boxes, I will turn her money over to her, and no more coffin nails for mine." Here is a possible breach of the lester of the bylaw that deserves commendation.

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennet Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow, of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, prolapsus, anteversion and retroversion and corrects disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician of large experience in the cure of women's peculiar ailments, who frankly and candidly takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is *free*. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing *only*; in cloth binding 50 stamps. Dr. Pierce's Pellets cure constipation.

The Commissioners Meet This Evening

The license commissioners of West Peterborough, meet tonight to consider important business. A very largely signed petition, on which only the names of bona fide ratepayers appear will be presented, asking the commissioners to reconsider the matter of refusing to extend Mrs. Bowman's license at the Oxford House.

This petition sets forth that Mrs. Bowman should have her license extended for several reasons, viz., that during the six years she has been in business, a conviction has never been made against her, that she and her landlord are willing to do what repairs the commissioners may demand, and that she being a widow is, under existing circumstances, entitled to some consideration, particularly as passengers per C.P.R. would be deprived, if she lost her license of privileges, that would result in Peterborough being hardly spoken of by passengers requiring refreshments whilst passing the local station.

Logs Passing Through Yesterday.

The Rathbun Company's logs were still passing down the river yesterday. Several river-drivers were busy at Hunter street bridge, keeping their logs from sticking at the central pier, and at the same time diverting their course to the east side, and thus out of the way of the dredging operations.

The Strenuous Life

Results in Stomach Troubles and Physical Breakdown.

The strenuous life of modern times forces people to rush through their meals hastily, hurrying from the table in the mad rush after the almighty dollar.

The result is incomplete digestion, inflammation of the walls of the stomach, and lack of secretion of the gastric juices, ending in chronic stomach trouble and nervous breakdown.

How much better would it be to eat more slowly, cure the stomach trouble with Mi-o-na and soon regain perfect health. The headaches, sleeplessness, nervous troubles, pain after eating, specks before the eyes, backaches, melancholy and gloomy forebodings would be soon overcome and perfect health and strength would be restored.

In per treatment of the weakened digestive system with, Mi-o-na will cure every case of stomach trouble. The results of this treatment are so astonishing and so pronounced, that those who have tried it never fail to appreciate its value as a healing agent.

Each box of Mi-o-na sells for 50 cents, and is invaluable to anyone who sufferers with indigestion, nervousness or weak stomach.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO 174 PETERBOROUGH, ONTARIO, SATURDAY, JULY 21, 1906. PRICE TWO CENTS

No Change in the License Arena

Commissioners Met Last Night and Decided to Cut Off Messrs Brooks, Dunn and Mrs. Bowman.

...ers of West Peterborough, met in Chairman Dr. Morrison's office, in the Bank of Commerce Building, to consider several matters of "importance. Mrs. Bowman was present, and handed in a petition largely signed by many of the leading business and professional men of the city, requesting the commissioners to reconsider their former decision to cut off the license of the Oxford House.

This petition was received, and given due consideration, however, the commission re decided to abide by their first decision.

Mr. Poussette was present, and made a strong plea for Mr. A. Dunn, of the Southern Hotel, for an extension of license. This request was however turned down.

A representation was made regarding the Palace Hotel, owned by Mr. J. M. Brooks, to be same effect. This, however was also given the cold shoulder, the commissioners concluding to abide by their first decision So that the three places cut off from a license are still in the cold shades of opposition.

Two places that have, as shown by the police records, been keeping the liquor law, are thus cut off for the ostensible reason that their accommodations do not extend to the standard required by the present law.

The matter of an office for License Inspector Joseph Stewart was also taken up. No action was taken and the matter is still in abeyance.

Robt. Maxwell's Sad Experience

Local Man Buried Under Many Cubic Feet of Earth.

Robert Maxwell will, for many a year to come, remember his experience of Thursday.

It seems that Maxwell, a laborer residing at the corner of Bethune and London street, was employed by Mr. Robert Smith, who has the contract for making the connection between the main sewer, and the new house being erected at the corner of Charlotte and Stewart streets for Dr. H. A. Wood. He was digging at the bottom of the trench, which was eleven feet deep at this point, when suddenly the side of the excavation caved in upon him, completely burying the unfortunate man beneath at least two feet of sand. He was caught in a stooping position, and held there.

His employer, Mr. Smith, immediately jumped into the trench, and had Maxwell's head uncovered. The work of rescue was then completely completed. A rope was placed around the man's body, and he was hauled to the surface.

Maxwell escaped almost uninjured from his terrible experience. He was badly shaken up and shocked, but the only injury was to his leg, which was jammed against a pick. He was almost smothered before being rescued.

An Arizona Mine of Promise

Good Opportunity to Procure Stock on the Ground Floor.

Fortunes are made daily by those enterprising enough to get in on the ground floor and purchase gold mining stocks while such stocks are low. Many a man has let slip a chance for wealth by waiting until mines have been developed, and put on a basis whereby not only development and working expenses, but dividends are paid by the ore extracted.

To buy mining stocks to advantage (to get the stock before it rises...

The Chloride Gold Mining Co. owns a valuable property on Shrum Shrum Mountain, near the town of Chloride, Arizone, and also the Jumbo group twenty-five miles from the same town, one hundred and forty acres altogether. This company is under the management and control of practical miners and will handsomely large dividends within a short time. For a limited time only it is possible to secure stock at par, viz. at $1 per share.

For full particulars call on or address W. Kelsey Hall, fiscal agent, Peterborough.

Thos. Robertson Shot to Death

Result of a Sad Accident in the Back Country by a Bullet.

Yesterday evening The Times was called up and notified that the village of Haultain has had a fatal accident, ending in the death of Mr. Thos. Robertson. The fatality took place on Cedar Lake, about three miles from Mr. Juhan.

It seems that Mr. Robertson was accompanied on Cedar Lake by Mr. Deyncourt Stone, of Peterborough, and the latter's cousin, Willis Stone, of Haultain. They had paddled across to Simpson some timber and that evening the shooting happened.

The party had a 40-60 rifle in their possession, which was carried by Daincourt Stone. In getting out of the canoe on to the shore, it discharged, the bullet entering and going completely through Robertson's left thigh.

Dr. Douglas, of Warsaw, was quickly summoned, and in company with Mr. P. Morrison Milne, left at the Victoria House, paddled across to Mr. Juhan, from where they were driven to the scene of the fatal accident. Owing to the great distance, they did not reach Haultain until almost midnight, and only to find that the unfortunate man had succumbed at about 8.30 owing to loss of blood.

The doctor found that an artery had been cut, which was the cause of death.

The deceased man leaves to mourn his loss a young wife and three small children, who depended upon him for their livelihood. He was only 26 years of age.

The Lindsay Post Throws Hot Shot

The Lindsay Post (Liberal) is wrathy because that town did not secure the normal school, which will come to Peterborough.

It makes a jump upon Mr. S. J. Fox, the local representative, and is hostile at everything and everybody. This paper says:

"The general disappointment expressed by all classes of our citizens both Liberal and Conservative at the failure of our local representative, Mr. S. Fox, to follow up the good impression made on the Government by a large deputation of our leading citizens and representatives from all over the County of Victoria, as to Lindsay's unrivaled claim for one of the Provincial Normal schools. The members of the Government who met the deputation recognized Lindsay's claim as beyond question, and those who were on the deputation were convinced of that fact and were satisfied to leave the matter in the hands of our representative to bring his personal influence to bear on the Government and finally secure the school. Mr. Fox evidently did exercise what influence he had and we have the result—the town is turned down. Surely West Victoria has had enough of this sort of thing to convince its electors that it is folly to send to parliament a man that cannot be of more use to his constituency than Mr. Fox has proved to be. When Mr. Fox was in the opposition he was excused, to a certain extent, in not getting for his riding what any aggressive man should have been able to secure and his friends asked that he be given a trial on the government side. To help him the government changed to Conservative and one with his own friends in power he has had this trial and has most miserably failed. It is true he has secured appointments for several of his friends, dismissed capable officials who were turned out of office without any charge being laid at their doors, the Whitney Government will do but without being persuaded, for it is of any benefit such a person as a representative of the riding he has been a decided failure.

What did Peterborough's representative do with his case, which had no such claims as those put forward by Lindsay's deputation? Mr. Braidburn is reported to have said that his town must have it, or he would resign—to go in.

Agrarian Troubles Great.

Dobruisk, Province of Voronezh, July 19.—The troubles in the whole of this district, covering 135 square miles, are becoming more serious daily. The peasants have risen as one man, and last night over twenty estates were burned and several landed proprietors killed. The town is filled with terror-stricken proprietors, who were able to escape yesterday's carnage by fleeing from their estates.

Ten miles from here, fifteen estates were burned, and many of the proprietors killed. The governor has arrived with Cossacks, but order has not been restored.

The Tax Collector Gives Warning

Tax Collector W. J. Green, has asked The Times to insert the following notice:

"Any parties who have not received their tax bill or any property which has changed owners, etc., if they would kindly call at the tax office and have the matter adjusted before the rush, would oblige the tax collector and save themselves of waiting later on, as he is too busy to make out bills, etc., the last week that taxes can be paid. The last day for paying the first instalment of taxes is the first day of August."

An Offer to Dumoulin.

Kingston, July 20.—Rev. Frank Dumoulin, of St. Peter's church, son of the late Bishop of Niagara, has been offered the rectorship of St. George's, the salary reaching will up to $4,000. Should the position be accepted, Mr. Dumoulin would be made dean of the diocese of Ontario.

Lothario and Murderer.

Winnipeg, July 20.—H. W. Todd, wanted on charge of murdering Christian Hiron, last week, is believed to be in hiding on his brother's farm near Brandon. He left Winnipeg in company with a married woman and she has been located and is now under surveillance.

Winnipeg's Power Project.

Winnipeg, July 20.—The first step towards a municipally-owned power plant for Winnipeg was taken yesterday morning when a committee recommend to council that the city engineer be instructed to survey a right of way from Lac du Bonnet to Point de Bhois Falls, a distance of 70 miles, at an estimated cost of $7,000, for an electric tramway to cost $10,000 a mile.

Smallpox in West.

Winnipeg, July 20.—Fifteen cases of smallpox has been developed at Easterhazy, Sask., and the seriousness of the outbreak is largely due to lax enforcement of quarantine by the officials. Six of the patients are members of the hotelkeeper's family. There is talk of quarantining the entire village.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday morning the Fife Hosts and Labor Loathing Clubs were out in full force at the police court, their flagging energies had been recuitated by "no days" divorce from their usual feast of reason and flow of soul.

The first item on the intellectual bill of fare was that of the residents of the east ward, charged with riding their bicycles on the sidewalk. Two pleaded guilty and were assessed $2 each, while the third proved that he was not guilty.

Maud Oliver, a young girl, laid a charge against Mr. C. S. Beckford for having a vicious dog. Mr. A. P. Poussette, K.C., appeared for the defendant. Miss Oliver said she was going up the west side of George street, on Monday, July 9th. When opposite B. Y. Moyes' store the dog bit her on the leg. Another witness corroborated the preceding witness' evidence.

Mr. A. P. Poussette, for the defence, claimed that the by-law did not cover the case. He also said there was no evidence to show that the dog was dangerous.

The magistrate ordered the animal shot, adding that a dog which bites is a nuisance, and a dog that will run across the road and bite a little girl was "not fit to live."

Mr. Poussette added, that there was an old adage, that: "Every dog is entitled to its first bite."

An important case was then heard, that of Mr. Thompson, city plumbing inspector, vs. McGregor and Reid. The case was dismissed without costs.

Mr. Donnistoun, for the defendants, said that the case was adjourned last week for Mr. McGregor to get his license. He had sent a communication to the city engineer but had received no reply.

Mr. Thompson, the city's plumbing inspector, was into the box, and said he refused the license to Messrs. McGregor and Reid, because the last sentence of clause two in the by-law has not been complied with.

In reply to a question by the magistrate, Mr. Thompson admitted that the firm had not qualified such cases.

Mr. Thompson said the firm have not the proper mechanics.

The witness said McGregor and Reid had only two men working for them; Rose a lad of 20 months experience, and Drury, who has worked about 18 months at the business.

Mr. Donnistoun asked the inspector how many jobs he had passed for the defendants since last Friday.

"Three and found no fault with their work," was Mr. Thompson's reply, but I want him to get more some before I grant him a license. He's got to get a practical man."

The whole argument boiled down, amounted to the facts that Mr. Thompson said McGregor do a large business and employ apprentices as do other plumbers.

Mr. McGregor produced his apprenticeship papers from Bunn & Wright of Toronto, and also other testimonials, and said he had charge of the work on the King Edward hotel, Toronto.

Mr. McGregor said that Mr. Thompson had never questioned his work until a short time ago. He had worked at the business, but generally speaking just superintended the work.

Mr. McGregor contradicted Mr. Thompson's statement about seven men. He said Rose had worked at the business six years, and has work proves his ability. His work is exceptionally fine. He was prepared to say he can do his work as good as any plumbers in this city.

Witness said he did the chief part of the work, no Rose and Drury. His partners, Mr. Reid, was in Toronto now looking for experienced men. We need them because our business is growing and we have some large contracts to fulfill.

Mr. Dumoulin said that McGregor & Reid were wrongfully deprived of their license. The man is entitled to his permits.

The case was dismissed without costs.

It seems that a man like Mr. McGregor, who had absolute control of the plumbing in a building like the King Edward Hotel, Toronto, is surely capable of looking after such comparitively small jobs as local plumbers secure. Mr. McGregor's work in the King Edward Hotel attracted international notice, and the magistrate seems to have acted wisely in his decision in this case.

Squadron for Canada.

Ottawa, July 21.—It transpires that a squadron of the royal navy will visit Qebec between August 29 and 30. Included 16 it will be H. M. S. Dominion, now one of the battleships of the Atlantic fleet, and commanded by Captain Kingsmill, a native of Toronto. The Dominion will have on board the Canadian gifts to her officers and crew, and the formal presentation will take place during her visit. The 43rd Rifles, of Ottawa, are arranging for a visit to Quebec during this period.

Where Did Robt. McKee Go to?

The Toronto Globe of yesterday says, The G.T.R. train which brought the last contingent of immigrants to the city arrived at the Union Station yesterday morning, minus one of its passengers, a Scotchman, Robert McKee. Mr. Gardiner, his mate, had been sitting with him in the train he stated, and both had been asleep. About two o'clock yesterday morning, when the train was a short distance east of Tweed it was discovered that McKee was missing. Whether he had stepped off the train and been left at a station, or had fallen off the train, was a matter of conjecture, and yesterday evening the immigration officials had no word of any news of McKee's whereabouts. The G.T.R. officials had no report of the incident, but inclined to the belief that McKee must be in safety or otherwise some of the passing engineers or firemen would have seen some trace of him during yesterday.

A Stenographer Got Spifflicated

Last night P. C. Meharry gathered in a well dressed and intelligent looking Englishman who had partied too long and consequently with the extract of Canadian barley.

The prisoner who gave his name as Henry Sydan and his home as Manchester, is an expert shorthand writer. His samples of work, which, in some instances, during stenography were genuine proofs of his ability in this line, were, owing to his then condition, somewhat like the marks an inebriated hen might make on a table after it had wandered into an ink well.

His Worship will prossibly be lenient this morning on the 1st offence plea.

East Peterborough Fall Exhibition

Prizes For Speeding in the Ring Will Be Small.

A meeting of the directors of the East Peterborough Agricultural Society has been held in the town hall, Norwood. Those present were: Mr. F. Birdsall, president; and Messrs. H. Neilson, E. Hawthorne, J. Rose, Joseph Johnston, G. F. Elliott, John Kelly, And. Knox, John Knox, Geo. Elliot, Chas. O'Reilly and J. E. Roxburgh.

It was moved by Mr. A. Knox, seconded by Mr. Johnston, that prizes for speed be offered as follows:—1st $35, 2nd $25, 3rd $15.

Moved in amendment by Mr. Hawthorne, seconded by Mr. Neilson that prizes for trials of speed be $30, $20 and $10, be offered.

The amendment was carried.

Moved by Mr. Hawthorne, seconded by Mr. Kelly, that the prizes for single horses and matched teams in the roadster and carriage classes be raised to $5, $3 and $2, and that horses be required to be driven around the track before the prizes be awarded. Carried.

It was also moved that the prizes for the ploughing match be raised to $3, $2, $1. It was also decided to raise the prizes for matched teams in classes four and two to $5, $3 and $2.

Local Contractor is Kept Busy.

Mr. Jas. J. MacPherson, the local contractor, completed the brick work on that fine new wholesale grocery warehouse, on George street, for Messrs. T. Kinnear & Co. He began the brick work on the house of refuge, Lakefield, yesterday, and expects to complete this job within the next five weeks. Mr. McPherson did the Kinnear job in three weeks, which is perhaps a record in local bricklaying, and the work was well done.

Federal Member to Get Appointment.

Ottawa, July 21.—It is currently reported that Hon. David Laird, Indian Commissioner, will be superannuated shortly, and that his successor will be Mr. S. Jackson, M.P., for Skibkirk. Ministers will not confirm the report but there are the best of reasons for believing it to be true.

Many Men Placed on Ontario Farms.

Toronto, July 21.—Mr. Thomas Southworth, Ontario director of colonization, estimated that 12,000 men have been placed on Ontario farms this season, over 5,000 of whom were handled by his department, nearly as many by the Salvation Army, and the remainder by Dominion officials. The class this year was better than last, 1,000 to 1,200 men are still wanted by farmers.

States and Spain Signed Treaty.

Madrid, July 21.—American Minister William M. Collier has gone to San Sebastian to sign the new commercial treaty between Spain and the United States, which overcomes a number of increases in the Spanish treaty put in force this month, and giving reciprocal advantages.

Western Harvest Begins.

Winnipeg, July 21.—The weekly crop report of the C. P. R., issued yesterday, is more comprehensive even than usual, as the company require accurate information on which to base preparations for handling the crop promptly. According to this report, the growth is good and the weather fine and warm. The wheat is all headed out, and the prospects for a much better than average yield continues unimpaired, Harvesting will begin on Portage Plains today. The crop in western Manitoba is slightly further advanced than in the far West. No indications of rust are reported, but at Duck Lake blight has been noticed in a few cases.

In South-Western Manitoba the harvest is expected to begin during the first week in August, but there has been some damage by hail but there. Around Pierson 1500 acres were destroyed.

Woman May Have Died From Drugs

Husband and Vendor of Pills Under Arrest--- A Charge of Murder Will be Laid Against Both, Said the Crown Attorney.

Toronto, July 21.—Dora Bridant, ... years ago. The ... of four months ago became to Toronto from Kingston, and was employed as a barber with Peter Brunet, 17 Colborne street.

Brunet stated to the police that Bridant lived in Kingston, where he also worked as a barber, before coming to Toronto. He claimed that his wife was of French-Canadian descent, and that he had married her in Kingston. The two have a daughter three years of age.

Mrs. Miller is a short, stout woman, 37 years of age, and wears glasses. When brought to the police station she had on a black mourning hat, a white waist and black skirt. She came to Toronto, and started business in February last.

She claims to have come from Covington, Kentucky, and to have taken a full course as a trained nurse. The neighbors say has she claims herself as a woman doctor. The corpse underwent a post-mortem examination yesterday morning, and the results of the examination will be known in a few days.

Chief Coroner Johnston instructed Dr. J. M. Cascan to investigate the case. On doing so Dr. Cascan issued a warrant for an inquest to be held at noon today.

At seven o'clock nothing had been learned of the death in the barber shop next door, nor had either of the two policemen on Queen or Front St. heard.

In the rooms of Mrs. Miller here was also found a "billy," an ugly weapon made of iron enclosed in leather, and of about the same size as a policeman's baton.

Both the prisoners appeared to take their arrest quietly.

The charges made by the woman would bring her in a large amount of money even since February, judging by her correspondence. For capsules her price was $2 a box, and for "pills, extra double strength, $3 a box."

One of her printed testimonials is dated Newport, Kentucky, Dec. 18, 1905, and another Cincinnati, Ohio, Ohio, Dec 7, 1905. The first is addressed "The De Voss Medicine Co.," and the second "Mrs. Miller.

"I visited the Bridants Thursday evening and Mrs. Bridant was dying," stated Mr. Peter Brunet, who runs a barber shop at 17 Colborne street, where Mr. Bridant is employed.

"Of course," said Mr. Brunet, when I heard Mrs. Bridant was sick last Tuesday I called on them at once. I have only been showing what I consider to be an employee's interest.

"I do not know where Bridant came from. He is a good workman, and is making $15 and $16 a week. He seemed to treat his wife very well. Yes, she had two doctors, and as far as I could see, had every attention. The last I saw of Mrs. Bridant alive was Thursday night. She was sinking then. Her mother and sister came from Kingston, I think, yesterday afternoon."

700 Excursionists Arrive in the City

A large excursion from Whitby, Oshawa, Bowmanville, Port Perry, Lindsay and other points arrived in the city yesterday at 11.25 per G.T.R. Eight coaches conveyed over 700.

The outing was under the auspices of the Ancient Order of United Workmen and Sons of England of Whitby. The party was accompanied by the 34th regiment band of Whitby, who played several fine selections at the station, as on their way to the Peterborough house, where they were welcomed by Mr. Jas. Head, the proprietor, himself a prominent member of the S.O.E.

At 2.30 o'clock in the afternoon, the steamer Water Lily, carried a large number of the visitors over the lift lock, while many others inspected the Cordage and other local factories. A large number went to Jackson Park, where the 34th band supplied music.

The committee in charge of the excursion is E. R. Brow, R. D. Huggirt and W. M. Vanzalkenburgh, of the A.O.U.W., and Messrs. B. M. W. Evans, J. Bolton, W. J. Hellett and J. Stanlick.

The excursionists left for home by special train on the G.T.R. at 6.30 last evening.

Thos. Hatley Did Not Pay His Tax

Roadmaster J. G. Weir has laid an information against Thomas Hatley of Otonabee, for refusing to do statute labor work. Yesterday morning County Magistrate Edmison sent County Constable Archie Moore out to Otonabee with a summons for Mr. Hatley, and also to subpoena several witnesses.

The case will be heard before the County Magistrate next Tuesday morning at eleven o'clock.

Higher Pay for Shantymen.

Ottawa, July 21.—The wages of shantymen is $1 a month higher than it was a year ago. None of the local firms have begun hiring yet, but other companies are taking men away at from $25 to $32 a month. There is no difficulty in getting enough men despite the demand for labor on the new railways under construction and for the harvests.

Mr. McClellan's Chickens Stolen

Mr. Arthur J. McClellan, who resides on Gilmour street, yesterday mourned the loss of thirty prize fowls, which were stolen from his hen house Thursday night.

The thieves gained entrance to the building by tearing the padlock off the door. Mr. McClellan prized his fowl very highly.

Horse and fowl stealing are becoming common occurrences these days, and should be stopped.

Millions Have Come This Way

Montreal, July 21.—Mr. D. M. Stewart, of the Sovereign Bank, who has just returned from New York, confirmed the report recently published to the effect that several millions of British and European money was about to be invested in Canadian industrial enterprises.

Recent reports from Hamilton stated that the big Penman Co. had just been purchased through Mr. Stewart. This report Mr. Stewart confirmed. In regard to rumors of other purchases, however, Mr. Stewart said that he would rather not discuss them.

He stated, however, that he was sailing on the Empress of Britain on the the 26th of the month, and that upon his return he hoped to announce that he had arranged for further large amount of across-the-water capital to come to Canada for investment.

Silicilate of Cobalt Discovered.

Cobalt, July 21.—Professor W. E. Hidden, of New York, who left camp yesterday for Toronto, celebrated his last day in camp by discovering a silicate or carbonate of cobalt entirely new to North America, and hitherto known only at Schneiberg, the famous cobalt mines of Saxony. It is a pink mineral occurring as an encrustation. Last week Prof. Hidden identified polybasite among cobalt minerals, its first discovery in Canada.

Reforming Vancouver's Morals.

Vancouver, B. C., July 21.—That some of the music played at Vancouver's Coney Island, English Bay, is immoral, and that one-piece bathing suits are too suggestive, are the latest complaints of the Moral Reform Association. The objections have just come before the Board of Park Commissioners, who have ordered the providers of music to be more careful in the selections played, while the bathing suits matter will be looked after by the police.

Vein of $119.00 Ore at 10 feet

Is the record of the

The Manhattan-Midas Mining Co.

Capital 1,000,000 Shares. Par Value $1.00.

Property paid for; no debts; no salaries; no promotion rake-off; no office expenses. A plain business enterprise, managed by plain business men.

REBUILD YOUR TIBED, ACHING BODY

Winter has left you in a state of fatigue and weariness.

The vitality of your blood is gone.

Your nerves are wretchedly weak and you find it hard to sleep.

The temptation to "brace up" with an alcoholic mixture is great,—but it's uselessness is plain to everyone.

Better follow Nature's plan; it's always a sure one.

First create new appetite.

Improve your digestion.

Perfect the process of assimilation.

This will ensure a supply of rich, nourishing blood.

Healthy blood soon makes a healthy body, and a system fed by pure, rich blood is bound to gain in energy and strength.

To get well and stay well, use the food tonic "Ferrozone" which is composed of concentrated vegetable extracts that supply nutrition that every sickly person needs.

No matter how long you've been in poor health, Ferrozone will win you back like it did Mrs. Sadie E Hislop, of Whitby, Ont., who writes: "Ferrozone not only brings health to the sick, but has power to cure quickly. After being confined to bed with sickness, I seemed unable to make any headway on the road to complete health. My vitality was low and I was in great need of strength. My nerve force was gone, and from headaches and poor sleep I was in bad straits. Ferrozone was just what I needed. It increased my strength, gave me a new feeling entirely. I used about eight boxes and was made perfectly well. My doctor thinks Ferrozone a wonderful cure."

Your druggist sells it in 50c. boxes or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

DR. J. E. MIDDLETON

DENTIST

Successor to R. NIMMO.

APPENDICITIS AND ITS CAUSES

The surgeon is credited with an eternal desire to use his knife, and as cutting off the appendix is now the recognized treatment for disease of that organ which has neither ornament nor use to justify its existence, he is only too glad to classify any pain in the "inwards" as appendicitis. Should the diagnosis prove to be incorrect, the patient is none the wiser and frequently very little the worse for the experience, and no surgery continues on its way triumphantly relieving the sufferings of humanity. This is the lay way of looking at it, but it is also the opinion of some physicians. Prof. Dieulafoy recently charged before the Academy of Medicine of Medicine in Paris that physicians were too ready to operate for appendicitis and it has stirred up a great deal of discussion among the members of the profession in France in regard to the nature of the disease itself. A phase of it will have special interest.

Dr. Blanchard, a prominent physician, has propounded a new theory of the cause which, he says, Dr. Metchinoff also favors. It is that appendicitis is caused by three kinds of intestinal worms, of which the dreaded trogocephal is the most dangerous. It is this creature that causes the severe pain accompanying appendicitis. The microscope has shown its presence in every case observed by Drs. Blanchard and Metchinoff. They attribute its presence to the use of vegetables grown in ground fertilized by deodorized and chemically-treated products of sewers in large cities, in which the eggs of the trygocephal and other parasites are numerously found. Dr. Blanchard declares that the use of sewage, however skilfully treated, ought to be made illegal. Apart from parasites, the only cause of appendicitis is the rare occurrence of a cherry-stone or something of that kind lodging in the veriform appendix, and this is the only cause in which an operation is necessary or excusable. Thymol should be used to combat the disease when, as is most often the case, it is caused by worms.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

DISTRICT NEWS

APSLEY

On Sunday, the 8th day of July last, the Orangemen and True Blues of Apsley marched in procession to St. George's church, Apsley, in the afternoon, when the Rev. C. Lord addressed them, after the service. Mr. Booth reading the lessons. On the 11th day of July last, the new English church here was opened for service by the Ven. Archdeacon Warren, of Lakefield, Mr. Langfeldt, Rector of St. Luke's, Peterborough, and Mr. Lord, of Apsley, assisting in the service. Mr. Booth reading the lessons, and Mr. McAndrews, divinity student from Trinity college, Toronto, also being present. Mrs Booth presided at the organ on both occasions. There was also a surpliced choir and a very hearty service throughout. The Archdeacon congratulated the people on having such a fine church. The Rev. C. Lord deserves credit for his trouble in collecting for this church, which in a short time will be consecrated.

NEW TEN-WHEEL ENGINES

Grand Trunk Railway Purchases Twenty Mammoth Locomotives.

Montreal, July 20.—The Grand Trunk Railway System has recently purchased a number of new ten-wheel engines for passenger service from the Locomotive & Machine Co., of Montreal, and the American Locomotive Co., Schenectady, ten engines being built at Longue Pointe and ten at Schenectady.

These engines will be distributed to different divisions of the system. They are built after the standard type used on this road, but have simple cylinders, 19 in. diameter x 26 in. stroke, with driving wheels 72 in. diameter, boiler pressure 210 lbs. per square inch. The weight of engine loaded is 155,000 lbs. So far these engines have given excellent service, being placed on trains making very fast time. They are quickly becoming popular with the men on the road, as they will handle an ordinary sized passenger train without any difficulty and keep time.

Ministers Cause of King's Refusal

London, July 20.—Canada's disappointment at the King's inability to accept her invitation is shared by very many Englishmen. Those who know how court affairs of this kind are managed refused to believe that Earl Grey would have allowed the invitation to be formally adopted by the Canadian Parliament had the King not himself wished to go to Canada if the obvious official obstacles could be removed. The inevitable inference is that officialdom here is mostly responsible for the present refusal. Some suggest that the Ministers pressed upon the King an autumnal meeting with the Kaiser as highly desirable in view of the dangerous possibilities of the situation in the far East to which Foreign Secretary Grey made such emphatic references in Parliament the other day. Germany is particularly apt to prove meddlesome in the near East in times of difficulty.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Grand Trunk to Build.

Montreal July 20.—The Grand Trunk Railway have let contracts for the erection of a ten-storey office building opposite their present general offices on McGill street. The first two storeys will be occupied by the Canadian Express Company. Other offices will be erected by affiliated lines to the Grand Trunk such as the Canada Atlantic Transit Company, the Grand Trunk Pacific Telegraph Company, etc.

The cost of the building will be about $300,000. Communication with the present general offices and the new buildings will be by means of a tunnel under McGill street, through which pipes for electric and other services will be carried.

Dairying Up-to-date.

Each year Toronto's Industrial Exhibition is held the interest in the dairy exhibits increases, and the Exhibition management are compelled to put forth their best efforts to meet the expectations of the dairymen and farmers of the Dominion. This year the Provincial Government will take charge of the demonstration department of the dairy exhibit, and will conduct the butter-making and milk-testing, together with a course of lectures which will be given in the Dairy Amphitheater each afternoon.

Dead Robber Identified.

Toronto, July 20.—After two years the man killed by a bank clerk at Lancaster, while burglars were raiding the vaults, has been identified as Pete Weir, formerly of a small hamlet near Oshawa. His pals, after the shooting, dragged the body to the railway station, and removing every trace of identification, made their escape and were never recaptured. Some of the gang convicted here of the Toronto Carpet Works safe blowing, were engaged in the robbery with the man shot.

Another Step for Slemin.

Toronto, July 20.—It is reported that Chief Constable Chas. Slemin, of Brantford, have been asked to take the vacant inspectorship in the provincial department of justice. He was formerly on the police and detective forces of this city.

MILLIONS FOR RAILROADS

Great Boom Now on in the Great North-west.

Winnipeg, Man., July 19.—It is estimated that during the present summer fully 5,000 miles of new railroads will be built between the Great Lakes and the Rocky Mountains. Every company operating within this territory is actively engaged in building new branches or main lines. Never before was such great railroad activity witnessed in any country and the prospects are the new mileage laid during 1907 will be still greater.

The Canadian Pacific is now building no less than nineteen new lines and the Canadian Northern is at work on about the same number. Thousands of men and thousands of teams are rushing work on the Grand Trunk Pacific, a number of miles of which will be in operation within a few weeks, and it is expected trains will be running between Edmonton and Fort William within a year. From the latest report to hand the several branches across the international boundary and he promises to lay a trunk line from Winnipg to the Pacific Coast on an early date.

On the Western side of the Rockies railroad construction is equally active, a bitter fight being waged by the Canadian Pacific and the Great Northern for control of several valuable mineral districts and within a year the Grand Trunk Pacific and Canadian Northern will also be engaged in the same fight. Whenever a small settlement is opened up a railroad builds a branch until where twenty years ago only one line existed there are today dozens stretching over the country like a huge spider's web.

The New Railway From Ottawa

Ottawa, July 20.—The Buffalo, Niagara and St. Catharines Railway, the Niagara, St. Catharines and Buffalo, the Toronto, Niagara and Hamilton and the Erie Ontario Power Company made application to the Railway Department for approval of their route maps.

They were opposed by the Michigan Central because they paralleled that line and went through part of their yard. The application was postponed for further information.

The part of the Mackenzie & Mann railway which parallels the Carlton & Grenville Railway between Ottawa and Montreal has been approved. This gives a clear line to Mackenzie and Mann from Montreal via Ottawa to Georgian Bay, with the exception of the entrance to Ottawa.

The Formation of Coal.

Many different theories are held by geologists to account for the formation of beds of coal between strata of rock. The simplest of them is that vast masses of wood, such as grew in the carboniferous age of the earth's development, were sunk under the sea, that deposits of silt upon them changed to rock and that by some upheaval of the earth the bottom of the sea was lifted above sea level. Such upheaval occurred in remote geologic ages in the Mississippi valley, all the central parts of which were undoubtedly at one time covered with water and formed an arm of the sea. The one thing certain about coal is that by one process of nature or another it has been converted from the giant trees which grew in the carboniferous age of geology. How many thousands or millions of years that was nobody knows. All that is known about the duration of different geologic ages of the world is that they were long.

Dramatic Detail.

Sir Henry Irving was accustomed to visit at the home of Miss Friswell, author of "In the Sixties and Seventies," in which volume appears the following anecdote: "My mother often used to point out little details that had been overlooked. I remember one in 'The Bells,' which my mother told Mr. Irving on the first night when he returned to our house to supper. People who have seen the play may remember that the first scene is a small inn and that there is supposed to have been a deep fall of snow. The innkeeper, Matthias (Irving), walked in on that first night in ordinary black boots, with no snow upon them. My mother spoke of it, and afterward Matthias wore high black boots and stood on the mat while the snow was brushed off. Remarks were made in the papers as to Mr. Irving's attention to the minutest details, and this was cited as an instance."

Punishments in Early Days.

The following extracts from early records give us a glimpse of some of the singular punishments in vogue in old New England:

"In 1639 Dorothy Brown, for beating her husband, is ordered to be bound and chained to a post."

"In 1643 the assistants order three Stoneham men to sit in the stocks on lecture day for traveling on the Sabbath."

"In 1651 Anna, wife of George Ellis, was sentenced to be publicly whipped for reproaching the magistrates."

"In 1658, for slandering the elders, she had a cleft stick put on her tongue for half an hour."

An Odd Sermon.

It seems doubtful if there is anything more crooked than the following title of a pamphlet published in 1703: "The Deformity of Sin Cured; a Sermon Preached at St. Michael's, Crooked Lane, Before the Prince of Orange, by the Rev. J. Crookshanks." The pamphlet was sold by Matthew Denton at the Crooked Billet near Cripple gate. The words of the text are, "Every crooked path shall be made straight," and the prince before whom it was read was deformed.

Linen Paper.

The only real linen paper made in the United States is that used for government documents. All the so called linen papers are largely made from cotton rags with some linen mixed in. The reason for this is that it is extremely difficult to separate cotton and linen rags. The government gets around this difficulty by using nothing but clippings from collars and shirts.

—The gang of men, under charge of Mr. McDonald, who are changing the 1 1-2 in. gas pipes on Water street, for 2-in pipes are rapidly shoving the work ahead.

MRS. LOUIS LACOMB.

SUFFERED FOR MONTHS.

Operation Advocated—Saved By Pe-ru-na.

Mrs. Louis Lacomb, Hayward, Wis., writes:

"I have followed your treatment as closely as I could and am now entirely well.

"We had two doctors and one said that I would have to have an operation performed before I could regain my health.

"We then decided to write you as to my condition, as I had been suffering nearly a year with severe pains and headaches at times so that I could scarcely stand up.

"Now I feel so well after a short treatment with your remedy, and am so grateful that I do not know how to express my thanks.

"I thank you many times for the kind advice I have had from you."

Write to Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, for free medical advice.

Where Will Normal School Be?

Now another site is proposed for the new normal school building, namely the vacant lot at the corner of George and McDonnel streets. This property is extensive enough for the proposed building, and is owned by Mrs. Lundy. It is situated opposite Central Park, and the normal school would be convenient to the central school and collegiate institute if placed there.

Those Arctic Furs.

Ottawa, July 19.—The furs brought from Cape Fullerton on the steamer Arctic, and which figured prominently in the recent parliamentary inquiry are to be sold. They have been stored in the North-West Mounted Police warehouse in this city since last autumn. Circulars have been sent to all the leading fur houses in Canada, asking them to submit tenders for the furs, which include 400 white fox skins, a few muskrat, 30 or 40 wolf and one Polar bear.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Laxets act promptly, without pain or griping. Pleasant to take—Laxets—only 5 cents. Sold by J. D. Tully.

SENTENCED FOR DRUNKENNESS.

Kingston, July 18. — Yesterday, Mayor Mowat, who sat on the police magistrate's bench, made an example of Wm. Jamieson, a persistent drunkard, who has been arrested too often of late. He sentenced him to fourteen months in the Central Prison, Toronto.

Proviacial Loan of $8 000 000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1906, invites subscriptions from the public for a loan of $3,000,000 on bonds of the Province of Ontario, dated 1st July, 1906, and payable

$1,500,000 on the 1st July, 1926,
$1,500,000 on the 1st July, 1936

with coupons attached for interest at the rate of 3½ per cent. per annum payable half-yearly on the 1st January and the 1st July in each year at the office of the Provincial Treasurer, Toronto. Bonds will be of the denominations of $200, $500, and $1,000, and will be payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders may be exchanged for Ontario Government Stock bearing the same rate of interest.

The issue price during the month of July, 1906, will be par, and after the 31st July, 1906, the issue price will be par and accrued interest.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of amounts up to $1,000 will be required to send certified cheque with the application. For amounts over $1,000 payment for subscription may be made in instalments 10 per cent. on application, 10 per cent 1st August, 10 per cent. 1st September, 10 per cent. 1st October, 10 per cent. 1st November, and 50 per cent. 1st December, 1906, with privilege of paying at an earlier date, the interest on instalment subscriptions being adjusted on 1st January, 1907.

In the event of any subscriber for bonds payable by instalments failing to make payment of subsequent instalments, the bonds may be sold and any loss incurred will be charged to the purchaser in default.

Forms of subscription (when payable by instalments) may be obtained on application to the Treasury Department.

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario and is chargeable thereupon.

All cheques should be made payable to the order of "The Provincial Treasurer of Ontario," and subscribers should state the denominations and terms (20 or 30 years) of bonds desired.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, 27th June, 1906.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly, the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 43 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

COPPER IS KING!

¶ Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

AMALGAMATED MINING AND EXTRACTION COMPANY

1624 Curtis Street, Denver, Colo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 170 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

"Listen! Listen to me!" she prayed desperately. "I must tell you it all now—now at the end. Jarrat showed me the paper—the contract that bound you to give your life—your life! And I knew you would do it. Oh, what that meant! I would have given my own life a hundred times to prevent it. Can you think what it cost me to stand in that room and say that—that of you? Your face was dreadful! I thought I should die when you looked at me!"

"So you killed my honor!"

"No, no! Not that—I did not mean that, Louis! I had such little time to

"Give me your hand!"

think—such small time to reason. I had only time to feel—to feel as a woman will, and to act. I had to defeat the contract to keep you from going back to the prison to death. I thought I could clear you at the last, I who knew you were true, because I had the packet the true message. Only I promised my soul that I should not speak within the month."

Her voice broke a little here, then went on in a sudden pathos of pleading: "What know we women of soldier's duty or soldier's honor—we who are cherished and feasted all our lives? We know only to love, to follow—and—and to save what we love in spite of all the world!"

There was a movement now, a step.

"Then I took the packet, Louis, into the congress to Dr. Franklin that very hour, and I could not tell you what I had done—and you escaped them. I thought you had gone to your death. And you didn't know! You never knew. Oh," she sobbed, "if you would only forgive me, only touch me, only lay your hand on my head"—

She heard a stumble, a smothered cry. The iron bar clanged against the floor. An arm, groping, trembling, touched her wet cheek.

"My God! And I doubted you!" Armand's voice thrilled her in a great burst of grief-wound joy. "You gave the message? My darling, my darling!"

She felt herself caught up in his arms in the dark, shuddering, crying, panting incoherent phrases, kissing his face, his rough coat, his epaulets, strangling with fierce terror and ecstasy of love and feeling his passion strain and fold her. It seemed to her that all of life and death was concentrated in that one embrace that nothing existed in the world but the delirium of that single sweet bitter moment.

A medley of shouts and ax blows on both of the doors at one time sent her into quick spasms of dread. A panel splintered, a shaft of light and an arm thrust in. Armand released her, struck once with the iron bar, and the man fell back, cursing, with a broken arm.

"Stand!" one shouted. "Are we to be mayed by this rat!"

"Don't fire," came the response. The order was imperative.

The blows began again. Another panel crashed, and the holes let in more light. It fell upon Anne's pallid lips and showed her Armand's white sleeves and pale face, set, but calm. A blow struck the lock of the other door. It yielded, and the oak swung in against the stout sideboard.

Anne felt her limbs grow cold.

"Lost, lost!" she murmured and leaned dumbly against the wainscoting.

Suddenly a fusillade of musketry woke the echoes out of doors, and a crisp shout garnished it. "File out of that hall and lay down arms!"

There arose a saturnalia of revilement from the hall. Then, as it died, the voice asked, "What mean these active hostilities in a period of armistice?"

"'Tis a sortie for an escaped prisoner," came the jarring mirth of Jarrat. "Well, major, I think you will have need yourself for all the prisoners to be found here."

Anne had gone from one terror to another and bitterer one. "The Continentals!" she moaned.

The crisp voice approached the splintered door. "Colonel Armand," it said, "I arrest you in the name of the United States of America. Do you surrender?"

"By whose orders?"

"The general's commanding the Second brigade."

"I am a colonel of independent cavalry," answered Armand clearly. "I acknowledge orders only from the division commander."

Jarrat laughed.

Sharp directions followed. The axes cut wider fissures in the panels, and through these muskets obtruded and took aim. "My orders are to take you alive, to shoot if you resist, to give you five minutes to open that door."

Anne ran to Armand and threw herself into his arms. "Ah, you must not! For God's sake, give yourself up! I will tell it all to General Washington. He will hear and believe me. I will"—

"Think you it would be credited?" he asked gently. "And if not"—

She clung to him, weeping. "But you have fought so. There is that! Oh, 'twill give me your life—your life! That is all I want! I care not for shame or report, so I know it is not true! Ah, pity me! And 'tis my fault! Oh, this must be a hideous dream come to punish me!"

"I used to dream," he said, "of you and me as wed—in honor."

"Oh, I would wed you in dishonor, in disgrace, in death! See," she said hurriedly, "here is my mother's wedding ring. I have always worn it about my neck. I love you! I love you!" She laid it in his hand.

"Put it upon my finger," she whispered. "Say it after me, 'I, Anne, take thee, Louis, to my wedded husband.'"

(To be continued)

GREAT VOYAGERS.

As a General Rule, They Came From the Smaller Countries.

Portugal is a small country, with a land area one-third less than the state of New York, but it has turned out in its time celebrated navigators, Cabral and Da Souza among them.

It is a somewhat peculiar circumstance in the history of ocean navigation that the chief navigators of Europe have usually been natives of minor kingdoms and without the advantages which would naturally accrue to a representative of one of the larger governments.

Christopher Columbus, as every schoolboy knows, was a native of Genoa at the time when the Italian peninsula was subdivided among numerous petty governments. John Cabot was a Venetian, who sailed in the service of England, as Columbus had sailed in the service of Spain. Amerigo Vespucci was a Florentine, who sailed originally in the service of Spain and afterward transferred himself to the Portuguese service and then went back to the Spanish service for a second time.

Vitus Bering, after whom Bering strait was called, was a Dane by birth, who served under the naval flag of Russia. Magellan, after whom Magellan strait was named, was a native of Alemtejo, in Portugal, and was the first to complete the circumnavigation of the globe, in 1522.

Verazzani was a Florentine, whose voyages of discovery were undertaken under the protection of the flag of France. Hendrik Hudson was an Englishman, and it seems surprising to many persons in this day familiar with the pre-eminence of England as a maritime nation that he should have been in the service of the goteurment of Holland when he discovered Manhattan Island.

Bottles.

Ancient bottles of glass, stone and metal have been found in many parts of Europe, Asia and Africa. Perfume bottles of glass have been discovered in great numbers in the tombs of wealthy ladies of Egypt. Many bottles, tumblers and other drinking vessels have been dug from the ruins of Pompeii. The most common bottle of the ancients, however, was of leather, the skin of a calf, goat or ox being taken off the carcass with as few cuts as possible and made into a receptacle for holding water or wine. The largest glass bottle ever blown was made at Leith, in Scotland, in 1747-48. Its capacity was two hogsheads.

Bad Habit.

"So you lost your position?" we ask of our young friend, who has demanded our sympathy.

"Yes; the firm told me I would have to quit."

"What reason was given?"

"I smoked cigarettes."

"Why, that seems hardly a sufficient reason for such drastic action."

"Yes, but I was smoking the boss' cigarettes, and he caught me at it."—Judge.

Matrimonial.

Three Germans were sitting at luncheon recently and were overheard discussing the second marriage of a mutual friend when one of them remarked: "I'll tell you what. A man what marries de second time don't deserve to have lost his first wife."—Life.

"The highways of literature are spread over," says Holmes, "with the shells of dead novels, each of which has been swallowed at a mouthful by the public and is done with."

The Cure.

Anxious Parent—Doctor, my daughter appears to be going blind, and she is about to be married. Doctor—Let her go right on with the wedding. If anything can open her eyes, marriage will.

One More.

"Now don't ask any more questions. Little boys should not be inquisitive."

"What's inquisitive, pa?"

The wisest man cannot turn a good action into ridicule.—Euripides.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Department of Railways and Canals, Canada

WELLAND CANAL

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an 1,000,000 bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, July 6, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank and formerly Treasurer of the Province of Ontario.

JOHN FLETT, Esq., Vice-President, Head of the firm of Flett, Lownds & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M.P.P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M.P., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of hem has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION! There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished, correspondence solicited.

EYE SIGHT SPECIALISTS

SELECTIONS

SEEING BLINDFOLDED.

A Woman's Strange Faculty of Reading Closed Books.

A curious case of clairvoyance is related by J. F. Hough in the Occult Review. It is that of his sister, who accidentally discovered her powers of second sight and for whom remarkable psychic gifts are claimed when under the mesmeric influence of her brother.

"If when she is blindfolded," he says, "I put a book upon her lap and, placing my hands on her shoulder, suggest silently that she should read it, she will read it as easily as an ordinary person could read with his normal sight. In this state her elocution is better than it is in her normal state. There is no question of telepathy in this case, because neither I nor any one else in the room knows what she is going to read. It is the same if I give her a new book that nobody in the house has read.

"She actually sees the print. It appears to her in letters some two or three inches long. This experiment has been tried successfully with wads of cotton wool in the subject's eyes under the bandage, with opaque paper pasted over the eyes under the bandage and with a penny held in each eye by the bandage."

"It was quite by accident that twelve months ago I found I was possessed of powers not given to an ordinary person," she laughingly said to the Liverpool correspondent of the Daily Mail. "In the course of a social party we were having a game of thought reading. My brother, who alone has mesmeric influence over me, was close to me, and suddenly while blindfolded I commenced to read from the book on my lap."

Our Liverpool correspondent placed Miss Hough through several tests during the interview. When she was tightly blindfolded he took a diary from his pocket and, opening it, placed it upon her knee. Resting the tips of his fingers on her shoulder, her brother quietly asked her to read from the diary. Rapidly and without the slightest hesitation she read a whole page of printed technical matter not to be found in an ordinary diary.

Writing she also read in the same manner, but she stumbled over shorthand characters in the diary.—London Mail.

Not an Off Year In Politics.

Those who are calling 1906 an off year in politics forget that it will not only elect 386 members of the popular branch of congress and legislatures which will choose more than a dozen United States senators, but that it will elect more than two dozen governors. In most of the twenty-eight states which choose governors this year other state officers and members of the legislature will be elected, while in some states which do not choose governors there will be, as in Missouri, canvasses for minor state officers. Most of the important states choose governors or minor officers, or both, in 1906, and as they accompany a congressional canvass a great deal of interest will naturally be aroused in them, and a large vote is certain to be polled.—St. Louis Globe-Democrat.

Verona's Old Roman Theater.

Verona, in Italy, is now completing the excavation of its Roman theater, a work which was begun in 1834. It is built in a semicircle. It dates from the time of Augustus Caesar and was lavishly decorated with marbles from Greece, Africa and Asia. The theater was formed of huge steps of granite, above which were rows of private boxes, one of which stands in its original position in excellent preservation and with the name of the owner carved on it. Above the tiers of private boxes rose the places where the plebeians were seated and from where they looked down on to the stage or away to the water jousts on the river.

Gains From Guns.

The yearly income of Bertha Krupp, who inherited the famous iron works at Essen, Germany, is steadily increasing, it having amounted in 1905 to about $5,000,000. Miss Krupp manages her great properties with remarkable ability. Her business is expanding, and the number of those dependent on her for employment and subsistence is now fully 300,000. To protect the works she has a small army of 1000 men, armed and under strict military discipline. She also has police and a secret service.—Chicago Journal.

A Novel Fire Alarm.

The firing of maroons or small shells which explode with a loud noise to call the fire brigade in case of fire has caused complaint in Hounslow, England. During a recent call the exploding maroons, it is alleged, caused the death of an infant and the serious illness of a woman from fright. The authorities, however, have decided that the quick summoning of the fire brigade is of more importance than the complaints of the nervous, and the use of maroons is to be continued. Explosive shells are a novel fire alarm.

Two Earthquake Orders.

The inclination of the San Francisco papers of the day, each to go their competitors one better, is well demonstrated by orders issued by the Call and Chronicle respectively. French of the Chronicle on the Wednesday evening after the earthquake, "The Chronicle men will meet at the Chronicle tomorrow at 1, if there is any Chronicle." McNaught of the Call ordered that, "Call men will meet tomorrow at the Fairmount at 1, if there is any tomorrow."—San Francisco Argonaut.

Pike's Peak to Summer.

The first part of the road to Pike's peak is through a picturesque ravine with a beautiful mountain torrent roaring and leaping through it. This ravine is a popular walk, and one sees many climbers who shoot their kodaks as the train passes, until one knows exactly how it feels to be a celebrity. As one goes on the climbers become gradually fewer, and after three or four miles they are left behind. Suddenly a new turn in the road shows that the first foothills have been surmounted and that we are climbing the vast bare side of the peak itself. The track stretches toboggan-like far ahead. Great views unfold. One looks down on lonely wooded valleys, where blue lakes glisten, on the tops of the mountains and over mountains to the plain that stretches away like the sea. It has grown cold, and patches of snow begin to appear. The date is Aug. 1, but in the snow heaps on the summit we shall soon be snowballing one another.—Four Track News.

Alabama's State Flag.

Over the historic capitol at Montgomery waves not the national flag, but the Alabama flag, and not one Alabamian in a thousand would recognise it if he saw it elsewhere than on the capitol. The flag in question has no history woven into it, for it was not adopted until 1895. It presents a St. Andrew's cross in crimson on a white field. Such a cross is shaped like a letter X, and the books suggest that the apostle Andrew died on a cross of that design. Few if any other states indulge in flags of their own. A flag is the symbol of sovereignty, and state sovereignty is limited by the federal constitution. When we were a part of Georgia we granted to the federal government the executive power of punishing treason, and if any one becomes a traitor to the Alabama flag we might have to call in the federal government in order to punish him.—Birmingham Age-Herald.

The Tongues of the Balkans.

Too many languages are spoken in the Balkans. A traveler in that region writes of the babel: "Turkish, Bulgarian, Serbo-Croatian, Roumanian, Armenian, Greek, Albanian, Kuizo-Wallachian, Chingeni, the language of the gypsies; Spanish, the language of the Jews of Spanish or Portuguese descent, and the language spoken by the German, Austrian, Roumanian and Russian Jews. Add to this Arabic, Persian and Syrian, largely spoken in Constantinople; Italian, on the northeast coast of the Adria; Russian, in the northeastern parts of Roumania; various Austro-Hungarian idioms spoken in Bosnia and Herzegovina and the Caucasion languages of the Circassians and Georgians." Not one of these languages is of common use.

The Lone Star of Texas.

The origin of the Lone Star flag of the republic of Texas is not entirely clear. The claim has been made that it was unfurled in the present territory of Louisiana in 1810, but other searchers cannot find earlier trace of it than the presentation of such a banner to the company of Captain Andrew Robinson in May, 1835. Still another claim is made for a flag unfurled at Velasco Jan. 8, 1836, and said to have been made by a Miss Troutman of Nashville, Ga. One story has it that the star came from the fact that Governor Smith, for lack of a seal, used a brass button from his coat which bore a five pointed star.—St. Louis Republic.

The Word "Capsize."

Etymologists are driven to pure conjecture to explain the origin of the word "capsize." One of them suspects that it comes from the Spanish language, as so many sailors' words do, and may be connected with "cabecear," to nod the head in sleep or to pitch as a ship, and with "capuzar un barel," to sink a ship by the head—"cabeza" meaning head. Another guess—based on the fact that "capsize" is an English dialect word for moving a hogshead by turning it over alternately on to its two heads—is that the word is simply "cap," a head, and "seize."

Kept Up the Waiting.

In Abyssinia it was once the habit of complainants to stand before the door of the king's palace, loudly appealing to his majesty for help. "So accustomed is the king," wrote one traveler, "to these querulous tones of sorrow that when the rains prevent such as are really distressed from repairing to the capital a set of vagrants is provided whose object it is to raise the cry of artificial sorrow lest he should feel a lonely quietness."

Sacredness of the Mantilla.

Many attempts are being made in London and in Paris to adapt the Spanish mantilla to our use. To the Spanish women the mantilla stands for all that is national and characteristic, and so intimate a part of herself is the mantilla deemed that it is even held sacred by law and cannot be seized for debt.—London Country Gentleman.

A Clever Wife.

Friend—Didn't your husband rave when you showed him the dressmaker's bill? Wife—Rather. Friend—And how did you quiet him? Wife—I showed him the milliner's account, and then he became simply speechless.

Got Acquainted.

Jones—I suppose you know more about that horse you got of Deacon Smith last week than when you made the trade? Brown—Yes, and I know a lot more about Deacon Smith now than I did then.

To him that has no employment life in a little while will have no novelty, and when novelty is laid in the grave the funeral of comfort will soon follow.—Anon.

Worked Out.

They were talking about futility and for some reason known only to each other failed to agree. Finally she asked:

"Well, now, suppose you give me an example of what you call futility."

"All right," said he. "Multiply 3,940 by 721."

She took a pencil in her hand, seized a piece of paper and after a few minutes of diligent figuring announced the result.

"It is 2,845,066," said she.

"Divide that by 2," he continued.

"It is 1,422,533," she said.

"Very well," said he. "Now add 7 to that and then subtract 1,422,540 and tell me what you get."

"The result is 0," said she after further figuring.

"Well, that's what I call futility," said he, with a laugh. "You've covered a sheet of paper with figures to arrive at nothing."

Whereupon she became so angry with him that she refused to argue any further on the subject.—London Sphere.

A New Canal For Welland

St. Catharines, July 19.—The presence of a body of surveyors along the banks of the Welland Canal seems to straighten the idea around here that the Government will build another canal. The surveyors have been here ever since last autumn and their work is not nearly completed as yet, it is said.

According to an official of the canal, the Government merely has the men making a complete survey of the Government property between Port Dalhousie and Port Colborne, from one end of the canal to the other, so that in case the proposed new canal becomes a certainty they will know just exactly where they are.

The project, it is said, is to use a portion of the present old canal which was built some seventy years ago and which has practically been lying idle since the new canal was completed about thirty years ago.

The Newer Canal, as people around here would probably refer to the present projected waterway, would have a depth of 24 or 26 feet, capable of carrying the largest vessels. The locks would have to be considerably wider and it is believed that only about one-third of the number now in use on the new canal would be required, which would mean a great saving in construction.

A NEW MOVE

Grand Jury Restrained From Proceeding in Thaw Case.

New York, July 19.—John D. Gleason, one of Thaw's counsel, appeared before Judge Blanchard of the Supreme court today, and secured a writ restraining the district attorney and the grand jury from taking any evidence as to the killing of Stanford White.

The writ also restrains the district attorney and the grand jury from issuing any subpoenas in connection with the matter of the killing of White.

Judge Blanchard also issued an order directing the district attorney and the grand jury to show cause tomorrow morning why they should not be absolutely restrained from any further proceedings in the matter of the killing of White and against Harry K. Thaw.

My Manhattan Company

Has started work upon its property. If you wish to come in with me at this time I will let you have 1,500 shares for $10; 2,500 shares for $25; 5,000 shares for $50; 10,000 shares for $100. I consider this the best chance open to the public today. If you win, you will win heavily and soon. Don't delay. Write or see me at once.

R. B. HIGBEE,
Broker,
Germania Life Bldg., St. Paul, Minn.
Established 1899.

GREAT LABOUR SAVING DEVICE

The Penman & Sprang

DUPLICATOR

Will produce 100 copies in ten minutes, and is without doubt one of the greatest inventions of its kind ever conceived.

THE DUPLIGRAPH

The most reliable, cleanest, simplest, quickest and most up-to-date duplicating machine on the market

It will reproduce one hundred facsimile copies of a penwritten original in fifteen minutes; fifty to seventy-five copies of an original written on a typewriter or twenty-five copies of an original written with a copying pen.

The original is written on ordinary paper, with an ordinary pen, typewriter or copying pencil, and the copies can be taken on ordinary paper cardboard, wood or china.

Call and see it in operation at the

TIMES BOOKSTORE

Exclusive Agents for Peterborough and Vicinity.

—Souvenir views in fancy china, with hand painted views of the lift lock, Y.W.C.A. and St. John's church. Times Bookstore. Each article is useful as well as ornamental. Prices 15 and 25 cents each.

Old Coughs

New coughs are bad enough. Old coughs are worse, much worse. They always make one think of bronchitis, consumption. Ayer's Cherry Pectoral quickly cures new coughs. And it cures old ones, too. The next time you see your doctor, ask him why this medicine so promptly relieves coughs.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

"SPOTTING" SYSTEM

Not Wholly Objectionable to Conductors Operating on Intercolonial.

Sydney, N.S., July 17.—Naturally the new checking or spotting system introduced by the Intercolonial officials is not very popular among conductors along that line.

The reason of this is not because they fear espionage, but because the system assumes that "holding out" is a habit among them.

In the case of two conductors held up by the plain clothes men it is said that the delinquency in each case consisted in neglecting to collect a fare from the wife of a railway employe.

However, from one standpoint, the innovation is welcomed by the conductors greatly.

Some travellers have been in the habit of forgetting to buy their tickets at the station, preferring to take a chance of getting a reduction when paying on the train.

Countrymen travelling short distances were sometimes a few cents short in their fare, and conductors preferred accepting to stopping the train and putting the passenger off in the middle of a field.

The new system will enable the conductor to say nay with greater firmness to many concessions that are asked by a certain proportion of the travelling public.

A Wonderful Grasshopper.

The number of astonishing and often absurd blunders perpetrated by translators is without limit. The first man to translate Cooper's novel "The Spy" into French made numerous errors, among which are these: When the translator came to the word "Locusts," which was the name of the Whartons' residence in the story, he turned to his dictionary and found the rendering of the word to be "Les Sauterelles" (the grasshoppers). He was a trifle puzzled later when he came to the passage in which a dragoon was represented as tying his horse to one of the locusts on the lawn. He had never been in America; but, taking it for granted that the grasshoppers of that country must be of tremendous size, he solemnly informed his readers that the trooper fastened his horse by the bridle to a grasshopper which was standing near the door of the house.

The Last Prize Fight.

Prize fighting, as distinguished from the glove contests of today, has long been banned by law, though it once had aristocratic support. Fights took place to a finish in a roped ring twenty-four feet square pitched on turf in the open. The men stripped to the waist, using bare knuckles, and wrestling was allowed. The last fight for the championship of the world under these London prize ring rules was when John L. Sullivan beat Jake Kilrain in seventy-five rounds July 8, 1889, outside New Orleans, the stakes being $10,000 a side, a side bet of $1,000 a side and the championship belt.—London Answers.

Franklin's Kite Experiment.

Commenting on Benjamin Franklin's kite experiment, which proved that lightning and electricity are the same, a scientist says: "It was one of the most brilliant examples of luck yet recorded. To attempt the extraction of lightning flashes from a lowering sky was almost suicidal. Even at this late day timid persons occasionally fly to feather beds, sit on glass legged chairs or find refuge in rubber boots during thunderstorms. A repetition of Franklin's experiment cost his immediate imitator his life."

New York's First Street Cleaner.

The Dutch housewives of old New York, ever noted for their housekeeping qualities, created the agitation which resulted in the appointment of the first public street cleaner in New York in 1652. He was Laurens Van der Speigle, a baker. His daughter married Rip Van Dam, who afterward became governor of New York, an illustration of the democracy of that day.

Happy Adam.

The first monopolist was Adam. The first consumer was Adam. Therefore Adam had the unique and exquisite pleasure of raising the price of beef to the consumer and the equally great pleasure of kicking at the price put on it by the trust. Adam was the only happy man.—Detroit Times.

THE BUSINESS DOCTOR.

Room For a Specialist In the "Diseases" of Industry.

In these days of experts and specialists it is somewhat astonishing that, so far as the writer is aware, business doctoring, to use a convenient popular phrase, has not been introduced as a recognized profession. That the introduction of the "business doctor"—that is, a specialist in what may be termed the "diseases" of business—as a factor in modern business, whether purely commercial or associated with manufacture, offers great possibilities no business man will deny.

In some respects a business doctor must be a jack of all trades, for his knowledge must cover a considerable range of industry, and he must be familiar with business methods and circumstances almost irrespective of the nature of the business done.

He must also possess capabilities for looking on both sides of any matter brought before him and of weighing evidence carefully before he will accept all that is told him or is placed before him as truth or as being absolutely correct, for it must often happen that the cause of the trouble he is called in to remedy will be found to be in a state of affairs that appears to persons actually concerned as entirely satisfactory, but is really the reverse.

Moreover, he must be an expert in ascertaining sources of weakness or dissatisfaction that are not apparent, in many cases before matters have reached a stage of real seriousness. Further, he must be familiar with all the ordinary methods of fraud and dishonesty and many of the special forms of roguery as well.

In addition, a really capable business doctor must be of unimpeachable character himself. He must be quite independent of influences which may bias his judgment, and if called in he must require to be told everything or he must be capable of ascertaining how far the information given to him is the incomplete or inaccurate.—Cassier's Magazine.

University Coal Mine.

The authorities of Birmingham university have recently opened on the university grounds an experimental coal mine, occupying nearly an acre of ground. The purpose is to give practical instruction to students in all the problems and operations of coal mining. They are exercised in underground surveying, the connection of surface with underground surveys, the testing of ventilation, the measurement of air volumes and velocities, the friction of air currents, the various methods of breaking coal and the management of different kinds of drills and cutting machines. The completion of this artificial mine has been awaited with interest, and it is expected to prove very valuable in teaching the science of mining.—Chicago Journal.

The Jews In the Douma.

Eleven Jews have been elected members of the Russian douma. Among them the best known is Dr. Winawer, one of the leaders of the Cadet party. Other well known leaders are Jollos and Ostrogorski, newspaper men, and Dr. Frenkel, Brunson and Scheftel, lawyers. The other five members are well known Zionists; Dr. Levin, elected from Wilna; Dr. Bruck-Wittelsck and Counselor Jacubsohn, from Slonim; Dr Rosenbaum, from Minsk, and Dr. Katzenelsohn, president of the Jewish Colonial bank of London, who will represent Libau.

A Wonderful Catalogue.

The mind of Dr. Richard Garnett, who died in London the other day, will ever be associated with the great work of cataloguing the vast library of the British museum. The treasury agreed to set aside $50,000 a year for the purpose, and the work of editing the new catalogue was handed over to him. By 1880 the presses were at work, and ten years later the task was completed. The catalogue of today consists of 800 volumes in all and contains nearly 4,000,000 entries, including the cross references. Nearly 60,000 fresh entries are added each year.

Brazil's Treasure Trove.

The director of the treasury of Brazil, while hunting for some lost papers, has made an astonishing discovery. A box which had not apparently been disturbed for many years was found to contain gold, silver and diamonds to the value of at least $750,000. Among the valuables recovered are the imperial crown and scepter of Brazil, valued at $105,000, and the imperial mantle, bordered with gold. The box in which the treasure was found is believed to have been deposited in the treasury since 1836.

A Venturesome Woman.

"I prefer ballooning to lawn tennis." Thus said Mme. Du Gast, the venturesome and versatile French sportswoman, to an interviewer recently. Motor boating or motor car driving, however, Mme. Du Gast finds most fascinating. She has always been her own chauffeur, and with her first automobile, a six horsepower, she went all round France without an engineer. This journey may be said to have been a preliminary to the part she took in the Paris to Berlin and Paris to Madrid races.

His Mysterious Visits.

An amusing story is told of the new French minister of the interior, who on arriving at his office for the first time came upon a secret document concerning himself, which set forth minutely all the details of his past life and career. One item related to weekly visits which the minister paid to a mysterious individual, supposed to be an enemy of the government, with whom he spent an hour or so on each occasion. The individual in question was, as a matter of fact, his chiropodist.

Four 15 Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 29, August 2, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.55 and 7.15 a.m., 7.15 and 7.35 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

BARNUM & BAILEY COMING

Arrangements Completed for the Big Show's Exhibition in this City.

Preliminary arrangements have been perfected for the coming of the Barnum & Bailey circus to Peterborough on Thursday, August 9. This great amusement institution is recognized as the leader in all things pertaining to scenic entertainment, and its advent has a significance that rarely attaches to any other show. It is coming this year, it is announced, under conditions that should more than ever, assure it a cordial welcome from the public. It opened the season, as usual, at Madison Square Garden, New York, where, week after week, crowds of enthusiastic circus-lovers crowded the immense amphitheatre, applauded the scenic acts, revelled in the sensations that accompany the performance of the latest things in circus thrillers, and, to quote from one of the New York papers, "left the Garden convinced that they had seen the greatest performance of its kind ever presented in the United States."

The modern three-ring circus, with its accompaniment of menagerie, hippodrome and horse fair is so distinctly an American institution that its coming is almost universally regarded as an essentially annual event. Even the small circuses attract a certain amount of attention and serve to keep alive an interest in this perennially popular form of entertainment. Naturally, however, there is always an especially pronounced desire to see the most representative of the big shows, for the fact is recognized that it requires an immense amount of capital to organize the modern scenic exhibition, and that the big, expensive and up-to-date features are beyond the reach of the smaller traveling shows.

The Barnum & Bailey management announced that this season's scenic display is not only superior to anything hitherto offered even by this great show, but also that the number of new and sensational features and the magnitude of the exhibition as such as to make it probable that the present season will mark the absolute limit to which circus endeavor may reach. A greater number of cars, it is said, would overtax the power of the railroads to handle, while the army of employes is so great that to exceed the number would be to create a serious problem almost impossible of solution.

The old-time circus gave a performance that practically required no paraphernalia. The performers were to a great extent without impediments outside of their costumes. In the Barnum & Bailey circus of today there is an array of feature acts requiring paraphernalia sufficient to almost completely utilize the capacity of one of the five trains of railroad cars. The structural steel used in the "Two Worlds of Terror," and the "Ship of Death," is said to be equal to that used in the construction of a good-sized modern office building. These acts are among the big show's sensational offerings, and it is not surprising that they have created a sensation.

This year's new spectacle is entitled "Peace," and the costumes and accoutrements for the display weigh nearly a hundred tons; the poles for the big tents represent the production of several acres of woodland; the ropes, cordage and canvas used in the city of tents require sixty horses to draw them; the wood used in the seats necessary to accommodate the 15,000 spectators that can be comfortably seated under the immense hippodrome pavilion would furnish a big stock for a more than ordinarily extensive lumber yard. These facts furnished by one who is familiar with the magnitude of the big show indicate more conclusively than anything else what the coming of the Barnum & Bailey circus really means.

The novelty of doing away with the parade successfully inaugurated by the Barnum & Bailey management last season is being continued the year.

Eighteenth Century Life.

These brief extracts from the letters of Elizabeth Montagu, the "queen of the bluestockings," throws a curious light on eighteenth century life in England. She was suffering from a swelled lip. Promptly the great Dr. Mead prescribed a blister to her back. She writes: "I am better than I was; but, my mouth not being yet perfectly reduced, I have got a fresh blister upon my back. Well may it bend with such a weight of calamities. I have sent for my bathing clothes and on Sunday night shall take a souze. I think it a pleasant remedy." Apparently in 1741 a lady could not take a bath even on Sunday night and in the privacy of her chamber without her "bathing clothes." Mrs. Montagu writes again: "My lip is not entirely reduced, though I have been blistered twice, once bloodsel, and have five times taken physic, have lived upon chicken and white meats and drank nothing but water. I have suffered great disappointment about the warm bath which I am advised to try, for the bathing tubs are so out of order that we have not yet been able to make them hold water."

Jewelers Protect Patrons.

"The general public is not aware of the carefully worked out system by which the large jewelry houses continue to protect their splendid wares long after these have been sold and passed out of their hands," said a detective, discussing daring modern burglaries. "Most large establishments dealing in precious metals and gems have a carefully organized and very efficient detective system, which makes it easy for a patron to recover stolen goods without charge and with little or no delay in the institution of the search. In the safes of these large jewel houses are minute descriptions of every piece of valuable jewelry which goes out from the establishment. Each piece is numbered too. When the gems are missed the patron telephones the shop in which the articles were purchased. At once a special detective, thoroughly acquainted with the business in hand and armed with a detailed description of the jewelry, is hurried to the scene of action. This is without expense to the client."—New York Press.

Chivalry.

By the rules of chivalry all persons, male and female, old and young, in a town taken by assault were liable to be put to death, and the men and boys seldom escaped the brutality of the victors.

Old Religious Rites.

India celebrates annually cocoanut day, sacred to the worship of their god of the sea. In order to propitiate this deity cocoanuts are thrown upon the

Sin Against Health

Why the Usefulness of All Organs is Destroyed by Costiveness.

Most important to health and comfort is proper action of the bowels.

By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, bring on nervousness and anaemia.

Habitual costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is exactly consistent with nature.

Not a drastic purgative—not even a pain or sensation of grip, because Dr. Hamilton's Pills are vegetable and free from irritating mineral substances found in so many widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring sure relief from headache, biliousness and other manifestations of constipation.

Jas. McConnell of Walkerton writes: "Since I was comparatively a young man I have not enjoyed true good health.

"My appetite was good and strength kept up, yet I knew something was wrong.

"Frequently I took bilious attacks and violent headaches. My stomach was disordered, skin was murky, under my eyes were heavy dark rings.

"Last winter I read through the 'Polson's almanac and decided my trouble was constipation. I used Dr. Hamilton's Pills, and can hardly tell the help they have been. I am now as fresh, strong and well as a boy."

Just try the wonderful magic of Dr. Hamilton's Pills. Sold by all dealers, 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

First Class Cook for Hotel at the Soo, Ont. Big money. Apply to GEO. J. CHALMERS, Water Street.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students should make application as soon as possible. Call at the College or address

WM PRINGLE, Principal.

Opposite Post Office.

LOCAL INCIDENTS

By The Times Man on the Street

—The license commissioners met last night.

—The usual weekly band concert was given in Victoria Park yesterday evening.

—The Lakefield fall fair will be held on Tuesday and Wednesday, Sept. 25th and 26th.

—Children's two and three piece garden tools on sale at 19c. and 25c. Times Bookstore.

—We regret to say that Mr. Bert O'Brien, well known in this city, has passed away at Rockford, Ill.

—Rev. A. E. St. Armitage of Bethany Tabernacle has withdrawn his resignation and will stay with his post.

—The 34th Regiment Band from Whitby, visited the city yesterday, and played the visiting excursionists to the Peterborough Hotel.

—The G.T.R. conductor on The Sons of England excursion yesterday told a Times representative that he took up over 700 tickets on that train yesterday.

—The repairs to the Smith street bridge are progressing very favorably now, and it is hoped before long that the bridge will be opened for public traffic again.

—A countryman was yesterday heard to remark, "Well, that's the first military band I ever saw that, after playing, did not even take a glass of lager. This referred to the 34th Regt. Band.

—Mr. R. McGill Hood, who, with his family, is summering at Chemong is evidently meeting with much success in fishing. Yesterday morning he went in a fine lunge weighing sixteen pounds.

—Yesterday Mr. H. T. Strickland sold one of the old smoke ground lots in the east ward to Mr. Cook. This is the seventh Mr. Strickland has disposed of in a few days. This location seems to be in demand for building purposes.

—Complaints were yesterday made to The Times that Water street is not kept as clean as it should be. With a trifling rate of only eighteen mills on the dollar, on an assessment of sky high proportions the streets should be looked after.

—The Longford stone for the new county House of Refuge has arrived at Lakefield, and was taken out to the farm. The concrete foundation is completed and the brick laying operations will be gone on with at once.

—The steam road roller is now working on Charlotte street at the corner of Aylmer street. It is the intention to have this street in good shape. If as good a job is made there as was done on George street north, the people will have no kick coming.

—Yesterday an excursionist from Oshawa, called at The Times office, ordered and paid the Daily Times for a year, saying, "Your paper is not as large as some others, but it is bright and up-to-date and well worth the money." This is a hint in season to the few in town who don't take The Times.

Marmora Lady In a Cistern

What might have turned out as a fatality occurred in Marmora on Wednesday. It seems that Miss Alice Purdy, daughter of Mr. R. Purdy, went to their yard where there is a large cistern.

Miss Purdy in some way accidentally fell into the cistern, while stooping over. Her screams attracted some of the neighbors, but by the time they arrived she was almost exhausted. Restoratives were applied and she was soon revived.

24th Field Battery Getting Ready

Sergt.-Major Guerin held a good drill at the east ward armories, and gave instruction in fire discipline, fuse setting and telescopic sighting. There was a good attendance and all present showed satisfactory skill in the exercises.

On Aug. 11th, the gun-layers and gunners, with four sergeants, the sergt.-major and quartermaster sergeant, commanded by four officers, will leave for the camp, where they will remain until Wednesday night, Aug. 15th. In all there will be 22 non-coms. and men, and the four officers making this trip, the drivers, of course, not being taken.

Rice Lake Route Opens Monday

Fine Steamer Monarch Will Run Regular Trips.

As many of our citizens are in the habit of going every summer to Gore's Landing, on Rice Lake, it will be of interest to our readers to learn that the fine steamer Monarch, owned by Messrs. Harris and McAllister, will begin her regular trips for the season on Monday next.

For full particulars as to times of sailing and general schedule, one can consult the adv. of this popular boat inserted in another column.

The trip to Rice Lake, via the beautiful and winding river Otonabee, is unsurpassed in this country. The Str. Monarch is a comfortable craft, ably managed and never allowed to be overcrowded. At Gore's Landing, a pretty village nestling between the southern hills of Rice Lake, and where there is splendid fishing and bathing, there are good hotel accommodations at prices adapted to the most modest pocket.

For a few days' outing Gore's Landing is the place to get the pure ozone, boating and fishing, and the fine steamer Monarch is always on time to take one there.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

SOCIAL AND PERSONAL

—Mr. Lou McBrine leaves next week for Souris, Man.

—Mr. Ernest Brownscombe is holidaying at Stony Lake.

—Mr. S. W. Clarke, of Millbrook, was in the city yesterday.

—Mr. Martin Connors has returned from a trip to Montreal.

—Mr. Johnston Hughston of Myrtle, accompanied yesterday's excursion.

—Mr. W. Park, the village blacksmith of Myrtle, was in the city yesterday.

—Mrs. Frank Lyle, of New Westminster, B.C., is the guest of Mrs. T. H. Prust.

—A. J. Brooks, Fenelon Falls, was registered at the Snowden House yesterday.

—Miss J. C. Higgins, Water street, is spending a week with friends in Sandy Bay.

—Mr. Thos. Ewel of Peterborough was in town today on business.—Port Hope Guide.

—Geo. Button, Whitby, was in the city yesterday a guest at the Snowden House.

—Mr. Stephen Beraduile went down to Gore's Landing yesterday to visit friends there.

—Mrs. (Dr.) Torrance and family are spending a few weeks in Port Hope and Cobourg.

—Mr. F. L. Brown, reeve of West Whitby, was in the city yesterday with the excursion.

—Mr. J. H. Burnham has returned to the city after spending a few days at Oak Orchard.

—The 34th Reg. Band of Whitby, certainly know how to discourse sweet strains of music.

—Misses Annie and Gertrude Lyle, of Bowmanville, are the guests of Miss Laura Bellegleau.

—Miss Dark, of Peterborough, is the guest of her niece, Miss Emma Kingston.—Stirling News-Argus.

—Rev. O. C. Elliott, of Stratford, formerly pastor of the Park street Baptist church, is in the city.

—Messrs. J. J. Turner & Sons, yesterday decorated the Queen's Hotel and their own factory in honor of the visiting Sons of England.

—Ald. R. F. McWilliams, who is spending a couple of weeks up the lakes, was in the city yesterday, but returned to the lakes last night.

—Miss Agnes Moody leaves today for Montreal where she will take a Dominion line steamer for London, Eng. She was booked through by Mr. W. Mellroy.

—Messrs. W. Taylor, popularly known as "Daddy," Ald. Kingscote, W. Record, James Head and J. J. Turner formed the reception committee, who met the visiting excursionists at the G.T.R. station.

Women with weaknesses should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest. It is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Mr. P. Christie M.P. Here Yesterday

Mr. Peter Christie, M.P., for South Ontario, who lives in Manchester, Ont., arrived in the city yesterday on the special train run by the Sons of England excursion, with a number of lady and gentlemen guests. Mr. Christie's party were the guests of Mr. M. C. Tenley, of the Queen's Hotel. During the afternoon Mr. Tenley took Mr. Christie's party out for a drive and showed them the sights of the city. Mr. Christie during the evening dropped into The Times office and when interviewed by a Times' man, said that Peterborough is one of the most progressive and flourishing towns in Canada. Mrs. Christie attributed Peterborough's success over the lakeside towns of Port Hope, Bowmanville, Newcastle, Whitby and Oshawa, to her competing railroad facilities and freight rates. He left for home last night.

Found on the Skin

Phosphate

Direct from the

Brain

We know that active brain work throws out the phosphate of potash, for this product is found on the skin after excessive brain work, therefore, brain workers, in order to keep well, must have the proper food containing phosphate of potash to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proved in thousands of cases among users of Postum Food Coffee and Grape-Nuts.

Both contain phosphate of potash in minute particles, just as it is furnished by nature in the grains.

This product makes from albumen the gray matter that builds the brain and fills the nerve centres.

In no way can this gray matter be made except by the action of phosphate of potash upon albumen, and this mineral should be introduced to the body just as it comes from nature's laboratory, and not from the drug store. The nature is more or less fastidious about taking up the needed elements, and as might be suspected, it will favor the products of Mother Nature rather than the products of the drug shop, however valuable they may be for certain uses.

Athletes, lawyers, journalists, doctors, ministers, business men and others, who earn their living by the use of the brain, are using both Postum Food Coffee and Grape-Nuts food. Both products are manufactured for a reason. They were originated by an expert and the regenerative value of both the Postum Coffee and the Food has been demonstrated beyond question. All first-class grocers sell both Postum and Grape-Nuts, and the Postum Cereal Co., Ltd., manufacture them at the Battle Creek factories.

FACTS IN NATURE.

But Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

MOONLIGHT EXCURSION.

The Peterborough Radial Railway Company has made arrangements to run moonlight excursions down the Otonabee River during the summer season. The Steamer Water Lily, and the large passenger scow which goes with her, has been chartered for this purpose. The Water Lily underwent improvements last winter, and is one of the most up to date passenger boats in the river. A modern electric light plant has been installed and a search light of 20,000 Candle Power is mounted in the front of the steamer, thus every part of the steamer and scow can be beautifully lighted and the search light enables the steamer to be safely operated on the darkest night, and also gives enjoyment to the passengers, by the scenic effect the piercing light has on the surrounding landscape.

These excursions should become very popular as there is no more beautiful stretch of water anywhere than that part of the Otonabee River just below the City. An orchestra will be on board for each excursion and dancing may be indulged in.

These excursions will be run every Tuesday and Thursday evenings of each week, commencing Tuesday, July 17th. The boat will leave the Street Railway wharf at 8.15, returning about 10 o'clock. Tickets, 25c. each, may be purchased at the Street Railway Office or at the wharf. A limited number only will be sold each evening so that the steamer will not be overcrowded.

Hastings' Visitors Were in the City

The Methodist excursion from Hastings yesterday to Stony Lake was among the most largely patronized that have yet gone to the Kawartha Lakes.

A special train consisting of five coaches carried over 300 people from Belleville, Hastings, Keene and all intervening points. The steamer Stony Lake met the train at Lakefield carrying the excursionists around the lakes touching at the different points. They returned by a special train yesterday evening.

Bastedo for Federal Service.

Ottawa, July 20.—Mr. S. T. Bastedo, Commissioner of Fisheries for Ontario, who was recently dismissed by the Ontario Government, is still in the capital. He had interviews with several of the Ministers and the probabilities are that he will be given a post in the Federal service.

For Chemong By Auto.

The splendid new automobile bus, in charge of an expert chauffeur, will leave the Snowden House at 2.30 afternoon, calling at the National and Oriental hotels.

Sherring Will Not Be Here.

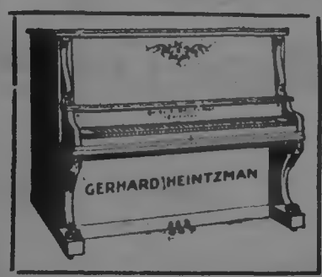
The ball game between the locals and Port Hope has been declared off until a future date. Sherring the winner of the world-famous 27-mile race at Marathon, Greece, who, as noted in the Times, was to have given an exhibition of running will not be present.

Local Cable Brings an Expert.

About two weeks ago Messrs. J. J. Turner & Sons, the local sail and awning manufacturers cabled to London, England, for an expert gold embosser and sign writer, as the firm could not get such a man in Canada, at once. Yesterday Mr. Geo. C. Chandler of London, who is an expert in the above noted craft, arrived in the city in response to Messrs. Turners' cablegram.

Legs Spoilt the Excursion.

Mr. Larmouth called up The Times yesterday to ask that an expression of his regret be inserted over the unavoidable postponement of Thursday's moonlight excursion. The Str. Water Lily that was to have taken the large number of excursionists down the river that night was unavoidably detained by logs. This is the first time the street railway people have disappointed their patrons, and this was none of their fault. Those desiring, and they are legion, to take in these street car moonlight excursions; after this can depend upon the street car authorities fulfilling their promises so far as they are concerned.



"Equal to a Gerhard Heintzman"
"Built Similar to a Gerhard Heintzman"
"Resembles a Gerhard Heintzman"

These and other similar claims are frequently and incorrectly made by rival manufacturers and dealers, all of which is simply their acknowledgement of the Gerhard Heintzman superority.

Gerhard Heintzman Piano

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

VOL XXXIV, NO. 175 PETERBOROUGH, ONTARIO, MONDAY, JULY 23, 1906. PRICE TWO CENTS

To Suppress Russian Parliament

Action Which Czar is Said to Contemplate ---Acute Crisis Has Passed but Future Holds No Hope.

St. Petersburg, July 22 — The acute crisis which faced the country yesterday has been passed. On Thursday night a decision was reached to dissolve Parliament today and a rescript to this effect was actually prepared, but yesterday, when it became apparent that the Constitutional Democrats although they had obtained a nominal victory, had virtually suffered a defeat, and were anxious to retrieve their blunder, it was decided at Peterhof not to issue the ukase but to allow matters to drift along for the present. This morning Interior Minister Stolypin notified the chancellory of parliament that he would appear in the house today and answer interpellations.

AN ULTIMATUM.

The Nasha Shizn says that the decision to postpone the dissolution of parliament was preceded by the receipt of which was practically an ultimatum from the Goremykin ministry, which demanded to be allowed to resign or be given a free hand.

SOMETHING DRASTIC.

The prevailing sentiment at Peterhof continues to be that a decisive step to suppress parliament as a revolutionary center will be necessary in the near future, but there seems to be hope that the open breach between the left and the Constitutional Democrats, with the loss of prestige suffered by the latter, may so complicate the situation as to render the task of the government easier. All chance of the formation of a ministry composed of Constitutional Democrats is seemingly ended, as it is plain that the Constitutional Democrats no longer control a parliamentary majority. The present situation cannot be prolonged, and many composers, judges believe that matters are rapidly moving toward a dictatorship.

MILITARY MOVEMENTS.

The arrival of the guard regiments at the capital has been followed by the strengthening of the pickets throughout the industrial quarters where the workmen are greatly excited by the complete suppression of the socialistic press. Orders have also been issued to all prairie officers to notify the chief of police immediately of any attempt to set up the address of the lower house of the country. The temper of the masses can be judged by the fact that mobs resisted the closing of the offices of the socialistic papers last night, and that at meetings of the proletariat organizations of Moscow, it was resolved to make the dissolution of parliament a signal for a general strike.

TO DISSOLVE PARLIAMENT.

St. Petersburg, July 22.—It was learned by the Associated Press yesterday afternoon from a particularly well-informed source that the action favoring a dissolution of parliament is still exercising pressure on the emperor, and that conferences are progressing which within four or eight hours will definitely decide the question. The informant of the Associated Press believes the chances are in favor of this momentous step which will be accompanied by an imperial ukase ordering new elections.

CZAR DARE NOT LEAVE.

Berlin, July 22.—The Associated Press was semi-officially informed today that the Emperor Nicholas has sent a message to Emperor William, informing the latter that the internal situation in Russia is such that he had determined to forego his intention to meet the German Emperor beyond the frontiers of Russia as previously agreed upon.

Bad Taste To Suggest Plottings

Montreal Witness Comments on Report That Earl Grey Has Political Mission.

Montreal, July 23.—The Witness says:

"Nothing but mischief can come of the story that the Governor-General of Canada is going to Newfoundland with a view to discussing with the governor of that province the question of its union with Canada. The story is obviously the work of pure imagination as the matter is one in which governors may be interfere.

"It is naturally taken for granted that such a union as the sincere wish of both governors, as is probably that of every British subject out of Newfoundland, and is naturally taken for granted that the hopefulness of it would almost certainly be matter of conversation between them should they meet on easy terms, but both are constitutional representatives of the King, both know that the accomplishment of such a union must, except under contingencies that have not arisen, be left to the consent of the peoples, and that such consent would not be promoted by gubernatorial interference.

"It is, therefore, as the worst of bad taste to suggest that any such vice-regal plottings are going on."

Commission Meets in Toronto.

Ottawa, July 23.—On Tuesday the International Deep Waterways Commission will meet in Toronto. The subjects to be considered are the proposed division of water from the Rainy River system, the Chicago drainage canal, and some proposed water powers on the St. Lawrence. These questions have been put before the commission already, but further and more exhaustive consideration must be given them before the commission will be in a position to report.

Serious State of Affairs in Mexico

New Orleans, July 23.—E. J. Mathes, one of the party of 39 American men, women and children, who left Mexico because of anti-foreign threats and passed through New Orleans late last night en route to Cincinnati, said:

"One of the most alarming features of the situation is the fact that the Mexican servants have joined in the movement, and the wives of the foreigners are in mortal fear of their families being poisoned. I was reluctant to leave the country, but I simply could not resist the pleadings of my family.

"The anti-foreign movement is strongest in the northern and central portions of Mexico, where the natives have been wrought up by agitators and agents of revolutionary societies. The educated class of Mexicans is not in sympathy with the movement, but the army, which is recruited from the lower classes, cannot be relied upon.

"The anti-foreign contingent has grown to such an extent that I do not believe that the Mexican Government can cope with it successfully."

Contribution for Y.W.C.A.

Hamilton, July 23.—Mrs. J. Lewis Crozier, of Chester, Pa., has promised to contribute $20,000 towards the construction of a new $50,000 Y. W. C. A. building here if $30,000 is subscribed by Hamiltonians during the next month.

LATE MISS ISOBEL CAMERON

Body Arrived in Montreal En Route to Williamstown.

Montreal, July 23.—The body of Miss Isobel Cameron, youngest daughter of the late Sir Roderick Cameron, has arrived here, en route to Williamstown, Ont., for interment. Messrs. Duncan Cameron, brothers; Miss Cameron and Miss Catherine Cameron and Mrs. Annie Tiffany, sisters, and the Rev. A. J. Dowell, rector of the Church of the Advent, of this city, accompanied the body in a special car, and were met at the station by a few intimate friends. The compartment containing the body was literally laden with flowers and handsome wreaths, tokens of the affectionate regard in which the young lady was held by her numerous friends.

The late Sir Roderick Cameron died in 1904, and was well known throughout Canada, having commenced his early career in Hamilton and later in Montreal. Subsequently he moved to New York, where he established the firm of R. W. Cameron & Co., which has become one of the most important houses in the Australian and British colonial trade. For his services as Commissioner of New South Wales he was knighted by the late Queen Victoria, and although his residence was in New York, and he had large interests in the United States, he always remained a British subject.

Terrible Hail Storm Yesterday

Yesterday afternoon what was possibly the heaviest hail-storm that ever visited Peterborough, occured about four o'clock. The storm which was preceded by a few heavy thunder claps, then a slight shower of rain, but suddenly the rain and hail poured down as though pouring from an endless sieve with an inch wide mesh. The hail stones came down in such numbers as to render it impossible to see objects distinctly for over a distance of two blocks. Some of them were very large, the majority being about half an inch in diameter. Much damage was done to the flowers in Victoria park, many of Mr. Cooney's most valued plants having their leaves torn to ribbons. One gentleman who takes special pride in some handsome sunflowers in his garden, said the leaves were practically stripped from the stems. It is feared that when reports come in from the surrounding country today, also the farmers will be heavy losers. A peculiar feature of yesterday's storm, was that after the sky had cleared up some time after the hail storm, what was almost a hurricane of wind suddenly swept by from the west. This sudden gust of wind which must have gone by at sixty or seventy miles an hour, as suddenly abated.

The School For the Blind at Brantford.

(To the Editor of The Times.)

Dear Sir:—I ask your assistance to enable me to get into communication with the parents or guardians of all the blind children in Ontario, under the age of twenty-one years. The Institution for the Education and Instruction of the Blind, maintained by the Ontario Legislature, admits as pupils "all blind youths, of both sexes, between the ages of seven and twenty-one, not being deficient in intellect, and free from diseases or physical infirmity, being residents of the Province of Ontario." It is not necessary that the applicant shall be totally blind; the test is inability to "read ordinary type and attend a school for the seeing without serious injury to the sight." The initial difficulty is to locate the children who are eligible for admission, and it will be helpful in the future if your readers will send me the names and addresses of blind children under seven, as well as of those between seven and twenty-one.

Should you favor me by the publication of this letter, I would ask your readers not to depend upon the parents of the children with defective sight to attend to this matter. If all could witness the gain in health, happiness, knowledge and self-reliance that come to those who, deprived by their affliction of access to the public schools, take advantage of the educational facilities afforded by this institution, none would grudge the time and trouble required to widen the scope of the school's influence. Send me the names and addresses and I will by correspondence or visitation do the rest.

H. G. GARDINER,
Principal O. I. B.

Brantford, July 20, 1906.

Ex-Premier Ross Invited to Chicago

Toronto, July 23.—Hon. Geo. W. Ross, ex-premier of Ontario, who has returned from Mount Clemens, Mich., has been asked by the Scotchmen of Chicago to address the gathering at the unveiling next month of a fine statue of Robert Burns, which they are erecting in that city.

THINK ALFONSO A LITTLE MAD

But the Spanish People Love Their King in Spite of His Peculiarities

MAKES HIS INFLUENCE FELT

His Firmness and Promptitude Amazing to the Old Court Party.

London, July 23.—Edgar Walters, writing of the Spanish King, says:

Remember that old Spain has not quite misters and Alfonso. It covers him, he is the darling of the people, and your ultra-Republicans exceedingly voluble on all pertaining to kingship, have a pleasant word for the slim youth with the curiously antic.

But none the less old Spain does not quite take him in to be perfectly frank, old Spain watching in wonderment as the young man sweeps away the cobwebs that hamper his initiative action, confesses sadly that he does not understand.

Also his influence is felt throughout Spain. There was a famous old Spain who had a theory: the people pay me to exercise prudence; therefore I am a coward." In the background, but the minister was induced to put his name into the Council.

But the king's morning like the king's digestion, is usually good, and without a word he settles on pen through the matter. His minister was thunderous then.

"I shall place my resignation in your Majesty's hands," he said stiffly, but she awful threat did not disarm the young man.

"That is my wish," he said gravely.

The appointment to the king has drawn him closer to Great Britain, for King Alfonso is a sportsman, and in his ardent admiration of antagonize a powerful State like Germany. The spirit of "Entente," which as at once the joy and curse of Spain, extends to every class of Spaniard—even to be Spaniard Ambassadorial—and there are to be representations this year if Germany at which the crowned heads of Europe are to be represented. Somehow the Spanish Ambassador at Berlin failed to notify the King of these celebrations with the result that there was no time for the fitting representation of Spain. Alfonso's hand fell on the Ambassador. A prompt Gazette announced his recall and the reason.

TODAY, NOT TOMORROW.

This is how Alfonso XIII. is creating a new Spain. By substituting promptitude for procrastination; by replacing "manana" by "today," and, lastly, by doing himself the things that he asks his people to do.

The story that best illustrates the sane, practical spirit, that underlies most of his acts is the story of the recent disaster. In the course of constructing a reservoir near Madrid, part of the works collapsed, and hundreds of workmen were buried beneath tons of earth. The sky King was at the royal palace when the news was telephoned through, and he ordered his car and drove through to the scene of the catastrophe. Crowds had gathered in the vicinity, and the King was recognized as he drove up. Accident or royal procession, all's one to the Spaniard, so long as he is in the posture of sight-seeing, and "Viva el Rey!" was rended by a thousand throats. It was an indignant young monarch who stood up in his car and harangued the crowd. "If you were helping to dig these poor fellows out, instead of shouting 'Viva,' you would be doing a far better thing," he said—and the crowd took the hint.

A REMARKABLE CATCH

How a Genial Bonafice Nearly Filled His Boat With Fish.

It was in the back parlor of the Knowlton hostlery, in the grey twilight, and the genial proprietor had the floor. There was a bunch of tourists on their way to the back lakes to fish, and stories of the camp had been going the rounds.

"I tell you what it is, gentlemen," began the genial proprietor as he crossed his legs and planted his foot hard down on Mr. Sam Bickerstaff's pet corn, "I had an experience away back in the 60's that I never will forget. Tom Rutherford and I undertook to paddle from Chemong to Bobraygeon. It was after nightfall when we reached Pigeon Lake. We had been trolling, but did not get a bite. I suggested to Tom that we light our lantern, which we hung in the stern of the boat. Attracted by the light, a number of lunge and bass leaped into the boat, and these were followed in quick succession by others. Tom had his hat knocked off by one huge fellow and was naturally much alarmed. We pulled for the shore as quickly as possible, pursued by hundreds of finny monsters who continued leaping into the boat thick and fast. Had not Tom had presence of mind enough to drop the lantern into the water, the boat might have been swamped. This is a true story and will be vouched for by Tom Rutherford himself."

WILL TOUR CANADIAN WEST

Party of Pennsylvania Journalists to Spend Twenty Days in Canada.

Niagara Falls, July 23.—A party of Pennsylvania newspaper men left Niagara Falls today in a special train of six Pullman sleeping cars over the Grand Trunk Railway System for an extended trip of twenty days through Canada, including the Canadian North-West and British Columbia. They will proceed over the Grand Trunk via Toronto and North Bay, from which point they will go west to Port Arthur by the Canadian Northern Railway visiting en route Winnipeg, Neepawa, Prince Albert, Battleford and Fort Saskatchewan, after which the journey will be extended to British Columbia and the Pacific Coast.

On return the party will arrive at Toronto on Friday, August 10th, and will spend the day there as the guests of the Toronto Press Club. There will be from 125 to 150 in the party.

Mr. H. B. Charlton, manager, advertising department, Grand Trunk, left on Friday to meet the party at Buffalo and act as cicerone while they are travelling on the Grand Trunk.

Sturgeon Point Regatta Changes

It now seems that yachts belonging to the Chemong yacht club will not be able to participate in the Sturgeon Point regatta.

The ever popular Stony Lake regatta as always held on Peterborough's civic holiday, which is Aug. 13th, and as the Sturgeon Point people selected the 2nd, 3rd or 4th of August as their date, the Chemong Yacht Club chose the 23rd.

This schedule would give ample time for the yachts of the various squadrons to take in all of the races.

On Saturday Commodore R. McDonnell of the Chemong Yacht Club, received word from the Sturgeon Point Yacht Club, stating that they intended to change the date for their regatta from August 3rd to the 4th. The reason given for this the 2th is civic holiday in Toronto Falls and Sturgeon Point, and those two places asked the club to change their late.

By this change the Chemong yachts will be unable to take in the Sturgeon Point regatta.

POLICE NEWS

Daily Happenings in Court Room and Station.

Only one case was on trial in Saturday's police court, a young Englishman an expert stenographer, who it seems has been "working" a local clergyman for money on Friday night, possibly to display the good (?) use to which he had put the ducats got blind drunk, and chose the minister's verandah as the best place to sleep off his jag.

The Englishman made a strong appeal for clemency, promising to shun the intoxicating bowl henceforth. The magistrate allowed him to go by assured him that if arrested again he would have a six months' trial of the delights of Central Prison, Toronto, as a vig.

Chemong Park Hotel Guests

Mr. Porter, the proprietor of the Chemong Park Hotel, is having a busy season. The house is already filled, mostly with Americans, and has seven more booked for the month of August. The following are some of the July arrivals:

Mr. and Mrs. M. Kondolf, Miss Louise and Mathias Kondolf, Rochester; Mr. and Mrs. Chas. Little, and Miss Grace, Rochester; J. H. Millar, Rochester; Mr. and Mrs. Alphonse Weill, Misses Marion and Katharine and Ralph Weill, Buffalo; Dr. and Mrs. Arton, Buffalo, Mrs. M. Block, Buffalo, Mr. and Mrs. Nathan Deskecker, Miss Frances and Harold G. Deskecker, Buffalo.

Edgar Black, Allan Weill, Buffalo; Miss E. R. Allison, Mrs. Wm. J. Jennings, Master Allison Jennings, Chicago; F. D. Allison, Peterborough; Mr. and Mrs. Baxendale, England; Perron C. Landon, Rochester; Mr. and Mrs. Alex. Grant, Peterborough; Misses Davidson, Winnipeg; E. R. Gardner, Toronto; W. H. Schwartz, Buffalo; Miss Kelly, Berlin.

New Auto-bus is Praised.

The large new auto car of the Peterborough and Chemong Transit Co., which has just been put in commission, was in town on Wednesday and carried 25 men who were in to back the Peterborough horse at the matinee race. It is a fine large car and it should be an incentive to our citizens to get such a machine to run between Cobourg and Rice Lake. Such a car could be made to pay, as the distance would vanish, and the crowds would visit our back lake watering place if they could go and return without feeling the journey tedious.—Cobourg Sentinel-Star.

Three-Cornered Fight in Cardwell.

Toronto, July 23.—It is reported that Captain F. L. Thompson, who is now in the West, may return to Cardwell, in which constituency he formerly resided, and run as an independent Conservative for the Legislature against the Conservative convention candidate. There is, it is said, some ill-feeling in the riding owing to Mr. Little's resignation, and acceptance of a Government office so soon after the return of the party to power.

Bridant an Advocate of Race Suicide

Father and Sister of Mrs. Bridant Hold Husband Responsible---Will Not Be Allowed by Police to Attend the Funeral.

Toronto, July 23—Mrs. Lillian Miller and Edmund Bridant—the real name by his correct name, Edmund Antoine—were arraigned before Magistrate Kingsford in police court on Saturday morning on the charge of causing the death of the latter's wife. They were charged with murder.

The woman was defended by T. C. Robertson, K.C., and R. S. Neville represented the man. A plea of not guilty was entered in both cases, and an adjournment made until the 27th.

After the court proceedings Mrs. Miller, who was attended by her husband, broke down. In the presence of an officer they had a short talk.

The request of Mr. Neville that the prisoner be allowed to attend the funeral of his wife was refused by Magistrate Kingsford.

At noon the inquest on Mrs. Bridant was opened in Millard's undertaking rooms by Coroner Cotton. Chief Coroner Johnson was present. The jury viewed the body and will wait the result of the post-mortem.

The request of Mr. Rogerette that he be given samples of the medicine found in Mrs. Miller's rooms was granted. He wishes to have them analyzed for his own information in conducting the defence. The enquiry will be resumed next Wednesday evening in the police court.

HAS A RECORD.

Bridant, or Antoine, has a criminal record, having served two years in the Orkneys, the first to visit Hawaii. He was allowed out on parole, on which got back on a charge of criminal assault. A few days Antoine and his wife quarrelled, but were brought together through the efforts of the Salvation Army. The fact that Antoine christened his wife's life if she had any more children is likely to tell against him with a jury. The neighbors claim he forced her to take the stuff he purchased from Mrs. Miller.

When the Millers lived in Covington, Ky., he was collector for a brewery, and his wife conducted the French Capsule Company. During time she claimed the remedy was the result of 16 years' hard study and practical experiments. Dr. De La Val," the great French specialist. They have two children, one married, and the other living with Mrs. Miller's mother in Covington. Since coming to Toronto Mrs. Miller has been earning at the rate of $500 a month.

AS TO ADVERTISEMENTS.

Postoffice Inspector Henderson, after reading Mrs. Miller's circular, does not think literature of this kind could be refused in the mails under the present act. They are all very carefully worded.

NOT POPULAR.

Edmund Bridant, the man arrested Friday in connection with the death of Agnes Bridant, his wife, was according to fellow employes at Brunet's barber shop, Colborne street, extremely unpopular at the shop. They describe him as a captious fellow, who made a point of carrying imaginary grievances to the proprietor and acting as a stool pigeon for the boss barber. Not a word of sympathy was offered from any of the employes for Bridant.

It may interest some of the many clients of Mrs. Miller and others to know that the criminal code states explicitly that any woman who administers drugs to herself for the purpose of procuring a miscarriage is guilty of an indictable offence, and liable to seven years' imprisonment.

ADVOCATE RACE SUICIDE.

Kingston, July 23.—Ernest Villard, father-in-law of Edmund Bridant, said yesterday afternoon that he had taken pains to ascertain the family connections of Louis Edmund Bridant prior to his daughter's marriage. He wrote to his father and the parish priest in France. From both of whom he received favorable mention of the man. The priest, in particular, spoke of the respectability of the family, his brother, Charles being secretary to the president of the republic.

Mr. Villard says that his son-in-law was a strenuous advocate of race suicide, and urged his wife from the first to practise it. This, however, she refused, and in this course was supported by her family.

BIG CAR BUILDING ORDER

C. P. R. Gives One to Angus Shops Amounting to $400,000.

Montreal, July. 23.—The remarkable list of orders given by Canadian railways for rolling stock during the present year was added to today by the Canadian Pacific Railway, which handed out instructions to the Angus shops to turn out at once sixty cars aggregating in value $400,000. They are divided as follows: Five dining cars twenty first-class, ten baggage and express, and twenty-five baggage cars for immigrant use in particular.

Work has been commenced by the Angus shops on a C. P. R. order for two thousand freight cars, the order for which was given a few weeks ago. They are worth $1000 $800 each, making a total of $1,600,000, or a grand total in the last two orders of $2,000,000.

London, July 23.—Fines were imposed on two army contractors for supplying adulterated and colored foodstuffs for the use of troops in Hounslow Barracks.

The Fall Fair to Be Discussed

Meeting to Consider the Matter Called For Wednesday Afternoon.

Judging by the generally expressed sentiments of our local merchants, it is thought that the meeting called for Wednesday afternoon at 2.30 o'clock in the City Council chamber to discuss the matter of the Central Fair, will be well attended. On the result of his meeting will depend the continuance of the fair.

Outside of the grants from the city and county and the government grant, the fair should be well supported. The attendance should provide money to carry on operations, for the membership fee is only a trifle and not very much in the aggregate.

There is a diversity of opinion as to whether the fair could be made sufficiently attractive on the lines in force created by competition between and quality of the exhibits.

Judging by opinions expressed on Saturday by several leading citizens to a Times man, it would seem that a majority consider that comparatively few townspeople would attend the fair without good attractions outside of the exhibits. The greater number of those who attend the fair are townspeople, who have a very superficial interest in cattle, horses, sheep and agricultural products.

It is to be hoped however, that those in charge of the fair will see their way to holding our annual exhibition, as should the fair be turned down the government grant will pass into other hands and interests and possibly never be regained.

There should be a large and representative attendance at the meeting next Wednesday afternoon when there will be full and ample opportunity for the expression of views and the interchange of opinions.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Games in the Eastern League Saturday resulted as follows.

Jersey City 6, Toronto 2.
Baltimore 2, Montreal 0.
Providence 6, Buffalo 1.
Newark 7, Rochester 0.

• • • •

LACROSSE.

The Shamrocks journed to Port Hope on Saturday by the 11.45 train and played off the final game in the district. Unfortunately the locals met with defeat, the Ontarios winning out by a score of 4—1. The local line up was as follows;

Gilman, goal.
White, point.
Devlin, cover.
Seymour, 2nd defence.
O'Leary, 2nd defence.
Dann 3rd defence.
Tucker, center.
Saunders, 3rd home.
Feeney, 2nd home.
Bassitt, 1st home.
McNichol, outside home.
Dolson, inside home.
"Eddie" Hinds, of Orillia, refereed the match.

In the N.L.U. game at Montreal, the Montrealers defeated the Nationals by a score of 14 to 6.

• • • •

Toronto made it a runaway finish with the world's champions at Rosedale on Saturday. After the score was 3 to 4 in the first part of the last quarter, the Torontos went at it and put five past the net minder, closing the proceeding with the comfortable majority of 7. Over 5000 people saw the game.

C. P. R. Paid Off $15,000,000

The History of the Land Grant Bonds Recently Redeemed.

Montreal, July 23.—The Canadian Pacific having redeemed the last of its land grant bonds, the original issue of which amounted to $15,000,000, out of the proceeds of land sales, the history of the issue becomes timely.

The contract between the Canadian Pacific and the Government provided that for 20 years from the date thereof (October 21, 1880), no line of railway should be allowed to run south from the main line in Manitoba to the international boundary, or to within fifteen miles of it. The object was to prevent the diversion of traffic to the United States and insure the Canadian Pacific a monopoly for that period. An agitation for the repeal of this clause soon arose, however, in Manitoba, and in 1877 the Government was obliged to abandon it.

By way of compensating the Canadian Pacific, the Government guaranteed payment of interest at 3 1-2 per cent. for fifty years on bonds of the company secured on its unsold lands, the issue not to exceed $15,000,000.

The proceeds of the sales of land were transmitted to the Government from time to time for the redemption of the principal of the bonds, and the Government allowed 3 1-2 per cent. on the money thus deposited, which went to pay the interest.

CAN YOU RESIST DISEASE GERMS?

Yes, and becomes "Germ-proof" by Driving Out Blood Humors and Restoring the System.

Why are doctors and hospitals so busy in spring-time? Easily answered. People haven't made surplus vigor in the spring; it was all used up in fighting off colds through the winter. With thin blood and low vitality, the germs of disease become active and cause fevers and debility.

Your one protection is to get the abundant vigor that Ferrozone so quickly supplies; it gives spring sickness that "tired feeling," restores nerve energy and instills vim and force into every ailing organ of the body.

No other restorative is known than Ferrozone; its influence is not temporary but lasting, laying a sound foundation of health that lasts till old age.

Mr. Nazaire Begin, of Watton, P.Q., Que., who received enormous benefit from Ferrozone, writes. "I cannot speak too highly in praise of Ferrozone. If any one had told me that any remedy could build up my nervous system so well, I wouldn't have believed it.

"Before using Ferrozone I was run down in nerve and vital energy, and in very weak health.

"I didn't get enough sleep at night and felt poorly in the day time.

"Ferrozone has filled me up with energy and vim, increased my weight and made a new man of me."

Your health through the summer depends on clearing away all traces of spring sickness; the remedy is Ferrozone. Sold by all dealers, 50c. per box, or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

JAPANESE MEDICAL SUCCESSES

During the Russo-Japanese war, while Japan was winning such high praises for its sanitary and medical service in the field, there were not lacking some of the knowing ones in America and in Europe to say that Japan's apparent success in this direction was an illusion; that in reality Japan simply was applying European and American methods, and that if there were fewer deaths from disease among the Japanese troops it was due rather to Japanese physical resistance against the particular diseases which the army was in danger of encountering in Manchuria than to any intelligent assault upon these diseases by the medical staff.

That the knowing ones were entirely wrong is now coming to be generally recognized. Surgeon-Major Louis L. Seaman, in his recent book on the Japanese sanitary and medical service, indeed, felt justified in making the title of the work "The Real Triumph of Japan." In England Baron Takaki, vice director of the naval medical bureau of Japan, recently delivered a series of lectures which attracted the widest attention of sanitarians, as well as of military surgeons. All things considered, his hearers felt that Europe could well afford to sit at the feet of Japan for instruction in these lines. Baron Takaki's individual service has been the discovery of the causes of beri-beri, one of the most serious diseases of the Orient, and the initiation of reforms which have succeeded in practically eliminating it from the navy, and in enormously diminishing its prevalence in the army. As a recognition in some slight degree of Japanese achievements in these fields, Great Britain has just let down the bars which in the past have prevented Japanese medical graduates from practicing in British crown colonies.

Surgeon Major Seaman makes a comparison with trustworthy war statistics that have been accumulated in the past 200 years to show the extent of Japan's successes. Heretofore nations have expected about four men to perish from disease for every one from bullets. Japan succeeded in precisely reversing this proportion. Many diseases which are up near the head of the list in European and American reports dropped out of the Japanese death lists almost altogether. Such splendid results were obtained very largely by enabling the doctors to the front to prevent the appearance of disease, instead of keeping them in the rear to cure diseases after they had appeared. One man at the front, according to Dr. Seaman, is worth twenty men at the rear. It took Japan to discover it.

Must All Work For Unity of Empire

Must Leave Aside All Party Considerations to Advance Imperial Good.

London, July 21.—The Earl of Durham presided at a dinner last night on the inauguration of the New Liberal Colonial Club, just organized to study and discuss colonial questions from a Liberal standpoint.

Proposing the toast of the British Dominions beyond the seas, the chairman said: "Liberals in the past had given colonies self-government. If they wished to maintain the unity of the Empire all must work together apart from political considerations in the cause of British dominion beyond the seas."

Hon. W. P. Reeves, Australian agent-responding, said the standing danger to the British Empire was the mutual ignorance between the colonies and the Mother Country.

Hon. N. A. Belcourt of Ottawa proposed the Liberal Colonial Club. He said that free trade was unfortunately for Canada forbidden fruit, but he expected to observe that at home the country enjoyed liberal prosperity from the use of the system. The Liberal Colonial Club would render the greatest service to Canada by taking a sympathetic view of Canadian affairs. Full justice could not be done unless they witnessed its wants and possibilities as seen on the spot.

Others present were Sir Sandford Fleming and Hon. Colin Campbell of Winnipeg.

Donald MacMaster, K.C., formerly of Montreal, addressed a Unionist meeting in the Balmain by-election.

Many messages of condolence on the death of Lady Curzon have been received from Canada.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

IN MEMORIAM

In memory of our loving son, Wallace E. Warner, who died July 22nd, 1906;

A precious one from us is gone,
A voice we loved is stilled,
A place is vacant in our home
Which never can be filled.

'Tis hard to say "Thy will be done,"
When those we love depart.
But Lord thou knowest how to soothe
And heal the broken heart.

And still we hope to meet ere long,
Our loved one that is gone,
And dwell in God's eternal holy land,
And Heaven will be our home.

—Mother.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 9, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 7.50 and 7.15 a.m., 7.15 and 8.49 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

Seek Share of Millions.

Montreal, July 21.—An action has been taken by Mr. Hospolo Masson against H. Masson et al., including 70 defendants, all heirs to the estate of the late Hon. Jos. Masson, to obtain his part of the fortune left him as an heir to that estate. The Hon. Jos. Masson, who died several years ago, left a will such that his fortune, which was several millions of dollars, would descend from generation to generation in his family. The plaintiff is of age now and claims his share of the fortune left him by his grandfather.

Smallpox in West.

Winnipeg, July 20.—Fifteen cases of smallpox has been developed at Eastcherary, Sask., and the seriousness of the outbreak is largely due to lax enforcement of quarantine by the officials. Six of the patients are members of the hotelkeeper's family. There is talk of quarantining the entire village.

Here's Just the Right Bowel Laxative

Gentle, Sure—Pleasant to Take—A Tried and True, Genuine, Nature's Remedy.

If you do not have free, easy and regular movements of the bowels you lack the prime and first essential of good health. There's more harm done than mere uncomfortableness, sluggishness and biliousness—retention of food wastes in the bowels pollutes, irritates and poisons. You make the alimentary system—the blood—a scavenger instead of a fountain of purest life and unlimited vitality. The life of constipation are not trifling but nearly always are fraught with vital significance. Seek your relief in PETENTET (said of Lax-ets) Be sure not to force and disorder the delicate organs of the stomach and bowels. Avoid all the danger of powerful and unknown medicines! Your safety and your health are always secured—if you take Lax-ets. The formula is on every box—show it to your family physician. Lax-ets are put up in flat metal cases in handy tablet form—one tablet taken before meals or on retiring always brings relief. Pleasing to take—the most potent yet gentle of all remedies—a genuine help of Nature's—a bowel laxative which cures constipation. Recommended and for sale by

5 Laxets Only 5

Old Coughs

New coughs are bad enough. Old coughs are worse, much worse. They always make one think of bronchitis, consumption. Ayer's Cherry Pectoral quickly cures new coughs. And it cures old ones, too. The next time you see your doctor, ask him why this medicine so promptly relieves coughs.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them to ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

AMALGAMATED MINING AND EXTRACTION COMPANY

1624 Curtis Street, Denver, Colo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group 25 miles distant. 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT

PETERBOROUGH, ONTARIO

ADVERTISING PAYS

Hearts Courageous

By... HALLIE ERMINIE RIVES

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

A strange fire had come into his face.

"I, Louis," he repeated solemnly, "take thee, Anne, to my wedded wife."

"To have and to hold from this day forward, for better, for worse, for richer, for poorer, in sickness and in health'"—

"To have and to hold from this day forward, for better, for worse, for richer, for poorer, in sickness and in health'"—

She was sobbing now so that she could scarcely frame the words:

"'To love and to cherish—till death us do'—Join, Louis! It cannot, it shall not, part us!"

"My own love!" he said in choked tones, and held her quivering against his breast.

"The time is up," said the voice.

Anne clasped Armand with her young arms—tightly, desperately, as if her warm, yielding body, her face fragrant with white fragrance, could keep back the death that looked from those muskets.

His hands disengaged her own to pin to his coat a yellow bauble he had taken from his pocket, and then, as she clung, her strained senses became conscious of a wheeling plunge of horsemen at the porch, hurried steps, a voice shaking with a strange vibration, asking questions in broken English.

At the sound Armand threw back his head and stood like a stone image.

There was a pause. Then—

"Louis Armand," said the sibilant, halting tongue, "I command you to open thees door! You will not, eh? You know who I am?"

The sideboard fell with a crash, the splintered door tumbled upon it, and Armand stood to attention in the blaze of lantern light. At a glance Anne knew the officer who stood in the doorway, surrounded by a glittering staff. He was the major general commanding the division.

"You surrendair, then? Good! An' where, Major Woodson, is the informair who has done such brilliant sairvice to denounce—eh? Come stan' beside me, M'sieu Jarrat, an' let us overwhelm theese villain!"

He advanced a step into the room, his bright eyes on the pair.

"Ha! An' you thenk I have never recognize you, Charles, all thees time—me who was your old brother in the College du Plessis? Me—Lafayette? Take off that wig! Take it off, I tell you!"

Mechanically, Armand put his hand to his head. He drew off the black peruke, and, all at once unpinned, his brown, curling hair fell to his shoulders, the ends just touching the yellow Cross of St. Louis which sparkled like a topaz on his breast. The act transformed him. The set mouth was gone, the face all softened to youthfulness.

"Louis Armand, the impostor, seized at Williamsburg!" shouted Jarrat. "Armand, who escaped the clutches of the congress! Armand, the traitor, gentlemen. Tear off his cross!"

One of the circle about Lafayette turned facing him with an oath, but the general was before him.

"No!" he cried. "No! Not Louis Armand the traitor, but Charles Louis Armand, colonel of Armand's legion and Marquis de la Trouerie!"

There was an instant of silence that turned a babel behind the speaker.

"A lie!" shouted Jarrat. "A lie! The Marquis de la Trouerie is dead!" Anne had risen, trembling, speechless, her eyes fixed and glittering.

"Aye," said Armand sternly, stretching his arm toward him. "He has

He advanced a step.

been dead these five years. But he did not die when you supposed. That was but a ploy necessary to deceive a dog who would not wish barking at his heels. He called himself a secretary, and you—you jackal—you thought to buy him, a Frenchman, to betray his master, his king and these colonies!"

Lafayette laughed like a child. "He belive him to be what you—thenk, gentlemen?—to be himself! A rare pleasantree, eh? And the congress, they threenk he trick them in seventeen-six. They would arres' him yet, when he is denounce'—even my General Hasen!"

Jarrat had fallen back, his face black, his fingers convulsively working, his teeth gritting one on another like pebbles in the head.

Armand's eyes were upon Anne, though he seemed to address all present:

"The marquis had a mission, and he found it to his purpose to—to become himself. He found many thorns in his way. But he found one rose—one rose so pure and fragrant that he wished to gather it. He found a lady—a lady of Virginia, who loved him and believed in him. The marquis was living then. He found himself in peril, and he trusted her. And at last—he thought she had betrayed him."

"Ah, my friend," cried Lafayette wistfully, "these long months seeing you, and I have never told you I knew you—never asked wherefore you hid yourself from all. Was I not a friend, Charles?"

"Then," Armand continued, "God forgive his unbelief! Then was when he died!"

A great lovely light had come to Anne's face and smiled from its rosebud lips—a light more lovely than the aurora over snows.

"Is it true?" she faltered, looking at him in a sort of unbelieving wonder. "Is it true? And will he live again?"

For answer he knelt down at her feet and put his lips to her hand. She felt tears upon it.

When they looked up they were alone in the room. From the yard came the rattle of bridle chains and the bustle of mounting. Lafayette met them on the threshold.

"I have search' all the place for a—what you call it? sidesaddle," he laughed, "an' there ees one at las'. Colonel, ma'amsaddle, you shall ride to town wit' me. We shall all be jus' like big children tonight! Ah, I have forget you did not know that only two, t'ree hour ago, Cornwallis has surrendair to the Americans!"

THE END.

An Offer to Dumoulin.

Kingston, July 29.—Rev. Frank Dumoulin, of St. Peter's church, son of the Bishop of Niagara, has been offered the rectorship of St. Georges, the salary reaching well up to $4,000. Should the position be accepted, Mr. Dumoulin would also be made dean of the diocese of Ontario.

Lothario and Murderer.

Winnipeg, July 29.—H. W. Todd, wanted on charge of murdering Gertrude Biron, last week, is believed to be in hiding on his brother's farm near Brandon. He left Winnipeg in company with a married woman and she has been located and is now under surveillance.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered minerals in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Department of Railways and Canals, Canada

WELLAND CANAL

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an [illegible] bushel capacity elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, July 6, 1906.

COBALT

—THE—

WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lownds & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITOR—Clark McInerson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drumond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

GALENA

Right now is the time to place your money where it will earn you a competency.

Beware of Mercury

You May Be Using This Harmful Drug and Not Know it.

A favorite method of administering this deleterious drug is in cathartic pills. Beware of "quick-result" articles, they may do more harm than good.

Drastic cathartics will weaken the strongest. With old people they are a positive menace to life.

Merely to restore normal bowel action and gently stimulate the liver is all that the wise physician recommends.

To keep the system pure and clean, nothing is so effacious as the vegetable pills of Dr. Hamilton, which are composed of such herbs as mandrake, butternut and dandelion; they contain not an atom of any substance that could injure even an infant.

By their certain action on the Liver Dr. Hamilton's Pills cause bile to be secreted which forms the stimulus that moves the bowels: this is nature's own method and the best one.

Mr. R. Hamly, of French River, Ont., writes as follows: "I was inclined to bilious attacks and frequently was too ill to work. Most remedies purged and weakened my bowels, but Dr. Hamilton's Pills gently stimulated my liver, and by strengthening the stomach made a perfect cure. My health has been just splendid since I used Dr. Hamilton's Pills.

Get Dr. Hamilton's Pills from your druggist or storekeeper, 25c. per box or five boxes for $1.00. By mail from N. C. Polman & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

A Times Ad. That Paid

As an indication of the benefit of having matters of interest noticed in The Times it might be noted that The Times of Friday mentioned that a child's jacket had been left in Mr. A Rountree's George street grocery store. By ten o'clock Saturday morning a reader of The Times called for the jacket.

Found.

Yesterday a lady's brooch. Any one identifying the same and paying for this ad. can get the brooch at The Times office.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

Auburn Mills Annual Outing.

On Saturday, August 11th, the Auburn Woollen Mills employes will hold their annual excursion to Orillia, one of the most pleasant summer resorts on the inland waters. It is expected there will be a large attendance. A special train has been chartered for the occasion.

Auto-bus Runs Into Pavement.

About midnight on the new auto-bus was coming down Water street, in some way an error in steering was made and the murderous machine ran into the pavement. Fortunately, the bus was, as usual in the city, running at low speed and little damage was done. No one was hurt in the least.

WOMAN COOK WANTED.

First Class Cook for Hotel at the Soo, Ont. Big money. Apply to GEO. J. CHALMERS, Water Street.

A Public Swimming Place.

Contractor James Bogue, a director in the Carters' Rink, Charlotte street, is now advocating having this building converted into a public swimming place during the summer months. This city certainly is in crying need of some place for boys and girls to bathe. The river is somewhat dangerous and objection is often raised against public bathing. Mr. Bogue's idea is to excavate the central portion of the rink and put in a large concrete tank. This is a good opportunity for some of our wealthy citizens to come forward and confer a benefit on the city wherein their wealth has been made.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students should make application as soon as possible. Call at the College or address

WM. PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Fire, Water & Light Committee of the City Council meets tonight.

—Children's two and three piece garden tools on sale at 10c. and 25c. Times Bookstore.

—The Barnum & Bailey circus that shows here on August 9th, has an entirely new and attractive lot of posters out.

—The annual picnic of St. Luke's Sunday school will be held on Thursday, July 26, per steamer Monarch to Rice Lake.

—Rev. Dr. Chambers yesterday afternoon addressed the Y.M.C.A. Men's meeting taking as his subject "Two men in three States."

—The excursion and picnic of the Cobourg Methodist Sunday school will take place on Wednesday, August 1st, to Mount Julian, Stony Lake.

—Mr. Jas. Craighead has sold his residence in Old Havelock to Mr. Sam Munro, of Belmont, who will move to that village some time this summer.

—Mr. A. C. Dunlop has purchased a little gasoline launch and is making trial trips at the bridge with the craft this week.—Havelock Standard.

—Peterborough business men are now agitating for the publication of the assessment list. It makes for fairness and equity, and should be done everywhere.—Belleville Intelligencer.

—The annual convention of the Roman Catholic Total Abstinence Union of American will be held at Providence, R.I., during August. Rev. Dr. O'Brien will represent St. Peter's T.A.S. at the gathering.

—Good progress is being made on the addition to the C.P.R. station, which will be used by the Dominion Express Company. The brick work is completed and the roof has been placed on the structure. The interior is now being finished.

—A car load of Peterborough Sand Stone Brick arrived in town yesterday. It is to be used in the new addition to Dr. Turner's fine block. The above is a beautiful and very substantial brick, and will stand more strain than any other kind.—Millbrook Mirror.

Mayor Dossee of Campbellford, has set apart Wednesday, August 22 as civic holiday. Arrangements are under way for two excursions, one to Madoc under the auspices of the Sons of Scotland, the other by the Methodist Sunday School to Mohawk Park, Foresters' Island and Picton.—Herald.

—A prominent member of the Methodist church called at this office on Monday to complain of those parties who take hymn books, fans, etc. from seats and fail to return them. This is a practice that is prevalent in nearly all churches and one that should not exist. Return the books.—Havelock Standard.

—The Peterborough Light and Power Co., on Saturday, issued a pay envelope for 15 cents. This is a record in pay envelopes for this city. The envelope in question, No. 125, was given to a man who worked one hour and got "that tired feeling." Within seven minutes after getting this envelope the recipient blew it in liquid refreshments.

Late Mr. John Egan Was Laid to Rest

Yesterday afternoon the last mortal remains of the late Mr. Thos Egan of Brock street were given interment in the Roman Catholic cemetery.

The late Mr. Egan was well and favorably known in Otonabee where he resided until some a year ago when, having sold his farm, he moved to the city. He was born in Ireland and came to this country an infant. His parents located in Otonabee.

The late Mr. Egan is survived by his wife, Bridget Ann Moloney, sister of Mr. John Moloney, clerk of the county court; two sisters, Mrs. Wm. Redmond, Cavan, and Miss Egan at home, and a brother, John in the United States.

Social Gathering at St. John's.

Yesterday morning during the service in St. John's church, Rev Canon Davidson the rector gave a general invitation to men of the congregation to attend a tea given the same evening at 5 p.m. A large number gathered in the Sunday school in response to this welcome invitation. A very pleasant hour was spent, with refreshments and social converse. This form of church gathering has a tendency to create a closer bond of knowledge and sympathy between members of the congregation.

Prominent Toronto Oddfellow Here.

Mr. W. S. Johnston, of Toronto, editor of the Dominion Oddfellow, and Deputy Grand Master of the I.O. O.F., accompanied by Mr. John A. Macdonald, Toronto, arrived in the city on Saturday to confer with the members of the local committee in reference to the arrangements made for the Grand Lodge meeting here next month.

English Sign Writer Arrives.

Mr. G. E. Chandler of London, England, an expert sign writer, for whom as noted in a former issue of The Times, Messrs. J. J. Turner & Sons, cabled for some two weeks ago arrived in the city on Saturday, and has taken a position with Messrs. Turner.

SOCIAL AND PERSONAL

—Mr A. M. Simmons leaves this morning for Winnipeg.

—Mr. M. Jamieson is spending a few days in Port Hope.

—Miss Jones, of Chicago, is the guest of Mrs. A. M. Simmons.

—Mr. Fred Roy left on Saturday to spend his holidays at Portland.

—Mr. and Mrs. John Nugent were down from the lakes on Saturday.

—Mr. J. A. Aylmer, of Gamebridge, was in the city Saturday.

—Mr. and Mrs. Nelson Cronin, Port Perry, are in the city visiting friends.

—Miss Helen Davies spent last week in Norwood, the guest of her friend, Miss Sherry.

—Messrs. T. E. Kidd, and H. D. West of Greenville, Pa., are guests at the National.

—Mr. R. E. Harding and Mr. Geo. K. Martin are spending a few days at Stony Lake.

—Mr. F. C. Cubby, who has been spending a few days in Bowmanville, has returned to the city.

—Mrs. Chas. Moore, Hunter street, East Ward, passed away yesterday afternoon at her residence.

—Mr. Harry Cressman leaves on Thursday for a trip to the Northwest and the Pacific Coast.

—Miss R. B. Doolittle, of Speith, Ont. is the guest of her uncle, Rev. F. J. Scott, 518 Aylmer street.

—Miss Hazel Portland left Saturday for Stony Lake, to spend a week as the guest of Miss Maysie Armstrong.

—Mrs. Mary A. Newton, of Brandon, Man., arrived in the city Saturday, and is the guest of her brother, Dr. Scott.

—Mrs. Zavitz, wife of Prof. Zavitz, of the Ontario Agricultural College, Guelph, is the guest of Mrs. Major, at "All Saints' rectory.

—Mr. Charles H. J. Mitchell of The Times, with Mrs. Mitchell and their family left on Saturday for a week's sojourn at Clemons Park Hotel.

—Rev. J. G. Lewis and wife have leased a cottage down the river, near Bethel church, and will take up their abode there this week.

—Mr. E. R. Tovey, of Peterborough, is in town, visiting his brother, Mr. J. A. Tovey, manager of the City Pharmacy.—Cobourg Sentinel-Star.

—Mr. George Warham and wife of Belleville, are in the city on a visit. Mr. Warham is the foreman of the Intelligencer job department in the City of the Bay.

—Mr. Dickson Jewett, formerly of the Snowden House staff, but now proprietor of the Bennett House, Of Cannington, Ont., was in the city on Saturday, with a view to possible purchase of the bar fittings of a hotel recently cut off.

—Mr. Charles Chase the well known Rochester, N.Y., nurseryman, was in the city on Saturday a guest at the Snowden House. Mr. Chase has been spending three weeks at Young's Point and Burleigh Falls. Mr. Chase had great luck with the fish and thinks that Peterborough summer resorts are "it."

Steamer Monarch Was Burglarized

As the fine steamer Monarch, which reached this city on Saturday morning with a large number of tourists from Rice Lake and intervening points, thieves broke in and stole.

As the Monarch lay at the Wolfe street dock some party or parties entered the purser's cabin, whilst the officers were up town and rifled the contents of his safe. The thief found and stole some $45 in cash and a number of stock certificates in the Big Dipper mine. These certificates which are payable to bearer are a negotiable lot of papers amounting to a considerable sum.

Up to last night the police who have of course been making diligent investigations had not yet got any clew as to the thief. As the stock certificates are numbered the thief will hardly attempt to dispose of them in this district.

The complaint was made to the chief as soon as the theft was discovered, by Mate McAllister of the Monarch.

Local Merchant Passes Away

Death of Mr. Cyrille Wilhelmy at St. Joseph's Hospital.

On Sunday morning, at two o'clock, one of Peterborough's progressive merchants, in the person of Mr. Cyrille Wilhelmy, passed away in St. Joseph's hospital. The late Mr. Wilhelmy conducted an extensive plumbing, electrical and tin ware establishment at 452 George street.

Mr. Wilhelmy, who had not been well for some days previously, was taken to St. Joseph's hospital on Friday last. The immediate cause of his death yesterday morning, was heart failure.

Mr. Wilhelmy who was predeceased by his wife, has two children living in Montreal. The remains left by the midnight last night for Montreal for interment. Mr. Wilhelmy's many friends in the city will learn of his death with sincere regret.

Malodorous East Ward Creek

That moribund creek that used to supply McAllister's mill with water should be either filled in or flushed. A Times man passing over it on Saturday, wrapt in thought and not watching the surrounding scenery, had his nasal faculties assailed by an odor that would make an unsanitary glue factory blush with shame at its own impotence.

The bed of this creek is now covered by a few inches of black looking, evil smelling, spawn covered fluid presumably water, but which presents every sign, token and particularly smell, of being a wholesale culture wherein to raise colonies of every class of bacteria, but those desired.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of that link to bind married life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

Good Work On the New School

The Building Committee of the Board of Education are certainly keeping faith with the people in the matter of pushing our new south ward school ahead.

Contractor Jas Bogue, who was somewhat handicapped by wet weather, is pushing the masonry along.

The solid concrete foundation is completed and half of the brick walls dividing the cellar completed to the top of the concrete work. The Masonic have started on the Longford stone work. The material is nearly all on the ground and ready to be placed in position.

The material used in this building is concrete walls for the foundation, Taylor's concrete bricks for the inside walls, and Curtis' red brick for the outside walls, whole Longford stone will be used from the ground level up to the brick work.

Now is The Time

Chance for Profit Offered Times' Readers—Let No One Fail to Benefit.

Imperfect cooking and hurried eating result in Indigestion. At first the stomach and digestive organs are strong enough to accommodate themselves to all manner of ill treatment, but the time soon comes, when the walls of the stomach are inflamed, and the gastric juices are not secreted in sufficient quantities to digest the food, so that it is passed through the system imperfectly digested, giving but little nutrition and strength.

If one can only recognize the symptoms of indigestion in the early stages, he is then in position to protect himself by proper attention. "He is twice armed who is forewarned."

Now is the time to be benefitted. Just as soon as you find that your food can be tasted after eating, when the abdomen swells or bloats, when the tongue is furred, the breath heavy, the appetite poor, the head dull and aching occasionally, then is the time for treatment with Mi-o-na. It costs but 50c. a box.

This reliable remedy is a perfect restorer and strengthener of the whole digestive system. It restores lost functions to the stomach, strengthens the nervous system, and enables one to eat what he likes without fear of distress or trouble.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, postpaid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The T. T. Booth Company, Ithaca, N. Y.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Canadian General Lamps Chosen

Fire, Water and Light Committee Discuss Whether to Have Open or Closed Lamps for Local Street Lighting.

Last night Mr. R. L. Aitkin, the electrical expert of Toronto, was heard regarding the matter of street lighting, when the Fire, Water and Light Committee met in session. There present at the meeting were as follows; Ald. Adams, in the chair, Aldermen Mason, Duncan, Elliott and Mayor Best.

The matter of street lighting was first taken up.

City Engineer T. A. Hays reported that the south street bridge will be open for business at noon today. The work was carried out by Mr. J. G. Donaldson, under the direction of the city engineer. This prompt renewa of traffic over the south street bridge will be greatly appreciated by the public of both county and city. The delay was occasioned by an unusual item of logs on the river this year.

The chairman of the Fire, Water & Light Committee decided that Mr. Aitkin's report should not be published until the Board of Works considered it tonight.

Mr. Heathcote of Belcher & Heathcote, was present and said that Mr. Larmouth, was waiting to see which lamp would be decided on for street lighting. Mr. Larmouth, he said, could not give a thorough service until it was decided which company's lamp should be chosen. This involved using either a closed or an open lamps. Mayor Best said, as did Ald. Hicks, that, all things being even, the local company, the C.G.E. Co., should have the preference.

It was moved by Ald Mason that the committee approve of the alternative of using the Canadian General Electric lamps be recommended for the present. All lamps to be placed upon the arrocs, and in such a manner as the committee shall appoint. It was further decided that this matter shall be decided by some person appointed by the committee of the council.

Ald Hicks moved, by Mr. Aikin's report, that wires through the city are now running through trees, thus rendering them dangerous. This subject was left over until tonight's meeting. The matter of putting arcs over trees for shading purposes, was considered. It was thought, whilst no motion was carried, that instead of making the compulsory increase the height of their poles, trees could be trimmed as required.

It was moved in respect to the 25 fire alarm boxes, and 12 in the firemen's houses, and for an electric striker on the public fire bell as presently, that the chairman be authorized to advertize for tenders for this work. The only parties submitting propositions so far have been two, viz, the Gamewell and Anderson systems.

The matter of two hydrants proposed to be placed to the south of the new carpet factory was discussed. Mayor Best noted that a new street was to be opened towards this factory and that hydrants could be placed on pipes run down this street. It was decided to leave this matter with the chairman of the committee and the water works superintendent.

The matter of water and use in the hydrants in front of the police station was taken up. Mr. Rehill tendered at $20 per month, and this was accepted on the lines of $10 each, as Messrs. Rehill and Allin companies.

Percy Elliott is Getting Better

Serious Results From a Scratch by a Rusty Nail.

The many friends in this city and county of Mr. Ed. M. Elliott, county clerk and treasurer, will rejoice to learn that his little boy Percy is recovering from his recent illness.

It might be noted that last Friday night as Percy, a boy of only 10 or 11 years of age, was playing on a high fence near Mr. Elliott's residence, the little fellow, in some way, whilst scrambling off the fence, had the misfortune to have his right eye-brow torn by a protruding and rusty nail.

At first nothing was thought of this seemingly slight injury. That night, however, a serious swelling developed, and by midnight a lump over the eye, as big as a hen's egg developed. By Saturday morning the lad's temperature had risen considerably, medical assistance in the meantime had been called in.

By Sunday the poor child's temperature had risen to 102 5-8, thus showing the serious complications had set in. Still further medical advice was summoned. It was at first feared that erysipelas had set in.

Fortunately, as many of Mr. Elliott's friends will be gratified to learn, the suspected blood-poisoning has become under control, the boy's temperature last night being normal. Many telephone messages of enquiry were received by Mr. Elliott yesterday afternoon.

Feline Suckling Rat.

Toronto, July 24.—A peculiar instance of the lion and the lamb lying down together is being demonstrated at Michie & Co's, on King street, only the participants in the freakish action are a mother cat and a baby rat. The latter was given to the cat, who was nursing five kittens, to make a juicy meal. But instead of devouring it with supreme relish the cat has placed the rat alongside the kittens and is now suckling it. On three or four different occasions the mother has moved her young, taking special care to move the rat along with her babies.

Sad Death in the East Ward

Lamented Passing Away of Mrs. C. H. Moore of 142 Hunter Street E.

It was with profound regret that her many friends and acquaintances heard on Monday night, as noted with regret in yesterday's issue of The Times, of the lamented death of Mrs. C. H. Moore of 142 Hunter St.

Mr. C. H. Moore, husband of the deceased, arrived home on Saturday from the west.

The late Mrs. Moore, who was a life-long resident of Peterborough, was well known in the city, and the news of her death came as a great shock to a large section of the community.

The deceased and Mr. Moore were married on November 23rd, 1893. She was taken ill about a week ago with pericnitis. She leaves to mourn her loss her husband and four children—one son and three daughters—Melville, of W. A. Sanderson & Co., and Misses Eva, Jennie and Lillian, at home. Her parents, Mr. and Mrs. John Craig, also survive her.

The funeral will take place this afternoon at three o'clock, from the family residence to the Little Lake cemetery for interment.

Women with weak eyes should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, it is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Round Mountain Gold Mining Co.

One of the Best Propositions Ever Offered to Public.

The Manhattan Round Mountain Gold Mining Company, whose advertisement appears elsewhere in today's issue, was organized to take over the four claims known as the Golden Wonder group. This property is situated between the recent big strike on the famous Davis and Loftus mine and the old Jefferson mine. Two well-defined ledges can be traced on the surface for the entire length of the claims. Considerable surface prospecting has been done, with such satisfactory results that the owners have formed a strong company to develop the properties thoroughly. The corporation has been organized under the laws of Arizona, with a capitalization of 1,000,000 shares of a par value of $1 each, fully paid and non-assessable, and 400,000 shares have been placed in the treasury for development purposes. The board of directors has decided to dispose of 100,000 shares, which will be placed on the market at 15 cents a share, the proceeds to be used for the immediate development of the property.

The personnel of this company is a guarantee that its affairs will be well managed. The incorporators are all well-known and successful bankers and mining men of south-western Nevada. The officers and directors are as follows: J. P. Marshall, president, cashier of the Nye and Ormsby County Bank, and cashier of the L. M. Sullivan Trust Company of Goldfield; W. G. Hunter, vice president, member of the W. G. Hunter Brokerage Company of Goldfield; C. A. Bennett, secretary, mine owner and secretary of the Manhattan Baxter Mining and Milling Company; J. L. Lindsay, treasurer, cashier of the State Bank and Trust Company at Goldfield; Alex. Piper, M. E., general manager, director of the Manhattan Baxter Mining and Milling Company.

The W. G Hunter Brokerage Company of Goldfield has been made fiscal agent for the company, and all orders for stock should be addressed to it. The general office will be in Goldfield, but a branch office will be opened at Round Mountain at an early date. The company has already established branch offices in New York, Pittsburg, Louisville and San Francisco.

J. P. Marshall, the president of the company, is one of the leading bankers of Goldfield and is also identified with many of the big companies in south-western Nevada. J. L. Lindsay, treasurer of the company, has extensive mining interests in many of the new camps. The officers of the company have unbounded faith in their property and firmly believe they have the making of a big mine.

Full Arrangements for I.O.O.F. Meet

As noted in yesterday's issue of The Times Mr. W. S. Johnston, of Toronto, deputy grand master of the Grand Lodge, I.O.O.F., and publisher of the Dominion Oddfellow, was in the city on Saturday, accompanied by Mr. John A. Macdonald.

As a result of their conference with Col. Miller, chairman of the local committee, and others in reference to final arrangements for the Grand Lodge session here, Toronto Canton, Patriarchs Militant, will arrive on Tuesday, August 7th, and on that evening will confer the degree of Chivalry on a lady Rebekah. This ceremony will take place in the market hall and may be witnessed by the public. A small admission fee charged to cover expenses. After the ceremony the Oriental degree will be conferred upon several Rising Oddfellows who may not have learned the mysteries of this degree.

On the same day the Daughters of Rebekah will meet in the I.O.O.F. hall for the receiving of report of election of officers, etc., while the session of the Grand Encampment will be held at the court house on the same day. The Grand Lodge will open there on Wednesday morning, August 8th, at nine o'clock, and the visiting delegates will be welcomed by the mayor and members of his city council. During the morning the lady Rebekahs will be taken for a trip over the lift lock on the steamer Water Lily, and in the afternoon the boat will make trips over the lock for the convenience and pleasure of the Grand Lodge delegates.

On Wednesday night, August 7th, there will be a grand I.O.O.F. parade, starting from Central Park at 7.30 o'clock in the evening, and marching through the principal streets. There will be several bands in the procession, and about 1,200 Oddfellows will be in line.

The Grand Lodge will conclude its sessions on Thursday evening, August 9th. On Wednesday there will be a big excursion to Peterborough from Burrs and other points, and on Thursday a large contingent will come in from Orillia.

Lumber Men Raise Prices.

Calgary, July 24.—Calgary citizens are indignant at the action of the British Columbia lumber and shingle manufacturers in raising prices immoderately. Shingles now cost $1.60 a thousand, as against $2.25 last year. Lumber now costs $30 that last year sold for $11.50. The manufacturers profit is about 90 per cent.

CHINA AWAKE TO OWN IMPORTANCE

Sir Ernest Satow Says She Has Been Fired by Japanese Example

WANT TO DO BUSINESS

Sending Art Commission to Study Foreign Methods to Improve Affairs at Home.

Tokio, July 24.—Sir Ernest Satow, interviewed here in the Orient upon "The Awakening of China," said recently: "There is no doubt that the Chinese have been fired by the example set them by Japan. Their young men have also seen that the Japanese do not permit the foreigner to exploit their country by means of mines and railways, and naturally they have asked the reason why China cannot do likewise and construct railways and mine materials on and for her own account. Well, we all know something about the impetuosity of youth, and the Chinese are no exception to that rule, or failing. The young and impressionable Chinaman, when he has acquired a little knowledge, is apt to regard himself as a heaven-born statesman, the same as any other youth of any other nationality. But, despite the weird and wonderful reports that they send home at any and every opportunity, they have achieved a considerable measure of success in drawing the attention of their elders to the possibilities of the Empire and State, with the result that the commission now travelling round the world, and at present in Europe, has been appointed for the purpose of inquiring into the various forms of government existing, and to draw up a scheme containing the best principles of all."

Another man of prominence who has just been interviewed upon the situation is Baron Goto, Governor-General of the Island of Formosa, acquired from China during the recent war. He has had wide experience and unusual opportunities of studying the Chinese character. His Excellency did not think, as the result of his experience and observation, that the Chinese would make good soldiers under native officers. "To be of any use," he added, "they must be led."

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

Good Work on Simcoe St. Sewer

Mr. R. Sheehy is Pushing His New Contract in Record Time.

Yesterday Mr. Rich. Sheehy, the local contractor, to whom was recently awarded some 17 sections of newly let sewer contracts, showed his ability to handle so large a job.

Mr. Sheehy, yesterday morning, had a large gang of men on the Simcoe street sewer, just south of Water street. They excavated from about the location of the gas works, to half way across Water street.

This morning, by ten o'clock, Mr. Sheehy's gang will begin laying the huge 9-inch sewer pipes, and expects to have the street repaved and ready for traffic by tomorrow night. Mr. Martin Neary is foreman on the job and is seeing that the street will be ready for regular use as quickly as possible.

Mr. Sheehy has also got a gang to work on another section of his contract.

Traction Engine Was Stranded

A new traction engine arrived per G.T.R. yesterday for Conway Bros., Emmamore. As the engine going south along Charlotte street, drawing a water and fuel supply cart, got in front of the Snowdon House, some one told the engineer that the creek bridge was not safe in the center. The driver at once steered the engine to the south side of the street and got her stuck in the loose mud and gravel at the pavement's edge. Here the engine was hemmed for some time. Street Commissioner Harry Evans happened along, and advised the driver that the central portion of the bridge was perfectly safe. So the outfit got to George street all right and proceeded on their way to Emmamore.

Big Lumber Company.

Ottawa, July 24.—Charles E. Read, W. G White, Geo. H. Perley, F. W. Avery and Wm. Anderson, of Ottawa, and R. M. Cox, Liverpool, England, have been incorporated as the Read Timber and Lumber Co., Limited, with a total capital of one million dollars and headquarters at Ottawa.

Who is Responsible?

(To the Editor of The Times.)

Sir:—I have noticed, during the last few days, accounts of the difficulty of navigating on the river below the city, on account of the vast quantity of logs, ties, boom timbers, etc., that has been allowed to pass over the locks dam in a very short space of time, almost completely blocking up the navigable channel (contrary to law, order or decency). Are not those in charge of this drive bound to keep the channel for boats open and clear? Instead of that, they get the logs over the dam and then follow them down the river with a sweep boom, taking everything in sight before them in almost a solid block, not making any attempt to do anything to help to relieve the boats in passage causing hours of delay and keeping excursionists out to all hours of the night. The blame for this state of affairs rests somewhere. Why do not some of our efficient officers look after the interests of the people? We believe they would, were it on the eve of an election. We think some of those in authority might take a trip down this beautiful stream, when the whole river is blocked from end to end. It would be, at least, a change for them (and it is said that a change is as good as a rest), and, no doubt, those well-paid officers are tired, very tired, owing to their heavy and onerous duties, which no doubt press very heavily upon them.

Yours,
NAVIGATOR.

Peterborough, July 24, 1906.

Upset by Storm At Chemong Lake

Rescue Crews from the Park Were Kept Busy Saving Lives.

The great storm of Sunday afternoon was nearly the cause of at least two catastrophes at Chemong Lake. Shortly before the hail and rain storm that caused such devastation in this part of the country, passed over Chemong Lake a young lady of this city, accompanied by a gentleman friend went out in a sailing boat to enjoy an hour or so on this beautiful sheet of water. When the storm came over the lake, her "bon camarade" tried to run the boat up into the eye of the wind, but not quickly enough. The dingy acted on by the press of sail turned turtle and the pair were thrown into the wet embrace of the lake.

The furious wind and consequent waves quickly drove the over-turned dinghy away from the heretofore anchors. Fortunately the campers and hotel visitors in Chemong Park quickly went to their assistance, and fortunately arrived on the scene in time to save them both.

This is a direct lesson on the necessity of every girl learning to swim. Had not the young woman, in this upset dinghy been an expert swimmer grave would have hung yesterday on at least one residence in this city.

A somewhat laughable result of the storm was that occasioned by a bathing trip taken by two local contractors and a local blacksmith. The two were out in a sailing boat belonging to one of the contractors. The party were on the Emmamore shore enjoying the scenery, ozone, and other things in glass. When they heard the fun approaching storm, ripping over the country, tearing down trees, crops and farmer's profits for this season, one of them, by name Tom, with a quick, "Hey Presto" action got the sail down in 11 3-4 seconds. A large number of Chemong Park residents had also been watching this trio. When the sail went down, several skiffs and canoes, owing to the waves concealing the skiff when her sail was down, hustled to the assistance of the three. When the first of the rescuing crew arrived they found the trio trying to light a match that subsequently their cigars. The life boat crews used language not adjured to the type of the g.f.j.

A Long Fall In The Alps

Terrible Death of a Swiss Cyclist in the Darkness of Death.

Geneva, July 24.—A terrible accident occurred at the Gorge of Aya, a favorite excursion rendezvous, near Sarnen, in the Canton of Obwold.

A Swiss, named Rothlin, delayed his return journey to Sarnen from the Melchtal Valley, which he had been visiting on his bicycle, and was overtaken by the night. In the darkness he lost his way, and rode out on the road which leads to the gorge and ends abruptly at a precipice nearly 2,000 feet in depth.

Rothlin, who must have been going a good pace, crashed through the wooden barrier at the end of the road and was flung with the machine into space.

Next morning the body, which was unrecognizable, was recovered from the gorge. The victim leaves a widow and large family.

KILLS CATARRHAL GERMS

Breathe Hyomei a Few Times Daily and be Cured—Goes Right to the Spot.

In treating catarrhal troubles, the first thing necessary is to kill all catarrhal germs that may be present in the nose, throat and lungs, thus freeing the system from the poison they produce.

Stomach dosing cannot kill these germs. A direct local treatment is absolutely necessary, and for this purpose nothing else equals Hyomei.

Its base is the famous eucalyptus oil. This is combined with other healing, aromatic gums and balsams, making a germ-killing, health-giving treatment for catarrh, entirely unlike anything else known. When using Hyomei the air you breathe is like that on the mountains, high above sea level, where the pine forests fill the air with fragrant and healing balsams that give health and strength to those suffering from diseases of the respiratory organs.

Breathed through the neat pocket inhaler that comes with every outfit, Hyomei reaches every tissue of nose, throat and lungs giving immediate relief, and effecting a permanent cure in the worst cases of catarrh.

The complete outfit consisting of an inhaler, medicine dropper, and one bottle of Hyomei, costs only $1. Extra bottles can be obtained for 50 cents.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

Russian Delegates Forced to Withdraw

Remarkable Scene at Interparliamentary Congress in London When Members of Duma Promised to Keep up Fight for Liberty.

London, July 24.—The fourteenth conference of the Inter-Parliamentary Union was opened in the Royal Gallery of the palace of Westminster. Adherents of international peace from all the parliaments of Europe as well as several of those of the Western hemisphere were present, scarcely had the conference opened when, amidst a scene of considerable excitement, Prof. Maxim Kovalevsky, a member of the lower house of the Russian parliament, announced that he and his colleagues, representing, until yesterday the youngest parliament in the world, would be obliged to withdraw in consequence of the dissolution of the body they were officially appointed to represent.

There were about five hundred delegates present.

Lord Weardale opened the congress, his preliminary sentences of welcome being specially addressed to the Russian representatives, whereupon the delegates rose in a body and turning toward the delegation of the Russian parliament, cheered them to the echo.

Lord Weardale also incidentally mentioned President Roosevelt having been associated with them in the work of peace.

"LONG LIVE THE DUMA!"

Premier Campbell-Bannerman, in reply, reminded his hearers that King Edward had always been a great lover of peace. The government, he added, was in entire sympathy with the object of the conference.

He especially greeted the members of the Russian parliament present, and also paid a tribute to Emperor Nicholas, who had done so much towards the enhancement of ideas of peace. It could be safely asserted, he thought, that the Russian parliament although dissolved, was sure to again come into existence. Then the premier, in a sudden excess of enthusiasm, shouted:

"La Duma est morte. Vive la Duma!" (The Russian Parliament is dead. Long live the Russian Parliament!)

Again the delegates rose to their feet and a storm of cheering continued for a couple of minutes. Count Appolyi, the Hungarian Minister, followed, characterizing the premiership as a "direct message from King Edward, the latter announcing on his own initiative his complete adhesion to the work of the conference."

On his suggestion a telegram was sent to King Edward as follows.

"The Interparliamentary Conference received the King's adhesion with profound gratitude. May he long be spared to promote the cause of international peace and the welfare of his people."

RUSSIAN DELEGATE CHEERED.

Then came a dramatic moment. Professor Kovalevsky rose, but some minutes elapsed before he could gain a hearing, so prolonged was the cheering. Finally, in a voice somewhat broken with emotion, he announced the necessity for the withdrawal of the members of the Russian Parliament. He said:

"We came here on behalf of the Russian nation to partake in the great work of the conference. The Russian people desire peace. The mission of the Russian Parliament was to snatch a great people from a regime of violence and substitute for it a sense of reality, liberty, and justice. We hoped to take an active part in your work, but our mission comes to a sudden end, as our parliament having been dissolved we are no longer official representatives. Our sympathy remains. We return home with the determination to continue the great struggle for freedom, liberty, and justice.

The announcement of the withdrawal of the Russian delegates was met with a storm of protests and shouts of "No!" "No!" and attempts on every side to induce the Russians to remain, but they insisted that they must at once return to the "battlefield." They then left the hall.

TROOPS ARE LOYAL.

London, July 24.—From the despatches of several correspondents at St. Petersburg, evidently postulating the loyalty of the troops, the Government will hold the capital in awe with little difficulty. The city is crowded with troops of all arms, so disposed that, although they are not displayed, they can be called to act anywhere at a moment's notice. Infantry pickets are posted at the embassies as a matter of precaution, but there is no sign of any feeling against foreigners.

Notwithstanding rumors of military disaffection, including one to the effect that two regiments in the capital refused duty, there is no convincing evidence of disloyalty. On the contrary, it seems that the efforts to placate the troops are having the intended effect.

Sage's Money May All go to His Widow

Often Observed That She Would Be Capable of Handling His Property.

New York, July 24.—The funeral of Russell Sage, who died at his summer home in Lawrence, L.I., on Sunday afternoon, will be held in The First Presbyterian church, Far Rockaway, of which Rev. Robert G. Leitch is pastor, this afternoon at four o'clock. The burial will be in Oakwood cemetery, Troy.

The following have been selected as pallbearers at the funeral: William P. Dixon of Cedarhurst, Elbert A. Hrincker of Far Rockaway, G. C. Rand of Lawrence, Newbold T. Lawrence of Lawrence, Abbot J. Newton of Far Rockaway, John L. Lawrence of Lawrence, Franklin B. Lord of Lawrence, and Dr. J. Carl Schmuck.

Dr. J. Carl Schmuck, the royal physician attending Mr. Sage, said last night that, going by what he heard from Mr. Sage on various occasions, he felt positive that Mr. Sage had left everything in his wife's control.

"I am practically sure of it," said Dr. Schmuck. "Although Mrs. Sage is seventy-six years old, she is wonderfully well preserved mentally and physically. Mr. Sage had often commented on this fact, and said that she would be quite capable of handling his property when he had gone."

Dr. Schmuck said that Mr. Sage had been very feeble mentally for several months.

There is probably no person in the financial world who was better acquainted with Mr. Sage than Henry Clews. The latter said last night: "Mr. Sage was undoubtedly the wealthiest man on the Street. His fortune can be conservatively estimated at from $75,000,000 to $100,000,000. As to disposition of his wealth, I have no idea what provisions Mr. Sage made. I have no doubt, however, that there will be some charitable bequests. Mr. Sage was not a hoarding man, nor was he a miser. Like other wealthy men who have been taught the value of economy, Mr. Sage began by saving the pennies, and the policy had become a part of his nature."

Financial disturbances which might possibly follow the removal from life of so important a factor in the great affairs of business have long been discounted, and every contract Mr. Sage had made in the lending of money in the last two years has, it is said, contained a clause stipulating that in the event of his death no payment of money lent should then be demanded on that account. For his death, as in his life, Russell Sage provided against every contingency which might injuriously affect the enterprises in which he was so active for a life time extraordinary in its length.

—P.C. Newhall was certainly on active duty last night. He captured four prisoners on various offences. This is going some!

A Long Fall In The Alps

Terrible Death of a Swiss Cyclist in the Darkness of Death.

Geneva, July 24.—A terrible accident occurred at the Gorge of Aya, a favorite excursion rendezvous, near Sarnen, in the Canton of Obwold.

A Swiss, named Rothlin, delayed his return journey to Sarnen from the Melchtal Valley, which he had been visiting on his bicycle, and was overtaken by the night. In the darkness he lost his way, and rode out on the road which leads to the gorge and ends abruptly at a precipice nearly 2,000 feet in depth.

Rothlin, who must have been going a good pace, crashed through the wooden barrier at the end of the road and was flung with the machine into space.

Next morning the body, which was unrecognizable, was recovered from the gorge. The victim leaves a widow and large family.

KILLS CATARRHAL GERMS

Breathe Hyomei a Few Times Daily and be Cured—Goes Right to the Spot.

In treating catarrhal troubles, the first thing necessary is to kill all catarrhal germs that may be present in the nose, throat and lungs, thus freeing the system from the poison they produce.

Stomach dosing cannot kill these germs. A direct local treatment is absolutely necessary, and for this purpose nothing else equals Hyomei.

Its base is the famous eucalyptus oil. This is combined with other healing, aromatic gums and balsams, making a germ-killing, health-giving treatment for catarrh, entirely unlike anything else known. When using Hyomei the air you breathe is like that on the mountains, high above sea level, where the pine forests fill the air with fragrant and healing balsams that give health and strength to those suffering from diseases of the respiratory organs.

Breathed through the neat pocket inhaler that comes with every outfit, Hyomei reaches every tissue of nose, throat and lungs giving immediate relief, and effecting a permanent cure in the worst cases of catarrh.

The complete outfit consisting of an inhaler, medicine dropper, and one bottle of Hyomei, costs only $1. Extra bottles can be obtained for 50 cents.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

POLICE NEWS

Daily Happenings in Court Room and Station.

Last night P. C. Newall demonstrated in good faith that whilst a new member of the local police force, he is fully equal to veteran members of the force. During the evening he he made three arrests, viz., Joseph Tobin, Fred Telbault, and an Italian, whose name before going to press, was unrecognizable. These three prisoners were all charged and seemingly correctly, with having indulged too freely in the bowl that cheers for a while, and then knocks out. These three will appear this morning before the Magistrate.

It might be noted that whilst P.C. Newhall was taking Tobin to the station, Telbault followed the officer and his prisoner to the station the former using most unparliamentary language. After P.C. Newhall had landed his prisoner, he went after the other man, Telbault fled along Water, Queen, and other devious routes to Victoria Park, when the officer finally corralled him.

Austen Chamberlain Weds Crowds Cheer

London, July 23.—At St. Margaret's church, Westminister, Saturday afternoon Austen Chamberlain, son of Joseph Chamberlain, the former colonial secretary, was married to Miss Ivy Dundas.

Few society functions in the past had attracted so much popular attention. Enormous crowds thronged the approaches to the church and gave the bride and bridegroom a rousing reception.

Joseph Chamberlain was not present, being confined to his residence by a bad attack of gout.

Both houses of parliament were well represented and the presents were unusually numerous and costly. King Edward, Queen Alexandra and the Prince and Princess of Wales being among the donors.

Farmers' Horses Shot for Glanders.

Burnside, Man., July 24.—Allan Munro had seven valuable horses shot yesterday on account of glanders. He has a large harvests forty acres of barley, ready to cut, and the loss of the horses at this juncture is serious.

Despondency and Suicide.

St. John, N.B., July 24.—Horace Peters, aged 35, a son of the late Dr. Peters, shot himself in the head and died shortly afterwards. Despondency over being out of work was the cause. A wife and two small children survive.

Your 'Fagged' Feeling is Spring Sickness

This Unhealthy Weather Will Intensify Your Exhaustion Unless You Have Good Medicine.

Time won't help; matters grow worse instead of better if your system isn't rid of its poisonous burden.

Your blood is not only thin, but is contaminated with a whole winter's accumulation of wastes.

A stimulating blood tonic is required.

What's it going to be?

No bitters or alcoholic dope, but concentrated cure in the form of "Ferrozone" which is known as the best of all spring rejuvenators.

It creates keen appetite.
Produces prodigious digestion.
Converts food into nourishment.
Gives richness and vitality to the blood.
Makes strong nerves and hardy muscles.

Ferrozone possesses power that can't be doubted. It will do for you what it did for Walter Wood, of Beaufort Car Co., N. B., who writes. "I can say that Ferrozone has given me a new lease of life. A year ago I suffered much from nervous weakness. I was really scarcely able to drag myself around. My appetite was gone, I had no color or ambition and felt generally used up. The first box of Ferrozone started me back to health. I took a number of boxes, but it was worth while as my health was completely restored."

Get back to health with Ferrozone. Your druggist sells it, 50c. per box or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

MADNESS IN RUSSIA.

Like a cholera epidemic, such revolts as are in progress in various parts of Russia grow by their own horrors. A plague makes infection easy by the terror it inspires. It spreads through its own destructive taint. When mobs burn buildings, fences, forests and grain their madness makes deeper despair inevitable. Starvation lies in the path of such reckless outcroppings of hatred of all that have property. Hunger and cold will goad into utter frenzy men who take the present havoc carelessly, as part of the natural evil of life.

Russia is facing a dreadful winter. Conditions must be dealt with that threaten to make all discussion of forms of government seem superficial and academic. The first and most imperative need will be food and shelter for the starving outcasts who have no roof over their heads.

Through such madness and horrors nations have struggled and stumbled on and up to liberty. It has been hoped that Russia might find a better and smoother pathway, but that hope looks extremely dubious in the light of reports from various provinces of the Russian Empire. The government cannot enforce order and protect property without terrible bloodshed and increasing the bitterness of the revolutionists. It cannot permit present conditions to continue without bringing unspeakable misery upon its subjects.

AN INTERESTING TEST.

There is a more or less prevalent notion that there are more fads and frills in the public schools than there ought to be. This notion found such expression in Providence, Rhode Island, that the school committee resorted to the referendum, and 4,988 of the parents were glad of the opportunity to go on record upon the issue. Interesting results are reported regarding details of the vote. As to teaching music in the schools, 4,726 were favorable and 173 unfavorable; as to drawing 4,661 were favorable and 232 unfavorable; as to gymnastics 4,651 were favorable and 231 unfavorable. Manual training and nature study were less popular among the parents, but nature study was favored by 3,444, with 1,004 dissenting, and manual training won by a vote of 3,300 to 1,017. Physiology won by a majority of five to one.

This is a decidedly interesting performance, and it is probable that there might be a similar one in Peterborough, where there has been some such complaint as that which has been made in Providence. It might also be that popularity isn't a sure test in such a matter. Firecrackers and rum are pretty popular.

Alaska Sable Caught In 'Caygeon

Mr. McGregor Trapped For Rats and Got a Skunk.

Bobcaygeon Independent: Mr. Geo McGregor has a number of fowl of blue blood ancestry, and tip-top lineage, and they are accordingly of increased value. For some time he had missed his chickens and one by one as many as eleven well grown chicks disappeared. Mr. McGregor thought it might be a weasel, probably rats, so he set a trap on Saturday night. Sunday morning a fog settled over the north end of Main street. By breakfast time the residents noticed that an earthquake would be a relief and if the fog did not soon lift, the fire engine might possibly clear or weaken the atmosphere some. When Mr. McGregor went out to look up his trap, he knew exactly where it was. Ralph not any, weasels! No sir. You could bet your life on the occupants of the trap. The destroyer of the chickens was a skunk, a very large one, and of marvellous potentiality. There was a hasty retreat of the fog factory, and in the course of a few hours, the residents of the neighborhood were able to move around without shovelling. It was a fierce bit of perfume.

The July Rod and Gun.

Of exceedingly varied interest is the July number of "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, at Woodstock, Ont. With the usual completeness, characteristic of each number of this excellent Magazine, the whole Dominion from Labrador to British Columbia, is covered, and articles and stories concerning New Brunswick, Nova Scotia, Quebec, Ontario, Manitoba, etc. find places. The cover cut showing interlocked deer horns found in the woods of New Brunswick, and a narrative of interlocked deer seen on the prairies by a party of Grand Trunk Pacific surveyors cannot fail to arouse much interest amongst sportsmen, and by a curious coincidence both incidents find a place in the same number. Mr. W. R. White, K. C., gives his view of the changes made in the Quebec Fish and Game Leases; the past year in Ontario fisheries is summarised and reviewed; a successful moosehunt in the Cobalt district is told; and the arrangements for the first Summer Camp of the Alpine Club of Canada are described by the President. The Boating Department, under the able supervision of Mr. E. E. Marsh, is again of strong interest, and there appears a fully illustrated and well-written account of the Canadian Indians' Tournament at Montreal. Let the sportsman follow what branch of outdoor life he may, he will find that this Magazine, and even this particular number, has something of special interest for him.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Plenty of Moose.

Toronto, July 23.—A report received from Fire Ranger Murray of the Thunder Bay District notes the fact that on one of his trips along the base line between Marquis and Strange Townships, south-east of the Matawin River, he counted 113 moose, of which 101 were full grown and 17 calves. This being the case, it ought not to be so difficult this year for each hunter to secure the limit allowed by his shooting license, viz., one moose.

As only about 500 licenses were issued altogether last year, there should be lots to go around if the rest of that country is anything like that section.

Appeal Direct to Throne.

Montreal, July 23.—Three British Columbia Indian chiefs passed through Montreal en route to Quebec, where they board the Lake Manitoba for England. They go to London to lay before His Majesty certain complaints regarding the way in which their tribes have been despoiled of their lands. It is an old custom for the Indians to go direct to the throne, and they hope to get some satisfaction. They have credentials from Sir Wilfrid Laurier and Hon. Frank Oliver. The three chiefs are Chief Joe Captain, of the Squamishes; Chief Charlie Tayipaynit of the Cayuishons, and Chief Bondfoot, all of the tribes inhabiting the northern part of the Pacific Province.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any constitutional, acquired or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Thirty years' experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure or no charge.

Reader If in doubt as to your condition, you can consult us FREE OF CHARGE. Remember the old adage, "a stitch in time saves nine." Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 27 years. **You can pay after cure.**

WE CURE Nervous Debility, Varicocele, Stricture, Blood Diseases, Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call, write for a Question List for Home Treatment.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much ore cubic yard of dirt as the ~~South~~ African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value, one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the mea intricted. WE ASK ~~MONEY~~—ONLY CONFIDENTIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

PHYSICAL CULTURE.

Wrong and Harmful Ways to Exercise Young Bodies.

"Among the many mediaeval fallacies concerning health and hygiene one of the most deeply rooted is the straight shoulder delusion," said a physical culturist of the enlightened school.

"The number of persons who come to me clinging tenaciously to the old fashioned method of 'standing straight' is altogether astonishing," she went on to explain. "The yardstick which the well meaning mother passes through the arms of her little daughter has been responsible for many thousands of bony necks with unnaturally projected heads. It will ruin many more unless parents are brought to realize that this ramrod method of carriage is as unsanitary as it is ungraceful.

"If a mother would but watch the effect of this position upon the little bare shoulders and neck of her darling she would never again wish her babies to assume it.

"The worst of the matter is that while it is ruining the carriage of her head and the contour of the neck and chest, it is in no way assisting the breathing business of the lungs. The ramrod method of standing neither expands the lungs nor causes effortless respiration. On the other hand, if correct breathing is mastered the shoulders, back and head assume their natural and most beautiful carriage. It is impossible for them not to do so. The poise thus obtained is that pictured by artists. It is as far removed from the ugly yardstick attitude as from a consumptive forward droop. In fact, it is the attitude suggested by Mother Nature herself for her healthy offspring.

"In order to stand straight throw the weight of the body first of all on the balls of the feet. The subject should practice this poise, swinging forward and using the heels merely as a balance.

"Now lift the chest. This is done not by laborious breaths, which exhaust and do not accomplish the object, but by a mechanical movement as easy and as natural as moving head or finger.

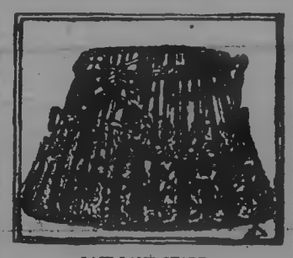
"With one's weight so poised and with the chest lifted it is impossible not to stand straight and to breathe healthfully."—New York Press.

A PRETTY LAMP SHADE.

Artistic Creation of Lace Flounce and Artificial Flowers.

Lamp shades of antique filet lace are the newest and most correct additions to a drawing room and boudoir. The fashion comes from Paris. The filet lamp shades are very handsome indeed and are particularly suitable for rooms in which the shades of the windows are made of the same lace.

The empire shape is the most fashionable for these lace shades, as it has



LACE LAMP SHADE.

been for those of paper and brocade. They are made over a colored foundation in many instances, but many are also shown made over white.

The shade shown in the illustration is an exquisite creation and will serve as a model for the home worker. This artistic shade is made of lace flounce and sprays of artificial flowers looped up with ribbon. Use a colored foundation to harmonize with the tone of the room.

Use Your Judgment.

When you read or hear that something is no longer in style do not immediately give in to the idea. Possibly both sides have not been presented to you. One lady read that curtains were no longer in style. She read a beautiful account of the literary and artistic home of Henry Van Dyke, how no curtains in his house gathered microbes to devastate the premises, how the sunshine poured in, illuminating the rooms and bringing health and color to the atmosphere. It sounded well. She immediately tore down all her hangings and produced one of the coldest, uninviting aspects it were possible for her to obtain. Nor could her decision be changed. She forgot that the individuality of the Van Dyke home was missing; that her house was not the same style; that its furnishings were different; that its location was absolutely dissimilar; that in every respect it was a house of a "different color."

Windpuffs.

A famous German cookbook contains a recipe called windbeutel, or, in English, "windbags." A more graceful name and one just as expressive would be "windpuffs." For these puffs use half a pound of butter, half a pound of fine flour, the same weight in water and eight newly laid eggs. Clarify the butter and let it come to the boiling point with the water, then gradually stir in the flour until the mass cleaves from the sides of the pot. Remove from the stove and allow the puffs to cool a little. Flavor slightly with nutmeg or grated lemon peel and begin to beat the eggs through and through it with a steady motion. Put the mixture on to a well buttered plate and divide it into cakes the size of walnuts, then set them immediately into a quick oven and let them bake to a golden brown. Upon taking them from the oven sprinkle them with sugar and serve immediately.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 3.50 and 7.15 a.m., 7.35 and 8.47 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

CONVENTION NEXT YEAR

Dominion Conservatives Postpone Projected Winnipeg Meeting.

Ottawa, July 24.—The proposed Dominion Conservative party convention, which it was planned to hold this coming autumn in Winnipeg, has been postponed until next summer. The original project was formed previous to the decision to hold an autumn session. With Parliament closing in July and re-assembling in November, the interval left is too brief at once to care for the next session and to carry through so formidable a piece of organization as the holding of a Dominion convention. Such a gathering, however, will be in mind through the session, and will take place in the next recess.

A Whistler One.

Of Whistler, the famous painter, an artist said:

"Mr. Whistler had been poor himself, and he saw nothing shameful or dishonorable in poverty. If you were poor he would mock without pity your destitution.

"I knew and admired Whistler in the early days of my career in Paris. He lived luxuriously. I lived in a garret. Though he liked me none the less for that, he did not permit any false delicacy to keep him from joking me about my poorhouse ways.

"One day, in a very shabby suit, I was strolling on the Boulevard des Italiens when some one hailed me from the rear. I turned and saw Whistler hastening toward me in his tall hat and his lemon-colored gloves, waving his long black cane.

"'Ah,' said I, rather flattered, 'so you recognized me from behind, did you, master?'

"'Yes,' said Mr. Whistler, laughing maliciously, 'I spied you through a hole in your coat.'"

Picture Frames.

The most effective picture frames, except when oil paintings are in question, match the woodwork of the room in which they hang. Dull gold frames, very unobtrusive, are lifted when the woodwork happens to be white enamel. At all events, it is no longer permissible to crowd all sorts of frames in one room. A uniformity of some sort is decidedly indicated.

Baked Apples.

A Pennsylvania housewife cooks her "baked apples" on top of the stove. She cores them and places them in a covered pan with enough water to prevent them from burning. She then lets them cook until partly done, sprinkles them with sugar and cinnamon and puts them in the oven to finish cooking. This is a good method for the busy housewife.

Fatalities in Mine Explosion.

suit of an explosion in the Dixon mine at Huger, at the East end of the Tug River, Wallace Mitchell and four miners, Ernest Jones, Palmer Harris and Robert Harris (brothers), and John Gilmore, are dead, and Bill Crouse and Langdon Whiteside will die from burns and shock.

Department of Railways and Canals, Canada

WELLAND CANAL.

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an 800,000 bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, July 6, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

GOLD
SILVER
AND
GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant. 160 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorised Capital Stock, $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.
JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.
JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.
DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.
JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

What Does It Mean?

Dr. Hamilton Gives a Full and Satisfactory Explanation.

Look at your tongue!

Sometimes it's heavily coated sometimes it's clear and red.

Study this out and you'll find some interference with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated.

Strong cathartic pills act so destructively on the intestines as to provoke deathly sickness; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception, they neither gripe, cause sickly feeling or headache, yet they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty. Giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion, it's small wonder that such marvellous results accompany Dr. Hamilton's Pills.

Mr. Geo O'Hagarty of Amherst, N. S., writes, "Last winter I worked in a lumber camp and neglected my health. I was dreadfully constipated and had a headache that fairly made me reel at times. I was sick and miserable, and hadn't the slightest ambition to work or stir around. I felt heavy and dull and had a bad taste in my mouth. I sent into the city for Dr. Hamilton's Pills, which I knew were good for my condition. They fixed me up very quickly and have kept me in good condition ever since. There are other men in the camp that use Dr. Hamilton's Pills also. They say they wouldn't be without the pills for ten times their price."

Every dealer in the land sells Dr. Hamilton's Pills—25c per box or five boxes for $1.00. By mail from N. C. Polson, and Co., Hartford, Conn., U.S. A. and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Found.

Yesterday a lady's brooch. Any one identifying the same and paying for this ad. can get the brooch at The Times office.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

House Keeper Wanted.

Married woman preferred. Duties are to take care of three children, two at school. Apply at once to The Times office, or the Geo. Matthews Company.

Servants Wanted.

Wanted at once a cook and also a housemaid. Call between the hours of 12 noon and 1 p.m., or between six and eight o'clock in the evening. Apply to Mrs. Bardley-Wilmott, 273 Hunter street.

Thieves After Poultry.

Chicken thieves are again at work. Master Alex. McGregor, 509 Water street, had twenty-four three months' old chickens of the Brown Leghorn variety stolen Monday night. The chickens were locked up in an incubator. A few days ago eight chickens of about the same age were stolen from the same place.

Quick Work-Pipe Laying.

The Peterborough Light & Power Co., despite certain adverse comments that have been made on their slow work on Charlotte street in laying gas pipes, are certainly not allowing any moss to grow on the work they are doing on Water street. This Water street job is a very extensive one, involving digging up a machine pounded street to a considerable depth, uplifting and removing the old-fashioned 1 1-2 inch pipes, in front of Victoria Park, and replacing the same by 3 and 4-inch gas mains. Yesterday a gang of men under Foreman McDonald, assisted by Gas Expert Al. Jones, succeeded in laying quite a length of 4-inch pipes. The whole job will be completed in a few days and reflects great credit upon the P.L. & P. Co. management and officers.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students would make application as soon as possible. Call at the College or address

Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The fire, water and light committee met last night.

—Children's two and three piece garden tools on sale at 10c. and 25c. Times Bookstore.

—The Grand Lodge general committee will hold a meeting on tomorrow night. A full attendance is requested.

—A large number of girls were added to the staff of the American Cereal Company yesterday morning. They will be employed in the packing department.

—The annual excursion to the Shrine of St. Anne de Beaupre, Quebec, will take place today. A special train will leave Peterborough by the C.P.R. at 12.45 p.m.

—The work of laying the concrete foundation for the new factory of the Peterborough Show Case Co. was begun yesterday. Operations on the new building will be rushed.

—Messrs. J. J. Turner & Son have been awarded the contract of decorating the town of Welland on the occasion of the Old Boys' Reunion, to be held on August 7, 8, and 9.

—The Catholic Order of Foresters of Midland and Orillia are running a big excursion to Peterborough today. It will likely be one of the largest excursions visiting the city this year.

Local Factory Running 24 Hours

American Cereal Co. Running Night and Day.

The American Cereal Company began yesterday evening to run all departments of the big mill night and day. Two shifts were put on and all departments kept going, full time except the packing department. It is necessary to operate the mill at its fullest capacity to meet the large number of orders received for Quaker oats, and the other cereal products of the firm. About 12,0000 cases per week will be turned out, and several thousand barrels of bulk goods will be packed. Additional salesmen have been placed on the road and all parts of Ontario and the eastern provinces will be thoroughly covered. About 600 girls are now employed at the mill and some 200 men.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

Lt.-Col. Rogers was Made President

Popular Local Citizen at Head of Ont. Historical Society.

Lt.-Col. H. C. Rogers has returned to the city after attending the annual meeting of the Ontario Historical Society at Collingwood. Col. Rogers has been vice president of the society, but presided at the meeting last week, owing to the absence of the president, Mr. G. R. Pattullo, of Woodstock. The colonel was honored by being elected president for the coming year. He is also president of the Peterborough and Ashburnham Historical Society. There were about fifty representatives in attendance at the Collingwood gathering.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
542 Water Street
or P. O. Box 831, city.

An Old Sidewalk is Found.

Whilst Mr. R. Steeby's gang of men were digging the Simcoe street sewer across Water street yesterday afternoon, they ran across an old side walk, some two feet below the present level, running along Water street. This old side walk is to the east side of Water street, but lay about eight feet west of the present pavement in front of the Bank of Montreal. The planks had been laid on solid timbers, some 10x12 inches. The old timbers were in a fair state of preservation.

Troubles of the Tax Gatherer.

No wonder that Tax Collector Green is getting silver threads among the gold. Yesterday a lady paying her business tax raised Harry mell about having to pay taxes without corresponding representation. This lady said she did not mind paying taxes but thought that those paying the taxes should have representation among those who administer appropriation of said taxes. Still another lady arrived shortly afterwards with a distinct, undeniable and pointed argument against women paying taxes at all.

No argument is needed when

SOCIAL AND PERSONAL

—Messrs. "Bob" Browne and R. Jameson spent Sunday at Chemong.

—Mr. Walter Patterson is in the city renewing old acquaintances.

Col. H. C. Rogers left yesterday to spend a few days at Stony Lake.

—Miss Annie I. Finney, Dublin St., spent Sunday at Stony Lake with friends.

—Miss Maggie Mein, Louis street, is visiting friends near Keene for a few weeks.

—Messrs. Arthur Emmerson and Ford Turner have gone for a two weeks' camping at Rice Lake.

—Mr. Clifford Eastwell, Peterborough, is at his home, 497 Euclid avenue, for the holidays.—Globe.

—Mr. J.H.R. Cleaffee, editor of the International Railway Guide, spent Sunday in the city, and gave The Times a friendly call.

—Dr. F. C. Neal is in St. Joseph's hospital, threatened with typhoid fever. His many friends will hope for his speedy recovery.

—Col. J. Z. Rogers left yesterday on his yacht, "The Boss" for a trip around the lakes. He was accompanied by several friends. The party went over the lift lock and up the canal.

—Mr. William Winburn, formerly of London, Eng., but now holding a responsible position with the new carpet factory, leaves this morning for Montreal, to rejoin his wife, who comes out by the S.S. Carthagemain.

—Rev. Father McGuire, of Wooler, who has been in Kingston, undergoing medical treatment, has returned to his parish. He is improving slowly. Rev. Father Galvin is still taking charge of Rev. Father McGuire's work.

—Mr. R. M. Roy will leave on Thursday on a trip around the Kawartha lakes on his staunch little steam yacht, "Rob Roy." He will be accompanied by Messrs. J. D. Craig, Geo. W. Bennett, John Irwin and George Wesley. They will be absent a week and will visit all the inland points.

Knocked Out by Hail Stones

Mr. Wm. Trout of the Machine Telephone Company, will remember Sunday's hail storm for some time. Mr. Trout was spending Sunday at Stony Lake, and before the storm came on was taking in the scenery and ozone of that beautiful sheet of water. Mr. Trout had anchored to enjoy a protracted view of the beautiful scenery. When the storm began he tried to pull up his anchor. The hail poured down and several extra heavy hailstones striking his head knocked him senseless for a few minutes. Fortunately Mr. Trout's good constitution came to his rescue and he recovered possession of his faculties in time to get home before more lasting damage could be done him.

Mr. R. R. Hall Has Returned.

Mr. R. R. Hall, M.P., who on Saturday arrived home from a trip to British Columbia was there to attend to business with the Big Ben Lumber Co. This mill has a capacity of 125,000 feet of lumber per day. The property is situated at the head of Arrow Lakes, which are 125 miles long with extensive feeders. Mrs. Hall says that the crops in that section are most promising.

Party for Buckhorn by Auto.

Some twenty local sports engaged the new auto bus and spent Sunday in quiet meditation among the wilds of Buckhorn on Sunday.

They left the Sawdon House about nine o'clock in the morning, and arrived at their destination about eleven after a very pleasant trip. They put up at the hotel where Mine Host Tom Eastwood put up a tasty dinner and supper. During the afternoon they were unable to get outside on account of the very heavy rain and hail storm. The autoists say it was the worst they ever saw. They had a good time notwithstanding the storm, and local option at Buckhorn.

Yacht Club Elects New Officers

The annual meeting of the Chemong Yacht Club, held in their private club room resulted in election of the following officers for 1906-07.

Hon. Commodore — Commodore McCuaig.

Commodore—R. M. Denniston.

Vice-Com.—G. M. Hamilton.

Sec.-Treas.—A. A. Hollingshead.

Executive Committee —, Messrs. Alex. Elliott, W. H. Hill, W. R. Hartshorne, T. F. Matthews, G. H. Bell, F. Roy, F. Merrett, Howard Hopwood.

House Committee—Messrs. W. R. Hartshorne, W. H. Hill, T. F. Matthews.

Sailing Committee — Messrs. G. M. Hamilton, Howard Hopwood, F. Merritt.

This committee will have full charge of all sailing events, as well as the placing of buoys, numbering of boats, as each boat, in future, will be distinguished by the number of its sail. There are at present eighteen boats sailing under the Chemong Yacht Club's colors. They are owned as follows; Messrs. Hopwood, Denniston 2, Matthews, Hamilton, Merritt, Eason, Currier, Gilmore, Dumble, Lundy, Oates 3, Heathcote, Hollingshead, Ros and Mendell.

The Palace Hotel Property Re-let

The Times was informed last night that Mr. M. Pappas, the enterprising George street cigar man and billiard room proprietor, yesterday completed arrangements with Mr. H. C. Winch, representing the Chamberlain estate, whereby he, Mr. Pappas, will secure the fine premises now occupied by Mr. J. M. Brooks, proprietor of the Palace Hotel. Mr. Brooks will have control of these premises until August 1st. After this date it is understood that Mr. Pappas will open these beautifully furnished rooms as a first-class billiard and pool room. Mr. Pappas, owing to his largely increasing business in this city, will also open new quarters in the northern part of the city, thus ensuring business from patrons from both

Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. * * * It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Robert A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D. and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a *professional* endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

Floating Islands Cause Trouble

Floating Vegetable Growths Drifting from Head of Chemong Lake.

Visitors and dwellers at Chemong Park are noting with many expressions of disapproval that the floating islands, located at the head of Chemong Lake are gradually losing their bearings and floating down towards the park. One floating island, an almost purely aquatic vegetable growth, has recently drifted away from the place of its formation at the head of the lake, and has anchored itself near Mr. Hopkin's island, just in front of the park.

These islands floating in this manner are not altogether a nuisance, as they make the fishing, at such spots as they locate, much better. This applies particularly to the capture of catfish. On Saturday evening, at least we will say "Saturday" evening, one gentleman captured 37 of these ugly looking but toothsome fish, just beside an island that had floated from the head of the lake to the park.

Rev. Father McColl Will be the Host

Tomorrow Rev. Father McColl of St. Peter's cathedral will give his annual outing to the members of the choir, the altar boys, the members of the Separate School Board, the staff of teachers, the pupils who passed the entrance examination and those who captured medals.

The excursionists will go by steamer Water Lily to Hastings and it is expected that a most enjoyable time will be spent by all.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Laxets act promptly, without pain or griping. Pleasant to take—Laxets—only 5 cents. Sold by J. D. Tully.

Conjoint Meetings at St. Andrews.

The Young People's society of St. Andrew's church will combine their meetings with the regular weekly prayer meeting for the next six weeks. The first joint meeting will be held tomorrow night. The choir will be in attendance and the service will partake of a prayer and praise character.

Councillor Holmes Goes Fishing.

Councillor John C. Holmes of the township of North Monaghan, left yesterday for Orillia, to meet a party of eight friends from Buffalo, N.Y., including his brother William. They will all take a two weeks' trip to a fishing ground a little north of New Lichfield. After their fishing trip is over, the party will go on a short prospecting tour in that part of the country.

NEVADA'S LATEST WONDER

THE GREATEST GOLD EXCITEMENT EVER KNOWN NOW PREVAILS AT

Round Mountain

Round Mountain, the bonanza, of all bonanzas. Nevada's record breaking gold values have been opened up on Round Mountain, assays from the latest discovery run over $250,000 to the ton. Further development on Round Mountain will open up the greatest mines in the State. In three years, Nevada has taken the central position in the lime-light of publicity and the world that has wondered and marveled at so many things in this State, cannot help marveling the more at Round Mountain. Our company got in early and were fortunate in acquiring the Golden Wonder group of claims, known as Golden Wonder, Golden Wonder No 1, Golden Wonder No. 2 and Golden Wonder No. 3, situated between the recent big strike on the Round Mountain Mining Co's property and the old Jefferson Mine that produced over $3,000,000 thirty years ago. A strong company, composed of bankers and mining men has been incorporated under the laws of Arizona with a capitalization of 1,000,000 shares, par value $1, which has taken over the Golden Wonder group. 400,000 shares have been placed in the treasury. In order to raise funds for the immediate development of the property the board of directors have alloted 50,000 shares to be sold at

VOL XXXIV, NO. 177 PETERBOROUGH, ONTARIO, WEDNESDAY, JULY 25, 1906. PRICE TWO CENTS

Sailors Murdered by Canadian Soldiers

Regulars at Quebec Goad British Sailors Into a Fight and Ambush---One Was Stabbed in Back and Others Chased Into River.

Quebec, July 25.—A most dastardly crime was committed in this city shortly after 11 o'clock last evening, and as a consequence two Britons are now lying at the morgue awaiting the result of the coroner's verdict which will no doubt place the charge of murder against one or more of the Royal Canadian Regiment regulars now stationed in this city.

According to the details which could be learned at 1 o'clock this morning three soldiers in khaki uniform made their appearance on the cross wall at the end of Dalhousie street, and challenged some of the sailors on the schooner J. M. Taylor from Barbadoes, unloading molasses at that wharf to come up on the wharf and fight. The challenge was at first unheeded, but the soldiers carried their insults to such a point that some of the crew were ashore. A general row then started on the wharf, a short distance from their schooner, in which the soldiers used their belts and buckles to advantage. One of the latter gave a whistle, and several other soldiers immediately put in an appearance. The sailors then ran towards the schooner, possibly to get help. As they did so one of them, Thomas Powers, was stabbed in the back between the shoulders, and as he ran, fell into the water between the schooner and the wharf.

HERO RESCUES ONE.

Another of the crew, William Tyrer, also followed, as well as a sailor from the Empress of Britain. The two former never rose, but the latter, from the Empress was picked up by James Finn, a young sailor of the Arctic. The latter was speaking to one of his friends on the schooner and as the men fell into the river he jumped overboard and swam out to the sailor from the Empress, and placing a rope around his body, had him hauled ashore. He then swam round to find the others, but was unsuccessful. In the meantime, Jos. Murphy put in an appearance on the dock and with the aid of grappling hooks succeeded in hauling Powers and Tyrer out of the water, but the unfortunate men were both dead.

THREE SOLDIERS ARRESTED.

Chief McCarthy and Detectives Wood and Sheehan went to the Barracks at two o'clock this morning to see if any of the men could be identified by the sailors, who claim they can recognize the soldiers. Both victims were exceptionally well developed men. Powers hailed from Ireland, while Tyrer was a resident of London, England.

At 3.30 this morning the detectives landed Privates Dominick Corrigan, 22 years of age, Peter Walsh, 21 years of age, Edouard Lapointe, 18, and W. Higgins, 23, all members of the R.C.R. Corrigan has a fresh cut in the forehead.

Sir Hiram Maxim on Flying Machines

Is of Opinion That They May Yet be a Success.

London, July 25.—"I have been told," said Sir Hiram Maxim, in an interview on the subject of human flight, "that Lord Kelvin a few years ago said that it was a mathematical impossibility that a flying machine could ever be constructed, though personally I am rather inclined to doubt the story; but there is no doubt whatsoever that many less distinguished scientists than Lord Kelvin did think so; many of them, indeed, pointed out to me various reasons against the possibilities of aerial navigation, and told me frankly that all experiments in that direction were simply waste of time. I cannot talk just now of the technical difficulties that lie in the way of making a flying machine; suffice it to state that the chief problem to be overcome is to make the lifting effect of the aeroplanes greater than the weight of the machine, and after many experiments conducted at the Crystal Palace, I have found that this difficulty is not insurmountable. It is now a matter of history that flying machines can be made, and it only remains to be seen how they can be improved and what purposes they can be made to serve. The most perfect flying machine yet constructed, I think, is the one made by the Wright brothers, in America. On its very first trial trip it remained in the air for thirty minutes without even the aid of a gas bag, while it can attain a velocity of forty miles an hour, and boasts of a steering apparatus that is practically perfect. The French Government has purchased this machine, and it will undoubtedly prove, I should say, a most successful weapon of war, a fact that other nations will be bound sooner or later to recognise. But I do not think that the flying machine will ever be used for ordinary traffic, and for what may be called popular purposes. People who write about the conditions under which the business and pleasure of the world will be carried on in another hundred years generally make flying machines take the place of railways and steamers, but that such will be the case I very much doubt. In the first place, the construction of a flying machine will always be extremely costly, and, in the next, it will never be possible to eliminate the very considerable danger which attends any attempt at aerial navigation."

Work for Grand Trunk President

Matters Connected With Transcontinental Await His Coming.

Montreal, July 25.—Sir Charles Rivers-Wilson, G.C.M.G., C.B., president of the Grand Trunk System, has arrived in New York. He comes over for his annual trip over the entire system travelling on the steamship Carmania. Mr. Charles M. Hays, second vice-president and general manager, has gone to New York to meet him.

It is expected that they will arrive in Montreal this morning, and Sir Charles will spend a few days here preparatory to commencing the long tour of inspection.

There is also more than a probability that while he is in town the oft-postponed meeting of the shareholders of the Grand Trunk Pacific will be held. Mr. Hays is the president of the G. T. P., and it is known that there are a good many things in connection with the new undertaking which he wishes to discuss with the Premier.

Among them will be the question of formally ratifying the issue of debenture stock to the extent of $15,000,000 under their agreement with the Government.

The act authorizing the G. T. P. to issue debenture stock to the extent of $25,000,000 was passed by the House of Commons and the Senate some weeks ago. The actual issue of stock will in all probability be made in England.

Lady Missed Train.

St. Catharines, July 24.—Messrs. Sanderson, Newman and Hough, liverymen, appeared in the police court accused of neglecting or refusing, contrary to clause 22 of the cab bylaw, to keep an appointment, thereby causing Miss Gowenlock, of Seaforth, to miss a train. The defendants acknowledged their guilt, but claimed they had given the "call" to another livery. They promised to pay all expenses incured by Miss Gowenlock, who therefore withdrew the charge.

U. S. NAVY'S MARKMANSHIP

Vast Improvement With Big Guns Since 1898.

Washington, July 25.—"The criterion of target practice is the actual number of hits per minute," says Secretary of the Navy Bonaparte. "Many ships now average between 75 and 90 per cent. of hits, with all their main battery guns, whereas in former days the percentage was rarely over 40, even though firing slowly at a target more than seven times as large as the present one. Then the target was 100 feet long and twenty-five feet high; today it is twenty-one feet long and twelve feet high. This increase in hitting ability is due to the assiduous training in the target practices which have been carried out under the new system adopted and also to the improvement in ordnance. Going back to 1898, when the navy was using black powder and when sights and other parts of the equipment were poorly developed, our firing was both slow and inaccurate. At that time it was considered satisfactory if a twelve-inch gun fired one shot in five minutes. But with each subsequent improvement in ordnance and rapidity was somewhat increased, and by exercising out systematic target practice the present striking efficiency has been attained. For example, the heavy turret guns that were but a few years ago allowed five minutes in which to fire a shot, have recently fired three shots and made three hits in one minute."

A GREAT WHEAT CROP.

Present Weather Means Millions to the Northwest.

Minneapolis, July 25.—If this weather continues another week one of the earliest spring wheat harvests on record will begin. In the advanced places between Redfield and Aberdeen farmers will start to cut wheat a week from today.

John Inglis, the crop expert, who is in the country, telegraphed today that the prospects are excellent. H. V. Jones from Seville, S. D., says that in size and state of maturity the wheat in that neighborhood exceeds any ever seen before at as early a date. There are some counties in North Dakota, however, in which the wheat is ten days late, and in some places the first wheat will be cut September 1.

The success of the crop depends on the weather. To do it damage rust must strike wheat before it is too far advanced toward maturity. It is now a race between the wheat and the rust, with the good weather favoring the wheat. The present weather, if it continues, will mean millions of dollars to Minneapolis and the North-West.

The Demand for Labor.

Winnipeg, July 25.—Farmers are evincing great anxiety how the supply of farm help be inadequate. The Board of Trade at Virden have sent in an application for 500 extra harvest hands, and Yorkton, away in the opposite direction, requires 300. These small towns supply a fair criterion by which to judge the demand.

LEPER TRAVELLING ABROAD

Says Money is Useless, as no One Will Sell to Him.

Cumberland, Md., July 25.—The leper who caused excitement at Hyattsville, Hagerstown and Keyser, reached Cumberland this morning early. The authorities had no idea that he would come here.

The man, a Syrian, gives the name of George Rossetti. He says he came in on a Baltimore & Ohio freight train. He was a target for camera fiends. He has a large roll of money, but he says it is no good to him, as no one will sell him anything. He says that he contracted the disease in his own country about four years ago, and is working his way to North Brother's island, New York.

He is guarded tonight by policemen. The authorities will try to send him to New York tomorrow.

Twenty Homes For Employes

Carpet Factory Employes to be Cared for.

The Toronto Loan & Savings Company, are arranging to erect 25 new houses in the extreme south end, near the new carpet factory. These cottages will be for the use of the operatives. It is proposed to open a street, the regulation width through the property recently acquired from the old Rice Sugar Company. Work is to be begun at once.

Conductor's Neck Broken.

Chicago, July 25.—The neck of John Petrie, 36 years of age, a conductor on a South Chicago Trolley car, was broken last night, when he was struck by another car, and his death was instantaneous.

The Ontario Honey Crop.

Niagara Falls, July 25.—Wm. McEwery, inspector of apiaries for Ontario, reports the year's honey crop will be almost a total failure in both the United States and Canada, due to the cold wet spring and unfavorable atmospheric conditions this summer.

STOLE $16,000 WORTH OF FURS

Sensational Round-up of the Thieves Near Wallaceburg

WERE TANNING THE SKINS

When the Officers Dropped Into the Shack—Goods Were Originally Secured in Brooklyn, N. Y.

Chatham, Ont., July 25.—Trapped in their den like rats in a trap three daring fur thieves, busy at the work of tanning the stolen goods, were surprised at their labors and rounded up by the Chatham police in a shack near Wallaceburg on Monday night.

The haul was made by the local police force, assisted by Detective Campeau, of Windsor.

It was undoubtedly the biggest criminal round up in this section for many a day.

The prisoners were arrested in the act of tanning $16,000 worth of stolen furs, which were identified as those which had disappeared after the sensational robbery of the warehouse of Seifter & Son, fur merchants of Brooklyn, N.Y.

F. Seifter, one of the members of the firm, was present with the officers and identified the goods.

The prisoners, along with the stolen goods, were all brought to Chatham last night.

Those nabbed at Wallaceburg were Jacob Gibitzki, Simon Gibitzki and Samuel Gibitzki, while Samuel Kovinski, a local accomplice of the trio, was arrested in this city during the afternoon.

The arrest relieves great credit on the Chatham police force, who, unaided, unearthed the thieves whose movements had been so much for the metropolitan police to unravel.

The robbery of the Seifter warehouse took place last spring on May 26, when the building was broken into in the night and $16,000 worths of furs were hauled away.

Nothing more was learned of the whereabouts of the stolen goods until the round-up last night.

The local police had been working on clues for some time, and their suspicions had been aroused by the action of the Gibitzkis, who had been trying to dispose of furs to local dealers for some time.

It now comes to light that the furs had in some cunning manner been smuggled across the border by the thieves, and were first secreted in Chatham.

Finding that they could not dispose of the furs as they were, without arousing suspicion, the gang hit upon the plan of tanning them first.

They secured a house in Wallaceburg and it was there they were caught at work last night.

The prisoners claim that they did not know that the goods were stolen, but that they were working for a man in Montreal.

The prisoners will come up before Magistrate Hanston for a preliminary hearing today, and meanwhile the police believe that they have a number of other important clues which will throw additional light on the affair.

Six Minutes Under Water.

Toronto, July 25.—Robert Delaney, a young man, was thrown from a sail boat by a squall in the bay last night. Sculling Champion Lou Scholes dived from a nearby wharf, but could not find him. Neale Ackroyd brought the boy out with a pole after being in the water six minutes, and he was resuscitated.

BRIDANT'S LETTER

Father of the Dead Woman Refers to Husband's Alleged Threats.

Toronto, July 25.—The father of the late Mrs. Bridant, in an interview in Kingston, is said to have stated that there was in existence a letter from Bridant to his wife insisting that she take certain objectionable medicine.

This, he declared, was written to her in May, when she had returned to Kingston for awhile.

"She declared she wouldn't. She showed us the letter," said the father.

He went on to state that it was with her effects in Toronto, but he understood that it was in the hands of Bridant's lawyer. However, it mattered little, he declared, as he and his wife and daughters could prove what he said.

Building Fell Killing Ten

Twenty-Four Persons Dead, Injured, or Missing as Result of Accident.

South Framingham, Mass., July 25.—The work of exhuming the bodies of the victims of the collapsed Amsden building went on unceasingly through the night, but the morning brought no increase to the list of unknown dead.

At dawn there were nine bodies at the morgue, one other victim could be seen in the ruins, eight of the injured were at the hospital, two others were at their homes, while four were missing, making a total of 24 who, so far as could be learned, were about the building when the upper part gave way and sent the tons of cement, iron columns and steel beams crashing in a tangled mass into the basement.

That anyone should have escaped with his life was what puzzled the crowd that was held back by Ninth Regiment soldiers, gazing all night at the grim work of overhauling the ruins, and was still pressing about them when morning dawned.

A revised list of the dead and missing is as follows: Dead, Charles Blythe, South Framingham, superintendent of construction; O. F. Hardy, Natick, head plaster; Patrick Prendergast, Newton Upper Falls, plasterer; Frank Driscoll, Newton Highlands plasterer; Jas. W. Welch, Wellesley, plasterer; Pambrano Augustino, laborer; Romeo Marchie, laborer; Jos. Drout, laborer, Neil O'Brien, South Framingham; Wm. Scanlon, Bellingham.

Missing, Henry L. Sawyer, South Framingham, merchant; Fred Cunningham, T. Sig, Villi Ouest.

The tottering walls and pillars and the hanging beams and girders make the work of extricating the bodies not only difficult, but extremely dangerous, and yesterday General Whitney, who is in charge of the State troops, issued an order that no more soldiers should go into the ruins until the damaged building was in a more safe condition.

The local authorities yesterday sent out a call for help in the work of overhauling the ruins, and a number of men were ordered here from Boston. The cause of the accident has not yet been definitely learned.

The condition of the injured workmen and of Mr. Amsden, the owner of the building, who went down in the crash with the others, was stated at a late hour last night to be favorable to ultimate recovery. Mr. Amsden sustained a fractured leg and is suffering from nervous shock.

Ship Yards for Halifax.

Halifax, July 25.As soon as federal bounty is granted and an agreement made to admit certain machinery duty free, Messrs. Swan and Hunter, of England, are prepared to establish a large shipbuilding works here. Bonuses amounting to $300,000 have been voted and the necessary lands have been secured.

Rich Find at Cobalt.

Cobalt, Ont., July 24.—A one-foot vein of smaltite and cobalt bloom is reported found by Prof. Miller's party on the Gillies limits.

BACK TO PULPIT

What Food Did for a Clergyman.

A minister of Elizabethtown tells how Grape-Nuts food brought him back to his pulpit: "Some 5 years ago I had an attack of what seemed to be La Grippe which left me in a complete state of collapse and I suffered for some time with nervous prostration. My appetite failed, I lost flesh till I was a mere skeleton, life was a burden to me, I lost interest in everything and almost in every body save my precious wife.

"Then on the recommendation of some friends I began to use Grape-Nuts food. At that time I was a miserable skeleton, without appetite and hardly able to walk across the room; had ugly dreams at night, no disposition to entertain or be entertained and began to shun society.

"I finally gave up the regular ministry, indeed I could not collect my thoughts on any subject, and became a hermit. After I had been using the Grape-Nuts food for a short time I discovered that I was taking on new life and my appetite began to improve; I began to sleep better and my weight increased steadily; I had lost some 50 pounds but under the new food regime I have regained almost my former weight and have greatly improved in every way.

"I feel that I owe much to Grape-Nuts and can truly recommend the food to all who require a powerful rebuilding agent delicious to taste and always welcome." Name given by Postum Co., Battle Creek, Mich. A true natural road to regain health, or hold it, is by the use of a dish of Grape-Nuts and cream morning and night. Or have the food made into some of the many delicious dishes given in the little recipe book found in pkgs.

Ten days' trial of Grape-Nuts helps many. "There's a reason."

Look in pkgs. for a copy of the famous little book, "The Road to Wellville."

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday's session of the police court was no quiet affair until four o'clock. Those spectators fond of music, all being charged with having indulged too freely in the frequently replenished bowl.

An Italian with a polysyllabic name was charged with being drunk on Monday. He pleaded guilty. P.C. Newhall gave evidence saying he found the prisoner lying drunk. The Dino pays de mon.

Justin Tobin was charged with the same offence, pleaded guilty, and was given five days to pay a fine of $2.

Fred Tebbutt received similar treatment over the same offence.

Mr. Redmond of Donnegal street, laid a complaint that boys had thrown a core at him, had stolen apples from him, had given him "same" had stolen his flowers and had made things generally unpleasant for him. It seems that Redmond has continual trouble with a lot of boys who like to "take a rise" out of the old man. Redmond said he had put barbed wire on the top of his fence but still the boys get over. The magistrate gave him a strong hint to drop the matter, but Redmond insisted on laying an information. The case will come up at 9 this morning.

Czar to Establish a Military Dictatorship

Effort Will be Made to Assure the Populace as to the Sincerity of the Government's Future Intentions.

St. Petersburg, July 26.—The way has been prepared for a military dictatorship by a proposition now under consideration at Peterhof to create an advisory council to assist the emperor.

Premier Stolypin, General Trepoff and others are conferring with his majesty upon this subject.

On the surface the scheme is to form such a council out of the members of the council of the empire, the Conservatives and Liberals like M.M. Shipoff and Guchkoff, and also, possibly several constitutional Democratic leaders, with the purpose of reassuring the population of the sincerity of the Government's future intentions.

BELIEVES IN PLAN.

M. Stolypin evidently believes sincerely that the plan is achievable, but here is little hope that either Guchkoff or Shipoff will in any way make themselves responsible for the energetic measures of repression which the Emperor's coup d'etat entails, and it is certain that none of the constitutional Democrats will brave the charge of open treason in giving co-operation to any government measure after the steps to which they committed themselves at Viborg.

FOREDOOMED TO FAILURE.

The plan, therefore, which is foredoomed to failure, seems to be a deliberate plot of the court camarilla to induce the emperor to entrust the direction of affairs to an advisory council would retain the authority, council would retain the authority, the camarilla would gradually absorb its power and exercise a virtual dictatorship as did Count Loris-Melikoff's committee of public safety during the terrorism preceding the assassination of Alexander II.

M. Shipoff's opinion of the dissolution can be judged by the fact that last night he sent a note to a Constitutional Democrat member of the Council of the Empire, asking for an invitation in the event that the Constitutional Democratic group of the council held a caucus.

SIT ON SAFETY VALVE.

It is already certain that an amount of conservation is apparent in the upper spheres over the magnitude of the task they have assumed.

Events are marching with startling rapidity.

Having taken a decision to sit on the safety valve, the Government knows of no method except force, and all the old bureaucratic machinery of suppression has been placed in operation to prevent an explosion.

Domiciliary searches continue in all quarters of the capital, the prisons are already filling and the old system of attempting to conceal from the people what is happening has been adopted.

The censorship of the press has been re-established with a vigor unknown since the days of the late Interior Minister Von Plehve, accompanied by the wholesale confiscation of newspapers.

TWO MEMBERS ARRESTED.

Viborg, Finland, July 25. — During the night the members of the outlawed Russian parliament received word that two of their number had already been arrested, namely, Fisher Kayarkoff, of Voronoch, and a Cossack deputy, M. Khartamoff, at Bezsonoe de Dom.

The authorities are also understood to have orders to arrest several Social Democrats, especially a priest named Afanasieff.

Both Fisher Kayarkoff and M. Khartamoff distinguished themselves by preaching revolution from the rostrum of parliament, the latter being especially bitter in his denunciation of the use of his people in massacring their Russian brethren.

CITY IN STATE OF PANIC.

London, July 25.—A despatch to the Reuter Telegram Company, from Odessa, timed 3.50 p.m., says: Anti-Jewish outbreaks have commenced here. A number of persons have already been killed or wounded. Cossacks and rowdies are plundering the deserted Jewish houses and shops.

On Sredniaia street three Jews were killed and three were wounded in attempting to defend their property, while the police looked on.

Another bloody conflict is now reported to be in progress in Stepovai street.

The whole city is in a state of panic. Many of the inhabitants are fleeing.

The black hundreds are distributing bloodthirsty proclamations in the streets.

WOULD NOT CONTRIBUTE.

Sosnowice, Russian Poland, July 25.—Simultaneously at noon yesterday bombs were thrown into four stores of the Singer Sewing Machine Company, located here, at Bendzin, at Zawiercie and at Czenchau, wrecking each of the shops, and wounding many persons.

The bomb throwers were agents of the Polish Socialistic party, which had made the Singer Company an example of what may happen to others for refusing to contribute to the revolutionary cause.

In each instance a men entered the stores and ordered the women and clerks to leave.

Widen Scope of Arbitration

Interparliamentary Union Agrees on Another Step Towards Peace.

London, July 25. — William J. Ryan's proposed rider to the model arbitration treaty was discussed at a meeting of the International Union yesterday morning, and resulted in its being recast as follows:

"If a disagreement should arise, which is not included in those to be submitted to arbitration, the contracting parties shall not resort to any act of hostility before they separately or jointly invite, as the case may necessitate, the formation of an international commission of inquiry or mediation of one or more friendly powers, this invitation to take place, if necessary, in accordance with article VIII of the Hague Convention, providing for a peaceful settlement of international conflicts."

On the resumption of the session of the Interparliamentary Union yesterday the above was unanimously adopted after speeches by Former American Minister of Commerce Von Plenet and Mr. Ryan, warmly supporting the amended rider. The latter said that his amendment was aimed at widening the scope of arbitration so as to include questions of national honor, and its adoption was a long step in the direction of peace.

WIRELESS TELEGRAPHY

Dr. Graham Bell Considers It to be One of the Marvels of the Age.

Halifax, N.S., July 25.—Speaking at the banquet of the Maritime Electrical Association at Sydney, Dr. Alexander Graham Bell, the famous scientist and inventor, set all doubts at rest as to whether the telephone was invented in Canada or the United States.

To Canada belonged that honor, Dr. Bell claimed, as he was living at his father's place near Brantford, Ont., when he invented it, the first test being also made in Canada.

In a short review of great achievements in the electric world, Dr. Bell made the assertion that he considered wireless telegraphy the greatest marvel of the age, relating an incident of how his skepticism with regard to its success had been removed while on a trip from Europe to America a few years ago when he sent a Marconigram to Washington, when the steamer on which he was traveling was several hundred miles from land, the answer being placed in his hands a few hours afterwards.

Dr. Bell returns to his home at Baddeck today.

Dr. Bell is about to give another valuable work to the world in connection with the imparting of the condition of the dumb. The work is entitled "The Mechanism of Speech," and is just off the press.

PUSH THE NORMALS

Plans for the New Buildings Have Been Approved by Education Department.

Toronto, July 25.—No time is to be lost by the Government in commencing the new Normal schools, to be erected at Hamilton, Peterborough, Stratford and North Bay. The plans and specifications prepared by the provincial architect have been approved, and the department in conjunction with the municipalities is now determining the sites. In each case, as has been announced, the city furnishes the Government with a free location.

Today Mr. A. H. U. Colquhoun, deputy minister of education, and Dr. Seath, superintendent of education, leave for Hamilton, to meet with the Board of Education there and finally pass upon the location. This done the Hamilton school will start at once and the others will follow almost immediately thereafter.

Damp Spring Weather Ruinous to Health

Causes Weakness, Headaches and Feeling of Unrest; the Cure is Simple.

That peculiar weakness so common in the spring, is demoralizing to body and mind alike.

Stupid, absent-minded and dull,—You feel the need of a stimulating tonic.

To impart quickness and great vitality to the entire system nothing acts like Ferrozone.

In a short time it makes you feel fit and fine, creates a feeling of youth and strength that's surprising.

Ferrozone revives and braces the sickly because it nourishes and builds up the organs that are weak. As a spring tonic, appetizer and blood-strengthener it is unequaled.

A well known resident of Utopia, Ont., Mr H. H. Postle, writes: "From long experience I am convinced that everyone requires medicine in the spring. As a rule the blood is thin and impure and the whole system is congested with poisons that should be carried off. I use Ferrozone because it clears up the system, gives you an appetite and makes you sleep well. One winter I had serious palpitation of the heart, nervous headaches, and an extreme tired feeling. Sleep was not restful and by spring I was in bad shape. I took six boxes of Ferrozone and was made the picture of health."

Ferrozone makes permanent cures. Absolutely safe because it is purely vegetable and contains no alcohol. Concentrated cure in tablet form, — that's Ferrozone, 50c. per box or six boxes for $2.50 at all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

THE CZAR'S "COUP."

The news that the members of the dissolved Douma have started for Finland, and that some three hundred of them have already held a meeting at Wiborg—if well-founded—is the most significant which has followed the sensational announcement of the dissolution. It indicates, what surely might have been taken for granted, that the members of the Douma were prepared for the Czar's "coup," and that they had no notion of trusting themselves, after it, within the circle of his armed "extraordinary security." The members of the French States-General, meeting at the Tennis Court at Versailles, were safe from the intervention of loyal troops; but the Russian Douma could probably not have found even ordinary security anywhere under the shadow of the court.

It is impossible to tell what will be the immediate effect of the Czar's course until more news arrives. But it is already certain that the desperate experiment of endeavoring to get a subservient Parliament elected in the name of the people, has failed utterly. The result of the election was notoriously a disappointment; and every session of the Douma since it got to work must have added to the chagrin with which its composition was regarded. If an election held under such circumstances failed, it is not at all likely that the court will be willing to risk another, even surrounded with the greatest precautions, a year hence—if, indeed, there be no reversal of policy before that date. It has been made abundantly clear that the radicals have got the country with them, peasants as well as artizans; and now the Czar seems to be minded to put the army to the supreme test.

In the face of results, the summoning of a Douma was a great and possibly a fatal tactical mistake on the part of the court camarilla. It has resulted only in converting thousands of influential moderates to the belief that there is nothing for it but revolution. The members of a Douma dissolved in this fashion are not likely to believe very firmly in the possibility of working with the present advisers of the Emperor; yet probably the majority of them came to St. Petersburg under the impression that the extreme measures counselled by many were altogether unnecessary.

In Finland, the Douma will find a fortress in which to await developments. Unless the "coup" was carried through with the skill of that of the third Napoleon, and the leaders of the Chamber are already in the prisons of the capital, the Douma will be able to set up an independent government on the shores of the Gulf of Finland, and invite the people to rally to their support. Not a little will depend upon the thoroughness of the "coup," and of that we are hardly able yet to judge. A military movement by a court against an elective body may be very effective, if it be prompt and complete, but an abortive "coup" is the worst of errors.

Meantime, affairs in Russia are entering upon a stage which will command the closest attention of the world. History of the titantic sort is being made these days in that mighty empire. Names are being written on the newspaper page which tomorrow will be found engraven on the enduring tablets which record the greatest deeds of the race. We are privileged to stand in the gallery—and at a safe distance—and watch the development of one of the half-dozen mightiest dramas of history. Just so men stood breathless and watched the working out of the French Revolution. Just so they stood a little later and watching the crushing out of the German Revolution.

Into which category will this tremendous drama go?

MILK AS HUMAN FOOD

Case of Six-Year-Old Boy Who Has Never Taken Any Other.

Glasgow, July 24.—The discussion concerning milk as a health food has been given a queer turn here. A case has just come under the observation of the local physicians, and it is said there is only one similar case on record—that of a six-year-old girl living in Monticello, Virginia.

The case in point is that of a boy living at Penarth, who has existed entirely on milk since his birth six years ago. His name is Arthur Keene. He lives with his mother and father, and he is one of four children. He will not take anything but milk. The choicest morsels of food have been offered him, but he refuses to be coaxed away from his milk diet. On one occasion his mother forced food down his throat, but it made him ill at once, and he asked for milk. His diet each week consists of thirty pints of milk mixed with sugar and water, which is by no means an excessive quantity for even a twelve-months'old infant.

Yet in spite of this scanty and monotonous diet, the boy is fully developed, of normal size and of good weight. He is inclined to be a bit rickety, and is rather nervous. He attends Penarth Council school, and is of a most cheerful disposition. He has puzzled the doctors of Penarth. They have carefully examined him, and they confess that the case baffles them completely.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Dreyfus Decorated, Had Heart Attack

Paris, July 24.—In the presence of a distinguished military assemblage, Major Alfred Dreyfus yesterday received the Cross of Chevalier of the Legion of Honor. The ceremony which occurred in the court yard of the military school, was rendered doubly impressive by being held on the very spot where the buttons and gold lace were stripped off his uniform and his sword broken twelve years ago. General Gillain attached the decoration to Major Dreyfus' breast and felicited him on his well-earned honor. The major replied briefly. The ceremony was over in five minutes. The general, Major Dreyfus, and the army officials retiring amid the dipping of flags and a roll of drums.

On reaching his residence, Major Dreyfus, who is affected with heart trouble, suffered a violent attack, but, thanks to his strong will power, the faintness soon passed away, and he was able to receive Procurator-General Baudouin and Brigadier-General Picquart, to whom he expressed his sincerest thanks for their exertions in his behalf.

Weak Kidneys Bright's Disease and Diabetes

Use Dr. Sheop's Restorative to Cure the Cause, If You Suffer From These Symptoms.

Here are the symptoms of Kidney complaints: Urine laden with sediment, brick dust in urine, highly colored urine, greasy froth or bloat in it, urinary measure in urine, unusual desire to urinate, pain in passing water, pain in the back and over the kidneys, hot, dry and itching skin, hair dry and brittle, painful joints, legs feel heavy, sleeplessness, dullness, loss of weight, chilly sensations, loss of memory, general debility, irregular heart, disordered stomach, trouble with breathing, waxy skin, fever, clothing from ... loss of ... standing. An improvement is often ... or treatment is often worse than none. Most Kidney medicines get their ... from ... remedies called ... diuretics. These are practically ... kidney physics, acting as cathartics ... set on the bowels. They excite the kidneys to unusual action, they cause over-... strain. These diuretic remedies are those ... relieve the frequent cause of serious kidney disease. Don't try to doctor the kidneys themselves, for you will only harm them. Their only strength is nerve power. Dr Sheop's Restorative vitalizes the nerves that operate the Kidneys. Sold by

If Your Back Aches

Half-Sick

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich and healthy, gives courage and strength. Ask him if it is not just the medicine you need.

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner.

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country—annually. But as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 6% per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

101 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

Commonwealth Trust Bldg, St Louis, Mo

HUMOR

HE WAS RATTLED.

A Lover's Effort at Seeking Sweetheart's Hand in Marriage.

He had been told that he might "ask papa," and he had planned to do it in these words:

"I daresay that you know, Mr. Rocks, that I have been paying your daughter Madge marked attention, and now I have come to ask her hand in marriage. I know that I am a poor man, but I am an honorable one, and I am not afraid to work. We are willing to fight the battle of life as bride and bridegroom, pilgrims of life together. I love your daughter devotedly, and I have come to ask your consent to make her my wife."

That sounded all right when he read it for the fiftieth time from the sheet of paper on which he had written it, but this was what he really said when he stood before Mr. Rocks, with his teeth chattering and beads of cold perspiration on his brow:

"I—I—dare say that—that is, Mr. Rocks, I—I—your daughter Madge has been paying me marked attention—er—no; I have been paying her marked attention, and I—I we are willing to fight—or the battle of life—I mean that your daughter seeks my hand in marriage—er—no; I—I—seek her hand, and—and—I love you—er—no; your daughter, I mean, she—she that is, I—I—have come to ask your consent to be my wife—that is, I—love you devotedly—your daughter, I mean—she loves me devotedly—no; I mean that I love her—and she—she—I trust I make my meaning clear, sir."—Lippincott's Magazine.

An Honest Tramp.

"Lady, won't you give a poor old fellow something to eat? I'm an honest man," pleaded the tramp at the back door.

"Prove your honesty," suggested the sweet little woman.

"I have not suffered from the San Francisco earthquake."

Without another word he was taken in and given such a feast as seldom falls to the lot of those who take so many free rides on the railroads.—Judge.

Foolish to Worry.

"Oh, dear," she said after the musicale, "I'm so mortified that I don't know what to do. I can't imagine what caused my voice to break as it did. It never happened before. What must Mrs. Waddington's guests think of me? How can I ever explain it?"

"Don't mention it," her friend advised. "They were all so busy talking while you sang that probably nobody noticed it."—Chicago Record-Herald.

Get Busy, Young Man.

Miss Yerner—Mr. Hussel was going to call on me this evening, but he heard you were to be here.

Mr. Sloman—Ah! Perhaps you would have found more pleasure in his visit.

Miss Yerner—Well, I don't know that his visit would mean so much pleasure, but I'm sure it would mean business.—Philadelphia Press.

Nautical Finance.

Mrs. Yacht (superciliously)—My husband has a beautiful yacht. I don't suppose your husband can afford such a luxury yet?

Mrs. Nacht—No; the best he can do is to hold the mortgage on the one your husband has.—Bohemian.

A Variable Route.

"Pete," said Meandering Mike, "don't you kind of envy dese fellows dat play golf?"

"No," answered Plodding Pete. "I'm fond of walkin', but when I start to travel I like to know which way I'm goin'."—Washington Star.

Incongruous.

"Of course he's a bit of a bore, but everybody agrees that he's a genius."

"Impossible! Genius is an infinite capacity for 'taking' pains, not 'giving' them."—Detroit Free Press.

Another Failure.

Diggs—Blowitz is a victim of misplaced confidence.

Biggs—In whom did he confide?

Diggs—In himself.—Detroit Tribune.

Something Wrong.

"Somehow, Wilium, after I bin eatin' awhile me appetite seems to go off like."

"Thee beest ill, Jarge. Oi never veals like that thur."—Tatler.

Willie's Measurement.

"How tall your little Willie is."

"Isn't he? He can almost reach the jam on the top pantry shelf."—Cleveland Plain Dealer.

Four 15 Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Susquehanna Bridge, Niagara Falls, at 3.50 and 7.15 a.m., 7.15 and 9.41 p.m. Tickets allow stopover at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

A STARTLING LIST

Killed in United States on the National Holiday.

Chicago, Ill., July 24.—The Record-Herald says: On the day after the Fourth The Record-Herald reported one dead in Chicago and thirty-seven dead elsewhere. By Tuesday night the dead in Chicago had increased to ten and the dead elsewhere, as far as reported, to ninety-six.

The slow horror will continue until a great many more names are on the list.

On the corresponding date last year The Record-Herald's reports showed fourteen dead in the city and eighty-three elsewhere, so there is little to choose between the two years. Such reports are necessarily incomplete, and it will not be till The Journal of the American Medical Association compiles its revised statistics for the year that we will know with any degree of exactness whether there has been progress or the reverse.

Of the ten Chicago deaths reported reported, two were incidental to the celebration, rather than caused by fireworks or firearms directly. One child choked by trying to swallow part of a dynamite cane and another was injured in a merry-go-round accident. Of the eight remaining deaths one was due to a runaway for which a cannon cracker was responsible. There were two deaths from accidental shooting, two from lockjaw following firecracker wounds, two from lockjaw following blank cartridge wounds and one from injuries received in the explosion of a toy cannon.

It takes an ancient granny masquerading as a swashbuckler to defend this sort of thing in the name of patriotism.

U. S. Troops Suffer a Slight Reverse

Manila, July 24.—A detachment of constabulary, Lieut. Williams commanding, encountered a band of 600 Pulajanes near Burauen, on the island of Leyte yesterday. Lieut. Wenwick, twelve privates and Civilian Scout McBride were killed.

The constabulary were driven back. The Pulajanes secured 11 rifles and two revolvers. The bodies of Wenwick, McBride, and two privates were recovered. Reinforcements of constabulary have been sent to the nearest station.

Major Neville, commanding the military, has ordered a company of 24th Regular Infantry to be hurried to the scene. Major Neville reports that there are from 400 to 1,000 Pulajanes in the field. Lieut. Warwick was a graduate of the University of Kansas and was appointed to the constabulary last February. He graduated from the constabulary school on June 30, and this was his first battle. Burauen is situated in an isolated portion of Leyte.

Department of Railways and Canals, Canada

WELLAND CANAL

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an 800,000 bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jamieson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 1½-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

COBALT

THE
WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $150,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark, McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably not you from 50% to 100% each year. Write for particulars.

Improve Your Complexion

Give Up Cosmetics and Seek the Cause of Your Bad Color.

When it's so easy to bring back the bloom of youth, to remove the blemishes and fill the hollows, isn't it foolish to plaster on cosmetics?

Hollowed, skin and fallen in cheeks are produced by disorders of the alimentary canal.

Remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of.

Just imagine how much happier you will feel when those pimples and murky look have gone.

Dainty looks came to Miss Vrooman, a well-known resident of Belfast, from using Dr. Hamilton's Pills. Read what she says:

"My friends all admit that I have a very delightful complexion. This I owe positively to Dr. Hamilton's Pills. I used to look so yellow I thought it might be jaundice. There was simply no color in my cheeks at all. Today my skin is clear and never gets that murky, dull appearance it had before. Dr. Hamilton's Pills have also given me a good appetite and improved my general health also."

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c. per box or five boxes for $1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

543 Water Street
or P. O. Box 831, city.

Mosquito Plague on St. Lawrence.

As summer cottagers and campers on the Ottonabee river and Kawartha Lakes are complaining about the prevalent plague of musquitos this summer, it might be balm to their lacerated tempers to learn that the Brockville Recorder says that, "The musquito pest of the present season has never been equalled. Hotels on the St. Lawrence river have to put out their lights to prevent these midnight singers from entering by thousands. Camphor and ammonia are being used as a preventative against bites."

THE NEW TERM

Steel for the roof of the new carpet factory is arriving, and the work is being rushed so rapidly that in a short time they will be able to put in the machinery, some of which is already here.

Jimmy Reynolds On Another Trip

Will go to Toronto and Return in Twenty-Four Hours.

The Port Hope Guide says: Jimmy Reynolds, who won so much glory on his recent successful walk to Toronto is about to make another trip. This time Reynolds intends to walk to the King Edward Hotel, Toronto, and return a distance of 134 miles in 42 hours. He has his choice of any day in August to make the trip and has been given odds of $600 to $300. It is a long trip and to our mind one that would keep an expert walker busy in covering. There is such a thing as overstepping the mark and we fear that Jimmy has done so on this occasion. A forfeit of $20 has been deposited by both parties.

A Slight Blaze.

Yesterday morning the fire brigade had a run to extinguish a blaze at the residence of Mr. James Hogue, Dublin street. One of the children started a fire upstairs, while playing with matches. The blaze was put out before the firemen arrived.

Putting Down the Pipes.

The Peterborough Light & Power Company began excavation on Water street ten days or more ago, and now have a gang of men at work putting in the new gas pipe and filling up the trench, which extends two or more blocks. It is the intention of the company to greatly enlarge their gas plant throughout the city.

WILL SOLVE THE PROBLEM

when a coffee drinker is ailing—

POSTUM

10 DAYS

Get the little book, "The Road to Wellville" in each pkg.

The Late John F. Gow

Demise of a Former Resident of This City in Dummer.

A former resident of this city, in the person of Mr. John F. Gow, passed away on Saturday last at his home in Dummer, near Warsaw. He was a resident of the township about thirteen years and the funeral took place on Monday, the remains being interred in Little Lake cemetery, Peterborough. He was afflicted with indigestion. The late Mr. Gow leaves to mourn his loss two sons, Charles and William, and three daughters, Mrs. Edwin Hamblin, Mrs. David Payne of Dummer, and Miss Bessie, who resides at home. His wife died a number of years ago. Mr. George Brown and Miss Lizzie Gow of Peterborough are sisters of deceased. Another sister, Miss Annie Gow, lives in Perth.

The late Mr. Gow was highly respected and many friends will learn of his death with regret.

Shall We Have A Fall Fair?

This afternoon at 2:30 there will be a meeting to discuss the advisability of continuing the Industrial Exhibition. It is to be hoped that everyone interested in the fair should attend and that they will not be backward in expressing their opinion as to whether we shall have a fair and how it should be conducted to ensure success.

A NARROW ESCAPE

A Street Labourer Had a Narrow Escape from Death.

While working on the new storage tank which is being erected at the gas works, a laborer named Peter Sheridan had a bad fall, which came near being fatal. He was working with the riveters, and lost his balance, falling a distance of about 30 feet. He lit on his feet, but was pretty badly shaken up. He will probably be laid up a couple of weeks.

A National Necessity.

The growing independence of the Provinces of this Dominion must be apparent to all. The product of one is a necessity for another. Not alone are the eyes of the Eastern Provinces, but those of every country in the world, directed to the almost phenomenal wheat producing qualities of Manitoba, Saskatchewan and Alberta. Every hamlet, concession and side line in Ontario has contributed to the settlement of these fertile western Provinces. The crops, according to Governmental reports for this season, if safely harvested and garnered, will far surpass previous years in quality and quantity.

It is estimated 20,000 farm laborers will be required from the older provinces in assisting in the harvest of their wealth. The sons of the West are now urgently appealing to the parental and patriotic instincts of the farmers of the East to send every strong, able-bodied man they can to aid them in this work of national importance.

The Canadian Pacific Railway has made the wonderful growth of the West possible. In the saving of the wheat and other crops, the interest of Canada and the Canadian Pacific are identical. The latter is Canada's National Highway. It has announced that on August 14th, 15th and 22nd, it will transport from different territories in the East farm laborers to the Canadian North-West at the nominally low rate of twelve dollars; in fact, this National highway is offering an inducement to European farm laborers by making an exceptionally low rate over its Atlantic steamship service in connection with its railway lines. It now remains for the Ontario farmer to show his pride in the growth of his nation by co-operating with the Canadian Pacific in sending every available able-bodied man he can to the West.

Tried to Pass a Bad Cheque

Keene Man Arrested in Toronto on Charge of Fraud.

Mail and Empire: James H. Schreiber, who gave his address as Keene, Ont., was arrested last night, charged with passing a cheque on Frank Melville, of the Confederation Life Building, for $75 on a Winnipeg Bank, for which there were insufficient funds. Schreiber said that he had come from Saskatchewan and that he was engaged in the real estate and insurance business. In a business transaction with Melville and Co., he tendered the cheque. When it was presented at the Winnipeg bank, payment was refused on the ground that Schreiber had only a small deposit in the bank. When the cheque was returned Mr. Melville asked Schreiber to pay him the money. This he promised to do, but failed to keep his word, but he was on the point of leaving for Peterborough when he was arrested by Detective Newton at the Daly House. The police believe that the man under arrest has been passing a number of similar cheques in the West.

Will Go To Kirkfield.

The annual outing of the Peterborough and Lindsay council of the Knights of Columbus will be held this year to Kirkfield. The trip will be on Thursday, Aug. 2nd., and the boat will be taken at Lindsay for Kirkfield, where the new lift lock will be viewed.

Boys in Trouble.

Mr. Robert Redman, 469 Donegal street, complains that the boys have been bothering him by stealing his fruit. He has lodged a complaint at the police court against a lad named McManus. The case will come before the police magistrate this morning.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for woman's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine, especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist if this is not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through druggists for domestic use can show any such professional endorsement. This, of itself, is of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of the alcoholic compounds.

The "Favorite Prescription" cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal "examinations" are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of customs and mailing only, or 21 cents for a copy in flexible paper covers, or 50 cents for a cloth-bound copy. Address Dr. R. V. Pierce as above.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

Pilgrims for The Holy Shrine

About 300 Persons Left Yesterday Afternoon.

Yesterday afternoon the annual excursion to St. Anne de Beaupre, left by special C.P.R. and G.T.R. trains(?) Among those who took in the trip are:

Mrs. P. Torpey, Miss Agnes Torpey, Mrs. Murray, Mrs. McCullough, Miss Carrie McCullough, Mrs. Jas. Scollard, Mrs. Wm. Cavanagh, Miss Mary McCullough, Mr. Frank Grady, Miss Annie O'Neil, Mrs. A. Blackburn, Mrs. Letellier, Miss Nora McMartin, Mrs. Chas. Faux, Mrs. John Dwyer, Miss Annie Dillon, Mrs. Kennedy, Miss Nellie Bowren, Mr. John Sullivan, Miss Lizzie Bowren, Mrs. D. McGrath, Miss Annie Horrigan, Mr. and Mrs. Richard Gilman, Mrs. J. Gilman, Roger Devlin, Miss Nora Devlin, Mr. Robt. Laing, Mr. and Mrs. Jas. Killen, Mrs. Patrick Crowley, Mr. D. Flaherty, Mrs. Wm. Mosher, Mr. John Conroy, Mr. J. Donohue, Mr. W. Butler, Miss Deedy, Buffalo, Mr. and Mrs. Ed Hackey, Mr. and Mrs. M. J. Hickey, Mrs. E. L. LePlant, Mr. and Mrs. J. Hayes, Mrs. D. Felley, Mr. and Mrs. Barrett, Miss Cain, Misses Daignault, Mr. and Mrs. P. Allen, Mrs. Kylie, Misses Lacheur, Mr. T. McCabe, Miss Lynch, Miss K. McNamara, Dr. McNulty, Mrs. A. Sawyer, Lakefield; Miss Gordon, Miss McCabe, Miss A. Gilman, Mr. M. S. Orouch, Miss Lillie Galvin, Miss Mahoney, Mrs. J. P. Flood, Miss M. Young, Mrs. P. E. Corkery, Mrs. J. K. Galvin, Lloyd Hamilton.

HAS LEG AMPUTATED

Mr. H. A. Mulhern Undergoes Serious Operation.

The many friends of Mr. H. A. Mulhern in this city and elsewhere will deeply sympathize with him and his family in the serious operation which he was forced to undergo on Monday last, by the amputation of his left leg just above the knee.

Mrs. Mulhern, who was with her husband, and who returned yesterday from Toronto, in answer to a telephone message, stated that Mr. Mulhern was doing as well as could be expected. He was buoyant and hopeful, and stood the ordeal well. His hosts of friends will hope for his complete recovery.

Should Be Fixed.

Complaints have reached The Times regarding the condition of the walk in Victoria Park, from the fountain to the top of the mill. In its present condition it is certainly no credit to the city. The old walk should either be repaired or a new one put down at once.

Edmonton Penitentiary.

Edmonton, July 25.—G. W. Dawson, inspector of penitentiaries, is arranging for the opening of the new penitentiary here. The building will be ready for occupation by August 1st, and on August 2nd a contingent of 24 prisoners will arrive from Stony Mountain penitentiary.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful cource of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

FARM LABORERS' EXCURSIONS

1906

The governments of Manitoba and Saskatchewan report this year an exceptionally good wheat crop, and advise that as many as twenty thousand laborers will be needed during the harvest season. To meet this demand the Canadian Pacific Railway will as usual run FARM LABORERS' EXCURSIONS from Ontario points to Winnipeg, and thence to stations in the west where help is needed. The going dates are:—

AUG. 14 Stations south of, but not including main line, Toronto to Sarnia, including Toronto.

AUG. 17 Main line Toronto to Sarnia and stations north, except north of Cardwell Junction and Toronto on North Bay Section.

AUG. 22 From all points Toronto and east to and including Sharbot Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland Divisions.

Going far $12, return ticket to starting point for $12 additional, if conditions are complied with.

For full particulars write C. B. FOSTER, D.P.A., C.P.R., 71 Yonge St., Toronto. A postal card will do.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 178 PETERBOROUGH, ONTARIO, THURSDAY, JULY 26, 1906. PRICE TWO CENTS

Urged to Submit to The Imperial Degree

Members of Duma Who Opposed Its Official Action Suggest that Czar Only Exercised His Legal Prerogatives.

St. Petersburg, July 26.—Count Heyden Prince Lvoff and M. Nekrasovick, the three members of parliament who refused to sign the address to the country issued at Viborg, on July 23, yesterday issued a separate address appealing to the people to submit quietly to the imperial decree dissolving parliament and to prepare for the election of members to the new parliament.

The address points out that the emperor acted within his constitutional rights under the fundamental law and says that the signers of the address in offering this advice act from the profound conviction that it would be a crime in the midst of the present dangers to attempt to shake the power of the sovereign.

After briefly setting forth the views of the signers of the address regarding the solution of the agrarian and other questions and their dissent from the government program, which made co-operation between parliament and the ministry impossible, the address says the emperor only exercised his legal prerogative in submitting the issue again to the people to decide whether the views of Parliament actually coincided with the sentiment of the nation.

It then appeals to the people to prove by their calmness that they are fitted for self-government and at the same time to show the monarch by the representatives whom "they consciously elect" what they desire, and it abjures them not to use force, which would be criminal madness, as it surely would provoke severe measures, adding, "The government is compelled to maintain the integrity of the State and the safety of the citizens at any price. Resistance with force not only means an enormous number of fruitless sacrifices, but will also bring holy Russia to final economic and political ruin."

It adds that a financial crash is impending, as the government is resorting to Count Witte's old system by which millions are used in certain and Paris as well as in St. Petersburg to bolster up Russian bonds.

This is the only indirect reference made by the press to the parliamentary appeal to the country to cut off be government's supplies by refusing to pay taxes.

In the provinces the suppression of newspapers and the arrest of agitators continues unabated.

NO NEWS LEAKS OUT.

St. Petersburg, July 25.—No word of the military disorders is now permitted to be published.

Discussing the financial question the Bourse points out that the quotations of Russian securities here and abroad are not a true barometer.

STABBED TO DEATH.

Warsaw, Russian Poland, July 26.—Colonel Salomatoff, of the gendarmerie, was stabbed to death here yesterday. The assassin escaped.

CASTLE IN FLAMES.

Mitau, Courland, Russia, July 26.—Rempter Castle, situated near Tukum, one of the finest and most ancient in Courland, is in flames.

Armed revolutionists are again in possession of the surrounding country. Two columns of troops are advancing respectively from the east and west.

TROOPS ARE MASSED.

Moscow, July 26.—The massing of troops in this city continues. The guarding railroad lines are carefully guarded, and the whole city is under semi-martial law.

In addition to the regular troops guarding Nicholas station, the terminus of the line connecting Moscow and St. Petersburg, a machine gun detachment is on duty there.

FACTORY HANDS STRIKE.

Riga, Livonia, Russia, July 26.—Nine thousand factory workmen here struck work yesterday.

FINNS EXCLUDED.

Raval, Esthonia, Russia, July 26.—A steamer landed with Finnish workmen arrived here yesterday, but the authorities would not permit them to land, and the vessel departed, the men singing the "Marseillaise."

SEVENTY JEWS ARRESTED.

Odessa, July 26.—This city is comparatively quiet today. About seventy Jews have been arrested on suspicion of belonging to a self-defence organization.

Expenditure for Trent Valley Canal

The Dominion Government has now decided to expend quite an amount this year on the Trent Valley canal. Among the items covered are;

Dredging Little Lake, $1500.

Dredging channel in Lake Katchewanooka, $2500.

Dredging in Otonabee river below Peterborough, $1500.

New storehouse at Peterborough, $1500 at No. 6 lock.

New landing pier at entrance of Buckhorn Lake, $2500.

New landing pier upper entrance to the lock at Young's Point, $2500.

Buoying out channel in Stony and other lakes, $1000.

Painting bridges, $1500.

Lockmaster's residence at No. 4 lock, $1500.

General repairs, $23,500.

The major part of this expenditure will be in West Peterborough, and the appropriations have been made at the instance of Mr. R. R. Hall.

At Burleigh in East Peterborough, $3500 will be spent in repairs to the lock there.

In addition to all the above $15,000 was voted for maintenance and repairs to the Balsam Lake division of the canal.

Lindsay has not been forgotten, either, for $2500 is included in the moneys to be spent, for a new steel arched across this river at that town.

Booze Factory Employes Here

Large Excursion of Gooderham and Worts' Distillery Coming Today.

Today will another large crowd of Toronto excursionists will arrive in the city. This time it is the annual outing of Gooderham & Worts' big distillery, of Toronto. It is expected that the outing will be patronized by 600 or 700 persons. They will arrive by a special train on the C.P.R., and will enjoy a program of sports at Jackson Park during the afternoon.

The 57th Regiment Band has been engaged for the afternoon and will provide several selections at the park.

Was E. B. Eddy a Poor Man?

Officials Cannot Understand Why Nothing Remains of Great Fortune Made by the Lumberman.

Ottawa, July 26.—Developments in connection with the proceedings against the executors of the estate of the late Ezra Butler Eddy by the government of the Province of Quebec for succession duties will be noted with interest in Ontario, where the late lumber king was well known. Mr. Eddy was widely regarded as a multimillionaire, and the fact that his estate was claimed by his executors in their official statement, deposited with the collector of provincial revenue, as worthless after payment of debts and bequests, was received with general astonishment.

The pulp and paper mills and match factories established by Mr. Eddy and bearing his name on the Hull side of the Ottawa River are among the most extensive and costly in this continent. Mr. Eddy was practically the founder of the City of Hull, his many industries there and his lumbering operations in the upper Ottawa forests affording employment to most of the able bodied male inhabitants and a large proportion of the working girls and women from the time Hull began to be a manufacturing center.

The enterprises in which Mr. Eddy engaged required large capital and some of the Canadian banks became interested, and eventually a company was formed, taking over the principal Eddy properties, Mr. Eddy himself remaining the leading principal. How far he was really in control and what the various interests in the Eddy factories, mills, and timber limits actually were must be established in the law courts if these most unfortunate proceedings are allowed to go on.

LAWSUITS WITH DAUGHTER.

Mr. Eddy lost his first wife some years ago and married again. His only daughter by the first wife also married, and, after the second Mrs. Eddy entered the Eddy homestead as its future mistress, left her father's house and took up her residence elsewhere, claiming certain jewelry, laces and valuable personal property and real estate as her own. The claim was resisted and law suits followed.

When Mr. Eddy's death occurred, the executors had a complicated state of affairs resulting from these successive phases of events to disentangle. On the government of the Province of Quebec putting in its claim for succession duties amounting to over a quarter of a million dollars, the trustees pleaded entire exemption on the ground of alleged debts and bequests leaving no estate on which taxation could be levied.

The provincial government declines to accept this statement, and the true condition of the estate will have to be ascertained by process of law unless the executors abandon their plea and consent to make the payment demanded.

Program of Coming Regatta

List of Events for Sturgeon Point Annual Races.

The date of the Sturgeon Point regatta has been finally arranged for Thursday, August 10 h. The program is as follows;

1. Sailing race for Sturgeon Lake championship flag, open to any class
2. Dinghy race, six miles.
3. Canoe paddling, tandem, girls.
4. Canoe paddling, tandem, girls 18 and under.
5. Canoe paddling, tandem, boys.
6. Gasoline launch, 21 feet and under. Two minutes allowed to 18 feet or under, three miles.
7. Canoe paddling, lady and gentleman
8. Crab race.
9. Canoe paddling, 4 boys, 19 and under, three in canoe.
10. Canoe and swimming obstacle race.
11. Power boats, 35 feet and under, three miles.
12. Capture of the raft, 3 a side.
13. Tug of war, three canoes.
14. Upset race.
15. Gunwale race.

Races will commence sharp at 1.30 p.m. Suitable prizes will be given in the different events. Detailed programme with prize list, will be issued later.

Committee — J. D. Flavelle, W. Lloyd Wood, A. B. McIntyre, F. A. Clarry, B. L. Morgan, W. H. Simpson, F. Crandell, R. A. Millar, J. C. Grace, G. Sterling, Ryerson, M. D. Joseph Brown, J. M. Knowlson, D. Cinnamon, A. O. Hogg, W. W. Jones, chairman of committee; C. H. Grantham, president; G. H. Hopkins, secretary Lindsay.

Ottawa's Population Increasing.

Ottawa, July 26.—The Might Directory for this city for the current year has just been issued. It contains 37,-790 names, an increase of 640. By the usual method of multiplying the names by three, the Might publishers estimate Ottawa's population to be 94,370. The fourth decennial census of 1901 gave Ottawa a population of 67,690.

Demand Higher Wages.

Halifax, N. S., July 26.—Coal workers in Halifax engaged on the wharves in bunkering and in other ways have been receiving 20 cents per hour for day, and 25 cents for night work. They have gone on strike, with a demand for an increase on both rates of ten cents an hour. The Dominion Coal Company and other employers are willing to grant a five-cent increase, and it is likely the compromise offer will be accepted.

POLICE NEWS

Daily Happenings in Court Room and Station.

Only one case was tried at the police court yesterday that of a little boy named McManus, charged by Mr. Redmond of Donegal street, with stealing fruit and incidentally an infinity of crimes (!) such as all small boys regard as "fun." Redmond, whom it would appear has an antipathy to small boys in general, and who in consequence does not receive the highest regard from the boys, only had one witness for the prosecution, said witness being about the size of an immature pea-nut. This witness had an attack of stage fright and did not give any evidence materially affecting the case, which was thrown out.

Orillia Lady Dies in Detroit

Mrs. M. I. Youmans Whose Son Lives Here Has Passed Away.

A Detroit despatch says; Mrs. M. I. Youmans, 49 years of age, of Orillia, Ont., is dead as the result of stepping from a rapidly-moving Jefferson avenue car late last night. Her injuries were not apparent on examination, and for a short time she was able to walk upstairs to bed. This morning a relapse came, and half an hour later she died. Deceased has a husband at Hamilton, Ont., a son at Peterborough, three other children at Orillia, and a sister in South Grove street, Ypsilanti. She came to Detroit, May 10 of this year for treatment for deafness.

The Fall Fair Now In Sight

Meeting of Citizens Held in Council Chamber to Consider the Prospects.

Yesterday a meeting of citizens specially called to consider ways and means of holding the Peterborough Industrial and Agricultural Fall Fair, met in the council chamber with Mr. Dawson Kennedy in the chair.

Our readers will remember that one reason of the fair being in a moribund condition as far as being held this fall, was that the city council decided to only give $400 towards it. The fair directors asked them to give $600 or to guarantee $1000 in case of wet weather; this the council declined to grant.

At yesterday's meeting, that should have drawn several score of our merchants and other citizens interested directly in having the fair held, only about eighteen were present.

After some discussion, it was moved by Mr. George Elliott, seconded by Mr. Collins, that the fair directors be requested to go ahead with the fair. A committee was appointed to go round among the citizens, and try to raise the necessary $200 asked of the council. If this committee are successful in raising the extra amount it is altogether probable the fair will be held.

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

Replaced Burned Barn.

Stratford, July 26.—Because the Rev. J. Henderson was president of the Local Option Association of Brigden, and carried on a vigorous campaign against liquor selling, he made plenty of enemies who eventually burned down a barn. This has now been replaced by voluntary contribution.

Clever Capture of Robbers.

Wallaceburg, July 26.—A. L. Campeau, of the provincial police, from Windsor, with the assistance of Police Benn, of Wallaceburg, and others made a very clever arrest here last evening. The men arrested were Jas. Jackson and his two sons, accused of having stolen sixteen thousand dollars worth of furs in New York. The thieves had been traced through Montreal and Toronto, to Chatham.

Great Northern's Short Route.

Ottawa, July 26.—In reply to the resolution of the City Council, concerning train service between Ottawa and Toronto, Mr. G. Ruel, assistant solicitor of the Canadian Northern Railway, writes that it is intended to build the road by the shortest possible route between Toronto and Ottawa. The line will be the only railway between Toronto and Montreal that will place Ottawa on its main line.

Fake Salvation Army Man.

Toronto, July 26.—When Edward J. Baker, the fake Salvation Army officer was arraigned with four charges of robbery against him, he said that if the magistrate would throw out three of the charges he would plead guilty to the fourth. The magistrate refused the offered bargain, whereupon the man pleaded guilty to three charges. He was remanded for sentence.

Mr. Aitken Makes a Full Report

As noted some time ago in these columns the city employed Mr. K. L. Aitken, the Toronto electrical expert to make a report on wires, wiring and other electrical conditions in the streets of our city. Mr. Aitken's report, owing to the lack of a quorum of the Board of Works on Tuesday night, was not presented, but a few extracts from the same might be noted. The report is in part as follows:—

Your street systems are not in any worse condition than could be expected in a city which has grown very rapidly, and which has given franchises to two telephone companies and two power companies. The present congested and miscellaneous arrangement of lines is undoubtedly due to this condition, and the tendency will be to get worse. It is extremely difficult to point out a satisfactory solution of this difficulty, but I am strongly of the opinion that a conference should be held with the four companies to prevent the crossing, recrossing and intermingling of their respective lines. Of course, an underground system would be ideal from the corporation's point of view, but it is extremely probable that the cost of such a system would be prohibitory. As a compromise I think a main distributing system, either overhead or underground, running to the corner of each block, would be the most satisfactory. This would carry the bulk of the wires away from the fronts of the buildings and from the streets, the chances of grounding through arcs, or interference with the fire department would be minimized.

The wires at present are very much in the arcs, and this is a source of considerable danger. Grounding in wet weather may result in both personal and fire hazard and I would most urgently recommend that you give the companies every facility for cutting the tops of the trees away from their lines.

The wires of both telephone and power companies are pretty well mixed and crossed. Personal and fire hazard therefore exists. Both through the breakage and consequent falling of wires, and in the actual stringing of new wires.

At the corner of Charlotte and Park streets a service wire is hanging loose.

At the corner of Park and Elm streets a power wire is almost touching a telephone cross arm.

On the west side of George street between Simcoe and Charlotte, the service wires are so arranged as to greatly hinder the fire department.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Lax-ets act promptly, without pain or griping. Pleasant to take—Lax-ets—only 5 cents. Sold by J. D. Tully.

Forest Fires the Worst In Years

Sportsmen Returning From Lake St. John Region Report Conditions are Very Bad.

Montreal, July 26.—Sportsmen, tourists, and others, who are returning from the Lake St. John country, state that the forest fires in that section are the worst in years, and that the country generally is suffering greatly from the protracted drought. It has been many weeks since a rain of any consequence has fallen, the result being that the ground is as dry as tinder and that great cracks have opened up in the sandy soil, as if a volcanic eruption had occurred in that neighborhood.

The smoke from the St. John fires is so dense as to fill the houses and make it almost impossible to breathe. For days at a time the view on Lake St. John is limited to a much prescribed area. The gardens and farms have suffered terribly from the lack of rain. The vegetables have dried up in the ground, while the grass is burned as yellow as dried hay. The pest of flies and mosquitoes is the worst in years, living out of doors being rendered unbearable by the myriads of pests.

Mrs. Harry Thaw Wants a Divorce

New York, N. Y., July 26.—A story has gained circulation and is generally credited that there has been set on foot an investigation in the case of Harry Thaw, which will result ultimately in Evelyn Nesbit Thaw suing for divorce, no matter which way the case against Thaw goes. There were rumors, long before Thaw killed White, that Evelyn had tired of her straight-laced thralldom in Pittsburg and that she was about to apply for a divorce. It was further hinted by her close friends that if she once did apply Thaw would not be in a position to make any fight. There are several persons hard at work getting in data on Thaw which can be used for no other purpose than in a divorce suit. Those in position to know assert that it is being gathered at the request of Mrs. Harry Thaw or her close friends, and that no matter whether Thaw is sent to the insane asylum or tried for murder, application for divorce is sure to be made.

Colonies to Be Favored.

Ottawa, July 26.—A report from the Canadian commercial agent for France alludes to the good work being done by the British Chamber of Commerce of Paris in endeavoring to obtain for British Colonies a most favored national treatment by European countries. The Chamber will continue to protest against the absurdity by which that threatment is not accorded to British self-governing colonies, which do not discriminate against France and other continental countries in their custom tariff.

Indict Chicago Teamsters Again

Chicago, Ill., July 26.—New indictment against union leaders have been voted by the grand jury. It is reported today, on new evidence, in connection with the teamsters' chief, Cornelius P. Shea, and his counselors will be broadened. New and graver charges than conspiracy are hinted to be in store for the men who conducted the strike, with riot, bloodshed, murder and charges of extortion. Prominent men in the labor movement have turned state's evidence, according to reports.

Give Up Answers Or Be Exposed

Detectives Have the Whiphand on Mrs. Miller's Patrons---Over 200 Written to---Alleged Victim in a Hospital Now.

Toronto, July 26.—"Give us her answer or we will subpoena you."

Two hundred women and a few men whose letters to Mrs. M. J. Miller are in the hands of the Crown will be given this alternative.

The authorities are determined to probe to the bottom the dealings of the woman under arrest. To do so they need the replies which she sent out to her correspondents, and if these are not forthcoming subpoenas will be issued, and everyone forced to enter the witness box at the trial.

A number already have given information to the police.

BETWEEN LIFE AND DEATH.

Lingering between life and death a young woman lies in a city hospital, and whether she recovers or dies, the police declare may make a big difference to Mrs. Miller, now under the charge of murder.

Crown Attorney Corley refused to discuss the case although admitting that the woman's struggle against death was being closely watched by the Crown.

"She is too dangerously ill for us to take any evidence from her," declared a police official last night.

It was learned from outside sources, however, that the young woman is unmarried and has been living and working in Toronto, though her home is not here.

The hospital authorities were forced to perform an operation in an effort to preserve her life.

It is hinted in police circles that the prosecution of Mrs. Miller is only the beginning of a crusade against the sale of such drugs as she openly advertised.

There was a large amount of evidence taken at the inquest into the death of Mrs. Bridan, held by Coroner J. M. Orton in the police court room last evening, and the inquest was adjourned.

The result of the post-mortem examination by Chief Coroner Johnson was presented, and also is regarded as very important evidence in the murder charge which comes up again in the police court tomorrow.

Among those who have been summoned to appear as witnesses are the doctor who wife called in, Crown Attorney Corley, Sergeant Duncan, Detectives Wallace, Tipton and Kennedy, several of the neighbors, the engineer of the Bristol Apartments, and the two prisoners.

A CURE FOR LUNACY

Sea Water is the Latest Remedy for Insanity.

London, July 25.—Two eminent French experiments, says the Grand Magazine, assure us that sea water will cure or at least alleviate many cases of lunacy. The explanation is: "Man, like all other animals, descends from a marine ancestor. To place the human organism modified by disease in its original surroundings should, therefore, prove advantageous to it." Starting from these premises, the French doctors have given subcutaneous injections of sea water to a number of insane persons, with, they declare, the most beneficial results. A great number of other diseases—consumption, diabetes and stomach disorders—have also been treated successfully by internal doses of sea water, but only in France, but also in Sweden. Bread has even been made with sea water, and is strongly recommended by those who have benefited by it—not for its flavor, but for its effects.

Have Ten Twins; Want Triplets

Five Times Mrs. Goldman Has Presented Her Husband With Doubles.

Cleveland, July 26.—For the fifth consecutive time the stork left twins at the home of David Goldman and his wife, Woodland avenue, S.E., recently. Their living children now number fourteen.

"I aspire to be the parent of twelve more," declared the proud Goldman today.

"I share my husband's ambition," chimed in Mrs. Goldman, halo and happy, though still in bed.

Eleven of the children, still at home, rejoice with their father and mother, and are proud of the newest arrivals. They are a healthy, congenial family.

"I do feel well enough to be up and about today," said Mrs. Goldman, her face wreathed in smiles, "but the folks insist that I remain in bed. I assure you, I will be up tomorrow.

"As I said, we hope to increase our family by twelve before old age comes. But David and I are now forty-five years of age each, and we hope for triplets or quadruplets the next time."

ST. JOHN TOOK POISON.

Montreal, July 25.—Marcus F. S. Jhon, fur-importer and manufacturers' agent committed suicide in his office in the Temple Building yesterday afternoon by poisoning. St. John had been mixed up in trouble over a large shipment of furs to his office in Chatham, Ont., and when questioned by Detective Carpenter was very nervous. When he heard that a companion named Futall had been arrested, he drank the poison, and died almost immediately.

Ice Dealers Indicted.

Cincinnati, July 26.—Sixteen indictments on charges of restraint of trade in the matter of advancing the price of ice were returned yesterday by the Grand Jury. Ten individuals and five firms were indicted, all being members of the Ice Dealers' Exchange.

Kodama's Distinctions.

Tokio, July 26.—On April 1st, when the late General Kodama became chief of staff, he had conferred upon him the first order of the Golden Kite, the Grand Cordon of the Order of Paulownia, and senior of the third court rank. This was as a partial reward for his military services.

Many Girls Go on Strike.

Philadelphia, Pa., July 26.—Twenty-five hundred girls employed in the shirt waist factory of Puttelman Bros. & Fagan struck yesterday because of the presence of a number of employes distasteful to the majority.

Drowned at a Picnic.

Joliette, July 26.—A young lady by the name of Marie Anna Joly, was drowned yesterday in the river here. With a number of others she was at a picnic, and went to the river to get some water. She was on a raft when she missed her footing and was dead before she could be rescued.

OBTAIN POOR RECRUITS

Tragedy at Quebec Will Induce Greater Care in Selecting Garrison.

Quebec, July 26.—Six stokers connected with the C.P.R. steamer Empress of Britain were taken to the central police station last evening, and identified Peter Walsh, one of the R.C.R. soldiers under arrest for the tragedy that occurred on Monday night on the Louise docks, which resulted in the death of two seamen belonging to the three-masted schooner W. J. Taylor. Edward Wilham Tyro and Thomas Power.

The stokers taken by the police from the Empress are supposed to have witnessed the fight, and were taken up as witnesses, though they protested that they knew nothing whatever of the affair.

The evidence against the accused is very convincing up to the present, and unless some of the witnesses can positively identify the man who stabbed Power before he fell into the water, it will be hard to get a jury to bring in a verdict of murder.

When the body of Power was found a knife-handle was sticking out of his back, which was firmly embedded in his back-bone, and took all the strength of the boatswain to pull it out.

Medical men are of the opinion that this knife severed the spinal column of Power and cut the cord. That killed him before his body touched the water.

The crime, however, is found to have one result—that is, an end to promiscuous recruiting on the part of the military authorities to fill up the various permanent corps.

It has been so hard of late to find recruits to enter the Canadian militia, on account of the prosperity of the Dominion, that the recruiting sergeants have been glad to take anything in the shape of a man, but this will now have to be stopped.

Mrs. George Found

Cleveland, July 26.—The mystery regarding the whereabouts of Mrs. Anna E George, who killed George Saxton, brother-in-law of the late President McKinley, in Canton, eight years ago was cleared up after the suicide at Batavia of Dr. Arthur C. Ridout.

It was learned that she became the wife of Dr. Ridout, at Wheeling, West Va., five years ago. She had lived in retirement since coming to Batavia with him.

Mrs. George was acquitted at Canton of the murder of Saxton after a long trial, it being proved that she shot him in self-defence.

TO RUN FOR COMMONS.

Quebec, July 25.—Mr. Geo. E. Amyot has yielded to the wishes of his many friends, and has consented to come forward as a candidate in the county of Quebec, where a vacancy has been created by the promotion of Hon. Charles Fitzpatrick to the chief justice in the Supreme Court.

Direct to Court of Appeal.

Toronto, July 26.—Mr. J. M. Douglas K.C., on behalf of the Rideau Club, Ottawa, yesterday obtained leave to carry direct to the Court of Appeals the decision of Mr. Justice Mabee, which approved the assessment of the club's property at $16,500 by the city.

Arrested on Serious Charge.

Orangeville, July 26.—A. C. Douglas, druggist, arrived from Toronto yesterday in charge of Detective Rogers. He is charged with being implicated in the death of Miss Wells, who died after a criminal operation. Magistrate Pattullo released him on $1,000 bail.

Pin Your Faith on Ferrozone

A Time Honored Cure for Spring Ailments that Every Physician Recommends.

But every year has seen the popularity of Ferrozone increase, and today it is used by the people of many nations for weakness, debility and the characteristic ailments of spring.

Let Ferrozone help you!

It enriches the blood supply and thereby vitalizes the quickens the whole body.

Humors and impurities are driven off. Disease germs of every kind are destroyed.

Nutritious material is supplied for restoring the waste, and day by day the process of rebuilding goes on till health that outlasts old age is established.

Mr. W. A. Benwick, of 285 Hunter street, Hamilton, Ont., writes: "A year ago I became run down and lost my health. My strength was greatly reduced and on account of the weakness of my heart I was afraid to take up work.

"On going up stairs or walking fast my heart would beat like an engine. I would gasp for breath and get exhausted quickly. At night I would wake up in an excited condition and find my heart going like mad.

"In this terrible state nothing helped me but Ferrozone. Such good it did me I can hardly explain. It built up my strength, put new life in my heart and made me feel like a new man."

Even in advanced cases of weakness Ferrozone is unfailing. Your druggist sells it at 50c. per box or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TEA AS A POISON.

The people of the United Kingdom have come to be tremendous tea drinkers. Their annual consumption is now about 300,000,000 pounds, and we hear occasionally of English "tea drunkards" whose daily allowance is measured by gallons.

Much excessive drinking is, of course, injurious, but it will not explain the general indictment against tea that was written for The National Review by Alexander Haig, a distinguished London physician. Dr. Haig has no use for the beverage in large quantities or small. He classifies it as a poison or combination of poisons which are added by tea drinking to the poisons and the human system is constantly endeavoring to throw off. "The plant organism," he says, "like the animal, must get rid of the poisonous products of its combustion, and having no urinary excretion for the purpose it deposits them in these portions of its structure eventually destined to be thrown off, such as the bark, the leaves and the outer covering of the seeds, from which they do not return into the living plant, and poisoning by its own excreta is thus avoided." In taking tea, then, man extracts certain poisonous waste products which "not only add to his own nitrogenous excreta but also prevent their passage out of the body in the urine, and tend instead to form accumulations of these substances in the tissues and glandular organs."

The effect is exhilarating at first, because the tea poisons act for a short time as a stimulant—

And they do this because they sweep for a time all man's self-formed uric acid out of the circulation, just as adding lime to a lime-charged water throws down all the lime as a precipitate to the bottom of the tank, leaving the water above almost free. In just the same way uric acid added to blood which already contains some throws down the greater part in the tissues or glandular organs. Thus the circulating fluids are for a time almost clear of this obstructing substance, the fires of life flare up, and the animal organism so affected experiences a temporary increase of power, both in muscles and brain cells.

But the reaction is sure to follow, and then the craving for more stimulant which must be satisfied.

To one less learned than the doctor this indictment is very strong as it stands. But the disconsolate tea drinker finds later that it applies to coffee and cocoa and even to meats. He is told that man was originally a fruit-eating animal, and that his proper diet is still fruit and nuts and some grains and vegetables. This calls for such a thorough reform that abstention from tea alone would not seem to be a matter of critical importance, provided the tea drinking has not become a tyrannous habit that is indulged to excess.

JUGGLING WITH FATE

A Young American Girl Takes an Aerial Flight in a Heavy Automobile.

The newest "starter" with the Barnum & Bailey circus this season is appropriately named the "Dip of Death." In Paris, where the act was originally produced, it was known as "L'Auto-Bolide," which, literally translated, means the "auto-meteor." The American title, however, is, according to all preliminary descriptions of the act, the more suggestive. It is evidently a "dip of death"—or would be if the mechanism was not kept up to the standard of absolute perfection, or if the engineers who have it in charge should even momentarily grow careless or indifferent. One New York writer says:

"From the serious viewpoint the Dip of Death is one of the most audacious acts ever attempted in an amusement enterprise. The operator takes her life in her hands or in her auto car, when she mounts to the top of an incline which must be sixty degrees of the arc of a circle, plunges down and trusts to an arrangement of powerful clutches to hold the car in place until it has turned, reversed and is freed from the governing guides. The momentum is so tremendous that the strain on the clutches on the car in place before it turns upside-down, must represent a holding-power of tens of thousands of pounds. The slipping of one tooth in the cog would mean nothing but the flying off of the heavy automobile at a tangent and disaster to its fair occupant. It is, moreover, a singularly pretty and effective act despite its startling danger, and it holds the attention of the audience with a fascination that only those who see the exploit can understand.

The young "woman who dares" in the "Dip of Death" is an American girl—Miss Isabelle Butler. It is said of her that one wonders which to admire most, her beauty or her daring. Her costumes are also said to be of a character to create admiring comment.

The "Dip of Death" is not the only "thriller" being presented with the Barnum & Bailey circus this year. There is a startling novelty, in which two young French bicyclists turn somersaults on their wheels; a remarkable acrobatic performance on a platform suspended in mid-air, a sensational high-wire exhibition by the Carmen Troupe, wonderful aerial flights by the Imperial Viennese Troupe, and many other startling acts. The show opens with the new "Peace" spectacle, founded on the Russo-Japanese war, and the performance that follows serves to present the best efforts of 500 performers from all parts of the world. Those who have seen the show this year say it has reached the high-water mark of excellence in every department. It will be presented here in all its completeness on Thursday, August 9.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

IMPROVE THEIR UNIFORM

An Effort is Being Made by the Militia Department to Better That of the Permanent Force.

Ottawa, July 25.—Those officers of the Corps Guides stationed in the Maritime Provinces command who have not yet qualified will train at Aldershot, N.S., on September 11th, instead of at Sussex, N.B.

A regiment composed of officers, non-commissioned officers and men of city infantry regiments is authorized to train for four days in camps of instruction where rural regiments of that branch of the service are assembled for annual training.

No. 9 company C.A.S.C. is relieved from annual training.

District signalling sections of the signalling corps will attend the camp of instructions in which the corps of the district to which they belong are detailed for annual training.

Noncommissioned officers of Field Telegraphs Canadian Engineers, must obtain three sets of certificates (1) A subaltern's infantry certificate, (2) an equitation certificate; (3) a technical one in field telegraphy and drill.

An effort is being made to improve the appearance of the uniform of the permanent force by giving permission to wear puggaree and white helmet. The badge to be worn except in special cases, will be of the small size used for the cap.

"Free For All" Mail Contract

Montreal, July 25.—Hon. R. Lemieux will today interview members of the export trade in this city relative to the need for a second weekly mail to and from Canada.

At present the exporters are far from satisfied with the existing arrangement and many are advocating an entirely new system by which any steamer sailing between Canadian and British ports, and which comes up to certain speed requirements, say 15 knots per hour, be given the privilege of carrying mails at a special sum per pound.

At the present time it is stated that, in spite of the mail service now in force, fully 90 per cent. of Canada's mail matter to and from Europe comes and goes via New York.

It is also stated that Sir Richard Cartwright and other members of the Cabinet favor a "free for all" mail contract which would include many steamers not now utilized in this service.

Hair Help

So many persons have weak hair, lifeless hair, hair that falls out, splits at the ends, keeps rough and uneven. Such hair needs help. The roots need feeding with a good hair-food—Ayer's Hair Vigor. The hair becomes stronger, grows faster, stops falling out, keeps soft and smooth. Just feed your hair and you will be satisfied with it.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any constitutional, acquired or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Thirty years' experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure or no charge.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Remember the old adage, "a stitch in time saves nine." Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 27 years. **You can pay after cure.**

WE CURE Nervous Debility, Varicocele, Stricture Blood Diseases, Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call, write for a Question List for Home Treatment.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

THE BRIDE'S PROCESSIONAL.

First in importance the bride comes—her dreams,
Ribbons and laces and feelings and fluffs,
Fit of her bodice and curl of her tresses,
Trousseau and trinkets and powder and puffs,
Frills in abundance, tucks in redundance,
Blushes in companies, squadrons, brigades,
Ever renewing (Cupid reviewing
Stands like a general flanked by his aides),
Next come the presents in regiments splendid,
Duplicate ice pitchers, berry sets, spoons,
Silver for heaven knows what all intended,
Clocks, lamps, decanters in solid platoons,
Cart loads and van loads, dray loads and man loads,
Useful and useless, ugly and fair;
Piles of 'em, miles of 'em, myriad styles of 'em
Join the parade with a militant air.
Next come her relatives—uncles by dozens,
Sisters by marriage and numerous aunts,
Multiple nieces and fractional cousins,
Chiefs of the clan, you can see at a glance;
Friends of her mother's, chums of her brother's,
Rest of bridesmaids (efficient as blushers);
Next comes the pastor, of knots the grand master,
Then in importance we notice the ushers.
Next in the order of rank the musician
Comes in this nuptial function of June
Wafting abroad from his lofty position
Lohengrin's quite indispensable tune
Next in the function the butler's grave unction
Marshals the servants through palm covered bowers,
Welcoming blandly, ordering grandly
Men with refreshments and ices and flowers.

Last in importance there stands a young fellow
Close to the bride as she enters the room—
Let him look happy or dazzled or mellow;
No one will notice—he's only the groom!
—Wallace Irwin in Woman's Home Companion.

The Marriage Settlement.

Farmer Farge—I knows my boy ain't wuth your gal, but then my six pigs is wuth more'n your two calves, so that makes it even.

In England.

These American jokes seem to be good only in the States, don'cher know. I was dining with an American lawst summer, and after he had finished his fish he said to the waitah: "Bring me a glawss of watah. This fish wants to swim."

Good joke, bah Jove! When I got back to Lunnon I tried it at my first dinnah. We had no fish, so when we got to the veal chops I said. "Waitah, bring me a glawss of watah. This calf wants to drink." And, don'cher know, they laughed at me and not at the joke. —Lippincott's Magazine.

Confidence.

"So your husband has gone fishing?" said the neighbor.

"Yes," answered Mrs. Wise.

"I hope he will catch a nice lot and bring them home."

"I don't know whether he will catch any or not, but he will bring some home. He always takes his pocketbook when he goes fishing."—Washington Star.

Misjudged.

"Mr. Gibbsbaum," she said after he had talked for twenty minutes of her great beauty, "everybody says you are such a flatterer."

Mr. Gibbsbaum lifted his hands deprecatingly and was about to defend himself when she continued:

"But I believe you are a sincere, earnest man. Pardon me. Did I interrupt your remarks?"—Judge.

Parental Self Sacrifice.

"George," said Mrs. Ferguson, "I know it is early in the evening yet, but would you mind lying down on the lounge and taking a nap?"

"What for?" asked Mr. Ferguson.

"Because the baby is fretful, and your snoring always lulls him to sleep." —Chicago Tribune.

Not Yearning.

"Don't you wish you were a careless, happy boy, back on the farm?"

"No," answered the prosaic person. "I never dared be careless while I was on the farm, and I fail to see the happiness in stone bruises and prickly heat."—Detroit Free Press.

His Distressing Fate.

"Doesn't it give you a nervous feeling to be one of thirteen at table?"

"Well, it gave me worse than a nervous feeling once."

"What was that?"

"Hunger. There wasn't enough for us."—Tatler.

Chance For Him.

Gotrox (dolefully)—I hear you are going to marry Mr. Goodwin. Is there any truth in the report?

Miss DeSweet—I should say not—er—unless he should suddenly fall heir to a fortune and then ask me.—Chicago News.

Engagement Ring.

Jack—Yes, I had a terrible battle with Katharine's heart before she finally accepted me.

Joe—You don't say! How is she now?

Jack—Oh, she is still in the ring.—New Orleans Times-Democrat.

Four 15 Day Seashore Excursions. Only $10.

Freight Conjestion at Owen Sound

Owen Sound, July 25.—"We'll have to have a daily boat here," remarked an official at the C.P.R. to a reporter yesterday, as he surveyed the hundreds of loaded cars in the yards.

The present month is proving a record one in the history of the C.P.R. as far as their Western package freight traffic is concerned.

Notwithstanding the fact that the steamer Glenellah, one of the largest package freight steamers on the lakes was chartered this spring to assist the C.P.R. fleet of three steamers in conveying package freight to the West, a big freight congestion is now at its height, and word had to be sent to Toronto yesterday to send no more freight to Owen Sound for a short time.

The steamer Midland Queen, which arrived in port Saturday evening with a cargo of grain, has been chartered by the C.P.R. to relieve the congestion.

This state of affairs is doubly remarkable in view of the fact that July has heretofore been the slowest month of the entire season in the package freight department.

The Christian Era.

The Christian era began with Jan. 1 of the year 4714 of the Julian period, though different chronologists make a variation of a year or two in this date.

Flowers in Sweden.

A special characteristic of the Swedish women of all classes is their love of flowers. In proportion to its size and the number of its inhabitants Stockholm has more flower shops than any other town in Europe.

Caesar's Calendar.

Julius Caesar's calendar prevailed in Europe until 1582, when it was supplanted by that of Gregory XIII., now in use, which omits three leap years every 400 years.

Signals at Sea.

The flags to be hoisted at one time in signaling at sea never exceeded four. It is an interesting arithmetical fact that with eighteen various colored flags, and never more than four at a time, no fewer than 28,572 signals can be given.

Wings of an Owl.

The wings of the owl are lined with a soft down that enables the bird to fly without making the slightest sound, a very important matter to a nocturnal bird of prey.

Deodorizing Glue.

A teaspoonful of saltpeter added to a large pot of glue will effectually remove its bad odor. Besides, it causes the glue to dry faster and harder than it would without the saltpeter.

Tree Sap Liquors.

Intoxicating liquors have been made from the sap of the birch, the willow, the poplar and the sycamore.

Department of Railways and Canals, Canada

WELLAND CANAL.

PORT COLBORNE ELEVATOR

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Elevator," will be received at this office until 16 o'clock on Wednesday, the 15th August, 1906, for the construction and erection of an 800,000 bushel capacity Elevator at Port Colborne, Ont.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of J. A. Jandeson, Consulting and Designing Engineer, Board of Trade Building, Montreal, at which places forms of tender may be obtained.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $5,000, must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the parties tendering decline entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheques thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 26 miles distant. Ten acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE
WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $50,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M.P.P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M.E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably not you from 50% to 100% each year. Write for particulars.

Stop That Headache!

Foolish to Suffer When a Simple Remedy will Prevent and Cure

Ever stop to think what caused your headache?

Probably not. Then look to the bowels and stomach, and you'll find plenty of cause. Chances are you'll find constipation, liver is sluggish, stomach overburdened with half-digested food.

No wonder you are dull, tired, restless day and night.

You need the cleansing influence of Dr. Hamilton's Pills which cure your condition in short order.

Being composed of natural vegetable remedies Dr. Hamilton's Pills possess great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease.

Headaches never come to those who use Dr. Hamilton's Pills, and this fact is vouched for by the Assistant Manager of the Poultry Success Magazine, of Springfield, O., Mr. J. H. Callander, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resisted everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, help the stomach, and make you feel strong and well. For headaches, indigestion, and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills."

You can rely on Dr. Hamilton's Pills with implicit confidence; their effect is wonderful. Sold by all dealers Price 25c. per box, five boxes for $1.00, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

—Mr F. A. Clarke left yesterday morning for Quebec, where he will take the Str. Empress of Britain for London, England.

—The late Mr. C. Wilhelmy, whose lamented death was recorded in Monday's issue of The Times, we find had insured six weeks previous to his demise for $1,000 in the C. O. F. of this city.

Another Site for Normal School

A member of the Board of Education is now out advocating still another site for the new Normal school about to be erected here by the Ontario Government.

He considers the play ground at the rear of the Central School and Collegiate Institute, facing McDonnel street. The old sheds are now being torn down and there is a large space of ground available. It is central and easily accessible, and is contiguous to a large public school. The Central this being one of the conditions that will have to be considered in the matter of fixing a site.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

Palace Hotel Property Leased.

As foretold in a previous issue of The Times, Mr. M. Pappas, the George street cigar man, has now signed a lease for the property now occupied by the Palace Hotel. This property, which belongs to the Chamberlain estate, has now been secured on a ten years' lease by Mr. Pappas, who will take possession on 1st September. He will have a large number of billiard tables and a barber shop on the ground floor and a bowling alley on the top floor. Mr. James Dolan will probably be in charge of this branch of Mr. Pappas' business, which will doubtless result in a large business being done.

New Books in the Library.

The following new books have recently been added to the Public Library

The Course of Civilization—Devas.
Thunder and Lightning—Flammarion.

Made In His Image—Thorne.
The Man Between—Amelia Barr.
The Vine of Sibmah—McPhail.
The Mayor of Troy—Quiller Couchy.
Coniston—Churchill.

Citizens Building at Sandy Point.

Among those who have bought lots at Sandy Point, Otter Lake, and who intend building, are Messrs. E. A Peck, John Carlisle, C. N. Brown and G. H. Williamson of the Y.M.C.A. Mr. Carlisle has his boat house up and men are at work on the frame of the cottage.

LOCAL INCIDENTS

By The Times Man on the Street

—Children's two and three piece garden tools on sale at 10c. and 25c Times Bookstore.

—The adjourned meeting of the Board of Works will probably be held tomorrow night.

—The Mechanics' Institute will be closed on Thursday afternoons as long as the half holiday is in force.

—During the past few days the street scavengers have been taking a lot of dirt off the streets.

—St. John's church choir will meet for full practice this evening at 8 p.m. "Choral Evensong" on Sunday next.

—St. Andrew's Brotherhood of St. John's church will meet tonight at eight o'clock. A full attendance is requested.

—The general committees in connection with the Grand Lodge meeting of the Independent Order of Oddfellows met yesterday evening.

—Wm. McClure of Holland Landing, while trying to burn out a hornets' nest in his stable, set fire to his buildings.

—Sturgeon Point public wharf is to be repaired by the Dominion Government, and the contract is to be let to Mr. James McFadden.

—At the Waterous Engine Works at Brantford, William Leinster, aged 50, fell dead. He had been employed by the firm for 38 years.

—The Peterborough Light and Power Company have completed a quick and neat job of laying the new three and four inch gas mains on Water street, north of Brock.

—The military orders issued June 22nd, under the heading of Artillery, the following appears; "To be adjutant, Captain W. C. Ackerman, from the 14 h Midland Field Battery."

—The Otonabee council which met recently had it brought to their attention that boys broke a number of cement culverts stored in the hall grounds. Prosecutions may follow.

—A special train consisting of ten coaches, carrying a large excursion from Oshawa, passed through the city yesterday on its way to Lakefield, where it connected with the steamer for Stony Lake.

—Mr. George T. Salter, of the 40th Regt. Band, won the gold medal offered by the Government for the best shot in the regiment at Cobourg. He made 13 straight bulls eyes and a score of 103 out of 112, and also shot with the team for the Cowan Cup.

Annual Regatta At Stony Lake

The annual regatta of the Stony Lake Cottagers' Association will be held on Monday, August 13th (Civic Holiday).

The starting point will be opposite Juniper Island headquarters. The program is as follows:

1. Men's single canoe.
2. Sailing race, for skiffs and yachts, 18 feet and under.
3. Sailing race, all yachts over 18 feet.
4. Canoe sailing.
5. Boys' tandem canoe, 16 years and under.
6. Ladies' single skiffs, with coxswain.
7. Punt race.
8. Ladies' tandem canoe.
9. Ladies' single canoe.
10. Tub race.
11. Tilting.
12. Boys' tandem skiff.
13. Ladies' single canoe.
14. Men's tandem skiff.
15. Swimming.
16. Tandem canoe, lady and gent.
17. Upset race.
18. Indian single canoe, three of more to start.
19. Pleasure launch race, any form of power.
20. Hurry scurry race

St. Luke's Outing Billed for Today

That what St. Luke's church undertakes in the way of entertainments invariably turn out successful is proverbial. The Sunday school excursion, in connection with that church, which takes place today, promises to be a great success. The members and friends intend making it a congregational event, so that a happy time might be spent. The Sunday school officers will have a refreshment booth on board. Races, etc., will be run at Jubilee Point, and prizes given to the winners. A prize for the largest family on board will also be provided.

A Record Black Bass Caught

Yesterday morning Mr. R. Lillie broke the record of this season, at least, by landing a genuine small-mouth black bass, weighing four and a quarter pounds. It is seldom that a black bass that size is caught in the water in or near the city. It measured just 20 inches from tip to tip. Mr. Lillie was out yesterday morning soon after daybreak, and using worms for bait dropped his line in the water at McAllister's farm. He only got the one fish, but he had a lot of fun getting it to shore.

Women with weaknesses should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, it is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Local Men Lucky With Lunge.

While fishing in Chemong Lake the first of the week, Messrs. A. C. Harrau and Roy Walker, of this city, landed two fine lunge, one weighing twenty pounds and the other twelve. This is the best catch of the season.

Nets Seized at Stony Lake.

Mr. James Moore, the energetic fish inspector, was successful in seizing some nets in Stony Lake last week. Anyone having lost them can have the nets by identifying property and paying expenses.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N.Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book *free* that is worthy of your attention if needing a good, safe, reliable remedy of *known composition* for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing *only*, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 50 stamps.

Mr. McNaughton Laid to Rest

Yesterday the last mortal remains of the late Mr. Thomas McNaughton of London, were laid to rest. The funeral was held from the house of Mr. Gabriel Learmouth, Stewart street. Interment took place at Little Lake cemetery. Rev. D. D. McDonald of Keene, conducting the services. Thomas McNaughton died Monday night in London at the home of his parents, and the remains were brought to Peterborough for interment. He was a grandson of the late Mr. T. Blezard.

A Local Conundrum.

Here is one to put you guessing. Last week a local lady taking treatment at a sanitarium, over ten miles from Peterborough, was given her daily bath and massage treatment. The female nurse giving her the treatment, remarked: "I have given over 500 baths to ladies in this establishment and Mrs. ——— is the most perfectly formed woman I ever saw." Query. Who is the local lady?

SPRING CATARRH

Disease Prevalent Now, but Can be Quickly Cured with Hyomei

A great many people suffer more with catarrh during the spring than at any other season of the year, the changes in weather seeming to have a bad effect upon the disease.

Some of the cures made by Hyomei seem marvelous when one remembers that the patients had suffered from catarrh since childhood, and that for years they had been unable to get a good night's sleep, on account of the disagreeable tickling and dropping at the back of the throat caused by this offensive disease. A few day's treatment with Hyomei brought quick relief, and its continued use made a complete and lasting cure.

By breathing Hyomei through the pocket inhaler that comes with every outfit, all the air passages of the lungs and throat are filled with air laden with Nature's remedies for the cure of catarrh. All disease germs are killed, and the irritated mucous membrane is healed.

The complete outfit costs but $1.00, extra bottles 50 cents. Compare this small expense with the fees charged by specialists.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowdon House calling at the Oriental and National Hotels;

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock, arriving in Peterborough at 8.30, will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning at once for Peterborough.

AFTERNOON— Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. Phone 286.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Russian Government Living Over Volcano

Revolutionists are Now Considering the Establishment of a Provisional Government and Calling a General Strike.

St. Petersburg, July 27.—The Government is using every means at its disposal to create the impression both at home and abroad that the crisis has been successfully passed and that the probability of a general upheaval has disappeared.

The semi-official press is filled with comforting assurances that the government now has a firm hold of the situation and that the confusion and demoralization in the councils of the opposition political organization produced by the coup d'etat render united action impossible.

Moreover, the official reports seek to create the impression that there has been little response among the masses to the plan for a general strike as a preliminary to an universal uprising.

The application of the old methods the Government confidently asserts, has already landed the most dangerous of the leaders behind bolts and much stress is laid on the importance of the capture of a number of revolutionary ringleaders at Mogrow, which it turns out was the result of information obtained at the time of the capture of the offices of the Duma here.

Among the papers then seized, the government claims, were the complete plans of a revolutionary military organization, which enabled the authorities to close the revolutionary channels into the army.

As a matter of fact, the Government can hardly be blind to the fact that it is living over a volcano and that the danger of an eruption is far from ended.

For the last 48 hours the Central Committees of the Social Democrats, Social Revolutionists, Peasant Leagues, Railway Men's Union, and Telegraphers Union, and the Military Committee, have been conferring both separately and jointly with the Parliamentary groups, not only on the question of calling a general strike, but actually on the question of attempting a counter coup d'etat by setting up a provisional government.

No final decision has yet been taken, but practically all the proletariat organizations, including that of the railway men, but excepting the telegraphers, have already pronounced in favor of this step.

The members of the group of Social and Social Democrats of the outlawed parliament, believe that another course is open, and are irrevocably committed on the surface, with the Constitutional Democrats, to discountenancing any active revolutionary step, but secretly they have agreed to support or join in it if it does be successfully inaugurated.

It is quite apparent to disinterested persons of the situation that the Government in entering on its present policy made a perhaps fatal blunder in lacking the hardihood to arrest the members of the outlawed parliament. This left them free to conduct a conspiracy against the life of the government.

When the plot is complete and the signal has gone forth arrests will be useless and the Government will again find that it acted too late in closing the political clubs, which has been followed by the closing of all the workmen's unions and suspected tea houses.

The reports from the provinces indicate that the authorities do not fear to employ harsher methods than used at the capital.

The editors of confiscated newspapers are compelled to give bonds as a guarantee against attempts at illegal publication.

Prey to Nicotine Pays Penalty

Mr. John Lees Smoking in Bed is Nearly Burned.

It seems that Mr. John Lees, of George street north, is a victim of the tobacco habit.

On Wednesday night he lay abed hoping for the god of sleep to waft over his head and thus place him beneath the control of Morpheus.

However, a spark fell among the bed clothes, which took fire. When the sleeper awoke, he was enveloped in flames. He sprang out of bed, gathered the bed clothes in his arms and hustled them into the bath tub, and turned on the tap. He then returned to his room with a cupfull of water to extinguish the fire. He found the tick burning, and right in the centre was a roaring conflagration. Cupful after cupful of water was carried in by the frightened man, and poured into the fire, and after half an hour's fast work the blaze was put out. About this time the thought of rousing the other occupants of the house for fear more alarm than necessary would be created.

This is a direct condemnation of the pernicious habit of smoking in bed, which has for forty years been followed by Mr. Lees. This gentleman asserts that he will "cut out" this bad habit. His resolve will bear interesting watching.

Education Board and Council Meet

A joint meeting of the Board of Education and the City Council was held yesterday evening in the city clerk's office.

A full attendance of all the members of both bodies had been requested.

Dr. John Seath, superintendent of education, and Mr. A. H. Colquhoun, deputy minister of education, are anxious to visit the city and look over the proposed spots for the building. Two acres of land are required by the government.

Miss L. Smith is Honored

Pleasing Gift Presented to Employe of C. G. E. Company.

A number of the young ladies employed in the C.G.E. Company's works waited upon Miss Lizzie Smith at her home on Lock street a few evenings ago and presented her with a gold chain and locket, suitably engraved, previous to her departure for the West. A pleasant evening was spent by all present. Miss Smith entertained her guests in an appropriate manner.

Following is a copy of the address which was read during the evening:

Miss Lizzie Smith,—

Having heard with deep regret of your intended departure from our midst, we, your late associates and co-workers, feel that we cannot allow the occasion to go by without expressing to you our high esteem of your sterling character and amiable qualities, as a companion and fellow worker and we would ask you to accept as a slight token of our regard this locket and chain, and may it ever remind you of those you leave behind. We all join in wishing you a bright and happy future in your western home.

M. Troop, W. Moss, C. Guerin, G. Brintin, M. Collins, M. Lake, M. Peory, P. Seabrook, E. Grady, L. Provost, C. O'Brien, K. Calnan, J. Goodfellow, K. Hoxey, K. Downman, L. Chambers, M. Carson, E. Argue, W. S. Robinson, A. Delyer.

Miss Smith will leave for the West, on August 11th, with her parents, Mr. and Mrs. W. Harry Smith.

Preparing For Harvest Crowd

25,000 Men Will Be Wanted Out West and Already Steps are Under Way to Secure Them.

Montreal, July 27.—Great preparations are being made by the Canadian Pacific Railway for the handling of an immense crowd of men and women who are wanted in the Canadian North-West for work during the coming harvest days.

It is estimated that at least 25,000 men and women will be wanted for the harvesting of about 200,000,000 bushels of grain. That is the present estimate, but it is thought by many that it will be even greater.

A Canadian Pacific official stated yesterday that he expects they will have the largest excursions in the history of the road in connection with the North-West harvest. The excursions do not start until August 7, so that at present there are no indications, except the ordinary applications for particulars. The fare as far as Winnipeg from any station in Quebec or Ontario will be twelve dollars or eighteen dollars return, the six dollars for the return trip being payable after the work is over and on presentation of a certificate showing that the holder has worked at least thirty days.

The August 7 excursion will be from all stations of the Atlantic division of the Canadian Pacific Railway. On the 14th from Toronto-Hamilton districts; on the 22nd from points east of Toronto; on the 28th from the Sault Ste. Marie district; on the 30th from the Toronto and Guelph district.

The immigration Commissioner for Manitoba, room 23, 197 St. James street, is now preparing facts for those who want to go and he will have all information for those who desire it.

Arrangements Now Complete

Grand Lodge of I. O. O. F. Now Fully Provided For.

The general committee in connection with the coming session of the Grand Lodge of Oddfellows, which meets in this city during the second week in August next, assembled Tuesday night in the I.O.O.F. hall.

There was a large attendance and arrangements are now almost completed for the entertainment and tabling of the 700 or 800 delegates expected. Outside of the hotels some 200 persons will be accommodated in private houses. Several names of those desiring to entertain delegates have been handed in.

The Toronto Canton will be quartered on the Snowden House, while the Lady Rebekahs, about 100 of whom are expected, will be lodged and taken care of at the Y.W.C.A.

The Oriental hotel will be headquarters of the Grand Lodge officers.

The big I.O.O.F. parade, which will be a feature of the Grand Lodge gathering, will be held on Wednesday night, August 8th. Both the 57th regiment band and the bugle band have been engaged for the occasion, and it is expected fully 1,000 local and visiting brethren will be in the procession, which will be started from Central Park at 8:30 o'clock sharp. Afterwards the Oriental degree will be conferred upon members in the market hall.

On Tuesday night, August 7th, the Canton from Toronto will bestow the degree of chivalry on Mrs. Ryan past president of the Daughters of Rebekah. This is a beautiful and impressive ceremony, which will take place in the market hall. The public will be admitted for a small admission fee. The 57th band will be present. It is expected that the degree of perfection will be conferred upon several Grand Lodge delegates later in the evening.

The Daughters of Rebekah and the Grand Encampment will hold their annual meetings on Tuesday, August 7th, and on Wednesday morning, the Grand Lodge of Oddfellows will open at ten o'clock at the court house. Mayor Beat will extend a welcome on behalf of the city to the visiting delegates, while Bro. Wm. Hill, the newly elected D.D.G.M., of of this district, will address a few words of greeting on behalf of the local brethren, and invite the Lady Rebekahs to take a trip over the lift lock on the steamer Water Lily in the morning, while the boat will make three trips over the lock in the afternoon.

After Bro. Hill's address, Grand Master Bro. T. R. Blewett, of Listowel, will deliver his annual address. The reports for the past year will then be presented and the Grand Lodge will get down to business, which, it is expected, will be finished by the night of the following day. The majority of the delegates will leave for their homes on Friday, August 10th.

All the members of the reception committee will be provided with badges.

The degree of Perfection will likely be conferred in the dining room of the I.O.O.F. hall on Wednesday night.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday things were busy at the police court, and the city treasury was enriched by $16 made up of three twos and a ten spot.

Geo. Thibault pleaded guilty to having been d. & d., and his case was speedily disposed of by paying $2 and costs, amounting to $4.60 in all.

A young lady appeared and paid dear for discovering that the pavements were a little smoother than the city streets, admitting her guilty, she wheeled up $2.

The charge against Roger McIlwain was disorderly conduct in a public place on Monday last. "Guilty" was the reply, and two more dollars rolled in with costs amounting to $4.60.

The most important case was that wherein Rose Graham laid a charge of assault against John McWilliams, and the latter was found guilty and assessed $10, and $1.80 costs, making a total of $11.80, for holding a man up on the street.

Graham said that on Monday night when he was walking up town, heard two fellows, who were ahead of him, say that there was a young man by the name of Graham, who was going to go, nabbed if he went near the south end. Graham said he didn't know the man. He has a girl, and escorted her home. After they reached home about 9.30, he left there about 10.30. When the witness got about the Driving Park, the Defendant stepped up to him and inquired if he was Mr. Graham, and he said, "Yes, sir." "Did you say you could lick me or any four like me?" An altercation then took place which resulted in the police happening along.

McWilliams, the defendant, said he passed Graham with two girls near Perry street on Monday night. Graham put his hand into his hip pocket as he passed. He saw Graham about eleven o'clock near the Driving Park, and went up to him and said, "Good night, Mr. Graham." He then asked him if he and he could lick my four men in the south end. Witness told McWilliams he had a revolver. Graham put his hand in his pocket, and witness grabbed his arm.

Another young man who was in company with McWilliams that night, corroborated his statements.

P.C. Newbail was called and told his version of the racket. He and P. C. McGinty were informed of the trouble and went down to see about it. They heard a scuffle and then arrested a fellow by the name of Petera.

Magistrate Dumble said he was satisfied that there had been a conspiracy to mob Graham. Because the plaintiff knew of the coming trouble he was justified in carrying the gun. His worship then severely lectured the prisoner and his associates, and imposed a fine of $10 and costs, amounting to $11.80, with a promise of a much heavier punishment if such a thing occurs again.

Peterboro Cereal Co. Wins Out

The Toronto News, concerning the writ against a local company says:

A writ was issued at Osgoode Hall yesterday by Rochford Brothers, of Toronto against the Peterborough Cereal Company, for an injunction restraining the defendants from selling "Canada Flakes," one of their productions, in Ontario, under an agreement that had been made. Damages of $2,000 are also sought for breach of the agreement."

When Mr. Meldrum, manager of the company, was seen, he said that there was no foundation for the action. He had not been served with any notice of any such writ, and did not expect it. If the Rowlston Bros. had issued an injunction it would not count because he had a signed agreement from that firm, who were until Tuesday, the company's Toronto agents, severing all connections with the Cereal Company and the Cereal Company with Rowlston Bros.

The Peterborough Cereal Company will hereafter conduct their own selling office in Toronto and put their own salesmen on the road. The Toronto office will be managed by Mr. H. B. Collier. Besides Canada Flakes, the company's salesmen will also handle Corn-Krisp as soon as it is on the market, and the Khorub Jellies, which are manufactured in England. The Cereal Company has the selling rights in Canada.

Greece is Heading Rapidly For War

Athens Reports Even King George Seems Bent Upon Provoking a Conflict With Turkey.

Boston, July 27.—A special cable from Athens tonight states that Greece rapidly is heading for war, and that King George and subjects seem bent on provoking a conflict with Turkey.

Bands of Greek filibusters, headed by commissioned officers of the Greek regular army, has been engaged in harrying the people of Macedonia for months past, and some of their outrages are quite as shocking as those of the Sultan's myrmidons. They are subjecting not only the Moslem population, but likewise the Servian, Bulgarian and Roumanian Christians settled in that province, to all sorts of outrages.

KING GEORGE'S SYMPATHY.

King George openly sympathizes with the filibusters. If he does not secretly aid them. He recently appeared publicly at a grand requiem service held in honor of a Greek cavalry major killed by the Turks while leading one of these filibustering expeditions, and only was dissuaded from similarly honoring a Greek infantry captain killed in the same way by strongly-worded protests from the German and Austrian Envoys.

REACHING A CRISIS.

Matters are reaching a crisis, and should war result, Greece will be without the sympathy or support of Bulgaria, Servia, Roumania or even Macedonian Christians, for she has alienated them by attacks upon these nationalities in Macedonia. Roumania, in fact, has broken off all diplomatic relations, and would have declared war ere this had she possessed a seagoing navy capable of bombarding Hellenic forts or had her frontier adjoined Greece.

Local Street R'y. Praised by Visitors

Good Service to Jackson Park is Appreciated by Toronto Excursionists

Yesterday the street railway had their resources and equipment taxed to the utmost. The Gooderham and Worts Distillery excursion arrived by C.P.R. special train at 10.30 a.m. There seemed to be a special understanding, that on arrival, the vast crowd of excursionists should go to Jackson Park for dinner. The management of the Street Railway Co., had, with their usual foresightedness had fully prepared for this inundation of Toronto visitors. Eight cars were waiting for the arrival of the excursion at, or in sidings by, the C.P.R. depot. As the nine coaches containing some 600 passengers arrived in the city, they, as per previous advisement, simply stepped from the C.P.R. platform to the waiting street cars. No delay was caused and the Toronto visitors were quickly whisked to the dusky dells and sylvan streams of that most beautiful terminus of the street car service, Jackson Park. On arrival there the hundreds of Toronto visitors quickly set to work to choose where they would locate and lunch.

A Times representative on the spot quickly interviewed Messrs. Brereton and Mray, secretary, officials in charge of the excursion, and was assured by them, that the arrangements of yesterday, re handling the crowds, was as perfect as could be desired. Each of these gentlemen intimated, as far as could be learned from the interview, that Mr. Lamouth not only kept faith with the visiting Torontonians, but did all in his power to handle the crowds in a most satisfactory manner.

The Toronto visitors seemed to consider Jackson Park as the ultima thule of picnic spots. Several of the G. & W.

Visitors were heard to remark that Peterborough should be proud of their beautiful Jackson Park, and many means of access thereto.

Discontent in Persia.

Teheran, Persia, July 27.—Political discontent here is again assuming an acute phase. The people are loudly demanding the dismissal of the grand vizier, the return of the Mullahs and a under the protection of the British codification of the laws. The Mullahs who recently left the great Mosque are now assembled at Kum, a great Shiah place of pilgrimage.

There are now over 6,000 refugees legation here.

Solicitors Must Pay Up.

Kingston, July 27.—The solicitors for Montreal and Quebec hotels, considered as nuisances at Alexandria Bay, N. Y., must by decree of the village trustees pay a fine of $100 or quit business.

Wasted Lives In Peterboro

Men and Women Who Are in Need of a Helping Hand.

It is hard for those who are never ill, or who have simply a sick day or week occasionally, to realize the wretched existence and wasted lives of those beset with chronic indigestion.

There is no more irritating or nerve-racking condition than that caused by a weak stomach. It gnaws and wears upon every nerve fibre in the body and results in sleeplessness, headache, backaches, rheumatic pains, furred tongue, distress after eating, poor appetite and general weakness and debility.

As we may look to a weakened stomach for most of the chronic or lingering ills that weaken and rack our lives, it is of the greatest importance to know that a remedy for stomach troubles is at last offered by the reliable drug firms in Peterboro.

Knowing the formula of Mi-o-na, we feel that it will be successful in every case where it is used in accordance with directions, that is, one tablet before each meal.

A large box of Mi-o-na tablets costs but 50 cents, if it helps you, nothing, unless it restores health.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

Splendid Reports From the West

Enormous Aggregate Yield Assured Despite the Stories of Rust---Storms Have Done Damage, but General Outlook is Good.

Regina, July 27. — The general crop situation in Saskatchewan is thoroughly satisfactory, and everything indicates an enormous aggregate yield. Wheat has made excellent progress during the hot weather, since July first, and has come along in fine style. It is in fully as good shape as at this time last year, and in many districts is much better. It is not possible at the present time to give an estimate of the total production for this province as the acreage report has not been issued. So far the figures are about twenty-two bushels per acre, as against twenty-three last year. The acreage is expected to be about 1,500,000, against 1,110,000 last year, an increase of thirty per cent. At this rate the yield will be about 33,000,000, quantity which would be enormously satisfactory. Crop authorities here agree that the general outlook warrants such an estimate.

Danger from frost has been minimized by the rapid growth of the plant during the past three or four weeks. The only thing feared now is the possibility of hailstorms. Such damage is already reported from this cause, especially along the main line of the C.P.R. A few fields were hailed out this week, but the loss is not heavy. The area under crop is so large and so widely distributed that a hailstorm would need to be four hundred miles wide to cause general damage. Coarse grains are humming along, and oats promise to break several records. Some farmers talk about fifty bushels per acre, and the average over a large area is expected to be 75. Barley is also satisfactory, although the acreage is not large. Cutting will begin in about two weeks, and the harvest will be protracted. Help is likely to be scarce, unless the supply of farm laborers from eastern points shows a vast increase over last year. There is likely to be 60,000,000 bushels of grain of all kinds to harvest in Saskatchewan this year, and an army of men will be required to handle it all.

MANITOBA SATISFIED.

Winnipeg, July 27.—The weekly report of the C.P.R., dated July 25th, shows the grain crop throughout Manitoba and Saskatchewan to be in magnificent condition. At three or four points there is mention of red rust, but over 100 stations send in what might be characterized as wholly satisfactory reports. A few points have suffered somewhat from lack of rain, others have had too much rain, but normal conditions prevailed in almost the entire fertile country.

One of the worst storms of years passed over Snowflake between midnight and two p.m., which consisted of rain, electricity, and a bad gale, which left the grain in a tangled shape, but the prompt weight of the head will no doubt straighten it again.

Reports from Portage Plains indicate a severe rain and wind storm. There was hail and leaves and much wheat was laid low.

From Calgary, The following crop bulletin is issued by the C.P.R. All crops are looking well, throughout Alberta. Winter wheat averages 25 to 30, increase in height and headed out. Fall wheat is ready for harvest in some localities the first week in August. Fall wheat is two feet tall. Barley and oats well advanced, and weather favorable for an enormous yield. Samples of barley are shown over four feet in height. There were light showers throughout the province during the week. Hail fell in the vicinity of Crowsfield on July 23, but not heavy enough to do any damage. No rust is reported from any districts. Timothy, oats, and brome grass never shown to better advantage, and good hay crop is assured.

Attempted Outrage At Jackson Park

It now seems that a lady is not as safe unaccompanied at Jackson Park as in her own home. On Wednesday night, it seems that a gentleman of this city whilst walking through Jackson Park, was startled by a stifled scream from a lady who grasped him by the arm with the cry, "For Heaven's sake, save me!"

The gentleman quickly took in the situation and made an attempt to catch the blackguard who, it is presumed, tried to commit a disgraceful assault upon the young lady. An open knife lay in his hand and he made a sweep at the breast of the rescuer, the blade merely grazing his thumb and leaving a slight mark which is still visible. He then vanished among the trees and was seen no more.

The affair occurred about 9.30 in a lonely portion of the park. Had not others come to their assistance, it is no impossible that an outrage, if no murder, might have occurred.

Mrs. A. Riddell Has Passed Away

Intelligence has been received here of the death of Ann Laing, wife of Mr. Andrew Riddell, of North Easthope, near Stratford, who passed away on Sunday, July 8th, in the 61st year of her age. The deceased was buried in the St. Andrew's cemetery, lot 8, concession 2, North Easthope. Mrs. Riddell was ill for about five months, and, besides her husband, leaves a family of four children—two sons and two daughters—The late Mrs. Riddell was a cousin of Mrs. Garbutt, of Smith township, wife of County Councillor H. C. Garbutt. She also had other relatives in the County of Peterborough.

Pickles and Vinegar Anti-Fat Diet Fatal

Girl Eschews Nourishing Food to Reduce Weight, Acid Eats Away Walls of Stomach, and She Falls Dead.

St. Louis, July 27.—Pickles as a steady diet, washed down with copious draughts of vinegar, caused the death of Miss Annie Gross, 25 years old, who was training to reduce her weight. She dropped dead yesterday in the bathroom at the residence of her brother Adolph Gross, 2939 Magnolia avenue, and the inquest this morning revealed the cause of the death.

Dr. J. A. Hartman performed the post mortem examination and discovered that the walls of the girl's stomach were almost entirely eaten away. Never before, he said, had he seen the walls of a human stomach as thin. He gave rupture of the stomach as the cause of death, saying that the vinegar and pickles made this possible.

The girl's brother testified that Miss Gross had been twitted about being so stout, and that she decided to diet to reduce her flesh and avoid the jokes of her companions. She refused to eat meats and other heavy foods, and subsisted almost entirely on pickles and vinegar. She lost flesh rapidly, but in the end sacrificed her life.

Four Drowned In The Yamaska

Two Women, a Man, and Child, Meet Death at St. Louis de Bonsecours.

Sorel, July 27.—J. Ferron, Mrs. Bernier, Mrs. Bourget and the baby of the former, aged one year, were drowned in the River Yamaska yesterday evening.

The three adults, with the child, were in the buggy crossing the river at St. Louis de Bonsecours, 24 miles south of here in Richlieu county, when the horse backed out of the ferry boat and precipitated them into the river. The current being swift all were carried away and drowned. The four bodies were found an hour after the accident. Coroner Chamberlaine left here for Bonsecours this morning to hold an inquest into the affair.

Strength of the Dreadnought.

Washington, July 27.—The publication of the White Book in London giving some information concerning the main features of the large English battleship, the Dreadnought, has caused some discussion among naval officers. It is pointed out by them that the United States now has under construction two ships, the Michigan and the South Carolina, which can fire eight 12-inch guns on either side, and that is all that can be done by the Dreadnought. In broadside action all of the 12-inch guns of the American ships can be utilized, while two of the 12-inch guns on the British ship must be inactive.

DIDN'T BELIEVE

That Coffee Was the Real Trouble.

Some people flounder around and take everything that's recommended but finally find that coffee is the real cause of their troubles. An Oregon man says:

"For 25 years I was troubled with my stomach. I was a steady coffee drinker but didn't suspect that as the cause. I took almost anything which someone else had been cured with but to no good. I was very bad last summer and could not work at times.

"On Dec. 2, 1903, I was taken so bad the doctor said I could not live over 24 hours at the most and I made all preparations to die. I could hardly eat anything, everything depressed me and I was weak and sick all over. When in that condition coffee was abandoned and I was put on Postum, the change in my feelings came quickly after the drink that was poisoning me was removed.

"The pain and distress fell away from me and I began to get well day by day so I stuck to it until now I am well and strong again, can eat heartily, with no headache, heart trouble or the awful sickness of the old coffee days. I drink all I wish of Postum without any harm and enjoy it immensely.

"This seems like a strong story but I would refer you to the First Nat'l Bank, The Trust Banking Company, or any merchant of Grants Pass, Ore., in regard to my standing, and I will send a sworn statement of this if you wish. You can also use my name." Name given by Postum Co., Battle Creek, Mich.

Still there are many who persistently "kill themselves by saying "Coffee don't hurt me." A ten days' trial of Postum in its place will tell the truth and many times save life. "There's a reason."

Look for the little book, "The Road to Wellville," in pkgs.

Vein of $119.00 Ore at 10 feet

Is the record of the

The Manhattan-Midas Mining Co.

Capital 1,000,000 Shares. Par Value $1.00.

Property paid for; no debts; no salaries; no promotion rake-off; no office expenses. A plain business enterprise, managed by plain business men.

Terror of Spring is Sickness

What Are You Doing to Protect Your Weak Body Against Spring Fevers?

A delay gives the germs and weakness a better chance to take hold.

Don't wait, think of your small resisting powers, and begin building up today!

For weakness, overwork and debility the doctors prescribe Ferrozone; let it help you now.

Vitality and power are instilled into the blood; this means new strength for all weak organs.

The fire of youth will dance in your veins, and new found energy will increase your desire to work.

Ferrozone supplies the nourishment and tissue-building material your system lacks. Isn't this a reason why?

From Combermere, Ont., Mrs Jno. Oram writes as follows: "For a number of years I was sickly in the springtime. I felt tired, nervous and had headaches. My blood was weak and damp days brought on rheumatism. My nervous system was unstrung, and I felt utterly worn out. Ferrozone revived me in a short time. In two days my appetite increased and I could feel a building up process going on. This great tonic made a new person of me, and I don't think a more strengthening medicine for the spring can be found."

Wouldn't it be just fine to get back your old time spirits and vigor? Easily done with "Ferrozone;" commence today. Sold by all dealers, 50c. per box or six boxes for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

THE CZAR'S BLUNDER AND RUSSIA'S FUTURE.

After much hesitation and vacillation the Czar at last "acted"—and acted in a manner so amazing and blundering that even the semi-official organ of the allied French government declares his coup d'etat to be utterly without justification. There had been talk of the dispersal of the Douma, but as late as Friday night last good observers on the spot expressed the belief that the court would attempt to profit by the dissensions that had developed in that body and refrain from dangerous and drastic measures. The decree dissolving the Douma came as a startling surprise to the wole world.

In vain does one turn to the "explanatory" manifesto for light on the astonishing act. Nothing can be weaker and more shallow and insincere than the attempted justification. The Douma, the manifesto says, instead of applying itself to "productive legislation," indulged in "comments on the imperfections of the fundamental laws," undertook illegal measures, "alien as an appeal to the nation" on the agrarian question, and strayed into a sphere beyond its competence. The manifesto goes so far in its sophistry and shuffling as to attribute the peasant disturbances to the "anomalous" in the course of the Douma, which, forsooth, had deprived them of the hope of relief.

All this is too grotesquely insincere to deceive any man of ordinary intelligence in Russia.

It is true that the Douma said and did certain things which, under the bureaucratic "fundamental laws," were beyond its competence. But in critical and revolutionary times strict parliamentary etiquette is hardly expected. The Douma felt in duty bound to inform the court and the people that pacification and orderly developments were impossible under existing conditions—with an irresponsible and distrusted ministry, tyrannical satraps running amuck in the provinces and instigating massacre, the government organ publishing "black hundred" appeals to the Czar to treat the Douma as a rebellious body, and resistance to adequate economic reform.

As to the work of the Douma, in the nine weeks of its existence it debated at length the difficult agrarian problem, the questions of free assembly and freedom of conscience, and the question of capital punishment. It passed a bill abolishing such punishment, and another appropriating millions for peasant relief. It discussed the Bialystok massacre and its causes. It discussed the questions of civil and political equality. Certainly these matters were not beyond its competence, and such "comments" on the fundamental laws as were made during the debates were made for the purpose of demonstrating the need of revision of such laws. Criticism of laws and executive action is as much a function of a deliberate assembly as the passing of bills.

The Douma was dissolved because the court clique could not control it, because it had proved itself too radical, too independent, too bold. The Czar has the legal right to terminate its career, but what has he gained? Will the next Douma be less radical, more tractable? There is no reason whatever to think so. There is every reason to think the contrary. More bloodshed and anarchy reign in the Empire, and the future is dark. What does not seem matter of despondency and mortal law bring forth. The bureaucracy is taking desperate chances.

Two New Railways For Owen Sound

Owen Sound, July 26—If present indications are realized, Owen Sound will shortly be connected with Meaford by two lines of railway.

The first will be the Owen Sound and Meaford Railway Company's road, which will be subsidized to the extent of $10,000 by the Dominion Government, was turned a few weeks ago.

Yesterday Mr. James Stewart, one of the promoters of the Huron & Ontario Electric Railway Company, returned to Toronto after spending a short time in town.

Mr. Stewart encountered considerable difficulty in securing options on property between Owen Sound and Meaford, and the company may be compelled to resort to expropriation in order to secure a right of way between the two towns.

Mr. Stewart is sanguine as to the company's prospects. The proposed electric line is to run from a point on Lake Ontario to Sarnia, via Hepton, Flesherton, Meaford, Owen Sound and Goderich.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Put Mrs. Carey on the Carpet

Toronto, July 26.—"A charge of murder in the Port Credit case will be placed against Mrs. Carey if we cannot secure another remand today," said Provincial Detective Greer yesterday morning.

But the Crown secured a remand till August 1st, and consequently Mrs. Carey will remain in custody on the nominal charge of vagrancy for one week more.

Mrs Carey had been informed of the intentions of the prosecution, and looked very much more worried than usual when she appeared in the dock.

"I would like a remand till next Wednesday," said Mr. Corley.

"Now, I object to that," said Mr. Robinette. "The woman has already been in jail on a nominal charge for a long time."

But Magistrate Kingsford thought that the Crown was entitled to another adjournment, and granted their request.

Mrs Carey was further interrogated by Detectives Verney and Greer yesterday, but she threw all the obstacles in the way of their investigations that she could, finally saying:

"Well, you know, it is always asserted to learn things yourself."

Letters are in the possession of the detectives which they say are written by Mrs. Carey, and which ask information regarding certain babies for adoption. These letters were shown her, but she denied positively having written them. She was then asked to sign her name, and the writing looked very similar to that in the letters shown her.

It is also said that Mrs. Carey went by the name of Mrs. C. Baker, and had letters addressed to her in that name to Bracondale post-office. In one of the letters seized by the detectives, the prisoner writes: "Address my letters to Bracondale post office and address them to Mrs. C. Baker as it is safer for you and also for me."

A letter was found in Mrs. Carey's purse when she was arrested and was an answer from some one to whom she had evidently written enquiring about a certain baby. The detectives went to this person, and secured the letter, which Mrs. Carey had written. This letter was among those shown Mrs. Carey, and she denied positively having written it. But when she signed her name the capital "C" in Carey looked very similar to the initial before the name Baker.

Mrs. McCartney, a woman who looks after babies and has a home in the North East, was at police headquarters yesterday, but said that she had never seen Mrs. Carey before and couldn't identify her.

Detectives Greer and Verney are still following up clues in the case, but say that it is extremely difficult to get anyone to acknowledge that they have ever farmed out a child.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any constitutional, acquired or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Thirty years' experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure or no charge.

Reader if in doubt as to your condition, you can consult us **FREE OF CHARGE.** Remember the old adage, "a stitch in time saves nine." Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 27 years. **You can pay after cure.**

WE CURE Nervous Debility, Varicocele, Stricture Blood Diseases, Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call, write for a Question List for Home Treatment.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world to-day are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 43 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

CHAPTER I.

It was the first year of the nineteenth century—ere yet steamships, railways, gaslight, insurance companies, telegraphic wires, and detective policemen had expelled nearly all possibility of vicissitude, peril and adventure from civilized society.

It was while clumsy sailing vessels were the only means of ocean travel, and heavy stagecoaches lumbered slowly along every public road in the country; it was while footpads still lurked in the shadows of the city streets, to start forth upon the belated pedestrian, and highwaymen, under the veil of night, sprang out to commit their lawless depredations upon the unguarded traveler; while the spirit of romance hovered around old buildings, and superstition lingered in secluded neighborhoods, that the strange events of our story transpired.

It was early in the morning of a lovely day in June that a rather large group of idlers gathered in front of the Etheridge Arms, a quaint old tavern in the ancient little town of Swinburne, situated in one of the most picturesque and beautiful counties in the West of England.

They were standing within the arched gateway, or leaning against the solid masonry of the side walls, that looked strong enough and old enough to have been those of some ancient keep, and which, in fact, had done good service as defenses in the olden time, when might made right, and every man's house was indeed his castle.

By their looks and conversation it was evident that some event of unusual importance was expected to come off.

"The coach will be late; what will be keeping her?" inquired Broding, the village smith, as he returned, disappointed, from one of these surveys. "What do'ee think; will the bridegroom be doon for sure?" he asked, turning to an ostler, who had left the stable yard for the same purpose.

"Will the young squoir be doon? Of course he will! Dunnot he send down his groom to speak rooms in the house, with orders to have fires kindled? Why, mun, the young squoir will never be late at such a time," replied the ostler.

"A good job if un never coom at all. The loikes of yon scooming to marry our lady, and lord it over our castle. When wur it ever known that a Lord Etheridge, of Swinburne, married wi' a commuuer? But we've ay heard tell that a house is done fur when it falls to the distaff," said an old laborer, from Swinburne Chase.

"I'll tell'ee all what and about it. Old Hastings, the feyther o' this young man, was his late ludship's friend, and were left guardeen by his late ludship's will to this young lady. Well, old Hastings was a knowing 'un, and made the match. There's where it is; and so they're to be married to-morrow."

"Hoigh! Harken! Coome along wi' I; here's the coach," suddenly interrupted the smith, starting from the archway into the street, just as the horn was heard signaling the approach of the Bristol coach, that presently rumbled down the street, and drew up with great noise before the tavern gate.

First came from the interior of the coach an elderly gentleman, whose tall, spare and stooping figure was clothed in a suit of clerical black, and whose pale, thin, long face was surrounded by hair and whiskers prematurely gray. He was closely attended by a young man, whose Roman features, olive complexion, jet-black hair, and deep, dark eyes, bespoke him of the Celtic race, while his plain dress and subordinate position could not disguise the grace and dignity of his air and manner. In this last he was such a contrast to his employer that he might have been taken for a prince of the blood, attended by an old gentleman in waiting.

"I say, Broding, yon's old Hastings and his secretary. I've seen un before doon here," said the old laborer, addressing the smith, as these two travelers issued from the coach, and passed before the bowing and smirking host into the house.

Next came forth a young gentleman, whose handsome person and haughty manner at once attracted general attention. His form was tall and finely proportioned, crowned by a haughty head and face, with high, aquiline features, fair and fresh complexion, light blue eyes, and very light flaxen hair. His expression of countenance, in keeping with his whole manner, was stern almost to repellent severity. Great beauty of person, with great dignity of manner, forms a combination very attractive to most young women, and perhaps it was this that fascinated the young heiress of Swinburne Castle, for this was Albert Hastings, the bridegroom-elect. He was followed into the house by his valet bearing his dressing-case.

Colonel Hastings was immediately shown into his private parlor, where he was soon joined by his son.

The landlord stood bowing at the door, and waiting for orders.

"Breakfast, immediately, and the post chaise at the door in half an hour," was the brief order of Colonel Hastings.

"Yes, your honor. What would your honor like for breakfast?"

"Anything that is at hand, only be quick."

The landlord bowed and disappeared, and was soon succeeded by the head waiter, who came in and laid the cloth and spread upon the board a substantial breakfast, to which the hungry travelers did ample justice.

They had scarcely finished the meal before the post chaise was announced.

The elder Hastings arose, saying:

"Albert, my boy, I am sorry that etiquette does not admit of your waiting upon your belle mitresse to-day, or seeing her until you meet her at the church. But au revoir until to-morrow at twelve."

And with this abrupt leave-taking the elder Hastings, attended by his secretary, Cassinove, left the house, and entered the post chaise to drive to Swinburne Castle.

A drive of more than a mile brought them to Swinburne park church, an ancient, ivy-covered, Gothic edifice coeval with the castle itself, and, like the castle, celebrated in history, in story, and in song. There rested the remains, and there lay the effigies of the old Barons of Swinburne, from the time of the Conquest down to the death of the last Lord Etheridge, who had died five years before, leaving his only daughter, Laura, sole heiress of all his vast possessions.

They drove rapidly on, for yet another mile, along the boundary of the chase, and suddenly came upon a thicket of trees, from the midst of which frowned the ruins of the ancient keep, its solid masonry now covered thickly with ivy. Young Cassinove, who felt a deep interest in all these scenes, would have paused to contemplate this venerable ruin, but again the impatience of his employer urged the postillion to greater speed, and they drove hurriedly past. A few yards farther on they reached the south gate of the park, guarded by the ancient porter's lodge.

They passed under the lofty archway, and entered upon the beautiful grounds that lay more immediately around the castle.

Swinburne Castle was of later date than the ancient keep, the ruins of which they had just passed, and from which it took its name. The building was a double quadrangle, in the form of the letter H, and having towers at the four extremities.

Behind the castle arose the thick, impenetrable woods bordering the open chase; before it lay a smiling landscape, diversified by parterres of flowers, groves of beautiful trees, and a small, clear lake, shaded by overhanging willows, and adorned by a flock of graceful white swans.

An exclamation of delight broke from the lips of Cassinove as his eyes fell upon this scene of exceeding beauty, now lighted up as it was by the glorious sun of June.

They drew up before the central transept that connected the two long wings of the castle.

Two grooms, in waiting without, immediately came forward to attend Colonel Hastings, who alighted, followed by his secretary. One of the grooms dismissed the post chaise, while the other knocked at the door, which was immediately opened by a footman in the gray and white livery of Lady Etheridge, of Swinburne.

"Show me into the library, Williams, and let her ladyship know that I await her convenience. Cassinove, my good fellow, you can stay here, I suppose, until you are wanted," said Colonel Hastings, opening a door on his right to admit the young secretary into a sitting-room, and then going on, attended by the footman, to the library.

The apartment into which young Cassinove had been shown was a pleasant, cheerful morning room, simply but elegantly furnished. The great front window, reaching from ceiling to floor, and from side to side, commanded an extensive view of the lawn, with its groves of trees, its shaded lake, and its parterres of flowers. A rosery outside the window adorned the frame, without obstructing the view of this grand picture. At the opposite end of this room was a spacious mirror, that filled up all that part of the wall, and reflected the whole of the landscape commanded by the window.

While Cassinove stood before the mirror, enjoying the reflected landscape, suddenly among the roses glided a purple-draped female figure, that immediately riveted his attention. It was a woman in the earliest bloom of youth. Her form was above the medium height, and well rounded. Her head was finely formed, and covered with a profusion of jet-black, glittering hair, that was plainly parted over her broad, expansive forehead, and swept around the temples, and wound into a rich and massive knot at the back of the head. Her eyes were large, luminous, dark-gray orbs, that seemed, whenever the long veil of lashes was lifted, to throw a light wherever they glanced.

The impression made upon the enthusiastic heart of Ferdinand Cassinove was at once vivid, deep, and strong—quick as sun-painting, permanent as sculpture. He saw this goddess of intellectual brow and stately step open the window and advance into the room, and as she approached him he felt his whole frame thrill with a strange emotion of blended pain and delight. He dreaded to move, yet, as the needle turns to the magnet, he felt himself turning from it reflected

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OR CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT

PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $150,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Insurance of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the C. P. Ry., with good waggon road connection.—The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

ABOUT FEMALE AILMENTS

Not Hard to Cure if Properly and Promptly Treated.

Ask any intelligent physician what causes nine-tenths of all female disease, even including anaemia, nervousness and consumption.

Back comes the answer quick and sharp "Constipated Bowels."

There is scarcely a single female ailment that had not in its earlier stages symptoms of constipation.

How much better off the system is without the poisonous accumulations caused by constipation. How much clearer the complexion, how much fresher one feels when the system is pure and clean.

Think it over yourself.

Isn't it apparent that a bowel regulator and liver stimulant like Dr. Hamilton's Pills is sure to do good?

Gay spirits, good looks and happy health have returned to many a sick woman through Dr. Hamilton's Pills.

Better get a few boxes today, purely vegetable, free from injurious ingredients, healthful and antiseptic. Dr. Hamilton's Pills will assist you in a thousand ways.

As delay is always dangerous, your plain duty is to follow the example of Mrs. F. Rowe, who sends the following letter from Grandy, Port Au Port, Newfoundland: "Four years ago I got kidney and bladder trouble. I thought it was female trouble and treated it accordingly. Even my doctor in St. John said it was so.

"In reading about Dr. Hamilton's Pills I noticed symptoms like mine and I bought six boxes. These pills went right to work on my sick condition and helped me from the first. My supposed female trouble, which was bladder disease, was cured. My weight increased eight pounds and never before was I as well as today. Dr. Hamilton's Pills did it all."

All dealers sell Dr. Hamilton's Pills, 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

DASHES—HERE AND THERE BY TIMES' REPORTERS.

General Servant Wanted.

A good general servant wanted at once, to whom the highest wages will be paid. Apply to Mrs. (Dr.) Bradd, 305 Stewart street.

A Phonograph.

Is one of the necessities of your summer home or your camp. Buy the Edison. It's the best. Call and hear them. J. M. Greene Music Co.

Mr. A. H. Stratton Heard From.

Yesterday Mr. Alex. Elliott received a postal card from Mr. A. H. Stratton, from Appolinaris Springs, Germany. Mr. Stratton states that he is having a delightful time on the continent, but he has not forgotten Peterborough by any means.

A Policeman A-Fishing.

P.C. Mclarry went a fishing at the locks yesterday morning, about the time the sun gave a wink to those out for their morning eye-opener. What he caught, outside of snags, etc., is only to be found out by a personal interview.

R. Evans Recovers From Fall.

On Wednesday as Mr. Rose Evans was putting shingles on a barn in Douro township, near the city, he met with an accident. While on the top of the barn he fell some 24 feet. Fortunately he got off with a few cuts and a good shaking up. His chin was cut and his teeth cut his tongue and his lower lip almost through. Evans was driven to the city and then walked up to Dr. Fredericks' office, where his wounds were dressed. He was able to go to work again today.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
542 Water Street
or P. O. Box 831, city.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students would make application as soon as possible.
Call at the College or address

WM. PRINGLE,
Opposite Post Office. Principal.

SOCIAL AND PERSONAL

—Mr. R. J. Graham, of Omemee, was in the city yesterday.

—Mr. and Mrs. R. Kerr have gone to spend a few days at Stony Lake.

—Mrs. Col. H. Osborne has been visiting friends in Peterborough.—Bowmanville News.

—Miss Mary Elliott, 598 Water St. leaves tomorrow to spend a few days at the Thousand Islands.

—Miss Hall and Miss Hall, of Oshawa, were the guests of Miss A. I. Pinsey, 104 Dublin street.

—Mr. Morse of Buffalo, has arrived in the city, and will in future be in charge of the new auto bus.

—Mr. and Mrs. A. M. Brown, of Franklin, Pa., were in the city yesterday on their way to the lakes.

—Mr. R. Desautel, generally known as "Dicky" has gone to Pittsburg, Pa., to work for the B. R. & P. R. R.

—Mr. and Mrs. C. B. Lisell, of New York City, are registered at the Oriental for a couple of days.

—Mrs. Templeman, of Sudbury, is visiting in the city with her mother, Mrs. George W. Hall, Simcoe street.

—Mrs. J. Hucke, of Peterborough and Miss Mabel Sawyer, of Montreal, are visiting Mrs. L. T. Boyeke.—Hastings Star.

—Rev. Herbert Taylor, of Pelican Rapids, Minn., will occupy the pulpit of Charlotte street church on Sunday morning next.

—Mr. Harry Kingscote and bride left for Rochester, N.Y., yesterday morning after spending a pleasant honeymoon in the city.

—Dr. Sherin, of the White Cross Nurse Hospital of Chicago, is the guest of his sister, Mrs. Dawson Kennedy, 600 Water street.

—Mr. Fred Peake, the well known Boreman of Campbell, was in the city yesterday, and left during the afternoon for Picton.

—Miss Effie Reid and niece, of Brantford, were guests this week of Miss Florence Reid, and they are now spending a few days at Roseblink Island.

—Mr. George Porter, of Sault Ste Marie, formerly of Peterborough, is in the city after several years absence on Wednesday, the guest of Mayor H. Beat.

—Rev. Jas. G. Potter and Mr. and Mrs. Donald Pot or were in Kingston on Wednesday attending the marriage of their sister, Miss Sadie Potter, to Mr. Herb. Newman.

—Miss Gertrude McFadden has returned from Chicago, Ill., where she has been visiting friends, accompanied by her cousin, Mr. Joseph Irving, who will spend his vacation here.

Local Lineman Falls From Tree

Yesterday an accident, such as is in line for all men engaging in the honorable but dangerous business of climbing trees, occurred to Mr. Hocque Briou, the lineman of the G.N.W. Telegraph Co., who had such a close call in a bicycle collision on Charlotte street on Tuesday night, when he was nearly run over by an electric car, and fell off a tree yesterday, near the G.T.R. station. He was rendered unconscious and was taken to Mrs. Vinnette's boarding house in the east ward. Mr. Brion was badly bruised and shaken up, but will, it is hoped, be ready for resumption of business in a few days.

Bear Disrobes Local Lady.

It will be remembered by our readers, that Mrs. T. Cavanagh, of the Cavanagh House, Simcoe street, has a stone (?) bear in the back of the hotel. Yesterday morning as the cook of the Cavanagh House was feeding the bear, as usual, about 11 o'clock the housemaid came out and started to talk with the cook. Without warning the bear, which stands about two feet high, suddenly grabbed the housemaid with its four claws. The bear within a few seconds entirely denuded the housemaid of all the clothes she had on leaving her, as in those pictures of "Eve Before the Fall." The cook pulled the housemaid out of danger, then the housemaid went up stairs and arrayed herself in clothes that would meet with 21st century approval.

Chemong Ice Boating.

It is expected that about fifteen ice-boats will do business, not to mention search for pleasure at Chemong Lake this coming winter.

The members of the Chemong Park Yacht Club intend going into ice boating and will have several well fitted up boats. A majority of the members own sailing dinghies and the sails could be readily fitted on the ice boats.

If this be carried into execution some of those boats ambitious to do their ten miles an hour will probably get over 40 miles an hour on skates.

G. & W. Crowd Go to Jackson Park.

Over 600 excursionists arrived on the Gooderham & Worts' excursion from Toronto. They were one of the best conducted and most presentable crowds this city has seen. The street railway authorities took charge of them and handled the crowd to their utmost satisfaction. Most of them went to Jackson Park and had their dinner there. Many of them were heard to say that Peterborough will be there next place for their annual outing.

More New Houses for Town.

Five new houses are being erected between George and Water streets, opposite Edinburgh street on hitherto unoccupied land. Mr. Stubbs is putting up two fine dwellings facing Water street, while three are being erected facing George street. They are owned by Messrs. Albert Hanna, A. W. Good, and Thomas Moore, who has the contract for erecting the whole three.

County Debentures For Sale.

A special meeting of the County Council's finance committee was held yesterday morning, when the sale of the debentures to Messrs. Wood, Gundy & Co., of Toronto, issued for the purpose of erecting the new House of Refuge, were considered. The chairman of the building committee reported that the building was progressing very rapidly.

LOCAL INCIDENTS

By The Times Man on the Street

—Children's two and three piece garden tools on sale at 19c. and 25c. Times Bookstore.

—Mr. Giles Stone sent a gang of men to Wahnapitae yesterday morning to the lumber camps for Holland and Graves.

—The children's shelter looks much better since the new steps and a fresh coat of paint has been given to the verandah.

—Mr. A. A. Mulholland, of Campbellford is now major, the command of the 15th Field Battery having been transferred to him.

—A large number of people went down the river yesterday afternoon on the White Lily, it being the first annual outing of the Elks.

—Found on George street last night, lady's hand satchel, containing small sum of money. Owner may secure same by applying to the police station.

—Last night a fair estimate of the crowd at Jackson park placed the numbers at 2500. The moving pictures were well presented, and were received with unanimous applause.

—Another practice of the members of the 15th Field Battery, who are going to Deseronto, was held last night at the armories in the east ward.

—If you want an hour's forgetfulness of business cares read "The Bridal Eve," by Mrs. Southworth. And leave aside the cares of life. It begins today.

—Work was begun yesterday on tearing down that ancient little house, at 430 Water street, to make way for extending Mr. Frank Mason's green houses.

—The annual outing of the Sunday school of St. Luke's church was held down the river yesterday on board the steamer Monarch to Juliet. The outing was largely patronized.

—The many friends of Mr. H. A. Mallern, who underwent an operation in Toronto general hospital this week, having his leg amputated above the knee, will be pleased to learn that he is getting along nicely.

—The Government S.S. Sovereign, with Mr. Grant, superintending engineer, and Mr. C. Gordon, overseer, on board, passed the locks on Friday on its way to Healey's Falls. The officials were on an inspection trip.—Hastings Star.

Miss Maguire Becomes a Matron

On Wednesday evening at the residence of the bride's parents, 58 McDonnell street, their eldest daughter Miss Mabel Maguire became the fair bride of Mr. John Stuart Mansell, of Victoria, B.C., but formerly of Peterborough.

The ceremony was witnessed by about fifty invited guests in the drawing room, which was artistically decorated with palms, ferns and flowers. Rev. S. Shorey, of Oshawa, was the presiding clergyman.

Miss Maguire was becomingly attired in a beautiful Empire gown of cream silk muslin, with lace, and carried a bouquet of bridal roses.

As she entered the drawing room Lohengrin's wedding march was played by Mr. Charles Ackerman of this city, cousin of the bride.

Little Miss Gladys Pentland, the daughter of Mr. and Mrs. [illegible] land, was maid of honor.

The bride received a large number of handsome gifts, testifying to the esteem in which she is held by her many friends.

Coming Literary Treat.

Those who love a stirring, romantic, heart stirring story should read "The Bridal Eve" by Mrs. Southworth. As is well known Mrs. southworth is one of this century's most up-to-date and stirring writers extant, and her latest work, "The Bridal Eve" is her masterpiece. This most startling and comprehensively interesting novel will begin at once in the columns of The Morning Times. This story, is one of the most exciting ever penned, and is well worth the trouble of our readers cutting out and preserving for future use.

Who Can Solve N. S. Question?

It now seems that the Ontario Government requires two acres in Peterborough as a site for the new Normal school, and that the corporation will be expected to provide the land. It is now likely that the location will have to be in Central Park or on the property recently acquired by the Board of Education in the south end for the erection of the new public school.

"A Toothsome Flavor"

True for you, there's a treat in the crisp, nutty, delicate, sweet taste of Grape-Nuts served with thick rich cream.

(Don't spoil the food by trying to cook it. That work is done perfectly at the factories.)

The cream should soften it a bit, but not enough to excuse the eater from at least a few good earnest "chews," for old Dame Nature sends rich blessings to the long chewer. Of course the one with weak teeth can soften the food with milk down to a mush if necessary, but the good old Dame doesn't smile quite so cheerfully on them.

You know children and adults must use the teeth and grind freely to make them grow strong and to preserve them. Then the act of chewing brings down the much needed saliva from the gums, and that helps amazingly in the digestion of the foods of various kinds.

The saliva is not so much required with Grape-Nuts, for this food is predigested, that is, the starch turned into a form of sugar in the process of making, and that helps give it the fascinating flavor.

Grape-Nuts people are healthy and enjoy good things. "There's a reason."

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent free on receipt of stamps to pay expense of customs and mailing only. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address as above.

Another Motor Boat for Here

The fine new motor boat, twin screw, yclept Luella of Cleveland, O., registered with the Cleveland and Lakewood yacht clubs of Cleveland, with Mr. C. W. Hunt, of Cleveland, and family aboard is now en route to the St. Lawrence river.

Mr. Hunt is accompanied by Dr. Barnes of Cleveland in a twenty-foot motor boat, which he is taking up to his summer residence on Stony Lake. He will take the yacht as far east as Port Hope and transport her overland to Rice Lake sending her the rest of the distance up the Otonabee River and Trent Valley Canal.

Wanted.

Attractive young lady, good talker to solicit advertising. Capable person can earn from $20 to $50 weekly. Permanent position. Address at once 'Advertising," Times Office.

If You Suffer with Rheumatism

Dr. Shoop's Rheumatic Remedy Will Bring the Utmost Relief that Medicine Can.

The one remedy which many physicians rely upon to free the system of the Rheumatic Poisons which are the cause of all Rheumatism, Lumbago, Sciatica, Gout, is Dr. Shoop's Rheumatic Remedy. Dr. Shoop spent twenty years in experimenting before he discovered the combined chemicals which made possible a certain cure for Rheumatism, etc. Not that Dr. Shoop's Rheumatic Remedy can turn bony joints into flesh again—that is impossible. But it will drive Stubborn and Deep Seated Rheumatism from the blood the poisons which cause the pain and swelling. And then this is the end of the pain and swelling—the end of the suffering—the end of Rheumatism. This remedy never fails where a cure is possible. It is now put up in tablet or liquid form—ask for either. You who have suffered and are suffering today from pains and aches which you know to be Rheumatism; you who experience soreness or stiffness of pain in damp weather; you who easily become stiff and lame without apparent cause—just try Dr. Shoop's Rheumatic Cure. It is just the kind of a remedy that accomplishes results. Sold and recommended by

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 180 PETERBOROUGH, ONTARIO, SATURDAY, JULY 28, 1906. PRICE TWO CENTS

Our Tax System is Altogether Unjust

The Present System of a "Business" Tax Oppresses the Smaller Merchant, and Lets the Richer Man off Light.

There is no doubt but what a general and deeply rooted dissatisfaction exists all through this province over the present complicated system of taxation.

The present "business tax" bears with unjust weight upon the merchant who is struggling to make an honest living, but whose capital is not as large as might be desired by him.

In the case of a wealthy firm, occupying as is often the case, business premises in a comparatively cheap building, such a firm, carrying perhaps $200,000 worth of stock which is practically the meaning of a "business tax," is assessed on only fifty per cent. of the assessed value of such real estate.

On the other hand, a merchant occupying more or less space in a building, whose stock, of little value as compared with that of the former quoted example, is taxed fifty per cent. of the real estate. This is a most unfair and unjust discrimination in favor of the man best able to pay the revenue of the city.

Again in this city there is a very prevalent opinion that assessment valuations are in many cases, whether knowingly or not on the part of our assessors, out of a proportion to the actual value of the respective properties.

Again every person is liable for a tax upon "annual income derived from personal earnings," subject to an exemption of $400 (increased to $700 at the last session of the legislature). Other sources of income are taxed, but no tax is placed upon income derived from rents or shares of stock in incorporated companies.

The whole trend of the present tax laws places the heavy burden upon those least able to bear it and to give assessors who are, in a way irresponsible, powers to use too great discrimination in fixing the taxation to be paid by the individual.

It is time the government revealed or simplifies the present legislation governing taxation.

Winnipeg Society Women Protest

Conditions Among Foreigners Said to Be Immoral and Filthy, With No Remedy in View.

Winnipeg, an., July 27.—The application of the deputation of Winnipeg society women to Mayor Sharpe to have the city do something to ameliorate the conditions in the North End, tending to elevate the morals and sanitary conditions in this district, has brought to light a revolting state of affairs among the foreign population a greater part of which is drawn from the slums of great European cities.

The protest is said to have taken the form of a request that the foreigners be moved out on the prairie to live in tents or that they be forced to build better and more sanitary houses.

The suggestion of tenting on the prairie is also considered an impossible one in health department circles, and it is believed by those officials who are most intimate with the situation, that the clearing up of the dirty district in foreign Winnipeg, will only be accomplished by steady work for years by the health department.

Conditions that exist between the Canadian Pacific Railway tracks and Main street, Selkirk avenue and Robinson street are admitted to be bad enough to bring forth protest. Stories often told by health officials of their visits to houses reveal many revolting cases of overcrowding and immortality.

ONTARIO MAN KILLED

W. H. Anderson, Formerly of Perth, Killed in North Dakota.

Gretna, Man., July 28.—W. H. Anderson, track inspector for the Midland Railway Company, and formerly of Perth, Ont., was instantly killed by a freight train on a trestle near Neche, N. D., about 11 o'clock last night.

Anderson left Gretna early in the evening on a special for Neche, and was returning when he met a freight on the trestle. As the accident occurred just south of the border, the case will be dealt with by the Neche coroner.

Robbers Escape From Box Car.

Toronto, July 28.—Three men were ransacking a C. P. R. freight car at Peterborough last night, when they were seen and the door closed on them. Word was sent to Toronto, and a posse of police were at North Toronto crossing to take the men into custody on their arrival. When passing Leaside Junction, however, the men broke the car door open and made their escape.

Arrested for Theft, Wanted to Die

Belleville, July 28.—During the absence of Mr. and Mrs. Brain, proprietor of the Victoria Hotel yesterday afternoon, their room was entered, and Mrs. Brain's gold watch and chain, with other articles, stolen. Suspicion fell on the hired man, named Fred Renfrew, and he was arrested. He had sold the watch for $2. Shortly after being placed in the cells he removed his braces, fastened them about his neck, and then fastened them to the bars of his cell. Officer Snider discovered the man just as he had completed arrangements for his destruction, and he was secured. His traces and boots were taken away from him. Renfrew is a married man, 26 years of age. At the police court yesterday morning he was remanded until today.

CANADA AND SOUTH AFRICA

Analogy Drawn Between Two Countries as Regard Dual Races.

London, July 28.—Editorially discussing the proposed constitution of South Africa, The Post draws an analogy between Canada 70 years ago and Africa today as regards dual races, pointing out that Lower Canada then contained an overwhelming majority of French, just as the Orange River Colony today is overwhelmingly Dutch, while as the Transvaal is today, so was Canada 70 years ago, with the British divided into two camps.

Pointing to the success of the late Lord Elgin's policy of equality between the races, The Post says Canada has developed a nationality richer and more vigorous for the admixture of the fine qualities of the French, and asks:

"May we not hope that Africa will develop a nationality of her own, no less rich and vigorous?"

Young Immigrant Drowned.

Kenora, Ont., July 28.—John Hanke, a young English immigrant, was drowned while bathing in the bay with a friend. He had no relatives in this country.

MR. BLACKSTOCK'S FORTUNE

The Estate May Not Figure Up More Than $1,000,000.

Toronto, July 28.—It is understood that the estate of the late T. G. Blackstock, of Toronto, will not reach quite as high a figure as is being estimated by the general public. Some years ago Mr. Blackstock was worth three millions of dollars. As his affairs stand now, his assets will likely amount to between $750,000 and $1,000,000.

It is said that even this figure is high, compared to what would have been the case a year ago, as there were heavy losses in connection with mines. The sum of $125,000 is understood to have been added to the estate by the sale of a railway in which the deceased was interested.

The estate is now in good shape, and the assets are of such a nature as to be readily handled. There are large holdings of Bank of Toronto, Imperial Bank and Bank of Commerce stock.

The Bee-Hive Was Robbed

Early yesterday morning, thieves broke into the Bee Hive, that fancy goods store on George street.

P.C. Meharry deserves, and has been given great credit for catching the burglar and landing him in the police court. The officer was on night duty and was going his regular rounds yesterday morning about four o'clock, when he saw a man's coat and vest on a box outside the Beehive store. This created a suspicion in the constable's mind and he and Nightwatchman Finnie kept a close watch for a time and saw the man come out. The constable caught his man at the Hunter street bridge.

P.C. Meharry yesterday told a Times representative that the first intimation of trouble he had was whilst passing the Bank of Toronto. He then went down the alley and tried all the doors, and when he came to the Beehive he found as above noted a man's hat, coat and vest lying on a box. The Beehive door was locked. He looked through the glass over the door, but could see no one. The policeman then turned out the lights in Alex. Gibson's store by a button that is placed on the counter. Again the Beehive was examined but there was no sign of anyone. Meharry then went out onto the street and asked Mr. Finnie, the night watchman if he had seen any one in the alley. The night watchman said he had not. Then the two went back to further investigate the mystery of the coat still out, and as they rounded the Toronto dank corner, a man emerged from the alley and P.C. Meharry remarked that the man was wearing the same coat and hat as he had seen on a box in the rear of the Beehive. The man went along Hunter street towards the river. The policeman watched him. Mr Finnie examined the Beehive and found the door broken, about six inches from the ground and the coat and hat gone. P.C. Meharry ran down the street after the man whom they had seen emerge from the lane and overtook him at the Hunter street bridge.

At the police station the prisoner was searched and found to have in his possession $11.05, a handkerchief and a pocket knife. The amount the man had when he was arrested very nearly tallys with what was found missing from the cash drawer in the Beehive.

The prisoner gave his name as John Thorpe. He said he was born in Ogdensburg and came here from Perth on Thursday on a freight train. He claimed to have had about $22 when he came here. He intended leaving for Havelock today.

Thorpe appeared before Magistrate Dumbrille at yesterday's session of the police court, was given a preliminary hearing and committed for trial.

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

Ten-Year Old Boy Drowned.

Orillia, July 28.—Merritt, the ten-year-old son of William McGuire, of this town, was drowned in Mud Lake, near Sebright. He stepped out of a boat thinking he could wade to shore, but before his young companion realized it he had sunk in the mud and was drowned.

Costly City Hall Condemned.

San Francisco, July 28.—The City Hall, which cost $7,000,000, was formally declared unsafe at the meeting of the Board of Public Works yesterday, and notice was served on the police department that its station in building must find other quarters. The entire building was condemned.

DOWIE NOT THE OWNER OF ZION

Courts Declare City and Industries Only Belong to Him in Trust

TO ELECT AN OVERSEER

Granger Not Fit to be Receiver Owing to Oath He Took of Submission to Dowie.

Chicago, July 28.—Judge Landis of the United States District Court decided yesterday that John Alexander Dowie does not own Zion City and its industries. He refused to appoint Alexander Granger as receiver, and ordered an election for a general overseer.

The court describes the founding of Zion City, and after calling attention to the fact that inasmuch as Voliva's conveyances to Granger were in plain violation of the intent of Dowie's power of attorney these instructions were mere waste paper.

The court traces Dowie's church career beginning in Australia down to his work in Zion City, and found the Dowie had been for many years in receipt of a large revenue which he devoted to church and charity purposes, that the amounts received aggregated in some years to two hundred and fifty thousand dollars; that Dowie had not sought to amass a fortune, but that he had engaged in a secular occupation to aid in the propagation of his religious doctrine.

That money, the court holds, was accepted by Dowie as a trust fund, and after quoting a codicil in Dowie's will executed 1905, bequeathing Zion City property to his successor, the court says:

"The declaration is unqualified and is a complete recognition of existing trust obligations."

The oath taken by Granger subordinating family ties and relations to all human governments, to the will of Dowie, the court says, unfits him to act as receiver.

The court ordered an election to be held on the third Tuesday of September of a general overseer, under the election laws of Illinois. The court said it would later make suitable provision for Dowie, inasmuch as the present value of the estate far exceeds the actual amount of contributions received to which services as trustee entitled him. The amount the court said, would be determined later.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Laxets act promptly, without pain or griping. Pleasant to take—Laxets—only 5 cents. Sold by J. D. Tully.

POLICE NEWS

Daily Happenings in Court Room and Station.

The Sons of Ease and Weary Willie clubs had a "feast of reason" at yesterday's session of the police court. These standing in this boroughful seat of justice, had nearly two hours of solid amusement.

The first case called was that of John Strain, who has many times promised to cut out the booze. John was given an eight days remand to enable him to get sober and down to the penitent stage.

The next case resulted in $10 more being placed to the credit of the city's account. J. Sullivan pleaded guilty to assaulting one Thomas Sayles, and was assessed $10.

Sayles, in his evidence, said that another man and himself were going home along Charlotte street, when they were met by the defendant, who hit Sayles' friend. Witness said to his friend, "You're a d—— fool to take that," and before he Sayles, knew where he was, Sullivan knocked him down.

The magistrate said to Sullivan "If you think you can knock down any one on the street you like, you'll have to pay for it, as this is one matter worth paying for."

One case that created some interest was that of Steve Holland, charged with selling liquors to minors. The main evidence for the prosecution went to show that the witness had been refused liquor owing to his youth.

Evidence Indicates Man Was Murdered

Orillia, July 28.—At the adjourned inquest into the death of Robert Barbour, who was found lying dead on the railway track on the night of the 17th, additional evidence was given which went to show that the man was dead before the train struck him. The train crew and several others who were present when the body was picked up testified that there was very little blood about. In fact some of the worst cuts had not bled at all. The engine driver, Louis Gordon, had also remarked that the body was not so warm as would be expected immediately after death.

Several witnesses, including two of the night staff at the railway station, testified to having heard loud cries of "Hey! hey!" shortly before the train came in which ran over Barbour. But the most sensational evidence was given by William Rayner, a blacksmith, who said that on going home that night he had overheard three men conversing, one of whom said: "The fellow got what he deserved if he were here now I would give him the same dose. I guess the train has cut him up by this time."

The jury asked that a post-mortem examination be made, in order to determine, if possible, whether death had preceded the running over by the train, and an adjournment was made for a week to allow of this being done. The body has been interred, and will have to be taken up for the purpose.

Ducked Wife Beater and Appear in Court

Kingston, July 28.—James L. Murphy has received the appointment of collector of customs, the position made vacant by the death of Mr. Frank Dunlop.

Last night matters looked threatening for the whereupon, who recently doused a wife-beater named Paterson in the lake, for he complained to the authorities, and the "ducking" were summonsed to court. They appeared yesterday morning, quite a company of respectable persons, but as Patterson was not on hand to prosecute they were dismissed.

Secret of Cancer

London, July 28.—As the result of experiments with mice, the Superintendent of the Imperial Cancer Research Fund Laboratory announced, at a meeting of the subscribers to the fund, that the prospects of discovering the mystery of the origin of cancer were more hopeful than ever.

Experts, he added, are now able to reproduce in mice all the features of spontaneous cancer, and to protect healthy mice from the consequences by inoculation.

Out of a hundred mice inoculated to produce the disease, ninety developed tumors, but in the protected animals no tumors occurred.

It had also been found that the body fluids of protected mice injected into mice with experimental cancer, retarded the growth of well-established tumors.

The superintendent pointed out that the experiments must be carried further before it can be ascertained whether they will have a bearing on the treatment of the disease in mankind.

AN ENGLISHMAN'S LAMENT

London, July 28.—Speaking at a mission service at Blackpool Prebendary, Carlile, of the Church Army, said that since March, 2,000 people had been emigrated to Canada by the Church Army, and that next year the army hoped to send out 20,000.

"An immigrant from Leeds" writing to the Yorkshire Post, from Winnipeg, says: "As to being received with open arms by the Canadians as the emigration lecturers would have us believe, let no Englishman come expecting this, for only today a friend of mine, who has been in the trade over forty years, was told that an Englishman was 'no dirned good.' The papers contain advertisements with the words, 'No English need apply.' I have before me now two reports of suicides of immigrants who had not been able to find regular work. It is quite a common occurrence to read of an immigrant's suicide."

Changes In Our Local Waters

The Toronto Globe of yesterday's issue has the following:

"An order in council has been passed transferring the slides and booms on the Ottawa river, the Hastings river and all the back lakes from the Public Works Department to the Department of Railways and Canals. In future they will be administered by the Minister of Railways. Supt. McClellan of the Trent Canal will have immediate charge."

DROWNED NEAR KINGSTON

Horse Backed Into Lake and Its Driver Could Not Swim.

Kingston, July 28.—A sad drowning accident occurred yesterday morning at 9.30 o'clock at Duffy's Mill, Parham, north of here. Alex. Murdock, a young man employed in the mill, was engaged in carting saw dust, dumping it into Eagle Lake. The horse he was driving backed into the lake and Murdoch, who was unable to swim, was drowned. The deceased was 25 years of age. The body has not yet been recovered.

Big Land Deal.

Ottawa, July 28.—Mr. Joseph Riopelle, acting on behalf of the Public Works Department, gave notice to the owners of property between Sussex street and the Majors Hill Park, from Rideau street to the printing bureau, that the block will be required for government purposes. The purpose is to erect a large block of departmental buildings. The property has been under option for some time, and the total price of the property likely will approximate a million dollars.

Surrenders After Hard Fight.

Hartford, Conn., July 28.—John W. Dwyer, who shot and perhaps fatally wounded policeman Beecher, meekly surrendered, after holding a large crowd at bay all night.

Appeal to Fellow Britons at Home

Transvaal Delegates Issue a Call to the Other Colonies to Aid Them in Preserving British Ascendancy.

London, July 28.—The Transvaal will going to be under the dominion of the Dutch flag? Canada is too proud to stay in a partnership where she is not wanted. We encouraged three generations of men and women over there in the belief that they are British subjects, that they are necessary to the flag, not that the flag is necessary to them. If South Africa is to go her own way, why call Canadian soldiers to go half way round the world to face disease, death and a disastrous and bloody war? The French-Canadians of a century ago could have been pigheaded as the United States, but they chose to maintain with their lives the British flag in Canada. What will they think if we balk on the verge of a crisis? Let Britain begin again, to think imperially. Instead of being factions, let her be loyally seconded by Canada."

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Yesterday afternoon The Wine Clerks defeated the Barbers in an interesting game of baseball on the Riverside grounds. Mr. M. J. Hutchinson umpired as well as could be expected. The game was won by a score of 18—8. Following was the line up:

Barbers.		Wine Clerks
	Catcher.	
Fitzpatrick ...		Guerin
	Pitcher.	
Page		Baiger
	1st Base.	
Gaines		Fitzpatrick
	2nd Base.	
LeFave		Graham
	Short-stop	
Murphy		Doris
	Third-base.	
Kingdon		Smith
	Left-field.	
Kingsbury		Brooks
	Right-field	
Kane		McDonough
	Center-field.	
Brosseau		Finnegan

DID YOU

Ever

Try

A food expert has prepared a crisp, dainty and delicious food for the express purpose of quickly and surely rebuilding the brain and nerve centres, and has given it the name of GRAPE-NUTS. It is toothsome and fully cooked at the factory.

Grape-Nuts

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It is the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs Daniel Ferguson, Jr., of Prescott, Ont Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50 At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

PETERBORO, JULY 23 1906

EARL GREY AND NEWFOUNDLAND.

The anti-confederates in Newfoundland appear to take themselves altogether too seriously. Apparently they can imagine no other reason for a visit by Earl Grey to Governor Macgregor than the hatching of a conspiracy to kidnap their Island and carry it within the ring fence of the Dominion. Only by such clandestine means, they reason, can their opposition to the decrees of nature and common sense be overcome.

Now we are not in the secrets of the two Governors, says the Montreal Star, but we willingly hazard the guess that they have been thinking precious little about the anti-confederates and a great deal about the holidaying possibilities of Newfoundland in the planning of this visit. The anti-confederates are too prone to magnify their own importance to the belittlement of the attractions of their Island. Lots of Canadians would like to visit Newfoundland for its natural beauties, who would take only an academic interest in the purely political question of whether or not it is to join Confederation.

If it be true that Earl Grey is to be snubbed socially by the aristocracy of Newfoundland because of their distrust of his intentions, the Continent will be provided with a farce-comedy for the dull season. The Earl will probably survive the cold shouldering. He can have a good time even if he be not permitted to listen to a stereotyped address and make a formal reply thereto. In fact, it is altogether probable that official personages get far less ecstatic enjoyment out of this bombardment with addresses and besiegement with receptions and beleaguerment with official dinners—especially during hot weather—than than those who provide these entertainments apparently imagine. If the Newfoundlanders desire to make of their Island a popular retreat for much-addressed Governors-General, they will make it certain that no addresses will be presented and no receptions offered to any escaped prisoner from Rideau Hall.

The question of the rounding out of Confederation"—as it is poetically termed—by bringing in Newfoundland, is one that seems to be very much misunderstood by Newfoundlanders. Canadians, as a rule, are not painfully conscious that their Confederation needs rounding out. It is a pretty good Dominion as it stands. Newfoundland will always be welcome if it sincerely desires to come; but it can be exceedingly certain that it will never be kidnapped against its will, either by a holidaying Governor-General or by perambulating politicians anxious to make a name. Canada does not want Newfoundland unless it is entirely willing to join.

Nor will Canada pay any fancy price for Newfoundland. If Newfoundland comes in, it must come in on the same basis as the rest of us. It will get its subsidy; it will get its coast guarded and buoyed; it will get needed public works. But it will get nothing more than other people; and it will come within the circle of our tariff. We are not buying new Provinces with sugar plums. We have Provinces to fill with population in the West, as it is; and our transcontinental railway schemes are quite a sufficient task for the most ambitious Canadian statesman during a considerable future.

This is the century of Canadian progress. Canada is today the greatest name in the world to conjure with, whether it is immigrants we wish to attract or capital we desire to interest. The growth of this Dominion during the next fifty years will be the outstanding economic and social phenomenon of the human race; and more eyes will be upon us than upon any other single section of the globe. If Newfoundland thinks that it can afford to stand outside this illuminated area, Newfoundland has a perfect right to sit in darkness. The millions who will be attracted by the dazzle of Canadian success will simply pass it by as something not "Canadian." It will lack the "trade-mark of the great national production of the Twentieth Century.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Bituminous Coal.

The bituminous coal mining in this country began in Virginia, where the output as early as 1820 was about 50,000 gross tons. In 1840 the American output had reached nearly 2,000,000 tons. In 1850, with an output of about 7,500,000 tons, this country had already passed Belgium, France and Germany. Great Britain was then producing about 54,000,000 tons.

Weight of Bank Bills.

A pleasant "guess" is to name how many dollar bills would be required to weigh as much as a twenty dollar gold piece. Answers fluctuate between 300 as the lowest and 1,000, the correct number being 34.

Labrador.

Labrador covers a larger area than France and Germany combined and is intersected by so many streams that one can travel by canoe in any direction. Vessels need not spend a single night at sea, as a safe harbor can be made in ten miles anywhere from Belle Isle to Cape Chidley.

Antony and Cleopatra.

Antony and Cleopatra were married at the beginning of the year 36. It is possible that Antony needed the wealth of Cleopatra to carry on his Persian campaign, and by his marriage he became king of Egypt.

Surnames.

Nearly all surnames originally were descriptive of their owners. The Parkers were keepers of noblemen's parks, the Warners were warreners, or rabbit tenders; the Barkers prepared bark for tanning, Forster meant a forester, Webster a weaver, Wright a carpenter, and so on.

Tender Fowls.

If the skin of fowls peel easily it is a sign of youth. If the spurs of chickens are over a quarter of an inch long it indicates old age.

The Eyeballs.

To preserve the round shape of the eyeballs occasionally rub them gently and always toward the nose. As one grows older the eyeballs have a tendency to become flat. Gentle rubbing or massage helps to preserve their shape.

Spanish Etiquette.

Ladies seldom rise in Spain to receive a male visitor, and they rarely accompany him to the door. For a Spaniard to give a lady, even his wife, his arm when out walking is looked upon as a decided violation of propriety

Preparing For Harvest Crowd

25,000 Men Will Be Wanted Out West and Already Steps are Under Way to Secure Them.

Montreal, July 27.—Great preparations are being made by the Canadian Pacific Railway for the handling of an immense crowd of men and women who are wanted in the Canadian North-West for work during the coming harvest days.

It is estimated that at least 25,000 men and women will be wanted for the harvesting of about 200,000,000 bushels of grain. That is the present estimate, but it is thought by many that it will be even greater.

A Canadian Pacific official stated yesterday that he expects they will have the largest excursions in the history of the road in connection with the North-West harvest. The excursions do not start until August 7, so that at present there are no indications, except the ordinary applications for particulars. The fare as far as Winnipeg from any station in Quebec or Ontario will be twelve dollars or eighteen dollars return, the six dollars for the return trip being payable after the work is over and on presentation of a certificate showing that the holder has worked at least thirty days.

The August 7 excursion will be from all stations of the Atlantic division of the Canadian Pacific Railway. On the 14th from Toronto-Hamilton districts; on the 22nd from points east of Toronto; on the 28th from the Sault Ste. Marie district; on the 30th from the Toronto and Guelph district.

The Immigration Commissioner for Manitoba, room 22, 197 St. James street, is now preparing facts for those who want to go and he will have all information for those who desire it.

Too Personal.

"What caused you to strike the customer?"

"He sets down, an' when I asts him what it'll be," explained the new waiter, "he ses, 'You ain't got no brains, have you?' an' then I soaked him one."

A Change of Climate.

His Wife—John, dear, the doctor says I need a change of climate. Her Husband—All right. The weather prophet says it will be colder tomorrow.

Those who wish to appear wise among fools, among the wise seem foolish.—Quintilian.

House Boats In China.

Travel in the interior of China by means of house boats costs about $1 a day. It is popular with European tourists.

Elephant Nurses.

Elephants often take the place of nurses in Asia. The children are lifted on the elephant's back with his trunk; he then goes a short distance from the village, places them on the ground and guards them.

Iron Visiting Cards.

Visiting cards of iron are popular on the continent of Europe, the name being printed in silver. The thickness of the cards is one-four-hundredth of an inch.

Deaths In Austria.

Excessive use of drugs is the cause of death of 20 per cent of the population of Austria, according to official statistics, while 44 per cent of the medical profession in that country die of heart disease.

Camphor.

Japan has the monopoly of camphor production, for it is only in that country and Formosa that the camphor tree flourishes commercially.

Coffee.

The first cup of breakfast coffee is apt to be the weakest, and he who has the honor of being served first fares the worst. To overcome this difficulty pour a little into each cup, then begin again and add a little more to each until the cups are filled.

Patents In France.

A French patent must be prior to patents taken out in other countries, otherwise the application will not be granted.

Worn Towels.

Towels worn in the middle may be cut in two like the sheets and worn places cut away and the ends hemmed, using them as hand towels. Or they may be made into washrags for the people who dislike the thick, rough kinds.

Red Noses.

This formula for red nose has been very successful. Mix the ingredients thoroughly and apply to the face with a soft linen: One ounce of glycerin, one half ounce of rosemary water, twenty drops of carbolic acid.

Piano Keys.

Alcohol is excellent to clean the piano keys, but care must be taken that no drop of it touches the woodwork. If the alcohol should spill on the wood wipe off immediately with a dry cloth and rub with a bit of clean chamois.

Canadian Colleges Prefer
New Scale Williams Piano

A piano must be flawless and faultless to stand the crucial test of the educational institution. Directly under the notice of the best musicians—in daily use for hours—it is subjected to an ordeal that tests its every part.

The fact that the New Scale Williams Piano is the favorite in Schools and Colleges in every part of the Dominion proves its matchless workmanship and durability.

"We may say that we are more pleased every day with our New Scale Williams Piano"—Sisters of St. John the Divine.

Write Williams Piano Co. Ltd., Oshawa, for copies of illustrated booklets on the history and construction of a Piano, or call at the local warerooms.

J. M. GREENE MUSIC CO., Opera House Block, Peterboro

CATARRH OF THE STOMACH THREATENED HIS LIFE.

Finds Prompt Relief In Pe-ru-na, the Reliable Catarrh Remedy.

PROF. ALBERT J. SMITH.

A PROMINENT PROFESSOR OF DANCING, WELL KNOWN IN AUSTRALIA, LONDON AND CANADA, RELATES HIS WONDERFUL EXPERIENCE WITH THE USE OF PE-RU-NA.

Albert J. Smith, the well-known professor of dancing, formerly of Ferndale Academy, Paddington, Sydney, after touring London and Canada, has now located in Carlton, Victoria, (Australia) at 25 Cardigan street.

He writes to the Peruna Drug Mfg. Co., Columbus, Ohio, (U. S. A.), regarding his use of Peruna, as follows:

"I was troubled with catarrh of the stomach for a number of years, which finally resulted seriously.

"It was when the disease was at its worst and I could not sleep, eat nor work that I began using Peruna and found that it was doing me good every day.

"My stomach began to feel much better, my appetite increased, and I did not feel so nauseated upon rising in the morning.

"My bowels were soon in better condition, my sleep undisturbed, and the catarrh gone.

"Peruna is a perfectly wonderful medicine and I certainly recommend it for catarrh."

Some years ago it was thought that catarrh was confined to the head and nose. However, all the respiratory and digestive organs are lined by mucous membranes, and catarrh will attack these membranes at any point.

The most reliable remedy for catarrh, no matter where located, is Peruna, an internal, systemic catarrh remedy. It has proven its efficacy by years of use in thousands of families.

CANADIAN PACIFIC RAILWAY

FARM LABORERS

To Manitoba and Saskatchewan

1906 **$12** for the going trip. **$18** additional for the return ticket, under conditions as below.

—GOING DATES—

AUG. 14 Stations south of, but not including main line, Toronto to Sarnia, including Toronto.

AUG. 17 Main line Toronto to Sarnia and stations north, except north of Cardwell Junction and Toronto on North Bay Section.

AUG. 22 From all points Toronto and east to and including Sharbot Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland Divisions.

One way second class tickets will be sold to Winnipeg only.
Representative farmers, appointed by Manitoba and Saskatchewan Governments, will meet laborers on arrival at Winnipeg.
Free transportation will be furnished at Winnipeg to points where laborers are needed.
A certificate is furnished when each ticket is purchased, and this certificate, when executed by farmer, showing that laborer has worked thirty days or more, will be honored from that point for a second class ticket back to starting point in Ontario, at $18.00 prior to Nov. 1st, 1906.
Tickets will be issued to women as well as to men, but will not be issued as half fare to children.
Tickets are good only on special Farm Laborers' trains.

For full particulars see nearest C. P. R. ticket agent, or write C. B. Foster, D. P. A., C. P. R., Toronto.

The Outing Magazine for August.

The Outing Magazine for August is a midsummer fiction number with some sterling American short fiction by such writers as Lawrence Mott, Clarence Edward Mulford, Sewell Ford, Adele Marie Shaw, and Ernest Russell, besides the new instalment of Jack London's "White Fang," which grows in interest as the story progresses. The number is notable, moreover, for its beautiful colored plates made from characteristic paintings by such men as Schoonover, Kemp, Kriehoff, and Wyeth among others.

Among the articles, perhaps the most notable thing is the beginning of Dillon Wallace's remarkable story of Labrador exploration, entitled "The Long Labrador Trail." In this series of papers is shown the way in which Wallace's compact with Leonidas Hubbard, Jr., made during that first tragic expedition, has been kept. No exploring story of recent years is as interesting or vital. Ralph D. Paine's "Builders" series continues. Each story is separate in itself, this month's instalment being called "Where Ranch and City Meet," a story of the rapidly diminishing oldtime California ranchero. John H. Spears, well known for his fact and fiction stories of the sea, tells the first of many tales of the old buccaneers—articles that are a new proof that fact is stranger than fiction—and Charles Belmont Davis's entertaining article entitled "The Renaissance of Coney," is made more attractive by some of Hy. S. Watson's most characteristic drawings. Among the strong, practical articles of the month are "Speed Swimming," by L. de B. Handley; "A Pocket Golf Course," by Van Tassel Sutphen; a horse article by F. M. Ware; another of Dan Beard's practical roughing-it articles, and many others. There are many other features in this number of The Outing Magazine which are worthy of mention, such as verse by Ellis Carmen and Elizabeth Roberts MacDonald, and a pretty fantasy in prose by Edwina Stanton Babcock. This is one of the most attractive magazines The Outing Company has ever published.

Scar Marks.

Scars are caused by the destruction of tissue. When this destruction is complete nothing in the world will remove the white blemish. When the injury is only partial much can be done by anointing the spot with zinc ointment every night and bathing it with a saturate solution of boric acid every morning. Electric massage treatments are helpful for the reason that they bring the blood to the surface and encourage a thoroughly healthy action of skin and glands.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any constitutional, acquired or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Thirty years' experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure or no charge.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Remember the old adage, "a stitch in time saves nine." Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 27 years. **You can pay after cure.**

WE CURE Nervous Debility, Varicocele, Stricture, Blood Diseases, Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call, write for a Question List for Home Treatment.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mines, enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has columned in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $320,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to make is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 10 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished, correspondence solicited.

EL PASO PARRAL MINING COMPANY,

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

image to face the original. He stood before that queenly form, and met those large, luminous, dark eyes fixed upon him in royal graciousness, as she said:

"You are Colonel Hastings's secretary, I believe, sir. Pray sit down. You will find the London papers on that table." And, with a graceful bow, the lady passed him, and seated herself on a sofa at the extremity of the room, took up a portfolio, and was soon deeply engaged with its contents.

After the profound bow with which he had returned her curtsey, Ferdinand Cassinove remained motionless where she had left him. But ten minutes had elapsed since she had glided in among the flowers, and passed him like a vision seen in some beautiful dream. But ten minutes, and life, the world, himself, were all changed for Ferdinand Cassinove. He felt, from that moment, that his fate must take its character for good or evil from the will of that royal looking woman.

Who was she? What was she?

He had heard that Lady Etheridge had a young friend, Miss Dornton, staying with her, to act as her first attendant at the approaching marriage. This, then, was Miss Dornton. And who was Ferdinand Cassinove, that he dared to occupy his thoughts with Miss Dornton? A young man of obscure origin, left to the benevolent guardianship of Colonel Hastings, who had defrayed the expenses of his education at school and college, and afterward taken him into his family as his private secretary. Yet all of Italy's genius, passion, and poetry smoldered in the heart of the young secretary, and these were kindled into a sudden blaze by the electric spark of love.

Miss Dornton! a lady of rank, and, perhaps, of fortune! Oh, if she were not already wooed and won! Give him time and, under the inspiration of his love for her, he would win wealth, distinction, a glorious name, and lay them at her feet. If this passion was sudden as it was ardent, remember that Ferdinand Cassinove was of the Celtic race. Yes; he would win the world, and lay it at her feet!

In the midst of the pleasing pain of this love-dream the door opened, and the gray-haired servant whom Ferdinand had seen in the hall entered softly, and stepping across the room to where the lady sat, and speaking in the low, subdued tone in which royal personages are addressed, said:

"My lady, Colonel Hastings' respects, and he awaits your ladyship in the library."

"Very well, William; go and say to Colonel Hastings that I will attend him immediately," answered the lady, rising.

This queenly woman, then, was Laura, Baroness Etheridge of Swinburne! Forever and forever unattainable by him! Oh, despair! His castle in the air tumbled all about him, and buried all his hopes and aspirations in its fall. While still stunned by the discovery he had made, the old servant approached him and said:

"You, also, sir, are wanted," and left the room to precede his lady into the library.

Lady Etheridge passed on with her stately step and gracious smile, and young Cassinove followed like a man in a state of painful somnambulency.

They crossed the great hall to the library, which was situated on the same floor. It was a great, antique apartment, richly furnished, and stored with the literature of all lands and ages, and adorned with the portraits of such of the old barons of Swinburne as had been distinguished in the councils or the battles of their nation. At a writing-table near the centre sat Colonel Hastings, who arose with the stately courtesy of the olden time, and set a chair for his ward.

Lady Etheridge, after greeting her guardian cordially, took the indicated seat.

The old servant retired.

Ferdinand Cassinove withdrew to a distant Gothic window of stained glass and stood apparently studying its scriptural subjects, but really, with senses preternaturally sharpened by the excitement of his heart and brain compelled to hear and see all that passed at that central table.

There they sat, the guardian and his ward, in close discussion. The guardian, with his tall, spare figure, and thin, pale face, in marked contrast with his solemn suit of black, sat examining a document that lay before him. Lady Etheridge, in the purple satin robe that so well became her superb figure, sat opposite, with her arm carelessly resting upon the table, and her fine face raised, with an expression of joy irradiating her countenance.

"But my dear Laura," said Colonel Hastings, with a look compounded of pleasure and perplexity, "this noble liberality, I must say, places us in a very delicate position. I am your guardian; your intended husband is my son. The calumnious world already charges me with having made the match between my son and my wealthy ward. And now, Lady Etheridge, should you persist in your generous confidence, and execute the deed of gift of this whole magnificent estate to your intended husband, and he should accept it, what, then, would the world say?"

"Just what it likes, my dear guardian. I am of age and have the right to do what I please with my own. I please to bestow it all, not only in effect, but in reality, upon my husband," she replied, with a beaming smile.

"But, Lady Etheridge, I do not know that you, the last baroness of the ancient house of Swinburne, have the right to transfer the Castle of Swinburne, with its vast dependence, to an alien."

"An alien! Do you call my husband an alien?"

"He is not of your blood."

"He is more. He is of my heart, and soul, and spirit, as I am of his. Oh, Colonel Hastings! there can be no question of mine and thine between me and Albert. The deed of gift that transfers all my possessions to my future husband is made out; let it be executed. He shall then never be jealous of his wife's riches, for she will come to him as poor as a cottage girl," exclaimed Lady Etheridge, with a pure devotion of love flushing her cheek and lighting her eyes.

"Lady Etheridge, are you resolved upon this transfer?"

"Immutably."

"Then you must have your will. Cassinove, come hither. If you please. Your signature is wanted, as witness to a deed."

Young Cassinove started. He had heard all that had passed, thinking, feeling—Oh, Heavens! how this woman can love—this woman, whom I could worship, nay, whom I do and shall worship as the guiding star of my life, as long as I shall live. Oh, that the man who is blessed with her love may be worthy of her! And, oh, that I had the old Pagan privilege of opening the gates of life, and escaping its tortures! He obeyed Colonel Hastings's summons, and went up to the table where he was presented to Lady Etheridge, as

"My secretary, Mr. Cassinove, your ladyship."

"I have seen Mr. Cassinove before," said the lady, kindly holding out her hand.

He barely touched the white hand as he bent before her. His own turned cold as ice.

"Now, then, Lady Etheridge," exclaimed Colonel Hastings, spreading out the document before her.

And the business of signing and witnessing the deed was completed.

Colonel Hastings and his secretary then took leave, and left the castle to return to the Etheridge Arms, whither we must precede them by a few hours.

CHAPTER II.

Colonel Hastings had scarcely left the room ere Mr. Albert Hastings arose, stretched himself with a weary yawn, and began to pace thoughtfully up and down the floor, murmuring:

"Men think me a very fortunate and happy man; and, doubtless, an unusual number of good gifts have been showered upon me by the favor of the blind goddess—not the least among them would be esteemed the hand of this wealthy young baroness, my bride expectant. Well, we cannot have everything we want in this world, else sweet Rose Elmer only should be the wife of Albert Hastings. Poor girl! she little dreams that the man who has wooed her, under the name of William Lovel, is really Albert Hastings, the envied bridegroom of the high-born Lady Etheridge of Swinburne. It cannot be helped. I cannot pause for lady's right, or maiden's honor. Here, then, for a divided life; my hand to the lady of Swinburne—my heart to the lovely cottage girl; only Lady Etheridge must never know of Rose Elmer and William Lovel, nor must Rose Elmer know Lady Etheridge and Albert Hastings. And now to persuade Rose to go before me into Wales, where myself and my lady-bride are to spend our honeymoon."

And so saying, Albert Hastings took his hat and strolled out into the street. Walking in an opposite direction to that taken by Colonel Hastings in his drive to Swinburne Castle, Albert Hastings soon reached a cross-country road, which he pursued for about two miles. Then, turning to the left, he entered a narrow, shady lane, that led him to a small, secluded cottage, nearly hidden from sight amid climbing vines, clustering shrubs and overhanging trees. Taking a key from his pocket, he unlocked the little green wooden gate, and passing between tall, flowering shrubs, he stepped under the vine-shaded porch, and applying a small key, opened the cottage door and entered at once upon the only large room the cottage could boast.

This lonely cottage had been rented and furnished by Albert Hastings as a trysting place for his love. The whole air of the room was couleur de rose. He called it "The Bower of Roses." It was, indeed, the bower of one peerless rose. Here he had been accustomed, during his visits to the neighborhood of his affianced bride, to meet the Rose of his secret thoughts. But here, also, let it be clearly understood, he had respected the honor of the humble maid en—not upon any good principle, perhaps; but loving her with all the power of his selfish heart, and resolved upon making her his own forever, he abstained from any freedom that might alarm her delicacy, and, perhaps, estrange her heart.

Albert Hastings, the only son of Colonel Hastings, of Hastings Hall, Devon, and of Portman Square, London, had been endowed by nature with

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be equired by one individual or company. Royalty at the rate of ten cents per ton o 2,000 pounds shall be collected on the gross output.

QUARTZ.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrub Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 160 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT

PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $500,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lownder & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS, Clark, McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

FARM LABORERS' EXCURSIONS

1906

The governments of Manitoba and Saskatchewan report this year an exceptionally good wheat crop, and advise that as many as twenty thousand laborers will be needed during the harvest season. To meet this demand the Canadian Pacific Railway will as usual run FARM LABORERS' EXCURSIONS from Ontario points to Winnipeg, and thence to stations in the west where help is needed. The going dates are:—

AUG. 14 Stations south of, but not including main line, Toronto to Sarnia, including Toronto.

AUG. 17 Main line Toronto to Sarnia and stations north, except north of Cardwell Junction and Toronto on North Bay Section.

AUG. 22 From all points Toronto and east to and including Shatbot Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland Divisions.

Going fare $12, return ticket to starting point for $1 additional, if conditions are complied with.

For full particulars write C. B. FOSTER, D.P.A., C.P.R., 71 Yonge St., Toronto. A postal card will do.

Codlin Moth Meets Doom.

San Francisco, July 27.—Horticultural Commissioner Elwood Cooper announced that he was satisfied that the parasite imported from Spain by his department to save the apple crop of the State from the ravages of the codlin moth has proved to be a success. The parasite, if properly cultured in all the States of the Union, it is claimed, will effect a saving of about $100,000,000 a year to the orchardists of the United States.

Immune At Sea Just as on Land

Private Property of Belligerents is Inviolable, Says Union.

London, July 26.—The conference of the Inter-Parliamentary Union, after a prolonged debate yesterday, adopted the following resolution.

"The Inter-Parliamentary Union, now assembled in London, expressed the view that the second Hague Conference should;

"First—By treaty define contraband of war as being restricted to arms, munitions of war and explosives.

"Second—Reassert and confirm the principle that neither the ship carrying contraband of war, nor other goods aboard, such ship not being contraband of war, may be destroyed.

"Third—Affirm the even between belligerents private property should be immune at sea as it is on land.

The conference also adopted a resolution in favor of the discussion by the Hague Conference of means to cut down the "intolerable expenditure on armaments."

Another resolution provides that each national group shall apply to its own government to grant funds to aid future conferences of the Inter-Parliamentary Union.

The decision as to the time and place of the new conference was left in the hands of the International Council. It is expected that it will be held in Berlin in 1908.

The conference then concluded its sessions.

The delegates were entertained at luncheon at the House of Lords. A deputation of the visitors will be received by King Edward at Buckingham Palace today.

Highest Observatory in the World.

The highest scientific station in the world belongs to Harvard. It stands on the summit of Mount Misti, an extinct volcano near Arequipa, in southern Peru. The altitude of this station is 19,300 feet. No one lives at the station. No one could live there. The air is too rare and too cold. The barometer on the top of Misti often stands at fourteen inches. The thermometer often falls to 25 degrees below zero. Once a month an observer climbs up to the station to take the readings of the instruments. He is two days climbing up and two days climbing down.

Eccentric John Underwood.

John Underwood, who died at Whitfleosa, England, in 1733, left some odd instructions for his burial. His fortune of £6,000 went to his sister, provided that no bell was tolled at his grave, no relative followed his coffin and various other arrangements were carried out. Six men only were invited and requested not to come in "black," who received 10 guineas each for their services. Service over, an arch was raised over the green painted coffin, with "Non Omnis Moriar, 1733," inscribed on white marble. The six men sang the last stanza of the Twentieth ode of the second book of Horace. The deceased, who had been coffined fully dressed, had under his head Sanadow's "Horace," at his feet Bentley's "Milton," in his right hand a Greek Testament and in his left hand a small "Horace." The six on repairing to his house to a cold repast had to sing the Thirty-first ode and drink a cheerful glass before retiring at 8 p. m. This done, directed the will, "Think no more of John Underwood."

The Sistine Chapel, Rome.

The chapel is a beautiful place in itself by its simple and noble proportions as well as by the wonderful architectural decorations of the ceiling, conceived by Michael Angelo as a series of frames for his paintings. Beautiful beyond description, too, is the exquisite marble screen. No one can say certainly who made it. It was perhaps designed by the architect of the chapel himself, Baccio Pontelli. There are a few such marvels of unknown hands in the world, and a sort of romance clings to them with an element of mystery that stirs the imagination in a dreamy way far more than the gilded oak tree in the arms of Sixtus IV. by which the name of Rovere is symbolized. Sixtus commanded, and the chapel was built. But who knows where Baccio Pontelli lies? Or who shall find the grave where the hand that carved the lovely marble screen is laid at rest?

Servant and Kitchen.

One way to solve the servant problem is to make our kitchens attractive. Dingy walls and ceilings, oilcloth that has outworn its usefulness, decrepit and few in number cooking utensils, wear on the nerves and spirits of a maid and tempt her to "give warning."

As a rule, a girl goes from one place to another to better herself in material as well as financial things. A cook who has had the use of devices for lightening her work, such as whipped cream churns, vegetable cutters and slicers, fruit pressers, bread mixers, and has been spending her waking hours in a bright, well furnished kitchen is not going to "take a place" where these things are lacking.

An up to date cook wants ramekins and casseroles and blue and white baking dishes and all the modern kitchen ware that makes her work satisfactory and her kitchen sightly and attractive.

Library Table Covers.

The most popular cover for a library table is of dressed calfskins in the Russia leather finish. The skins are lapped together with no attempt at straight lines and stitched flat on the machines, and the part that hangs over the table is left in the original shape, legs, neck and tail coming wherever they will. Usually the decoration is of burned wood, and they are slashed around for a couple of inches by way of a fringe.—Philadelphia Press.

A Colorless Cement.

For a good cement mix the best powdered rice with a little cold water, slowly add boiling water till the right consistency is obtained, then pour into a saucepan and boil it for a minute. This paste is almost transparent and well adapted for fancy paper work, for which a strong and colorless cement is required.

Citizens Would Lynch Negro

Populace of Maryland Incensed Over Two Assaults Committed on Women.

Baltimore, Md., July 27.—With the greatest possible secrecy Wm. Lee, the negro who has been held in the city jail under sentence of death for assaulting two women in Somerset county some weeks ago, was duly placed aboard the steamer Governor R. M. McLane, of the Maryland oyster navy, and started for Somerset county to be executed for his crime.

Lee's case has been one of great difficulty to the authorities owing to the indignation the crime arouse on the eastern shore of Maryland. It has been repeatedly declared that the citizens of that locality will never allow the negro to be legally executed and threats of burning at the stake have been freely made.

After the crime Lee fled to the eastern shore of Virginia and to prevent him from Maryland pursuers he was taken to Norfolk under guard of Virginia militiamen. Then he was brought to this city, tried and convicted promptly. The law gives a convicted murderer twenty days between the day of conviction and his execution. This period expired yesterday.

On board the Governor McLane the officers having Lee in charge took a gallows, coffin and all other necessary things and it is said that the execution will take place on board the steamer as soon as possible after the waters of Somerset county are reached. This probably will not be until early tomorrow morning.

TOSSED THEIR BABIES.

Rochester, N.Y., July 28. — Mrs. Louis Helling was burned to death in an early morning fire at 224 North street. Five other persons narrowly escaped with their lives from the burning block. Mothers tossed babies from second-storey windows into the arms of policemen and firemen, and several thrilling rescues were made by firemen.

BOWLERS ON BOARD.

Montreal, July 28.—The turbine steamer Virginian, with the English bowlers on board, passed Belle Isle this morning, and is due at Rimouski at noon today. Mr. S. P. Bennett of Toronto has left for Rimouski to meet the bowlers.

Eased His Conscience.

"I have examined our public subscription boxes for years," said an officer of a charitable organization, "and in them I have found many queer things. The very queerest, though, was last year. On opening a box in a New York railway station I found the gold settings of a necklace, a stomacher, a pair of earrings and five rings. They were magnificent settings, worth a deal of money. I could not help wondering what the stones, which had been roughly torn out of them, were like. These jewels, of course, had been stolen. The settings were now given to charity by the thief. The stones themselves would be recut and sold. Around this gift was a note, which said:

"'Sell for the sick. My conscience goes as far as this.'"

She Knew "Hamlet."

Every one has a point of view, as a serious minded young Englishwoman found out when she propounded to some working girls a scheme for Shakespeare readings. "Hamlet" was to be the first topic, and she dealt out to the girls some copies and awaited comments. The first came from a girl belonging to that immense army of bookfolders so familiar to all frequenters of working girls' clubs. "Oh, I know this well," she said in a superior tone. "Really?" said the gratified teacher. "Is it your favorite play?" The girl looked at her pityingly. "Lor', I ain't read it!" she chuckled. "We stock 'em at our place. I've 'ad 'undreds through my 'ands. 'Amlet? Sicks to death of 'im!"

At Second Hand.

"Isn't it true, as a matter of fact, Mr. Simmons," asked the lawyer who was examining the man as to his qualifications for jury service, "that all you know about either of the parties to this suit is what you have read about them?"

"Yes, sir," answered the man, "but that's all we know about Abraham or Alexander the Great or Bloody Mary, and yet we have a pretty good idea as to what kind of people they were."

Mr. Simmons appeared to be too intelligent a man to sit on a jury, and he was excused.

To Clean Leather.

To clean leather mix together half a pound each of French chalk and fuller's earth, two ounces of powdered starch and one ounce of yellow ocher. Wet this with boiling water enough to make a thin paste and add one tablespoonful of sweet oil. When cold spread on the soiled leather, let it remain until dry and brush off. Wipe off every particle of the cleaning material and polish the leather with wax melted with turpentine, four ounces of wax and a gill of turpentine. If you wish to darken the leather, add a little oil to the wax preparation.

Catarrh.

Many cases of catarrh might be avoided and others greatly relieved if at the first sign of any trouble in the "early snuffles" period the nose and throat were thoroughly sprayed at least once a day with one part of listerine mixed with two parts of water. A throat specialist thinks this treatment as much a part of the good and cleanly toilet as brushing the teeth or hair or bathing.

Buttons Barred.

"Our collection today, my dear brethren," said the rector, "is for the clothing fund. At the same time, may I earnestly impress upon you that, though the collection is for the clothing fund, it is not necessary to contribute buttons."

There are three kinds of people in the world—the wills, the won'ts and the can'ts. The first accomplish everything, the second oppose everything, the third fail in everything.

THAT SHOP LICENCE

Hopes Entertained in Orillia That a Quietus Has Been Given Mr. Frawley.

Orillia, July 27.—The License Commissioners of East Simcoe held a meeting at Midland to consider the question of extending the licenses granted last May for three months, and Mr. Frawley took advantage of the meeting to renew his application for a shop license in Orillia.

Mr. R. D. Gunn, K.C., of Orillia, and Mayor Fingarson of Midland, appeared for Mr. Frawley and reargued the case.

As the United Temperance League of Orillia had not been notified that the matter would again be taken up, no one appeared to oppose the application.

After hearing what had to be said in favor of granting the license, the Commissioners passed a resolution stating that they would not grant a shop license in Orillia this year, as they did not consider it in the public interest.

The resolution is understood to be stronger than the one passed a week ago last Monday.

It is thought that this will likely close the matter, but no one can be certain, as the case has several times been reopened when it looked quite dead.

Another Story.

An aged Scotch minister, about to marry for the fourth time, was explaining his reason to an elder. "You see, I am an old man now, and I canna expect to be here verra lang. When the end comes I wad like to have some one to close my eyes." The elder nodded and said, "Awell, meenister, I have had twa wives, and baith of them opened mine."—London News.

One Valuable Asset.

"What's the matter with the man in the second story of this house? The doctor's been coming here regularly for the past three months?"

"Oh, he's the doctor's best patient. He doesn't get well and he doesn't die!"—Philadelphia Inquirer.

Logic In Rags.

"I fine you $15 for being a vagrant," said the judge. "Have you the money to pay the fine?"

"Your honor," said the man plaintively. "If I had $15 I wouldn't be fined as a vagrant."

Kept His Word.

"Be mine!" he cried in a voice surcharged with anguish. "If you refuse me I shall die!"

But the heartless girl refused him. That was sixty years ago. Yesterday he died.

A Pretty Figure.

"Is she very lovely?"

"Ah! I can give you no idea how very lovely except that it is between $2,000,000 and $3,000,000."

Emergency Screen.

Sometimes a screen is needed in case of illness or other emergency. A common clotheshorse and two sheets serve excellently until something better can be procured. Of course, if a darker drapery is available, so much the better.

A Monthly Clearing Out.

"One of my best friends," says a writer, "who, with six young children and only one servant, keeps a spotless house and a soul serene, told me once how she did it. 'My dear, once a month I give away everything in the house that we do not imperatively need. It sounds wasteful, but I don't believe it really is. Sometimes Jeremiah mourns over missing old clothes or back numbers of the magazines, but I tell him if he doesn't want to be mated to a gibbering maniac he will let me do as I like.'"

Sport and Adventure with Rod and Gun

If you like to read of the experiences of anglers, shooters and campers, or yachting; or if you are interested in country life, ask your newsdealer for "FOREST AND STREAM," or send us twenty-five cents for four weeks trial trip. A large illustrated weekly journal of shooting, fishing, natural history and yachting. A new department has to do with the Country Home and its surroundings. Terms: $4 a year, $2 for six months. PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. Our Inventor's Adviser sent upon request. Marion & Marion, New York Life Bldg., Montreal; and Washington, D.C., U.S.A.

Indict Union Officers.

New York, July 27.—The grand jury today returned indictments against three officials of the House-smiths' and Bridgemen's Union Local No. 83, charging grand larceny in the second degree. Samuel Platt, secretary of the organization, one of the men indicted is already in the Tombs. The other two men indicted are Benjamin H. Moore, president of the Local No. 52, and Louis Jaffkin. It is alleged that bogus certificates of membership to the union were issued and that sums varying from $150 to $200 were obtained from various men who testified before the grand jury that after paying membership fees they found that they were not recognized as union men.

Hears Master's Voice.

New York, July 27.—The latest use for the telephone is for the identification of lost dogs. Bartholomew McGough, of Weston Mills, two miles from New Brunswick, lost his pet dog and called on the New Brunswick police to keep a lookout for the animal. Not long afterward a New Brunswick policeman found a lost dog in the street. McGough was called up by telephone and told about the find. The dog was held up to the receiver and Mr. McGough talked to it. As the dog heard the voice he barked with delight and convinced the police that he had recognized it as that of his master.

—Children's two and three piece garden tools on sale at 10c. and 25c. at Times Bookstore.

SICILIAN MAIDS.

The Strict Espionage That Is Exercised Over Them.

The young girl in America is singularly unrestrained in her movements, albeit there is so much stress laid upon the presence of a chaperon upon such occasions as usage or etiquette demand it, but what is this pretense of espionage in comparison with what the young women of Sicily must endure, according to a book of sketches published in collaboration by two English authors? According to this authority, the young woman who comes in by the day to do sewing brings a chaperon. Saleswomen in the shops are not allowed to go alone to a customer's house, the maid servants are not allowed to leave their employers' houses unprotected, even to go to church, according to an agreement entered upon when the maid is hired. When a young girl is left alone at home she is locked into the house by her parents.

What would the independent young women of America think of such as siduous oversight upon their actions as that enjoyed (?) by the fair maids of this beautiful little three cornered island off the coast of Italy?

As a matter of fact, few American girls realize how many liberties they enjoy. Free from the English nursery system before her debut; free as a rule to choose her own husband, unlike most of her European sisters; allowed fairly unrestricted companionship with the opposite sex and altogether considered as the companion and friend of her parents, surely she ought to appreciate her liberty.

Torpedoes.

Torpedoes when first employed by the Americans against the English in the Revolutionary war were called American turtles, and their use was pronounced infamous and worthy only of savages.

His Lamp.

Teacher (of east side school)—I wonder how many of you remember the pretty story of Aladdin and the wonderful lamp I told you last week. Billy Bleecker, can you tell me why our little friend Aladdin rubbed his lamp? Billy Bleecker (vaguely)—If he wuzn't gettin' sleepy he must 'a' had a cinder in it.—Puck.

Caustic.

Scene—Train stopping at small roadside station. Irritable Old Gentleman—What on earth do they stop at a station like this for? Objectionable Passenger (alighting)—To allow me to get out. Irritable Old Gentleman—Ah! I see it has its advantages, then?

Up Against It.

"Snobson says he'd rather be alone than in unpleasant company."

"But the worst of his case is, he can't escape even then!"—Detroit Free Press.

Agreed.

The Herr—It is of no use. We must get a separation. The Frau—That is what I say. Isn't it beautiful how we agree?

Perpetual Peace For The Isthmus

Panama, July 26.—A despatch from Guatemala says that peace is welcomed there by universal demonstrations of rejoicing. Guatemala never sought war and readily accepted honorable settlement. Conditions include no money indemnity, both having withdrawn all grievances against other and any future differences among the Central American republics are to be arbitrated by the Mexican and United States presidents, thus practically guaranteeing perpetual peace. Armies are already being disbanded, and the coffee crops of both countries, representing $15,000,000 gold will be saved.

To Relieve Thirst.

It is noticed that pure cold water, even when iced, does not relieve thirst as well as when something is added. Lemonade, toast water, barley water or apple tea is often better for relieving feverish thirst and sometimes are valuable because they have a slight amount of nourishment.

Die on the Earth.

Every good sikh prefers to die upon the bare ground. Regardless of rank or age, no rug must intervene between him and the earth when he breathes his last.

The Author of "Waverley."

There is still at least one man living of those who knew Sir Walter Scott in spite of the fact that the novelist died in 1832. This is George Croal of Edinburgh. Mr. Croal is the only living person who can boast that he was present at the celebrated dinner in 1827 in the assembly rooms of Edinburgh when Sir Walter declared for the first time that he was the author of the "Waverley" novels. This dinner was held in the last week of February seventy-nine years ago. "I can," says Mr. Croal, "remember Scott's words exactly, as they were uttered as he responded to the toast of his health, and ran as follows: 'I am the sole and undivided author of "Waverley."' The crowd of diners received the statement with the greatest enthusiasm, rising en masse, and I thought the roof would come off, they cheered so."

Oxygen as a Cutting Tool.

A jet of burning oxygen from a blow pipe is now successfully employed to cut sheet iron, iron tubes and small bars. The cut made is almost as sharp and thin as that made by a saw. In the earlier experiments difficulty was encountered in clearing the cut of liquid metal and in preventing the spread of the melting effect beyond the borders of the cut. In the process as now practiced two blowpipes are employed. The first has an ordinary oxyhydrogen flame, which heats the iron to redness at the place where the cut is to be made. This is followed immediately by the second jet, composed of pure oxygen, which instantly burns the metal without melting. The liquidized iron is blown swiftly from the fissure, so that there is no serious spreading of the heat to the surrounding parts.

CASTING A SHADOW BEFORE

Has Wall Street Been Discounting a Business Depression?

New York, July 27.—Do coming events cast their shadow before? Has Wall Street been discounting a business reaction? This question is on almost everybody's lips. The editor of one of our leading financial sheets recently made an exhaustive comparison of 1906 and 1856, showing the marked similarity of conditions. The inference might naturally be drawn—1907 will parallel the panic of 1857. But opinion of this point differs. Thus Lathrop & Smith in their weekly circular comment;

"Although it is idle to disregard precedent in forming opinions regarding the future, it is an equal fallacy to compare the features of the present conditions with similar details from the records of previous years. Striking similarities could be found in a comparison of the present year with any of the years that have preceded. Thus, it is possible to put together a series of facts that would make 1906 seem to duplicate 1903; or, to go further back, to be like 1857 or 1873, which were years of great adversity; or by selecting another series of facts to be present situation to draw an equally vivid comparison with the banner year of 1901, or with earlier prosperous periods."

Amalgamation of Toronto Companies

Chatham, July 27.—The Defiance Iron Works here and the Toronto Gas and Gasolene Engine Company, have agreed to amalgamate with a capital of $500,000. The anticipated change will result in the additional employment of from 100 to 200 men by the local branch.

Church Army's Emigration Scheme.

London, July 27.—Speaking at Blackpool, England, Prebendary Carlile, of the Church Army, said that that institution had been instrumental in sending out 2,000 men and women to Canada since March. Next year the Army hoped to send 20,000.

Canadian Doctors Meet.

Toronto, July 27.—The thirty-ninth annual meeting of the Canadian Medical Association will be held in the new Science building, College street, head of McCaul street, on the afternoon of Monday, the 30th of August, at 2 p. m., and the forenoon of Tuesday, the following day. The report of the special committee on reorganization will be presented. British medical transportation rates apply to the meeting.

A Mountain of Flesh.

Daniel Lamber, the "British mountain of flesh," weighed 712 pounds. He died suddenly in London on July 1, 1809.

The Meridian Ant.

In the tropical northern territory of South Australia travelers need not carry a compass. The district abounds with the nests of the *magnetic*, or meridian, ant. The longer axis of these point due north and south.

The Salt of the Sea.

The sea is not of uniform saltiness at all depths, for the saltiness sometimes increases with its depth.

Overloaded Women.

In Italy the women carry very heavy loads of wood from the dock to the market place. Often these are so heavy that the women look as if they would stagger underneath. When asked why the timber merchants do not keep horses and wagons they will reply: "We are cheaper than horses. Besides, we have to earn our living as best we can."

An Inventor's Luck.

Koenig invented the steam printing press. His partner, Bensley, cheated him. Koenig, to support life, had to sell his patents. He died a poor machinist, working for about $8 a week.

Insects' Wings.

Nearly every flying insect is provided with a series of hooks on the front edge of its hind wings, which it can fasten together at will. This explains why you have occasionally noticed one of the species flying apparently with two wings and have seen him display four upon alighting.

Coat Sleeve Buttons.

Buttons on coat sleeves point to a time when coats were very costly and it was customary to turn back the sleeves, so that they should not be soiled.

Vesuvius.

There was a great eruption of Vesuvius in 1779. One who saw it told of a column of fire so high and so hot that black clouds passing through it reached the boiling point and fell in scalding drops upon innocent gamekeepers ten miles away.

WOMEN TRAVEL IN BATH SUITS

Forced into This Plight by Theft of Their Clothing.

St. Louis, July 26.—Two St. Louis women who last night were forced to return by train and trolley from Pitsburg Lake in extemporized bathing costumes consisting of old skirts and dressing sacks, today are swearing vengeance on Charles Newberry, who is charged with being responsible for their plight. With their husbands Mrs. L. P. Smith and Mrs. Edward Erfe went to the summer resort and left their clothing in a small room at the Lake House while they took a plunge. When they came back their clothes were gone. Newberry was arrested today.

Hue and Cry.

"To raise the hue and cry" is an expression borrowed by the English from the old Norman-French law, which commanded that when a felony had been done the hue and cry could be raised by any one having knowledge of the crime, and every person hearing this cry was obliged to leave, whatever occupation he was engaged at and instantly join in pursuit of the evildoer. The expression is cleverly introduced into John Gilpin.

Carpets.

Carpets were in use in Nineveh and Babylon, as shown in paintings, in B. C. 1700.

A Famous Painting.

One of the gems of England's National Picture gallery, "The Canterbury Pilgrims," was painted by the son of a publican who without the aid of birth, wealth or education became the honored friend of Reynolds and contemporary artists. The father of Thomas Stothard, R. A., the artist in question, kept the Black Horse inn, Long Acre, London, 150 years ago.

Twenty Words.

Twenty words which were submitted to a spelling bee in Springfield, Mass., in 1846 were given to the high school classes at East Liverpool, O., by Superintendent Rayman, and it is reported that not one in the class spelled every word correctly. The words submitted were: Accidental, accessible, baptism, chirography, characteristic, deceitful, decedent, eccentric, evanescent, fierceness, feignedly, ghastliness, gnawed, heiress, hysterics, imbecility, inconceivable, inconvenience, inefficient, irresistible. Superintendent Rayman declared that the pupils of over fifty years ago were no better spellers than the school children of today.—Milwaukee Wisconsin.

Frogs' Foam Nests.

A naturalist has just discovered in the Bugoma forest of Lake Albert, Africa, a frog's nest made of a spittle-like froth and attached to the back of some leaves overhanging a small stream. He took the precaution of photographing his find before placing it in alcohol, and as soon as this was done the mass collapsed, revealing, however, a wriggling mass of tadpoles about one-third of an inch in length. Foam nests of this kind, the scientists say, are made by certain frogs in Japan as well as by some South American species. Some fishes also make foam nests, of which the parasite fish is a conspicuous example.

A Square Lace Centerpiece.

The corner of a curtain pattern formed a quarter of an effective lace centerpiece. The girl who made it couldn't find what she was looking for—square centerpieces are unusual, yet a square centerpiece was what she wanted, and she set her wits to work to get it. Among her patterns was one for curtains—a deep border with a prettily turned corner, and that corner proved an inspiration. She traced it off four times, joining the corners until the prettiest sort of a square was the result. The design has been admired and borrowed and copied a dozen times, and made up into every sort of braid. For there are certain times when a square centerpiece or little table cover suits a particular purpose as nothing else does.

Consult Your Dressmaker.

A dressmaker, it is said, is the best person to consult when a lady wishes to have a photograph of herself taken. This is so because a dressmaker knows her customers better than any one else can know them. Even the photographer himself, artist though he may be, may turn the sitter's head in all directions without being able to seize the pose which is the most becoming to her. A thorough acquaintance with the sitter is necessary to give the right pose required to make the photograph a success, and a dressmaker who knows every line of her customer's figure may really be a most precious adviser on the subject.

GOOD AS GOLD

You Run No Risk.

For every $100.00 liabilities on the Government Standard, the **London Life** has $113.50 in assets; 85% of these assets are first mortgages chiefly on property in Western Ontario and the **best** sections of Manitoba.

You run no risk by insuring in the London Life Insurance Company—sound investments, high interest earnings and economical management make a policy in the "London Life" as **Good as Gold.**

Pale Faced Girls

Thousands Using Successful Cure For Paleness and Anaemia.

The pallid girl always lacks appetite. What little she eats is badly digested.

At night she is restless, she dozes, but doesn't sleep soundly.

Vital force must be increased, new blood must be supplied and a general rebuilding take place before she will feel like she ought.

Dr. Hamilton had invaluable experience in these cases and found nothing so prompt in building up the young women as his vegetable pills of Mandrake and Butternut.

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood; they also improve digestion and render food ready for absorption. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated.

Full of spirit, ruddy and strong is the girl that assists her system by Dr. Hamilton's Pills.

The following recent letter from Miss Etta McEwen, of Haliburton, speaks for itself:

"In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep more soundly, and awaken in the morning feeling quite refreshed.

"Formerly I felt tired and depressed. I looked as if a severe illness was hanging over my head.

"Nothing could give quicker results than Dr. Hamilton's Pills and I strongly advise every young woman to use them."

All dealers sell Dr. Hamilton's Pills 25c. per box or five boxes for $1, by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Local Church People Take Outing.

On Thursday a large party under auspices of the Ladies Mission Circle of the Park street Baptist church were the guests of Mr. and Mrs. Robert Smith of Monaghan.

Mr. S. D. Hall Sends German Papers

The Times has to thank Mr. Dickson Hall, who is registered at the Savoy Hotel, Berlin, for his kind remembrance in sending us copies of German papers from that city. We have no doubt but what every article in these papers, from editorials to advertisements is ably written and profound in doctrine, unfortunately our translator is off on his holidays. All the same we appreciate Mr. Hall's courtesy and hope his Dresden tour will be as replete with pleasure as is our inability to untangle the news conveyed by the message from the Fatherland.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students would make application as soon as possible. Call at the College or address

WM PRINGLE,

Opposite Post Office. Principal.

SOCIAL AND PERSONAL

—Mr. M. R. Davis, Kingston, was in the city yesterday.

—Mrs. W. J. Read, Bowmanville, was in the city yesterday.

—Mr. W. A. Jweet, Lindsay, was a guest of the Snowden House, yesterday.

—Miss Stella Collinson, Peterborough, is visiting Miss Mary Hendren.—Norwood Register.

—Mrs. Frank M. Coy and daughter, Helen, have gone for a three weeks' visit to Detroit, Mich.

—Mr. Geo. N. McGee of Penelon Falls was in the city yesterday a guest at the Snowden House.

—The Misses McAuliffe, of Washington, D.C., are spending a few days with their mother in east ward.

—Mr and Mrs. Laurant Paquet, of Hawkesbury, are spending a few days with Mr. and Mrs. Angus McPherson.

—Mr. R. P. Bingham will preach at both morning and evening services at Bethany Tabernacle. Rev. Mr. Sternagle has gone to Waterloo, Ont., to attend his father's obsequies.

—Miss Lundy, of Peterborough, who has been the guest of her sister, Mrs. Hopkins, at the Lake Shores Center Island, has returned to her home.—Toronto Star.

—Mrs. Frank Mason, Peterborough, Mrs. Victor P. Thewlis, of New Bedford, Mass., and her daughter, Miss Frances Thewlis, have returned to the city after spending a few days at Stony Lake, the guests of Mrs. John Nugent.

—Millbrook Reporter: Mr. John Crane, manager of the Ontario Bank, Peterborough, was on on Tuesday.—Mr. Norton McBrian, of Peterborough, was in town last week visiting his old acquaintances.—Miss Bertha Lock is visiting friends in Peterborough.

—Miss Julia O'Donnell, of Peterborough, is visiting her cousin, Miss Kate English.—Miss Josie Herr, of Peterborough, is home for the holidays.—Mr. James O'Shea, jr., of Peterborough, is a guest of his uncle.—Caughnawaga correspondence of Norwood Register.

—Mr. Jos. Stewart, of Peterborough, license inspector for West Peterborough, was in the village on Monday on a tour of inspection of the hotels. He also visited Young's Point. As both places the hotels were found to be satisfactory in every respect.—Lakefield News.

Fire Alarm Cards Will Be Issued

Mr. C. B. Lasell, travelling representative of the National Fire Dept. Chief's Association is spending a few days in the city. Mr. Lasell, whilst giving The Times a call stated that he is now engaged in getting out a card, giving particulars as to the city's aldermen and fire brigade. These cards, showing the various fire alarm signals, etc. are got out to assist the local brigade. In the margin of each card of which several hundred will be printed for free distribution, there will appear advertisements of our local merchants and manufacturers. This is one of the best advertising plans we have seen for some time.

Women with weaknesses should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, it is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

SEA SIDE EXCURSIONS

Low Rates to Famous Watering Places.

The seashore with its refreshing and invigorating salt breezes has unbounded charms for those who are oppressed with the summer heat of inland cities, so the announcement of the Intercolonial Railway in another column should be read with especial interest at this particular time. The Sea Side Excursions advertised by the Intercolonial Railway from Montreal to the various points along the Lower St. Lawrence, to the shores of Northumberland Strait, the Bay of Fundy and the Atlantic Coast, afford a splendid opportunity of leaving the Canadian Metropolis for a vacation at astonishingly low rates and by the splendid through trains, the "Maritime Express" and the "Ocean Limited," leaving Montreal at 12.00 o'clock noon and at 7.30 P. M. o'clock daily, except Sunday. A fast and luxurious journey is assured, the excellence of their dining and sleeping car arrangements being unequalled on the continent. "Tours to Summer Haunts," a profusely illustrated publication describing these resorts of Quebec and the Maritime Provinces, can be obtained on application to the Toronto Ticket Office, 51 King street east, or General Passenger Department, Moncton, N. B.

Mr. McPherson Will Not Get An Auto

As noted in The Times of a few weeks ago, Mr. F. R. J. McPherson, the George street plumber, sold his automobile. It was then noted that Mr. McPherson was endeavoring to secure a new four cylinder auto from the Canada Cycle & Motor Co. Thursday he received a letter stating that it would be impossible to fill his order, either for a new or second-hand car, as the firm had very many contracts ahead.

Orangemen Will Attend Church.

The anniversary of the closing of the Gates of Derry will be observed in Peterborough by the members of Jubilee Lodge of Prentice Boys, and also the members of Diamond Lodge, No. 80, L.O.L., attending divine service. They will attend George St. church on the evening of August 12th, when the pastor, Rev. Dr. Crothers, will deliver a special sermon.

LOCAL INCIDENTS

By The Times Man on the Street

—The adjourned meeting of the Board of Works was held yesterday evening.

—A large and delighted audience took in the band concert at Victoria Park last night.

—Last night the moving pictures at Jackson Park, were seen by fully 2,000 people who were greatly pleased.

—Mr Thornbeck, who managed the rink last winter, went to the hospital last night, owing to an attack of typhoid fever.

—Last night Mr. Chas. Munden, agent for the Columbia Graphophone gave a free concert at Jackson Park with a $50 graphophone.

—The Hope cheese factory near Westcote cemetery, was burned down last week with its contents, which included a month's make of cheese.

—The town of Campbellford has a surplus of $400 after paying all expenses in connection with the inaugural celebration held in that town July 2nd.

—The annual excursion of the Leather Workers of Peterborough will be held down the river to Jubilee Point this afternoon on board the steamer Water Lily.

—The employes of the Armature department of the C.G.E. Co. are pushed with work. They have received instructions to work each night until ten o'clock.

—At the Printers' picnic Aug. 13th, a team combined of Times and Review members of the 4 h cattle, will go after the scalps of the professed ball players belonging to the Examiner.

—Referring to a former Peterborough man, the Standard, a Regina paper issued in Chicago, says that Rev. Harry Grundy has been doing most excellent work in the mission field.

—Postmaster Vance received the good news yesterday that henceforth we shall have open mail and a mail clerk on the 12.10 and 5.10 trains. This will make two open mails a day each way, a great convenience to the public, we are sure. — Millbrook Reporter.

St. Luke's Church S. S. Excursion

As usual the annual outing of St. Luke's church Sunday school, held this year at Jubilee Point, was thoroughly enjoyable.

Capt Harris, of the Str. Monarch, which carried the excursionists did all in his power, and successfully, to make things pleasant for the crowd. Dinner was partaken of at Jubilee Point. Following are the names of the prize winners in the sports;

Infant class, boys—Lionel Tupsett, Jos. Colquhoun.

Girls—Trudie Long, Isabel Parker.

Boys 6 to 8 years—Bryan Carpenter, Jas. Colquhoun.

Girls, 6 to 8 years—Millie Curtis, Emma Whitaker.

Boys, 8 to 10 years—Arthur Lipsett, Victor Sedgwick.

Girls 8 to 10 years—Eunice Curtis, Maggie Colquhoun.

Boys, 10 to 12. — Elgin Stewart, Hugh Stewart.

Girls 10 to 12—Ada Adams, Gladys Whitaker.

Boys, 12 to 14—Evelyn Stewart, Gillespie Stewart.

Girls—Ada Adams, Electa Strong.

Boot race, girls—Ada Adams, Lizzie Munroe.

Boot race, boys —Gillespie Stewart, Percy Neil.

Girls—Electa Strong, Eunice Curtis.

Three-legged race — Edward Stanwell and Evelyn Stewart.

Young ladies' race—Miss Florence Howden, Miss Lulu Scott.

Men's race—Mr. Chas. Crane.

Married Women's race — Mrs. Scott.

A prize for the largest family on board was given to Mrs. George Curtis, sr.

Peterboro Man's Great Invention

Mr. A. O. Tate, an old Peterborough boy, who has many friends in this city has taken out a patent of an invention of his own that will probably be worth millions to the successful discoverer.

Mr. Tate's parent, as far as could be learned, up to going to press, is on a process of closing out horses, i.e., the steam boilers used in manufacturing bolts etc.

We hope that "Alf" has got a patent that will make him a multi-millionaire.

Iron Moulders' Great Outing

On Civic Holiday, Aug. 13th, the local Iron Moulders Union, No. 191, will run their second annual excursion to Cobourg. A special train will leave the G.T.R. station at 8.30 a.m. Upon arrival the picnickers will go to Victoria Park on the lake shore, and here make their headquarters. A baseball game will be one of the attractions. Arrangements are on foot to have the senior Peterborough team meet Cobourg's best nine.

Local Painter is Hurt.

Alexander Redding, a painter, who was working on Mr. Geo. Morrow's cottage, near Mount Julian, had a bad fall on Thursday. He fell off a scaffold to the ground and injured his feet. He was brought home on the boat the same night and is now confined to his home.

Another Bank Clerk Change.

Mr. T. W. R. Black, who has been teller of the Bank of Toronto for the past nine months, received notice yesterday that he was to be transferred to some other branch of the bank, most likely in Manitoba.

DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonin (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Dr. Pierce's Pellets cure Constipation.

Leading Officer of I. O. F. Here

Fine Record of a Strictly Canadian Managed Society.

Yesterday Mr. G. N. Brown, inspector for Eastern Ontario, for the Independent Order of Foresters, was in the city and gave The Times a friendly call.

Mr. Brown is nothing if not enthusiastic about the marked progress of the Order for which he works. He noted that the I.O.F. has lodges and does business everywhere on this continent to the 38th parallel of latitude; the order, in fact, has members in every healty country in the globe. Their principle strength is however on the continent of North America.

The Order was organized in Newark, N.J., and in 1880 re-organized with head offices in Toronto, where the society has their own building. Whilst doing business, and having lodges all over the world, three-quarters of their surplus funds must, under their constitution, be invested in Canada.

The I.O.F. has 240,000 members and over ten million dollars of a surplus.

On Thursday night, largely owing to the present visit of Mr. Brown, some 20 new members were initiated in the local lodge.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

Printers' Picnic on Civic Holiday.

The Printers of this city will run an excursion per the fine steamers Rainbow and Water Lily to Idle Wyld on Aug. 13th, Civic Holiday. The printers have always been noted for knowing how to entertain their guests and this year's outing will be no exception.

Quack Fined at Havelock.

It now seems that even the little hamlet of Havelock has a real live sensation. Mr. J. J. H. B. Moss, of Belmont, who is an amateur doctor, and has lately been charging fees for his services in that capacity, was fined $25 and costs before Magistrate S. S. Joyce at the town hall. The complaint was laid by Provincial Detective Rose on behalf of the Ontario Medical Council, and Mr. Moss pleaded guilty to the charge.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowden House calling at the Oriental and National Hotels;

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock, arriving in Peterborough at 8.30; will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning as once for Peterborough.

AFTERNOON— Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. 'Phone 286.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Band In Russia Holds Up Train

Premier Stolypin Finds Obstacles in Forming New Cabinet---Switchboard of Telegraph Station Burned out.

Warsaw, Russian Poland, July 28.—A passenger train carrying government money and guarded by a detachment of soldiers and gendarmes was attacked today between Czenstochawa and Herby by a large and well armed band. Lively firing ensued during which two gendarmes four soldiers and two civil employes were killed and others of the guards were wounded.

The attacking party carried off $8000 and the arms of the defenders of the train. It probably was the same band which captured a train on Thursday, announcing the revolution had begun.

The countryside is said to be in a ferment and sympathizing with the guerilla bands. The small force of troops operating in the district will be reinforced.

OBSTACLES.

St. Petersburg, July 29.—New obstacles have been encountered by Premier Stolypin in his efforts to secure the services in a reorganized cabinet of men of standing in Russia outside of official life.

The conditions laid down by M. Guchkoff and Prince Lvoff are understood to have been rejected and that they have definitely refused to enter the ministry.

This presages the practical shipwreck of the entire scheme, as without the participation of the non-bureaucratic elements it would be difficult to convince even the Conservatives and Liberals of the sincerity of the government's promises.

BURNED OUT.

The switchboard of the central telegraph station in St. Petersburg was burned out this morning destroying all communication with the provinces.

While there is a suspicion that the "accident" was arranged by revolutionists, no evidence to support it can be found, and the telegraph department authorities are apparently satisfied with the explanation of the employes.

However, the public is cut off from telegraph communication with the interior for some time, but the government retains the possibility of communicating with the provincial authorities over the railroad wires.

Cable communication with abroad is not affected.

ASSAULT DRAGOONS.

Proskuroff, Province of Podolsk, July 29.—Near the Village of Chernipoff, a detachment of dragoons, sent to arrest two agitators, were met by a crowd of peasants armed with scythes, rakes and pitchforks.

In the fighting which followed five peasants were killed, and twelve dragoons were wounded, three of them fatally.

JEWS FLEE.

Kazan, Province of Kazen, July 29.—The black hundred here are terrorizing the intelligentia and Jews with threats of an uprising. Many houses have been marked with crosses and the Jews are seeking safety in flight.

Found After Three Years.

Newburg, N. Y., July 30.—After mourning for three years for her son, who has been kidnapped, Mrs. James Flanagan, of Fishtail Landing, identified parts of the clothing today of the skeleton of a three and a half year old boy, found at the bottom of a gas tank well last night. The child had fallen in the tank and been crushed.

SERIOUS LABOR FAMINE

Sir William Van Horne Calls Canadian Immigration Restrictions Idiotic.

Montreal, July 28.—Sir William Van Horne leaves for Winnipeg tonight and will go then direct to his farm at Selkirk. He arrived home from New York yesterday morning. When asked when he expected to go back to Cuba, if there was any significance in his visit to Winnipeg, what he had been doing in New York, etc., he replied:

"I'm simply trying to keep the almanac in the waste paper basket for a time so as to forget that there are any dates in the year.

"I own three farms and they are two thousand miles apart. I was on the Cuba farm a short time ago. I was at the St. Andrew's, and now I am going to Selkirk." In discussing the Canadian railway situation, Sir William said that it was nothing to be surprised at.

"Canada is like Kipling's ship that found herself. Only Canada has not quite found herself. What we want is population. Is required from the Arctic Ocean to Patagonia throughout North and South America, but the governments of other lands are not such idiots as we are in the matter of restricting immigration. Let them all come in. There is work for all. Every two or three men that come into Canada and do a day's work create new work for some one else to do. They are like new dollars. Hand it out from the bank and it turns itself in value a dozen or more times in a year.

"I quite believe that within a year we in Canada will be in a very serious condition as a result of not having sufficient labor."

BALANCE WILL BE SENT

Government Will Send the Rest of Money to San Francisco.

Ottawa, July 30.—Hon. Mr. Fielding says the $20,000 balance of the Canadian grant of one hundred thousand dollars otwards the San Francisco Relief Fund, of which $40,000 has been already sent to the Red Cross Relief Association of San Francisco, be sent to the same authority. Some individual applications were made to the Government for assistance, but as the hundred thousand dollars was granted for the general relief of the sufferers, the Government felt the whole amount should go into the general fund.

Orphaned Children From Russia.

Leberg, Galicia, Austria, July 29.—A committee of Jews, representing Frankfort and other German societies, arrived here from Russia yesterday with a hundred children, who have been made orphans recently as a result of anti-Jewish outbreaks at various places. They will be forwarded to the United States and England.

C.P.R. Telegraph is Extending Its Lines

Manager Kent Tells of Progress in the Great West.

Montreal, July 28.—"The West is a growing and prosperous looking country," said Mr. James Kent, Manager of the Canadian Pacific Railway Company's Telegraph. Mr. Kent has just returned from his annual inspection of the company's telegraph lines, during which he was accompanied by Mr. W. J. Camp and Mr. B. S. Jenkins.

"Everywhere throughout the country the reports as to the crops are most favorable, and a great harvest is expected.

"Our telegraph property and equipment is in splendid condition and every facility has been provided for handling the increased volume of business when the coming wheat crop is harvested.

"We are busy extending the telegraph lines west, owing to the increased demands of the situation, and the many extensions of railway out there. We have strung about 4,000 miles of copper wire during the present season throughout the North-West and British Columbia. The volume of business is growing steadily and rapidly throughout Western Canada."

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Saturday's scores in the Eastern three ball League were as follows. Toronto and Buffalo playing a double header.

Buffalo 2, Toronto 1, Buffalo 8, Toronto 1.

Rochester 2, Montreal 0
Newark 4, Baltimore 3.
Providence 1, Jersey City 2.

• • • •

LACROSSE.

The Tecumsehs and Montreals are now tied, owing to Saturday's game at the Island, Toronto, on Saturday.

• • •

Tecumsehs and Montreal put up a hot argument at the Island, Saturday for three quarters, then the Tecumsehs run away with it, the final score being 6 to 3 Toronto did worse than expected at Montreal, the lacrosse tail-enders winning by 8—4.

• • • •

Toronto Junction defeated St. Catharines on Saturday by the one-sided score of 14—1.

• • • •

The Cornwalls trimmed the Capitals at Cornwall on Saturday by a score of 5—4, in a bitterly-fought-out contest. The score is not a fair criterion of the play, for Cornwall was on the aggressive three-quarters of the time, and should have doubled the tally.

It is not often that a kick comes from Cornwall about officials, but it must be said that Paddy Brennan, judge of play, was about the rankest specimen of an official that ever walked on a Cornwall field. He let all kinds of tripping go, and twice a Cornwall man was knocked out without a Capital man being penalized for the offence.

Doctor Poisoned by Child's Bite

Saved the Life of Sufferer From Diphtheria, But Will Die Himself.

Boston, Mass., July 30.—Dr. Edward H. Place, house physician at the City Hospital, is dying here as a result of a successful attempt he made to save the life of a child patient who was choking to death from black diphtheria.

The physician was passing through the diphtheria ward when, seeing a little child gasping for breath, he ran a long silver tube down its throat, enabling it to breathe. As he was withdrawing the tube the child bit the forefinger and second finger of the doctor's right hand.

This was on June 26. Blood poisoning set in a few days later, and the condition of the hand grew rapidly worse, so that today the physicians at the City Hospital in attendance upon Dr. Place diagnosed his case as that of blood poisoning in its worse form. His death is momentarily expected. The child is rapidly recuperating.

Local Assessors Getting on,

The city assessors, Messrs. McGrath and Kincaid, are about half brough with their work of valuating all the property in Peterborough at will, however, be the first of October before the returns are all in shape. The assessors have covered Nos. 2, 3, 4 and 5 wards fairly well, but have hardly touched No. 1 ward.

THE PROBLEM OF RAILWAY LABOR

Some of the Difficulties Attending Procuring a Supply of Navvies

ITALIANS STEADY WORKERS

English, Irish, and Scotchmen are Not Found so Suitable on Construction Work.

Montreal, July 30.—The mighty movement in connection with construction work on Canadian railways and the difficulty of getting men who are fitted for the work is a problem the labor departments of the various roads find hard to solve.

Wages have gone up many cents a day since the investigation into the Italian labor question took place in Montreal two years ago. At that time there were many men, nearly all Italians, who could not find work. Today the roads are unable to get sufficient men to do the work.

One dollar and forty cents a day was considered good pay, and men were glad to get it two years ago. Today they want two dollars, and some of them are getting it. The general wage per day is, however, $1.75.

It is estimated that there are today working on construction work in Canada at least thirty-five thousand men, about twenty thousand of whom are Italians.

The Italians stick to one job during the entire six months that the contractors are able to give them work in each year, but with the Englishman, Irishman or Scotchman it is different.

In this connection a railway official pointed out that the man who wrote to the English papers a letter which was cabled to this country about "Englishmen not being wanted" knew little of what he was writing or else he was deliberately trying to mislead the people.

THEY WANT ENGLISHMEN.

"The fact is," said the official, "we do want Englishmen here and there is work for every man that wants it. But this is the trouble: An Englishman, and even the Irish and Scotch, will go out with one of our construction gangs and he will work about three weeks or a month, when he will draw his pay and move farther on, possibly to a center where there is no railway work and where there is little or nothing else for him to do. I am ready this minute to send out almost any number of men within reason."

As if by pre-arrangement, a dozen Italians appeared at the counter and one of them, acting for his friends, asked if there was any work at British Columbia.

"I can send you to Winnipeg; just this side," was the answer, and the man asked "how much." "One-seventy-five a day." "all right; we go." In a few minutes it was all arranged.

At the Italian labor bureaus on St. James street they tell the same story. They can handle thousands more than they are getting, and they believe that wages will be up to $2 or more.

In this connection it might be mentioned that a railway man made a rather significant remark. He said: "There has been some talk in certain quarters of demanding higher wages, but the men are now doing very well, and if they make any trouble it will be easy to shut down for a month or two and they would then be left penniless. As it is those who work a season have no chance to spend money, and they get back to the cities with enough to keep them all winter."

Bad Smash on the Mimico Line

Car Runs Past the Switch Crashes Into Another, Fifteen are Injured.

Toronto, July 29.—A head-on collision between two electric cars, a heavy Port Credit car and a Mimico local, on the Toronto York Radial Railway, occurred at a switch one mile and a half east of the Mimico Asylum, near New Toronto, at 6.30 Saturday morning. Fifteen persons were hurt, only one, however, is thought to be very serious.

The accident was due to the Port Credit car running past a switch where it should have met the Mimico local. The tracks at this point curve sharply on a decided declivity and cars approaching from opposite directions are hidden from each other's view until almost on each other.

Motorman Leslie of the Port Credit car disobeyed orders in passing the switch before the arrival of the Mimico car, it is said, and thereby precipitated the collision.

There was but one passenger on the Port Credit car, Robert Elkin, steward at the asylum. He was shaken up, but late Saturday afternoon, the asylum authorities informed the press that Mr. Elkin was not seriously hurt.

The cars were running reasonably slow at the time, but the impetus of the 70,000 pound Port Credit car on the incline made a quick stop very difficult.

ALL JUMPED.

Just as the fenders met in the crash the motormen yelled and all jumped. One passenger was on the outside front seat and he and the motorman of the local jumped together sustaining bruises and a shaking up. The other passengers jumped quickly, and their immediate action, it is believed, averted their death, as the big car crashed into the smaller one with sufficient force to smash the front end of it into wreckage.

Dr. Forbes Godfrey, the York Radial surgeon, was soon on the scene followed by Dr. Machell, and the two physicians attended to the injured passengers. It was not found necessary to remove anyone to the hospital.

The property damage will only amount to about $200.

At 7.15 the tracks were clear and cars proceeded.

The railway company will probably be required to report the accident to the commission, and an official enquiry as to the cause of accident made by the railway board.

MANAGER MOORE'S STATEMENT.

General Manager W. H. Moore, of the Toronto Radial line stated that the matter would be thoroughly investigated. He was not prepared at present to say upon whom the blame for the accident would be placed.

Roadmaster Deady attributed the collision to Motorman Leslie's action in running by the regular meeting point.

CONDUCTOR'S EXPLANATION.

Conductor Humphrey of the Port Credit car, in a statement to a reporter, said, "We were on our regular run from Sunnyside to Port Credit, and should have been at the switch, which is a little over a mile this side of the asylum at 6.15. We passed the switch, and it didn't seem to me that we slowed up much. I was then in the smoking room of the car and I stepped inside to ask Archie why he didn't stop or slow up. I had just got inside the door of the car when there was a terrific bang, the big car trembled and shook, and before I knew what had happened I found myself slapped up against the front end. I had been thrown the whole length of the car.

"I picked myself up and found that I was not hurt. The motorman on our car was also uninjured."

WAS A DRUNKEN ORGIE

Now Seems Improbable that the Responsibility for Powers' Death Will be Fixed.

Quebec, July 28.—According to the evidence adduced at the coroner's inquest yesterday the Louise docks tragedy is likely to turn out to be the result of a general drunken row, in which the crew of the schooner M. J. Taylor freely participated.

Consequently it will be extremely difficult for the authorities to fix the responsibility of the death of the two seamen, or discover the owner of the knife found embedded in the back of one of them, Thomas Powers.

It was shown that the four R.C.R. soldiers under arrest were in company with the soldiers from the Empress of Britain on Monday, previous to the tragedy, and on the same night, when they were seen drinking together in the R.C.R. barracks canteen.

They afterwards went out together, and later the row that culminated in the death of the sailors took place.

The inquiry is to last several days yet, and perhaps before it is over something may come out in evidence to locate the owner of the knife found in Powers' body, which is the worst feature of the whole affair.

COURTNEY'S RESIGNATION

Will Take Effect on the First of November.

Ottawa, July 29.—The resignation of Mr. J. M. Courtney, Deputy Minister of Finance, will take effect on November 1. It is understood Mr. T. C. Boville, who has been in the department for nearly a quarter of a century, will be promoted to the Deputyship. Mr. Henry T. Ross, of Bridgewater, N.S., at present acting as secretary for the Insurance Commission, being appointed assistant Deputy-Minister.

AGED WOMAN'S WALK.

Port Huron, Mich., July 28.—Mrs. Anna Burch, aged 70 years, passed through here yesterday on a trip from Flint to Delaware, Ont., near London. The old lady says she walked the whole distance from Flint to this city and intended to continue the journey to her destination in the same manner, a total distance of 130 miles. She intends to take up her home at Delaware, and has no the money to pay railroad fare.

Bowlers in Montreal Played at Westmount

Veteran Players and Celebrities With the Team---Committee's Reception--Will Play in Peterboro on Wednesday.

Montreal, July 29.—Some forty British bowlers arrived yesterday by the Allan Liner Virginian, and after the usual courtesies from His Majesty's customs were safely housed in the Windsor, by eight o'clock. They report an enjoyable trip with fog delay in the Straits. There are nine ladies with the party and all anticipate a pleasant holiday in Canada which to many is a terra incognita.

The advance guard, Messrs. Pingland, captain of the team, and McCulloch arrived in Montreal Friday, and put in some practice on the Westmount Green, which they pronounced in good playing condition. They were joined by Geo Anderson, Toronto, captain of the Canadian team of 1904, Dr Russell of Hamilton, also of the team, and C. R. Postlethwaite, secretary of the O.B.A., who had come down to greet the visitors at Quebec. The party was welcomed to Canada by Geo. J. Bennett of Toronto, another of the first Canadian team, who was quickly recognized by a number of the acquaintances of two years ago, and received an ovation. J. C. Hunter of Belfast, vice-captain of the Britishers team, being the first to greet him. A stay of three hours enabled the new arrivals to visit the show places of the ancient capital and under Mr. Bennett's guidance little was missed. He accompanied them on the run to Montreal, where they encountered the first of their colonial opponents at Westmount, playing six rinks aside. On Tuesday, they play a Valleyfield, proceeding the same night to Peterborough, where they will arrive at 6.10 per C.P.R. Wednesday morning, going thence to Toronto, where they arrive on Thursday.

The visiting players are nearly all veteran bowlers, the average age of the party being 54. Mr. Campbell of Perth, the patriarch of the team is 63. Mr. Pillans of Carluke is the youngest, and has reached his thirty-second year. Many of them have attained what is known across the ocean as international honors, having been selected for annual competitions, owing to superior skill, among others Messrs. Telford of Newcastle, McLaughlin of Coleraine, Hunter and McLatchie of Belfast. An interesting member of the team is Baillie David Willox of the Glasgow municipal council, who is not only an expert bowler, but a writer and poet of no small reputation in his native land. J. Butt of Weston-Super-Mare, who will be remembered by Canadian visitors for his lavish hospitality in another of the party. There is feeling of regret that Wales is unrepresented on the team. The Scottish element predominates and on the Westmount Green yesterday afternoon they felt quite at home. The visitors attended divine services today in one of the leading Presbyterian churches, and otherwise spent a restful day, preparatory to the journeyings and contests of the coming week.

Andrew H. Hamilton of Edinburg, is secretary of the bowlers, while John C. Hunter of Belfast and Jas. Telford of Newcastle are the vice-captains.

Night Clerk Wanted.

Wanted at once for Oriental Hotel, night clerk. Apply at Hotel.

Did Toronto Broker Commit Suicide?

Toronto, July 29.—Geo. Selwood, aged 55, real estate broker, was found dead in his room at 210 West Richmond street on Saturday morning, under circumstances strongly pointing to suicide.

He was last seen alive by Wm. Hanna, the owner of the house, who stated that the deceased had spent Friday evening at home, sitting with him in the yard, talking and smoking until until his usual time for retiring. He was apparently in good spirits, and, so far as the latter knows, had no business worries or other troubles. It was discovered Saturday morning that he had been asphyxiated during the night. The gas jet was turned on full head, and the room was filled with gas.

There would have been no thought of any theory other than accident, except that he had not undressed for the night, but was lying upon the bed almost completely dressed.

Coroner Pickering was summoned and after viewing the body ordered it to be taken to Miles' undertaking establishment on College street. He also issued a warrant for an inquest at eight p.m. on Monday.

Little could be learned of the deceased. He had no callers, except on business, but it is understood that there are relatives in the city, including a married daughter, who lives east of the Don.

Two Guardsmen Murdered.

Dublin, July 29.—Two rural guardsmen were shot and killed in a crowded street here yesterday afternoon. The perpetrators of the outrage escaped.

Ontario Liberal Party Must Begin Anew

Ottawa Branch Orders That G. W. Ross be Elevated to Senate and Harcourt Dropped for New Blood.

Ottawa, July 29.—George W. Ross, leader of the Ontario opposition, will not lead his party the next session of legislature. In fact, it has been ordered by the federal branch of the party, that Mr. Ross drop out of the legislature and come to the senate.

One week ago a government official, intimate in the confidence of Sir Wilfrid Laurier, went to Toronto and conferred with Mr. Ross on the reorganization of the party in Ontario. He carried with him Sir Wilfrid's offer of a senatorship.

PRECARIOUS STATE.

Mr. Ross was told that the party was in a precarious state in Ontario, and that the only hope of rejuvenation was in cutting wholly away from the past. Young blood and a new and progressive propaganda were needed. Mr. Ross saw the point.

He issued his announcement of reorganization plans immediately following his acceptance of Sir Wilfrid's offer. It is now only a matter of a few days when he will take the public into his confidence and resign his seat in West Middlesex.

SEAT FOR G. W.

It is said here that Senator Vidal of Sarnia is on his death bed and the vacancy which his death will create will be filled by Mr. Ross. Senator Vidal is 82 years of age and has been on the verge of passing away for a month. The latest word from Sarnia is that he is slowly sinking.

Mr. Ross has made known his intentions to some of his own intimate friends, and is prepared to leave the leadership without regrets. In Liberal circles it is predicted that R. Harcourt will more and more devote his attention to his many business enterprises, and with Mr. Ross and Mr. Harcourt off the stage the way is open for a reorganization of the party on advanced lines.

ROWELL FOR LEADER.

The name of N. W. Rowell, K.C., of Toronto, is associated with the new leadership. He is a London old boy, and might not be acceptable to the good folk of West Middlesex as the successor to Mr. Ross. But it is too early to speculate on the new leader.

Hold Up and Street Battle

Boston, Mass., July 29.—A daylight hold-up and robbery occurred in the Charlestown district yesterday, when a coal merchant was beaten, shot and robbed, and a street battle will revolvers between three desperate robbers and the police followed.

Two of the robbers were captured, but the third got away. The coal merchant, Thomas J. Hickey, 51 years of age, of Wakefield, was shot through the neck, while trying to defend his property and Patrolman Herman Shield received a bullet in the left leg. The men captured, gave the names of George W. Everson, 23 years of age, of New York City, and Fred Sackett, an Italian, 30 years old, of Bridgeport, Conn.

Hickey was robbed of $200 in cash and some valuable papers, which were not recovered.

DISCOURAGED.

New Haven, Conn., July 29.—A woman, who registered as Mrs. Charles Williams, of Utica, N.Y., when given a room at the Young Women's Christian Association Dormitory earlier in the week, was found dead in bed today. An empty carbolic acid bottle and a note reading: "I have no relatives, am discouraged," was found on the table. An official verdict of suicide was given. Mrs. Williams was of middle age, very well attired, and had some money in her purse.

A Buckhorn Hog Exchange

This morning W. Stubbs & Sons leave the Wolfe street wharf with a scow load of 150 hogs for Buckhorn cheese factory. At Lakefield the load will be augmented by about 50 more. They will return the following day with 150 hogs of the finest specimens for the Geo. Matthews Co. A steamer from Young's Point will tow the scow.

A Golden Waterfall.

Vancouver, B. C., July 29.—Chief Louis Good of the Nanaimo tribe will explore the interior of Vancouver Island in search of the water fall over which, tribal legends say, grains of virgin gold flow with the water. The Indians, not knowing the value of the metal, made bullets of it for their old Hudson Bay Company muskets.

Was Not Advised by Emperor.

Moscow, July 29.—The German Official published a letter today denying the report that Emperor William had advised the Emperor to dissolve Parliament, as reported in St. Petersburg on July 22nd.

CLOUDBURST DEVASTATES.

Ancona, Italy, July 29.—A cloudburst has devastated the Camerino region. The village of Capiel S. An-

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel bracedm toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatment, but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong the vigorous and was made so by Ferrozone."

Why not easy guide the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBORO JULY 30 1906

COMMERCIAL CORRESPONDENTS

The British Board of Trade is stated to be considering the advisability of establishing agents or correspondents at various commercial centres in Canada and other important dependencies of the Empire. As we understand the proposal, these agents would correspond in some respects to the consuls and vice-consuls stationed in foreign countries. The idea would seem to be that as it is the duty of British consuls to make reports of the trade of their respective districts, so these agents would report as to commercial conditions and opportunities in British colonies. As it is now, while the British merchant or manufacturer may obtain information through the consular service about business in foreign countries, there has been no official source through which he could secure similar information respecting the various countries under the British flag. The proposal would seem to have considerable merit for the object for which it is designed, provided the officials appointed are capable men with knowledge and experience calculated to cause them to give practical information and not merely masses of statistics in order to make a show of justifying their appointments. The benefits that would be derived by the British manufacturer would also depend to a considerable extent on his willingness to adapt his goods to the peculiar requirements of the market. A disinclination to do this has often been alleged as a defect of the British manufacturer and a cause of his being elbowed out of certain markets by more keen and aggressive foreign rivals willing to meet the wishes of possible customers and to supply them with exactly what they wanted.

These agencies would not, of course, be of any advantage to the Canadian manufacturer, but they would be similar to those that the Dominion Government has established in the United Kingdom, Australia and South Africa. We believe that in several instances the results of these agencies have justified their creation, especially where the occupant was selected for his qualifications for the position, and not simply appointed as a reward for political service. The Department of Trade and Commerce in the Dominion Government has not, as far as can be seen, achieved any great success in aiding in the extension of Canadian commerce. Formerly it was held by many persons that the producer and consumer would come together without any special outside or official efforts to bring them into contact. But the experience of the results secured by the German and other governments by placing official assistance at the command of the trader and manufacturer in affording information and in other ways, has changed public opinion to a considerable extent and the announcement of the proposal of the British Board of Trade shows that in high quarters the old policy of official inaction is being abandoned.

TROUBLE ALWAYS ON TAP.

The way they do it in New York City, observes the Labor Leader, is to keep a lot of later union of skilled sozes and names always on hand and generally in active operation in the great work of raising hades. When it isn't a Brotherhood it is an Amalgamated or an Associated of a United union of bricklayers or plumbers or smoke-shovers, and when there is no other excuse for making trouble, the Amalgamated strike because the Brotherhood has got a job, or the Associateds go out because the Uniteds have come in. This makes things lively and keeps the public which pays the bills in a gentle flow all the time. As we go to press, there is a movement on foot to consolidate all these beneficial organizations. It is being engineered by the "United Board of Business Agents," and when these patriotic gentlemen get things in shape to suit them the patient paying public will be made to realize that there is more than one way of killing a dog besides choking him on butter.

Midsummer Number.

The August Canadian Magazine is a midsummer number, somewhat lighter than usual. J. E. H. McCready's account of the death of Thomas D'Arcy McGee, the trial and hanging of Whalen, will be read with interest, because McCready was a member of the Press Gallery at that time. Norman Patterson's article on "The Exhibition Habit" is a clever analysis of a Canadian characteristic. This is well-composed by some excellent drawings by Fergus Kyle, showing the most artistic features of the exhibition grounds and buildings in Toronto. "The Women of Spanish-America," by that energetic Canadian traveller, G. M. L. Brown, presents an attractive appearance with its collection of domestic photographs. It will surprise many to know that there are eighteen Spanish-speaking republics in America. "Bridging the St Lawrence," by Janus Johnston, is well illustrated with pictures of the old Victoria Tubular Bridge, the present Grand Trunk Bridge on the same piers, the Canadian Pacific Bridge at Lachine, the New York and Ottawa Bridges at Cornwall, and a drawing of the new Quebec Bridge. There are stories by S. Frances Harrison, F. J. Blanchard, Theodore Roberts and Mrs. Campbell Praed, besides other features.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

Captain Had the Royal Donkey Safe

London, July 28.—King Edward lately sent to his grandson, Crown Prince Olaf of Norway, a gift of a donkey, confiding the animal to the special care of the captain of the steamship Montebello.

When the steamer arrived outside Christiania the captain signalled the lighthouse "All right." No acknowledging signal was given, whereupon the captain set a signal, reading, "Ass. One is all right. How's the other?" Still there was no reply, and the captain took his vessel into the harbor.

Knowing that the authorities are very strict in reference to vessels passing the lighthouse being reported, and also being impressed with his responsibility as custodian of the Royal donkey, he complained to the officials of the lighthouse's neglect.

An inquiry was immediately instituted which revealed that when the Montebello passed the lighthouse and gave the first signal the signalman was using the telephone and was unable to reply.

When, having finished his conversation over the telephone, he saw the second signal, he construed the word ass "in a contemptuous epithet applied to himself."

His dignity was wounded, and he refused to report the offender.

For the Stomach Heart and Kidneys

Dr. Shoop's Restorative is a Cause Cure—not a Symptom Cure.

It is a common mistake to take artificial digestives for stomach troubles—or heart stimulants for weak heart—or so-called kidney remedies for diseased kidneys. These organs do not act separately or of their own accord—they have no control over themselves—and not once in 500 times is the sickness the fault of the organ. It is the fault of the nerves which control the organ—and only through these nerves can stomach, kidney or heart disorders be cured. Dr. Shoop, of Racine, Wisconsin, learned early in his medical experience that these inside nerves were the power nerves—that through them only was it possible to cure indigestion, heart, bura, belching, insomnia, headache, heart weak- nesses, and Bright's dis- ease and all other affections of the kidneys. For all of these ailments are not separate sicknesses and are not to be treated as such. They are merely symptoms of inside nerve weakness, and when the nerves are restored the symptoms and the sickness disappears. The remedy which Dr. Shoop prescribed for these ailing nerves is known as Dr. Shoop's Restorative. It relieves the pain and distress of kidney, stomach and heart troubles quicker even than these medicines designed simply to give temporary relief. Dr. Shoop's Restorative can now be had of druggists everywhere. For sale and recommended by

J. D. TULLY.

By the Inside Nerves

Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner.

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about the diamond mining industry, although more or less familiar with the mining of gold, silver, copper, zinc, lead, iron, etc., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 43 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is but one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

many other good gifts besides his pre-eminently handsome and princely person. He had a good head, and originally a good heart; but he had been spoiled from his youth up, in being led to believe that the whole world, and all within it, had been created for his own private use—or abuse, if he pleased.

And if this selfish creed were not now fully credited, it was, at least, thoroughly carried out in his practice—a thing that cannot often be said of better creeds, or even better men.

Albert Hastings had always been designed by his father to be the husband of the wealthy young baroness, his ward. The crafty old man had taken care not to bring the young people together in any manner during their childhood, lest they should grow up as brother and sister, without thought of a dearer relationship. He had contented himself with secluding the young baroness from other youthful company. He had fixed her permanent residence in the deep retirement of Swinburne Castle, where she remained, year after year, under the care of a distant female relative, Mrs. Montgomery, the widow of a clergyman.

There she was attended by various deeply-learned masters and highly-accomplished mistresses, all very discreet and elderly, who had been sent down by Colonel Hastings to carry on her education. At the age of eighteen she first met Albert Hastings. It had been planned that she should spend a year in making the tour of the Continent, in company with her guardian and his son, whose travels were delayed for this purpose. It was but a few days before the intended departure, while the heart of the young heiress was elated with the prospect of seeing foreign countries, that Albert Hastings was introduced to her. His handsome person, dignified presence, and fascinating manners, made some impression upon the imagination of the secluded young baroness. During their subsequent travels over the Continent, his well-cultivated mind, various accomplishments, and brilliant conversational powers so deepened this impression that the youthful Lady Etheridge thought she had met the man of men, the only one in the world to whom it was possible to give her own heart, and when the expected avowal of love and offer of marriage came, Laura Etheridge trembled at the thought of a happiness so rich for her merits—almost too perfect for this world. Albert Hastings was deeply enamored of the Baroness Etheridge of Swinburne and her vast possessions; but apart from those, how much did he really care for the young girl, Laura?

They returned home to prepare for the marriage, which was to take place at Swinburne Castle.

The Hastings fixed their residence at their town house, but frequently came down to Swinburne, the guardian to see his ward, the young gentleman to visit his bride-elect.

It was during one of these visits to the neighborhood, while he was staying at the Etheridge Arms, that Albert Hastings first saw Rose Elmer. Levere, his valet, had sent his master's linen to a laundress, and it had been brought home by Rose.

She was a fair and delicate beauty, small and exquisitely formed, with regular features and a snowy complexion, faintly tinted with a roseate bloom upon the rounded cheeks and plump little lips, and a profusion of pale, golden hair parted and waved off in rippling tresses from a forehead of infantine whiteness and smoothness.

Her beauty fascinated Albert Hastings. He secretly discovered her dwelling—a poor cottage, in a narrow unsightly street of the village—and he made an excuse to call there and settle his laundress' bill. This was the commencement of their acquaintance. Afterward he contrived frequently to meet Rose in her daily errands through the village, and, when no eye was near to spy his motions, he would join her in her walks.

Through the help of a confidential servant and a city agent, he hired and furnished that obscure cottage in the wood, and one day, meeting Rose, he invited her for a walk, and conducted her to the cottage to give her a surprise and to watch its effect. As he ushered Rose into the pretty room, fitted up with all the elegance of a lady's boudoir, she made an exclamation of intense astonishment and pleasure. The rural cottage in its thicket of roses, flowering shrubs and trees, and the pretty room, with its gems of art and literature, affected her with many delightful emotions. The novelty pleased her unaccustomed eyes; the beauty charmed her poetic soul; and the thought that all this had been prepared by William Lovel, and for her, touched her heart with profound gratitude.

"And this is your home?" she said, turning her clear eyes, beaming with innocent joy, upon his face.

"This is my home, sweet Rose, and yours, when you consent to share it with me," he answered, with a grave tenderness that was natural to him when speaking to her.

"Mr. Lovel, I am too lowly born, too humble, and too ignorant to be your wife. Would it were otherwise, and I were more worthy of the station that you offer me," she murmured, in an almost inaudible voice.

He suddenly dropped her hand and walked to the window. He had not meant anything like this. Yet the innocent village girl had naturally mistaken his declaration of love for a proposal of marriage.

How to deceive her without shocking her; how to explain, without estranging her, he could not tell. He perceived that the winning of this girl to his purpose must be the work of time and great patience. He returned to her side, and repossessing himself of her hand, said:

"Sweet love, I did not mean to hurry and distress you. Since you feel a desire for a wider range of knowledge, though I think you altogether lovely as you are, I myself will become your teacher. It shall be my delightful task to open to your mind the treasures of literature and art, and to direct your reading. This lovely spot shall be our study, and you shall meet me here daily, while I remain in the neighborhood. Will you do this, sweet Rose?"

"To educate myself to be more worthy of you? Oh, yes, Mr. Lovel. You almost distress me with kindness. But I have always heard that the noble and good draw their highest happiness from deeds of beneficence. How happy, then, must you be! Yes, Mr. Lovel, I will come," she murmured, in low and gentle tones, blushing at her own temerity in saying so much.

And thus it was arranged. And daily, while he continued in the neighborhood, they met at the cottage in the wood. Rose Elmer proved an apt scholar. She had already the solid foundation of a good common education. Albert Hastings introduced her to the world of poetry, belles lettres, and art. When he left the neighborhood he had left with her a duplicate key of the cottage, that she might admit herself when she pleased, only exacting from her that she should keep her visits thither, as she had kept their meetings, a secret.

Before coming down on his last visit, Mr. Hastings had written her a note, signed, as usual, "William Lovel," and appointed a meeting with her at the cottage.

It would be tedious to repeat all the arguments he used to reconcile her to a clandestine marriage. It is enough to say that he was a man of society, gifted with powers of logic and eloquence that might have swayed the councils of a nation, to say nothing of the mind of a young girl. He was, besides, handsome, fascinating, and in love; and she was a simple village girl, loving, esteeming and confiding in him with her whole heart. He found the task easier than he could have hoped. Hers was the perfect love which "casteth out fear," that "thinketh no evil." Indeed, she advanced but one objection to the secret marriage—her duty to her mother. But this very argument he immediately seized, and used on his own side.

Her "duty to her mother," he said, "was to provide for her support in her old age. Her marriage with himself would effectually do this."

Then she pleaded hard that this mother should be at once admitted into their confidence. Tenderly, but obstinately, he refused this, telling her that their secret would not be safe in the keeping of a sick and nervous woman, whose reason, from all that he could hear of her, was evidently tottering; and that if that secret should be discovered, his proud uncle would not only disinherit him and withdraw his powerful protection from him, but would even turn his political influence against him. Then Rose ceased to resist, only stipulating that after their marriage she should still remain with her mother, who needed her services, until Mr. Lovel should be ready to acknowledge her as his wife and take both herself and parent to his own home.

This was not all that Mr. Hastings wished, but neither logic nor eloquence could convince or persuade Rose Elmer to desert her ailing mother; and upon no other condition than that of being allowed to remain with her would she consent to the secret marriage. And to this condition Mr. Hastings at last agreed, especially as there were very serious difficulties attending his favorite project of sending her into Wales, where he and his lofty but unloved bride were going to spend their honeymoon. And, finally, he obtained a promise from Rose that she would meet him at the cottage that same night, where, by a previous arrangement, his confidential servant, disguised as a clergyman, was to be in attendance to perform the marriage ceremony. After which, Rose should return to her mother, to remain during the few weeks of his absence in Wales, whither, he said, important business forced him. This agreed upon, they took leave of each other for a few hours. Mr. Hastings saying in parting:

"Farewell for the last time, Rose Elmer; when next we part I shall say, 'Farewell, Rose Lovel, my own sweet wife!'"

They returned to the village by different routes. Mr. Hastings went to his inn, and summoned his confidential servant to his presence. And Rose Elmer, full of hope and joy, turned down the street leading to her mother's cottage.

It was a narrow, dusty, unsightly little street. There was no rural freshness or picturesque beauty about it. The little old stone cottages on each side, and the few sickly looking plants

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5; renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 31-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 160 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

PETERBOROUGH, ONTARIO

COBALT

—THE—

WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $150,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Saunders & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS, Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt, Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

Are You Often Bilious?

Read This and Learn How To Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile.

The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present.

Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion.

Unlike ordinary medicines, which purge and give temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected.

Dr Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this by the statement of Mr. Fenwick Luddington, of New Harbor, N.S., who writes: "Three months ago I had no expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach.

"Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. Today I enjoy a good appetite, excellent digestion, and the best of good health. Dr. Hamilton's Pills did it all."

Get Dr. Hamilton's Pills today. Sold by all dealers; 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

SOCIAL AND PERSONAL

—Miss Jessie Cressman is the guest of Miss Marguerite Sanderson, at Boschink, Stony Lake.

—Mr. Ernest Bradbury of the Snowdon House left Saturday for a few days' visit at Port Hope.

—Mr and Mrs. Jas. Sterling and Miss Helen are the guests of Mr. and Mrs. I. Eastwood, 805 George street.

—Miss Mattie Robertson left Saturday evening for Stony Lake, where she will be the guest of Mr. and Mrs. John Nugent.

—Miss Ennis of Rochester, is the guest of Miss Alta Bradd, and will, a little later on spend some time at Stony Lake.

—Ald Torrey is confined to his house through illness. His many friends hope to see him about in a day or two, as usual.

—Miss Marguerite Woodrouffe, of Toronto, and Miss Florence Henderson, of Niagara Falls, N.Y., went to Stony Lake on Saturday to be guests of Mr. John Nugent.

—Mr Chas. Mitchell, who with Mrs. Mitchell and their family have been spending a week at the Chemong Park Hotel, has returned after a most enjoyable outing.

—Mr W. J. Hopwood of Toronto, who with his family are spending the summer months at their charming bungalow on the island at Chemong Park, was in the city on Saturday.

—Mr J. Jacobs, the well known horseman of Montreal, arrived in the city on Saturday from Toronto. The express on which he arrived got in two hours late owing to the engine striking a cow, a little to the east of Myrtle. The cow was killed and a valve on the engine was broken.

The Southern Hotel Not Transferred

The deal is off. Our readers were given to understand by a local evening contemporary that the Southern Hotel, on George street was about to pass from the possession of Mr. Ot. Dunn, into that of Mr. I. Eastwood. On Saturday afternoon at four o'clock, Messrs Jas. Kendry and Dr. Morrison, license commissioners, met in the latter's office, to consider the change of the license of this place. Mr Eastwood had been in communication with Mr. Dunn, holder of the license, and the Chamberlain estate, owner of the property, in an attempt to get control of the property.

When the commissioners met Saturday afternoon, Mr. Eastwood, was told that the commissioners had finally decided that this hotel, although conducted in good style, must be enlarged.

The place must be brought to the standard of a hotel, and not merely a place for selling liquor.

This property is owned by the Chamberlain estate. It is now altogether probable that this estate will, at once, start to enlarge the premises and erect a hotel that is capable of accommodating a large number of guests as required by the spirit of the present license law.

Mr. Dunn, when interviewed by a Times representative showed that the Southern Hotel has fourteen bed rooms, all of which are clean, neat and well furnished.

Where Were the Members?

Several citizens have called The Times' attention to the absence of both local members of parliament at the meeting recently held in regard to trying to reinstate Peterborough's fall fair. Without desiring to appear anxious to teach our local parliamentary representatives their duty, we cannot but express our surprise that they did not attend a meeting called to discuss a matter of such vital interest to both the county and this city.

It is to be hoped that every effort will be strained to have our fall fair held this season. As before noted, in these columns, a committee was appointed to try and raise extra funds towards financing the fair. It now seems as though the committee will accomplish their object. In such case it is to be hoped that the citizens will put their shoulders to the wheel and not only patronize but help the fair along in every way possible.

Mr. J. B. McDonald Buys a House.

Mr. J. B. McDonald, who is in charge of the several gangs of men laying the extensive additions to our local gas mains, has purchased, and will shortly move into that fine brick residence at 31 Crescent street. Mr. McDonald is one of the busies' men in the city just at present, and is carrying on the gas pipe laying in a most workmanlike manner.

Park Side Walk Should be Fixed.

What are the Board of Works going to do about that unsightly and dangerous leg breaking system of traps, formerly the Victoria Park walkway? Whether granolithic, slats or cinders be used, this disgrace and menace to our most commonly used park, something should be done before the hundreds of visiting Oddfellows have to play hop, skip, jump whilst going to attend their deliberations.

LOCAL INCIDENTS

By The Times Man on the Street

—Mr Chas. Cooper of Galt, has arrived in the city, and has accepted a position with Messrs. The W. Hamilton Mfg Co.

—Mr. Foss who is stopping with Mine Host Tom Eastwood at Buckhorn, was lucky enough on Saturday to capture a 14-pound lunge.

—A gang of 16 men arrived in the city at noon on Saturday, to begin stringing the new Bell Telephone Company's cables. Work will begin today.

—Last week a Millbrook wheelsman whilst riding in that burg, had a mix up with a passing horse and buggy. The wheelsman's leg was badly smashed, the bone protruding through the skin.

Local Policeman Badly Mauled

P. C. Meharry and P. C. Newhall Arrest W. McKnight.

Some considerable excitement was in evidence at the corner of George and Charlotte streets, about nine o'clock Saturday night.

It seems that a crowd of roughs, under the influence of liquor were creating much noise and attracting the attention of passers by. P. C. McHarry who was on the George street beat and at once forced his way through the crowd and attempted to place W. McKnight, who seemed to be the ring-leader, under arrest. McKnight violently resisted arrest and made use of much insulting and profane language.

The prisoner struck into the officer, badly making McHarry's whole face. When in the resulting scuffle the policeman lost his footing, other members of McKnight's gang kicked and struck him. Fortunately P. C. Newhall happening to hear the noise, at once went to the assistance of his brother officer. The two officers quickly landed McKnight behind the police station bars.

After McKnight had been safely placed in a cell one of his pals, by name Hudson came to the station and made himself troublesome. P.C. Newhall told him to go away, adding that he would be summoned on Monday morning. Hudson insisted on coming into the station so his wish for an interior view of this place was gratified as P.C. Newhall locked him up.

P.C. McHarry when attempting to get McKnight out of the crowd after arresting him was badly mauled, his face showing in many places the severity of the attack made on him.

It is about time that the hoodlum element of this city learns that it is not a safe or wise thing, to assist a prisoner in arresting, or assist a prisoner in resisting arrest. It does not take a very large amount of courage, for a mob to attack a single policeman under any circumstances.

Local People Take Outing

About forty local citizens on Saturday joined the special train of six coaches from Lindsay, and took in the annual excursion of Rev. F. B. Stratton from Lindsay, Peterborough, Bellesville, and all intermediate points to the Thousand Islands.

The party will return home this evening.

POLICE NEWS

Daily Happenings in Court Room and Station.

Saturday night was seemingly bargain day in the police station. In addition to the two men arrested on George and Charlotte streets, an Indian by name Cow, harling from Hiawatha was locked up for being disorderly. Cow was expressing his opinion of the former arrest in uncomplimentary and bad language. When this got beyond reason he was arrested and locked up.

A poor old woman by name Dewey was also run in late Saturday night. It seems the old lady is unable to look after herself, and was picked up wandering about the streets at two a.m. She will probably be charged with vagrancy this morning.

Saw the Fight, Had Glasses Broken.

At the fight, which took place Saturday night, when McKnight was arrested. Mr. P. Clancy stooped down to get a better view, as he did so, one of McKnight's foes caught Clancy across the face, entirely smashing his spectacles. Fortunately none of the glass entered his eyes.

An American Launch Here.

Dr. Barnes, who hails from "The Land of the Free," passed through the city on Friday aboard his fine launch from Rice Lake, en route to Stony Lake, where he will spend his vacation. The doctor is quite enthusiastic in regard to the beauties and advantages of Kawartha Lakes as a place to spend a holiday.

The Logs Were Well Handled.

Mr. John McDonald, who last week was in charge of the drive of logs passing through the city, displayed a great knowledge of his work, and succeeded admirably in diverting the logs into their proper channel, thus preventing a large jam gathering at Hunter street bridge, as has frequently been the case at this point.

Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol and that too in large quantities. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely free if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed in plain English on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are free for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

Mr. Jas. A. Fife is in the City

Former Local Science Master Has Sold His Residence.

Mr. Jas A. Fife, of the Edmonton High School staff, formerly science master in the Peterborough Collegiate Institute, is in Peterborough. Mr. Fife has a sale of his household effects on Wednesday next, and will shortly remove his wife and family to their new home in Edmonton. He has sold his at 87 Benson avenue, to Mr. M. Buchanan, of French Rivers, who will take up his residence here in a few weeks.

Rev. Canon Davidson Takes a Rest.

Rev. Canon Davidson, rector of St. John's church, at the morning service notified the congregation that he will leave the city this week, and will be away during the month of August. We hope the rev. gentleman will return stronger and refreshed by this much needed rest from the cares of his large parish.

Mr. O'Brien Has Silent Salesman.

Mr. W. J. O'Brien, the enterprising George street, tobacconist, has had a very handsome silent salesman put in his cigar store. It was made by the Peterborough Show Case Co., and the woodwork is all oak.

Now is The Time

Chance for Profit Offered Times' Readers—Let No One Fail to Benefit.

Imperfect cooking and hurried eating result in indigestion. At first the stomach and digestive organs are strong enough to accommodate themselves to all manner of ill treatment, but the time soon comes, when the walls of the stomach are inflamed, and the gastric juices are not secreted in sufficient quantities to digest the food, so that it is passed through the system imperfectly digested, giving but little nutrition and strength.

If one can only recognize the symptoms of indigestion in the early stages, he is then in position to protect himself by proper attention. "He is twice armed who is forewarned."

Now is the time to be benefitted. Just as soon as you find that your food can be tasted after eating, when the abdomen swells or bloats, when the tongue is furred, the breath heavy, the appetite poor, the head dull and aching occasionally, then is the time for treatment with Mi-o-na. It costs but 50c. a box.

This reliable remedy is a perfect restorer and strengthener of the whole digestive system. It restores lost functions to the stomach, strengthens the nervous system, and enables one to eat what he likes without fear of distress or trouble.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, postpaid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowdon House calling at the Oriental and National Hotels;

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock; arriving in Peterborough at 8.30; will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning at once for Peterborough.

AFTERNOON — Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. 'Phone 286.

For further information apply to Bruce Lee's Livery, in rear of Snowdon House.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 182 — PETERBOROUGH, ONTARIO, TUESDAY, JULY 31, 1906. — PRICE TWO CENTS

Some Great Mineral Finds at Apsley

Leading Official of the Back Country Wants to Get Transportation for Rapidly Growing Exports.

Dr. Alex. Bell of Apsley, is spending a few days in the city, a guest of his son, Mr. Norman Bell of the Canadian General Electric Co.

The doctor paid his respects to The Times yesterday, and, in the course of conversation noted that the outlook for his part of the country is very promising. He said that there are a large number of prospectors in the Apsley neighborhood at present. It is certain that that section of the country is teeming in mineral wealth.

Mr Z Tucker of Apsley, is sinking a shaft for copper, with every indication of a rich find near Apsley. A short time ago a very rich deposit of iron was found in the country, a vein 30 feet wide of ore of good quality, with very little sulphur in composition being located. The vein extends over several lots. This recent discovery is within three miles of Apsley.

The old Cameron fine, on which a shaft was sunk some years ago, and on which work was discontinued, a copper prospect, and is now be reopened and work begun thereon.

A considerable amount of work has been done on this property, a shaft 100 feet in size having been sunk.

The great want of that part of the country is railroad or trolley transportation to the front. Dr. Bell, who is clerk of the united townships of Burleigh and Anstruther, is of the opinion that unless some effort is made soon to get a road from this city, a branch line from Coe Hill, will be built, connecting with the Ontario Central R.R. This would take away the entire trade of that section from Peterborough. Many of the people in that section are now getting their goods from Belleville via Coe Hill, thus saving the long haul to the railroad at Lakefield.

This is a matter well worth the attention of the local street railroad authorities. If they built as proposed, to Young's Point, there is a young but quickly expanding country to the north, and within comparatively easy access, crying for transportation that would well repay the expense of tapping it.

No Explorers in Thibet

The Government Determined to Make No Distinctions.

Calcutta, July 31.—The authorities say that the reason Dr. Sven Hedin, the Scandinavian explorer, had been refused permission to visit Thibet was that it had been decided for reasons of policy that no British subjects were to be allowed to explore Thibet, and what was refused to British subjects could not be conceded to foreigners.

The Government thought that Thibet should continue in that state of isolation, the maintenance of which was constituted by Mr. Brodrick in 1904. The decision in no way affected access to the trade routes sketched by the Lhassa convention.

DISTRESS IN BENGAL

Famine Responsible for Scenes of Despair and Violence.

Simla, July 31.—Fertile Bengal is unaccustomed to famine, and is prepared to take the ensuring distress very seriously.

Bengali reports are received of the following cases of death and violence due to the distress: "At Backerguni two men died of starvation, while a wife, a son, and a daughter were severely wounded by a despairing husband, who attempted to kill them because he could not bear to see their sufferings from hunger. Two huts were looted by peasants who wanted rice."

A Joint Snake Used as a Cork

Unusual Incident at Eagle Lake Hunting Club.

Yesterday several men from the vicinity of Eagle Lake were in the city discussing events and experiences of that back country section.

One of them whose veracity is above suspicion told a tale about the genial boniface of the Snowden House. According to his narrative Mr. Snowden being tired one day resolved to stop at the shore adjoining their lodge to have a quiet fish, whilst the others went hunting.

After Mr. Snowden had caught his full legal take, he started through the woods for the lodge. On his way he was somewhat startled by almost stepping on a snake. The old Adam at once predominated and Mr. Snowden with a club hit the snake a violent blow.

To his surprise this snake instead of simply curling up dead, broke into about 30 pieces. This veteran of the woods was, for the first time in his experience up against a joint snake. It was about this stage that he pulled his flask out and put some of the remaining drops of pottermilk, where they would do the most good. In his surprise over the joint snake our hero had lost the cork out of his flask. How to cork the bottle and save the balance of by a happy inspiration he picked up one joint of the snake and crammed it into the flask's neck.

Shortly after this as he went through the woods a rustling sound was heard. There was that joint snake re-jointed with one exception, looking sadly at the man possessing its remaining link to reptile perfection. With his proverbial kindness, Mr. Snowden placed the flask on the ground and moved a few feet away. Quickly the reptile, drew out its missing joint from the bottle, placed it in position and gracefully slipped away.

IT TAKES A BIG ENGINE

To Properly Handle a Passenger Express Train,

The Toronto Sunday World says: The Canadian Pacific have at last found out that it takes a big engine to handle a big passenger express train and make time. The night express from Montreal to Toronto is of this class, averaging 10 to 11 big cars daily. The division from Havelock to Toronto is the heaviest part of this run and some weeks ago the company put into commission four or five of their biggest and newest engines on these express trains both ways, and the result has been that comes in on the minute and often the morning train from Montreal the drivers have to "loiter" between Peterborough and Toronto so as not to get ahead of time. As a consequence this train is not so often split into sections as formerly. For some reason, yesterday morning two old-style engines were on the service on the two sections making up 15 cars and they got in an hour late. The company is building several more of this biggest class of engines, as they have more than justified the experiment.

Agricola Wants the Fair Held

Correspondent Brings Forth Some Strong Arguments.

(To the Editor of The Times).

Dear Sir: I wish, through the medium of your paper, to speak a few words on a subject that we should all be alive to the importance of, and which has been commented on by a great many people and correspondents. It is are we to have a fair or not? If not, our people are very largely to blame and, when too late, will deplore the apathy which let it drop out of existence for all time. A public meeting was called for last Wednesday afternoon and was very sparsely represented by citizens, only two or three business men being there; not even was it graced by the presence of our two representatives in Parliament, Messrs. Hall and Bradburn, men who, a few months ago, told of the heroic services they would render to their constituents if elected, anything that was for the benefit of the people would have their hearty support—and those gentlemen were conspicuous by their absence. They did not even write an apology or letter explaining their absence, or offering any advice or encouragement to the board. We think a matter of such vital importance to the city and county of fairing should have received some attention, but politicians have short memories. The manufacturers, merchants and all businessmen should be somewhat interested in the success of the fair, as it is their own, and they should take some trouble to sustain it and make it one to which they could point to with pride, as do the residents of the villages north, east and west of us. What will be said of us outside? Probably that the town has become a city and has no use for an agricultural fair. The city of Toronto, which has nerve, acted in that way towards their industrial, but have spent liberally to make the premier fair of the continent not waiting for, of binding on, the county of York to make grants on conditions, and it is well known that the money voted and spent aiding Toronto's exhibition has been amply repaid to the city. Now, why such hesitation and apathy here? Why do not the city council and county council, and all others, manufacturers and merchants (the monied men seemingly cannot afford to), at once take hold and help the board to make this one great effort at this time, as it is now or never, and the time is very short to get posters and prize lists printed and distributed before the date of the fair.

Fellow citizens, just make one concerted move and help along the good cause. If it is only by joining the association at the cost of one dollar for membership. The board has promised to go on if $300, in addition to what is in sight, is raised, and there should be no trouble to get five hundred members in the city and as many outside. The secretary, Mr. F. J. A. Hall, will be pleased to issue the tickets, as will any of the board of directors. A dollar this week for this purpose is worth two next week. Thanking you for space.

AGRICOLA.

Women with weaknesses should never forget Dr. Shoop's Night Cure. This magic-like local treatment, is used at bedtime, all night while the system is at rest, it is constantly building up the weakened tissues, soothing the inflamed and sensitive surfaces and will surely clean up all catarrhal and local troubles. Sold by J. D. Tully.

Another Stony Lake Drowning

Yesterday word was received in the city of the death by drowning of a young man named Stewart Bupp, of Toronto, at Crow's Landing, Stony Lake, Sunday evening.

It seems that he was spending a holiday with his friend, Dr. Cameron Wilson, of Norwood. They went to the Landing on Saturday night.

On Sunday evening Jupp, about five p.m. went in bathing off the wharf at Crow's Landing. He dived once, and after swimming around, got upon the dock a second time to take another dive. It seems that he alighted on his stomach, and did not come to the surface again. He was an expert swammer, and the shore was lined with a number of people, who were unable to render any assistance at the time, no boat being at hand.

Finally Mr. Walter Crowe secured the body with grappling hooks about half an hour afterwards. The deceased had only resided in Toronto about two years. It is learned that the body will be taken there for interment.

Terrible Tragedy Near Brussels.

Brussels, July 31.—A terrible family tragedy has occurred at Berchem, near Brussels. A little girl of ten, named Marie Iseok, was asked by her mother, an invalid, to cut her throat in order to put an end to her sufferings. The child obeyed and calmly murdered her mother.

BOERS FANNING MUCH DISCONTENT

Britain's Attitude Towards Natives Much Misrepresented

LEADERS ARE CENSURED

South African Newspapers Make Caustic Comments Upon Some Very Injudicious Speeches.

Cape Town, July 31.—The Cape Times, in an article entitled "Combustibles," refers to a speech delivered by Mr. Beyers at Potchefstroom, in which he said that the British were trying to exterminate the Kaffirs. The paper remarks:

"If the impressions which these utterances are intended to convey become general among the natives throughout South Africa, and if the resentment and exasperation they are calculated to engender compass to be recklessly fanned by the Boer leaders in this country and the Radical leaders in Great Britain, we shall have a graver reckoning than Natal is now writing on the state of history, terrible and deplorable as this is. The native community throughout South Africa are watching the events in Natal with the keenest interest, and their sympathy naturally goes out to their fellow countrymen in trouble. If this sympathy is transformed into passionate resentment against the Government by reckless misrepresentations and misstatements, the ultimate consequences will certainly be disastrous."

The Cape Times states that it is already receiving anonymous communications from natives couched in a half-hysterical, half-menacing tone.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday's police court was attended by a crowded audience.

David Cow, an Indian, was charged with having been disorderly on Saturday night. He was allowed to go with a warning.

W. McKnight was charged with having been d. & d. on Saturday night and, pleaded guilty. Mr. O'Connell appeared for the prisoner. McKnight was fined $2 on the d. & d. charge. This he paid. A charge was then brought against McKnight of having assaulted P.C. Meharry, and with having resisted arrest.

Mr. O'Connell claimed that the assault was not a serious one after was done whilst his client was drunk.

Crown County Attorney Wood claimed the assault was so serious it could not be overlooked.

Mr. O'Connell asked that he be allowed until McKnight's case could be tried by the police magistrate.

A youngman by name Hudson, was charged in connection with the McKnight affair, with having assaulted the police. He deposited the sum of $50 to ensure his presence for trial on Wednesday.

McKnight's bail was then allowed by Mr. Wood in the sum of $100, which a relative put up in cash. His case, in fact two of them, one of assault against two different constables will be tried on Wednesday morning.

Mary Ann Drury, a poor feeble old woman, was charged with vagrancy. Her son went on the lox and swore he could not keep the old woman home. She would slip out as soon as his back is turned. His mother is 73 year, old. He was quite willing to take care of her, he could not keep track of her. She was committed to gaol for two months.

Operates and is Operated on.

Vienna, July 31.—Professor Von Eiselberg, the noted surgeon of the Vienna University, after performing two difficult operations for appendicitis yesterday surprised his assistants by ordering them to clean the operating table and make preparations for a third operation, announcing himself to be the patient. The assistants, who were deeply moved, corroborated Professor Eiselberg's opinion as to the necessity of an immediate operation, which was successfully performed. It seems that some weeks ago the professor experienced symptoms of appendicitis, and last night had an alarming attack. He came to the university determined to be operated upon, but, owing to the danger in the other cases, decided to perform the operation himself.

Queen Victoria's Nerves Affected.

Madrid, July 31.—Queen Victoria's health has been seriously affected by the dastardly attempt upon her life, made upon her wedding day. She is suffering from nervous prostration, the most conspicuous symptoms of which are hysteria and insomnia.

Those Floating Chemong Islands

Adverting to a subject that The Times in several past issues has taken up, the Lindsay Post says:

"The sum of $1,000 has been granted by the Dominion Public Works Department to put an end to a nuisance complained of for some years by cottagers at Chemong Park and steamboat men and others navigating the lake, who have been annoyed by what are known as floating islands, large deposits of partially decayed vegetable matter which float around the lake. It is now proposed to place a boom on Pigeon Creek, at an expense of $1,000 and the effect of this will be that it will keep these masses of weeds from getting into the lake, consequently there will be no further trouble from this source. Lindsay boatmen and yacht owners know all about these big masses of bog and weeds—the Scugog river is full of them all season owing to the huge tows of logs on their way to the mills every day cutting the corners off and tearing out huge sections of bog growth. Yet we do not hear of our member pressing for or suggesting any remedy. If Peterborough owned the Scugog and its immense traffic the live member representing that constituency would ere this have the channel straightened and deepened and protected by timber work in various points.

THE TURF.

Fort Erie Winners.

Fort Erie, Ont., July 30.—Today's races resulted as follows.

First race—Ancaeus, Witch, 2; Rower, 2, Left Guard, 3.

Second race—Andrea, 1, Gaiety, 2, Petit Duc, 3.

Third race—Crowstaide, 1, Education, 2, Gold Enamel, 3.

Fourth race—Bodie, 1, Miss Martha, 2, Eminola, 3.

Fifth race—Bonnie Reg, 1, Little Mike, 2, La Gloria, 3.

There were two Canadian riders in the big steeplechase race at New York, on Saturday. Hylas, the winner, was ridden by Nat Ray, while Patsy Gallagher rode Kernel, the third horse.

Mr. Joseph E. Seagram, M.P., president of the Ontario Jockey Club, proposes to make a trip to England next year. He will hardly take any horses over, but may buy some here. He also proposes to make entries for the Derby and Oaks of 1909.

SWIMMING.

At Paris yesterday Jarvis, the English amateur swimmer, won the long-distance race. The course was 11,630 metres long. Jarvis' time was 2.42. He beat the record of Bougrin, a professional, by 23 minutes. The band at the finish played the British National Anthem. There was great applause from the spectators. Who also gave an ovation to Mlle. Robert, whose time—three hours, 20 minutes—last Miss Kellerman's a Professional, by 39 minutes. Jarvis will enter a contest for the world's amateur Championship, organized by the French Athletic Union, to be held on August 15.

Rev. A. H. Brace is on a Vacation

Rev. A. H. Brace and Mrs. Brace leave for their vacation this morning. They will visit the Ottawa Valley, Toronto and Richmond Hill, and call at Grimsby Park. The last week in August they will fix up their cottage for the summer.

The pulpit of Park street church will be well supplied during August. The first Sunday Rev. L. McKinnon of Gilmore Memorial church; second Sunday by Rev. J. S. Steedman of Warsaw; third Sunday by Rev. Victor Collins of Lakefield, and fourth Sunday by Rev. L. McKinnon.

Oriental Hotel Much Improved

The extensive improvements in the Oriental Hotel, which will run into some $10,000 expenditure are about complete. Mr. Geo. Graham, proprietor of this popular local hotel, has now a caravansery under his control that does not have to take a back seat to anything outside the largest cities.

Fifteen new rooms have been added and Contractor Jas. Graham has done his work in excellent style.

There is no doubt but what Mr. Geo. Graham and Mr. Chris. Graham in charge of the office will draw a good share of both local and transient trade.

Toronto Saturday Night re Locals.

Referring to ladies very generally known here, Toronto Saturday Night says: Mrs. and Miss Tate, of Lakefield, were the guests of honor at a very pretty dinner given by Mr. Cumbie, to a score of friends of the Hunt Club on Saturday evening.—Mr. and Mrs. Goodstock, of Spencer avenue, as that cosy little Forest road is now named, are away for a holiday to Stony Lake.

It Now Seems That the Fair will be Held

At a Meeting Held Last Night, it was Decided to Materially Reduce the List of Prizes, Which will be up to the Average.

Last night a few local citizens interested in having a fall fair held this fall met in the Munro House parlor to talk over ways and means of having the same. Those present were: Messrs. Eardley-Wilmot, H. C. Vinch, E. M. Elliot, County clerk, Ald. Geo Elliot, Sec. F. Hall, F. Dobbin, Review R. J. Munro, W. B. Stewart, Otonabee; J. H. Larmouth, D. M. Brooks and C. H. Clements, Times.

The first point considered was the prize list. It was decided to eliminate the prize list for stallions. The expense account then took up about an hour's consideration.

Mr. Munro suggested, before going into the question of prize lists, it should be decided whether a fair was going to be held or not. He said that unless some guarantee be given, he could not give up his time working for the fair.

Again the question of whether to hold the fair or not was discussed. Mr. Ed M Elliot submitted a partially revised prize list for horses and stock.

It was generally decided to hold a two instead of a three days fair. The unanimous concensus of opinion was to materially reduce the amount of prizes given as last years in of prizes, was altogether out of proportion not only to the attendance, but also to fall fairs held in other cities and towns.

It was decided if the fair is held, to hand over $150 to the Peterborough Turf Club, to look after exhibitions of speeding in the ring.

A committee composed of Messrs. Ald. Elliott, Alex. Elliott, J. H. Garbutt and Stewart, was appointed to look into and revise the prize list.

The next meeting will be called for Thursday in the county Clerk's office.

Mr Larmouth, for the Street Railway, complied with a suggestion that his company will give $100 should the fair be held. The meeting then adjourned.

They Would not Change License

Last night a meeting of the Board of License Commissioners for West Peterborough was held, there being present, Commissioners Kenjry and Morrison and Inspector Stewart.

Mr. Poussette appeared before them and asked for a change of Mr. Austin Dunn's license on the Southern Hotel to a local citizen. This the commissioners would be grant. It is, however, not beyond the bounds of possibility that, should a first-class man take hold of he place that the license will be transferred as certain improvements being made.

Provincial Health Board in Earnest

The report of Dr. Hodgetts, secretary of the Provincial Board of Health, says that all parties who are polluting the Otonabee river between here and Lakefield will have to discontinue within one week or else be subject to a fine of $100. There are perhaps half a dozen offenders between here and Lakefield and they will have to keep this ruling.

Parents Suspect He Was Murdered

Bowmanville, July 31.—Considerable mystery surrounds the death of Geo. Albert Burk, the twenty-one-year-old son of Erastus J. Burk who lives north of Roblyhead, two miles west of Port Bowmanville. He went to the lake to bathe in the forenoon, and his parents, thinking he had gone to his uncle's afterwards, were not concerned about him till the middle of the afternoon when he failed to return home. Inquiry was made at the neighbor's, and not finding that they had seen him, his parents became alarmed and rushed down to the lake, where, after a brief search, they found his dead body lying on the beach, the water barely touching it. From marks on the face, head, and back, apparently caused before death, suspicion is felt that there may have been foul play, as it is alleged there are some circumstances not yet made known that cause his parents to wish for an inquest. He was the only son.

Local Debentures Sell at 97.

Mr. Ed. M. Elliot, the efficient county clerk has, received the tidy sum of $29,214 for the County House of Refuge debentures. The debentures were for $30,000, extending over a period of twenty years, and bearing interest at four per cent. There were several tenders, that of Bruce, Gundy & Co., Toronto, being the highest, viz. 97. The money reached here on Saturday, and has been deposited in the bank while delivery of the bonds has been made.

Will Get Magnificent Gift.

Kiel, July 31.—The American steam yacht Utowana, which the German Emperor purchased from Mr. Armour for $75,000, is still in Norwegian waters. After its return here it will pass into the possession of the Kaiser who intends to present it to the Empress for her personal use.

Tries to Avoid the Bureaucrats

Premier of Russia Still Endeavoring to Persuade Moderates to Join Him.

St. Petersburg, July 31.—Premier Stolypin has not abandoned hope of inducing public men outside of the reactionary spheres to enter a reorganized Cabinet and carry on the policy of strong-handed reform. Negotiations with M. Guchkoff, Prince Lvoff, and Count Heyden are still in progress.

A mob of 200 workmen completely gutted a brewery on the Schlusselburg road here last night. Before a detachment of Cossacks sent to disperse them arrived, the men destroyed practically everything.

EAGER FOR THE STRIKE.

Yekaterinslav, Russia, July 30.—There is very great agitation among the workmen in this industrial district, but the leaders thus far have successfully prevented a strike, urging the necessity for continuing work until the signal is given from Moscow and St. Petersburg.

At Yuzovka and Yekaterinodar, however, without waiting for the general signal, many factory and mine workers have struck.

The foreign consuls at Yekaterinslav have made representations to their Governments regarding the necessity for protecting foreign subjects. Three foreign managers of mills having been attacked during the past week. A German manager was shot and killed while leaving his factory, a Belgian manager escaped death through the intervention of a policeman, whom the workmen shot dead, and a French manager was compelled to flee under menace of death. The garrison here has been reinforced by a detachment of dragoons.

Shot Man Dead Then Went to Bed

Huntingdon, Que., July 31.—Mr. Ernest A. Lee of Lee's Corners, about eight miles from here, was arrested early Sunday morning on a warrant signed by Mr. David Vass, jr. of Coaville, on a charge of murder committed at that place, about 11.45 o'clock on Saturday night. The accused was on the verandah of Delorme's Hotel, when, apparently without much provocation, he drew a revolver, and after firing two shots across the road, he deliberately pointed it at John S. King, with a bullet is claimed he was not on the head of terms, and at a distance of about five feet fired point blank. The shot struck King over the heart. King staggered about 12 feet, and was picked up dead by the spectators. Lee must not have realized that he had killed King, as he went to his home about two miles distant and was found in bed by the bailiff. Both Lee and King are only 24 years of age, and the shooting has caused much excitement in the neighborhood.

Dr. Obourton, the coroner, was notified, and went out to Coaville, and will hold an inquest today, when more light will no doubt be thrown on this unfortunate affair. In the meantime Lee remains handcuffed in Delorme's Hotel, awaiting the result of the inquest.

Negro Confesses to Murdering Three

Killed Mother Who Sought to Protect Child, and Shot Both.

Canonsburg, Pa., July 31.—Coroner Sye and Constable Miller drove into town yesterday with Elmer Dempster, a 19-year-old negro, who had been arrested for the murder of Mrs. Samuel Pearce and two children, and the shooting of a third child. The prisoner was taken to the county bail in Washington, Pa., leaving here on a trolley car.

While no blood stains were found on the prisoner, suspicion first rested on him last night, when it was learned that he was the last person seen about the house before the tragedy. Dempster was a helper on the Pearce farm. He was taken from his bed at two o'clock yesterday morning, and after a severe examination is alleged to have made a complete confession.

According to the story told in his alleged confession, young Dempster attempted an assault on the four-year-old daughter after the departure of Mr. Pearce, but was frustrated by the mother, who went to a bureau to get a revolver to shoot him. The negro says he secured the weapon first, and after killing the mother and the children, set fire to the house to hide the crime.

The feeling against Dempster is very bitter.

Washington, Penn., July 31.—Dempster was safely lodged in jail here at nine o'clock.

The officers had an exciting trip from Canonsburg. Two attempts were made to take the negro from them.

Shortly after leaving Canonsburg a crowd of about 20 men boarded the car, and dragged the prisoner. Bad officers from the car.

A fierce struggle followed, as the officers succeeded in keeping possession of the negro, and finally drove the mob off at the points of their revolvers.

Vein of $119.00 Ore at 10 feet

Is the record of the

The Manhattan-Midas Mining Co.

Capital 1,000,000 Shares. Par Value $1.00.

Property paid for; no debts; no salaries; no promotion rake-off; no office expenses. A plain business enterprise, managed by plain business men.

WHY SO WEARY?

Always Restless and Weak Isn't Natural—But It's Dangerous.

You have to work hard. This uses up lost of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

PETERBORO, JULY 21 1906

HEALTH IN WARM WEATHER

Physicians tell us not much meat should be eaten in hot weather; less food of any sort is needed than in winter. Food has two functions. As fuel to sustain heat; as energy to move the muscles. The one needed is almost wholly and the other largely suspended in July. Alcoholic drinks are doubly dangerous in hot weather. Iced weak tea is an excellent drink if one dips out the ice and throws it away, allowing the liquid to lose its chill. Iced water in families should be prepared by setting sealed jars of water in the refrigerator at a distance from the ice, never by putting cracked ice in the goblets. A temperature of 42 degrees is low enough for drinking water. Extreme fatigue should be avoided, but it is not true that "it doesn't pay to get heated up going out of town." Even if one must return to broiling heat, a few hours at the seaside assist the body to regain its tone. Young children, who both become ill and recover more quickly than adults, are often literally saved from death by a single day in cool air. There is no better way of heightening the peace of mind which is favorable to health in July than to aid the charitable in sending ailing babies to the seashore or country.

THE CZAR'S NEW ATTITUDE

Emperor Nicholas appears to have thrown his cards on the table and boldly defied his enemies. Within less than a week he has dissolved the parliament and decreed the suppression of disorders at whatever cost of blood. The Czar's sudden offensive activity argues a state of desperation that is extreme. For more than a year his policy has been one of conciliation and he has preferred to temporize with the revolutionists rather than meet the issue squarely. Retreat and compromise have marked his attitude toward his outraged people and the coward's part has been his favorite role.

Some mysterious influence seems to have stiffened the Emperor's backbone. From a weak and incompetent royal jellyfish he suddenly develops a certain decision of character that is strange to him. His orders to Premier Stolypin to act upon his own responsibility to the furthermost extremity in suppressing the rebels is totally unlike anything that has come from the Czar during his reign. It may mean an invitation to the terrorists for the final struggle that will determine Russia's future.

Premier Stolypin's telegram to the governors-general, governors and prefects throughout the Empire is positive and unequivocal. It is an order to crush the "enemies of society" with no showing of mercy, but war to the knife and the knife to the hilt. In the meantime the flame of revolt is sweeping onward to St. Petersburg and foreigners are fleeing from the capital in wild panic. The bloody crisis that has been pending in Russia since the closing of the war with Japan seems now at hand. Revolution and the probable overthrow of the Romanoff dynasty can no longer be averted or postponed.

Russia's trial of parliamentary government was a pitiful fiasco. After ten weeks of labor only one measure was enacted into law, and this was an appropriation for the relief of the famine sufferers. All the dreams of the reformers amounted to nothing, and the Douma has been dissolved and the members threatened with arrest. As expressed in Premier Stolypin's manifesto, the "old regime will be regenerated," which means an end to the pretense of the Czar that he was in sympathy with schemes of reform. In all likelihood the present attitude of the government will crystallize the opposing elements and will estrange the misguided millions who have adhered to the "little father" through religious fanaticism. A deluge of blood seems inevitable, and this new governmental departure can only have the effect of hastening the climax.

The Engineering Magazine

The Engineering Magazine brings out a midsummer number full of unusually good matter—much of it representing new and wholly original work in some of the most important subjects now engaging the attention of engineers, manufacturers and inventors. Specially notable is Dr. E. C. Lucke's account of his recent practical work on the gas turbine—the most alluring mechanical problem of the age—supplemented by Mr. C. M. Garland's experiments on another phase of the same subject. Mr. O. M. Becker also gives the most complete data yet brought together on the use of the new high-speed steel tools on all kinds of machine operations.

There are very finely illustrated papers on mining and milling machinery, on the use of electric power in the use of electric power in agriculture, and on the magnesite mines of California. A. E. Dixon writes of some of the primary considerations in designing and constructing the power plant, and Harrell Smith closes the issue with a most entertaining and suggestive study of the Chinese as industrial laborers. He has seen them at a wide range of work, skilled and unskilled in their own country, and gives them a high character for capacity and honesty. The number carries the usual complete Review of the Engineering Press of the world, and the Engineering Index to all current technical periodicals.—The Engineering Magazine, New York.

No Use For Preference

Hicks-Beach Suggests Better Communication With Colonies.

London, July 20.—At a banquet to the colonial visitors at Bristol, Viscount St. Aldyn, formerly Sir Michael Hicks-Beach, proposing "The Empire," said he did not agree with the conclusion of the tariff discussion at the congress because he did not think the preference proposal a practicable one, certainly not at present. He desired unity of the empire, and deplored the fact that a question affecting the relations of colonies and the mother country should become a matter of party difference here. He suggested it might be possible for the colonial conference to improve the commercial relations of the empire without raising it.

The matter had become a party question. For instance, the preferences to us in Canada on wines and oils is of no value to the kingdom. Would it not be possible for the colonies to consider whether they could not lower the tariff to us on those articles we were capable of exporting without undue interference with industries, would it not be possible for the kingdom, on the other hand, to accept trade advantages as a direct contribution towards imperial defence?

He thought more might be done in uniting the empire by facilitating postal, telegraphic and steaming communications. None could see the future, but it was certain Canada, Australia and South Africa could never be governed by a parliament sitting at Westminster. The most any reasonable man would anticipate would be some kind of council representing the different governments of the empire. It might deal with the question of imperial defence in peace and war.

Geo. Drummond, Montreal, replying, said the speeches at the congress had been made from the imperial standpoint, whether free traders or protectionists, the object was consolidation of the empire. The delegates didn't come to dictate, but to ask that matters be considered. In spite of American agents' advertisements Canadians are doing their best to hold the trade for Great Britain with Greater Britain.

Dr. Shoop's Restorative brings lasting relief in Stomach, Kidney and Heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the ailing organ—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—use a remedy that cures through the inside nerves. Sold by J. D. Tully.

FIRST PEACHES.

St. Catharines, July 20.—The first home-grown peaches of the season were on the city market yesterday morning. The yield promises to be a large one.

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Medical Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. It is a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

that stood in the windows, were covered with the hard, white dust that every breath of wind and every passing vehicle raised in clouds.

About half-way down the length of this street stood a row of low, stone cottages, covered, like everything else, with a suffocating dust of purverized limestone. Nothing could be drier or more depressing than the looks of these cottages. Not a green thing grew near them, not a foot of ground intervened between them and the dusty street; the doors opened immediately upon the sidewalk, and not a bit of passage protected the privacy of the dwellers. Any intruder could step at once from the street into the keeping-rooms of these houses.

It was before one of the most forlorn-looking of these cottages that Rose Elmer paused, lifted the latch, and entered at once upon a large, comfortless-looking room, whose scanty furniture had been already covered with dust in her absence. A coarse carpet covered the floor—a cheap muslin veiled the only window. A tent bedstead, with faded curtains, stood in the farthest corner. Opposite this stood a mangle, another corner was filled up with a staircase, having a closet under it, and the fourth corner was adorned with a cupboard, through the glass doors of which a little store of earthenware shone. There was a smoldering fire in the grate, and beside this fire, in an old armchair, sat a woman, whom no one would have passed without a second look. She was a woman of commanding presence. Her form was tall, and must have once been finely rounded; but now it was worn thin, almost to skeleton meagreness. Her features were nobly chiseled, and might once have been grandly beautiful, but now they were sunken and emaciated as those of death. Under her broad and prominent forehead and heavy, dark eyebrows shone a pair of large, dark-gray eyes, that burned fiercely with the fires of fever or of frenzy. Her jet-black hair, slightly streaked with silver, was half covered with a red handkerchief, tied beneath her chin, and partly fallen in elf-locks down one side of her face. A rusty black gown and shawl completed her dress.

As the door opened, admitting Rose, she turned quickly in her chair, fixing her eyes with a look of fierce inquiry upon the intruder.

"How are you now, mother, dear? I hope you feel in better spirits?" said Rose, laying off her bonnet and coming to the woman's side.

"Better. Where have you been? I have wanted you."

"I have been—taking a walk through the woods, dear mother; and see, here are some wild strawberries I picked for you on my return. Will you eat them?" said Rose, offering her little basket.

"No: I want none of them. You care little for me."

"Mother, don't say that. You do not know how much I love you."

"Hush, girl, you have little cause—oh!"

And the woman suddenly struck her hand upon her heart, dropped her head upon her breast, and seemed convulsed by some great agony. Her features worked frightfully; her frame shuddered.

"Mother! mother! what is the matter?" exclaimed Rose throwing her arms around the woman in great alarm.

"It is—past," gasped the woman, breathing with great difficulty.

"What was it, dear?"

"A spasm. It is gone."

"Oh, mother, will it return?"

"Perhaps."

"Let me run for a neighbor, or the doctor."

"Nay, you must run somewhere else! To-morrow, Laura—Lady Etheridge, of Swinburne, weds with Albert Hastings, of Hastings Hall. It is so, is it not?"

"Surely, dear mother, the village is full of the wedding, and talks of nothing else. The village children have been employed all day in bearing flowers to decorate the castle church and to strew in the path of the bride as she comes—they love her so well."

"Yes, she is a high and mighty lady; yet sweet and gracious as becomes one so exalted. Come hither, girl; kneel down before me, so that I may take your face between my hands!" said the woman, growing more strange in her talk.

Rose obeyed, and her mother, bowing her own stern, dark face, shut that of the girl between her hands, and gazed upon it wistfully, critically, murmuring:

"Fair face, delicate features, complexion pure as the inside of a conch shell, white, and flushed with red; hair like fine yellow silk, and eyes blue and clear as those of infancy; hands, small and elegant. I have not let poverty spoil your beauty, have I, my child?"

"No, dear mother, you have let kindness more likely spoil me," said Rose, in simple wonder at her words.

"I have not let your person grow coarse with hard work, have I, dear?"

"No, mother; notwithstanding that I ought to have worked with you and for you."

"Your hands have never been roughened by helping me in the laundry?"

"No, mother; though they ought to have been."

"Nor have your sweet eyes been spoiled by needle-work?"

"No, good mother; I have been as useless as a fine lady, to my shame."

"And I have worked hard to save you from work, and to pay for your schooling, have I not?"

"Dear mother, you have! You have been the best mother in the world, and only too good to me. But I will try to repay you."

"Think of all that to-morrow, child, and when all the country around shudders at my crime, when all the people call down imprecations upon my name, do not you curse one who has nourished you at her bosom, when that bosom is cold in death," said the woman, solemnly.

"Oh, she is mad! mad!" exclaimed Rose, in dismay, at hearing these words; then lowering her voice, she said: "Mother! mother! try to collect yourself! It is I, your poor daughter Rose, that kneels before you. Do you not know me?"

"Ay, I know you well, and I know what I say," repeated the woman, solemnly.

"Mother! oh, why do you talk so wildly? It is very dreadful! But you are not well!—let me go for some one."

"Yes, you must go for some one. You must go to the castle this afternoon," said the woman, in the same tone of deep gravity.

"To the castle! I mother!" exclaimed Rose, in surprise.

"Yes, you must go to the castle; and, when you get there, ask to see her who calls herself Lady Etheridge."

"The baroness! Dear mother, why do your thoughts so run upon the baroness? What is she to us? Besides, is it likely that she will see me, a poor girl, a perfect stranger, this day of all others, when she sees no one?"

"Hush, Rose! and for once obey one whom you have so long looked upon as your mother. It will be the last time I will ask you to do so. Demand to be admitted in the presence of the baroness. Say that you have come upon a matter of life and death, that nearly concerns her ladyship; insist, and she will not venture to refuse you. When you stand before Lady Etheridge say that her old nurse, Magdalene Elmer——"

"Her nurse, mother! You Lady Etheridge's nurse! I never knew that before!" interrupted Rose, in surprise.

"There are many things that you never knew, my child But attend! Say to the baroness that Magdalene Elmer is dying!"

"Dying! Oh, mother, do not say so! It is very cruel! You are not sick in

(To be continued)

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE HUMAN MIND.

It Is a Wonderful Vehicle For Rapidity of Action.

A flash of light is not sluggish, sound travels rapidly, a bullet is no messenger boy, and an automobile which shoots a mile in twenty-eight seconds is moving along sedately. When it comes to getting over the ground in a real hurry, however, to devouring distance in dead earnest, the dreamer marches proudly at the head of the procession. He makes the very latest thing in the line of 150 horsepower racing cars look like hay carts in a mud bank. A man sits in his chair after dinner and dozes. He awakes with a start and discovers, to his surprise, that he lost consciousness for exactly three minutes by the clock. Yet in those three minutes he journeyed from New York to Port Said, transferred himself to St. Petersburg, loitered in Paris and London and sailed up the Nile. What is of greater importance in this connection, he journeyed leisurely, almost indolently. He stopped at various "points of interest" and examined them thoroughly, he met with annoying and amusing experiences on steamships and trains, he talked with acquaintances whom he encountered in foreign lands, and he told some of them precisely what he thought of them. There was genuine pleasure in that. A dreamer can put thousands and thousands of miles behind him in the short space of three minutes and lazily enjoy himself in his wanderings. By comparison the chauffeur, with his life in his hands, is a slow coach, and he must attend strictly to business. He can engage in no conversation or sightseeing.

The human mind is a wonderful vehicle. Some people in spectacles have analyzed it and think that they know what it is and what it can do. But they do not know, and they never will know.

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL, FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $50,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN ELKAT, Esq., Vice-President, Head of the firm of Fred. Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director Cobalt, Ontario.

JOSEPH COLEMER, Esq. Explorer, Haileybury, Ontario.

SOLICITORS Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

Proper Medicine For The Blood

Drives Away That Tired Feeling; Makes You Feel Brisk.

To every one is sure to come that tired, exhausted feeling.

When the blood is weak, thin and debilitated, circulation is slow, and in consequence the system is congested with poisons and wastes that should be driven off.

The sensible person acts on the teachings of experience and cleanses his system with a course of Dr. Hamilton's Pills of Mandrake and Butternut.

No medicine can be more certain to quickly cure. Convenient to take, just one pill at bedtime; safe, because entirely vegetable; unfailing, because proved by thousands that Dr. Hamilton's Pills set you up in a few days.

From Chebogue Pt., N.S., comes the following from Mrs. W. A. Reynolds: "A year ago my health began to fail. I lost appetite, became nervous and sleepless. My weight ran down, I became thin, hollow-cheeked, and had black rings under my eyes. I really felt as if the charm of life had left me and when springtime arrived I was in the "Blues." I read of Dr. Hamilton's Pills, and got five boxes at once.

"Within a month my appetite and color were good. I gained strength and felt like a new woman. New life and vigor returned, and my friends scarcely knew me. A medicine that will do this should be in every home."

Good health means much to you. Success and happiness depend upon it. The maintenance and source of health is found in Dr. Hamilton's Pills. 25c per box, or five boxes for $1.00, at all dealers, or by mail from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kington, Ont.

Opposite Post Office. Principal.

SOCIAL AND PERSONAL

—Miss J. Morrow is visiting in Rochester, N.Y., for a couple of days.

—Mrs Church, Madoc, was in the city yesterday a guest at the Snowden House.

—Mr. D. J. McDonald, of Peterborough, was in town today on business.—Lindsay Post.

—Mr Thos Kinnear, the wholesale grocer of Toronto, was in the city yesterday on business.

—Miss Jessie Reid, of Clarke township, is the guest of her aunt, Mrs. Reid, 535 Dowhie street.

—Miss Gray and Miss A. A. Gray, of Toronto, were guests at the Snowden House yesterday, en route to Chemong.

—Mr. Walter McClennan of R. Fair & Co.'s staff has returned after spending his vacation at Bowmanville and Whitby.

—Miss Nellie Roy, 308 Stewart St., has returned from England, after spending several months with her sister, Mrs. Mitchell of Manchester.

—Mr. D. B. McRae, of the Review editorial staff, who has been spending two weeks holidays in Maxville and Ottawa, has returned to the city.

—Mr. W. J. Haywood, of the Bungalow at Chemong Park Island, was in the city yesterday looking for masons to build a brick fire place at his island home.

—Mr George Mott Lewis of Lindsay, and Mrs Mott Lewis have gone on a trip to the old country. They sailed on Saturday from Montreal on the Dominion Line steamship Canada.

—Mr and Mrs J. H Cobb left yesterday morning for Brockville, to visit their son at Cobourg, and also attend the Old Boys' reunion. They will return home by way of the Thousand Islands.

—Mr. Albert Shaw, an old Peterborough boy, with many friends in the city, but now conducting an extensive lumber business at Miami Man., is spending a few days in the city. Mr Shaw has just returned from an extended tour in England, Ireland, Scotland and the Continents.

Three Local Hotels to Close Today

Today the licenses of three local hotels expire, and they will close up their bars. The houses affected are the Palace Hotel, J. M. Brooks, proprietor; Southern Hotel, Austin Dunn, proprietor; and the Oxford Hotel, Mrs. Bowman, proprietress. When the license commissioners met the first of May they refused to grant licenses to these hotels, but they were given an extension of three months in order to dispose of the stock they had on hand. The extension expires tonight, and after that they will be unable to sell the goods that cheer during the exercise of self-control, and then ——————. Very many citizens regret the closing of the "Palace," which has consistently kept the liquor law.

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

Caught Two Lunge at Once.

Mr. Frank White, who has been spending a week camping above Nassau, a few days ago had an experience whilst fishing that is absolutely unique in this section. As Mr. White was trolling a little above Nassau, he felt a jerk at his line. This first tug was almost instaneously followed by another. This local fishing expert, with great difficulty landed his prey. After a vigorous hauling off the line the head and jaws of a good sized lunge appeared beside the canoe. Had the party not been strictly on a cold water and hot ten limit as regards drinks, it might have seemed as though Mr. White was seeing double. However the outcome showed that two muskinonge happened to strike at the trolling spoon at once. Of the three barbs on this trolling hook one was taken by a nine and a half pound lunge and two of the others were firmly imbedded in the jaws of a ten-pound fish. By exercise of great patience and care, Mr. White succeeded in landing two good fish at once.

Improvements by Mr. F. Mason.

Mr. Frank Mason yesterday finished tearing down that old house just to the south of his Water street green house. He will tear out the front of the building immediately to the north of that just torn down, replace it with stone work as like the rest of his green houses to the north, and complete the new building with a similar front of stories and glass. This will make quite an impusing run of green houses and testifies to the rapidly growing business done here.

Auto-Bus in a New Scheme.

Arrangements are now being contemplated by the new auto bus proprietors, for a trip round the city, including a visit to the lift lock, and other leading sights of the city, from 7 p.m. until 8 p.m. This will not interfere with the Chemong lake route, and will doubtless prove popular as people can thus quickly and enjoyably be whisked through our principal streets.

Chemong Y. C. Excursion.

The Chemong Lake Yacht Club will run an excursion to Sturgeon Point regatta on Thursday, Aug. 16th. An energetic committee has charge of this excursion which will be one of the most enjoyable held this season. For particulars see The Times in a day or two.

Change in This Division of G. T. R.

Mr. R McFadden has been appointed general roadmaster in place of Mr. John Obeer resigned, of the Northern Division of the Grand Trunk Railway. The Northern Division includes the line from Port Hope to Lindsay and also the Peterborough Lakefield branch. Mr. McFadden assumed his new duties a week ago.

LOCAL INCIDENTS

By The Times Man on the Street

—The York Loan Company, it is now thought may pay its creditors in full.

—The English bowlers come here tomorrow. Fly your flags and display your patriotism.

—Yesterday Mr. Bruce Lee, local liveryman had to run a horse bus to Chemong to accommodate those unable to get seats on the auto.

—Pork is scarce in this district. Hogs live weight, at the farmers' pens are worth $7.50. Where does the extra 1½c. that the consumer pays come in?

—Yesterday Mr. Nicolas Renzetta, the local labor contractor, shipped ten Italians to work in the Clairmont shipyards, for Mr. Dan. McDonald. They left by the C.P.R.

—Yesterday one of the reporters of a local paper, next to the office of which is a drug store, borrowed a bicycle. When the machine was brought back to the drug dispensary it, the wheel, looked like it had gone through a cyclone. What's the matter?

—Tomorrow evening, Messrs. Mitchell & McGrath, the local contractors, go to Douro, about a mile from the church, to erect a fine brick residence for Mr. Thos. Whittle, one of the leading farmers of that township. Messrs. Mitchell & McGrath, have established a credit for doing good work in that township as well as in the city.

Special Events at Chemong Regatta

The Kawartha cup will be sailed for at Chemong Regatta next month, for the cup, which was offered by the Trent Valley Navigation Company for annual competition for 14-foot dinghys, which is at present held by Mr. Hopwood of Chemong. In addition Mr. Noel Baxendale, a popular visitor from England, at the park this summer, will give a silver cup to the boat finishing first in the class.

On Thursday Afternoons the Auto-bus will leave the Snowden House at 2 o'clock P.M. and on Saturdays at 2.30. This is a good chance for those wanting a few hours at the Lake to get in early by Bus leaving Chemong at 7.30.

Police Force by Mesmerism.

Whilst several cottagers at Chemong Park were yesterday discussing the agravated assault on Policeman Meharry on Saturday night by local toughs, one guest out there, a Vermonter, said that in his town they do not look for brawn but powers of mesmerism in the police force. This citizen of the land of the Brave and the Free, solemnly declared that when a tough, drunk, burglar or other law breaker is wanted at police headquarters, the police, many of them small men, simply make a pass or two before each lawbreaker, and at once the man, meekly follows the officer. To use his words; "In our town down to Vermont, the police are only the size of Kerry Cows, but they lead their prisoners down to the police depot by magic." Here is a suggestion to our local force. Let them get the largest clubs in the meantime, while they are learning mesmerism, and then when they can bring a man by the "Hey Presto" method in case of an habitual tough, put him through the 33rd degree with club accompaniment at the station. This will put an end to hoodlumism.

A Perfect Bowel Laxative for constipation, sallow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Lax-ets act promptly, without pain or griping. Pleasant to take—Lax-ets—only 5 cents. Sold by J. D. Tully.

Celebration by Park St. Church.

The teachers of the Park street Baptist Sunday school have decided on September 2nd, as the date on which the 19th anniversary of the Sunday school will be held; also that Flower Sunday will be combined with it. The pastor was requested to preach a sermon, and other interesting events will be in evidence.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 30, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.50 and 7.15 a.m., 7.15 and 8.40 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

—Children's two and three piece garden tools on sale at 15c. and 25c Times Bookstore

TO CATARRH SUFFERERS

Hyomei Cures by Breathing Medicated Air.

The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remedy that its sale is steadily increasing every year.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a life-time, and if one bottle fails not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N.Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherry bark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are *the very best* ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

HAVERGAL COLLEGE

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Where will Normal School Be Built?

This Question Discussed in Joint Meeting of the City Council and School Board Last Night ---Should Be Built on Hilliard Property.

The City Council met in Committee of the Whole last night to discuss in joint session with the school Board, the matter of a site for Normal school purposes.

There were present His Worship Mayor Henry Best, Aldermen R. Hicks, Johnston, Elliott, Mason Wilson, Ball, Graham, Doncun, McIntyre, Adams, and McWilliams.

The School Board were represented by Messrs. John Crane, G. W. Morrow, Wm. Pringle, Dr. Morrison, D. D. Dumble, J. Coyle Brown, R. Fair, and Dr. Burnham.

The meeting was called to consider whether the School Board would be willing to give way in the matter of the Central Park Collegiate Institute site for a High School in order to allow of a Normal school being built thereon.

With this end in view, Mr. Harry Rush had been instructed by the city to secure options on the several sites in town suitable for either a Normal or a High school building.

Mr. Rush submitted the following properties as available for educational purposes, and on which he had secured options:

From Mr. Burnham for the Boswell lot, two acres, between Charlotte and King streets—$7,000.

From Dumble and Bradburn, on McDonnel street, one acre—$10,000.

From Mr. LaRhante, one acre on George street—$1,000.

From Mr. Lundy, corner McDonnell and George streets, 156x114 feet—$6,000.

The Menzies property on George, between Water and Dublin streets, one acre, $10,000. Right to remove building reserved.

The McAllister property, lot west of H. C. Stricklands, Ward 5—$4,000.

The Nichol's homestead, one acre—$12,000.

From the Dickson Co., for the piling ground, 11-2 acres—$6,000.

From the Dickson Co., for an acre and three-quarters, between Burnham and Hunter streets, east ward $9,000.

From D. W. Dumble, for his homestead on Reid, McDonnel and Rubidge streets, two acres, $10,000. Right to remove building reserved.

Ald. Elliott submitted that the Hilliard property, now belonging to the city, at the northern end of George street, would be an ideal site for a Normal school, and should receive the earnest consideration of the Council and School Board.

To the mayor, Mr. Rush replied he would interview Messrs. Hartley and Mason and Mr. F. E. Bradburn re the Hartley property on the Court House hill.

Mr. D. W. Dumble here offered two acres on Aylmer street, north of Smith, for $6,000.

Dr. Burnham expressed the opinion that none of the above sites were acceptable in exchange for the Central Park site for Collegiate Institute purposes, so as to permit of a Normal school being erected in the Central Park.

Mr. Dumble requiesced in the opinion of Dr. Burnham, and strongly argued that the interests of Peterborough children from a High school standpoint are paramount to those of students attending the Normal school in training for teachers.

His Worship here sarcastically remarked that apparently Mr. Dumble was not willing to give way to the Ontario Government in any particular in order to secure for Peterboro a Normal school. Continuing, the mayor said, he understood that when the Government determined to erect three Normal schools for Ontario, their action was induced with a view to an improvement in education generally but apparently Mr. Dumble did not recognize that such a policy would be carried out by the erection in Peterborough of a Normal school.

Mr. Dumble—"I do not say that, but I contend that the interests of our own children should take precedence of the education of Ontario people in general for teaching purposes.

Mr. Pringle thought the Central Park site should be retained for Institute purposes, there being a number of acceptable sites elsewhere for a Normal school.

Moved by Ald. Hicks, seconded by Ald. Ball.—That Aldermen McWilliams, Elliott, Mason and Adams, be a committee to show the deputy minister of education the available sites for a Normal school.—Carried.

Ald. Adams thought all pressure should be brought to bear on the acceptance of the Hilliard property, which is in every way desirable for a Normal school.

It might be pointed out here that ex-Ald. Rush during his office as alderman engineered the purchase by the city of this property, consisting of 66 acres, with farm buildings and gravel pit, at a cost of $10,000. The gravel pit has proved a valuable asset to the city, as has also the farm and orchard, and the property would furnish two acres of land, suitable for a Normal school at practically no expense. The situation would be a desirable and commanding one in every sense of the word, and it would seem a pity to pay say $10,000 for a site when this one, at present owned by the city, is available.

The deputy minister of education will be here on Thursday, and pressure should be brought to bear on him to accept the Hilliard property as the most suitable, and to the city acceptable, site in town for a Normal school.

The Council then adjourned.

English Bowlers Will Arrive Today

Proceeding and Entertainment of Britishers During the Day.

Today the long looked for, welcome and civically entertained English Bowlers arrive in the city.

TODAY'S PROGRAM.

The proceedings for today are as follows:

The Bowlers arrive at the unearthly hour of five a.m. per C.P.R. from Montreal. At the depot they will be met by a deputation of the Peterborough Bowlers, and by them escorted to the Oriental Hotel for breakfast. At 9 a.m. the English visitors will be taken in hacks to the lift lock. Somewhere between that objective point and dam No. five, they will be presented with the official welcome of Peterborough, ably delivered by Mayor Henry Best. At the earliest hour possible they will take luncheon at the Oriental, where Mine Host Geo. Graham will doubtless cater to their appetites, probably raised by the ozone of the country air.

After this they will be given a drive about and through the city as guests of the city. The ladies accompanying these experts of the bowls, will be taken, at an early hour to the golf links, where they will be hospitably entertained by the ladies of this exclusive association.

At three p.m. 21 ends will be played with a cessation at half time for refreshments. A banquet will be tendered our visitors at the Oriental Hotel at 6.30, at which most of our leading citizens will be present. The Englishmen will leave for Toronto, per C.P.R. at eight tomorrow.

The visiting players are nearly all veteran bowlers, the average age of the party being 54. Mr. Campbell of Perth, he patriarch of the team, is 63. Mr Milnes of Carlisle is the youngest, and has reached his thirty-second year. Many of them have attained what is known as international honors, having been selected for annual competitions, among others, Messrs. Telford of Newcastle, McLaughlin of Colonsay, Hunter and McLatchie of Belfast.

The local skips in today's competition are as follows; Messrs. Dr. Boucher, Dr. Greer, D. R. Moore, R. Waddell, and Geo. Giroux. There will be players here from Oshawa, Port Hope and Souffville. Today's games promise to be the most interesting ever played in this part of Canada.

Stony Lake Cottagers Meet

The Cottagers' Association of Stony Lake have met for the first time this season at the pavilion at Juniper Island. Those present were Messrs J. S. Knapman, J. D. Collins, Henderson, D. W. Dumble, Sutherland, Stubbs, McCarthy, James Acton, A. L. Davis, Lawrence Graham, Harris, Hubert Eakins, R. D. Hall, G. R. Hall, D. H. Collins, T. W. Robinson, John Nugent and Hal. Choate, with Mr Dumble in the chair. The minutes of last meeting were not read.

A new regatta committee was elected for the year, the members being; Mr Graham, chairman; Mr. R. Rogers Mr. Knapman, Mr. Jas. Acton, Mr Henderson and Mr. F. H. Collins.

Moved by Mr. Graham and seconded by Mr. Sutherland, that the money derived from the advertising in the year books, should be given into the regatta fund, and the money derived from the sale of the year books, be handed into the general fund.

It was decided that a large dance should be held at the pavilion the evening of the regatta, and an orchestra should be brought from Peterborough to provide the music. An entertainment committee was appointed consisting of Messrs. A. L. Davis, chairman; White, Leonard Acton, Hamilton Hall, Hubert Eakins. The members of this committee have power to add to their number.

Mr. Knapman handed over the minutes show money of last year to the treasurer.

Sad Drowning Accident Yesterday

John Stakcrouse, a River-driver Loses his Life.

Yesterday the city was thrown into sad reflections when the news became public that John Stanerouse, a river driver, with the Cavendish Lumber Co., was drowned in the Eddy below the water works dam about 7.30 o'clock. This is the first drowning accident since the logs started to come down this year. The unfortunate victim of the Otonabee was only about eighteen years of age, and was a favorite with the other drivers and with the foremen. His home was in Minden, and his parents are well-to-do farmers, living just outside the town. He had only been with the gang about a month, although connected with other gangs earlier in the season.

It seems that on Monday the foremen of the gang, by name Geo. Baxter, had had a gang working on the jam at his dam, and had succeeded in nearly removing the logs.

Yesterday as early as seven a.m. the deceased, and another of the gang named Dean went to work to release the few remaining logs.

Stanerouse tried to release one of the logs but made a miss-shot with his pike pole, as he stood in a foot of water.

He slipped into the swift current. He was carried under, but being a good swimmer, soon struck out towards the pier of the dam. The current pulled him under, and he went down and did not come up again.

Dean made a brave effort to rescue his companion, but fell into the current himself, and was being dragged down, but fortunately got hold of a log and hung on until assistance arrived. There were seventeen men in the gang. As soon as they saw that the two men were in the water they all hastened to help them. Dean was easily reached and pulled into safety. Stanerouse was however beyond the aid of human assistance.

A punt was secured and every effort made to secure the body. Unfortunately the water is so deep that pike poles were useless, it being impossible to reach the bottom. The foreman procured grappling hooks, to drag the river, but the searching party were unsuccessful. It is doubtful if the body will be found for some days.

The drowned man's parents were notified by wire early during the morning of the sad news and his father is now in the city.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday the Wall Wearers, and Arrah-be-Airy clubs did not turn out in as large numbers at the police court as in the preceding day.

Only two cases were tried by Acting Magistrate S. Armstrong.

James Loucks, a Smith a reet resident was charged with being drunk. James said, "I guess I was drunk alright." He was fined $2 to be paid in ten days.

William Jones was arraigned on a charge of vagrancy, and said that he had been laid up with inflammatory rheumatism and was not able to work. He added that he was over 60 years of age and came here from Montreal three or four days ago.

Chief Ronal in evidence, said Jones was a stranger here, had no home, and was slightly under the influence of liquor when arrested. He had learned that the prisoner had been here three or four days, but Monday was the first he had seen of him.

Fred Reed said that when he was going down George street, he saw the prisoner trying to sell laces to ladies on the street. If they didn't buy Jones would use profane language.

Jones chanseyed to Oscle Nesbitt and will not join the ladies chain from that delectable abode for one month from date.

Local Man Ploughs up G.T.R. Property

Yesterday a local gentleman returned from the excursion of last week to St. Anne de Beaupre, in a somewhat battered condition. On arriving at Port Hope, he enquired for the train to Peterborough. By some mistake he got onto the Toronto flyer. Noticing that the train he was on was moving more quickly than is the case from Peterborough he took a flying leap for terra firma. The train, alas! was moving too quickly for such a jump, and this gentleman, whose name by request, we omit, had a little ploughing match all by himself. He alighted on his feet, and then for a few minutes ploughed through many feet of cinders and gravel. When he recovered consciousness his left eye had gone into hazy mourning, and the outside of his hands had been left in the G.T.R. right of way at Port Hope. He told a Times representative that every inch of his body was filled with cinders and gravel. As he jumped he had a camera in his hand. After gathering up 11,711 pieces of the camera, he decided to leave the remainder at Port Hope. This gentleman says that on Sunday there were seven thousand visitors at St. Anne's.

S. S. Nyassa is Still Aground

Montreal, July 31.—The position of the ss. Nyassa is still unchanged, and she is yet grounded hard and fast near Varcheres.

When the accident was reported Sunday tugs were immediately sent to the relief of the stranded vessel, but their efforts to take her off were futile, and additional lighters and other assistance were sent to her aid.

McLean, Kennedy &, Company, who chartered the boat, say they expect that she will be off some time today, and owing to the fact that she grounded in the clay they do not expect any damages will result.

This is the first ocean-going accident of the season, and is not due in any way to the channel, but to the fact that the steering-gear of the vessel became jammed, and she immediately swerved into the shore.

DIAMOMDS AT RAINY LAKE

Precious Stones Said to be Profuse in Canada

ROTHSCHILDS INTERESTED

Three Parties of American Prospectors are on the Ground--Talk of Diamond Bed.

Winnipeg, Man., August 1.—Several months ago when prospectors who had visited the Rainy Lake district reported the finding of diamonds there they were not believed, and the stones they exhibited were said to have been purchased to make their story sound more plausible. During the past two weeks, however, three parties of prospectors have left for the north with the intention of discovering the diamond bed from which these stones are said to have originated, and a curious feature of these prospecting parties is, that they are made up entirely of Americans, several of them claiming to have definite information of the location of the diamond bed known to exist somewhere in the north country.

Last year a French Canadian in the Rainy Lake district sold a diamond to an Englishman for 50 cents' worth of drinks, and later the Englishman obtained $1,400 for it. Where the diamond came from there must be others. Remember the story of the first diamond found in South Africa; it lay for days kicking around on the kitchen floor in a farm house until a man came along who chanced to see it and bought it for a trifle. This man made several hundred pounds by the deal and the parties to whom he sold it made thousands. The finding of that solitary diamond led to the location of the famous Kimberley mines where millions of dollars worth of precious stones have been discovered, and are being discovered every day.

Remember many little instances which led to the discoveries of great mineral wealth and who can say that the discovery of the several diamonds in the Rainy River district may not lead to the discovery of diamond fields which will rival the famous Kimberley mines.

Already an agent of the Rothschilds has arrived over ready to get in on the ground floor should any discovery be made. With several railways building through the district there will be every chance for its mineral wealth to become known.

Senator Will Ask Where Money Goes

Senator Casgrain not Satisfied With Way Funds are Going.

Santiago, Cal., August 1.—Senator Charles E. Casgrain, of the Canadian Senate, openly declared yesterday at the Hotel Alexandria, Los Angeles, that on his return he would see that the Canadian Government at once investigated the disposition of the $1,000 donated by Canada for the relief of the San Francisco earthquake sufferers. He has learned from various sources that thousands of dollars donated by other parties and organizations have never yet been heard of after leaving the donors' hands.

A National Necessity.

The growing independence of the Provinces of the Dominion must be apparent to all. The product of one is a necessity for another. Not alone are the eyes of the Eastern Provinces, but those of every country in the world directed to the almost phenomenal wheat producing qualities of Manitoba, Saskatchewan and Alberta. Every hamlet, concession and side line in Ontario has contributed to the settlement of these fertile Western Provinces. The crops, according to the Governmental reports for this season, if safely harvested and garnered, will far surpass previous years in quality and quantity.

It is estimated 20,000 farm laborers will be required from the older Provinces in assisting in the harvest of their wealth. The sons of the West are now urgently appealing to the parental and patriotic instincts of the farmers of the East to send every strong, able-bodied man they can to aid them in this work of national importance.

The Canadian Pacific Railway has made the wonderful growth of the West possible. In the saving of the wheat and other crops, the interest of Canada and the Canadian Pacific are identical. The latter is Canada's National Highway. It has announced that on August 14th, 17th, and 22nd, it will transport from different territories in the East farm laborers to the Canadian North-West at the nominally low rate of twelve dollars; in fact, this National Highway is offering an inducement to European farm laborers by making an exceptionally low rate over its Atlantic steamship service in connection with its railway lines. It now remains for the Ontario farmer to show his pride in the growth of his nation by co-operating with the Canadian Pacific in sending every available able-bodied man he can to the West.

Mr. and Mrs. Madill Are in Toronto

Attend Celebration of a Diamond Wedding.

Mr. and Mrs. Wm. Madill and son are in Toronto, after attending the diamond wedding of Mr. Madill's parents, Mr. and Mrs. James Madill, of Toronto, which took place on Monday. The World of that city, says:

"Surrounded by their children, grandchildren and great grandchildren, under a gaily decorated marquee, on the lawn of the residence at 526 Ontario street, Mr. and Mrs. James Madill, formerly of Whitby, yesterday afternoon celebrated the sixtieth anniversary of their wedding.

The invited guests were Rev. Dr. John Abraham and Mrs. Abraham; Mrs. Hunt and Miss MacKay, of Whitby, Rev. Dr. Turnbull and Dr. G. B. Smith, for twenty-five years the family physician. Also present were Mr. and Mrs. Henry Madill, the only survivors of the original wedding.

At the breakfast table, were, besides the bride and groom, six sons and one daughter, Mr. and Mrs. Thomas Madill, of Syracuse, son and daughter, and two grand children, Mr. and Mrs. John Madill, of St. Catharines and four children; Mr. and Mrs. Benjamin Madill, of Toronto, and daughter, Louie; Mr. and Mrs. William Madill, of Peterborough and son, Mr. and Mrs. Walter R. Madill, of Toronto, and two children, and Mr. James Madill, of Toronto; one daughter, Mrs. (Rev.) George Gadsby, and son, of Marietta, Ohio.

The toast to the ancient bridegroom and bride, was responded to by Mr. Jas. Madill, sr. He told how courtship, love and marriage were carried on 60 years ago instead of an automobile, the wedding party drove in a lumber wagon drawn by a team of oxen.

Heavy Horses no Longer Desired

British Remount Officers Believe in the Moderate Sized Animals.

Montreal, August 1.—Col. C. H. Bridges, C.B., C.M.G., of the British Army Remount Department, arrived in Montreal on Saturday morning on a trip to Western Canada, where he will purchase cavalry horses for the service. He made some interesting statements yesterday with regard to the kind of horses now in demand by the British cavalryman, especially in South African service where it was found that the Canadian horse was the superior of any other for the climate and the work. He said:

"Heavy dragoon horses are a back number in modern military work, especially after the experience of the British Army in the South African war, and only horses ranging from fourteen hands three inches to a trifle over fifteen hands are now sought for. We only want light, wiry horses of a type which, fortunately for the army and for Canada, is quite common in the ranching country of the West. Our experience on active service has shown that the light built wiry horse of the mounted infantry type is infinitely the most useful, and that is the kind of horse I am in search of."

Col. Bridges will spend probably a month in Canada before taking his purchases back to England. After some time in the West he will return to Eastern Canada in search for the same type of horse.

Of course, he stated, the price would largely depend upon the quality of the animals offered, he being allowed a limited discretion in this, an average price being fixed by the army authorities.

—Children's two and three piece garden tools on sale at 19c. and 25c. Times Bookstore.

MIXED FARMING THE RULE

Mr. J. D. Flavelle, of Lindsay, Explains How Farming Has Greatly Changed.

The extent to which the average Ontario farmer has ceased to sell the grain he grows was aptly illustrated by Mr. J. D. Flavelle, head of the Lindsay milling concern. In 1884 from Lindsay there were exported 750,000 bushels of wheat, he said, while every year now ninety per cent. of the wheat used in the country had to be imported. According to Mr. Flavelle, Victoria county does not begin to grow the quantity of wheat which is needed for the flour consumed within the county lines. Far less wheat is grown today than years ago, and farmers seem to be leaving the raising of the cereal in the hands of the west. Larger quantities of the coarser grains, such as barley and oats, are grown than twenty years ago, but still smaller amounts of these are being shipped every year because farmers prefer to feed every bushel of grain they can raise to profit-making stock. From a grain-growing county Victoria has gradually developed into a notable example of that class of agricultural industry known as mixed farming. Here dairying flourishes; horses, cattle, hogs and poultry are raised, fruit is sold, and in fact everything that will make money is done on the farms around Lindsay. Specialization in any one branch of agriculture is seemingly rare, and land, which twenty years ago was mainly devoted to the production of wheat is now creating wealth in sundry ways. Last year crops in general were hardly average, but those in a position to know state that the thrashings this fall will probably show a betterment of 50 per cent. over last season. Unmistakable signs of abundance and plenty are seen in the great majority of fields, and this, with a steady live stock and dairy market, means prosperity everywhere.

"In years gone past we used to export 500,000 bushels of oats, peas or barley, and now we don't buy enough in the county to do local chopping," said Mr. Flavelle, in showing how the farmer thinks he can better dispose of his grain by feeding stock."

Soldiers Mutiny in Russian Fortress

A Long and Sanguinary Struggle Occured Between Loyal and Disaffected Troops, Resulting in 500 Killed or Wounded.

Stockholm, Sweden, Aug. 1.—It is reported that a mutiny broke out at midnight in the fortress of Sweaborg, Finland.

The officers' families and the wounded are said to have been sent to Helsingfors.

Sweaborg is a strongly fortified town of Russian Finland, situated on Seven Islands, in the Gulf of Finland, immediately southeast of Helsingfors.

The islands, which are connected by pontoons, form the site of a fortress which defends the harbor of Helsingfors, and consists of numerous military works and outworks, and a military arsenal.

MUTINEERS VICTORIOUS.

London, Aug. 1.—A despatch to a news agency from Helsingfors, Finland, says that a portion of the garrison of Sweaborg, mutinied last night, and that a long and sanguinary struggle took place between the mutineers and the loyal troops in which the former are said to have been victorious.

The mutineers, it is added, are now in possession of the fortress.

Many were killed or wounded during the fighting.

IN A STATE OF PANIC.

London, Aug. 1.—A later despatch from Helsingfors, Finland, says that fierce fighting continues at Sweaborg.

Up to midday over 600 men have been killed or wounded.

Warships are now bombarding the fortress.

The inhabitants of Helsingfors are in a state of panic.

DUE TO DEATH OF SOLDIER.

Helsingfors, Aug. 1.—A serious mutiny has broken out in the great island fortress of Sweaborg, which defends the sea approaches to Helsingfors.

Since ten o'clock last night there has been a heavy cannonade at the fortress interspersed with volleys of rifle shooting.

The sound of cheering among the soldiers was also distinctly audible in Helsingfors.

It is impossible to reach the fortress, but it is said upon authority which is not doubted that several hundred have been killed or wounded.

The cause of the mutiny is reported to have been the death of a soldier in the battalions of Sappers and Miners.

His comrades claimed that the death was due to ill-treatment.

They rose and were joined by the artillerymen.

Together they outnumbered the loyal infantry troops, who supported their officers.

The infantry from the Skatuddes barracks, which stands on the sea front in Helsingfors, were immediately ordered out.

Two torpedo vessels lying at anchorage off the city thereupon opened with their rapid fire guns against the barracks, shooting over the heads of the people gathered upon the sea front and causing a tremendous panic.

The greatest excitement prevailed but the Socialistic workmen and the red guard of Helsingfors were all highly elated over the outbreak.

Barbarous Acts of German Soldiers

Cape Town, August 1.—German soldiers, putting down native rebellion, have resorted to barbarous methods in South-West Africa. In one instance fifty native women were shot by soldiers because they refused to reveal the hiding place of Chief Marengo, leader of the rebels, recently reported to have been captured by the Cape police.

A LOT OF PEOPLE LIKE ICED POSTUM and it's liquid food that makes for VIGOR

Milk Cans Must Now be Inspected

It will be of interest not only to the general public, but to local milk vendors, both included among our readers, to note that, the Milk Act as passed requires that when milk is sold by measure all cans or other vessels used for such sale shall contain a standard gallon and that all such cans shall be subject to verification under the general provisions of the Weights and Measures Act, the capacity thereof, and the name of the maker being engraved or stamped thereon. The owners of cans now in use which have not been verified and stamped by an inspector or assistant inspector of weights and measures are required, within three months from July 13, 1906, (when the new Act was assented to by the Governor-General), to present them to the local inspector of weights and measures for verification, when each can will be stamped with its capacity to the nearest quart thereof, and will be branded or stamped "milk can." After the three months have expired any person using cans which have not been inspected and stamped shall incur a penalty not exceeding, $50, the cans being forfeited.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Following are the results of the games played in the Eastern baseball League yesterday.

Toronto 0, Rochester 2.
Montreal 3, Buffalo 4.
Providence 2, Newark 3.
Jersey City 2, Baltimore 3.

• • • •

The final game in the Guild League will be played tonight at Riverside Park, between George street and Charlotte street. The latter have a lead of two runs from the first half but the George street nine feel confident of winning out. The game will likely be one of the best seen here this season. It is the last opportunity the local fans will have of witnessing a game in the Guild League this season.

If the Charlotte street team wins out, the Stratton Cup will become the property of the club, they having won it three years in succession too.

Mr. Fred Whitcroft will toss the job.

• • • •

BOWLING.

The local rinks which will meet the British Bowlers on the green today are as follows;

W. M Lang, S. T. Medd, G. K. Martin, W. E. Tabbs, R. M. Waddell, sk.
A. L. Talbot, C. J. Seymour, R. Cotterell, R. Sturgeon, Dr. T. N. Greer, skip.
D. McKercher, W. F. Johnston, T. F. Matthews, J. E. A. Fitzgerald, D. H. Moore, skip.
R. Davidson, E. Runnels, D. Bellegham, Dr. M. McClelland, Dr. R. P. Boucher, skip.
J. W Ferguson, W. Aitheson, E. W. Cox, R. Kerr, G. H. Geroux, skip.

• • • •

THE TURF.

Following are the results of the racing at Fort Erie yesterday;

First race—Prolific, 1; Charley Ward, 2; Lady Bateman, 3.
Second Race—Garret Wilson, 1, Alsono, 2; Run Dance 3.
Third race—Lyly Young 1; Manzano, 2, Dowson, 3.
Fourth race—Reade, 1; My Bessie, 2; Bath Maria, 3.
Fifth race—Gilfain, 1; Rayiana, 2; Annie Berry, 3.
Sixth race—Solon Shingle, 1; Dolinda, 2; Mistik, 3.

BISMARCK'S NEPHEW

Who Was Once Acting Governor of Missouri, is Dead.

St. Louis, August 1.—H. C. Brokmayer, former Lieutenant-Governor of Missouri, and at one time acting Governor, died today from an operation.

Mr. Brokmeyer was a nephew of the "Iron Chancellor," Prince Otto Eduard Leopold Von Bismarck, on his mother's side. He was born August 12, 1826, near Minden, Prussia. He came to this country at the age of 18, his first occupation being that of a bootblack in New York City. His education was received in the college at Georgetown, Ky., and Brown University, Providence, R. I.

A Scarcity of Farm Laborers.

Kingston, August 1.—There is a great scarcity of farm laborers in the district surrounding Kingston, and as high as $4 a day is being paid competent men. A farmer who was in town today looking for help stated that the price of hire was never asked, and it was a case of come at any wage, for the harvest was on the ground and was lying for lack of the means of gathering it.

A Local Business Deal.

Yesterday Mr. Arthur Johnston, formerly proprietor of the Melbourne House, Toronto, arrived in the city and completed arrangements whereby today he will become the proprietor of the Windsor Hotel property on Brock street. Mr. Johnston is an old and experience hotel man, and undoubtedly will conduct his new purchase in a manner satisfactory to the commissioners.

PALE AND ANXIOUS

Your Countenance Indicates the Body's Awful Struggle for Health

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful. In fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 424 King St East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

ANOTHER GREAT CROP

Last year this Dominion went into ecstasies over the garnering of a wheat crop of a hundred million bushels in the West. It was a new record, a new high-water mark, and we were naturally pleased, and would continue to be pleased even if this year some slight retrocession had to be noted. But there is no retrocession. The new mark is to be several notches higher than the old one. The importance of all this it is, of course, not easy to over-estimate. For a whole year that hundred million bushel heap of wheat (to say nothing of seventy or eighty million bushels of other grains), of which in former years there was no counterpart in our annual inventory, has been spreading itself out thin over the whole surface of the commerce and industry of Canada. A good-sized portion of it is discernible in the seven millions profit increase of the Canadian Pacific. In the balance sheets of other and lesser railway houses its influence is not so easily traced, but it counts for a good deal in the balance of profit for the year. We in Ontario are a long way, in miles, from where the wheat was grown, but the influence of the great crop upon the fortunes of the province could be read, if the figures were handy, in the details of every factory, from those which turn out their scores of locomotives and their thousands of freight cars to those others which add ten per cent. to their output of shoes. News of big crops in the West is great news.

Says That Yellow Press is Harmful

New York, July 31.—The Gaekwar of Baroda, his wife and suite have sailed for Liverpool on the Cedric. The East Indian ruler spent about ten weeks in this country visiting various cities. The chief object of his visit was to study American methods of education.

In an interview before his departure the Gaekwar expressed himself regarding the newspapers of this country.

"While the American press is excellent," he said, "though inquisitive, I believe that your so-called 'yellow press' is doing harm. It is perverting aggressiveness rather than making to interest. While the press should seek to interest the higher class, it should also seek to please the lower class, for they should be educated as well as amused. This end cannot be attained by printing sensational stories, murders, elopements, police cases and items which appear to the lowest rather than the highest in man."

When one asked the Prince to give his opinion of American women. He said:

"I will tell you frankly, the American woman is independent, frank and self-possessed, and yet, though I had heard a great deal about her beauty, I failed to see it. Much has been written regarding the wonderful beauty of your women. This beauty I did not find, though I found a pleasing, frank, independent type of womanhood."

"THE MORGAN STUNT"

There is Trouble in Newport Society Because He Wore Low Neck.

Newport, R.I., July 31.—The Newport fashionable set is all stirred up over the question of whether or not Dudley Morgan, rated as the best entertainer among the younger set at Newport, really did wrong in coming to the Casino dance on Thursday night in a low-neck gown and blonde wig, and dancing on the ballroom floor, as a result of a dare from Pauline French.

While some of the Casino officials are saying harsh things in their own circles and feel all cut up over the affair, there will be no official action taken, but it may be informally discussed at the next weekly meeting.

On the side of Dudley Morgan is the entire membership of Newport's younger set, which is as powerful socially this season as the elder set.

As the mothers and fathers are bound to stand behind them in their matters, and because so many were involved in the affair which he categorically called "the Morgan stunt," none seems to care to take the initiative in administering the reprimand to Morgan.

There has been a round of little talks between daughters, sons and parents over "the Morgan stunt," but outwardly there is nothing very threatening because the social traditions of the said Casino ballroom were broken, and unless the guardians of what is proper at the Casino watch sharp there will be something really startling at the Casino dance on Thursday night.

INTEREST IN BIG CIRCUS

Coming of the Barnum & Bailey Show Creates Preliminary Anticipation

A great deal has been said and printed about the coming Barnum & Bailey circus to this city on Thursday, August 9, and interest in the event seems to be general throughout the community. That a performance of unusual merit, and one replete with features of a novel and unusually sensational character may be anticipated with confidence, is evidence from the management's announcement of the diversified entertainment prepared for the current tour. From this announcement these interesting facts are taken:

There are 400 performers, and they come from all parts of the world. Among them are the Carmen Troupe of high-wire specialists; the Steves, who introduce a novel aerial Trempitin act; the Vorlop Tourbillon dancers; the Diserns, in novel musical and military manoeuvres; the Floreni, Grunatho, La Mont and other acrobatic families, with Lee Rowlandes, a French company of equestrian acrobats who present a novel act in a tally-ho coach and on four running horses; the Imperial Viennese Troupe of aerialists, comprising ten mid-air experts; a long list of well-known riders, embracing Josie De Mott, who turns somersaults on a running horse "just like a man," the Rooneys, the Austin Brothers, W. P. Melrose, Fred Derrick, Wm. De Mott, Oulka Meers, Dallie Julian, Ella Bradna, Mme. Margot Von Stuttcheim, Minnie Johnston and many others.

The trained animal numbers introduce the Ray Thompson trained horses; three herds of acting elephants; troupes of trained sea-lions, sheep, dogs and ponies, and other interesting acts of this character.

The special sensational features include the "Dip of Death," which introduces a young American girl in a forty-foot ride through space in an inverted auto-car, the "Two Twirls of Terror," in which the Boller Bros. accomplish revolutions in space on space on bicycles, and several other pronounced "thrillers."

The comedy element is introduced by forty clowns, led by Spader Johnson, Dan Ryan, Steve Mlaco, and other merry-makers, who are credited with actually being funny.

The hippodrome races are rendered especially diverting by the use of blooded Kentucky and imported racing stock, and are run with the avowed intention of "permitting the best man—or woman—to win."

The zoological display is notable for its exhibition of a herd of four giraffes—said to be the largest herd in captivity—a rare bi-horned rhinoceros, three herds of elephants, twenty camels and dromedaries, including several specimens of the curious Siberian camels, the scores of other interesting animals.

Finally, as though this was not sufficient to satisfy the public demand for a diversity of popular entertainment, the Barnum & Bailey prospectus announces the "most brilliantly effective military and allegorical display ever seen under canvas—a picturesque page from the great Russo-Japanese war in Manchuria and its final termination in an honorable Peace' gloriously brought about through the supreme efforts of the President of the United States of America."

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 7, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.50 and 7.15 a.m., 7.15 and 8.43 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

BOY WEIGHED 408 LBS.

Arcola, Ill., July 31.—Provie Henry, known throughout this section as "the Aymond fat boy," is dead. He was nineteen years of age, and weighed 408 pounds. His waist measurement was seventy-three inches. His parents are under the usual size, his father weighed but 145 pounds. His death was due to fatty degeneration of the heart.

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, etc., etc., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $229,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

bed—you are sitting up! You are not old either, but have many years of life before you!"

"Child, hear my words, but do not judge them! Say to Lady Etheridge that Magdalene Elmer, her dying nurse, prays—nay, demands—to see her this night! Tell her that I have a confession to make that she must hear tonight, or never! Conjure her by all she holds dear on earth! by all her hopes of Heaven! by all her fears of hell! to come to me to-night! Tell her if she would escape the heaviest curse that could darken a woman's life, to come to me to-night! to come to me at once! There; get on your bonnet, and go!"

"Mother——"

"Go!"

"Oh! indeed, I fear her wits are wandering! It is not safe to leave her alone!" thought Rose, in distress.

"Rose, will you obey me?"

"Mother, yes, certainly; but let me send some one to stay with you while I am gone."

"Do as you please as to that, only lose no time on your way to the castle," said the woman, in a tone of asperity that admitted of no opposition to her will.

Rose hastily prepared herself for her long walk, and then stepped into the next door to ask a neighbor to attend her mother until she should return, and then bent her steps in the direction of the castle.

CHAPTER III.

Lady Etheridge was sitting alone, wrapped in a love dream, when Mrs. Maberly, her waiting-woman, announced that a young person who represented herself to be the daughter of her ladyship's nurse desired audience.

Rose—for of course it was she—was shown into the chamber, and Mrs. Maberly retired.

"Come hither, my dear," said Lady Etheridge, holding out her hand and addressing her as she would have spoken to a child. And indeed, Rose, though of the same age as the baroness, yet in the fair, soft, delicate type of her beauty, seemed several years younger than Lady Etheridge.

At the invitation she approached and took the hand that was held out to her and raised it to her lips. It was a natural and instinctive tribute to the queenly presence of the lady.

"Now sit down, my dear. You are the daughter of my nurse?"

"Yes, my lady," said Rose, seating herself in the chair at the same table that had lately been occupied by Colonel Hastings.

"And now, my child, tell me what it is I can do for you."

"I have to prefer, on behalf of my mother, an extraordinary request. She prays of your ladyship to come and see her this night," said Rose, reddening.

Lady Etheridge looked up with a surprise and inquiring expression.

"My lady, I know it is a very strange message; but I must give it as she gave it to me. She said: 'Tell Lady Etheridge that I, Magdalene Elmer, her old nurse, prays to see her ladyship to-night. That I have a confession to make, which she must hear now or never. That I conjure her, by all she holds sacred on earth! by all her hopes of heaven! by all her fears of hell! if she would escape the heaviest curse that could blast a woman's life, now and forever, to come to-night, for I am dying!'"

"I will go to your mother immediately," said Lady Etheridge, hastily, as she rang a little hand bell that stood upon the table.

It was answered by a page, to whom she gave the order that a plain, close carriage should be brought round within half an hour.

Rose stood up to take her leave.

"Stop a moment, my dear. You walked from the village?"

"Yes, my lady."

"Then you must not walk back. It would be too much for your young strength. Besides, you would not get back before night. You must ride with me, and you will reach home all the sooner."

"I thank you, my lady," said Rose, blushing at the thought of this honor.

"I have an engagement that will not occupy me more than fifteen or twenty minutes, while the carriage is coming round. After that I shall be at liberty to go at once. I am expecting Mr. Hastings here momentarily. Nay, my dear, you need not leave the room, but when you hear my visitor's name announced you may retire to that bay window. You will find some prints there that may amuse you for the few moments that Mr. Hastings will remain," said Lady Etheridge. And even as she spoke the door was opened, and a servant announced:

"Mr. Hastings, my lady."

On hearing the name announced Rose had turned away and stolen off to the window, within the flowing curtains of which she sat quietly waiting. She heard the lady say, in her peculiarly rich and deep tones:

"Light the chandelier, Williams, and show Mr. Hastings in."

And in one moment there was a blaze of light flooding the library, and in the next instant Albert Hastings entered the room, approached the baroness, raised her hand to his lips, and said, gallantly:

"I am here by your commands, my liege lady, my adored Laura."

That voice!

Rose Elmer started and gazed out from her retreat. Yes, there he stood, her own betrothed lover, bowing over the hand of Lady Etheridge, and addressing to her all those tender epithets of love that he had been accustomed to bestow upon Rose! The poor girl did not faint nor exclaim; the blow was too sudden and too heavy; it stunned and benumbed her into the stony stillness of a statue, as she stood there within the shadow of the window curtains. She was cold as ice, her blood seemed freezing in her veins, her heart was sinking, there was a dead weight in her bosom, yet she was unconscious of these sufferings—every sense was absorbed in witnessing the scene at the library table.

Again he raised her hand to his lips, with more expressions of passionate love, when the lady, with a playful gesture toward the window, indicated that they were not alone. Then they spoke in tones so subdued that they must have been inaudible, at that distance, to any sense of hearing less preternaturally strained than that of Rose.

"I have begged you come here this evening that I may place these documents in your hands," said the baroness, gently pushing toward him a packet of papers.

With a look of interest, he took them up, and perceiving their purport, flushed to the forehead with ill-concealed triumph, as he exclaimed:

"The title deeds of the Swinburne estates!—my adorned Lady Etheridge! my beloved Laura! your confidence—your munificence overwhelm me! You—but you never did your own personal worth, nor my love the wrong, to imagine that any mercenary thought mingled with my devotion to you?"

"No, Mr. Hastings—no, Albert! I never doubted, or would doubt, the pure disinterestedness of your regard for poor Laura Etheridge."

"And if this peerless Laura, instead of being the Baroness Etheridge, of Swinburne, had been the lowest cottage maiden, I should have loved her all the same! She would still have been the queen of my heart."

"The loved of your heart I do believe she would have been," said the lady, with a beaming smile. Then, with affectionate earnestness, she pressed the documents upon his acceptance.

He made a strong feint of refusing so vast a sacrifice; but finally, with seeming reluctance, suffered them to be forced upon his reception. Then the

(To be continued)

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

The Eyeballs.

To preserve the round shape of the eyeballs occasionally rub them gently and always toward the nose. As one grows older the eyeballs have a tendency to become flat. Gentle rubbing or massage helps to preserve their shape.

Spanish Etiquette.

Ladies seldom rise in Spain to receive a male visitor, and they rarely accompany him to the door. For a Spaniard to give a lady, even his wife, his arm when out walking is looked upon as a decided violation of propriety.

His Lamp.

Teacher (of east side school)—I wonder how many of you remember the pretty story of Aladdin and the wonderful lamp I told you last week. Billy Bleecker, can you tell me why our little friend Aladdin rubbed his lamp? Billy Bleecker (vaguely)—If he wuzn't gettin' sleepy he must 'a' had a cinder in it.—Puck.

Caustic.

Scene—Train stopping at small roadside station. Irritable Old Gentleman—What on earth do they stop at a station like this for? Objectionable Passenger (alighting)—To allow me to get out. Irritable Old Gentleman—Ah! I see it has its advantages, then?

Up Against It.

"Snobson says he'd rather be alone than in unpleasant company."

"But the worst of his case is, he can't escape even then?"—Detroit Free Press.

Agreed.

The Herr—It is of no use. We must get a separation. The Frau—That is what I say. Isn't it beautiful how we agree?

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty at 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 3 1-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 19 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS—Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

He is Correct

Dr. Hamilton Proves That Piles Are Caused by Constipation and Strong Cathartics

Knowing the frequency with which people suffer from this ailment, Dr. Hamilton made an exhaustive study into the cause of piles.

He found that the lower part of the bowels is like a network of blood-vessels, and if subjected to persistent pressure, a section will bulge out and form what is commonly known as piles.

The only effective mode of curing this trouble is the regular use of Dr. Hamilton's Pills, which can be taken before retiring. Next day will bring wonderful relief.

"I suffered up to about the limit of human endurance with piles," writes Miss Lueders, from Cornwall, Ont., "I was employed in a factory here, but for a while had to give up work till I got better of this trouble. I read in the Montreal Herald about Dr. Hamilton's Pills, and after using them for two weeks was cured. I can recommend these pills very highly; there are none better. They at once relieve and prevent a constipated condition of the bowels, and from my experience can be depended upon as a perfect safeguard against piles. Dr. Hamilton's Pills of Mandrake and Butternut, I am sure, would be a benefit to every girl or woman."

Take Dr. Hamilton's Pills and your system will be regenerated, revitalized, and made proof against disease.

Good for men, excellent for women, and most effective for children. All ages and both sexes find Dr. Hamilton's Pills a marvelous medicine. Although active, they do not grip or cause inconvenience, still they cleanse and purify the system, thereby maintaining a high standard of health. Sold by all dealers, 25c per box, or five boxes for $1.00, or by mail, from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

SOCIAL AND PERSONAL

—Mr. W. Harold Cluxton is holidaying in Muskoka.

—Mr. V. E. Bonnell, of Bobcaygeon, is in the city.

—Mr. D. O'Connell was in Toronto on business yesterday.

—Mr. George Meredith is spending a few days in Orillia.

—Mr. T. McCallum, of Coburg, is a guest at the Oriental.

—Miss Ethel Kelly, Water street, is spending her holidays at Millbrook.

—Mr. and Mrs. R. H. Leary left yesterday morning for a trip to Winnipeg.

—Mrs. J. F. Griggs, of Peking, China, is registered at the Snowden House.

—Miss Margaret English, of Detroit, is spending her vacation at her home here.

—Mr. H. F. Kenman, of the Canadian Soo, is registered at the National Hotel.

—Ald. G. A. Tovey is recovering from his recent illness and is able to be out again.

Rev. Mr. Armitage is Sustained

Clergyman Well Known Here Gets Proof of Popularity.

Referring to an English clergyman well known here, the Picton Times says;

Some wicked wag has evidently been imposing on the credulity of Kingston Whig. An article appeared in this paper on Tuesday to the effect that the members of the congregation of St. Mary's Magdalene church were agitated over the marriage of their popular young pastor, which took place at Cobourg last week. Careful enquiry has failed to substantiate in the slightest degree the statements published by the Whig. The congregation of St. Mary Magdalene's are greatly attached to the vicar and are surprised and indignant at the garbled statements published by the Whig. The only excitement apparent is the little society ripple which usually accompanies the marriage of so popular a young couple. The return of the Vicar and Mrs. Armitage, who is well known and highly respected in Picton, will be hailed with delight by all classes. The Whig and other papers copying the canard should make amends honorable.

On Thursday Afternoons the Auto-bus will leave the Snowden House at 2 o'clock P.M. and on Saturdays at 2.30. This is a good chance for those wanting a few hours at the Lake to get in early by Bus leaving Chemong at 7.30.

Special Lacrosse Train Tomorrow

The Shamrock Lacrosse Club are running an excursion to Lindsay tomorrow afternoon, August 2nd, when the tie between the Oshawa twelve and the locals will be decided on the Agricultural Park of that town. The excursion train will leave the G.T.R. depot at 2 o'clock.

As Thursday is a half holiday here, there is every reason to believe that there will be a large crowd take advantage of the cheap rate, and go out and root for the boys. The management have made arrangements with the Railway Company for a very cheap rate, the fare being 15 cents, return.

Another Site for Normal School

Still another site is advanced for the new Normal school. Yesterday a leading citizen called at this office and recommended the lots, situated on Murray street, between Dickson street and College street, which belong to the Ormond estate, Mrs. Mason and Mrs. Hartley. The three named he claimed would make an admirable location for the new Normal, which would, not only be adjacent to the Central school and the present Collegiate Institute building, but command an admirable situation—and central, also. The Normal would thus be near the court house and Victoria Park.

Cavan Lady Somnambulists

One night last week two young ladies, sisters had a clear proof they were somnambulists or walk in their sleep. These young ladies, whose names by request, we omit, went to bed at the usual hour. As the fleeting hours sped by they must have become restless in their sleep. In any event, at about an hour after the time supposed to close the time for "beauty sleep," they suddenly met arrayed in robes de nuit in a clothes closet, common to both. They ran into one another and awoke. Explanations were in order, but each of the two denied having had any dreams that would cause such somnambulism. As a friend of theirs' remarked, "Oh Lawd Suckan deal!" explains the matter to those in the know.

Men Leave for S. R. Company.

Mr. James Lyle, the well known local lumberman, left yesterday by the five o'clock G.T.R. train, with a large number of men for the Spanish River Lumber Co. Mr. Lyle, as usual, succeeded in procuring a gang of able bodied and sober men who will doubtless prove that Mr. Lyle is a loser employer, is well posted and gets good men.

Dr. Seath to View the Sites.

Mr. T. K. Bradburn, M.P.P., has received word from the Education Department, Toronto, that Dr. John Seath, superintendent of education, and Dr. A. H. U. Colquhoun, deputy minister of education, will visit Peterborough tomorrow, to look over eligible sites for the new Normal school.

LOCAL INCIDENTS

By The Times Man on the Street

—The regular meeting of the Peterborough Cheese Board will be held this morning.

—Today is the last day for paying your first instalment of taxes if you want to save the discount.

—A pocket book and pass book—Bank of Commerce—are awaiting owners at the police station.

—The British Bowlers will be here today Throw out your dunding, and give the visitors a warm welcome.

—The Times has to thank those in charge for an invitation to accompany the English Bowlers' excursion over the lift lock.

—There will be great doings at Crawford's Grove, tonight when Mr. Talbot will entertain his guests over a camp fire.

—Col. Sergt. Waterman requests the members of No. 1 section to meet at the drill hall this evening at 7.30 sharp, in uniform.

—If invited to the Bowlers' banquet tonight don't put on your forked tail coat. This ceremony owing to hot weather is "sans ceremonie."

—The Grand Lodge committees will hold their last regular meeting, previous to the gathering here next week, in the I.O.O.F. hall this evening.

—Yesterday several gangs of Bell Telephone men were busy stringing that company's new 200 wire aerial cables. Work was specially hustled on Water street.

—The annual excursion of the Ladies' Aid society of Mark street church took place yesterday to Idyl Wyld. There was a large crowd on board the Water Lily.

—Mr. Chas. James, the well known ginger beer manufacturer, with his little grandson, Harry Board, left yesterday on a fishing trip to Campbellstown. If the Otonabee river goes down three inches, it will be accounted for by the multitude of fish removed therefrom.

House of Refuse Being Hustled

Mr. Jas. J. McPherson, Contractor, is Rushing the County Building.

Mr. James J. MacPherson, who has the contract for the brick work on the new county house of refuge, was in the city yesterday. He expects to have the brick work on the new institution, which is three storeys high completed in three weeks' time. This contract will take about 260,000 bricks. Mr. MacPherson has the necessary water pumped by a duplex pump from a spring about 300 yards while the hoisting apparatus is operated by a traction engine. Twenty-seven bricklayers and builders' laborers are on the job and are camped on the premises. Curtis Bros., Peterborough's old reliable brick makers are supplying the brick for the building, and 150,000 have already been delivered.

Transfer of Real Estate.

Ald. Hicks purchased yesterday from Mr. Wm. Yelland the property on Bethune street, between Murray and McDonnel streets. Ald. Hicks has used this property for some years as a coal and wood yard, and his securing the ownership of the same will undoubtedly facilitate a further business expansion, commensurate with the twentieth century enterprise for which our respected chairman of the City Board of Works is noted.

Mfr's Com. Meets Tomorrow.

A meeting of the manufacturers' committee of the City Council has been called for tomorrow evening for the purpose of meeting the directors of the Peterborough Steel Company, and learning the particulars of their proposition. The committee will endeavor to meet the requests of the new company.

A True Blue Lodge Forming.

A lodge of the Loyal True Blues, of the Orange Order, is being organized in Peterborough. A lodge of the True Blues existed in the city some years ago but was disbanded. A few weeks ago work was commenced, and has proceeded with gratifying success. This is another indication of the progress of Orangeism in Peterborough.

Fair Directors Revise Lists.

The fair directors' committee met in the court house yesterday afternoon to revise the prize lists so that everything will be in shape at the next general meeting besides on the date of the fair. On Friday night next a directors meeting will be held, as noted in yesterday's issue, to decide whether the fair will be held this fall or not. It is to be hoped the answer will be in the affirmative.

Twenty Minutes Time Enough?

To Cure the Worst Headache From Any Cause—New Reduction Method.

Most headaches and pains yield instantly to the new Reduction Method—Dr. Shoop's Twenty Minute Headache Cure. The cause for these pains is congestion—a rushing of blood to the nerve centers—which distends the veins to nearly the bursting point. Swollen and enlarged, these veins and capillaries exert an irritating pressure on the myriads of nerve branches and fibres. Then, there's pain, and finally that overpowering, consciousness-loss ache. This new Reduction Method disperses the blood, distributes the overflow, and draws it to the pressure-free channels. In from the nerve centers relief comes from all pressure and irritation—the pains and aches disappear and their cause is removed. You need not nauseate your stomach—you may drug and stupefy the nerves into submission—but the remedy which brings prompt relief and permanent cure will be successful because it reduces the congestion—it must embody the Reduction Method. Medicine has then found a way—simple and sure, yet the only way—to thoroughly overcome these attacks of Headache and Neuralgia. The effect of Dr. Shoop's Twenty Minute Headache Cure is prompt—perfectly suited to all forms of Headache and always positive in every temperament. For sale and recommended by

J. D. TULLY.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor

$50,000 GIVEN AWAY. In copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $50,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only, for book in stiff paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAVERGAL COLLEGE

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowden House calling at the Oriental and National Hotels:

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock, arriving in Peterborough at 8.30; will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning at once for Peterborough.

AFTERNOON— Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. 'Phone 286.

For further information apply to Bruce Lee's Livery, in rear of Snowden House.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

FARM LABORERS' EXCURSIONS

1906

The governments of Manitoba and Saskatchewan report this year an exceptionally good wheat crop, and advise that as many as twenty thousand laborers will be needed during the harvest season. To meet this demand the Canadian Pacific Railway will as usual run FARM LABORERS' EXCURSIONS from Ontario points to Winnipeg, and thence to stations in the west where help is needed. The going dates are:—

AUG. 14 Stations south of, but not including main line, Toronto to Sarnia, including Toronto.

AUG. 17 Main line Toronto to Sarnia and stations north, except north of Cardwell Junction and Toronto on North Bay Section.

AUG. 22 From all points Toronto and east to and including Sharbot Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland Divisions.

Going fare $12, return ticket to starting point for $12 additional, if conditions are complied with.

For full particulars write C. B. FOSTER, D.P.A., C.P.R., 71 Yonge St., Toronto. A postal card will do.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 184 PETERBOROUGH, ONTARIO, THURSDAY, AUGUST 2 1906. PRICE TWO CENTS

British Bowlers Royally Received

The Visitors After Accepting the City's Hospitality on a Steamer Trip Defeat the Local Players by 205 to 123.

Yesterday this city was not only the host of, but in possession of the forty-five Bowlers and ladies from England, Ireland and Scotland, especially, numerically speaking, from the latter.

Our distinguished and sportsmenlike guests, arrived at about five a.m. The visitors remained in their car until about seven o'clock, when they gradually mustered to the Oriental Hotel, their headquarters. From that time on the Old Country people continued to arrive at the hotel until after eight o'clock. Mr. Graham had prepared his hotel for the reception of the bowlers. The rotunda and dining room were handsomely decorated with bunting streamers and flags, while the front of the hotel was gaily bedecked with the same material. Upon the arrival of each visitor he or she, or both, were ushered into the dining room where an appetizing breakfast was served.

Afterwards the visitors were taken charge of by a committee of the local bowling club, who entertained them until about nine o'clock, when the reception committee of the city council entertained them on a trip around the city on the street cars and over the lift lock.

The street car service had arranged for a special train of two cars which quickly took the bowlers to Jackson Park and then to the street car wharf.

The visitors were divided as to their way of spending the morning previous to the lift lock trip.

Some of them looked over the Geo. Matthews packing house, others went to see the, to them, strange sight of some 150,000 logs in the Little Lake.

One party went to see the Cereal Works, the Otonabee River and the first power house and dam just above the bridge. Then they were all very much impressed with the streets of the city.

About nine o'clock, Ald. Mason, the chairman of the reception committee, took charge of the bowlers, and without wishing to hurl bouquets at the local finance minister, the alderman demonstrated his ability to cope successfully with a delicate and onerous position. During all the ceremonies incumbent upon the reception committee, Ald. Mason was there every time and did just what was required to make the visitors trip enjoyable.

About 9.30 the visitors stepped on board the fine str. Water Lily, there was nothing heard but remarks of admiration of Peterborough, and its surrounding country, of the Otonabee river, the Little Lake, etc., but was complimentary.

Everything aboard the Water Lily was done that could have been done to make the bowlers outing a pleasant one.

Among those aboard met by The Times representatives were:

Mr. A McGown was also a Scotchman with a great appreciation of their country.

Mr. D. MacLaughlin, who is a true son of Ireland told The Times that there were "Only five Irishmen in the bunch, of whom three were Scotchmen." The other true representative of Erin was Mr. Chas. Murray.

Major Brown, J.P., wore the Victoria decoration for long service, i.e., 20 years a commissioned officer in the Border Rifles of Scotland. He was at Sedan, France in the Prussian Franco war. The major is a thorough Chamberlain man.

At a few minutes after three o'clock p.m., the bowling green on Aylmer and Brock streets was crowded by bowlers, from Peterborough, Ottawa, Port Hope, Scouffville to play the visitors.

The result by rinks was as follows:

RINKS.

British	Ottawa.
H. Southall	J. Purdy.

In the last rink played Mr. Baillie Watson by a splendid shot won out amid great applause.

The local scores stood visitors 205, Canadians 123, or a victory for the visitors by 82 points.

A DANGEROUS OPERATION

The Brushing of Clothes Causes Much Sickness.

London, August 1.—The use of the clothes brush in the living rooms of a house is emphatically denounced in the current issue of The Lancet as a dangerous practice, likely to lead to disease and death. "The imagination does not require to be stretched very far to realize that the clothes brush might be easily responsible for the dissemination of disease," says the expert journal. "Dust is rarely, if ever, free from micro-organisms, and among them pathogenic entities have been recognized. Dust is, in fact, an enemy of the human race, a vehicle of disease, and should everywhere and on every occasion, however trifling, be prevented as far as means can be employed to that end. Clothes, of course, must be brushed, just as carpets must be beaten; but both processes create a nuisance which is different not in kind but only in degree. Just, therefore, as there are grounds reserved for the beating of carpets, remote, as they should be, from human habitation, so also ought there to be in a household conducted on hygienic lines a special room relegated to the brushing of clothes. The daily clothes have a large capacity and a singular affinity for dust, which may contain the seeds of a common cold or a sore throat, or even of blood poisoning and tetanus, so that the suggestion that the clothes brush should be handled in a less indiscriminate way than is usually the case can hardly be regarded as chimerical."

Charlotte Street Wins Stratton Cup

By Defeating the George St. Team by Three to Two.

Last night a fair-sized crowd of baseball fans, gathered at Riverside Park to see the final game in the Guild League. This game settled the final ownership of the Stratton trophy. Yesterday's game was played for only three innings, as four of this series had been played some time ago as recorded by The Times. In the former four innings the result stood 3—1 in favor of the Charlotte street team. Last night's game resulted in the Charlotte street bunch winning on the total outcome, although George street yesterday on one run, made by Curtis, on an error of the Charlotte street players.

This left the cup with the Charlotte street players on a total of 3—2.

This results finally in Charlotte st. now owning the Stratton Cup.

Following is the line-up of the champion team:

Pitcher—H. Roddy.
Catcher—Lang.
1st base—Heasley.
2nd base—Squires.
Short-stop—N. McWilliams.
3rd base—A. McWilliams.
Left field—Dussy.
Center field—Roddy.
Right field—Ryan.

Lively Session of Local Cheese Board

Yesterday's session of the local cheese board was a record for the season. There were 4,760 boxes as compared with 4,576 boxes for the previous sale two weeks ago. Prices paid ran from 11 5-8c. to 11 11-16c., the bulk going at 11 5-8c. latter figure. Mr. Morton was the heaviest buyer, taking 2,400 boxes.

Whitaker opened the building at 11 cents. Gillespie finally pushed prices to 11 5-8c.

Mr. Gillespie secured the first selection at this figure and took the following:— Keene, Central Smith, Villiers Westwood, Buckhorn and Fleetwood.

The second choice went to Mr. Brendell at 11 11-16. The following lots were taken:

East Emily, Bensfords, Trewern, Mount Pleasant, Cavanville, Crown, Brinkley, Shamrock, 2nd South Burleigh.

Mr. Squires took the next lot at the same price, 11 11-16c. He took the following — Norwood, Melrose Ashby, Ormonde, Oakdale.

The next call went to Mr. Morton at 11 5-8c. The following factories sold — Warsaw, Warminster, Peterborough, Selwyn, Indian River, Young's Point, Maple Leaf, Pine Grove, Cedardale.

Mr. Cook at 11 5-8c. took the following. Blackstock, North Dummer and South Burleigh.

The board adjourned for three weeks.

Struck by an Express.

St. Thomas, August 2.—Frank Leach, a well known horse buyer, while driving across the Pere Marquette tracks was struck by an express and thrown under the train. He miraculously escaped death, but was badly injured in the head, back, shoulders and arms. His horse, valued at over $2,000, had to be shot.

Milkmen in Woodstock.

Woodstock, August 2.—Two city milkmen confessed to the Board of Health that they had used a preservative in milk delivered to customers. A committee was appointed to see the city solicitor with a view to prosecuting the offenders.

JEWS WOULD FORM HOME IN PALESTINE

Mass Meeting in Faneuil Hall Vigorously Applauds Plan for Race Refuge

THEY FEAR PERSECUTION

Would Not Hesitate to Wrest Land From Turks by Force of Arms.

Boston, August 1.—Boston Jews spurned the project of a Hebrew colony in Palestine, and discussed the possibility of the race some day being driven even from the United States, at one of the most significant mass meeting Faneuil Hall ever contained. The applause was not abandoned even when it was announced that to earn a Jewish settlement in the East it might be necessary to wrest the land from the Turks by force of arms. Jewish leaders of national fame were present, including Dr. Friedman, of Columbia University.

Horace M. Kallen presided. The other speakers were Rabbi M. M. Eicher, president of the Zionist conference of Boston; J. de Haas, superintendent of the Young Men's Hebrew Association; Alderman L. J. Bromberg and J. Ellenhorn.

SAYS TIME IS RIPE.

Chairman Kallen said in part:

"The Palestine commission has begun the work of colonizing, and colonies are being settled all over Palestine. The purpose is either to purchase the land, or, failing permission to do that, to wrest it from the Turk by force. Within 10 to 25 years, there will be enough Jews in Palestine, getting their living, to make the country distinctively Jewish."

Alderman Bromberg spoke of the great services rendered by Dr. Herzel to the Zionist cause. "The time is now ripe," continued the speaker, "for this Zionist movement. It is useless to talk of immigration to South America. There is but one place of refuge for the Jew who is oppressed, and that is Palestine. We have large manufacturing establishments in Palestine in successful operation.

FEARS EVEN AMERICA.

"Agriculture is beginning and shipping is becoming prosperous in the chief ports.

"As thousands of our people are sent back every year from the United States we don't know what may happen in the future, and we have only one remedy—Palestine. We want to found there a great republic of the Jewish people."

Dr. Friedman urged that the Zionists should try to re-create not only the national Jewish body, but also the national Jewish soul, so as to provide for those Jews who would always remain scattered.

Chairman Kallen reminded Dr. Friedman that as the body was the precondition of the soul, the Zionists were first taking care of the body with a view to the soul.

Rabbi Eichler replied to a number of objections that had been urged against Zionism, which he characterized as the expression of Jewish discontent and Jewish hope.

J. De Haas also spoke and T. Ellenhorn made the address in Yiddish.

VIGOROUS RESOLUTIONS.

On the motion of Julius Meyer these resolutions were adopted:

"Resolved, that this meeting of Boston Jews and others who sympathize with the Jewish national movement, gathered together in the Cradle of Liberty, urge upon all Zionists to place upon record their conviction that only in the establishment of a legally secured, publicly recognized home in Palestine can any personal help be rendered to the Jewish people. We believe that only failure and disappointment can result from any attempt to establish a Jewish state elsewhere than in the ancient home of the Jewish people, and that constant and increasing trouble must ensue if the Jewish question is allowed to remain in its present most unsatisfactory and dangerous condition. Be it further resolved,

PLEDGED TO PROJECT.

"That we pledge our support to the Zionist movement under the leadership of the actions committee, and call upon every Jew and Jewess for their support; also that a copy of these resolutions be sent to the president of the United States and to the secretary of state."

Companies Declare War.

Moncton, N. B., August 2.—War has been declared between the telephone companies in this province and the first gun was fired today by the New Brunswick Company, of which Hon. A. G. Blair is president, when orders were issued not to accept messages to or from the Central Company. The latter is a new concern, which heretofore has confined its operations to comparatively limited districts, but which is now stringing wires within the New Brunswick Company's field. It is said that Hon. Mr. Emmerson is a stockholder in the Central Company, and evidently the fight between the two companies will be a bitter one.

Toronto's Post Office Site.

Toronto, August 2.—Hon. Charles S. Hyman, Minister of Public Works, was in the city yesterday and called upon Mayor Coatsworth, to talk over the location of the site of the new post office. The minister appeared to think that the property at the southeast corner of Front and Bay streets would be required for the purpose, but he said that until he was provided with the new Union station plans the Government would be absolutely unable to decide upon the location of the Central post office.

A Pretty Wedding At St. Peter's

A pretty wedding was celebrated in St. Peter's cathedral yesterday morning, when Mr. John Francis Cooney of the Toronto post office placed the golden token of matrimony on the finger of Miss Helen M. Lane, youngest daughter of Mr. and Mrs. John Lane, and formerly of the staff of nurses of the St. Michael's Hospital, Toronto, Rev. Dr. O'Brien officiated. Miss M. Doherty played Mendelssohn's wedding march as the bridal company entered the cathedral.

The bride was given away by her brother, Mr. Thomas Lane, and was attractively attired in white point d'esprit over taffeta trimmed with valenciennes lace and insertion. The bridesmaid, Miss Minnie McCormack, of Peterborough, was handsomely gowned in a pink flowered organdie over taffeta.

Miss Kathleen Seager, of Toronto, cousin of the bride, was flower girl, attired in a frock of white silk.

After the ceremony was over the bridal party repaired to the residence of Mrs. J. M. Bain, 943 Water street, where a wedding breakfast was partaken of and hearty congratulations extended to Mr. and Mrs. Cooney.

The happy couple left on the 11.45 train for Port Hope and will spend their honeymoon in Rochester and other American cities.

They will, after the honeymoon's first link has been celebrated, live in Toronto.

W. McKnight Gets Thirty Days

Yesterday afternoon a special session of the police court was held. W. McKnight, defended very ably by Mr. D. O'Connell was charged, as name in Monday's issue of The Times, with having assaulted Policeman McHarry and Newhall on Saturday night. The trial lasted for fully two hours and created much excitement among the large crowd present. County Crown Attorney R. E. Wood carried on the case for the prosecution.

After the various witnesses had given their evidences, Mr. O'Connell made a strong plea for clemency, saying: his client was a local man with a sick father. The magistrate, however, committed McKnight to the county jail for 30 days.

This sentence while light, will probably have a tendency to put an end to the too common hoodlumism in the city.

Banquet to the English Bowlers

Last night a splendid banquet was tendered to the visiting bowlers at the Oriental Hotel. About one hundred and twenty-five sat down to a dinner that in every course, a masterpiece of the caterer's art. The chair was ably filled by Dr. Boucher, a veteran and skilful bowler. After the succulent viands had passed into the department of the interior, speeches, songs and wit aided in making the banquet a feast of reason and a flow of soul.

Local Customs Receipts Increase

By courtesy of the local customs house authorities, we are able to note that the receipts at the Peterborough customs house for the month of July this year show an increase of almost $10,000 over the returns for the corresponding month last year. The figures are:—

July, 1906—$31,535.69.
July, 1905—$22,560.32.
Increase, $8,835.37.

This rapid increase demonstrates the rapidly growing business of this city.

Lone Kickers Aboard Yesterday.

Yesterday the only kickers about the bowlers' reception and entertainment were two gentlemen from East Durham. They said in a good spot on the Water Lily, and passed the time away by discussing "Why Peterborough gets so much and East Durham gets so little."

They discussed, probably unaware that their talk was audible, "How in —— does Peterborough get this lift lock and East Durham nothing?" Their talk then ran in uncomplimentary and unjustified condemnation of Peterborough's M.P.'s.

Mine Fired too Soon, May Save Cronstadt

Desperate Measures Taken There to Prevent Mutiny in Fleet---Telegraph Wires Cut---Still Fighting Hard at Sveaborg.

The "revolutionists'" mine has evidently been fired too soon. The surmise that the mutiny at Sveaborg was part of a military conspiracy turns out to be correct. The plan was one that promised well. Simultaneous risings were to take place at Sveaborg, Cronstadt, and Sebastapol, with the object of placing these three great fortresses in revolutionary hands. No doubt the Black Sea and Baltic fleets were expected to co-operate. An unfortunate incident at Sveaborg appears to have precipitated matters and disclosed the whole daring project. Prompt action has been taken at Cronstadt, and before the disaffected sailors and troops here could accomplish much, the breechblocks from the guns of some of the warships were removed, and troops put on board others to overawe the rebelliously inclined. Communication by wire between Cronstad and St. Petersburg has been severed by the revolutionists, and the world is left to speculate whether the scenes at Sveaborg are being repeated there. Certainly a large portion of the garrison is in sympathy with the popular cause. A stock exchange report says the crews of four ironclads at Sveaborg have mutinied, and are prepared to go to Cronstadt.

A master stroke which promised to do much for the cause of liberty in Russia is in great danger of absolute failure by the precipitancy of Sveaborg.

St. Petersburg, Aug. 2.—Cronstadt is cut off from communication with St. Petersburg, both the telephone and telegraph lines were severed during the night.

Helsingfors, Finland, Aug. 2—The news of the revolt here caused the greatest excitement at Cronstadt, especially in view of the report that a mutiny of the crews of warships was proceeding at Cronstadt, and that the revolutionists were working hard to persuade the troops at Cronstadt to mutiny and refuse to fire on the warships. Precautions were hastily taken by the authorities at Cronstadt. The breech blocks of the guns on board some of the warships were removed, while detachments of troops were sent on board other ships.

Helsingfors, Finland, Aug. 2, 2 p.m. —A heavy cannonading is in progress at Sveaborg, showing that the fight for the possession of the main fortification is still in progress. It is impossible from the shore to ascertain the exact situation.

The only reinforcements which have arrived here are two companies of the Finnish Regiment which came yesterday. General Baron Sahras, commander of the second army corps is on his way here from Villmanstrand.

Helsingfors, Finland, Aug. 2.—The damage to the branch line to Viborg has been repaired, and reinforcements of troops are arriving here. It is hoped that the mutiny on the fortress islands will soon be quelled. In response to the call for a general strike, only the employes of private factories have gone out.

St. Petersburg, Aug. 2. — Telephone communication with Cronstad has been restored, and at eight o'clock yesterday evening a telephone message to the associated press announced that no disturbance had occurred there during the day.

Canadians Should Guarantee Purity

High Reputation of Our Goods Would be Enchanced by More Thorough Inspection.

London, Aug. 2.—Referring to the Montreal exporter advocating a more stringent inspection of butter and cheese manufacture, the Newcastle Daily Chronicle says Canadian goods have, and deservedly, a high reputation in this country, and their reputation would be enhanced if Canadian manufacturers would show themselves willing to submit to a system which shall guarantee the purity of their goods.

The Globe referring to Earl Grey's visit to Newfoundland, says: "Were Newfoundland incorporated in the Dominion, the advantages accruing to her, would be problematic, especially since the whole trend of Canadian development has drawn more and more weight into the Western Provinces.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Following are the results of the games played in the Eastern League yesterday,

Toronto 2, Rochester 4; Toronto 1, Rochester 6.
Montreal 4, Buffalo 3.
Providence 3, Newark 4.
Jersey City v. Baltimore, rain.

LACROSSE.

The lacrosse boys' excursion to Lindsay this afternoon should be well patronized.

• • • •

Lacrosse boys' excursion to Sedgewille. Come one, come all, and enjoy yourselves.

• • • •

There were ten Peterborough players figuring on outside C.L.A. teams yesterday.

• • • •

It now looks like Orillia and the Shamrocks of Toronto Junction for the intermediate C.L.A. finals.

• • • •

YACHTING.

A meeting of the Chemong Park Yacht Club will be held in the club house this evening at 8.30 o'clock. All interested are requested to attend.

—Why is it that the lights in Victoria Park have not been turned on for several nights. We understand that it is the duty of the police to attend to this matter.

Former Peterboro Man Married.

The Toronto World of yesterday, contains a marriage notice that is of local interest. Mr. J. W. R. Fairweather, who for many years, carried on the hat and fur business, now controlled by Messrs T. Barrie & Co., has joined the great army of Benedicts. The Times wishes Mr. Fairweather every happiness in his new state of life. Mr. Fairweather's bride was Mrs. Marguerite Tallmadge-Kielly, and the marriage was celebrated in Montreal on July 30.

Fell Out of Boat and Drowned.

Trenton, August 2.—George Stewart, 18 years old, was drowned, here on Monday. While in a boat with two other boys he stood up, lost his balance, and fell overboard. The other boys were unable to afofr him any assistance.

This Woman Wanted to Catch a Train

Pushed Motorman Aside and Ran Car at Full Speed Till She was Overpowered.

Chicago, Aug. 1.—Passengers on a south-bound Halsted street car were badly frightened yesterday, when a woman pushed the motorman from the front platform and ran the car at high speed for nearly a mile. No stops were made for passengers to get on or off, and the car collided with coal wagons, and other vehicles along the route. Several women in the car, thinking an insane person was at the lever, became hysterical, and had to be held by the male passengers to prevent them from leaping to the street.

The woman who caused the terror and excitement was Mrs. S. H. Chidester, of Evergreen Park, 14 miles southwest of Chicago. She wanted to catch a train at the Halsted and 49th street station, and for that reason took possession of the car. The conductor, assisted by several men passengers, overpowered her after she had run the car six blocks and took her to a police station. She convinced the police that she was not insane and was released.

Woman Seized Car Causing a Panic

Chicago, August 1.—Passengers on a south bound Halstead street car were badly frightened yesterday when a woman pushed the motorman from the front platform and ran the car at high speed for nearly a mile. No stops were made for passengers to get on or off and the car collided with coal waggons and other vehicles along the route.

Several women in the car, thinking an insane person was at the lever became hysterical and had to be held by the male passengers to prevent them from leaping to the street.

The woman who caused the terror and excitement was Mrs. S. H. Chidester, of Evergreen Park, fourteen miles southwest of Chicago. She wanted to catch a train at the Halsted and 49th street station, and for that reason took possession of the car.

The conductor, assisted by several men passengers, overpowered her after she had run the car six blocks and took her to a police station. She convinced the police that she was not insane and was released.

Another Party of U. S. Journalists

Winnipeg, August 2.—During the next few days another large party of American journalists will pass through this city en route to the wheat fields. This time it is the Pennsylvania Editorial Association with some 200 of its members. They will reach this city in a day or two and will go west as far as the Pacific coast, returning to Toronto by August 16.

The benefits to be reaped by the Canadian North-West through this trip are untold, the members of the association representing the farming districts in the very territory where Canada needs the most advertising.

Wages Too Small for Englishmen.

London, August 2.—A clergyman and others have written to the Daily Mail in regard to the cheap rates to Canada for harvesters. They say the wages at best only pay expenses, and the lower scale leaves the immigrant £6 out of pocket. A returned immigrant says he left hundreds of men in Ontario and Winnipeg anxious to get home.

A Man Who Wanted

To sell OATS for human food got cross because people bought

Grape-Nuts

So he told them in the papers to avoid the famous pre-digested food for it didnt give the stomach exercise and from the lack of hard work it would gradually get weaker.

Surely this is a "husky" one, this oats man. "Make the stomach work" he says. By the same token why not drop in a few beans or black walnuts with bulls on.

The trouble is that people eat too much and of indigestible food. So the poor old stomach works as hard as it can and considerable overtime until it lies down like a tired horse.

Then it needs food easy to digest; give it a chance to recover. It is good hard sense to go a bit easy with the stomach and, even in health, before it gives out, use wisely selected food easy to digest. That's

Grape-Nuts

"There's a Reason."

PRINTERS OBJECT TO PAY

Ottawa Typos may Withdraw from the International Union on Account of Strike Assessment.

Ottawa, August 2.—The majority of the members of the Typographical Union of Ottawa have come to the conclusion that the ten per cent. tax imposed upon the Canadian Unions by the International Union is altogether too much.

At a meeting of the Union the view was expressed that it was no use going on paying this strike tax indefinitely, and by a large majority a resolution conveying this opinion was passed. It was agreed to offer five per cent., or half the present rate.

The resolution was opposed by the executive, and when it passed the members of the executive walked out in a body.

The Union then passed a resolution wiping out all indebtedness. It seems that some members are in arrears with these particular payments. However, the Union agreed that if the International Union would allow them to go in on the half basis this payment would be made compulsory.

If the International Union does not accept this proposal the local Union will withdraw its charter, and so forthcoming events promise to be very interesting.

HOW CONSTMPTION STARTS

Tired When You Waken—Languid All Day—Nerves Worn Out—Snap All Gone.

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up. Then you catch tuberculosis.

Start today. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and rounding, joyous health is firmly established.

This is certain—Ferrozone restores failing strength from any cause. The experience of Mr. Thos Dowd, of Mehrelber, Ont., proves this.

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In tin boxes only, six for $2.50, at all dealers, or N. C. Poison & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBORO, JULY 31 1906

THE FOLLY OF DROWNING

The Ottawa Journal has an article on the above subject, which appears to be to the point. Our contemporary says that rank folly attaches to the ordinary summer drowning. It seems such a useless, such a foolish death, a death which might have been so easily avoided that we wonder how it is there are so many victims. It were harsh to say that the victim usually deserves his fate, but it is not too much to say that if he had exercised the barest common sense, taken the first human caution, he would have spared the ones left behind the poignant anguish which drowning in some peculiar way of its own, but invariably brings to the sorrowing relatives.

So far as swimming accidents reported this summer are concerned they were due either to a lack of knowledge of the art of swimming or to the recklessness or insufficient strength of persons who, knowing how to swim, took unnecessary risks and put a needless tax on their powers. In view of the large annual sacrifice of life in this way it is deplorable that people, and especially residents of river and lake towns, do not more generally recognize the fact that swimming, so far from being a mere accomplishment, should be considered a necessary part of the education of every physically capable boy or girl. Even a little ability in that direction is important, since it may mean confidence and self-possession at a critical moment. For those who have a fondness for aquatic sports a thorough mastery of the art and of the various expedients of saving one's strength and remaining afloat when exhausted is indispensable.

Those who can't swim should stay out of deep water.

Those who can should not overtax their strength.

Children of tender years, whether they can swim or not, should not be allowed to play near deep water unless they are accompanied by adults who not only can swim, but know something of the arts of rescue, diving and resuscitation.

People who can't swim should shun small craft and content themselves with the large steamers or the firm dry land.

The chief moral is that everyone should learn to swim.

Canada Was Firm.

London, Aug. 2.—Answering a question of the Marquis of Hamilton yesterday, Postmaster Buxton said the Canadian Government had most recently decided to abandon Moville as a part of call for Canadian mail steamers. That determination was come to after a strong protest on the part of the British Government against the change. He regretted the decision of the Dominion Government.

JOHN D. ROCKEFELLER HAS THE JOY OF LIVING

But Says Cruel Things Said of Him Sometimes Hurt.

New York, Aug. 1. — Yesterday's World says: "John D. Rockefeller never was in better humor than when he left Tarrytown for Cleveland at six o'clock last evening, after having given one of the longest interviews he is known to have uttered.

"Sometimes things said of me are cruel, and they hurt, but I am never of a pessimist," he said, "a certain writer who visited his Pocantico estate. "I believe in man, and in the brotherhood of men, and am confident that everything will come out for the good of all in the end. You are just a young man, but you can take my word, I am older than you, and have seen the world; you can always believe in real men.

"As for Europe—well, it is nice to, I love my own country the best. Yes, all the hard things that one's countrymen say of me can never be cruel enough to offset love of home and country."

After a moment he added: "Now, remember, young man, I bear no ill will to any man. I am confident that there is more good than bad in the world, and I am full of the joy of living. I believe in men. Do that, and the world is bound to seem a good world to you. Be as persistent in all things as you have been in getting to me, and you will always win.

POVERTY CONSTRAINED HIM

Lacking Funds, Embezzler, After Twelve Months, Declares Himself to the Police.

Paterson, N.J., July 31.—William H Belcher, former mayor of this city, returned here early yesterday, and surrendered himself to the night warden of the county jail.

Belcher was forced by his poverty to give himself up. He had been in New York for several days. He declares he had no means with which to make restitution of the funds which he is alleged to have obtained before he fled from the city, and that he was back to answer the charges against him.

Belcher has been missing since August 1, 1905. At the time he left Paterson a few of his closest friends were ready to draw him out of financial difficulties.

They did not know then that Belcher's embezzlement amounted to nearly $150,000. The Manchester Building and Loan Association, of which he was president, was wrecked by his operations. George W. Allee, who was secretary of the association, was recently sentenced to 4 years imprisonment in connection with the steal ings that put the association out of business. He always claimed that he had been involved through Belcher's transactions.

Dr. Shoop's Rheumatic Remedy—when used faithfully will reach chronic and difficult cases heretofore regarded as incurable by physicians and is the most reliable prescription known, to clean out and completely remove every vestige of rheumatic poison from the blood. Sold by J. D. Tully.

Bell Telephones' New Cable.

Kingston, Ont., July 31.—The Bell Telephone Company is making connections on Wolfe Island with a new cable to run under the St. Lawrence River from Cape Vincent by the Central New York Telephone and Telegraph Company. The cable, a mile long, and weighing 18 tons, is one of the longest the company has ever handled. Heretofore, to reach Watertown, Cape Vincent, etc., connection had to be made by way of Prescott and proved unsatisfactory owing to delays double connections and induction.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 3.50 and 7.15 a.m., 7.15 and 8.41 p.m. Tickets allow stop-over at Philadelphia. MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner.

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 10 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

interview terminated. With the chivalric courtesy of that period, he dropped upon one knee, raised her hand to his lips, arose, bowed and retired.

As soon as she was left alone, Lady Etheridge rang a bell and summoned the little page to inquire if the carriage was ready. Being answered in the affirmative, she said:

"Tell Mrs. Maberly, then, to bring me a dark bonnet, shawl and gloves to this room. I am going out."

When the page withdrew to obey, Lady Etheridge sauntered toward the bay window, saying:

"Come, my dear, I will not detain you any longer."

There was no reply; but on pushing aside the curtains Lady Etheridge found Rose stretched in a swoon upon the floor.

"Good Heaven! how has this happened? Ah, I see, she has had a long walk and probably a long fast, and she looks very delicate. I should have offered her refreshments. How very thoughtless of me not to have done so," exclaimed Lady Etheridge, hurrying to ring, just as Mrs. Maberly entered the room.

"Ah, Mrs. Maberly—here is this poor child fainting from exhaustion; pray, hasten, and bring hartshorn and a glass of wine," said her ladyship, going back to the swooning girl and raising her fair head, and beginning to chafe her hands.

Presently Mrs. Maberly returned with restoratives, and took her lady's place by the fainting girl, and succeeded in bringing her to consciousness. Rose opened her eyes and gazed around with a stony stare.

"Poor child, you fainted with exhaustion. You have overtasked your strength. Here, drink this wine; presently you will swallow a piece of biscuit," said Lady Etheridge, as she held the glass to her lips.

Rose mechanically swallowed a little wine, and then gazed around the room again, and passed her hands thoughtfully across her brow, as though trying to dispel some illusion and collect her faculties. Then perfect memory returned, a rush of indignant blood dyed her face with blushes, she made an effort, arose, and stood upon her feet.

"You feel better now, my child?" said the young baroness.

"Yes, my lady, much better," she answered, steadily.

"You must not overtask your strength so again, my child."

"I will not, my lady. I am quite ready to attend you."

"You do not look nor speak quite right yet, my dear; you had better rest a little longer."

"I prefer to go now, if you please, my lady."

"Indeed, if we were not going to the sick-bed of your mother, you should not leave the castle to-night," said Lady Etheridge.

Mrs. Maberly then brought her lady's bonnet and shawl, arranged them upon her lady's graceful person, and handed her gloves, and in a few moments they left the room and entered the close carriage to drive to the village.

CHAPTER IV.

It was by a soft moonlight that Lady Etheridge entered the street leading to Nurse Elmer's house. The street was very still; for it was the hour at which the hard-working inhabitants usually retired to rest. Lady Etheridge was glad of this; for, idol of the neighborhood as she was, she could scarcely have appeared in the village streets without eliciting some well-meant but annoying demonstration of regard from the people.

The carriage drew up before the humble, almost squalid habitation of the laundress, and Lady Etheridge alighted, saying in dismay and sorrow:

"This is the house of my old nurse! This should never have been, and shall no longer be, her only refuge. She shall henceforth dwell in ease and comfort, please Heaven!"

"Lady Etheridge, you know not what a day, an hour, may bring forth!" spoke a sepulchral voice within the house.

With a shudder of vague alarm, the baroness crossed the threshold and entered the house, followed by Rose. It remained just as Rose had left it five hours before. A smouldering fire in the grate and a flaring lamp on the chimney piece lurkily lighted up the scene. But the woman, Magdalene Elmer, had left the chair and lay extended upon the bed, attended by a neighbor.

"Come hither, Lady Etheridge!" spoke the same sepulchral voice, in a tone of command at strange variance with the relative positions of the speaker and the person spoken to.

The baroness, amazed and wondering, approached the darkest corner of the room, in which the curtained bedstead stood.

The woman in attendance rose and relinquished her seat to the lady.

"And now, Mrs. Martin, take Rose home with you for an hour, for what I have to communicate to this lady must be heard by herself only."

The neighbor, in silent wonder, beckoned Rose, and both left the house.

Lady Etheridge was alone with the strange woman who had summoned her.

Magdalene Elmer raised herself in bed, and put aside the dark curtains, so that the light of the lamp shone full upon her own emaciated face and figure, as well as upon the stately form of the baroness sitting near.

"Now look me in the face, Lady Etheridge."

The baroness raised her own large, luminous, dark gray eyes to meet the fierce, burning, dilated orbs of the woman, and felt a strange, painful, electric thrill shake her whole frame.

"Oh, pray do not look at me so! it distresses me and can do you no good," said the baroness, shuddering.

"Lady Etheridge, you would be astonished were I to address you by any other title than that you now bear, would you not?"

The baroness looked at the speaker inquiringly, and did not answer.

"Or if not astonished, you would only be distressed at the supposed hallucination of your old nurse; therefore, as yet, I shall only call you by the name to which you have been accustomed."

The baroness could only look and listen intently, being unable to conjecture to what the strange words of the woman tended, if, indeed, they tended to anything.

"Lady Etheridge, what sort of an education have you received?—oh, I do not mean as to the polite branches, for I know well that you have had all sorts of masters and mistresses for every art and science that is deemed necessary to the training of a young lady of quality—but I mean to ask you have you received the education that fits, that strengthens, that prepares you to meet trial, sorrow, and adversity; for these are the lot of all; must sooner or later come to every one, even to you, who are styled the Baroness Etheridge, of Swinburne?"

And here the woman paused, fixing her wild, mournful eyes intently upon the face of the baroness.

"There is something behind your words, woman," said Lady Etheridge. "What it is you have to tell me I cannot imagine."

"I have a story to tell you, Lady Etheridge, and I had best begin at the beginning; but first pour me a little wine from that bottle on the chimney piece."

Lady Etheridge complied, and when Magdalene Elmer had drunk a glassful, she drew a deep breath, and commenced her story.

"Lady Etheridge, my father was the game-keeper at Swinburne Chase, as his father and grandfather had been."

[To be continued]

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

A Whistler One.

Of Whistler, the famous painter, an artist said:

"Mr. Whistler had been poor himself, and he saw nothing shameful or dishonorable in poverty. If you were poor as we would mock without pity your destitution.

"I knew and admired Whistler in the early days of my career in Paris. We lived luxuriously. I lived in a garret. Though he liked me none the less for that, he did not permit any false delicacy to keep him from joking me about my poorhouse ways.

"One day, in a very shabby suit, I was strolling on the Boulevard des Italiens when some one hailed me from the rear. I turned and saw Whistler hastening toward me in his tall hat and his lemon-colored gloves, waving his long black cane.

"'Ah,' said I, rather flattered, 'so you recognized me from behind, did you, master?'

"'Yes,' said Mr. Whistler, laughing maliciously, 'I spied you through a hole in your coat.'"

Picture Frames.

The most effective picture frames, except when oil paintings are in question, match the woodwork of the room in which they hang. Dull gold frames, very unobtrusive, are liked when the woodwork happens to be white enamel. At all events, it is no longer permissible to crowd all sorts of frames in one room. A uniformity of some sort is decidedly indicated.

Baked Apples.

A Pennsylvania housewife cooks her "baked apples" on top of the stove. She cores them and places them in a covered pan with enough water to prevent them from burning. She then lets them cook until partly done, sprinkles them with sugar and cinnamon and puts them in the oven to finish cooking. This is a good method for the busy housewife.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

Vanguard Mining & Extraction COMPANY

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty at 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 26 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL. FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $450,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Do You Seek Health?

Consult Dr. Hamilton And You Will Be Shown the Way.

Thousands are in the same boat — all sickly, bilious and feeling far from well.

Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness arrives you should cleanse and purify the system with Dr. Hamilton's Pills.

At once you'll feel their mighty influence building up weak spots, clearing out disease, and putting you again on your feet.

These purely vegetable pills change your tired, worn-out condition to one of health and vigor, because they supply the body with nourishing blood that builds up and enlivens the entire system.

Mr. John Whitley, of Stanwood, P O., Ont., knows the merit of Dr. Hamilton's Pills, and says: "I wouldn't be alive today had it not been for Dr. Hamilton's Pills. Last winter I was sick with grippe, and when spring came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times, but I didn't get any help till I tried Dr. Hamilton's Pills. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my appetite. The bilious attacks and rheumatic pains gradually departed, and Dr. Hamilton's Pills made a new man of me. I proved their merit, and proclaim them a medicine for all men."

If better health and prompt recovery are important, get Dr. Hamilton's Pills of Mandrake and Butternut today. At all dealers, 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

General Servant Wanted.

A good general servant wanted at once, to whom the highest wages will be paid. Apply to Mrs. (Dr.) Bradd, 305 Stewart street.

Wanted.

Attractive young lady, good talker to solicit advertising. Capable person can earn from $20 to $50 weekly. Permanent position. Address at once, "Advertising," Times Office.

Night Clerk Wanted.

Wanted at once for Oriental Hotel, night clerk. Apply at Hotel.

Excursionists From Cobourg Here.

Yesterday about 150 residents of Cobourg spent the day in the city. They came in on a special train from that ancient burg, carrying an excursion from the Cobourg Methodist church Sunday school. There were about 400 on board and the remainder of them went on to Lakefield and thence back to the lakes on the fine steamer Stony Lake.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS

542 Water Street

or P. O. Box 831, city.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY JAN. 2, 1906

Intending students should make application as soon as possible.

Call at the College or address

WM PRINGLE,

Opposite Post Office, Principal.

SOCIAL AND PERSONAL

—Mr. H. O. Dennis of Cobourg is in the city.

—Miss F. Smith of Bobcaygeon is visiting friends in the city.

—Miss Jean Parke of Bobcaygeon is visiting friends in the city.

—Mr. H. Kelson of London, Eng., is a guest at the Showden House.

—Mr. W. S. Green, reeve of Millbrook, was in the city yesterday.

—Mr. Ed. Flaherty of Peterborough was in town today.—Lindsay Post.

—Mr. J. A. Williamson and wife of Lindsay are spending a few days in the city.

—Miss H. Miller, Harvey street, left yesterday to spend her vacation in Cleveland, O.

—Mrs. R. W. Grubbe, who has been the guest of Mrs. Orde, of Toronto, has returned home.

—Rev. John Edmison, of Cheltenham, will arrive in the city today to spend his holidays.

—Mr. Pat. Barr, a well known base ball enthusiast of Cobourg, was in the city yesterday.

—Mr. T. H. Hooper and son left yesterday for Rochester, N.Y., where they will spend a few days.

—Dr. and Mrs. Greer and family who have been holidaying at Gores Landing have returned home.

—Mr. A. H. Matheson, teller in the local branch of the Bank of Ottawa, left yesterday to spend his holidays at Chemong and Stony Lake.

A Large Lumber Deal Consummated

Mr. W. D. Lummis, president of the Cavendish Lumber Co. of Lakefield and general manager of the Sarnia Bay Lumber, Timber and Salt Co. of Sarnia, has with Mr. John Ferguson of Renfrew, president of the latter company, and Mr. J. J. McFadden of Sault Ste. Marie, the vice-president, sold to Holland & Graves of Byng Inlet the timber limits in five townships, each containing thirty-six square miles or 180 square miles in all.

The price paid was about $1,500,000. The townships are Hyman, Porter, Totten, Vernon and Berth No. 91, and they are located about 12 miles from Nairn Center station, on the Sault branch of the Canadian Pacific. The limit is said to be the best block of pine on the north shore limits.

Lacrosse Team to Play in Lindsay

The executive of the Shamrock Lacrosse Club have selected the twelve which will go to Lindsay and represent the locals this afternoon in their game with Oshawa. This contest will decide the tie.

The contest between these two teams should be a fast one. They are counted on by the ones who know, as the fastest twelves in the junior C.L.A.

The boys will go up on the special train which leaves here at 2 o'clock this afternoon.

The team will line-up as follows:

Goal—Gilman.
Point—White.
Cover—Devlin, capt.
1st defence—Doris.
2nd defence—Dusty.
3rd defence—Feeney.
Center—Tucker.
3rd home—J. McNichol.
2nd home—Saunders.
1st home—Bassett.
Outside home—Jack McNichol.
Inside home—Dobson.

On Thursday Afternoons the Auto-bus will leave the Snowden House at 2 o'clock P.M. and on Saturdays at 2.30. This is a good chance for those wanting a few hours at the Lake to get in early by Bus leaving Chemong at 7.30.

Another Pleasure Boat Here.

A new addition to the fleet of pleasure craft on Stony Lake, and adjoining waters, has now been placed in the house boat, "Elizabeth," owned by G. M. Hamilton, of Peterborough, built at Bobcaygeon, which is 74 feet by 16 feet, with only 9 inch draught, and has cabin with upper deck and hurricane deck. The boat is in charge of Captain Maurice Kane, one of the veteran officers of the inland waters.

Another Dog Poisoned.

Yesterday Mr. Ernie Wasson's white bull dog, an animal highly prized by his owner, passed into the sweet subsequently. The dog must have secured the poison in the back yard at Mr. Wasson's home, for he was not off the premises Tuesday evening. When discovered by Mr Wasson about nine o'clock, the dog was suffering, and his master at once brought him to a veterinary surgeon. The strychnine had got to its deadly work, however, and the Bowwow died shortly afterwards. The dog was a highly prized one, and that he should have met his fate in this manner is the worst part of it.

It looks as if the dog poisoner is commencing another campaign.

Custom House Improvements.

Change but no decay is noticeable in the local custom house. Contractor Sheehy has a gang of men at work making operations. When completed the improvements will add greatly to the convenience of both the officials and public.

Local Cheese Board Represented.

The local cheese board will send two delegates to a meeting to be held at Brockville, August 17th. The meeting has been called by Mr. Ruddick, Dominion Dairy Commissioner, and among the things to be discussed are the appointment of an official referee for cheese and butter at Montreal, and the sale of cheese in three grades instead of two as at present.

LOCAL INCIDENTS

By The Times Man on the Street

—The Chemong junior regatta will be held this afternoon.

—A meeting of the Grand Lodge committees will be held in the I.O.

—The 57th Regt. Band under charge of Prof Glidden, played at Jackson Park last night.

—Stouffville and Oshawa teams were late for the trip over the lift lock, their train only getting here at 12.

—The whole front of the R. Neill boot and shoe store is now undergoing renovation at the hands of the painters and decorators.—Lindsay Post.

—Mr. J. E. Haggart, contractor, accompanied by Mr. Charles Butcher, went up to Clear Lake yesterday where they will construct a cottage for Mr. E. A. Peck.

—Mr. Wm. Dwyer, foreman for the Peterborough Lumber Company, with his gang of men and cookery, are at Little Lake, assisting in sorting up the company's logs there.

—The Knights of Columbus of Peterborough and Lindsay will hold an excursion today to Kirkfield from Lindsay. About seventy-five members from Peterborough Council will leave on the 7.20 train this morning.

—Dr. Young has now got his new gasoline launch at Chemong Lake. It is a handsome 18-footer, with a two-horse power engine, and a carrying capacity of 14. It was made by the Peterborough Canoe Co. and is a valuable addition to the fleet already at Chemong.

A Local Firm Rushed With Orders

The Peterborough Show Case Co. yesterday placed a plate glass window in Mr. J. M. Donovan's grocery store, corner McDonnel and Aylmer streets. The addition adds much to the appearance of the store, and the work was well done.

The contracting firm expects to be in its new factory on Dublin St. in a few weeks' time. The brick work is now almost completed, and the carpenters will soon be able to commence work on the interior. The concern is rushed with orders.

A Park Peddler Kicks.

Last night a Times representative was talking with one of those who sell goods at Jackson and Victoria parks. This vendor of what the public wants at the parks, complained that irresponsible boys go out there with a few cents worth of goods and make several dollars. He said he was quite willing to pay a reasonable amount for a license, and most competition on equitable lines. It seems that according to this vendor's report that many peddlers are doing business without obeying the city regulations regarding licenses. If one or two peddlers were given a license, it would thus be a lot of annoyance to those taking in the parks and regulate the sale of goods, as well as helping the city's revenue.

Local Cop Shoots a Dog.

Yesterday morning a local copper had to execute a dog that had not had its license paid. The officer drew a bead on the canine. Bing! And the dog really smiled. Bing! And the dog audibly laughed. However the officer took a third shot, and as the dog winked at another of his kind, the copper happened to see a lady he knew across the street, and whilst looking at her fired a third shot. This shot, hit the dog, which has since received sepulture.

Mr. Brooks to Hold Sale.

Mr. J. M. Brooks, proprietor of the Palace Hotel, which closed its doors yesterday, will on Saturday afternoon hold a sale of the pictures, glass and china and other articles. This will doubtless attract a very large crowd. Among the goods to be offered for sale are some magnificent moose and elk heads and antlers that are worth fully $200 each.

The Merry-Go-Round Gone.

Yesterday the "Merry-go-round" at Jackson Park like the proverbial Arab, folded up its tent and stipped away. The fall fairs now coming on are doubtless greater employers of such an attraction, as in the park that confines its large crowds to an hour or two daily.

LITTLE POCKET PHYSICIAN

Hyomei Inhaler that Never Fails to Cure Catarrh.

Thousands who have been cured by Hyomei, call the inhaler that comes with every outfit "The little pocket physician," as it is so small that it can be carried in the pocket or purse.

Prior to the discovery of Hyomei, statistics showed that at least 97 out of every 100 persons in this state were suffering from catarrh in some form. The remarkable results following the use of Hyomei are shown by the smaller percentage today of people suffering from catarrh.

A complete Hyomei outfit consists of "the little pocket physician," a medicine dropper, and a bottle of Hyomei, and costs only $1, while additional bottles of Hyomei can be procured for 50 cents, making it the most economical, as well as the most reliable treatment for the cure of catarrh.

Do not delay longer the use of Hyomei, if you have catarrh. This is a purely local disease, and Hyomei goes right to the spot where the catarrhal germs are present, destroys them, soothes and heals all inflammation, and makes a permanent and lasting cure.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

HAVERGAL COLLEGE

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, L.L.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowden House calling at the Oriental and National Hotels:

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock, arriving in Peterborough at 8.30; will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning at once for Peterborough.

AFTERNOON— Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. 'Phone 280.

For further information apply to Bruce Lee's Livery, in rear of Snowden House.

Department of Railways and Canals, Canada

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 185 PETERBOROUGH, ONTARIO, FRIDAY, AUGUST 3, 1906. PRICE TWO CENTS

The Fair will be Held This Fall

It Was Decided at a Meeting Held at the Munro House Last Night to Hold a Peterboro Fair This Year.

Last night a few gentlemen interested in holding Peterborough's attractive autumnal exhibition, gathered at the Munro House at 8.30.

Those present were; Messrs. H. C. Winch, Reg. Fair, Ald. Elliott, R. J. Munro, Dawson Kennedy, Sec'y F. Hall, F. Dobbin, E. M. Elliott, H. Nesbitt, C. H. Clementi, and J. H. Gardner.

An informal discussion was held before the regular meeting opened up, as to whether the fair should be held or not. Ald. Elliott suggested that should the fair be put off this year and reestablished next season, we might get two years' grant from the government as was done by the township of Harvey.

Mr Dobbin said that to retain the government grant it is necessary to deposit the membership fee of $80, and get the local fair kept on the government grant, as the government grant is not made to the exhibition, but to the agricultural society.

At 9.45 those present adjourned to the parlor where Mr. E. M. Elliott, 2nd vice president, took the chair.

It was moved by Mr. Winch that we hold a two-day fair.—Carried.

Mr. Fair noted that Mr. H. Le Brun should be asked to take an active interest on the executive committee.

A committee to revise the prize list was appointed with power to act.

The executive committee was nominated as follows; Messrs. H. C. Winch, Geo. Elliott, R. J. Munro, J. Garbutt, and Eardley-Wilmott.

The printing committee are Messrs. Larmouth and Dobbin.

Mr. Winch will be superintendent. The other committees will be appointed by the executive committee.

It was decided to ask Hon. Mr. Whitney, Premier of Ontario to open the fair. Mr. Munro opposed naming any time by opening ceremonies, it being only a two days' fair.

The date was no settled on at last night's meeting, but will be decided today.

Corrected List of the Events

What will be Done at Stony Lake Regatta.

It seems that the list of events for Stony Lake regatta as given some days ago in the local press has some errors therein. The 14-ft. dinghy sailing class was left out.

The official program as now definitely decided upon is as follows:

1. Dinghy sailing race, 14 feet and under—1st prize, silk flag, 2nd prize, Kawartha Lake flag.
2. Open sailing race.—1st prize, silk flag to be competed for yearly at regatta of winner of previous year.
3. Canoe sailing race—1st prize, Stony Lake pennant.
4. Boys' tandem canoe, 15 years and under.—1st and 2nd prizes.
5. Ladies' single skiff. — 1st and 2nd prizes.
6. Tilting tournament, three or more to enter.
7. Men's swimming race—1st and 2nd prizes.
8. Upset race, 1st and 2nd prizes.
9. Duck race, 1st and 2nd prizes.
10. Ladies' swimming race. — 1st and 2nd prizes.
11. Men's single canoe, championship of Stony Lake.
12. Punt race.
13—Ladies' tandem canoe.
14.—Boys' tandem canoe.
15. Men's fours canoe.
16. Ladies' single canoe.
17. Men's tandem canoe.
18. Indian canoe, three or more to enter.
19. Men's double skiff.

All entries must be in to the secretary, Mr. Kempson, not later than August 15th.

The members of the regatta committee are;

Hon. Lawrence Graham, chairman; Mr. J. S. Kingman, Mr. J. Henderson, Mr. R. B. Rogers, Mr. F. L. Collins

Starters—Hon. L. Graham, Mr. R. B. Rogers.

Judges—Mr. A. L. Davis, Mr. L. Graham, Mr. R. B. Rogers, Mr. L. Henderson.

Races to commence at 1.30 p.m. sharp.

Street Railway for Fort William.

Fort William, August 3.—Fort William Council decided to secure a company to operate an electric street railway through the town.

Wasted Lives In Peterboro

Men and Women Who Are in Need of a Helping Hand.

It is hard for those who are never ill, or who have simply a sick day or week occasionally, to realize the wretched existence and wasted lives of those beset with chronic indigestion.

There is no more irritating or nerve-racking condition than that caused by a weak stomach. It gnaws and wears upon every nerve fibre in the body and results in sleeplessness, headache, backaches, rheumatic pains, furred tongue, distress after eating, poor appetite and general weakness and debility.

As we may look to a weakened stomach for most of the chronic or lingering ills that weaken and rack our lives, it is of the greatest importance to know that a remedy for stomach troubles is at last offered by the reliable drug firms in Peterboro.

Knowing the formula of Mi-o-na, we feel that it will be successful in every case where it is used in accordance with directions, that is, one tablet before each meal.

A large box of Mi-o-na tablets costs but 50 cents, if it helps you, nothing unless it restores health.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

Millions for Rolling Stock

Fifteen Millions of Dollars for That Purpose.

Montreal, August 3.—At a meeting of the shareholders of the Grand Trunk Pacific, presided over by Mr. Charles M. Hays, president, it was fully decided that at least fifteen million dollars are to be spent by the G. T. P. within the next year or two on the construction of rolling stock.

This decision is the fulfilment made by the Grand Trunk Pacific with the Government of an agreement by which it agrees to purchase at least $35,000,000 worth of rolling stock to equip the road.

The power given at last session of Parliament to the G. T. P. to issue debenture stock to the extent of the above sum, in addition to the stock previously authorized in the company's charter, will be taken advantage of. Stock will be issued, bearing interest at 4 per cent., as the state of the money market warrants, or as the money is needed.

Among other directors present were Sir Charles Rivers-Wilson and Messrs. Wm. Wainwright, W. H. Biggar, E. H. Fitzhugh, E. B. Greenshields, Hugh A. Allan, J. R. Booth, Hon. G. A. Cox.

Is David Doig a Millionaire ?

It now seems that Mr. David Doig of this city will be on Easy Street for the rest of his life.

Through the death of an uncle recently in California, Mr. Doig, will probably fall heir to an inheritance of over a million dollars. According to information received here an uncle of the late Mrs. Doig, wife of David Doig, has passed away, leaving an estate of over ten millions to be divided among ten nieces and nephews, or their heirs. Mrs. Doig's maiden name was Rousseau and she was a daughter of the late John Rousseau, of Toronto. It is a brother of John Rousseau, Peter by name, that has left the immense fortune.

It appears that Mrs. Doig's father's only brother, Peter, went to California years ago, and has since become a multi-millionaire. At the time of his death he lived in Oakland. He died some months ago, leaving two children, and the administrators of the estate in their search for heirs managed to locate the family of David Doig, of Peterborough. A local solicitor is looking after the interests of the Doig family and further developments are being anxiously awaited.

Husband Stabs His Wife.

New York, August 3.—During a quarrel at their home in Harlem today, Martin Schnable, 34 years of age, a mail waggon driver, probably fatally stabbed his wife with a carving knife. Schnable fled and has not been arrested. Mrs. Schnable had asked her husband for $5 come to repay a loan from a neighbor and the quarrel resulted.

Dowie Was Turned Down.

Zion City, Ill., August 3.—At a meeting in the Tabernacle here for the purpose of choosing candidates for general overseer of the church in September, in accordance with the recent order of Judge Landis, the name of Wilbur Glen Voliva was the only one present. A standing vote of those present at the meeting showed 1,416 in favor of Voliva's election. The name of John Alexander Dowie was not mentioned at the meeting.

White Slavery In The South

New York, Aug. 2 — The Times says: Another man returned from Florida to the lower East Side yesterday with a story of peonage in Florida, and another letter has been received from there from a man begging aid.

There are still fifty immigrants who are known to have started for the Florida camps within the last six months who have not been heard from since.

David Krill, who lived with his sister, Mrs. Jennie Abramowitz, on the top floor of a tenement at 114 Lewis street, came home Monday afternoon, after an absence in Florida of seven weeks.

When he left this city for the turpentine camps he was in good health. When he came home yesterday his sister did not recognize him and attempted to drive him out of her flat.

His back was black and blue, and still marked with deep red scars, where, he said, he had been whipped.

He had been taken to Jacksonville, he said, and from there to Milton. He was then carried to a camp in the woods where there were nuts and negro guards.

At the end of two weeks he said he found that he owed the company $21 above his promised $12 a week. He ran away one night, and in the morning found that he was lost. Wandering about in the swamps, he suddenly found himself in the open, and close to the camp.

Before he could hide, he was seen; and, according to his story, he was beaten in the presence of others who had just returned from work.

The next morning, while he was at work in the swamp one of those with whom he had shared the company's stores, slipped $30 to him, which he said he had kept hidden in a boot.

This man did not dare to escape, but he begged Krill to take the money, and if possible get north so as to tell of the horrors of the slave camp.

That night Krill slipped through the lines, and managed to reach a city. He worked his way as far as Baltimore, and from there walked to his sister's home in this city.

Electric Locomotives Cheaper.

New York, August 3.—The first high speed passenger electric locomotive, No. 6,000, built jointly by the General Electric Co. and the American Locomotive Works for the new York Central lines, has completed the 50,000 mile run on the test tracks outside of Schenectady. The locomotive has proven itself cheaper to maintain than a steam locomotive. Fourteen others are completed, and it is expected that the remaining twenty-one will be ready early in October.

Sunday Concerts by S. A. Band

Ald. F. E. Mason, chairman of the Finance Committee, has been in communication with those in authority at the Salvation Army regarding arrangements whereby the band of that organization, as a result of the gift of $150 by the city council, shall give a weekly free concert in Victoria Park. The city father suggested to the Army that they give a concert every Sunday afternoon in that park, the selections rendered being sacred music. Whilst viewing his proposition favorably the local officers will have to consult headquarters before putting it into practice.

The Army band however, last night rendered some admirably executed numbers in the park, before a large and well pleased audience.

Many Catholics Attending.

Buffalo, N. Y., August 3.—There was a large attendance at yesterday morning's session of the American Federation of Catholic societies. The Volksverein plan governing the membership was adopted. The constitution was changed so that hereafter societies, parish institutes and such individuals as apply to the federation for literature shall be eligible to membership.

POLICE NEWS

Daily Happenings in Court Room and Station.

A long drawn and not particularly interesting case was tried in the police court. Henry Moher was charged with cruelty to animals, the specific charge being based upon his alleged killing of a horse belonging to Mr. Piggott of Lakefield.

Ernest Balson, of Lakefield, said he was driving in the city on July 11, with a young lady, and he left for their home in Lakefield about 9.45 p.m., going up Water street. Just above Mr. Richard Hall's residence they met a conveyance coming down. Witness said he was driving on the right hand side and so was the defendant. There was plenty of room to pass if Moher had kept close to the railway track. They were driving fast and witness was travelling about eight or nine miles an hour. The others were driving faster. Mr Balson stopped his horse before it was his. The shaft struck the horse on the side back of the left quarter. Witness then drove to McCollum's for another horse, to drive home. Defendants' shaft was broken. The shaft then in the court was produced and identified. Witness said the horse was worth $150. Dr. Blanchard looked after the injured animal.

Dr. Blanchard said he was at McCollum's when the horse came in. The wound, four inches in length, was inflicted on the side, about the ninth rib. Two ribs were broken.

Henry Moher, the defendant, then went in the box. He was driving from Lakefield to Peterborough when the accident occurred and was near the right hand side. He was on the track, between the rails, when the accident took place. Joe Guerin and Archie Paterson were in the rig. Balson's rig was approaching at about ten or twelve miles an hour. He didn't hear anyone call out. After the collision he got on and asked them were they hurt. Mr. Balson shook the wheels of his buggy, jumped in and drove away. Witness saw him again at McCollum's.

A number of other witnesses were heard for the plaintiff.

The magistrate said Mr. Moher was very inconsistent. The impact must have been terrific to drive a shaft in a horse, four inches and a half, two ribs. He reserved his judgment for a week.

SAN FRANCISCO'S BAD CONDITION

Returning Montrealer Tells of Little Progress in the Wrecked City

THOUSANDS YET CAMPING

He Also Warns Canadian Business Men to Bestir Themselves in the West.

Montreal, August 2.—Mr. H. L. Cohn, of the Dominion Bag Company, Ltd., of this city, who is just back from a month's trip to the Pacific Coast, returning by the way of Utah, where he had a look at the wonderful things which the Mormons have created for themselves, and where he had a dip in the buoyant Salt Lake, gives an entirely different idea of the situation in San Francisco from that given by the average newspaper dispatches. Coming on top of the statement made by a Canadian member of Parliament that he was going to enquire as to the use made of the money subscribed by Canadians, it is rather interesting.

"I was astonished," said Mr. Cohn, "to find that virtually nothing had been done three months after the earthquake to clean up. Everything is still in a chaotic condition, and no attempt seems to have been made, nor is there any indication that any attempt will be made soon, to even clear up the debris.

"I am sure, if I saw one, I saw eight thousand people still camped out in Golden Gate Park, and they don't live on the fat of the land either, I can tell you.

"They have no place to go to, and they do not know what to do. I had read that they were fast rebuilding the city, but I could not see anything of that except a few shacks that are being hurriedly put up here and there.

"Ruins and debris are plentiful, and I saw dead dogs galore in some of the squares. The funny thing of it all is that the people absolutely refuse to use the word 'earthquake' when they talk about the terrible catastrophe. They always refer to it as 'the big fire.'"

Mr. Cohn incidentally brings a word of warning from the Canadian West. He says that United States business firms are entering cities like Winnipeg at a great rate, establishing branch offices and stores, and showing a great deal more confidence in the broadening out of the country and apparently a great deal more foresight in what will be necessary to open the great trade of all sorts that is being developed.

"They are spending in almost all cases at least four times as much as Canadian firms on the equipment of their branches, and the latter will have to look out or they will see their trade slipping away from them."

Mr. Cohn's own observations in the West convince him that the country of such possibilities that the average person can hardly grasp them. Mr. Cohn says it is really remarkable how a traveller finds Canadians everywhere, and always in good positions, and he was particularly pleased at the number of prosperous French-Canadians he found in all the big cities he visited.

Mr. Campbell not Refused License

Some misapprehension seems to exist regarding the pseudo refusal of a license to Mr. Campbell of a license for the Southern Hotel, George street. We might note that Mr. Campbell made no application to the Board of License Commissioners, neither did any counsel represent him as rumored. Mr. Campbell was assured that if he made application and agreed to certain conditions in the matter of extension and improvements to the property, he would be granted a license. He, however, could not see his way clear to comply with the necessary stipulations and, therefore made no application to the Board.

Late Dr. Tassie's Nephew is Dead

Referring to a nephew of the late Dr. Tassie, formerly principal of the local Collegiate Institute, the Toronto Globe says:

Major W. T. Tassie, editor and proprietor of the Dundas Banner, formerly of Toronto, died suddenly in Dundas yesterday afternoon of hemorrhage of the lungs. During his illness and up to the moment of his death the major was quite conscious.

The major was for a considerable time in the Royal Grenadiers, this city, resigning about six years ago. He was once connected with several industrial enterprises in Toronto. On the death of the late Alex. Pirie, he purchased the Dundas Banner and devoted the greater part of his time to its publication.

Hotels Go Out of Business.

London, August 3.—Half a dozen London hotels went out of business after 11 o'clock last night, their term of three months' license extension having expired.

AN ANIMATED DEBATE

Opposition in Imperial House Denounces Government's Transvaal Measure.

London, Aug. 3.—An animated debate followed the closing of Mr. Churchill's remarks in the Imperial House of Commons yesterday, during which he outlined the Government's proposals regarding the constitution to be granted the Transvaal.

Alfred Lyttelton, former colonial secretary, said he thought the proposal premature, coming as it did only four years after the war. In the great classical case of Canada Lord Durham recommended a policy that he said, would insure that the British majority should permanently dominate.

RECKLESS EXPERIMENT.

Mr. Balfour declared it to be a reckless and audacious experiment. He argued that it was too near the war to expect the Dutch to forget what they had suffered, and more than human nature could grant to expect them to be loyal to Great Britain.

He declared an explanation of his hurried procedure was the Government's burning desire to get rid of all its economic questions in South Africa, which its rash pledges of a general election had brought upon it.

AN UNPATRIOTIC SPEECH.

Sir Henry Campbell-Bannerman, the premier, answered that never in the course of his parliamentary career had he listened to a more unworthy, mischievous and unpatriotic speech.

An exciting scene followed, the Unionists shouting "shame," "disgraceful," "apologize," "withdraw," etc., but the chairman promptly called a division on the question of the colonial secretary's salary, which was carried 316 to 85.

IN HOUSE OF LORDS.

While this was transpiring in the Commons, Lord Elgin, secretary of State for the Colonies, made made a similar statement in the House of Lords.

While Mr. Churchill was praising the new constitution his cousin the Duke of Marlborough, who was colonial under secretary in the late government, was denouncing it in the upper house.

Lord Harris asked what flag would wave over Pretoria twenty years hence.

FUTURE LEFT TO CHANCE.

Lord Milner declared he saw a tragedy behind the precipitancy of the government, and mourned that the future of the Transvaal was to be left to chance.

Lord Lansdowne said there was a dread in the minds of most men that the Boers would gain the upper hand in the elections, and then good-bye to British supremacy.

Hon. J. P. Whitney and Hon. Dr. Pyne occupied seats in the gallery during the debate.

Additions to the Peterboro Cereal Co.

As an indication of the rapidly growing business and enlarging output of the Peterborough Cereal Co., it might be noted that yesterday a gang of men began putting up scaffolds, etc., preparatory to putting the galvanized iron sheeting on the elevator of these works. The new offices of this company are now about finished and as soon as the men are all out the office staff will be moved in. The office on the first floor will be for the public, while upstairs will be private.

Last week a carload of Canada Flakes was shipped to Vancouver, one to Australia and one to Winnipeg, while from all these places as well as every other place where Canada Flakes are used, commendatory letters are received.

Mr. J. L. Maude Jr. Now a Benedict

A wedding of local interest was celebrated in Toronto on Wednesday, when Mr. James L. Maude, jr., son of Mr. James L. Maude, of this city, married Miss Josephine Benmon, of Toronto. The wedding took place at the home of the bride, 38 Shaftesbury avenue, and was attended by a large number of guests. The ceremony was performed by Rev. Mr. Kitchen, brother-in-law of the bride.

Mr. and Mrs. Maude left on a trip to the Thousand Islands and other points. On their return they will take up their residence at 352 Reid street, Peterborough.

Rev. Canon Davidson For a Third Term

It now looks as though Rev. Canon Davidson, rector of St. John's church will get a third term as president of the local Ministerial Association. The election of officers takes place in September, and if elected, this would be Canon Davidson's third term as chief executive officer. It is generally thought by his fellow ministers, that Canon Davidson has been a most satisfactory official, and should be elected for a third term.

C. P. R. to Boom Saskatoon.

Saskatoon, August 3.—The C. P. R. has purchased 186 lots for $86,000, in the heart of the city with a view to making Saskatoon the most important point on its line west of Winnipeg.

"NO TROUBLE"

To Change from Coffee to Postum.

"Postum has done a world of good for me," writes an Ills. man.

"I've had indigestion nearly all my life but never dreamed coffee was the cause of my trouble until last Spring I got so bad I was in misery all the time.

"A coffee drinker for 30 years, it irritated my stomach and nerves, yet I was just crazy for it. After drinking it with my meals, I would leave the table, go out and lose my meal and the coffee too. Then I'd be as hungry as ever.

"A friend advised me to quit coffee and use Postum—said it cured him. Since taking his advice I retain my food and get all the good out of it, and don't have those awful hungry spells.

"I changed from coffee to Postum without any trouble whatever, felt better from the first day I drank it. I am well now and give the credit to Postum." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

The Rebels Now Have a Warship

Powerful Armored Cruiser Was Captured by Mutineers---Sveaborg Surrenders, Czar is Still Master.

St. Petersburg, Aug. 3.—It is stated that the captain and four officers of the armored cruiser Panya Azova were killed by the mutineers, who captured that warship.

The Panyat Azova is a powerful vessel of 6,734 tons, with a crew of 525. It carries two 8-inch guns and thirteen 6-inch guns, not to speak of quick-firers. Its speed is 18 knots. It cost nearly $2,000,000. If the revolutionists captured this vessel, it is not unlikely other crews revolted. The fact that three naval captains and an admiral were wounded indicates that there was considerable to the rumors that four warships were in the possession of mutineers. Evidently these were at Cronstadt when the rising here took place, but there is nothing to show whether they, too, surrendered. The probability is that they are still in the hands of the revolutionists.

Helsingfors, Finland, Aug. 3. — There was no firing at Sveaborg or the other islands in the vicinity during the night, and no definite news has been received from the scene of the mutiny. The officials decline to make any statements, but it is asserted from a reliable source that the mutineers, with the exception of a few on the smaller islands who have a few guns, have surrendered. The prisoners are being landed in batches, guarded by loyal troops. They are sullen, and seem to have little thought of the punishment which awaits them.

St. Petersburg, Aug. 3.—An official telegram from Helsingfors announces that all the mutineers of the fortress of Sveaborg have surrendered, and that by order of the Emperor court-martials are being instituted for the trial of the men implicated.

St. Petersburg, Aug. 3.—The officers killed at Cronstadt were Captains Ravinoff, Dobrovolsky, and Shumoff, of the navy, and Captain Poliamovsky of the artillery. Admiral Beklemisheff was wounded in the back by a bayone thrust.

London, Aug. 3.—A despatch of Reuters Telegram Company from St. Petersburg says that an extraordinary conference of all the revolutionary leaders yesterday decided on an immediate general strike, the exact date and hour to be settled at a meeting tonight, and that in the meantime the railways and factories have been ordered to prepare for future events.

The Czar is still master of the situation. The ill-timed outbreak at Sveaborg gave ample warning to the authorities at Sebastapol and Cronstadt, and at the latter fortress an attempt at revolt has been crushed, although hard fighting occurred and a hundred men were killed. The Baltic fleet has remained true to the autocracy, and discouraged by at Sveaborg appear to have surrendered. The failure of this movement will make it much more difficult to engineer a successful revolution, but the popular cause is sure of ultimate success. When that time comes, the blood shed at Sveaborg and Cronstadt will be avenged in the last blood of Russia.

St. Petersburg, Aug. 3.—The collapse of the mutiny at Sveaborg, coupled with the break-down of the plans of the revolutionists to secure possession of the Baltic squadron and provoke an immediate rising at Cronstadt, greatly changes the situation. The spirits of the Government officials have risen, and those of the revolutionists are correspondingly depressed, and the arrangements for ordering a general strike on Saturday may be countermanded.

The strike in Finland is already a failure, owing to the fact that the more intelligent of the Finns did not support it, as they realized that by placing themselves at the head of a purely Russian revolutionary movement they might justify reprisals and jeopardize their newly granted liberties.

I. O. O. F. Grand Lodge Program

Much interest is being taken by local Oddfellows in preparing for the hundreds of their guests, the Grand Lodge, I.O.O.F., who will meet here on Aug. 8th.

It is reported that there will be ample accommodation for all. Some 300 delegates can be accommodated outside of the hotels.

The delegates will begin arriving on Monday next, but the great majority will likely come in on Tuesday's trains. Members of the local reception committee will meet each train and direct the strangers to the local hotels and boarding houses.

Mayor Beat will give three short, civic addresses of welcome—one to the Rebekah Assembly on Tuesday and also another to the Grand Lodge Encampment on that day. On Wednesday he will deliver greetings to the Grand Lodge of Oddfellows, which meets in the court house.

The steamer Water Lily has been engaged to make six trips over the lift lock on that day, leaving the Wolfe street wharf. The visitors will all be carried free, as the guests of the local Oddfellows. Outsiders will be charged twenty-five cents. The trips will be made at 8.30, 10, and 11.30 in the morning, and at 1.30, 3 and 4.30 o'clock in the afternoon.

The big Oddfellows' parade will be held on Wednesday night, Aug. 8th, leaving the Central Park at 7.30 o'clock sharp. It is expected that over 1,000 will take part in the big parade. There will be three bands in the procession.

The outline of the proceedings for Grand Lodge week, is as follows:

Monday, Aug. 6—Arrival of delegates.

Tuesday, Aug. 7.—Rebekah Assembly opens in I.O.O.F. hall at 9 o'clock. Address of welcome by Mayor Beat of Peterborough.

Grand Encampment, I.O.O.F., session opens at ten o'clock in the court house. Mayor Beat will deliver a civic address of welcome.

In the evening at eight o'clock, headed by the 57th Regiment Band, Canton, Toronto, Patriarchs Militant will hold a parade, and afterwards in the market hall confer the degree of Chivalry upon Mrs. Ryan of Toronto.

All the Grand Lodge I.O.O.F. committees will meet at the court house on Tuesday at ten o'clock.

Wednesday, August 8th. — Opening of 52nd annual communication of the Grand Lodge of Ontario, I.O.O.F., at the court house at nine o'clock. The delegates will be taken over the lift lock by the steamer Water Lily.

Thursday, Aug. 9th, will be the closing day of the Grand Lodge meeting. It will be devoted strictly to business and on Thursday evening it is expected that affairs will all be wound up and the delegates leave for home.

Ottawa Growing Rapidly.

Ottawa, August 3.—Owing to the growth of the city and increase in building, the Council is finding it difficult to supply water to the outlying parts, and it is proposed to raise $50,000 specially for such extensions. This is apart from the $100,000 now being spent on new and heavy mains principally to ensure better fire pressure.

Nationalization of Many Industries

Baron Komura Says That it is the Intention of Japan to Do So.

Victoria, B. C., August 3.—Baron Jutaro Komura, on his way to the Court of St. James, to represent the Japanese nation, was a passenger on the Empress of Japan, which reached here yesterday. He was met by a deputation of his countrymen, who accorded him a hearty welcome. In an interview, Baron Komura expressed his regret at not being able to spend some time in Canada. He was due to leave Quebec on the 9th, hence he must not delay. Regarding the statements that Japan proposed practically to nationalize many industries, Baron Komura entered an emphatic denial. He said the nationalization of the railways was now an accomplished fact, and this would be used, as he thought Government should use it, to relieve the pressure on the consumers. The same was true in Manchuria, where Japan would own the railways, but beyond this it would not invade the field of private enterprise.

Toronto Conservatory of Music

The following are the results of the examinations held in Peterborough in connection with the Toronto Conservatory of Music in June and July last:—

Piano Department:—Intermediate Grade—Miss —Gallilee McCollum, Hazel Sanderson. Junior Grade — Honors—Kathryn Burnett, Pass — Eva Roberts (Roseneath), Mae Dodge (Roseneath), Pleda Howson (Norwood), Eleanore Elmhurst, (Hastings), Beatrice Spark, (equal) Primary Grade—Honors — Mrs. John Shapley (Campbellford). Pass—Maude B. Hodgson, Ethel Hardwick.

Theory Department:—Junior Grade —Harmony alone, honors —Leonore Elmhurst (Hastings). History alone, first-class honors —Bessie L. Eleoure, Primary Grade—Harmony and rudiments, first-class honors — Adelia C. Blodget (Roseneath), Alice V. Baker (Warkworth). Honors—Alice M. Learmouth (Hastings). Harmony alone, first-class honors — Pleda Howson (Norwood) Rudiments alone, first-class honors—Kathryn Burnett.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

BASEBALL.

Yesterday's games played in the Eastern Baseball League resulted as follows:

Toronto 1, Rochester 2.
Montreal 1, Buffalo 6; Montreal 0, Buffalo 4.

Jersey City v. Baltimore, rain

Harvesting General Next Week.

Calgary August 3.—Crop reports which were published last night by the C. P. R. are of a most satisfactory nature. Harvesting will begin early next week, and will be of a most promising nature in every part of the province. This season has been the most satisfactory in the history of farming in Alberta.

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick Ont., tells as follows of her enormous gain in health from Ferrozone: For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I though't might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

DITY GOVERNMENT BY COMMISSION

In September, when the civic holidays are over, a member of the Montreal City Council, says The Star, is to bring before the attention of his confreres the very interesting question of government by commission. The proposed plan, in brief, is that a commission, composed of well known private citizens, shall control civic expenditure. This procedure, of course, might not interfere with many of the present duties of the City Council; but what would happen would be that the commission would have the right of passing upon all that Council did, with the power of veto.

It may be said that considerable attention is being given at the present time in American cities to the interesting problem of government of cities by commission. Both in Washington and Galveston, commissioners control the civic purse. In both of the above cities, however, the conditions are so peculiar that it is somewhat difficult to determine the advantage of control of one system or the other.

Washington is governed by a commission appointed by the President, Congress provides the laws, and the major portion of the revenues; and the people are largely deprived of a voice in the city government. Galveston is governed by a commission appointed by the Governor. The State also steps in and provides a considerable portion of the revenue through a remission of State taxes for a term of years, and the city receives other benefits of a special nature than other municipalities could not hope for. While the government by commission in these cities has been very satisfactory, they can not be held up as perfect models to other cities which are trying to solve the problem of governing by commission.

The following are some of the problems which would have to be faced were a change of government by commission desired: Who would appoint the commission or should it be elected by the people? Should its duties combine both the legislative and executive powers, etc.? Would the people be satisfied to confer upon a commission the full power of the present city organization and deprive themselves of the special benefits they now obtain by reason of having representation in the City Council more closely identified with their local interests?

Under the present conditions, says The Star, the City Council serves the interests of the respective localities as far as possible; in consequence business of a general character is often made subservient to private interests—sometimes to the detriment of the whole municipality. Still the question of government by commission is large and involved and will stand a great deal of careful consideration.

She Wrecked a Saloon.

St. Joseph, Mich., Aug. 2.—"You will spend your time and your money in saloons, will you?" demanded Mrs. Gertrude Matthews, of her brother, confronting him in Hause & Zordel's place.

She was in a very angry mood. Grabbing a bottle off the bar she hurled it at the plate glass mirror, smashing it and a pyramid of glasses in front of it. Then, standing off the astonished bartender with a threat to wreck his physognomy in similar fashion if he interfered, the irate woman grabbed the object of her wrath by the collar and lugged him out of the saloon, down the street and home. A crowd of saloon patrons were too paralyzed with astonishment to interfere, if they had the disposition to do so.

SOME CIRCUS FACTS

Interesting Things About the Barnum & Bailey Show Not Generally Known.

There are some facts about the Barnum & Bailey circus that are not generally known, but which can hardly fail to be of interest to the thousands who visit the big show when it exhibits here on Thursday, August 9th.

The present season marks the fifty-third annual tour of the Barnum & Bailey Show. It is the only American circus that has ever made a tour of Europe, and its entire equipment, except railroad cars, which were built in England, has twice been transported across the Atlantic. Among its other prosperous tours was a visit to Australia.

The show represents an actual investment of $4,000,000, its daily expenses average $7,500. Many small cities, which must be played in order to break the railroad jumps, represent an actual money loss owing to the insufficiency of the population; nevertheless the show is an assured money-maker, and its annual profits run into the hundreds of thousands.

The employes number nearly 1,100 men, women and children. They come from all parts of the civilized world. Twenty-six different languages are spoken in the dressing-room, and among the performers are Roman Catholics, Greek Catholics, nearly all the Protestant sects, Buddists, Brahmins, followers of Confucius, Shintoists, Mohammedans, Fetish worshippers, and followers of many other peculiar faiths.

The actual circus company numbers about 300 expert artists. These include riders, acrobats, aerialists, arenic specialists and performers of startling novelties, like the Auto-Bolide and somersault-turning bicycle acts, that require a peculiar kind of daring-skill and rare disregard of danger and possible injury or death.

There are over 500 horses and ponies. The menagerie has fifty dens, each with two or three compartments, so that there are considerably over a hundred cages of wild beasts. In addition to the caged animals, there are four giraffes, a herd of zebras, three herds of elephants and other tethered animals.

The performance is given in three rings, on two stages, in mid-air, and upon an immense hippodrome track, with seats for 16,000 spectators. The Barnum & Bailey circus is the only one that provides actual chairs for its reserved seats, and guarantees a footrest seat to every purchaser of an admission ticket. It is also the only circus that uses private boxes on the road.

The tents cover twelve acres of ground, and are said to be the largest ever constructed for the purpose.

To carry all this paraphernalia necessitates five long trains of double-length cars. To store the cars during the day requires a mile and a quarter of siding. Notwithstanding the enormous labor involved in loading and unloading these trains, nine-tenths of the cities are played for only one day, so that, in the majority of instances, the canvas city is built and razed every twenty-four hours.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 3, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 1.50 and 7.15 a.m., 7.15 and 8.40 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

Appointed Manager.

Col. W. Wallace, paying teller at the head office of the Home Bank of Canada, 8 King street west, Toronto, has been appointed Manager of the Church street branch, in that city. Colonel Wallace has been fifteen years with the Home Bank. He succeeds Mr. John F. Mallon, who retires to engage in private business.

Investigate Immigration System.

Ottawa, August 2.—Hon. Frank Oliver Minister of Interior, during his stay in England will investigate the working of the Canadian immigration system, previous to appointing a successor to Mr. Preston, as immigration commissioner.

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner.

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the stock, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, own in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 50 per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $220,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

THOS. PATTERSON & CO., Fiscal Agts.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Her bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

Commonwealth Trust Bldg, St Louis, Mo

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

before him. Our family name was Coke. When I was about seventeen years of age, my mother died, leaving to my care one lovely little sister, about ten years old. I became the housekeeper of my father, and the mother of my little sister May. William Etheridge, the late baron, was then about my own age. He had not come to his title, as his bachelor uncle was still living. The young gentleman spent all his holidays at Swinburne Castle, and, during the season employed his time largely in woodland and field sports. He was often with my father and the under game-keepers. And he was also a frequent visitor of our lodge in the woods when there was no one present to prevent his talking nonsense to 'the game-keeper's pretty daughter,' as I was called. And nonsense, and nothing but nonsense it was, yet it won my silly heart, for I was but seventeen. Do not shrink from me, Lady Etheridge. My affections were won—not my honor. And I, foolish creature, believed all his vows sincere, because when he made them he was really in earnest. The spoiled and inexperienced boy believed what he said, when he swore solemnly that he never could love any other woman but me, and that he would marry me as soon as he came to his titles and estates.

"At length the youth took leave of us and went to Oxford. When he returned he still called me his 'Maggy,' but he jested about our childish love. And I, who had grown older, began to understand how impossible it was that the future Baron Etheridge, of Swinburne, could ever marry his game-keeper's daughter, and I bore no malice against this young Oxonian, but I retained in my heart a kindly affection for my boy lover, as though he had been a creature altogether separate and distinct from this fine young squire. And so in my thoughts I separate them still. Well, he went away again, and I saw him no more for two years, for the next vacation he spent with some friends. In the meantime my young sister grew up as beautiful a creature as ever bloomed into womanhood. She had a small and graceful form, delicate features, complexion of the purest white and red, glittering black hair, splendid black eyes, and an ever-varying, most enchanting smile. I was twenty-five, and my sister eighteen, when the young squire came to the castle to pay us a last visit, previous to departing for his tour on the Continent. I never had seen him so handsome and fascinating as he was then. Still I never thought of him except as the young master, and never associated him with the memory of my love; but during the few weeks of his stay he came frequently to our lodge, and always seemed affectionate to me. I used to do all the shopping and marketing for our little household, and often upon returning from these errands in the village, I found Mr. Etheridge in company with my fair young sister. Upon these occasions he would always spring forward and greet me most affectionately, saying:

"'I have been waiting for you, Maggy,' or words to that effect.

"Heaven knows that I never had a doubt of his honor, or a fear for my sister's heart. I had known the young squire from his boyhood, and though we had once been sincere lovers, he had never done, or said, a single thing to wound my delicacy; therefore, how could I suspect that his visits boded evil to my May? Alas! I did not know how much besides classics and mathematics he had learned at Oxford; no, nor how the world had changed him! I was blind, deaf, senseless to all misgivings. At length the last day of his visit came. The next morning he was to start upon his travels. That night my sister clung to me and wept all night. I could not comfort her. She had been hysterical for several days, and I set it all down to nervousness, never for an instant connecting her malady with the thought of the young squire's departure. The next morning he took leave of us and went away; alone as we thought. That night my May was missing. Ah! I cannot enter upon the details of this sad story. A few days of agonizing and fruitless search, and then we ascertained that she was the companion of his tour. He had waited for her at a neighboring post-town, where, according to their previous arrangement, she had joined him. My father was an old man, in feeble health; he never recovered the shock. The baron was in a terrible rage, and swore that he would never forgive or speak to his nephew again. He did all he could for my father, retained him in his service at full wages, and hired a young man, John Elmer, to do his duty in the Chase. I must hurry over this part of my story. Within twelve months after the flight of May my father died. I married John Elmer, and he succeeded to the situation of head-keeper, and we continued to occupy the lodge. It was in the second year of our marriage that we got news of May. He had deserted her, broken her heart, and she was dead—dead, and in a foreign grave! It was then that I registered an oath in heaven to avenge upon the head of her destroyer the ruin and death of my only sister. And to do this the more effectually, I resolved to conceal the fiery hatred that consumed my heart.

"Another year passed. The old baron died, and the young one reigned in his stead.

"I would fain have persuaded my husband to throw up his situation, rather than serve a master who had wrought us such bitter wrong. But John Elmer was obstinate. We remained, and I buried the bitter hatred in my breast—and bided my time.

"I pass on to other days, when the new baron wooed and won a young and beautiful bride. She was a delicate creature, fair-skinned, blue-eyed, golden-haired—too fragile for the cares of this world, where, indeed, she did not tarry long. It was some fifteen months after her marriage that she died, leaving an infant daughter of only a few days old. Her early death was a righteous judgment on him, the trait or!"

"'My mother! my sweet mother, who perished in her early youth! Oh, nurse, how can you say such things of her?'

"Peace, Lady Etheridge, until you hear the rest—it is not much. The newborn babe was likely to perish for the want of a nursing mother. I was then nursing my own child, which was but three weeks old. My husband was down with the mortal illness that finally terminated his life. The housekeeper at the castle recommended that the child should be placed in my charge. I was applied to, and I agreed to nurse the infant, but only on condition that it should be sent to my cottage, and left in my sole care. To this his lordship consented.

"He went away. And then I laid the babes side by side in the solitude of my room, and looked at them. Young infants as they were they were much alike. My own child and my master's were both of the same age and sex, and both little, round-faced, bald-headed, almond-eyed babies, with no more individuality to distinguish one from the other than waxen dolls of the same pattern.

"There, in the solitude of my cottage, I changed the clothing of those children. And three months afterward, when his lordship came home, it was my daughter whom I carried up to the castle to be caressed and fondled, and it was my daughter who was the next week carried in state to the family chapel and christened by a Lord Bishop, who came down for the purpose. It was my daughter who had servants, and tutors, and governesses to attend her by day and night. It was my daughter who was brought up with the state of a young princess. Finally, it was my daughter, who, at the death of the baron, entered into his inheritance as Laura, Baroness Etheridge, of Swinburne!" exclaimed the weird creature, her eyes gleaming with triumph, as if again she felt the virulent stimulus of hatred, and tasted the poisoned sweetness of revenge!"

"My God! my God! Oh, woman, woman!—for I cannot call you mother—what is this that you have done?" moaned the lady, drooping her head upon her clasped hands.

"I have consummated my revenge——"

Lady Etheridge shuddered and shrank away from her.

"I have filled my life with remorse——"

Lady Etheridge again shuddered.

"And I have lost my immortal soul! Laura, no longer Baroness Etheridge, Laura, my daughter, speak to me, I am dying!"

(To be continued)

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

Union Pacific's Big Loan.

New York, August 2.—According to a statement, the Union Pacific has recently borrowed between $10,000,000 and $15,000,0000 at 5 1-2 per cent. The announcement that the road was in the market as a large borrower of funds was made several days ago.

It is suggested that the heavy borrowing has to do with purchases of stock in other roads, though in some quarters it is attributed to E. H. Harriman's extensive plans for railroad construction and improvement in the Northwest.

Wages Too Small for Englishmen.

London, August 2.—A clergyman and others have written to the Daily Mail in regard to the cheap rates to Canada for harvesters. They say the wages at best only pay expenses, and the lower grade leaves the emigrant 10 out of pocket. A returned immigrant says he left hundreds of men in Ontario and Winnipeg anxious to get home.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1108.

Vanguard Mining & Extraction COMPANY

GUNNISON COUNTY, COLORADO

GOLD

SILVER

AND

GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 18 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

PETERBOROUGH, ONTARIO

COBALT

THE

WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $150,000. Shares $1 each.

BOARD OF DIRECTORS.

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co., Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS: Clark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Hargraves, Jacobs, Drummond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.

Look For Blood Humors

They Crop Out Constantly, Showing the System Needs Purifying.

You're not satisfied with your looks. How can you be with such disfiguring pimples, such rough uneven skin?

Blood is full of humors and it's no wonder you look and feel poorly.

You are languid,
Appetite is miserable,
Sleep is hard to get,
Snap and vim are lacking.

High time to improve matters—but what's the proper remedy?

Experience proves that Dr. Hamilton's give instant effect. They tone the entire system, fortify the blood and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable extracts such as Mandrake and Butternut, and can be taken by young or old with absolute safety.

"I learnt something very valuable after using Dr. Hamilton's Pills," writes Miss Effie Thomson, of Meriden. "I used to have ugly pimples that much embarrassed me. The tonic and purifying effect of Dr. Hamilton's Pills completely restored me. My health is splendid and my complexion a great credit to this marvelous medicine."

Let your medicine be Dr. Hamilton's Pills. They do cure so thoroughly. Sold by all dealers, 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

We require the services of a couple of good, smart girls to learn the trade of bookbinding. Apply at Times Bookstore.

N. O. Tennis Club at Chemong.

The Nicholls Oval Tennis Club enjoyed an outing at Chemong Park, yesterday afternoon. They left the city in a large bus about four o'clock and picnicked at the park.

—Last night the Salvation Army Band, thirty strong, played to a large and well pleased audience at Victoria Park. The Army Band show every evidence of becoming one of the best trained and artistic musical organizations in this section of the country.

Against Coffin-Nail By-Law.

Mr. D. O'Connell, barrister, was in Toronto yesterday, where, on behalf of the cigar dealers of Peterborough, he is making a motion at Osgoode Hall, to have the bylaw recently passed by the city council, quashed. The bylaw imposes a license fee of $200 on all vendors of cigarettes in the city.

Strange $5 Bill Found.

Yesterday quite a curiosity in defunct currency was found in Dickson Park. This is a bill on the Bank of Lexington, North Carolina, dated July 20, 1859. The signatures are C. F. Lowe, cashier; B. A. Kittrell, president. This bill which was issued before the civil war began, and consequently not a "Confederate" bill, is printed on one side only. On the left hand corner is a picture of a negro picking cotton, and on the other corner a white man at work on an old-fashioned cotton press.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company, Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

SOCIAL AND PERSONAL

—Mr. T. E. Bradburn, M.P.P., went up the lakes yesterday.

—Mr Gus Hay has rented a cottage at Jubilee for a month.

—Mr. W. H. Coombs of Millbrook, was in the city yesterday.

—Miss Hazel Craig is visiting Miss Lillian Rogers at Stony Lake.

—Mr. H. M. Stewart, of Brockville, is in the city on business.

—Mr. V. W. Martin of Newark, N. J., is a guest at the Snowden House.

—Mr. T. E. Dollart, of Peterborough, was in town today. — Lindsay Post.

—Mr. Jos. Carey, of Peterborough, spent the past two weeks in Hastings.—Hastings Star.

—Mr W. H. Clement the Lakefield postmaster, was in the city yesterday on business.

—Mrs. M. W. Bradden, Fenelon Falls, is the guest of Mrs. W. H. Robertson, Water street.

—Mr. George Spencer, of Toronto, divisional superintendent of the C.P.R. was in the city yesterday.

—Mr. H. W. Stock, merchant tailor, Hunter street, left yesterday for New York city on a week's business trip.

—Miss Maude Hogue, of Rochester, N.Y., is spending a vacation with her parents Mr. and Mrs. Jas. Hogue 220 Dublin street.

—Mr John Guest, representing Messrs John Robertson & Son, of Dundee and Montreal, was in the city yesterday on business.

—Mr J. W. Diamond, travelling representative of the Cornell Brewing & Malting Co. of Lindsay, was in the city yesterday on business.

—Miss Vida Emery, who has been the guest of Mrs. Bradd, Stewart street, for the past three weeks, left for her home in Rochester, N.Y., yesterday.

Steinkrauss Body Found Yesterday

Remains of Lumberman Drowned at Waterworks Dam Recovered.

At noon yesterday the body of the unfortunate lumberman, Mr. John A. Steinkrauss, who as noted in Wednesday's issue, was drowned at the water work's dam, on Tuesday, was found.

The body was found floating near the center of the river nearly half a mile below where he was drowned. The corpse was entangled in weeds. A son of Mr. Sandy Trotter and other boys were out in the river in a boat, and noticed the body among the weeds. They notified several other people, and the body was taken from the water and sent to Comstock's undertaking establishment.

The body of the deceased, who was only 18 years of age, will be taken to the deceased's home near Minden today.

On Thursday Afternoons the Auto-bus will leave the Snowden House at 2 o'clock P.M. and on Saturdays at 2.30. This is a good chance for those wanting a few hours at the Lake to get in early by Bus leaving Chemong at 7.30.

Water Commissioners for Stony Lake

This morning the water commissioners, with the chairman of the Board of Health, his Worship the Mayor and Mr. Lindsay, of the Provincial Board of Health, will make an inspection of the waters from Lakefield to Stony Lake, and around Stony Lake. They will leave on the 8.30 train for Lakefield, and take the Government steamer "Sovereign." The water commissioners are determined to stop all pollution of the waters running into the Otonabee river. Notice will be served on all contagers that they will have to stop depositing filth or offensive matter of all kind, into the water that is ultimately drank by the citizens of Peterborough. All or any infractions of this will be severely punished.

Local Reporter's Hard Luck.

A local reporter on an evening contemporary is certainly up against it this week. As noted in these columns, a few days ago, his bicycle of the press, borrowed a bicycle when in a hurry to fill an assignment, without waiting to see the owner. The ground flew up, and the rider flew down, result $250 for damages. Night before last, whilst sitting in deep thought, awaiting in inspiration, he held the point of his pencil just at the opening to his auditory apparatus. Another reporter of the paper hastening in with an idea, and fearing he might lose its whilst passing the unfortunate, bumped up against the pencil driving the point right into the drum of his ear. His yells of pain were audible a block away. We understand however that fortune is again smiling on this victim of hard luck. He hooked the locals at Lindsay yesterday.

Improvements at Windsor Hotel.

Mr W. Johnston who recently purchased the Windsor Hotel, yesterday placed a fine new cash register in the bar. Mr Johnston who will shortly completely renovate and refurnish the premises, yesterday got in 37 cases of high grade liquors of all kinds. This is a large consignment for one shipment. Every thing now points to this hotel being better managed and the former rot of sidewalk decorators (!) moved on.

Shamrock's Won Out.

Yesterday the Shamrocks of this city, accompanied by over two hundred admirers, journed to Lindsay to play off the semi-final game with Oshawa at Scugogville. There was a large attendance and a splendid exhibition of Canada's national game was given. The Peterborough aggregation altogether outplayed the Oshawas, winning out by the tidy score of 12—2.

Large Excursion to Lindsay.

Yesterday's excursion to Lindsay, with the Shamrocks, was one of the most popular and best attended the season. Over 250 went to Scugogville where the Shamrocks played the Oshawas. The train, a special composed of six coaches, left the G.T.R. station at two o'clock.

LOCAL INCIDENTS

By The Times Man on the Street

—St John's church choir met for practice last night.

—There are sixteen prisoners in the county jail at present.

—The Manufacturers Committee of the city council held a meeting yesterday evening.

—The Peterborough Fair directors held a meeting yesterday evening to further revise the prize list.

—During the absence of Mr. John Green, barrister, from the city, for a few days, his business is being looked after by Mr. A. P. Poussette.

—Mr. Geo. Yorke, wine clerk of the Windsor Hotel, has been retained by Mr. A. Johnston, the new proprietor of that hotel, in his former position.

—Mr. McBrine, foreman of the Bell Telephone Co. local employes is, we are pleased to say, rapidly recovering from his recent illness.

—Senator Edwards of Rockland, Ont., has been appointed a director on the Board of the Toronto General Trusts Corporation in the place of Senator Fulford, deceased.

—Local fruit merchants are sending large quantities of their wares to Stony Lake. The G.T.R. yesterday evening was crowded with baskets, crates and boxes of cholera infantion.

—A dangerous break exists in the south-west corner of Water and Brock streets. One board is completely smashed so that a passerby could easily step down 18 inches and break a leg.

—The excursion of Lansdowne Lodge, Sons of England, to Jubilee Point, yesterday afternoon was well patronized. The Water Lily was crowded with a happy holiday crowd.

—About seventy-five members of the Knights of Columbus left yesterday on the early train for Lindsay, where they were joined by Lindsay Knights on an excursion by steamer to Balsam Lake.

—Mr Harry Nesbitt, the Water street agricultural impliment man, last night ardently advocated holding a fair this year. He remarked, "I'll buy tickets and give $10 sooner than see the fair drop through. He will put up $25 that his black horse will beat the local record.

—Mr. Chas. W. May, the local painter, has just completed a contract of painting St. Paul's R.C. church at Lakefield. Mr. May has been very generally complimented on the splendid job he did, the church looking well. Rev Father Phelan was much pleased with the improvements to his church.

—Capt. Geo. Bennett, a practical farmer, when asked by The Times last night as to his ideas concerning holding a fair this year, said that the cattle industry of this district was too much diverted to dairying interests, to get local farmers to get cattle into shape for exhibition purposes.

Miss Hattie Goodwin Now Mrs. G. H. Tovey

Mr. Geo. H. Tovey of the General Electric Co., drafting department has joined the great and long suffering army of benedicts. The ceremony of Wednesday evening, was performed by Rev. Manning, pastor of the Charlotte street Methodist church, the bride, Miss Hattie Goodwin, youngest daughter of Mrs. Jas. Goodwin, being given away by her brother.

The bride was becomingly attired in cream nun's veiling, Princess gown, with a yoke of allover lace and trimmed with lace and insertion. She wore the customary bridal veil, and carried a large bouquet of roses and lilies of the valley. The bridesmaid, Miss Letitia Campbell, of Port Perry, was dressed similarly to the bride, and carried pink roses. The groom was supported by his brother, Mr. A. P. Tovey, of Cobourg.

After the wedding a sumptuous repast was served in the dining room. The happy couple left on the midnight C.P.R. train for Montreal, Buffalo and Schenectady, where they will reside. The bride's going away gown was a grey suit of tweed, with Eton jacket and silk blouse, with trimmings of Valenciennes lace and insertion.

Among other handsome and numerous presents the members of the staff of the armature department of the C.G.E. Company, presented a handsome marble clock. The groom's gift to the bride was a gold bracelet, set with amethysts.

Gov't. Officials Miss Train.

His Worship Mayor Beal received word yesterday morning from Mr. Smith and Mr. Colquhoun that they would not be in the city yesterday as expected. They were to have come to inspect the various sites for the Normal school. They were in North Bay on Wednesday, and missed the Peterborough train. They will arrive here next Tuesday.

The Signs of Heart Trouble

You can Surely Secure Heart Health and Strength through Dr. Shoop's Restorative.

Heart weakness which can be dealt with at all is nerve weakness. Just as your hand trembles when its nerves are weak, when your heart nerves are weak your heart flutters and palpitates. Other signs are shortness of breath after slight exercise; fainting spells; pain or tenderness about the heart caused by irregular heart action; choking sensation as if the heart was in the throat; uneasy sensation in the chest, showing that the heart isn't working right; pain when you lie on one side—usually the left side, but frequently the right, painful and difficult breathing; smothered feeling. There is absolutely only one way to treat a weak heart. That is to bring back natural and permanent strength to the nerves. Can you imagine how anything else can be done? Dr. Shoop's Restorative will bring back the strength to the heart nerves always. There is nothing in the remedy to stimulate; nothing that leads to reaction. The strength that it gives is natural and permanent. It is just the same strength as Nature gives to those who are well. Dr. Shoop's Restorative creates strength which extends over the whole limited nerve system—it overcomes the cause of the trouble as well as the result. For sale and recommended by

J. D. TULLY.

For Weak Hearts

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

HAVERGAL COLLEGE

TORONTO

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

PALACE AUTO CAR

Time Table of Regular Trips for the Summer Season of 1906.

The car will make the following regular trips daily (excepting Sunday), leaving always from the Snowden House calling at the Oriental and National Hotels;

MORNING — Leaving Peterborough 7 a.m., returning leaving Chemong at 7.45 o'clock, arriving in Peterborough at 8.30; will then return immediately for Chemong, connecting with the boats for Buckhorn and Burleigh, returning at once for Peterborough.

AFTERNOON— Leaving Peterborough at 4 o'clock, reaching Chemong at 4.45.

EVENING — Leaving Peterborough for Chemong at 6.30, returning to Peterborough same evening.

Fare 25c. each Way. The PALACE AUTO-CAR is speedy and comfortable and is in charge of a very careful chauffeur. 'Phone 286.

For further information apply to Bruce Lee's Livery, in rear of Snowden House.

Department of Railways and Canals, Canada

TRENT CANAL

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Bridge Substructure," will be received at this office until 16 o'clock on Friday, the 24th August, 1906, for the building of a Substructure of a Swing Bridge on the Holland River Section, Trent Canal, at the crossing of side road to Queensville, between Lots 115 and 116, Township of East Gwillimbury, County of York.

Plans and specifications of the work can be seen on and after this date at the Office of the Chief Engineer of the Department of Railways and Canals, Ottawa, at the Office of the Superintending Engineer, Trent Canal, Peterboro', Ont., and at the Office of Engineer A. T. Kerr, Holland Landing, Ont., at which places forms of tender may be obtained.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Girl's Frantic Efforts To Reconcile Lover

Bella Campbell's Novel Scheme to Enlist Sympathy of Midland Young Man Who Had Been Insulted by Anonymous Letters.

Toronto, Aug 4.—Detective Rogers, of the Attorney-General's Department, has this week dissipated the air of mystery which had developed over the case of Bella Campbell, who was, during the latter part of July, the central figure in an alleged sensational episode in Midland.

A letter received by the department from Mayor Finlayson states that the young woman was found, grossly ill-treated and left unconscious in a closed house. Her recovery, it is stated, was brought about with difficulty by attending doctors.

The result of Detective Rogers investigation shows that the girl was actually the victim of her own peculiar undertaking.

As the result of her affection having been spurned by a young man, she had secured a rope, bound her own hands and feet and then thrown herself on the verandah fronting the house where her sometime lover lived. She had, it appears, hoped thus to attract his attention on his return home at night, arouse his sympathy and thus affect a reconciliation.

LETTERS ANNOYED HIM.

Detective Rogers found that she had been keeping company with a young man in Midland for about two years, and recently the couple had been receiving annoymous letters, and announcements of their wedding from some source apparently unknown, had found circulation, became suspicious and informed Miss Campbell that if the letters did not cease he would stop. He did stop about three months ago, and subsequently he received letters from her expressing a wish to see him.

On the 24th of July, according to the young woman's story, she went down town with a lady friend. While returning, she was almost within a block of her home when some person, unknown and unseen, delivered a blow which rendered her unconscious. She remembered nothing more until, reviving, she found herself in a buggy with her hands tied and a rope around her neck. She was forced to take a drink of something, and after that remembered nothing. She endeavored to scream, but the rope was drawn tighter. About two o'clock in the morning she was discovered upon the verandah fronting the house where her former lover lived. Her brother-in-law becoming alarmed over her absence, had begun a search.

Detective Rogers found out, upon investigation, that the young woman had procured a rope at a certain store. She showed me," he states, "the anonymous letter she had received on the 24 h calling upon her to buy a rope, and place it under the sidewalk near a certain house. She thought she was compelled to do so, but said no thing about it to her brother."

THE GIRL WROTE THEM.

The detective, on looking through the anonymous correspondence, was struck by the similarity of certain letters. The writing was all in backhand slope, while samples given by the girl were in Spencerian style. He questioned the girl on the points of similarity, however, and she finally confessed that she had carried out the entire scheme herself.

All of the letters were written on the same kind of paper, and on one occasion she had written the young man telling him that she was in a position to tell him the name of the anonymous letter. A poor girl named "Pearl," living at 280 Seaton St. had, on her deathbed, according to the story, admitted being the guilty party. The detective, on examining the envelope in which the letter was said to have been sent found that the Toronto post-mark was missing, but the microscope revealed the date October, 1905. Bella Campbell's statement was that the letter had been received but a few days previous during July. The young woman made a complete confession.

She would not tell the detective why she had gone to the house, but he assumed that she had expected to attract the young man's attention as he returned home, and that he seeing her predicament would unfreeze his heart to a reconciliation. Three knocks at the door had been heard during the night, but the young man's sister on going to the window had seen nothing.

"What can we do?" replied Detective Rogers, when asked what action would be taken by the department.

RIVERS OF BLOOD TO FLOW, SAYS MANIFESTO.

A manifesto to the peasants of Russia has been issued in the joint names of all the various labor, socialist, and revolutionary organizations, including the representatives of those organizations in the defunct lower house. The manifesto declares that the hopes reposed in the lower house of parliament have been blasted by the diabolical designs of the crowd of grand dukes, courtiers, and wealthy landed proprietors assembled around the Emperor, whose only purpose is the maintenance of their power over the people. By dispersing the elected representatives of the people and arresting and imprisoning them, the Government has declared war on the nation, and a struggle is beginning in which rivers of blood will flow, and for which the criminal Government is responsible. The people must not spare the government.

The manifesto further accuses the Government of betraying the fatherland by invoking the aid of German and Austrian troops. The people are therefore urged to remove the local authority everywhere, to replace it with men elected by themselves, and to confiscate all State funds. The troops also must conform to the orders of those elected by the people. The workmen in the towns, the peasantry, and all toilers must in conjuction with the troops seize the liberty and taken the land which the government has denied them. The land thus possessed must be handed over to the popularly elected authorities pending the elaboration of a new land law. The manifesto calls for elections on the basis of universal suffrage, and concludes with the words: "Down with the government and the Emperor! Long live the dear and free Russian people!"

Scriver Did Not Try to Defraud

In view of the many thousands of local dollars invested in Saskatoon property, it is of interest to learn that the Toronto Globe says:

Saskatoon real estate was discussed incidentally during a police court case Monday. James H. Scriver is a real estate agent in the town which failed to be chosen as the capital of Saskatchewan, and while east last month he got Frank McIville, with whom he had a real estate deal on, to cash a cheque for $75. When the cheque reached the Canadian Bank of Commerce branch at Saskatoon, there were not only no funds to meet it, but Mr. Scriver's account was overdrawn. It appears that a subsequent remittance of $350 sent by Mr. McIville is held by the bank to cover the overdraft.

Scriver was arrested on coming east on a charge of fraud in connection with the cheque. He explained that he had no intention of defrauding anyone, and was perfectly willing to repay the amount. To enable him to do so, he was allowed to go out until Friday on $500 bail.

Millions May Be Tied Up For Years

Erasure in Russell Sage's Will May Invalidate Whole Document.

New York, N. Y., August 4.—An amazing discovery is announced today of an erasure in the will of Russel Sage, which, lawyers declare, may tie up the estate in years of litigation and reinforce the case of disgruntled legatees, who have threatened to contest the validity of the testament. Three little pen scratches, striking out a date constitute an alleged imperfection in the document which hitherto has been referred to as proof against most ingeniously raised technicalities. The erasure has been made in the final clause of the will, which precedes the declaration of the witnesses that they saw the will signed. In the fourth line of the paragraph over the testator's signature is the obliteration on which may depend the validity of the instrument. In the place referred to the date is changed from 1900 to 1901.

When a woman suffers from depressing weaknesses, she then keenly realizes how helpless—how thoroughly worthless she is. Dr. Shoop has brought relief to thousands of such women. He reaches diseases peculiar to women in two, direct specific ways—a local treatment known by druggists everywhere as Dr. Shoop's Night Cure and a constitutional or internal prescription called Dr. Shoop's Restorative. Dr. Shoop's Night Cure is applied locally and at night. It works while you sleep. It reduces inflammation, it stops discharges, it heals, it soothes, it comforts, it cures.

Dr. Shoop's Restorative (tablet of liquid form) is a constitutional, nerve tissue tonic. It brings renewed strength, lasting assertion and vigor to weak, lifeless women.

These two remedies, singly, or used together, have an irresistible, positive helpful power. Try them a month and see. Sold by J. D. Tully.

VALUES BASED ON ORE

One of the Propositions Which Should Attract Investors.

The Chloride Gold Mining Company is the kind of a proposition that makes money for the investor. This company has never had a boom, but a steady, healthy growth based on the ore in sight, and on its production. This mine is being systematically developed under good management, which is essential to the success of any mining proposition, and which insures success. That the Chloride Company will rank as a large dividend-payer when fully developed there can be no doubt. The ore is there and the character of it is such as occurrs in large bodies. The ore occurs in a true fissure vein, the character of which is gold, silver, lead and iron. Some of the ore is very rich. In fact, some specimens have been taken out that were almost pure silver, besides running very high in gold values. The fact that very rich ore exists in these veins makes the value of the mine incalculable, and its full value can only be determined by future development.

The property is located in one of the richest mining sections of Arizona, and it is a well known fact that Arizona has some of the richest mines in America, if not in the world. Mr. W. Kelsey Hall, of this city, or his representatives, will be pleased to give full information regarding this promising mine.

Regulations for I. O. O. F. Brethren

Those in charge of the I.O.O.F. Grand Lodge reception and entertainment request that those taking part in next Wednesday's musical procession, shall wear their badges.

All I.O.O.F. men are specially asked to take part in the big parade which will leave Central Park on Wednesday night at 9.30 o'clock.

During Grand Lodge week it is hoped that all members of the Order will wear their badges so that visiting brethren may readily know where to turn for information.

Mr. Brooks to Build Hotel

Local Man Will Erect a $25,000 Hotel on George Street.

It is generally known that Mr. J. M. Brooks, formerly proprietor of the Palace Hotel, recently had his license robewal refused by the commissioners. This as is well known was not caused by any complaint against Mr. Brooks personally, or on account of any infraction of the law, but simply because the premises he occupied did not comply with the spirit of the present liquor law.

The Times had it on good authority yesterday that Mr. Brooks has secured on option on a valuable and centrally located George street property, on which he intends to erect a fine modern hotel, that will, in all respects comply, not only with the law, but liberally provide accommodation for the travelling public.

Mr. Brooks will spend from $25,000 to $30,000 on the building and as it is evident to everyone in this city hotel accommodation in Peterborough, falls far short of proper requirements. The new addition to the local shelters for the transient public, will be greatly appreciated.

Whilst we could not get it confirmed authoritatively last night, rumors said that the proposed site of Mr. Brook's new hotel, is the south-west corner of George and Charlotte streets, the property at present occupied by Mr. T. Moore, as a marble factory and store.

This situation is one of the best adapted to the hotel business in this city, being handy to the depots of both C.P.R. and G.T.R.

Has C. P. R. Hotel Changed Hands?

Yesterday evening, it was currently reported that Mr. Jas. Allen, proprietor of the Allen House, formerly the C.P.R. Hotel, had completed arrangements whereby Mrs. W. H. Bowman, formerly proprietress of the Oxford House, had purchased he former business. This change, subject of course to approval of the local license commissioners, will probably be authoritatively announced today.

This hotel has for many years, enjoyed a large trade, especially that of the wee goods department.

Mrs. Bowman during the six years she has conducted the Oxford House has never had a conviction made against her, so that this new noted change will doubtless result in the Simcoe street hotel, as above mentioned holding their trade and doing a large business.

Auto-bus Delayed for a Few Hours

Yesterday the fine new auto-bus plying on the Peterborough-Chemong route met with a slight accident, and did not make the regular afternoon trip from Chemong to the city. Owing to an overnight in not having enough water aboard, some of the machinery became heated. The car made the return trip to the city during the afternoon.

For so complicated and comparatively unknown a machine the auto bus, since its arrival given very little trouble or cause for complaint.

Terribly Gored by Mad Bull.

Victoria, B.C., August 4.—David Martin a rancher resident at Swan Lake, four miles from this city, is dying at St. Joseph's Hospital, as a result of being gored by an infuriated Jersey bull at his farm last Thursday evening. The maddened animal attacked the unfortunate man and knocked him to the ground, goring him as he lay unconscious. The horns of the bull penetrated the ribs on either side and exposed the right lung. The left arm was fractured in two places and a number of other injuries caused.

City Debentures Sell at Par

Yesterday a Times representative had a talk with local Finance Minister Ald. E. F. Mason regarding the recent issue and sale of Peterborough debentures. The alderman, who has become quite a skilled financier noted that the county debentures for the erection of a house of refuge, sold at par or 3 points below par. Recently the city council issued debentures at the same rate of interest and sold them at par.

This good financial record was largely due to Ald. Mason's shrewd manipulation in favor of the city's interests. Mr. Mason deserves great credit for making such a good bargain.

It is not perhaps an unpatriotic statement to say that, as a matter of fact the county debentures are quite as well guaranteed as those of this city, still owing to efforts of Mayor Beat and Ald. Mason the city bonds sold higher by three per cent. than those of the county. Mr. Mason, on Thursday, personally placed over $20,000 worth of these debentures with local citizens.

Ireland's Desires May Be Realized

Dublin, August 4.—Sir Anthony McDonnell, in a speech last night, said that in the Home Rule Bill to be introduced next year, would be seen the fruition of many of Ireland's most cherished hopes. It might not give all that Erin wanted, but it would be the starting point towards the realization of all.

Lindsay Paper Makes a Kick

Scugogville Sore Because Normal School Comes Here.

Our esteemed and bright contemporary the evening Post is up in arms because Lindsay got turned down in the Normal school shuffle.

The Post, among other things says:

Lindsay has definitely and for all time lost the chance of having a Normal school, for several reasons a thing to be not only greatly regretted.

The new Normal school for the district, going to Peterborough, make it absolutely impossible that any should ever be placed in Lindsay.

Lindsay was entitled to the school in preference to Peterborough, both as a railway center and also as an educational center. Peterborough had cared no pains for the profession of education of teachers, as to refuse in times past, to support a Model school, while Lindsay sustained the best model school in Eastern Ontario. Lindsay was thrown down in favor of Politically, from a Conservative standpoint, Lindsay also should have been preferred.

There is a cause, and the cause is the notorious mismanagement of the political clique who took the matter out of the hands of the Citizens' Committee and bungled it. This clique and their motives are too small for a town the size of Lindsay.

POLICE NEWS

Daily Happenings in Court Room and Station.

Only one lonely and sorrowful prisoner appeared for trial at yesterday session of the police court.

Arthur Green was charged with having been drunk the preceeding evening. Arthur admitted the soft impeachment and was charged $2 for his little indiscretion. He was given ten days in which to dig up the simoleons.

Make Fall Fair a Success.

Some surprise was expressed throughout the city yesterday when The Times acquainted their readers with the fact that a fall fair would be held here this season. It was generally feared that the action was taken too late, however, by putting their shoulders to the wheel and backing up those in charge, both financially and morally, Peterborough's fall fair can be made a great success. To rest with the citizens now whether Peterborough will become a laughing stock for the province by not being able to get as successful a fair as say Omemee, or not.

Let every one hustle, back up Mrs. Ara Elliott and others in charge, and Peterborough as a fall fair center successfully will be assured for all time.

Strong Handed Reform is a Failure

Czar Won't Make Concessions to Get Conservatives Into Cabinet---Searchlights Kept Played on St. Petersburg.

St. Petersburg, Aug. 4.—The report last night that Emperor Nicholas had flatly refused to accept the conditions to which Premier Stolypin agreed in his negotiations with Count Heyden, Alexander Guchkoff, Prince Nicholas Lvoff, Paul Vinogradoff and Senator Koni for the reorganization of the Cabinet, and which the premier recommended the emperor to accept, turns out to be true. Official confirmation came this morning in a one-line announcement as follows:

"The reports that the non-bureaucratic elements will enter the Cabinet are untrue."

Count Heyden and his confreres have now washed their hands of the Government, and all of Stolypin's promises of "strong handed reform" have no significance. At his first encounter with the influences at court he has been worsted, and the predictions of the Liberals that the dissolution of Parliament would inevitably lead to a dictatorship appears to be on the point of realization. In the opinion of the Liberals M. Stolypin cannot now remain in office.

The guard regiments which were sent back to their camp at Krasnoye Solo at the end of last week when the Government believed that the country had accepted the Emperor's fiat are again returning to the capital.

The Reich has been confiscated, and even such a high-toned paper as the Rousskoe Vedomosti, and Professor Kovalensky's Ekstrana have been suppressed. Only the House Vremaya and the Sviet of the unofficial papers seem to be immune from seizure.

MUTINY NEAR WARSAW.

Warsaw, Russian Poland, Aug. 4.—The artillerymen in the summer camp at Rembenoff, near Warsaw, have mutinied. Infantry and Cossacks have been despatched to quell the revolt.

PREMIER STOLYPIN TO RESIGN.

St. Petersburg, Aug. 4. — Premier Stolypin has gone to Peterhof with the intention, it is believed, of tendering his resignation.

CAPTURED REVOLUTIONISTS.

Riga, Livonia, Russia, Aug. 4.—A secret revolutionary meeting which was attended by 600 persons, was surrounded last night by dragoons who captured every man present.

GOVERNMENT HAS SVEABORG.

Helsingfors, Finland, Aug. 4.—Sveaborg fortress is completely in the hands of the Government this morning. The prisoners have been marched out and sent to Skatuden Island, where they will await trial.

The Socialistic Red Guard yesterday evening made a last unsuccessful effort to bring about a general strike.

MUTINY ON THE AZOVA.

St. Petersburg, Aug. 4.—The accounts received here of the mutiny on the armored cruiser Pamyat Azova, off the Esthonian coast August 1, show that the soldiers expected to obtain the support of the garrison of the fortress of Reval. The mutineers met torpedo boat No. 106, and called upon the crew to abandon their allegiance. This they refused to do, and steamed away with the cruiser in pursuit. She finally reached the harbor of Reval, followed closely by the cruiser. A party composed of nine leaders of the mutineers then left the Pamyat Azova in a small boat for the fortress, with the object of winning over the troops, but upon landing were promptly arrested. The loyal sailors thereupon attempted to recapture the ship, and succeeded after severe fighting. The mutineers, who numbered 259, were later set ashore.

Altogether five officers, a doctor, one engineer and a subaltern officer were killed. One officer was mortally wounded, and two officers were slightly wounded. About fifty seamen were killed or wounded.

Rich Gold Strike On Watson River

Stampede Now on to Hodnott and Gold Hill Mountains.

Victoria, B.C., Aug. 4.—One of the biggest stampedes ever witnessed in the upper Yukon Country is now on, the rush being to Hodnott and Gold Hill mountains in the neighborhood of the headwaters of the Watson river 40 miles from White Horse and 20 miles from Robinson, the nearest point reached by the railway. Jack Stager and another prospector arrived at Carcross early last week with phenomenally rich ore which they reported was taken from a vein five feet wide. This ore shows values of $5,000 in gold per ton. It was shown to Col. J. H. Conrad and the stampede was on. The colonel started out every available man in the Carcross section, going along all who applied, and White Horse, Carcross and other adjacent camps were quickly threatened with depopulation. A box car containing camp and prospectors' outfits were left at Robinson siding from which point the gear will be packed by men and horses to the scene of the strike. Half a dozen pack horses have already been sent from White Horse to Robinson, and the demand so far from satisfied. Telegrams from Col. Conrad state the strike is "by long odds the biggest and richest yet made in the northland."

Little Doubt Two Doctors Drowned

Ottawa, Aug. 4.—It is fully believed in Carleton Place that both Dr. W. J. Crain of Montreal, and Dr. John Scott of Carleton Place were drowned in the Ottawa River.

The canoe in which the two doctors started on their voyage was found bottomside up and damaged at one end just below a strong rapid, about twenty miles east of the point of embarkation.

All the circumstances indicate that the unfortunate voyagers have met a tragic death in the waters of the Upper Ottawa.

In the canoe were found a paddle umbrella, and camera. A large force has been engaged in the search for the bodies, but it is doubtful if they will be recovered for some time as the current may carry them far down the stream.

Chinese are Interfering.

London, August 4.—A despatch to The Times from Pekin says that Chinese interference with the administration of the customs is causing increased anxiety. There is an ominous weakening of the authority of the customs administrators and friction at every treaty port. Sir Robert Hart, director of the imperial customs, finds his authority usurped in every direction. It is not surprising that he intends to retire.

Jews Meeting in London.

London, Aug. 4.—The International Council of Jewish Territorial Organization is in session here under the presidency of Israel Zangwell. The proceedings are private, but the main subject for discussion is the general proposition to establish an exclusively Jewish territory.

Steel Magnate Is Glad of Divorce

Corey Had Dinner at Delmonico's on Eve of His Release.

New York, Aug. 4.—While his wife wept after a Reno, Nev., jury granted her a decree of absolute divorce, William Ellis Corey, president of the United States Steel Corporation, laughed. Then he got busy with the telephone and ordered a dinner in a private room at Delmonico's, at which he and a few chosen friends celebrated the occasion. Mr. Corey did not return to his apartments at the Holland House until 2 a.m.

It is reported that Maybelle Gilman, the actress who infatuated the steel magnate, may return at once from Paris.

None of the men at the Corey dinner would talk about it, beyond saying that they had a jolly good time. At Corey's offices, in the Empire Building, his secretary confirmed the story that the president of the steel corporation was celebrating the news of the divorce.

COREY IS VERY HAPPY.

"Is Mr. Corey glad that his wife has got a divorce?" was asked.

"Glad well, he's glad it's all over," the secretary replied. "This is his busy day. Mr. Corey has a meeting of the Board of Trustees to attend at noon, and he hasn't time to talk about his personal affairs. There has been too much talk about them already."

But if Mr. Corey would not talk about his divorce there were plenty of others to do it for him. The comment was mostly in connection with a cable message, said to have been sent to Miss Gilman, who is studying music in Paris.

Whether or not Mr. Corey himself caused the message to be sent is not known, but friends of the actress are speculating freely as to whether Mr. Corey will eventually marry the actress, whom he met when she was starring in "The Mocking Bird."

Had Mr. Corey been a prominent actor or a theatrical manager his divorce could not have caused more comment along the Rialto. Miss Gilman has been absent from the city for some months, but report has it that she will return to New York shortly, interrupting her music lessons for a little vacation. In some quarters it was even said that she would arrive here in time to see some of the first openings of the new theatrical season.

The steel man's attentions to Miss Gilman were not secret in the "profession." From the time the play in which the actress starred was first put on the theatrical world wagged its head wisely.

When Mrs. Corey first stated her intentions of securing a divorce the friends of her husband in the financial district made some great efforts to bring about a reconciliation, but the actor folk were sanguine that these efforts would come to nothing. Today these same people are confidently of the opinion that Mr. Corey will marry Miss Gilman, perhaps before the year is out.

Of one thing every one who knows the Coreys is positive; Mr. Corey is not suffering from remorse because his wife has secured a divorce. That the matter was terminated so quickly and with so little notoriety comparatively is regarded as cause for congratulation.

Mr. H. Nesbitt's Offer Accepted

Local Citizen Will Bet Harry Direct Cannot Break Local Record.

In our issue of yesterday, we noted that, at the meeting held Thursday evening at which it was decided to hold a fall fair here this year, Mr. Harry Nesbitt was most enthusiastic in recommending that such be done.

We noted further that, whilst the pros and cons regarding the advisability of such action, were being considered, Mr. Nesbitt, with true sporting instinct offered to race his well known swift horse, Harry Direct against the record time of the local track.

The Times, in view of this offer, yesterday turned back the files and ascertained that the record time over the Driving Park track is 2.14 1-4, this was made by Sphinx B, against time. The next best record, made in a race was that of a Stouffville horse, which did it in 2.15 1-2.

Should Harry Direct attempt to lower the record of 2.14 1-2, in case Mr. Nesbitt's offer of Thursday night is taken, such a race would draw many hundred people to the grounds. We might say that, yesterday, a prominent local turfman told The Times that he will, at a minute's notice cover Mr. Nesbitt's money and bet $25 that Harry Direct cannot break the local record. If Mr. Nesbitt will call upon The Times sporting editor, he can find where to get his bet taken. Money talks and such a bet would help the fair gate receipts.

TOBACCO
—AT—
WHOLESALE PRICE

M. PAPPAS, having arranged to buy all his tobaccos direct from the factories and thus save the wholesale man's profit, will now sell every brand of Tobaccos cheap. Every brand of Smoking and Chewing at reduced rates.

Mr. James Dolan is now with Mr. Pappas and will be pleased to welcome his old customers.

M. PAPPAS,
337 and 339 George Street

Mr. Mont Wilson Buys a Farm

Yesterday Mr. Mont Wilson, the well known and expert cheese maker of Campbellcroft and Gardan Hill, purchased one of the finest farms in the County of Durham. This property consists of one hundred acres of the splendid Williams estate, lot 13, con. 7 in the township of Hope. The price Mr. Wilson paid for this farm was about $60 an acre, so that he made a bargain.

It might be noted that Mr. Wilson who owns the Perrytown cheese factory, near Garden Hill, had his factory boarded at the local cheese board last week for the first time in ten years. The excellence of his cheese is so widely known that Mr. Wilson has not been able to supply the demand but now owing to improvements in the factory his goods will be boarded here regularly.

American Methods Help Canadians

Chicago Exposé Creates Demand for Canadian Canned Meats.

It is an ill-wind that does not blow dollars to some quarters, if we might be allowed to paraphrase the old saw. It now seems that a great increase in the demand for Canadian canned meats has been created by the recent packing house exposures in the United States. The Ontario Government Agricultural Department experts say that the decrease in canned goods exports of the United States so far this year, has been about $344,000 and of this amount the decrease in June alone was $336,000. It is claimed that this decrease has necessitated a demand for meat and particularly pork, from other sources of supply, while the Canadian product has a reputation for cleanliness and freedom from conditions. Exporters, it is also said, are now trying to hold the market, and this accounts, in part, for the present inflated prices for Canadian hogs.

Cobourg Girl in Trouble.

The Cobourg Star says: A young girl of this town came very near getting herself into Chief Ruse's hands last week, but left town in time to avoid trouble. She was formerly employed with a merchant in town, and by stating that she had permission from his daughter to get several waists, managed to get them at one of the dry goods stores. She left town after explaining the circumstances of the case.

—Children's two and three piece garden tools on sale at 10c. and 25c Times Bookstore.

House-Clean Your System!

Keep it Pure and Clean if You Desire Good Health.

The inside of your body requires attention just the same as the outside. A great accumulation of effete matter is clinging to the various organs, and must be moved off.

Some gentle laxative and tonic should be used.

The system must be relieved of its burden if you are to enjoy a happy, healthy summer.

Physicians who have examined the formula of Dr. Hamilton's Mandrake and Butternut Pills say no medicine could be better.

Whether ill or not, thousands rely on Dr. Hamilton's Pills which are truly marvelous in preventing debility and sickness.

Begin Dr. Hamilton's Pills without delay. You'll feel stronger, eat heartier, digest better, sleep sounder, and gain more in weight.

Mr. Ed. Maynard, an old resident of New Westminster, B. C., writes: "I don't say Dr. Hamilton's Pills will cure everything, but they made a quick job of building up my run-down system. I had kidney disease and constipation, and was wholly unfitted for work. Pains shot through my limbs and lodged in my back. Headaches often made me desperate. I had no appetite, an awful color, and felt despondent. Sometimes I was a little rheumatic. After a few days I began to mend, and kept up Dr. Hamilton's Pills till I was restored to my present tip-top condition."

Can you afford to miss the benefit of this marvel-working medicine? Think of it. All dealers sell Dr. Hamilton's Pills, 25 per box, or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

CIVIL WAR IN RUSSIA

If there be no civil war in Russia today, it can at least be said that the factions are exceedingly uncivil to each other. The difficulty of getting immediate news from a battlefield scattered over an Empire, and to which non-correspondents are not welcomed, is great; and it will be impossible to see the meaning of current events until they have passed into history. But the fact that the forces of defence are honeycombed with revolutionary doctrine, can no longer be doubted. The court must feel that, in every fact, it is living over a gun-powder magazine; and every officer must be haunted by the fear that, when next he gives his men the order to fire, they will aim their guns at him.

That the rising of the revolutionists among the soldiers and sailors is not well timed so as to go off all together like a set piece at a firework exhibition, is only to be expected. Tampering with the army is a delicate business, and the Radicals must make progress as they can. The winning over of the French Guard in Paris was not a planned coup so much as an achievement of the emotion of the moment. But, however raggedly the forces turn their fronts towards the court and away from the people, the fact that they are doing so at all is ominously significant.

Frequent rumors are heard of preparations for the flight of the Czar. These must be the work of his enemies, or else the counsels of despair. The day upon which the Czar quits Russian territory as a fugitive, marks the end of the old regime. Remove the Czar from the heart of the court camarilla, and it would no longer command the loyalty of the peasantry or of the troops. He may not be a strong man, but he wears a potent title; and his flight would be the beginning of the end. Paris was never quite sure of its victory over the court until Louis tried to escape from the country.

New York, Aug. 3.—Manatee IV. as the latest importation from Florida waters has been christened by attaches of the Acquarium, is now the star attraction of the Battery Park resort. The sea cow, as the manatee is more familiarly known, was washed ashore on the Florida coast and was sent north by A. W. Dimock, of Miami, Fla., as a gift to the Aquarium of this city.

This specimen has the distinction of being the largest that was ever in captivity, weighing one hundred pounds, and measuring eighteen fee. in length. It was brought here by the Navahoe, of the Clyde line, which reached her pier yesterday.

It required a derrick to swing the sea cow and its wooden tank from ship to pier, and a truck to convey it to the Aquarium. There eight longshoremen bore the box into the Aquarium, and as a ship is launched they slid Manatee IV. into a tank. The manatee sank at once to the bottom, but soon lifted its broad head to the surface, emitted a sound like a steam exhaust and sank again.

TOO BIG TO PARADE

Barnum & Bailey Continue Successful Experiment of Eliminating Street Pageants.

A circus that is "too big to give a street parade" is a novelty even in these days of colossal enterprises and mammoth amusement institutions. But that is the announcement of the Barnum & Bailey circus, which exhibits in Peterborough on Tuesday next.

In speaking of the reasons for this striking innovation, a representative of the big show, said recently: "The Barnum & Bailey circus has become so large that a parade is no longer possible or even desirable. If we could be absolutely sure of getting into town by daybreak, the parade would still be feasible, but with our five long trains of cars, this is too much to expect of the railroad companies. In many instances it is 8 and 9 o'clock before the last section arrives, and is o'clock before it is unloaded and the paraphernalia transferred to the show grounds. This leaves just sufficient time to get the big tents and prepare for the afternoon performance. To take several hundred men away from the show grounds at the more critical time in the morning, in order to give a parade, would mean delay in opening, and consequent discomfort to the public. To compel thousands of people to stand out in front of the entrance, in the hot sun or rain, because the giving of the parade has delayed the opening for an hour or more, is positively cruel, but there is frequently no help for it when parades are given. By eliminating the parade the public is also saved a long and often uncomfortable wait on the streets pending the always more or less delayed procession, which at best has nothing new to offer, to say nothing of the interference with public traffic and the business of the city's merchants. Also municipal governments have recognized the later facts by either refusing to give licenses for parades, or by making the tax so high as to be prohibitive. Street parades were all right when circuses were small, and were necessary from an advertising standpoint. The Barnum & Bailey circus is too well known to need advertising of this character, and instead of wasting time and energy on a conventional street display, every effort is concentrated upon the performance."

The experiment of cutting out the parade was tried in this country for the first time last season, and the circus man was asked what effect the innovation had upon the business of the big show.

"If anything, it helped the patronage," was the reply. "The necessity of eliminating the parade because of the magnitude of the show was generally recognized, and the public was anxious to see a show that was actually too big to give a procession. Before the advent of the show in some of the Western cities there were some unfavorable comments regarding the 'no parade' feature, even in the press; but after the public and the newspaper men saw the performance, noticed the increased vim and ginger that was installed into it because the performers and the animals were not overworked, and the greater enjoyment of the people because they were not worn out by a long period of tiresome waiting, there was but one verdict, and that was that the elimination of the parade was a success from every standpoint."

The Barnum & Bailey circus is the only one that has had the courage to cut out the parade. Another well-known showman, when asked if his show would follow suit, replied: "I would like to, but I can't. The Barnum & Bailey circus is the only one that is big enough to do it." And it is evident that it has introduced this innovation in the circus world because the show gives popular satisfaction without the aid of what is at best a convention display of so-called pageantry.

The absence of the parade is more than compensated for by this year's big arenic acts and "thrillers." There are a number of big sensations, and the structural steel used in these startling acts alone utilizes the carrying capacity of several railroad cars. Incidentally, it is announced that a splendid free show will be given on the exhibition grounds daily at 11 and 5 o'clock, by Prince Youturkey, a remarkable performer on an elevated wire-cable.

The Lost Family.

A great crowd had gathered to witness the closing exercises of the village school. It was 10 o'clock at night when they finished, and everybody started for home. Then suddenly some one shouted aloud, "Little Paul Chilton is lost!" Now, Paul was only four and a half years old.

The minister hurried alone down the path to the spring, hoping the little one might have taken that familiar walk. Ah, sure enough, a tiny figure was coming with brave little steps up the sloping path!

"Oh, Paul," cried the minister, running toward him, "how did you come to be lost?"

"I can't tell. I'm losted," answered the little fellow, a flavor of relief in his voice as the big man gathered him in his arms. Then he went on in a tired little tone, "But the rest of the family must be losted, for I can't find 'em anywhere."

Royal Mechanics.

Perhaps you may be surprised to hear that many members of the royal families of Europe have learned ordinary trades. King Edward of England learned in his youth how to make stockings; his son, the Prince of Wales, can make ropes; the late czar of Russia was a practical farmer; the German emperor is a typesetter; King Humbert of Italy was a shoemaker and Queen Victoria was quite expert with knitting needles.

Beware of "By and By."

If you have hard work to do,
Do it now.
Today the skies are clear and blue;
Tomorrow clouds may come in view;
Yesterday is not for you;
Do it now.

If you have a song to sing,
Sing it now.
Let the notes of gladness ring
Clear as song of bird in spring;
Let every day some music bring;
Sing it now.

If you have kind words to say,
Say them now.
Tomorrow may not come your way;
Do a kindness while you may,
Loved ones will not always stay;
Say them now.

Hotels Go Out of Business.

London, August 1.—Half a dozen London hotels went out of business after 11 o'clock last night, their term of three months' license extension having expired.

Gaynor and Greene Have Appealed

Voluminous Transcript of Their Case Has Been Served.

Savannah, Ga., August 3.—Although the attorneys for Capt. Greene and Lt.-Col. J. D. Gaynor have not officially declared their intention to appeal their case in the Circuit Court, an appeal has been made and a transcript of the ground on which the appeal is founded was forwarded this morning to Charles H. Ladrute, of New Orleans, clerk of the Circuit Court of Appeals. The main ground named was the manner of drawing the jury, though there are a number of others. The document was bulky, containing 2,500,000 words. It cost Greene and Gaynor $4,000 to have the transcript prepared, and the approximate cost of appeal will be about $10,000.

Twenty Horses Drew a 25-Ton Marble

Toronto, Aug 4.—Gallows Hill, the north of the C.P.R. tracks at the head of Yonge street, was the scene of a regular circus performance yesterday morning about nine o'clock. Ten teams of heavy draft horses, hitched into two low-wheel trucks, bearing a slab of granite weighing 25 tons were the principals in this unusual spectacle.

At first 18 horses were hitched to the truck. They managed to drag it half-way up the steep incline when two more horses were hitched on in front. It was a splendid sight to see the 10 teams of handsome horses tugging away at the heavy slab of stone, which they slowly hoisted up the hills.

The teams belonged to the Britnell Co., stone merchants and teamsters at the head of Yonge street, who were conveying the massive granite slab to Mount Pleasant cemetery, where it is to be set up in the mausoleum in course of erection for Hon. George A. Cox as a family vault.

The slab of granite was placed on two specially constructed stone trucks, the platform of which is only two or three inches above the ground. The wheels have no spokes, being solid blocks of wood about a foot in diameter. This is the largest slab of granite that has ever been moved in Toronto, it is said.

Lord Milner and Governments.

Lord Milner, in a recent speech, said: One is particularly stirred by the fact that from time to time in party strife it is not always possible for the man who has been, or has tried to be, the faithful agent of the Government of his day—it is not always possible for him to be regarded at any rate with equally favorable eyes by another Government and Parliament. I do not think we should make too much of this. Personally, I always feel that so far as praise or blame is concerned that you sometimes get praise when you do not deserve it and you often get blame when you do not deserve it. (Cheers and laughter.) Therefore, in my opinion, the wisest thing to do is to bank the praise when you get it, live upon it when you are in blame, and not pay to much attention to it either way. (Laughter and cheers.)

Overworked Clergyman.

A few examples of the way in which some church of England clergymen are overworked were given at a meeting of the Additional Curates Society. A great parish in the north of London had only three clergymen for 19,000 persons. A parish in Durham, diocese had only two clergymen for a population of 15,000; while two Glamorganshire parishes with more than 10,000 people in each had only two clergymen.

Harvesting General Next Week.

Calgary, August 3.—Crop reports which were published last night by the C. P. R. are of a most satisfactory nature. Harvesting will begin early next week, and will be of a most promising nature in every part of the province. This season has been the most satisfactory in the history of farming in Alberta.

Four 15-Day Seashore Excursions. Only $10.

To Atlantic City, Cape May, and return, via Lehigh Valley Railroad, July 20, August 2, 17 and 31. Tickets good on regular Express trains, leaving Suspension Bridge, Niagara Falls, at 4.35 and 7.15 a.m., 7.15 and 8.45 p.m. Tickets allow stop-over at Philadelphia. For Tickets, Pullmans and further particulars call on or write Robt. H. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto.

MRS. LUKE MORRIS, GIVEN UP TO DIE. HAD SEVEN DOCTORS. PE-RU-NA SAVED HER.

Mrs. Luke A. Morris, Jacksonville, Fla., writes:

"Peruna has done me more good than any other medicine I have ever taken, and that is saying a good deal, as I have had seven doctors treating me in the past two years.

"I only wish I had begun taking your wonderful medicine some time ago, and I would have saved so many doctor bills.

"I was completely run down, and given up to die, but Peruna braced me up and gave me a good appetite.

"I have taken not quite six bottles of Peruna and would not give it up for all the other medicines in the world.

"I thank you for all the good you have done me. I hope every sick woman who reads my name will give the medicine a trial."

—Mrs. Luke Morris.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

On Thursday Afternoons the Auto-bus will leave the Snowden House at 2 o'clock P.M. and on Saturdays at 2.30. This is a good chance for those wanting a few hours at the Lake to get in early by Bus leaving Chemong at 7.30.

HAVERGAL COLLEGE
TORONTO

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

FARM LABORERS' EXCURSIONS

1906

The governments of Manitoba and Saskatchewan report this year an exceptionally good wheat crop, and advise that as many as twenty thousand laborers will be needed during the harvest season. To meet this demand the Canadian Pacific Railway will as usual run FARM LABORERS' EXCURSIONS from Ontario points to Winnipeg, and thence to stations in the west where help is needed. The going dates are:—

AUG. 14 Stations south of, but not including main line, Toronto to Sarnia, including Toronto.

AUG. 17 Main line Toronto to Sarnia and stations north, except north of Cardwell Junction and Toronto on North Bay Section.

AUG. 22 From all points Toronto and east to and including Sharbot Lake and Kingston, and north of Toronto and Cardwell Junction on North Bay and Midland Divisions.

Going far $12, return ticket to starting point for $18 additional, if conditions are complied with.

For full particulars write C. B. FOSTER, D.P.A., C.P.R., 71 Yonge St., Toronto. A postal card will do!

MEN DONT SUFFER WITH SECRET DISEASE

For twenty-five years we have devoted our lives to the treatment of diseases peculiar to men. Our records show that during that time we have actually cured thousands. We believe this should be sufficient proof to most any man that as physicians we must be successful. Not a dollar need be paid for medicines or treatment if you fail to get cured. We cure on bank guaranty. Get honest treatment. When you write or come to us you will be dealt with in a strictly professional manner.

NOT A DOLLAR NEED BE PAID UNLESS CURED. If you are suffering from lost vitality or weakness from any cause, come to us and we will cure you. Men who are nervous, mental, physical and sexual bankrupts, the result of errors or excesses; producing weakness, despondency, failing memory, etc., should come to us at once, and we will stop that drain upon your system and restore strength, vitality and nerve power. Our experience and thorough knowledge of every electrical and therapeutic agent known to the medical world enables us to effect cures after others fail.

We cure VARICOCELE, HYDROCELE and STRICTURE without cutting. No pain or detention from business. Before you submit to the cutting operation, investigate our painless and positive curing method.

Our New Method Treatment for Blood and Skin Diseases will cure all ulcers, sores, falling out of the hair, bone pains, eruptions and other symptoms of all these complaints. Come and be cured by our scientific treatment. Patients that we treated twenty years ago have never suffered a relapse. If you have KIDNEY, BLADDER or URETHRAL TROUBLE or PROSTATIC AILMENT, or any URINARY WEAKNESS or disease, come to us for scientific and reliable treatment.

Our offices are complete with the latest and best electrical and medical appliances and all remedies that are known to the medical world for the cure of these diseases.

If unable to call, write for QUESTION BLANK for HOME TREATMENT. ESTABLISHED 25 YEARS. Consultation Free. Books Free on Diseases of Men or Women.

Diamonds and Diamond Mining

It would be difficult to name a commercial commodity representing a more tangible basis of intrinsic value than a diamond. Diamonds are enhancing in value yearly—the demand for them is ever increasing—and the diamond market shows a remarkably healthy condition.

Very little is known in this country by the general public about diamond mining, and the vast returns from it. All are more or less familiar with the mining of gold, silver, copper, zinc, lead, &c., &c., and know the immense fortunes that are realized yearly from them, and the enormous source of wealth which they represent to the country annually. Yet as a matter of fact the most profitable mining enterprises of the world are those devoted to the mining of diamonds, and in London, the great financial centre of the world, this is well understood, and diamond mining securities are an important factor in financial operations there.

The two most profitable commercial institutions in the world today are the De Beers and Premier diamond mining companies of South Africa, which pay fabulous returns on even the present price of the work, which has enhanced in value many times during the last few years.

THE COLONIAL DIAMOND MINING COMPANY

controlled largely by Boston capital, owns in British Guiana, South America, a property containing 42 mines which, during the six months we have been operating it, has paid over 6s per cent. profit, and that after expending large sums for machinery and mining appurtenances. From careful tests made during these six months we have demonstrated that we have a larger diamond field than either the De Beers or Premier Diamond Mining Companies, and that each laborer we employ produces larger results than the African laborers. We also know positively that our property will produce three times as much per cubic yard of dirt as the South African mines. We also have the priceless advantage of a healthy climate and an unlimited supply of water—two essential factors in success.

This company is conducting a legitimate business enterprise upon business principles and we court the fullest investigation of our enterprise. The property being on British territory and conducted under the strict laws governing all mining operations carried on in British domains, detailed information relative to it may be obtained from the commissioner of lands and mines, who receives from a government inspector on the grounds the actual condition and production of the property. Thus our production is a matter of official record and may be obtained at all times from this authentic source.

To provide the necessary capital to increase our production 10 fold, we are offering a block of $100,000 of our stock at par, $10 per share. When it is considered that we paid $250,000 in cash for our property, which we own outright, it must be admitted that $100,000 is not an excessive amount of stock to issue, and is all that we will offer for sale.

The undersigned will be pleased to have parties interested in legitimate investments call at our office, where we can supply much valuable information relative to diamond mining. If not convenient to call, write for prospectus.

161 SIMCOE STREET, PETERBOROUGH

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 10 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH.

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"Oh, mother! mother! mother!" exclaimed she who was no longer Lady Etheridge, as she dropped upon her knees by the bedside, and hurled her face in the coverlet.

"Laura, Laura, speak to me! comfort me! I am dying! Laura, Laura, you at least have no reason to complain; you have not suffered by the exchange! You have received the education of a gentlewoman, you should not blame me!"

"Mother, mother, I do not presume to do so; but, oh! do not defend your crime. Repent of it! repent of it! pray God for forgiveness!" sobbed Laura.

"Repent? I undo my doings. I can go no further," replied the woman, gloomily.

"Ah! my mother, to undo what you have done—to right this wrong, will be more difficult than you think; for though I shall immediately yield up my possession of the castle and estates that I have so long considered my own, yet, believe me, it will be difficult to convince the House of Peers, before whom this matter must come, that the nameless girl whom you deprived of the title has any right thereunto."

"Will it? The proof does not rest solely upon my word or dying oath. Let any one lead Rosamond Etheridge through a gallery of the portraits of her ancestors, and compare her face with theirs, and it will then be seen that Rosamond, in face and features, is a true Etheridge. Or, if more proof is needed, let any one strip up her sleeve, and look upon her right arm above the elbow, and they will see the family mark, the fiery cross, with which, while in Scotland, some ancient Baroness of Etheridge was so frightened as not only to leave its image on her immediate child, but to send it down to all her descendants. Have you, Laura, any such mark, or any such resemblance?"

"No, no; and I remember that the absence of the Etheridge mark, and of all likeness to the Etheridge family, used to be commented upon by the servants in my presence."

"Ah! nor is that all. There are other proofs. The links in the chain of evidence will all be found complete."

"It is better that it is so; since a question as to the true inheritrix must be raised. I am glad that the answer is susceptible of proof which will place the matter at rest forever. And now, my mother, you are not dying, nor even near death, as your fears would suggest. You must permit me to return to the castle, and make certain arrangements that must not be delayed. I will return to you immediately afterward," said Laura, rising, and arranging her disordered dress.

In their long interview, the night unheeded had passed away, and brought the morning.

When Laura opened the door, the first rays of the rising sun streamed into the room. The carriage still waited before the door, and the coachman was asleep on his box.

"Wilson," said the lady, "I am really sorry to have kept you sitting here all night, while I watched by a sick bed. You shall go to sleep when you get back to the castle; but now drive round to the residence of Colonel and Mr. Hastings, and request them to come to me at the castle upon important business that will not admit of delay. Then return hither to take me home."

The weary coachman obeyed, and gathering up his reins, drove off. The lady returned to the house, and sat down beside the bed of the now sleeping woman, to wait until the carriage came back.

Stunned by the shock of her sudden fall, distressed by doubts of the reality of her own position, and of the stability of her own reason, tempted to believe the events of the night only the phantasmagoria of a feverish dream, and feeling, through all this chaos of thought, the imminent necessity of immediate action, Laura waited until, almost at the same moment the carriage drove up to the door, Rose, with the neighbor at whose house she had spent the night, came in.

Making a sign to them that her patient was asleep, Laura Elmer arose to leave the house, but first she turned to gaze on Rose, the unconscious though rightful Baroness Etheridge. Since the preceding night, fearful change had passed over the face of the maiden. Her cheeks wore the pallid hue of death, her eyes were dim and sunken, her lips blue and tremulous, her voice, in bidding good morning to Lady Etheridge, was so low and faltering as to be almost inaudible.

"How this child loved her supposed mother," was the thought of Laura, as she kindly said, "Do not be uneasy, our patient is not in immediate danger."

"Thank you, I know that she is not, my lady," replied Rose, in a tearful voice.

"Then what other grief can a young girl like you possibly have?" inquired Laura, sympathetically.

"The heart knoweth its own bitterness, Lady Etheridge—a bitterness with which the stranger intermeddleth not," replied Rose, with a certain mournful dignity.

"Very true; I beg your pardon; yet permit me to be the good fairy who will foretell to you an end, before many days, of all your troubles," said Laura, gently, for not the slightest element of jealousy entered into her heart of the unconscious maiden who was soon to displace her from her high rank.

"I have no troubles, Lady Etheridge; those only have troubles who have hopes, prospects, and desires. I have none; nothing but the bitterness of an aerrid heart. Do not occupy your noble mind with my poor affairs, my lady. This is your wedding day; I have the honor to wish you much joy, madam!" said Rose, with a deep courtesy, as she turned away.

"Yes, she is an Etheridge—a true Etheridge, although she knows it not as yet. And I—who am I? This must be all a dream, or a delirium of some fierce brain fever! Oh, Heaven, that I could wake!—that I could burst these bonds of sleep or frenzy, and awake!" thought Laura, as she stood for a few moments like one in a trance. Then, recovering herself, she told the good neighbor to say to Mrs. Elmer, when she awoke, that she would soon return, and, taking leave, entered the carriage and drove to Swinburne Castle, no longer her home.

She was met in the hall by Mrs. Maberly, her woman, who was all in a flutter of anxiety.

"Ah, my lady! my lady! how very indiscreet! Just like your kind heart, to stay out all night nursing a whimsical old woman, instead of taking your rest, with such a day as this before you. And alack, how worn your ladyship does look. Will your ladyship lie down and sleep for an hour, and then take a warm bath and a cup of coffee before commencing your ladyship's bridal toilet? There will be plenty of time."

"No, Maberly, no, I thank you; I could not sleep. I will go to my dressing-room, and exchange this habit for a loose wrapper; and you may bring me a cup of tea."

"Yes, my lady. Will your ladyship look into the dining-room as your ladyship goes by? Mounseer, the French cook that Colonel Hastings brought down, has laid the breakfast most magnificent, my lady," said the maid, throwing open a pair of folding doors on her right, and revealing a fine dining-hall, with a long table and sideboards covered with snow-white damask, and sparkling, glowing, and blazing with gold plate and crystal glass, while all the pillars that supported the arched roof, and all the family portraits that graced the walls, were festooned with wreaths of flowers.

"It is very well," said Laura, languidly, as she passed on her way up the stairs.

She entered her dressing-room, when a beautiful vision met her view. Upon a centre table, covered with a white velvet embroidered cloth, were displayed the magnificent bridal presents offered by the friends of Lady Etheridge.

"Do but see, my lady, if your ladyship is equal to it, what splendid offerings! All these came last night, or this morning. I hope they are arranged to your ladyship's satisfaction. This really royal set of diamonds, my lady, came last night, with Mr. Hastings' compliments. This other set of orient pearls, my lady, were left with Colonel Hastings' respects. This dressing-case of ebony, with all its appointments of solid gold, was an offering from Lady Doruton. This superb workbox—"

(To be continued)

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Electric Locomotives Cheaper.

New York, August 1.—The first high speed passenger electric locomotive, No. 6000, built jointly by the General Electric Co. and the American Locomotive Works for the new York Central lines, has completed the 53-mile run on the test tracks outside of Schenectady. The locomotive has proven itself cheaper to maintain than a steam locomotive. Fourteen others are completed, and it is expected that the remaining twenty-one will be ready early in October.

Dowie Was Turned Down.

Zion City, Ill., August 1.—At a meeting in the Tabernacle here for the purpose of choosing candidate for general overseer of the church in September, in accordance with the recent order of Judge Landis, the name of William Glen Voliva was the only one present. A standing vote of those present at the meeting showed 1,416 in favor of Voliva's election. The name of John Alexander Dowie was not mentioned at the meeting.

Organ for Sale.

Fine new organ will be sold at a bargain. Very little used. Will be sold at a low figure for quick cash. Apply at this office or to P.O. drawer 1168.

Vanguard Mining & Extraction COMPANY

GUNNISON COUNTY, COLORADO

Have a property, fully paid for, with water power, timber, railroad facilities, cheap freight rates, cheap management, no debts, no fancy officers, with a better proven certainty of rich gold veins than anything in mining propositions now on the market.

Over 20 veins with ore valued $200 per ton.
Not a prospect but a proven success.
Going to ship ore in 90 days.

Have just uncovered a new 20 foot vein on Claim No. 10, with rich float containing free gold nuggets of good size.

For limited time only, for enlargement of plant and additional facilities, we are offering 100,000 shares of our stock at

GOLD SILVER AND GALENA

Right now is the time to place your money where it will earn you a competency.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15.0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 35 miles distant, 180 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

W. KELSEY HALL, FISCAL AGENT
PETERBOROUGH, ONTARIO

COBALT

THE WORLD'S RICHEST SILVER MINING CAMP

THE COLUMBUS COBALT SILVER COMPANY, Limited

Authorized Capital Stock, $1,000,000. Shares $1 each.

BOARD OF DIRECTORS

HON. RICHARD HARCOURT, President, Director of the Ontario Bank, and formerly Treasurer, of the Province of Ontario.

JOHN FLEET, Esq., Vice-President, Head of the firm of Fleet, Lowndes & Co., Director of Ontario Bank.

JAMES B. TUDHOPE, Esq., M. P. P., Head of the firm of Tudhope Carriage Co. Limited, Orillia, Ontario.

DANIEL SIMPSON, Esq., M. E., Managing Director, Cobalt, Ontario.

JOSEPH COLUMBUS, Esq., Explorer, Haileybury, Ontario.

SOLICITORS (Lark McPherson, Campbell and Jarvis.

This Company owns the famous Columbus Mines, being a quarter section in Coleman Township, near "Giroux Lake," nearby the rich Lawson, Haigraves, Jacobs, Drumond, and other great mines, also joining near the famous Gillies timber limit, which is so rich in silver that the Ontario Government decided to develop it for the benefit of the public. It has four veins so far discovered, one of them has been known as the "Great Columbus Vein" for months, which is nearly seven feet wide almost all ore; containing Cobalt Smaltite, and Galena, running well in silver. It is predicted by the best and oldest mining Engineers that this mine will soon become a very great producer. There is now a large force of miners sinking the big main double working shaft, working night and day.

It is a foregone conclusion that the price of this stock will greatly advance as the sinking progresses, therefore, the undersigned personally offers for sale at par only a limited number of shares.

Send for full particulars to

DANIEL SIMPSON,

Address for next 60 days, Queen's Hotel, Toronto

Permanent Address: P. O. Box 129, COBALT.

COPPER IS KING!

Do you know that the enormous demand for Copper, caused by the daily increasing output of electrical apparatus and machinery, is already beyond the supply. We have six claims in the Silver Mining District, twenty-three miles from Cheyenne, Wy., on the main line of the U. P. Ry., with good waggon road connection. The Copper on this property is at the grass roots, and is easy of extraction. We are until July 1st offering our

STOCK AT TEN CENTS PER SHARE

which will probably net you from 50% to 100% each year. Write for particulars.
